## Announcement of Leaders' Decision to Kill Deficiency Appropriation Bill Draws Filibuster Threat in Senate

(By The Associated Press) WASHINGTON, Feb. 20.—A decision today by Republican leaders to kill the bill for the appropriation of \$24,000,000 for prohibition enforcement drew a threat of a filibuster in the senate against the second deficiency measure which would carry all items of the first except the dry fund.

Senator Chapman, Virginia, declared in the senate that in the event this program is followed there will be little opportunity of getting the second deficiency bill through. His declaration was regarded as a threat or a filibuster. Talk of filibuster filled the air today in the senate with threats also against the new department measure carrying the funds for starting the newly authorized prohibition program and against the long pending department supply measure. Only seven days remain to the end of the session and leaders are now talking on the bill of the prohibition block final action on some.

Senator Blaine, Republican, Wisconsin, an opponent of the program, blocked an attempt by Chairman Hale of the naval committee, to get up the naval supply bill. In the senate today Senator Swanson, Virginia, the ranking Democrat on the naval committee, said he wanted a "clean bill" and would support the bill against the naval measure by making unanimous consent to take it up immediately.

## Captain of Detective Bureau Advances New Theory in Connection With Gang Murders

CHICAGO, Feb. 20.—The police running down one clue after another in the effort to fix responsibility for the St. Valentine's day massacre of seven Moran gangsters today started on a new clue yesterday. They believed the wholesale killings were to be cleared up.

Captain William Shoemaker in relation for the assassination of Tony Lombardo and Pasquino Lombardo, his successor as head of the Chicago underworld, advanced the theory that the Moran gangsters were snatched in their headquarters in Chicago several months ago, and the Moran gang, fearful of their growing strength, had annihilated the Moran gang. Captain Shoemaker reasoned, the enemies of the Moran mob set out to get revenge—and the seven deaths were the result.

# GEM STATE YOUTH LOSES LIFE IN COAST TRAGEDY

SEATTLE, Feb. 20.—With the finding of their overturned boat today a search was heightened for the body of the 17-year-old son of a wealthy Idaho mining man, and Raymond Richardson, 17, of Moran school for boys near Seattle.

A sudden squall apparently had claimed the lives of the youths who disregarded rules of the school and went boating in a makeshift sailboat on Puget Sound late yesterday.

# BYRD DISCOVERS AND MAPS OUT VAST NEW REGION IN ANTARCTIC

## Intrepid Explorer Claims Territory for United States; Commander Describes Mountain Range 8000 Feet High

(By The Associated Press) NEW YORK, (Thursday Morning) Feb. 21.—The New York Times, the St. Louis Post-Dispatch, and the Associated Press have announced today that Commander Richard E. Byrd, in an extensive airplane flight, mapped out a vast new territory in the Antarctic, which he has claimed for the United States, and has named for his wife, Marie Byrd Land.

Commander Byrd had also discovered a second new mountain range, east and south of the first discovered by him recently and named the Rockefeller range. That range is within territory claimed by the British and known as the Ross Dependency.

The new range discovered on Monday is larger than the first and contains peaks between 8000 and 10,000 feet high. It is outside the limit of the British claim and is in the new Marie Byrd Land, which lies between Ross sea and Graham Land.

About 40,000 square miles of Antarctica have now been explored from the air by the Byrd expedition. In the flight the Rockefeller range was mapped by a camera, the entire new section was sketched and the uncharted coastline of the bay of Whales was mapped by Captain Ashley McKinley of the army air service, who has piloted the expedition.

# TRAIN WRECK IN MONTANA CLAIMS LIFE OF FIREMAN

SWEETGRASS, Mont., Feb. 20.—A Great Northern passenger train engine and several cars jumped the track, killing the fireman, when the train ran into a four-foot bank of snow which had drifted across the tracks near here today.

Paul Greening, Great Falls, Montana, was instantly killed, and the engineer of the train, whose name was not learned, was slightly injured. None of the passengers was hurt.

The cars remained upright and were pulled back upon the track, the train proceeding upon its way two hours behind schedule.

# HOOVER AND FORMER CHIEF DISCUSS BIG GOVERNMENT ISSUES

## President-Elect Remains Closeted With Calvin Coolidge in White House Proper For Over Three-Quarters of Hour

(By The Associated Press) WASHINGTON, Feb. 20.—Draconian assurances of continuity in the outgoing and the incoming administrations, President-elect Hoover conferred at length at the White House today with President Coolidge on government problems. The interview was at Mr. Hoover's request but Mr. Coolidge fixed its hour.

His conversation with Mr. Coolidge was supplemented later by an engagement with Secretary Kellogg of the state department, for a review of foreign affairs.

