AGRICULTURE URGES SWEEPING REVISION OF TARIFF SCHEDULE

Representatives of American Farm Bureau Federation and National Grange appear before committee in house

The Day in Washington

(By The Associated Press) PRESIDENT COOLIDGE addresses semi-annual business meeting of government. HOUSE decides to take up \$24,000,000 prohibition enforcement increase tomorrow.

WASHINGTON, Jan. 28

Organized agriculture threw its weight behind the movement for sweeping increase in tariff rates on all classes of farm products. Appearing before the house ways and means committee to increase agricultural duties.

SENATE informed President-Elect Hoover supports president's stand on cruiser bill

SENATE informed President-Elect Hoover supports president's stand on cruiser bill. HOUSE irrigation committee asked to approve a \$180,000,000 loan fund for levee districts. HOUSE passes senate bill to increase by \$500,000 annually for five years the vocational education appropriation.

Prices to be Reasonable

Prices to be Reasonable. The bill is to be protected from the competitor abroad who has the lowest cost. Gray agreed there will be enough efficiency and economy in the new tariff to increase the price over the retail cost but will protect the American farmer from a foreign low cost producer competitor.

Coolidge May Become University President

LANSING, Mich., Jan. 28 (AP)—A rumor that President Coolidge might be named the presidency of the University of Michigan, when the resignation of Dr. Clarence Cook Little becomes effective next September, has been circulating among state officials here tonight. It lacked confirmation, however, and members of the university board of trustees and President Fred W. Green refused to comment.

30 PERSONS HURT WHEN BIG BUS QUITS HIGHWAY

GALLUP, N. M., Jan. 28 (AP)—George E. Walmer, 28, Cedar Rapids, Iowa, suffered a broken back and may die, nine persons are in a hospital here recovering from injuries. 20 others were hurt when a westbound Yellowcab bus skidded off the highway north of Gallup, N. M., today. Passengers were brought to Gallup to have minor injuries dressed.

AMERICANS SAFE IN ZONE OF CHINESE ARMY MUTINY

CHEFOO, SHANTUNG, China, Jan. 28 (AP)—Disturbances are reported from the region west of Chefoo where Chinese mutinied last Friday and Saturday and attacked towns along the countryside.

Reports assembled here by Leroy Walker, chief of the American consulate in the region are safe. American missions and other American properties were not molested. The reports received here stated that the mutineers killed the mayor of Hangchow and two other officials, plundered many houses and shops and then fled southward.

BANK BANDITS FAIL TO ESCAPE WITH \$19,000

PLATT, MISSOURI, Jan. 28 (AP)—R. F. Kirtlow, 31, Platt, today brought to the capture of two bandits who robbed the State bank at Mount Pleasant, Mo., today. Kirtlow saw the robbers leave the bank with bundles of currency in their arms and drive away in a coupe. He followed the coupe and saw the robbers away forced the robbers' car into the ditch. In the crash one of the robbers was killed. The second coupe appeared but was trailed across a field and found under a lumber pile a short time later. All the money was recovered.

GOTHAM WELCOMES OCEAN EPIC HEROES

Captain Fried Gets \$5000 Reward; Chief Officer \$2500; Nine Members of Crew \$250

WASHINGTON, Jan. 28

Eleven men who "only followed the call of duty" and so wrote the most thrilling chapters in the whole history of sea rescue, were hailed as heroes in their home-port today. Brought on the city by Meegan Hobson, where their ship was docked after accomplishing the rescue of 32 men from the sinking Italian steamer, Florida, in Latin gale, Captain George Fried of the United States liner America, Chief Officer Henry Manning and the eight men who helped him effect the rescue of 30-foot lifeboat, and chief radio operator Nelson Smith were escorted to the city today.

Expenses Thank

I just want to say, Captain Fried told Mayor James J. Walker, that I all thank you and to further state that in making my duty on the high seas, I was aided by the city of New York in several ways. I expected of us to do these things and to try to do them before we were in Captain Giuseppe Savolero of the foundered Florida, became so excited as to leave the ship before we were suddenly rushed across the aiderman chamber and threw his arms around Captain Fried and me about Manning, kissing them soundly on the cheeks. After the scrolls and medals had been presented and the speeches made, the public subscription, raised by Paul Block, newspaper publisher, was divided by the American consul, Remy Green refused to comment.

The money awards came as a

complement to the men from all America. There were \$5000 for Captain Fried, \$2500 for Manning and \$500 each for the crew of the lifeboat and the wireless operator.

DEFENSE CLOSES IN TRIAL OF ASA KEYS

Brother of Co-defendant Testifies; Denies Knowledge of Plot to "Fix" Fraud Case

LOS ANGELES, Jan. 28

Jack Rosenberg, taking the witness stand here today in defense of his brother, E. H. Rosenberg, who is accused with Ben Gotsoff of bribery, denied all knowledge of a plot to "fix" the trial of the American man that Jack Rosenberg, formerly a co-defendant, was the first witness in defense of his brother, Keys having closed his defense shortly before noon. Rosenberg was called after Raymond Benjamin, San Francisco attorney, had testified. Benjamin said that Rosenberg's attorney, with Keys during the grand jury probe of the Julian collapse, he said that Keys had promised to "consider" an offer to allow Rosenberg to appear as state's witness. Rosenberg, questioned Jack Rosenberg, "Did you at any time have a conversation with Ben Gotsoff, as described by state witnesses, in which you said 'If Keys doesn't witness my case, I'll double cross him'?" "I never had a case and I did not say that," Rosenberg answered. "Did you at any time have a conversation with Gotsoff about securing the dismissal of the Julian case against your brother?" "I never did."

