OUR REASONS

Now and then some patron tells us, "everyone in town delivers, but you" and this is often true. Of course we could deliver groceries, but to do so we would have to raise our prices some or lower the quality of the foods we sell...

WOULD NOT BE FAIR

To do so would not be fair to the thousands of our customers who appreciate the good quality of our eatables and the conservative prices we are able to maintain when they come to our store...

Buhl and Filer Girls' Teams Battle to 29-to-29 Tie In Upset

Twin Falls High School Basketeers Vanquish Invaders From Shoshone In One-Sided Double-Header

QUINTET FROM WEST END TAKES WILDCAT MACHINE INTO CAMP

Invading Indian Five Wins Game in Last Two Minutes of Play After Trailing in Every Period; Score 25-23

(Special to The News) FILER, Feb. 8.—South Central district basketball has not for years seen a game that upset the dope as badly as did the tie that Filer girls played with the redoubtable Buhl team here tonight, 29 to 29. The Buhl boys won their game in the last two minutes of play, after trailing all the way, 25 to 23.

Wildcat musters cleared the Indians for four full, torrid quarters, gave no consideration to Buhl's feelings and had enough reserve left at the end to overcome a 4-point Buhl lead to make the tie. For some reason Filer led 9 to 6 at the quarter and started Buhl up so that at the half Buhl had forged ahead, 18 to 10. In the third round Filer counted 14 points to Buhl's 6, and in the last quarter scored 9 points to Buhl's 5. Lucy made 28 of Buhl's points, Hawkins 21 centers for Filer.

The inspiration of the girls' battle came, Filer boys out, after the Buhl Indians' scapes. They grabbed a 3-point lead and held it on in the last two minutes. The pace was too fast for Filer. Buhl's condition being enough better to enable the Indian players to tie the score at 23 each and to toss the winning basket while the time keeper was raising his gun to stop things.

PETERSON'S VICTORY CHANGES COMPLEXION OF DERBY AT ASHTON

Old Time Followers of Game Confident Tud Kent, Eight Times Winner, Will Capture Honor by Virtue of Prowess

ASHTON, Feb. 8.—Ray Peterson's winnings of the Reburnix 10-mile dog derby Monday had changed the complexion of the race between the trio of the upper valley mushers on whom Idaho rests its hopes of victory in the American dog derby tournament, and the winning dog, the one who came in for second money 9 seconds behind the St. Anthony driver, has injected a new member into the derby.

Dava Horse's "Fram" Cotter, driving a "dark horse" team, had not expected to do much in the Reburnix race, although mushers have given him a wide berth since he drove a team to second place in the Ashton derby some years ago. With the aid of Mickey, home-hearted, he pushed his team to second place in the derby and untangle two of his dogs which got into a tangle.

For some reason the boys could not find a forward court combination that kept the ball away from them most of the time, showing plainly the effects of the break in their season's play due to the fire in the school building and games cancelled because of bad roads.

"I Faw Down An' Go Boom"

A comic dance number that's a corking good Fox Trot whether you dance it or sit it out. A simple and attractive melody is shortly followed by comic singing—solo and chorus that comes throughout the instrumental effects. There's a snappy dance rhythm that's a peach.

The Open Window

By Hugh A. Studdert Kennedy

The other day, after a cold snap and a heavy winter rain, the sun arose above the hills away to the east a haze of red and gold into a radiant sky.

And then I began to think about marbles, and from marbles to Dickens and from Dickens back to marbles again.

Now it is true that Sergeant Buzus, one of his ways to me, perfectly plain that he personally has no first hand knowledge of such 'sporting' expressions.

A Washington Bystander

By Kirke L. Simpson

WASHINGTON, Feb. 8 (AP)—Memories came crowding for the Bystander when press wires flashed word that Oscar W. Underwood, Alabama, was dead.

It seemed that four-year echoes from Old Madison Square Garden had scarcely ceased to fret the ear, among them that unforgettable and unwelcome huge voice of Governor Brandon Branning that message that A-B-A-M-A was a case 24 votes for UNCLE N-N-D-E-R-W-O-O-O-O-O-O for the Democratic presidential nomination in '24.

