LUTHERANS PURCHASE CHRISTIAN CHURCH ON CHOICE LOCATION

Congregation's Rapid Growth Demands Greater Facilities; Negotiations Pave Way For Building of \$70,000 Edifice

Purchase of the Christian church property, Fourth avenue and Second street east, by the Twin Falls Lutheran congregation...

Great growth of the Lutheran congregation experienced since Rev. Martin J. Zaegel's installation as pastor in March 1928, was given as the reason for the move.

The church site obtained by the Lutherans is regarded as one of the choicest of its kind in the city and plans already are being considered for erection of a new building in place of the structure which has served as the Lutheran congregation's church home.

New Edifice To Rise Sale by the Christians of their property, situated on the corner of Sixth street and Shoshone north, was stated last evening by trustees of the Christian church.

Completion of negotiations in behalf of the Lutheran church and sale of the congregation's property on Third avenue west were planned as part of a special committee composed of H. P. Felton, Gerhard Knigge, Edwin Ehlers, Fred Wegner and Martin Melton.

Buildings on Third avenue west have served the Lutheran congregation since its incorporation here nearly 20 years ago.

During the score of years four pastors have occupied its pulpit. The first, Rev. R. Mueller, is no longer in the ministry; the second, Rev. B. Schlichting, is now pastor of one of the leading congregations in Pasadena, California, and the third, Rev. John Ohlberg, is in the church's service at Woodford, Washington.

Construction of the new home of the Christian church is expected to be started in the near future. The edifice now being settled and the Lutheran congregation plans to take possession of its new home about June 1.

Sale of the Lutheran parsonage is contemplated and possibility of building a new home for the pastor on the same lot occupied by the Christian church on Fourth avenue, facing Second street east, was announced.

parsonage if constructed on this site would be adjacent to the site on which the Twin Falls public library is some day expected to stand.

EASTERN PRaises TWIN FALLS REGION

James C. Farmer, National Grange Lecturer, Comments Favorably on South Idaho

James C. Farmer, Newburg, New York, in a lecture at the Twin Falls Grange, will be one of the speakers of other parts of the country.

Among the places visited were the Twin Falls warehouse district and the warehouse of the South Idaho Bean Growers' association.

Mr. Farmer remarked that he regretted the fact that he had not brought along a camera to carry away to any skeptical resident of the East his statements concerning southern Idaho.

He spoke with enthusiasm regarding the homes of Twin Falls and of Buhl and Kimberly, where he spoke Saturday afternoon and evening.

He made a brief talk over radio station KAT Sunday night, devoted mostly to an exposition of grange principles.

are unable to try all the cases prepared under the national prohibition law. Secretary of the Methodist Church, James Cannon, Jr., said that it would be unwise to place \$25,000,000 in the hands of any executive officer to enforce the prohibition law.

The secretary's letter was in a reply to a telegram from Bishop Cannon, Bishop Thomas, president of the Anti-Saloon League, and Eugene L. Crawford, secretary of the board of temperance and social service of the Methodist Episcopal Church South.

Secretary Mellon said in his opinion it would be unwise to place so much money in the hands of any executive official because the safeguards which should surround the expenditure of public money would not be observed.

He added that it would tend to break down the safeguards of the budget system and that it would violate a fundamental principle of government.

SUGAR TARIFF ISSUE GETS AIRING BEFORE HOUSE'S COMMITTEE

Major General Frank H. McIntyre, former chief of the bureau of island affairs of the war department, and now secretary of the United States government, contended the islands' imports had no effect on sugar grown elsewhere under the American tariff.

White Cuba was denied a direct subsidy under the tariff law, her case was indirectly presented by H. A. Lakin, New York, representing the American producers and exporters of sugar.

Twenty-five mills, he added, were now idle as a result of these conditions. He said the price New York formed the basis for the price all over the United States.

WASHINGTON, Jan. 21 (AP)—Senator Fred Smith, Utah, chairman of the committee on commerce, today in a telegram told to Governor George H. Dern, Utah, promised close attention to proposed increases in sugar tariff with a view to protecting the sugar beet industry.