SENATOR OF BLAINE COUNTY STRIKES AT IRRIGATION MEASURE

Bill to Abolish Exemptions On Pumping Equipment Finds Opposition in Solon Rockwell During Day in Legislature

(By The Associated Press) BOISE, Jan. 28—Senator Jack Rogers, who introduced a bill to abolish exemptions on irrigation pumping equipment representing counties which would profit greatly by passage of the bill, was hurled by Senator Rockwell, Blaine county today. The bill was framed by Senators Rogers, Gooding county, and Whitten, Boise county, and aimed to repeal the statute passed in 1921 to give relief to settlers on pumping projects. Senator Rockwell made a heated attack against Gooding county as one drawing tribute to its unfair benefits from both. The bill would allow \$7,000,000 worth of irrigation construction, including what would be exempt from taxation, when farmers down in Twin Falls county derive a benefit from the exemption from taxation of power plants in Gooding county, then Gooding county protests because she is being deprived of revenue.

Charge Reciprocity

Senator Barre, replied that the bill was a reciprocal affair, that if the power sites were not available in Gooding county then the irrigation projects in Twin Falls county would not exist. A hundred legislators and delegates from irrigation projects attended the session. (Continued on Page 4, Column 5)

Former Political Foes With Meet First Time in Eight Years at Pre-Inaugural Home

MIAMI BEACH, Fla., Jan. 28 (AP)—Former Governor Alfred E. Smith, New York, will call at 11 A. M. tomorrow on President-Elect Hoover at the pre-inaugural home on Belle Isle. The engagement was made tonight on behalf of the governor by John J. Raskob, chairman of the Democratic national committee. Declaration of the Democratic standard bearer in 1928 to call on his victorious opponent was made tonight, some hours after Mr. Hoover had issued a public statement in which he said he would be glad if the former governor could find time to call, and that he would be "most happy to see him." Mr. Hoover will go to his executive offices in the early forenoon to confer with other callers, but he probably will receive the Democratic leader at the Penney home on the opposite side of Belle Isle. It was stated that no pictures would be made of the meeting, which will be the first between the two men since they spoke from the same platform in Carnegie hall, New York City, nearly eight years ago.

FAMOUS SENATOR'S BODY TO REPOSE IN ALABAMA

BIRMINGHAM, Ala., Jan. 28 (AP)—The body of Oscar W. Underwood, former United States senator from Alabama, and statesman of international repute, was buried here today, with a quiet dignity that seemed a fitting climax to his long career. Underwood died Friday at his Woodland, Virginia, estate. At the independent Presbyterian funeral home here, taken to a hospital in Birmingham, he died at 11 A. M., the great, near-great and just plain people of his adopted state filed by the flower-banked bier by the hundreds to pay final tribute to the late Democratic leader.

THREE PERSONS DIE IN CONNECTICUT DISASTER

NEW LONDON, Conn., Jan. 28 (AP)—Three persons were burned to death tonight in a fire which broke out in a three-story tenement house. The fire broke out in a room which was being used as a garage. The fire spread rapidly and the three persons, Irene S. Angeline, and Laura A. Arthur, Mrs. Angeline's husband and father, was absent.

Dog Saves Master's Life and Perishes In Blazing Building

LEAVENWORTH, Kans., Jan. 28 (AP)—A mongrel dog, after saving its master, Dalton Huiget, truck driver, from death in a burning house, perished in the flames here yesterday. Huiget was awakened by the dog, which jumped on the bed and barked at the covers, and found the house in flames. He ran from the house behind the dog, but the dog turned and dashed back into the burning structure.

Budget System Justified by Result of Eight Years' Operation

WASHINGTON, Jan. 28—Addressing the business organization of the government for the last time, President Coolidge tonight issued a warning that rigid economy in federal expenditures must be continued and the rapidly mounting cost of state and local governments must be sharply curtailed if national prosperity is to be maintained. At the same time, the chief executive declared that the budget system, into which he has turned the country's financial affairs, is fully justified by the results of its eight years of operation. He said tribute to Brigadier General Herbert M. Lord, director of the budget bureau, and the "great rank and file of the government personnel" for the cooperation which he said had made the system a success.

EX-GOVERNOR SMITH TO CALL ON HOOVER

MIAMI BEACH, Fla., Jan. 28

Former Governor Alfred E. Smith, New York, will call at 11 A. M. tomorrow on President-Elect Hoover at the pre-inaugural home on Belle Isle. The engagement was made tonight on behalf of the governor by John J. Raskob, chairman of the Democratic national committee. Declaration of the Democratic standard bearer in 1928 to call on his victorious opponent was made tonight, some hours after Mr. Hoover had issued a public statement in which he said he would be glad if the former governor could find time to call, and that he would be "most happy to see him." FIRE IN MASSACHUSETTS SNUFFS OUT FOUR LIVES

PATUXET, Mass., Jan. 28 (AP)—Mrs. Mary Mays, aged 30, was fatally burned and three of her five children died of suffocation when they destroyed their home in a three-family tenement house here today. All had been trapped on the third floor with the only exit blocked by flames. The dead children were: Irene S. Angeline, and Laura A. Arthur, Mrs. Angeline's husband and father, was absent.

SNOWBALL CONTINUES

SEATTLE, Jan. 28 (AP)—The Pacific Northwest today was under a heavy snowfall with no immediate prospect of a break either in the snowfall or the record low temperatures that have accompanied the precipitation. The snow will continue to be cold. Early tonight snow was falling at Portland, Walla Walla, Yakima and Olympia, adding to the several inches already on the ground. Seattle was experiencing the coldest weather of the winter. Other cities in the state were also having zero weather after a cold day.

COAST GUARDS RACE THROUGH HEAVY SEAS

Fate of Vessels in Clutches of Gale-Swept Atlantic Uncertain; One Ship Cheats Death

BOSTON, Jan. 28 (AP)—The fate of several vessels lay in the wintry clutches of the gale-swept Atlantic tonight as speeding coast guard cutters raced to the assistance of one ship after another. One also said to be the one which left Twin Falls Saturday afternoon, is reported to be stuck on the Salmon river today. The Gooding and Shoshone stage lines made their trips yesterday though general traffic to both places was largely curtailed.