FIELD AGRONOMIST CAUTIONS SEED MEN

C. B. Ahlson Warns Buyers to Insist On Seeing Detailed Analysis of Seller's Sample

BOISE, Feb. 8—Each spring a percentage of the red clover seed produced in Idaho during the growing season will be in the hands of the growers, according to C. B. Ahlson, field agronomist with the University of Idaho agricultural extension division and state seed commissioner. Most of the farmers will plan to dispose of this seed to neighbors. Some lots will be pure and ideal for seed production purposes. Other lots will be impure and will result in a loss of hundreds of dollars to the men who purchase it and use it for seed production.

According to the state seed law, explains Mr. Ahlson, all growers who dispose of clover or alfalfa seed for seed production purposes are in the same category as the established seed dealer. All lots must be sampled and tested and pass the requirements of the seed law for Idaho before the seed can be sold, offered, exposed, distributed or held in possession for sale or distribution. A violation of this provision is considered a misdemeanor.

Cautious Buyers Farmers buying this seed for seed production should insist on seeing the detailed analysis of the sample. 99.5 per cent seed may be undesirable for quality seed production. The consumer should be interested in the per cent or part of per cent not mentioned. Five-tenths of 1 per cent impurity may contain 10 dollars per pound; 7/10 seed clover seed; 3/10 alfalfa seed; 200 doct seed per pound; the foreign seeds which are inseparable from the clover or alfalfa seed; seeds would make a sample of high purity undesirable for seed production purposes.

After the farmer has purchased a lot of seed he should send a two-ounce sample to the state seed laboratory, Boise, or to the branch seed laboratory, University of Idaho, Moscow, for detailed analysis as a further assurance that the seed is desirable.

The cost of red clover seed for all seed of producing the crop. Mr. Ahlson concludes. The cost of seed is the smallest item and ordinarily the most important. The sooner farmers realize that pure seed is essential the more profitable will be the enterprise.

FULLER FRUIT RAISER BECOMES PRESIDENT OF HORTICULTURISTS

Manager of Decatur Orchards Succeeds Late J. A. Waters: Tariff on Bananas and Cooperation Features of Meeting

William Walkling, manager of the Decatur Orchard company, was elected president of the Twin Falls Horticultural association, at a meeting of the board of directors which followed the annual meeting of the association here yesterday in the club room of the downtown hotel. J. A. Waters was elected secretary-treasurer. Directors elected were O. R. White, Bush Joseph, Day, Eden, W. H. Wicks, P. L. Walker, Albert Putzler and Kenyon Green, Twin Falls. The meeting went on record as favoring the demand of the state association at its annual meeting in Boise, this week for a tariff on bananas, and in favor of the resolutions of the state association which are endorsing the proposed legislative budget providing for more extensive cooperation on the part of the state fruit growers. The secretary was instructed to transmit letters to the Idaho congressional delegation regarding the tariff, and to the legislative delegations from Twin Falls and some counties with reference to the horticultural bill in Idaho.

Figures Not Mentioned: No specific amount of tariff was incorporated into the demand. Floyd Brown, Eden, suggested that if a tariff could be secured which would bring the price of bananas 50 per cent it would curtail the consumption of that fruit 25 per cent. John W. Hardin, president of the state association, said that at the Boise meeting that the total amount of bananas imported into the country last year exceeded by 20,000 car loads the total apple crop of the United States.

The meeting yesterday heard talks by J. A. Waters, who had spoken at the three-day session of the state association at Boise.

Wenatchee Man Speaks: A. L. Ryall of the federal bureau of plant industry at Wenatchee, spoke on cleaning of fruits for shipment. He explained the Idaho growers on the readiness with which they should conform to statutory requirements relative to spray residue. He favored raisins as the best method of cleaning fruit. Anthony Spuler, entomologist of the Washington State college, Pullman, explained the use of "hotchkiss" for codling moths, a theme developed by W. H. Wicks. Wicks, chief field inspector of Idaho, said he had suggested that deters put out the pots early and watch the first intoxicated moths. Spraying with the arsenate solution should begin about 10 days after the appearance of the first moth, he said. He praised the work of E. V. Gilson, district inspector, and recommended that growers notify him as soon as they saw the first moth in order that he issue an announcement for spraying time.

Contrafats Sprays: The value of oil spray as contrasted with the arsenate solution was discussed by Claude Wakeland, Parma, state entomologist. As the arsenic spray residue from the solution will remain at least as low as .01 per cent, and the arsenate residue at least as low as .02 per cent, much interest was manifested in this method of combating the codling moth. Mr. Wakeland did not comment on oil alone. Oil and nicotine did much better but so far not as well as the arsenate solution, he said.