DEATH STILLS HAND OF SALESMAN AS HE WRITES TO DAUGHTER

W. A. Cole, 70, Portland, Dies in Room in Hotel; Letter to Employers Indicates Disappointment With Reception

Death stills the hand of W. A. Cole, apparently about 70 years old, Portland, Oregon, salesman for an eastern calendar concern, while he was typing a note in a tourist hotel room here Sunday night to his daughter, Miss Phyllis Cole, 380 Tenth street, Portland.

Chemist's examination disclosed no trace of poison and the coroner's investigation indicated death from heart disease or other natural cause. Son Will Arrive.

Portland, Jan. 21 (AP)—Modern Woodmen of America, of which Cole was a member, advised the clerk of the Twin Falls camp to make proof of Cole's death.

He came here January 19 from Boise where he had worked during Christmas holidays.

The letter to the daughter said: "I am making the extreme effort of my life for them and out-selves. I want to make good on my little affairs and debts. Would rather be liked than to have failed in the effort for success. Do not worry about me. I'll make good yet some place yet, you'll see. People are just off on calendars in every place they all dislike you when you say calendars. Yes I have a fine line and had expected so much out here where it's cold and frosty. It's just fierce out here when."

The validity of a presidential pocket veto is the subject of a decision of the Supreme Court, except the concluding section of a congress is to be decided by the supreme court. Since adoption of the constitution this has been a disputed point and the court announced that it would pass upon the question in a case affecting a group of Indian tribes in the state of Washington. The decision is expected to be a controlling factor in the controversy over the Norris-McWhorter reclamation law which was enacted last session but which was never signed by President Coolidge. The question of resignation is coming a law without the signature of the president, the constitution says. The bill must be returned to the president within 10 days (Sundays excepted) after it shall have been presented to him. The same shall be done in the manner as if he had signed it, unless the congress, by their adjournment, prevent its return, in which case it shall not be a law. BEAUTY AND UTILITY ARE COMBINED IN THE NEW FORD

WHEN you see the new Ford, you are impressed instantly by its trim, graceful lines and air of sturdy strength. Its very appearance is a reflection of the alert, capable performance of the car. Without being extreme, it has struck a new note in automobile designing.

A particularly interesting feature of the new Ford is the way beauty has been combined with utility. This is found in the length, width and height of the body, the size and shape of the radiator, the position of the gasoline tank in the cowl, the outward flow of the body, the design of the welded steel spoke wheels, the shape and position of the full nickeled headlamps, the sweep and curve of the heavy full crown fenders.

*Everything has been planned
for service*

When a thing perfectly fits its uses, it is pleasing to the eye. Every part of the new Ford has been designed and built not only to be attractive, but with a very definite thought of the work it has to do.

Even in the very little things you can see evidence of quality of material, careful workmanship and quiet good taste. The upholstery is of woolen material, rich and luxurious, yet long-wearing.

The new Fordor Sedan is impressively smart yet sturdy and substantial. An unusually comfortable car because of its wide, deeply cushioned seats, generous room between front and rear seats, transverse springs and Houdaille hydraulic shock absorbers. Finished in a choice of beautiful two-tone color harmonies.

fuel systems—in the extensive use of ball and roller bearings—in the simple operation of the fully enclosed six-brake system—in the close limits of accuracy maintained in the manufacture of important parts—in the way the engine develops its speed, acceleration and power without sacrificing reliability or economy.

To the man who drives his automobile many thousands of miles every year and who looks to it for continuous service at low cost, this mechanical beauty is of more importance even than beauty of line and finish.

For it is a reflection of simplicity of design, quality of materials and careful workmanship, which are the three fundamental factors in motor car performance.

There is indeed no greater tribute to the value of the new Ford than the simple, homely phrase which you hear so often from Ford owners, experienced garage mechanics and all who know and understand the workings of an automobile—"It is a sweet mechanical job."

*Attractive colors add to beauty
of the new Ford*

Every one of the new Ford body types is available in a choice of several beautiful two-tone color harmonies with attractive striping. This is an unusual feature in a low-price car.

