Bruins Meet Coeur d'Alene in First Round of State Tourney

Drawings of Teams Assure Fast Games In Opening Series

Elimination Process Will Begin Following Preliminary Basketball Tilt in Gymnasium at Moscow

(By The Associated Press) MOSCOW, March 13.—The "blind hat" drawings this evening for the opening game of the Idaho state interscholastic basketball tournament here tomorrow morning promise that the preliminaries will provide a test for the strongest district winners in the competition.

This is the way the teams line up for the opening games: 10 A. M.—Boise vs. Salmon City, with the capital city Braves favored. 11 A. M.—Lewiston vs. Madras. Rexburg, Madrasian liable to give the Braves a hard race. 2 P. M.—Pocatello vs. Moscow. In what should be a real mainline attraction, bringing together, as it does, the State's strongest title holder and one of the North's best promoted fives. 3 P. M.—Twin Falls vs. Coeur d'Alene, another good scrap with speculation rife as to the outcome.

After these contests, the elimination will be arranged—the losers and winners engaging winners to complete the day's schedule of eight tilts at 10 P. M.

Salmon City reported unable to make Moscow before tomorrow morning, put in a surprise arrival this afternoon. All other teams arrived either last night or this morning.

The opening games show, with one exception, teams mixed again, each other evenly matched. That exception, Boise vs. Salmon City—however, may prove decisive. Two years ago Salmon City put Boise out of the early running at just such a first game draw as coaches tomorrow.

Rules were straightened out at a coaches' meeting this evening and everything is in readiness for the 10 A. M. whistle at 10:05. Spokane, Pacific coast conference official, and Dave Stritmatter, Sandpoint, will be the tourney officials.

LEO CALLAND, who comes from the University of Southern California to direct the athletic destinies of the University of Idaho.

Calland Brings New Idaho Athletic Era

Every University Student Will Come Under System of Physical Supervision

MOSCOW, March 13 (Special to The News)—Every student in the University of Idaho will come under a new system of physical education and athletics program which Leo B. Calland, whose appointment as head of the department of physical education and athletics and head football coach recently was announced, is expected to develop at the university.

The aim of the new department head is a program which will provide the supervised exercise necessary to the well-being of every student, particularly those who need it most, to train young men competent to go into the high schools of the state as coaches and athletic supervisors of students before they reach the university, as well as to develop creditable teams to represent the university in competitive events in the many sports with other colleges and universities.

System Develops Talent Mr. Calland believes that a strong physical education, intramural, and class athletic program actually will develop most talent worthy of a place on varsity squads within the new brackets. Thus every student with an ambition to play on a university team will have every opportunity to do so, though when he enters college his abilities may not immediately attract the eyes of the coaches.

As indicated by President Frederick J. Kelly of the university, the new athletic program will look toward a close relationship between activities at the main campus and the southern branch. As in the various educational departments, in which the work of the freshman and sophomore years is the same at both campuses, the work in physical education will be made to parallel. This will enable students who start in physical education and athletics at Pocatello to continue their senior college work at the main campus without any break in the continuity of their development.

Cochair Has Experience Mr. Calland is now director of intramural athletics, varsity basketball and freshman football coach at the University of Southern California. For two years he directed physical education activities at Whitler college, coached football, basketball, and baseball. In both institutions he developed broad programs which not only gave the students the necessary exercise for their physical development but produced considerable valuable material for his varsity teams. The new Idaho director has had six years of coaching experience in all branches of sports. As a student at Southern California he achieved considerable distinction as a football and basketball player, being chosen all-American guard in 1922.

Rocky Moore Loses Furious Fight With Travis by Decision

Judges Credit Heavier Man From Spokane With Best Performance After Fast, Slashing 10-Round Bout

In 10 rounds of fast, hard fighting here last night Bud Travis, Spokane, 46, gained the decision over Rocky Moore, Twin Falls, 137, in the head line bout of the American Legion Post's boxing card.