Heart Attack Fatal: George Stroble, 71, pioneer of Jarbidge, Nevada, business dealer, former resident of Boise and Salmon City, and in earlier life an owner and dealer in race-horses, died suddenly in Jarbidge last Tuesday night from heart trouble. His store in Jarbidge was established in a tent when gold was discovered in that district nearly 20 years ago. The body, accompanied by E. H. Case, Jarbidge, was brought here on the Jarbidge stage last evening and lies at the Grossman mortuary, awaiting word from relatives in the Kansas for completion of funeral arrangements. It is believed that the body will be sent to St. Louis, former home in Kansas for Stroble. He was a member of the Elks lodge in Elko, Nevada.

Final Address: The final address of the meeting was delivered by H. E. Taylor, Payette, president of the Idaho State Horticultural association.

Horticultural association. Mr. Taylor told about the fight for low fruit rates on which action in favor of the shipment of the 1929 crop is hoped for. At the close of the meeting resolutions of regret were adopted in regard to the death of the former president, the late James A. Waters. Several short addresses were made commending Mr. Waters.

METHODISTS WANT BISHOP AT SESSION

Congregation Requests Area Leader to Conduct Conference in Twin Falls in Fall

Congregation of Twin Falls Methodist church wants Dr. Wallace E. Brown, bishop of the Methodist church Helena, to conduct sessions of the Idaho conference to be held in Twin Falls next September. The wish of the congregation in this regard was recorded by unanimous vote of the church members last evening for Bishop and Mrs. Brown. Rev. O. P. Hiltner, who came from Whitewater, Wisconsin, to fill the position of pastor of the Twin Falls Methodist church; Mrs. Hiltner, organist; and Mr. Hiltner, pastor of the Twin Falls church. Bishop Brown, who is making an official visit to the churches in southern Idaho, delivered an inspirational address and Mr. Hiltner and Dr. Hiltner spoke briefly when they were introduced by E. L. Ashton, townmaster, at the conclusion of a bounteous dinner served by members of the Ladies Aid society. The program included readings by Mrs. C. D. Merrill; corner stones by Dr. O. A. Fuller and selections by the church orchestra under leadership of A. E. Franck.

A BIRDSEYE STYLEVIEW IN TWIN FALLS STORES

Review of Current Fashions Gleaned From an Inspection of Local Firms BY THE NEWS SHOPPER

KITCHENS BRIGHT AND CLEAN

Maybe it was the weather, or maybe it was merely chance which lead me to one of the local furniture stores where they are featuring a new line of electric ranges. Anybody that is where I went, and I found myself especially interested in the new line of electric ranges. There were ranges in white, and there were ranges in colors. There were large ranges and small ranges, those with enamelled ovens, and those without. In fact, you have a variety to choose from. Just as you may have a variety from which to choose your spring hat. Best of all, I liked a green stove, not too large—three plates, and a medium size oven, with green porcelain and a yellow range, both with pans to match, and the two as lovely, though a bit warm. I found the green much nicer, because it's a cooler color, and because green seems to be a favored color for kitchens, nowadays. The yellow, well, who would want to face a yellow range before breakfast? I can't imagine anyone doing it.

One of sweetened condensed milk, which is one of the one and one-half cups of one pound of shredded coconut and one half teaspoon of vanilla. Add vanilla to milk, and stir in coconut until uniformly moistened. Drop from a teaspoon onto buttered pans and bake in a moderate oven (350 degrees F.) until slightly brown. They should be removed from the oven while still a little soft in order that they will be moist enough when cooled. If chocolate kisses are desired, melt a few squares of chocolate, melted. The recipe makes eighty or ninety.

Then if you like them all mixed up, you can serve lima beans, which takes two cups of cooked dried lima beans, a half cup of oil of bacon, two onions, sliced, one green pepper, chopped and one cup of tomatoes, canned or stewed. Fry bacon, remove from pan, add onion, and green pepper, cook until tender. Place a layer of lima beans in a buttered casserole, add a layer of onion and pepper mixture, a layer of onion and pepper mixture. Sprinkle lightly with salt. Repeat the layers. Pour tomatoes over and bake in a moderate oven (350 degrees F.) 20 minutes. It is then ready to serve.