The finish is pyroxylin lacquer, selected for its enduring qualities. It is not affected

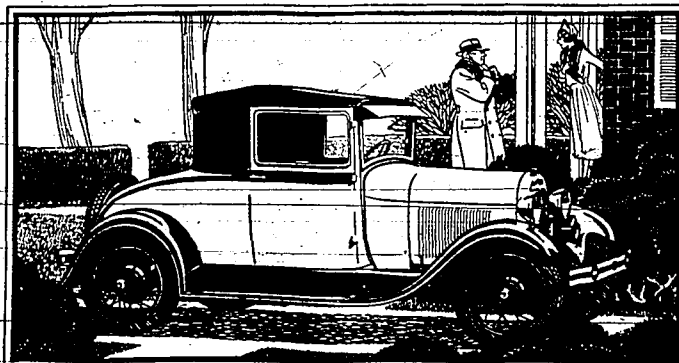

by heat or cold, is not easily marred or scratched, and polishes to a beautiful luster. Once a month at least your car should be washed and polished.

The beauty of the Ford is not of the outside only, but extends deep down into every part—even to those hidden parts which you may never see. In the eyes of the engineer and technical man, the mechanical beauty of the new Ford is one of its greatest features.

*The practical beauty of a
fine machine*

There is beauty, for instance, in the fine steel forgings which are used everywhere in the chassis of the new Ford where there is a possibility of wear—in the manner in which electric welding has been developed to give increased strength without increased weight—in the simplicity of the cooling, lubrication, ignition, and

The new Ford Business Coupe has been especially designed for professional men, executives, salesmen for all-around use in an automobile constantly for business use. Handy package space behind seat and unusually large rear deck are welcome features.

Interest in Sharkey-Stribling Fight Demands Bigger Arena

DEMPESEY PROCURES FLAMINGO PARK TO SEAT 80,000 FANS

Former Heavyweight King Now Engaged in Promoting Rickard's Last Scheduled Battle-Meeting-With-Success

(By The Associated Press) NEW YORK, Jan. 21.—In the first battle of the kind between Jack Sharkey and Young Stribling at Miami Beach, February 27 has assumed such proportions that a new and more commodious site forced securing of Flamingo park, Jack Dempsey today wired—officials of the Madison Square Garden have actively engaged in the promotion of the last fight spectacle. The park would hold an arena seating between 40,000 and 60,000. Dempsey signed contracts with the Commercial Bank today for use of the site rent free. Rickard's Miami Beach kennel club, where the fight was to have been staged as first plan, would seat less than 30,000, Dempsey said. Flamingo park, in the center of the city, covers 90 acres and is bounded by the city limits. Dempsey wired that the most commodious seats will be closer to the ring than the bulk of the ringside seats in the (Tunney-Dempsey) fight in Chicago.

EVERY woman who fears overweight finds great interest in new, easy and common-sense ways to keep a slender, fashionable figure. Overweight must be avoided. "Better to light a Lucky whenever you crave fattening sweets."

Toasting does it. Toasting develops and improves the flavor of the woman's finer tobacco. Lucky Strike satisfies the longing for things that make you fat, without interfering with a normal appetite for healthful foods. That's why Luckies are good to smoke. Toasting makes Lucky Strike the healthy cigarette for you to smoke.

Many men who carefully watch their health discovered this years ago. They know that Luckies steady their nerves and do not slow up their physical vigor—prominent athletes have gone on record that this is so. They know that 20,679 physicians have stated that Luckies are less irritating to the throat than other cigarettes.

A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. For moderation's sake we say—

CITY'S WATERWORKS SYSTEM VICTIM OF LONG COLD SEASON

Councilmen Request Citizens to Adopt Precaution Against Freezing Pipes; Blowtorch Results in Visit by Firemen

Twin Falls waterworks system began to crack yesterday under stress of cold weather of the last 60 days, marking a cold period of longer duration than any other in Twin Falls for some 15 years, members of the city council were told at a regular meeting last evening.

Councilmen, after detailed discussion of the problem, adopted the suggestion advanced by Hatley Keyburn, waterworks superintendent, and issued a call to waterworks to help to keep water circulating in the waterworks system by maintaining a small constant flow from some faucet on their premises while the cold snap continues.

Involves No Expense

This measure, councilmen pointed out, would involve no extra expense to waterworks, since meters are not read during three months period of the winter season, and the minimum winter consumption of "zero gallons" per month probably would be ample to include the extra flow.

Danger of Freezing Water Pipes

Danger of freezing water pipes is not confined to pipes indoors, but also extends to underground pipes. Frost is reported to have been encountered 14 to 18 inches deep in the soil.