The evening was filled with action, from the moment the seven-angled battle royal started until the announcement of the decision in the last round, and the fans, including a fair sprinkling of the feminine gender, were more than pleased.

With all of his craft, generosity and pluck, Moore was not able to give the tough and willing Travis nine pounds and hold him level. Travis earned the decision. He ran into heavy weather in the third when Moore put a hard right on the button that sent him to the canvas. He was up before the count started, but was badly shaken, and while Moore threw a flood of blows at him in the effort to end things, Travis worried through, gaining back his strength, and was fighting at the bell.

Moore Takes Left to Jaw Coming back in the fourth Travis carried the battle to Moore, and they stood toe to toe and traded swings until a flying left reached Rocky's jaw, and another opened a cut over his right eye. Moore was trying for another of his smashing rights, but Travis had a marked respect for that hand, and some of Moore's heavy efforts in this round reached the intended mark. This round was even, and so was the fight-filled fifth, both boxes easing off the pace a little toward the end of the sixth.

From the sixth round to the tenth Travis' extra poundage told. He seemed the stranger at the close, work and gained enough lead on points to earn the decision.

Both men were well marked with color through the rounds. In the second a straight left started Moore to spitting blood and in the third Moore found Travis' recently operated nose and started a flow from it that he kept going most of the rest of the way. Travis opened a cut over Moore's right eye in the fourth, and balanced it with one over the left eye in the sixth. There was no stalling, or loafing.

Four Sextets Ready To Compete at Buhl

Prepare For Fast Tilts In Idaho State Tourney

BULH, March 12 (Special to The News)—Drawing for places in the state tournament of girls basketball to be held in Buhl on Friday and Saturday nights, March 15 and 16, will be held at the Boring "drug" store, Buhl, Thursday at 8:00 P. M. Representatives from the four schools who will enter teams in the tournament will be at the drawing.

Word has been received from the Idaho Falls basketball team that they will arrive in Buhl Tuesday afternoon by train, and they expect to have a delegation of backers here for the tournament. The other teams in the tournament are Blackfoot, Caldwell and Buhl.

Outstanding Record Caldwell girls have the most outstanding season record of any of the four teams entering the tournament. They have won a total of 20 games this year with no defeats. The score board shows them to be a strong offensive team. Their average score per game is 44 points to their opponents 13.

The records of the Idaho Falls and Blackfoot teams are about equal. Each lost a game to the other, but won all the rest of their season's contests with overwhelming scores.

Buhl Indians went through this season without a defeat, and while their scoring record has not been quite as impressive as during the last four years, many fans claim the Buhl team to be the best it has ever been. Buhl's total score for the season is 651 to opponents 239, or an average of 37 points per game to 10 per game for opponents.

Nurmi, Fleet Finn, Talks Of Breaking Five Records

NEW YORK, March 13.—Paavo Nurmi, heretofore plighted and planning is going for the spectacular. He announced today that he would undertake to break five world records in one race Saturday night and then would register to airplane travel to meet running championships running from here to Los Angeles.

Both men worked hard all the way, and gave the crowd an excellent battle, which tilted the tide of advantage swung from one to the other often enough to allow of adherents of each full chance to exercise their votes.

Twin Falls Fighter Wins Ernie Woolley, Twin Falls, 142, won from Roy Heber, Boise, 143, at the end of the fourth round when Heber's seconds tossed a towel into the ring to save their man further punishment.

Woolley had him groggy after four knockdowns, and was clearly superior at all angles of the game to the Boise fighter. He had the most weight in his blows and did much damage with a left hook that seemed to find its mark every time he turned it loose. Four rounds of this mixed with some effective work at short range with both hands, brought the Boise man to the verge of a knockdown, while Woolley was unmarked. Ernie is a willing worker in the ring, and shows improvement in each bout he enters.