An improbable combination of a warm day with a strong chinook and white snow put the canal to a severe test. Moderate melting of the snow will not damage the system.

Westbound trains were nearly regular Sunday and slightly late yesterday. Superintendent E. C. Johnson of the Pacific division, was in Twin Falls yesterday directing the work of keeping the trains moving. A special train that started over the Wells branch Sunday returned after going as far as San Jacinto, owing to the slipping of a tire on an engine tyrod.

The regular train with two engines started south on time yesterday, a modern rotary plow had replaced the more obsolete form that had been used previously since the storm began. So far as known last night it had reached its destination. The new rotary which was used yesterday had been used to open up bad drifts on the line from Burley to Oakley.

Telephone service has continued good throughout the storm, with few delays and comparatively few lines out of order.

Precipitation Sunday measured .07 inch and Monday .13 inch. Maximum temperatures for the two days were Monday 28, Sunday 37. Minimums for the same periods were Monday 13, Sunday 22.

PRISON COOLIDGE WARNS RIGID ECONOMY MUST BE CONTINUED

(Continued From Page One)

ing a threatened deficit for the present fiscal year, he recommended that vacancies be allowed to remain unfilled until after June 30, bringing about a saving which he estimated at "the far from negligible sum of \$12,500,000."

Enumerates Accomplishments

After enumerating the accomplishments of the last eight years, Mr. Coolidge declared that much remained to be done in spite of determined efforts for economy, savings in interest due to reduction of the national debt and four reductions in taxes, he estimated would have doubled the annual national outlay, while measures are approved by the committee, which would, if passed, cost the government more than a billion dollars, but for a policy of rigid economy, he said many of these would have become law.

"It would be a great mistake to suppose that we can continue our national prosperity," the president continued, "with the attendant business which it confers upon the people, unless we continue to insist upon constructive economy in government. The margin between prosperity and depression is always very small. A decrease of less than 10 per cent in the income of the nation would produce a deficit in our present budget."

The cost of state and local governments are rapidly mounting. From \$1,000,000,000 in 1921, the national industrial conference board

estimates that they reached \$1,531,000,000 in 1927. This is a wash—a heavy drain on the earnings of the people that it is the greatest menace to the continuity of prosperity. It is a red flag warning us of the danger of depression and a repetition of the disaster which overtook the country in the closing days of 1929. It is a warning that should be heeded by every one engaged with the expenditure of the appropriation of public funds. It is the reason that further commitments by the national government for any new projects not absolutely necessary should be faithfully resisted."

Mr. Coolidge outlined the conditions he said had been prevalent when the budget system was instituted, enumerating depression in business, declining wages, unemployment, lack of markets, and the low price of securities, including government bonds.

"Confidence in our entire economic structure had been shaken," he said. "Progress had stopped."

"The country," Mr. Coolidge continued, had been living beyond its means, spending much more than it was carrying, using up its capital, and the savings of previous years were being exhausted, principally through government extravagance. As a means of bettering conditions, and curtailing national expenditures, he said, the budget system was adopted.

"Seemingly without effort," he went on, "but actually by hard and effective work the change was wrought, each of the succeeding years brought an ever increasing improvement in the business of the government. Expenditures diminished until 1927 when exclusive of the amount applied to debt reduction, they reached a point below the three billion mark. This was two billions below 1921. Billions were cut from the public debt with a large saving of interest. The first tax reduction came in November, 1921, and was followed by three succeeding reductions. Funds were saved to meet the cost of our much-needed public improvements, which had been in abeyance during the war period. Short-time notes and long-time bonds were paid off and refunded at lower rates."

While not claiming "that action by the national government deserves all the credit for the rapid restoration of the country's business from the great depression of 1921 or for the steady progress that has since taken place," the president declared that "unquestionably, however, was governmental policies, and particularly wise economy in government expenditures, with a

steady reduction of the national debt, have had a dominant influence."

Director Lord, too, praised governmental economy generally for their cooperation in making a success of the budget system. A large part of his address was devoted to an account of the battle against a threatened deficit in the current fiscal year.

"Every year since the installation of the budget system," he said, "has been a fighting year, but this year we are making the supreme fight of our history."

Expressing an expectation for increased expenditures in future years, he declared that "with the growth of the country new important projects will present themselves calling for more money from the treasury, and no matter how great the revenues, unless they are carefully controlled and wisely directed into channels of useful and necessary purposes, burdensome additional taxes, or inability to carry on necessary constructive work will result."

# FEATURES OF THE NEW FORD

## SERVICE

*"IT HAS always been our belief that a sale does not complete the transaction between us and the buyer, but establishes a new obligation on us to see that his car gives him service. We are as much interested in his economical operation of the car as he is in our economical manufacture of it.*

*"For that reason we have installed a system of controlled service to take care of all Ford car needs in an economical and improved manner. We wish all users of Ford cars to know what they are entitled to in this respect, so that they may readily avail themselves of this service."*

*Henry Ford*

## Safety

ONE of the outstanding features of the new Ford is its mechanical, internal-expanding six-brake system.

This is unusually reliable and effective in action because the braking surfaces of all six brakes are fully enclosed. There is no possibility of mud, water, sand, road dirt or grease entering the brake mechanism or getting between the bands and drum and impairing brake performance.

The use of steel forgings wherever there is a possibility of wear in the chassis of the car, the sturdy steel body construction, balance, ease of operation and control and a Triplex shatter-proof glass windshield are other important safety features.

## Comfort

You have a feeling of mental comfort in driving the new Ford because you are sure of its mechanical reliability. No matter how long the trip or rough or devious the roadway, you know it will bring you safely, quickly to the journey's end.

Physically, too, you will feel fresh and relaxed in the new Ford because it is such

a roomy, comfortable car. Seats are wide and deeply cushioned, with backs designed to conform to the curves of the body.