Employees of the Municipal Waterworks Department with their electric pipe thawing apparatus, received nearly 60 calls yesterday to restore circulation in frozen waterpipes. In a number of instances the trouble was discovered at the meter box, and in at least one instance, workmen were called back within an hour to repeat the performance after thawing out a frozen meter box.

Blowtorch Causes Fire

One fire resulted yesterday from use of a blowtorch to thaw out a frozen water pipe. The incipient blaze, that was quenched with a well-directed bucket of water, was discovered under the floor in the bathroom at the residence of Mrs. Joseph Wynn, 145 Tenth avenue east, shortly after work-

"It was Aunt Ella's fault about me," she later told me, "she was talking about how clean I was at Maama-looked-at-my-sars."

men who had used the blowtorch had left the scene.

Closing the incident of the last \$10,000 waterworks bonds, discovery of which was reported to the council last week, the council last evening authorized use of \$10,000 of surplus monies in the warrant redemption fund to purchase \$10,000 waterworks refunding bonds of 1929 series at a return of 4 1/2 per cent.

Report of the city treasurer for December showed collection of street sprinkling and local improvement district taxes in the sum of \$28,089 out of a total \$48,443 assessment roll, leaving \$20,354 yet to be collected.

1929 Collections Goals

In comparison with this record, figures for the corresponding month of 1927 were given showing collections during that month in the sum of \$30,125 out of a total \$62,149 assessment roll, leaving \$32,024 yet to be collected at the close of the month.

The council declined to grant a request of H. C. Schurger for removal of 18 out of 24 lots in Schurger's subdivision from the assessment roll for a local improvement district created in 1922 for graveling of Jefferson street. The lots in question are situated between Jefferson and Washington streets. Council, on advice of the city attorney, took the position that so long time had elapsed since formation of the district that no effective purpose could be served by granting the request.

In the absence of Mayor R. E. Bonner, who left Sunday on a visit to the southern California, L. A. Chapin, president of the council, presided over Tenth avenue east, shortly after work-

VETERANS OPPOSING PROPOSED TAX BILL

Ex-Soldiers of Spanish American War Against Repeal of Measure On Exemption

Resolution opposing the bill now pending in the state legislature providing for repeal of tax exemptions on property belonging to ex-soldiers who were in the army of the United States during the Civil and Spanish American wars was passed last night at a special meeting of the General Assembly of the Spanish American War Veterans, held in the office of the American reservoir district.

The resolution, drafted by L. F. Whitler, commander, and E. A. Lamont, adjutant, was ordered sent to Governor H. C. Baldrige; Senator F. C. Graves, Twin Falls county; Senator Gilbert H. White, Jerome county; Representatives P. T. Parish, E. N. Pettigrove and E. E. Hodgin, Twin Falls county, and Representative E. C. Montgomery, Jerome county. General Lawton camp has members in both Twin Falls and Jerome counties.

The text of the resolution follows: General Lawton camp, War Department of Idaho, Spanish War Veterans, in special meeting resolved they protest to State representatives the repeal of laws giving exemptions on taxation of property of ex-soldiers. We request that our state representatives use their influence in the continuing of these exemption laws.

CASTLEFORD SHEEPMAN SEEKS NATURALIZATION

Jose Domingo Archabal, Castleford sheepman, and resident of this county for 25 years, has filed in district court here his petition for naturalization as a citizen of the United States. A native of Ecuador, he came to the United States in June, 1903. He filed declaration of intention to apply for naturalization in the district court here in March, 1928. W. C. Brown and S. A. Gillette, both of Castleford, are named as witnesses.

CANAL COMPANY BOARD NAMES CHIEF EMPLOYEES

Twin Falls Canal company board of directors appointed the principal employees, except general manager, at a meeting held in the office here yesterday. Those chosen were Judge James P. Doherty, attorney; C. H. Brown, assistant secretary-treasurer; Emma E. Wick, bookkeeper; Dr. A. A. Newberry, physician; J. H. Standlee, superintendent of drainage; I. C. Gooding, superintendent of repairs and replacements; L. H. Perrine, chief engineer.

The board voted to increase the size of the drainage tunnels for which contracts have been recently let from 5 feet to 4 by 8 feet in dimensions. Options to permit such increase with full conditions were contained in the contracts so that it will not be necessary to alter them.