Alvin White, Twin Falls, and Bob Gonzales, Reno, made the first preliminary round with four rounds of hard punching. The opener was a seven-cornered affair in which each boy had his right hand bound behind him, and wore a glove on his left. The ring was full of vagrant gloves for a time, but in just eight minutes there was but one survivor, and he got the decision. Howard Gillette was the third man in the ring in the men and semi-final bouts, and Tom Hughes took care of the opener and preliminary.

event for high school learning. Every bright high school student knows how the work of the class is held back by the presence of those who have no interest in it.

There is already some question of whether it is wise to try to cram academic instruction into all-brains. This is still more true of college.

Sending everybody to college would lower the standards of college work. All those who want to go are willing and able to learn should be enabled to go. But is it wise to force attendance on the others?

THE LAST KICK
 The last going kick of Old Man Winter has hit Southern Idaho, and again, roads with the exception of the main highways are badly blocked. Drifting snow is everywhere apparent in the country although in the towns it has already practically disappeared.

Probably within the next ten days Spring will have set in earnest. Warm sunny days will rapidly dry up the surplus moisture, plowing will commence and the fields will begin to take on a new appearance.

Its disagreeable now, but it will not take long to forget. One of the finest points in human nature consists of the ability to forget almost every form of disagreeable experience once it is safely over.

Girl Reserve Committee Sponsors Orpheum Film

Members of the adult committee of the Girl Reserves are sponsoring presentation of "Court-Martial" at the Orpheum theatre March 15.

The play, featuring Jack Holt and Betty Compson in a wholly new role for that vivacious young woman, is set in a background of Civil war days, and abounds in the action and tense emotional crisis to be expected of the times. Because of its truth in portrayal it has a value all its own for the student and

TWIN FALLS

BUHL

WANTED FOR CASH 10,000 ACRES

Of Sugar Beets at \$7.50 per ton, guaranteed minimum, with the straight 50-50 profit-sharing provisions in the contract. It only requires a seventy-five per cent harvested stand of two pound Beets to make twenty tons per acre.

\$35.50 per acre pays for seed, ALL hand labor, including the topping and LOADING of a twenty ton crop.

1929 is sure to be a good Beet year.

Can you afford to miss an opportunity for REAL PROFIT in a CASH CROP?

It is NOT necessary to plant Beets on alfalfa or one year from alfalfa land. All of Southern Idaho's fertile lands respond very readily to intensive farming methods, which invariably proves to be an economical essential.

Any REASONABLY GOOD land, properly prepared, will produce, with average care, a PROFITABLE crop of Beets, with a substantial and timely return on your investment.

The fundamental necessity to our success is your prosperity. If you succeed: We succeed.

If The Amalgamated Sugar company remains in the territory with its enormous investment and payroll your financial burdens are greatly relieved. It cannot remain without your support.

With a keen interest in your success we are offering a very attractive contract with a maximum guarantee, and the best service an efficient organization can render, supported by a scientific, conservative and favorable prediction by The United States Department of Agriculture.

Not a lottery—Not a gamble— Sugar Beets for a sure thing.

The frosts and hail may come, you know, BUT the Sugar Beets just continue to grow.

DIVERSIFY

We earnestly solicit the support and co-operation of the Twin Falls County FARMERS, LAND OWNERS and CITIZENS in making this the BANNER BEET YEAR and securing for the territory a two and one-half million dollar beet and labor payroll coincident with a factory operation.

NOT ALL BEETS: All we ask is a chance at a conservative part of your business.

Call your fieldman or Phone No. 4 We will gladly look over your land and will NOT advise you wrong.

COUNTY'S ESTIMATE OF COSTS REQUIRES TRIMMING ON EDGES

Commissioners Will Slash \$205,500 Tentative Budget Only \$9500 to Come Within Limit of Revenues

Sometime before the first Monday of April, Twin Falls county commissioners will have completed reduction of a \$205,500 tentative estimate of county expenditures for the coming fiscal year, whitening the estimate down to approximately \$2500 to bring it within the limits of \$202,000 anticipated county revenues for the year.