Even on comparatively rough stretches, there are no hard bumps or jolts, nor exaggerated bouncing up and down. The four Houdaille hydraulic shock absorbers and transverse springs take up or absorb the force of every unevenness in the road

before it reaches the body, frame, and chassis of the car.

## Reliability

The new Ford is reliable in performance because of its carefully planned simplicity of design and the enduring quality that has been built into every part.

Throughout, it has been made to give you many thousands of miles of pleasant, enjoyable motoring at a minimum of trouble and expense. From every part of the world come letters from Ford owners commenting on this reliability, and giving specific data on unusual performance.

Thousands of the new Fords have been driven more than 50,000 miles in the past year. Some, used night and day, have passed the 100,000-mile mark. There is no telling how far they will go. The average life of the Model T was seven years. We believe this new car will do better than that.

## Economy

The new Ford is an economical car to own and drive because of the low cost of operation and up-keep. It averages more than 20 miles per gallon of gasoline and the cost of tires and oil is also low.

Low first cost, the security of a fair trade-in value, the availability of Ford dealers, and close supervision of service are additional reasons for the economy of the new Ford.

The cost of new parts is also

low because of the established Ford policy of doing business at a small margin of profit.

## Beauty

The new Ford is distinguished by its quiet simplicity of line and air of sturdy strength. Without being extreme, it has struck a new note in motor car designing. A particularly pleasing feature is a choice of beautiful colors in all body types without additional cost.

The upholstery is of woolen material, rich and luxurious, yet long-wearing. Fenders are heavy and gracefully contoured. Instrument panel—door handles—window lifts—interior trimming and finish—all reveal a quality of material and a careful workmanship unusual in a low-price car.

## Ease of Control

Another outstanding feature of the new Ford is its ease of operation and control.

The steering wheel answers to the touch of a finger. Gears shift silently, smoothly. Brakes take hold quickly, firmly even on rain-swept pavements. Quick acceleration and alert speed are especially appreciated in traffic and emergencies. A space little longer than the car itself is all you need for parking.

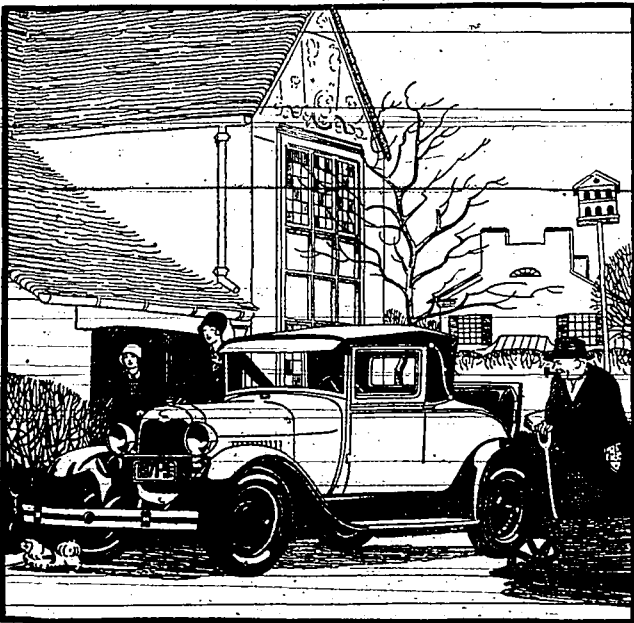

All of these things simplify the mechanics of motoring and add a great deal to the joy and comfort of motoring. Particularly to a woman, they mean driving without strain or fatigue.

## Smooth Speed

Everywhere you go, you note the alert, capable performance of the new Ford. You can judge its acceleration by the way it gets away in traffic. A smooth stretch on the open road gives a revealing measure of its speed. The way it climbs the hills in high is an indication of its abundant power.

The new Ford will do 55 to 65 miles an hour, which is probably faster than you will ever need to go. Far more important is the way it rolls along at 35 and 40 and

45. This is your average driving speed and you can maintain it smoothly, easily, comfortably for hours in the new Ford.

## BUSINESS MATTERS DELAY-DEMPEY'S TRAINING PROGRAM

Discussion of Reservations at Sharkey-Stribling Encounter Prevents One-Time Champion From Beginning Road Work

(By The Associated Press)  
MIAMI BEACH, Fla., Jan. 28.—Business prevention of Jack Dempsey from entering upon his training program today.  
The former heavyweight champion, who stepped into the ring of promotion, the Sharkey-Stribling fight after the death of "Tex" Rickard, had laid his plans to start road work today with the implication that he might return to the ring if he found through his work-out that his body was in condition.  
At noon today, however, he was forced to abandon the plan until tomorrow at least, because of a business conference at Palm Beach, Fla., by entering into a contract with the Garden corporation to set a Palm Beach to discuss ticket reservations for the fight.  
Dempsey was informed today that "Pa" Stribling had written to a friend here that his son will come by to Palm Beach today, but that he will meet him alone there and fly here Wednesday.

## WESTERN-FIGHTER-KAYOS TERRIS, "GHETTO-GHOST"

NEW YORK, Jan. 28 (AP)—The comeback of Sid Terris, one former champion, came to an abrupt end tonight when he was knocked out by Babe Herman, Pacific coast slugger, in the sixth round of a 15-round bout at the St. Nicholas arena.  
Terris was fighting a losing battle when he suddenly unleashed a terrific right hand which landed flush on Terris' jaw. The one-time lightweight contender went down like a log and lay motionless for 20 seconds of lightning in the sixth round. In the previous round, Herman had gone down for a count of nine after being hit with a double smash caught him on the chin.

## Montana State Beats Grizzlies by 68-18 Score

BOZEMAN, Mont., Jan. 28 (AP)—The Grizzlies of Montana State didn't leave any doubt as to the basketball supremacy between themselves and Montana university here tonight when they defeated the Grizzlies 68-18 in their debut meeting this season.  
Apparently bewildered by opposition that left them trailing 21 to 1 after 10 minutes of play, the Grizzlies never gained enough momentum to threaten. A rock-ribbed defense kept them biting from mid-floor.