Mr. Hoover was received by President Coolidge in the White House proper and not in the executive office. After remaining closeted about three-quarters of an hour with the chief executive, the president-elect, told the waiting reporters in general affairs of government had been discussed and referred to the chief executive for further comment.

At the Hoover headquarters, however, Mr. Hoover's anxiety to log no more in seeing the president on reaching Washington from Florida was taken as an added indication of his intention that the conduct of public affairs before and after March 4 should be merged without iota of radical dislocation. This, it was felt, could only be achieved by a close understanding on Mr. Hoover's part of the major issues facing Mr. Coolidge's policies at this time.

# WORKMEN AT POCATELLO FIND DEAD MAN IN CAR

POCATELLO, Feb. 20.—The burned and frozen body of a man identified from papers in his clothing as John O'Neill, a railroad switchman of Chicago or Kansas City was found in an empty Pacific Fuel-Breast car here today by workmen at the company's plant.

Death apparently had been caused by gas fumes from a heater in the car, and the man had fallen against the charcoal burner bearing the left side of his face and body. The body was heavily clothed.

He is believed to have boarded the car near Chicago.

# FIVE MINERS LOSE LIVES IN ACCIDENT

PEORIA, Ill., Feb. 20.—Five miners were killed, four seriously hurt, when a train wrecked today at Peoria, Ill., on a 25-foot embankment near Hollis, five miles south of here.

The train carrying about 500 miners, 17 miles south of Peoria, was proceeding at the rate of only 12 or 15 miles an hour when the railroad officials said, when one of the coaches was thrown off the tracks by what was believed a broken rail connecting the rails.

One car after another tumbled down the embankment with their loads of iron, 60 to 75 miners each until four were killed and about 150 others were almost upside down, others on their heads.

In some of the cars were coal heaters and one of them was set afire. The blaze was extinguished before it had spread to other cars but not before a miner was probably fatally burned. He was pulled from the ditch, his children were nearby and within a few minutes the men were rushing frantically in the scene, facing the live below zero weather.

Forty forty injured men still were in hospitals. About 100 others had been treated for minor injuries and taken to their homes. Those taken to hospital were William Brown, Lester Jones, George Wilkinson, Cecil Walker, and Charles Luthy, all residing in or near Peoria. The seriously injured were: James Clark, Henry Zorn and Henry Zimmer.

The note read: "Don't you even look like you are being held up."

# BILL TO HELP AGED PERSONS GOES DOWN TO DEFEAT IN HOUSE

## Representative-Oversmith-Latah County, Brands Measure Instrument of Eagles Logo Trying to Cast Off Burdens

(By The Associated Press) BOISE, Feb. 20.—Demands for reduced taxation overriding appeals for assistance to the aged poor, the house today defeated the old age pension measure by a vote of 33 to 23.

Argument over the measure began in the forenoon and was continued after noon recess with Representative "Brainard" Shoshone, carrying the Taylor, Kootenai county, bearing the brunt of the sense and Representative Oversmith, Latah leading the attack.

Representative Oversmith branded the measure as a "tax on the eagles" and the eagles lodge of the state to which state take over a proposition which had started in Taylor, Kootenai county, bearing the brunt of the sense and Representative Oversmith, Latah leading the attack.

Representative Oversmith declared it all left with county commissioners the option of whether they would put the measure into effect and if such offered no more to the aged than they were now getting.

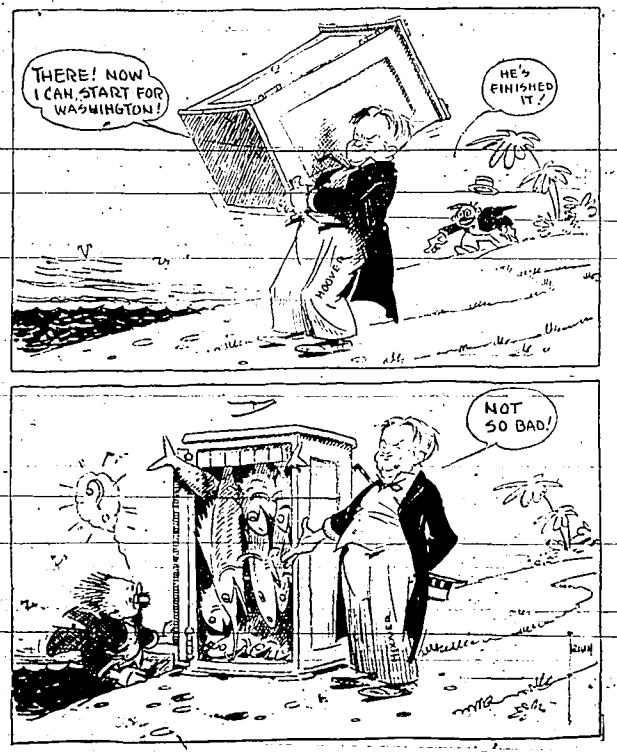

The debate prevented the house completing its calendar for the first time in 1929. The session adjourned with six measures set for passage.