As compared with the last year, of trimming \$20,000 off the estimate of expenditures, the commissioners are undertaking this year an easy one. The estimate of expenditures is not far from the tentative budget which has been compiled and submitted to the county auditor by the county commissioners. It includes estimated expenditures of all departments of the county government and of all county institutions.

Anticipated Revenues. Total of anticipated revenues is made up of \$92,710 coming from all sources, other than taxation, together with \$109,507, which is the estimated yield of a 40 mills tax levy, which is the same levy that was made last year.

On the second Monday of April, the tentative budget, as remedied by the commissioners, will be submitted at a public hearing for criticism and suggestions on the part of the county's taxpayers.

Committee representing Twin Falls Chamber of Commerce, Republican and Democratic county central committees and Twin Falls County Grange played an active part in a similar hearing last year.

Highways Open Except Toward Salmon Country

Highways are generally open in all directions except south. It was stated last evening by W. H. Childers, of the state highway department. The north and south road near Murtaugh is open for traffic. The highway which was expected to arrive yesterday from Burley, was broken just as the road near the city was about cleared. It is expected today and when it comes will proceed to operate on the highway toward the Salmon. All stages were in operation yesterday except those between Twin Falls and Pocatello. Light stages are running to and from Boise.

Canal Company to Issue Permit to Kill Muskrat

Authority was granted to the Twin Falls Canal company to issue permits to hunt muskrats along the banks of the canals in a letter received yesterday from R. E. Thomas, state game warden. The muskrat is protected by law from hunters, except those who have a permit from some person or corporation having authority to issue one. This authority has been extended to the canal company for several years, on account of the injury the rats do to the canal banks. Permission to kill the rats must be obtained at the office of the company here.

TWIN FALLS MAN LEAVES FOR NEW BUSINESS FIELD

Merlin G. Batley, who lately disposed of his interests in the National Laundry company with which he was identified in an official capacity for two years past, left last evening for LaGrande, Oregon, where he has purchased a laundry and dry cleaning plant. Mrs. Batley and little son, Billy, will leave to make their home in LaGrande about April 1.

Since 1919 when he became owner of the Imperial Cleaning company here, which was merged two years ago with the National Laundry company, Mr. Batley has had a prominent part in business activities here. He has been an active member of the Kiwanis club, and served last year as commander of the Twin Falls American Legion post. Both he and Mrs. Batley have been prominent in social circles, and their departure will be regretted by many friends.

COUNTY'S BIGGEST TAX ON INHERITANCE ON LIST

An inheritance tax totaling \$1420.10 believed to be the largest to be paid on transfer of an estate in Twin Falls county, has been charged against the heirs of the late C. Griffin, Vinton, Iowa, millwright, according to the Transfer Tax report filed in the probate court here yesterday. The tax is to be paid into the Idaho state treasury. It has been assessed against property in Twin Falls county, which is a part of the estate of the late Dr. Griffin who was at one time a stockholder in a bank here, and whose death occurred in Iowa in March, 1928.

The heirs, under the will, are the widow, Mrs. Sarah F. Griffin, and a nephew, Clark C. Griffin, Jr. Value of the widow's life estate in the property is estimated at \$23,300, and value of the nephew's share is \$58,811.

Moseley Wages Fight Against Liquor Charge

Motion to set aside the information in effect dismissing felony charge of illegal possession against Ross Moseley, Filer, was presented before Judge W. A. Hibcock in district court here yesterday by W. L. Dunn, Moseley's attorney. The motion was based on contention that no adequate record of any prior conviction of Moseley on charge of violating the liquor laws had been filed in the district court. Judge Hibcock allowed until 10 A. M. today for filing of this record, and it was agreed that further argument on the motion would be heard at that time.

Their 14-year-old son, according to the complaint, is with the mother. The complaint was filed by Purser and Taylor.

She asks also for custody of two children, a girl, four, and boy, two, and for the community property consisting of livestock, household furnishings and farm equipment valued at \$400. The complaint was filed by O. C. Hall.