## PAIR UNDER ARREST

PITTSBURGH, Pa., Jan. 28 (AP)—Charles H. Knapp, principal figure in the \$20,000 Brotherhood Savings and Trust company Liberty bond swindle here in October, 1926, and his wife, Irena Knapp, were arrested here tonight by United States marines. They were on arrest on information contained in secret indictments recently returned by the federal grand jury in the southern district of New York state.

## LAST BATTLE AGAINST NOOSE

NEW ORLEANS, Jan. 28 (AP)—The battle against the hankman's noose was resumed today by counsel for Mrs. Ada Boner, wife of Dr. Thomas W. Driner, but they lost each skirmish and are preparing to move on the federal courts in an effort to stop the double execution now set for next Friday.

## Even Sider

"The altruist can always find a bad place in the scheme of life," said George Bernard Shaw. "A throng of idle rich, idly draped over the luxurious furniture of a fashionable London, lunch caused a crowd of men to react with accuracy: 'These little people make us sick, just sitting around doing nothing. What is the use of having money if you don't know how to enjoy it?' 'But why fret about it, old chap?' I replied. 'Are you any better off? What is the use of knowing how to enjoy money if you haven't any?'"

## Pushing the Goods

Any salesman will tell you that a stock of goods in your store is not a business. A stock of information in your mind is not an education. A job is not success. To make a job, you must have to push the goods and vertice them, display them. And you must use your mind. Exercise it. Keep it fit and flexible, make it workable. Getting a good job is only the beginning of the road. Nothing else matters than a man if you don't travel it.

## Humiliating

"I understand that Aristotle made the mistake of not making a woman a part of his world. In fact, he had to be grateful for the fact that he was a man. He was a philosopher, but he was a man. He was a philosopher, but he was a man. He was a philosopher, but he was a man."

## AUTOMOBILES TO BE DRIVEN WITHOUT GAS

Vehicles Will Derive Motive Power Through Radio, Predicts Motor Manufacturer

CHICAGO, Jan. 28 (AP)—Prediction that gasoline will be abandoned within the present century as fuel for automobiles in favor of radio derived motive power was made here tonight by C. M. Williams, president of the Marmon Motor Car company, at the automobile show.  
The automobiles of the future, Williams predicted, will be operated electrically through radio equipment, the power being furnished by central power stations. He declared that engineers are now considering plans for such automobiles.  
"I can foresee with a reasonable degree of accuracy such automobile power being assigned a specific power reception designation or wave length and all that would be necessary for him to start his car would be to pull a switch on the instrument board," Williams said.  
"These automobiles would be built in different horsepower—four, power reception being controlled by rheostats used similarly to the accelerators of today. A meter would be installed in each car so that its owner could pay at stated intervals for the amount of power actually used."  
"Elimination of moving parts and noxious gases minimizing of maintenance costs, simplicity of operation, and greater acceleration and deceleration thereby speeding up traffic, will result from the radio car," Williams predicted.

## MEADOWS REINSTATED

PITTSBURGH, Jan. 28 (AP)—Lee Meadows, veteran basepuncher pitcher for the Pittsburgh Pirates, who was placed on the voluntary retired list last year, has been reinstated. It was made known at Pirate headquarters today. He will try a comeback during the coming campaign.

## MATTHEWS WINS FIGHT

LINCOLN, Neb., Jan. 28 (AP)—Nicknamed the "second edition of Ace Knute," "Kid" Harold Matthews, Lincoln, showed his wares to the home folks here tonight and scored a knockout victory over Jackie Daniels, Omaha, in the fourth of a scheduled 10-round bout. Matthews weighed 112 1-2; Daniels 114.

## WILL BUILD DORMITORY

MADRID, Jan. 28 (AP)—Building of a student dormitory, for which Gregorio Del Amo, Los Angeles oil magnate, gave \$200,000, will start within a fortnight. The structure will be the first to rise in a university city planned by King Alfonso. Part of the dormitory will be reserved for American students.

## OHIO FIGHTER WINS

COLUMBUS, Jan. 28 (AP)—Johnny O'Keefe, Columbus, took a 10-round decision over Eddie "Kid" Wagner, Philadelphia, tonight. Each weighed 138-1-4.

## CHIEF JUSTICE WANTS CHICAGO POLICE CHIEF

Judge Rebukes Commissioner William F. Russell for Tactics in Week-End Roundups

CHICAGO, Jan. 28 (AP)—Police Commissioner James J. Connelley, who has swept thousands of vagrants and crime suspects into city lockups over the last two weeks, was rebuked today by Chief Justice Harry Olson of the municipal courts.  
Warning the police that they were subjecting themselves to prosecution for false arrest, Judge Olson directed municipal judges to issue separate writs of persons jailed in the police raids and released for want of prosecution.  
Commissioner Russell inaugurated the general house cleaning a week ago when 1000 police were sent into the streets to pick-up suspicious characters, more than 4,000 were rounded up, and about 2,000 booked. Deputy Commissioner Rizzo today declared the raids were "the greater detriment to crime Chicago has ever had," pointing out that only few felons were reported in the last 48 hours.  
"They will have to fire me before the rains cease," he said.

## COLORADO AGGIES WIN

FORT COLLINS, Colo., Jan. 28 (AP)—Colorado Teachers college championship basketball team defeated the Colorado Aggies basketball team 34-18.

The Original Lucky Poster Girl

"I'm a 'Lucky Girl' because I've found a new way to keep my figure trim. Whenever the desire for a sweet tempts me, I light up a Lucky Strike. It's remarkable how nicely the toasted flavor of Luckies satisfies me. Toasting has taken out all impurities—all that is left is the thrilling Lucky aroma. I certainly am lucky to be 'The Lucky Girl!'"

ROSALIE ADELE NELSON

THE modern common sense way—reach for a Lucky instead of a fattening sweet. Thousands are doing it—men keep healthy and fit, women retain a trim figure.