BURLEY MERCHANTS WILL ISSUE CALENDAR JOINTLY

BURLEY, Jan. 21 (Special to The News)—At a meeting of the Merchants' association held Friday night, it was decided to issue a community calendar for the winter months at 9 P. M. The idea of issuing a community calendar was favorably considered, and George Scholer, C. T. Burroughs and Ben Sprague were appointed on the committee to arrange for a suitable and attractive calendar to be jointly issued by Burley business houses.

William Simpson, Boise, spoke about the advantage of the quarterly "trades day" put on by the merchants of the city. It was decided to hold a "potato day" next fall, the first one having been pronounced successful, and features were proposed that are expected to improve it in scope.

The meeting was presided over by Earl Crapp. In the absence of President William Hooper, absentees were present.

BURLEY STUDENTS STAGE FOLK LEGEND OPERETTA

BURLEY, Jan. 21 (Special to The News)—"Hansel and Gretel," a musical story based on the well known folk tale, was staged by pupils of the junior high school in the auditorium Friday.

The production was said to be more pretentious than operettas heretofore presented by the junior high school and the cast were thoroughly drilled in the English and musical score.

Phyllis Boynton took the part of Gretel and Thad Burkeley played the role of Hansel. Miss Lenore Lewis had charge of the orchestra and Miss Florence Leonard directed the singing. Costumes and scenery were more elaborate than in the operettas thus far presented.

DUCE KEEPS HOME FIRES FOR ITALIANS OVERSEAS

NICE, France, Jan. 21 (AP)—Mussolini has made another move to keep the Italian blood in the French border district faithful to Italy by providing young Italian boys in France with a free yearly trip to their family's native home.

Of the 100,000 Italians in the French Alps-Madailles district it is estimated that there are 18,000 under 18 years of age. A great majority were born in France.

These children now need only apply at an Italian consulate and a free round-trip to Italy is arranged for them. In many cases they are supplied with new clothes and provisions for the voyage.

Uneasiness About Likelihood of Crop Damage Resulting From Cold Inaugures Prices

CHICAGO, Jan. 21 (AP)—Uneasiness about likelihood of crop damage resulting from widespread severe cold predicted for domestic winter wheat territory has been a factor to enhance wheat value today. A good deal of notice was also taken of the fact that a big increase of 2,000 bushels today in the United States wheat visible supply to 1.1 billion bushels was noted in excess of the falling-off in wheat exports. Close quotations on wheat were firm at the day's topmost figures, to 1.10 to 1.12 over Saturday's figures. Corn, wheat and flour were unchanged, and provisions varying from a shade decline to a rise of 7c.

Liverpool Shows Strength
Interests concerning the outlook for the 1929 winter crop in wheat has decidedly more evident today than has been the rule in this market. On reason given, aside from the forecasts of a cold wave which threatens to catch many fields unprotected, was that the Liverpool wheat market is showing an upward movement, coupled with authoritative assertions that because of the weather conditions, the probability of appearance of bread grain the world over has taken place this season.

How Best to Use Vicks VapoRub

After the Flu Late Winter Colds are Doubly Dangerous This Year; Don't Let Flu-Cold Start.

AVOID PNEUMONIA OR A SECOND ATTACK OF FLU
If you catch a fresh cold, don't keep it overnight. If possible, go home and go to bed. Take a laxative and a hot lemonade, apply hot wet towels over throat and chest until the skin is thoroughly reddened. Then rub Vicks VapoRub with Vicks Spread on a thick and cover with warm flannel.

WEIGH WHAT YOU DESIRE
If you over-weigh, the cause may not lie in over-eating or under-exercising. It may lie in a fault in nutrition which modern research has discovered.

Coughs Stopped Almost Instantly
Doctors Prescription Relieves Without Harmful Drugs
Almost instant relief for coughs is now guaranteed in the use of a famous physician's prescription called Thoxine which contains no chloroform or opium.

NO MORE PAINS OR ACHES
From Neuritis, Nouralgia, Sciatica or Rheumatism.
Notice is hereby given that I, Herbert W. Bradley, to the Idaho State Penitentiary from Twin Falls County, or on or about January 21st, 1928 for the crime of polygamy, will make application for pardon at the next regular meeting of the Board of Pardon.