Representative "Woods" of Pocatello, carrying the measure, the house passed a bill exempting veterans' memorials from taxation. Today the house also passed a bill of the American Legion posts and other organizations supporting the memorials. Representative Jorgensen also supported the measure, insisting that it was unfair for the state to set up machinery for providing memorials to the soldiers when they unload the burden upon the very ones to whom the memorials were dedicated.

Senator Oversmith opposed the measure, merely piling one more load upon the taxpayers of the state. Moreover, he declared the measure would result in an advantageous position over private concerns whose dances and other offerings were compelled to pay taxes while the memorials were tax free.

Senate Industrialists The senate, more industrious at its afternoon session today in its calendar, passing a bill to standardize threads on hose and other connections on fire fighting equipment and a bill to make a standard for trespassing on fur farms.

having been the subject of earlier legislation especially affecting them.

"Another of the numerous name preserve bills was introduced in the house today, this one setting aside a tract in Deer Lake, Benewah and Caribou counties to be known as the C. B. Wilson state preserve in honor of the veteran representative from Caribou county.

"An appropriation of \$40,000 for the veterans' welfare commission was provided in a bill introduced by the house appropriations committee. This fund represented an increase over the previous biennium. The commission in its annual report declared that increasing expenditures would be necessitated from now on because of the growing number of veterans breaking down from war service.

An additional appropriation of \$50,000 for the Blackfoot asylum was provided in another house bill. This money would be used with \$25,000 carried in the budget appropriation to build and equip a new unit at the asylum.

Before acting upon the work of passing bills, the senate debated for an hour before indefinitely postponing two bills increasing the enforcement machinery of the prohibition law.

The bills were supported by their author, Senator Freehafer, Democrat, Payette county, who declared that "the vote of the last election was simple proof that the country wanted prohibition enforced." One of the bills provided that half the fines collected from liquor law convictions would be turned into a special fund for use of enforcement officers in gaining more evidence of violations. This was called as giving the sheriff control of a fund beyond reach of the county commissioners.

The other bill drew most fire with its provisions that an enforcement officer could obtain a search warrant only upon his sworn belief that there was a violation of the law on certain premises. Senator Callahan branded it as a "rank violation of the spirit of the constitution." When reminded by Senator Freehafer that it was not a violation of the letter of the constitution, Senator Callahan said he "would resign his seat rather than pass legislation in violation of the spirit of the constitution."

"We can trust the supreme court to prevent violations of the letter of this great instrument but it depends upon the law-making bodies of the nation to prevent infringement upon its spirit."

**COOPERATION THEME AT MEETING OF GRANGE**

Cooperation was the theme of the program put on by the Twin Falls County Cooperative Dairyman's association at a largely attended meeting of the Twin Falls Grange last evening.

Guustav Kunze, Bull, president of the dairymen's association, was the principal speaker. He dwelt in particular on the dairy and egg business but said he favored government ownership of railroads, and, that coming down to smaller things, he believed in cooperative killing of sparrows. Harry Nelson, manager of the dairy association, made a comparison of cream prices here with prices where there is no cooperative organization in existence, as evidence of the value of cooperation.

William E. Woods was elected secretary to succeed O. W. Dougherty, who has moved to Jerome. Mrs. J. H. Barnes favored the company with several musical numbers on the harmonica. At the close of the program, ice cream, cake and coffee were served by the dairymen.

### Twin Falls Sextet Vanquishes Speedy Filer Girls, 27 to 17

Fair Bruin Basketeers Drive, Through Opposition to Win Runner-Up Honors in Fast Game Staged On Buhl Floor

(Special to The News)  
**BUHL, Feb. 20**—The Twin Falls girls' basketball team defeated Filer here tonight in the play-off game to determine the runner up in this district, 27 to 17.  
 The opening quarter was close, hard play, both teams passing carefully and working for the breaks. A field goal went each way, but the guarding was so close that only one of the many shots found each basket. In the second round the Twin Falls forwards began to put on edge on their attack at the ball, driving steadily to loop three from the field while Filer had to be content with one.  
**Filer Launches Drive**  
 When the second half opened Filer, mindful of the previous game in which they made a second half win started an increased offensive, and did score three baskets from the field, but they met a counter attack made by the Twin Falls girls which brought five field goals to the Bruin side of the score. The third quarter was the hardest period of the game, and filled with swift action. It took much of the reserve strength from both sextets, so that the last quarter had to run at a slower pace. Play in this quarter was checked by the liberal calling of fouls on the Twin Falls team.