Lucky Strike, the finest tobaccos, skillfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets.

Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say: "It's good to smoke Luckies."

A reasonable proportion of sugar in the diet is recommended, but the authorities are overemphasizing that too many fattening sweets are harmful. So, for moderation's sake we say—

**"REACH FOR A LUCKY INSTEAD OF A SWEET."**

**"It's toasted"**

No throat irritation—No Cough

Reach for a Lucky instead of a sweet.

### Board Approves Aims of Idaho Officers' Organization to Promote Beneficial Statutes

Voting approval of the objectives of the Idaho Municipal Officers' association, Twin Falls city council last evening authorized appropriation of \$15 in payment of the association's assessment on Twin Falls as a member of the organization.

Purposes of the association, as outlined by George C. Hubener, Emmett secretary and treasurer, are to initiate and secure enactment of legislation and to endeavor to express measures deemed inimicable to the interests of municipalities.

The association at a meeting in Boise January 14 authorized appointment of a legislative committee and employment of counsel. It approved a program of legislation providing, among other things, for personal property tax assessment, for automobile retention by municipalities of all fines and costs collected in criminal cases, and fixing of uniform time for payment of municipal assessments.

The council approved and ordered filed a resolution furnished by Emmett E. Burns, appointed patrolman last January 1.

### J. W. Dudley, Wire Chief of Twin Falls Exchange for Decade, Gets Pocatello Post

J. W. Dudley, for the last decade wire chief of the Twin Falls telephone exchange, will be transferred to Pocatello in the Mountain States Telephone company, has been promoted to the office of district wire chief for neighbors at his late residence two-and-a-half miles south of Hazelton. Storm conditions interfered with making of arrangements for funeral services until late last week, and continuing snowfall closed the roads so that it would have been impossible for neighbors to have attended yesterday.

Arrangements will be made of arrangements for services when completed.

### BURGLARS GET \$2 LOOT FROM FILER ELEVATOR

Footprints in snow show two men broke into warehouse and made attempt on second floor.

Footprints in the snow that were almost obliterated by later snowfall indicated that two men were involved in burglary at the Elevator company plant and attempted burglary at the Idaho Bean and Elevator company plant at Piler some time during the night, according to conclusions reached by officers yesterday.

Burglars broke into the Elevator company plant through a window from which they broke out a part of the glass. The investigation indicated they lifted a cash drawer containing only \$2 in money. Combination lock on the safe had been tampered with but there was no indication of attempt to use force to open it, the officers said.

L. D. Allen, Filer constable, and the sheriff's force made the investigation yesterday.

### OBSERVANCE OF LAW UNION'S GREAT NEED

Loyalty to Government Theme of Latter-Day Saints' Conference; Consider Slogan

Quoting statistics compiled by a writer which indicated that 75 per cent of the American people break some law in some way, J. Golden Kimball, one of the seven presidents of the Seventies of the Latter-Day Saints church, declared in a sermon in the tabernacle here Sunday morning, that at the present time, more than in any previous period in American history, there is an imperative need for loyalty to the government and for enforcement and observance of law.

The percentage of those who observe all the laws all the time should be at least 75 per cent, Mr. Kimball asserted. We should not neglect and practice the slogan of the Mutual Improvement association, young people's organization, "We Stand for Law, for the People Who Live It, and For the Officers Who Enforce It."

Loyalty Conference Theme

The Sunday evening program, given under the auspices of the Mutual Improvement association of the Twin Falls stake and conducted by Mrs. Claude Jensen, consisted of a six-telephone-act by Milton Fulton, a reading by Agnes Richens, a violin solo by Melbourne Jensen, a vocal solo by Edith S. Pitzer. Mr. Pitzer discussed implications of the Mutual Improvement association slogan, young people's organization, "We Stand for Law, for the People Who Live It, and For the Officers Who Enforce It."

# ASSESSORS IN FAVOR OF TAX LAW CHANGES

## S. Claud Stewart Comments on Outstanding Recommendation of Meeting in Capital City

Realignment of a scale of maximum tax levies in relation to total assessed valuation in the several counties was recommended by Idaho's county assessors in an annual meeting at Boise last week as a means, primarily of putting property valuations through the state on an even basis, according to S. Claud Stewart, Twin Falls county assessor, who returned from the Boise meeting late Saturday evening. Mr. Stewart served as a member of the assessors' legislative committee.

**Cites Existing Law**  
Under the existing law which the assessors would have changed, Mr. Stewart said, counties that have under \$5,000,000 valuation may levy 75 cents on \$100 valuation; counties that have between \$5,000,000 and \$7,500,000 valuation may levy 60 cents on each \$100; and counties that have over \$7,500,000 valuation may levy 40 cents on each \$100.

"The law under this scale," Mr. Stewart said, "has doubtless intended to limit the revenue of counties with a higher valuation as well as to provide sufficient revenue to counties of low valuation, there not being the difference in revenue required for operation as indicated by differences in valuation. For instance a county with a \$4,800,000 valuation could levy under the law 75 cents on each \$100, whereas a county with nearly twice the valuation or \$9,000,000 could levy only 40 cents or \$36,000—the same as the county only half its size in value.

"There is, however, a defect in the law due to the scale and the wide spread allowed for levies, resulting in an influence of valuations either by the assessor or board of equalization. The assessor may be perfectly right in a valuation on the tax rolls of \$3,000,000 producing a revenue under the levy of 60 cents of \$1,800. The board can equalize the assessor's valuation on to \$4,800,000, which, under the 75 cent levy would give the county a revenue of \$36,000 or \$4,200 more on a lesser valuation.

"Many parallel cases might be cited of the manner in which a county's valuation might be influenced by this law under the present scale. This fault in the law might well be corrected by a lesser spread in the levy on a more graduated scale of valuation."

**Favorable Sentiment**  
Mr. Stewart stated that he had found a great deal of sentiment favorable to his proposal for a change in the method of distributing taxes on power plants. It is his suggestion that the tax on power plants should be distributed among the counties in proportion to the mileage of transmission or distribution lines in each county.