If you ever wander about and search for a new way to serve fish, there are two new recipes which you will find an answer to your question. One, for scallops, salmon, gives a new taste to a well-known article. Two tablespoons butter, two tablespoons flour, one-half teaspoon salt, one-eighth teaspoon of paprika, one and one-half cups of milk, one egg, one tablespoon Worcestershire sauce, two tablespoons green pepper, finely chopped, two cups flaked salmon, three-fourths cup fine crumbs. Melt butter, add flour, salt and paprika and stir until well blended. Add milk gradually and bring to boiling point, stirring constantly. Remove from fire. Add slightly beaten egg. Worcestershire sauce, green pepper, salmon and one-fourth cup of the crumbs. Mix well. Pour into greased baking-dish or scallop shells. Sprinkle top with remainder of crumbs, and dot with pieces of butter. Brown in a hot oven.

Then caper sauce will help solve how to make the Friday dinner a success. SHELL-SHOCKED SAFE IN SHOP FOR REJUVENATION

The safe at the Twin Falls passenger depot of the Oregon Short Line, recently blown up by burglars, was taken to Postville yesterday to be repaired and returned. Its place was taken temporarily by another victim of burglar's "zap" which has been placed on the list to be called into activity in case of dire need. The substitute safe has been badly marked in appearance, but it is putting up a bold front and getting by, showing no exterior evidence of an inferior complex, but it is feared it might develop shell-shock symptoms in the presence of an attack on burglars. It will not be trusted to handle much cash pending the return of the rejuvenated safe now in the railroad safe hospital at Postville.

PARENT-TEACHER GROUP CHOOSES DEAN OF GIRLS TO GUIDE ORGANIZATION

Mrs. Frankie Darnhart, dean of girls at Twin Falls high school, was elected first president at an organizational meeting of the new Parent-Teacher association of the combined high and junior high schools of Twin Falls held at the auditorium yesterday at 4 P. M. Other officers elected were Mrs. W. A. Van Engelen, vice president, Joseph H. Collins, secretary, and Mrs. L. L. Breckenridge, treasurer. The first business meeting under the new organization will be held February 19 at the high school auditorium. There was a fair attendance at the meeting yesterday.

TEMPERATURE LOW IN THREE CREEK REGION

Temperature at Three Creeks, 50 miles southeast of here, was 32 degrees below zero Friday morning, according to H. C. Case, Jarbidge, passenger on the Jarbidge stage arriving here last evening.

LITIGATION INVOLVES OLD WATER DECREES

J. H. Stoner and Dry Creek Water Company Base Claims On Agreement Made in 1889

Dry creek water right decrees date from 1889. The suit was instituted in district court here by J. H. Stoner, Julia Stoner and the Dry Creek Water company against Frank Allen, Terrill, J. A. Anale Oliver and Alice Iran Whitte, heirs of the late Frank J. Terrill and Annie Terrill. The suit is for judgment and decree of rights to water of the stream in Cassia and Twin Falls counties. According to the complaint, which was drafted and filed by F. B. Bower and W. Orr Chapman, Stoner and his associates allege that the Terrills in disregard of an agreement entered in December, 1889, and subsequent adjudication and decrees, interfered with their rights to water for irrigation has year after year to continue that interference. Stoner and his associates claim title to Dry creek water rights based on an agreement for 525 inches of water made by the late J. B. Bower between March, 1879, and March, 1884. The Terrill rights are based on an adjudication of the water of Dry creek made by the late Frank J. Terrill in December, 1877.

Quota Entry Agreement: Under terms of the December, 1889, agreement which is quoted in the complaint, George Russell and John B. Brudley, predecessors in interest of the Terrills, and E. P. Hardesty and J. E. Bower, predecessors in interest of Stoner and his associates, agreed upon an equal division of the waters of the stream at the head-gates of their respective ditches between March 1 and November 1 each year. The agreement further provided that when flow of the stream did not exceed 100 inches all of the water should be carried through Russell and Bradley ditches to the Jordan ranch and then divided equally. This agreement, the complaint recites, was confirmed by stipulation in the suit of the Terrills against Samuel Land and J. Fuller and J. B. Bower in March, 1904. In this suit, the records show, J. C. Rogers and W. E. Borch were attorneys for the Terrills and W. L. Magstans for the defendants. The agreement of 1889, it is asserted, was further supported by the district court decree of May 1926, in the suit of Jerry Bonard and others against D. B. Moorman and others, involving Dry creek water rights.