### Twin Falls Bruins Defeat Jerome Five

Coach Jones' Crew Playing Away From Home, Beats North Side Cagers, 19 to 9

**JEROME, Feb. 20** (Special to The News)—Play on the Jerome floor the Twin Falls Bruins took the long end of the basketball game here tonight from the Jerome boys, 19 to 9.  
 In what may be the last of the preparatory games before the district tournament the Bruins elected to give their defense a tryout on the larger floor at Jerome and as a result made their lowest score of the season, but held the fast Jerome team to 9 points, allowing them only two field goals. And this with Martin out of the line for because of a cold. Nelson appears to have found his eye and time in good shape, and with another weeks work will be ready for tournament play.  
 The work of the whole team on defense was steady and appeared satisfactory to Coach Jones, even when

the many substitutes used were on the floor. Jerome had the ball much of the time and called out all the speed of her players in the effort to break through. Luck was not with them. Throws for the basket were hurried beyond the point of accuracy, the long ones did not find the basket, and side shots were not on the program as the Bruins made it.

Point Barrow with the outside world. Fifty-one hours later a radio station was functioning there. A radio operator of the Signal Corps was carried from Fairbanks by airplane. He took with him an improvised short-wave set which would be used at once.

There are plenty of answers for the citizen who asks what in the world is the use of a radio station there in the snow fields. First, important weather information is obtained at Point Barrow which, like Medicine Hat, is one of the places where weather is made up and sent forth to settled communities.

LOFTY NOTRE DAME. A most curious utterance comes from the Rev. Charles L. O'Donnell, president of the University of Notre Dame. Speaking to a group of college fraternity men in New York, he makes this incredible statement:

"We deplore the excessive and almost exclusive emphasis of Notre Dame as a place where a football team is turned out. Nobody at Notre Dame is noted by it, least of all the boys and those who play on the team. The students are not indifferent to athletic success, but they are interested first of all in their books."

In corroboration of what the rays, President O'Donnell declares that last fall he traveled with the football team and never heard a word spoken about football. The boys, he says, "read, studied, played bridge and dined."

Another remark of President O'Donnell is a man of unimpeachable integrity, but his statement overtaxes human belief. How can any college crowd, even one noted with victorious knowledge of football, emphasize only a bubble?

### 1000 PERSONS SEE OAKLEY DRAMATISTS

#### 'The Whole Town's Talking' Scores at Latter Day Saints' Twin Falls Amusement Hall

Approximately 1000 persons laughed at and applauded the clever three-act comedy, "The Whole Town's Talking," presented by the Latter Day Saints' troupe from Oakley, directed by Mrs. Maude M. Clark at the Latter Day Saints' Amusement hall last night.

The plot originated from the circumstance that the daughter of the senior partner of a manufacturing firm refused to fall in love with the junior partner, a most exemplary young man because he had never had a love affair. There was a social villain who had many affairs and who had won his money by a most unscrupulous means. He and his junior partners agreed to intimate to daughter that the junior had a past and had once been mixed up in a scandal with a famous movie actress whom the young man had never seen. Daughter fell for and was engaged to her friends. "The whole town began talking and offered the actress and her troupe big money to appear. The rest is too complicated to describe but in the end true love if not veracity won out.

Specialties arranged by Mrs. June Kirkman, consisted of opening numbers by the Night Hawks, two solos played on a saw by Zelden Merkley, Kimberley and numbers by a quartette composed of Mrs. Ellis Borling, Mrs. Claude Brown, Mrs. Reed Bitter and Mrs. Flossie Kirkman, with Miss Wilma Hammond as accompanist.

Cast of characters: Henry Simmons, a manufacturer, Charles O. Simpson, Harry Simmons, his wife, Eliza Merchant; Ethel Simmons, their daughter, Ralda Clark; Chester Binney, Simmons' partner, Kenneth Stringfield; "Lulu" Lynn, a motion picture star; Myrtle Cranney; Donald Swift, a motion picture director; Blaine Martin-Jane; Roger Shildes, a young Chicago blood; Clifton Wilson; Lila Wilson, Agnes Smith; Sally Otis, friend of Ethel; Ralda Smith; Annie, a maid; Rosemary Clark; Sadie Bloom; Leggie Martin-Jane, taxi-driver; Marty Blaindale.

### TAX REFUND CASE COMES BEFORE SUPREME COURT

The case of Asher B. Wilson against Twin Falls county on a matter of tax refund for delinquency under the Salmon project will be heard by the supreme court this week. Wilson bought certificates for Salmon land sold for taxes amounting to about \$200. Later the supreme court held 100 long before proceeding with his action was that the statute of limitations ran against his claim. The district court upheld the county and Wilson appealed. O. W. Witham, who represented the county in the district court appears in the same capacity in the hearing in Boise.