Valuation of power property in Twin Falls county would be approximately \$135,000, or about double the present valuation. If distributed on the basis of transmission line mileage, and if the distribution line basis were used, Mr. Stewart said, Twin Falls would have \$25,000 power valuation.

**Raising Snakes**  
The National Zoological Park says that it is a difficult matter to raise any species of young snakes. Their food should consist of meal worms and earth worms, grasshoppers and such small insects. A pan of milk, into which a raw egg has been beaten, should be kept in the cage.

**Heart as Body's Monarch**  
Dr. William Harvey, who demonstrated the circulation of the blood through the body, dedicated his book describing his work to the king, stating that "the king in his reign is like the heart in the body."

**Work for All**  
Even in us, feeble and fluctuating as we are, industries shall be assigned—and through our hands the lull shall be conveyed in which the spirits of "just men made perfect" might delight.—Elizabeth Charles.

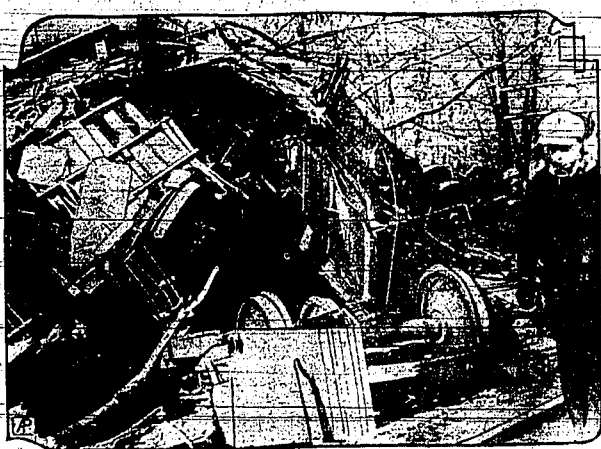

**His Choice**  
"Come, come, you shouldn't refuse to lend me money. One friend should always be willing to help another."  
"I know, but you insist on always being the other."

### PRIEST DISCUSSES BASIS OF MODERN CRIME WAVE

Facing the modern crime wave, especially among the young, to failure to recognize God as the Creator and to accept the truth that human creation springs from a motive worthy of His wisdom and justice, namely, that man is made to love and serve God on earth and be happy with Him forever hereafter. Rev. Patrick O'Reilly, Society of Jesus, in his sermon at St. Edward's Catholic church Sunday night, drew a parallel between the condition of the cultured Athenian and Roman society as pictured in the epistles of St. Paul and that which prevails in many educated and polished circles today.

Today, "as at the time when the epistle to the Romans was written, declared the missionary, men change the likeness of the incorruptible God into the likeness of corruptible man, and of beasts, and in consequence God delivers them up to a reprobate mind. Father O'Reilly said that while some youths who commit suicide are doubtless insane, in many cases, the act is the result of cold-blooded reasoning from the wrong premises that there is no hereafter and that the balance of pleasure and pain is on the side of pain, hence that the logical thing to do is to end life.

**Finding a Niche**  
Happiness is a question of finding one's niche, whether it is in the great world where cares are many and the struggle precarious, or in some smaller world where cares may be fewer and human relationships all the more precious—American Magazine.

# announcing The New PONTIAC BIG SIX

## Introducing Big Car Standards of Luxury, Style and Performance at \$745

**TODAY** a new type of low cost motoring luxury is available. It embraces big car style. It provides big car riding comfort. It embodies big car quality in unseen parts. It includes big car performance even to the point of developing big car power and traveling at big car speed. It is offered by a brand-new automobile—the New Pontiac Big Six.

Frankly, the New Pontiac Big Six was designed to appeal to a certain group. True, every motor car owner in America will find in it many things to admire. Two-car families will find it an ideal second car. But the group for which it is primarily intended is made up of people who are beginning to move up in the world. Many of them will soon make the first important step up in the quality of their cars. All are progressive. The New Pontiac Big Six was designed for them.

It comes to them entirely new in appearance. Stunning new bodies by Fisher contribute to the big car beauty and big car style presented by the car as a whole.

Progressive people are seeking greater luxury. The Pontiac Big Six offers them the luxury, the deep, richly upholstered cushions and the charming appointments for which bodies by Fisher are famous the world over. It provides the smooth-riding qualities of a car 167 inches in overall length, with accurately balanced rotating mechanical parts and such advance comfort features as adjustable drivers' seats.

It is a six, but more than just a six. It is a six with the added power of a larger L-head engine and the added smoothness imparted by a dynamically balanced, counter-weighted crankshaft and the famous Harmonic Balancer. It is a six with the added efficiency and silence achieved by means of the G-M-R cylinder head. It is a six with the added-cold-weather advantages provided by the cross-flow radiator, thermostatically controlled.

From fan to rear axle, its "line of drive" is in accurate dynamic balance. Its new brakes are of the internal four-wheel type which neither mud nor rain nor ice can prevent from operating efficiently.

As for its performance, you can drive it at express train speed. You can watch it accelerate alongside the finest cars on the road. You can test its power under any conditions, confident of its ability to pull through. Meanwhile it continues to provide that unmatched dependability for which every Pontiac has been famed.

Only a few highlights in its construction have been mentioned. Just enough to prove that the Pontiac Big Six is entirely new and capable of meeting progressive Americans' demand. But the amazing thing about it is that it goes so much big car luxury, style and performance at prices which compare with practically everyone's reach!

Prices, \$745 and up, f. o. b. factory, plus delivery charges. Bumpers and rear fender guards regular equipment at slight extra cost. Check Only—Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

# SHARP SETBACK IN WHEAT QUOTATIONS

### America's Visible Supply Total Below Predicted Decline Volume; Corn is Off

CHICAGO, Jan. 28 (AP)—Increased general selling, some from foreign and with a good deal also against purchases of corn, led to a sharp setback of wheat values today. The United States wheat visible supply total failed to show as much falling-off today as in various quarters had been looked for.

Closing quotations on wheat were: No. 1 hard winter, 1.17 1/2; No. 2 hard winter, 1.16 1/2; No. 3 hard winter, 1.15 1/2; No. 1 soft winter, 1.14 1/2; No. 2 soft winter, 1.13 1/2; No. 3 soft winter, 1.12 1/2.

Wheat Nervous  
Nervousness and a wavering uncertainty course for wheat was in evidence throughout the day, with especial weakness noticeable toward the last, after the United States visible supply of wheat had diminished only 1,746,000 bushels for last week, as against 3,516,000 bushels decrease during the week previous.

Best rallies in wheat values today followed early reports of steel storms in Newark and of another cold wave en route, threatening wide areas of winter wheat unprotected by snow.

There was only a moderate trade in raw sugar futures and in absence of aggressive operations either way, prices moved within comparatively narrow limits. The market opened unchanged at 1 point higher on covering and a little later trade buying, but the demand was soon supplied and conditions quiet. This reaction carried active positions 1 to 2 points below the previous close and was accompanied by selling from houses with Cuban and Mexican sugar contracts close on renewed covering and the market rallied again, closing at 1 point net advance to 10 1/2 cents. Approximate sales 25,350 tons. March closed at \$2.03; May \$2.12; July \$2.17; September \$2.20; December \$2.31; January \$2.38.

The refined market was unchanged at \$1.10 for fine granulated. Whittier's is fairly liberal, but not too much so. Whittier's is fairly liberal, but not too much so.

Today's car receipts: wheat 30; barley 2; flour 17; corn 14; oats 10.

## CREDIT UNCERTAINTY GRIPS STOCK MARKET

Buying of Utilities Continues; Rails Steady; Industrials Selling Heavily

NEW YORK, Jan. 28 (AP)—The stock market opened nervously today as the credit outlook became somewhat uncertain with the approach of the month end. Heavy buying of utilities continued and the rails held steady but wide assortment of industrials were sold heavily.

The day's news was mixed in character. Introduction of bills in the senate designed to curb the use of credit for speculation caused some uneasiness. There were a number of highly important factory earnings reports for 1928, however. The New Haven Railroad reported earnings on the basis of \$8 a share in contrast to \$5.49 in 1927. Radiopowered earnings came at \$1.24 per share, against \$0.16 in 1927.

Merger Reports  
The utilities were helped by several good earnings reports and merger prospects. American Power & Light, Detroit Edison, Electric Power and Light and Commonwealth Power were among utilities breaking into new high ground on gains of about 4 to 6 points.

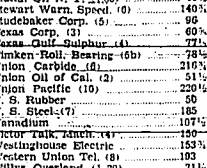

General Motors was again heavily bought today, and the "big boards" only low-priced aviation stock.

The Mystery of a Haunted Mansion by Wyndham Martin

Jim pointed to the cases all ready for the journey. "This is all honest-to-god stuff," he went on, "but it isn't all honest to me. I don't know if I can say any good to lay it up when it's only two years old. I know, I've bin in the salmon business, Appleton trusted me because I'm off the staff for a few weeks. Laid in the cases the cleanest sort of wine, like they used to make every morning in the red-dink joints in a good place. I say Appleton was a good picker. I don't say get just how you nutted in."

Hanby did not satisfy the fellow's zeal for knowledge. "What followed?" he asked. "Well, I had a hunch that the fellow's zeal for knowledge was not a hunch, but a certainty. He looked at me with a determination that Lottie was anxious to shoot. Nor did Lottie understand, but he too thought that the fellow was in readiness to obey. Without a word, Jim, Pollock, and myself stepped the cases into the stream. Darkness was coming on when they finished. Jim had told them that by midnight the entire mass would be in the water. They were to take the cases and go home. Lottie and I had to hold them on the trucks. "I can't keep the stuff," Hanby had explained to Barton, "and I want to get on some one else's property. You can let Appleton will keep his mouth closed."

But these other two men? Barton they will find that they have an opportunity to get away. It's clouding over for rain. He willing to match his plant lumberjack hand against some lightning ferocious man. "I'm not afraid of you," Lottie said. "You can let Appleton will keep his mouth closed." "You can let Appleton will keep his mouth closed." "You can let Appleton will keep his mouth closed."

There was no doubt in the man's mind. Presently he set up and called at her. His face was white. "My heart is not strong," he admitted. "Men with high color often have a less to good health than to very trouble. I have had much to worry the today. With your permission, I will get some medicine before we resume our conference."

Appleton's sudden departure and feeling it was the woman who supported him. Slowly they walked along of their captors toward the large living room. Appleton was courteous to the last. "It is our house," he said, smiling feebly. "After you, gentlemen." Barton was the last to enter. When he was well in the room, the door was suddenly shut and the lights were out. "The men started at one another helplessly. The alek man had tricked them."

CHAPTER XI

It was ten minutes before they had roused the door down. Outside there was nothing but darkness and pelting torrents of rain. With flashlights they searched the darkness. Lottie and Jim were in the living room and Jim had escaped. The man made their way to the wire sign of the secretary and came, exhausted, to the Gray House. Dina, Colla, and Florence Barton were waiting. Their stamns would have been greater had not Hanby left a note, saying that he and Bill and Junior were going on a long blinding trip.

"Here!" said Hanby dramatically, breaking in on them. "Are the lost children? Florence, here is your son. Tell him to get out of the room. I haven't a moment for explanations," he added. "Junior must have to go out again." He turned to his son. "Get your gun around to the front door as soon as you can." Hanby's face was pale. "I've just talked," he began. "I've just come in. I met a whole lot of men. They were passing along south. I could not be sure. They were carrying a cargo of boxes. I'd look like it. I was gone." He turned on the instrument. "I did that," he explained to his family, "because I want the seizure"
