

ADVENT OF SPRING HERE TO BE MARKED BY OPENING EVENT

Eighty Merchants Cooperating in Arrangements for Welcoming Expected Throng of Visitors

Spring's advent in Twin Falls next Friday will be marked by a complete showing of new and seasonable merchandise ranging from millinery to automobiles to be displayed in connection with an annual Spring opening in which 80 Twin Falls merchants with 24 automobile dealers and five dealers in tractors and farm implements are cooperating.

Invitation has been extended to all the people of this region, and with improved weather and road conditions, following a long and severe winter, it is anticipated that the Spring opening will bring to Twin Falls one of the largest crowds ever assembled here on a similar occasion.

Offer Cordial Welcome
Merchants participating in the event are going to considerable lengths to extend a cordial welcome to guests, and will have on display in the most attractive manner all of the new things that the season's offerings afford.

With four bands to furnish music, a parade at 2 P. M. to be the first event of the opening. Music throughout the afternoon and evening is to afford a pleasant feature of the event.

Space of two and a half blocks on Shoshone street in the vicinity of the city park is to be set apart for the automobile show which is an important part in connection with the Spring opening this year. All of the new models will be on display. The space will be closed to traffic from noon to 9 P. M., and it is necessary to accommodate a growing list of entries, additional space will be provided on Fourth avenue east, according to agreement reached by the merchants' committee, and the city council.

rights and privileges of any children, particularly to those children residing in the more remote districts where, at best, the educational opportunities are necessarily somewhat limited.

Charges Carelessness
He pronounced the fur farm bill carelessly drawn and though conceding that much of the fur supply of the future would undoubtedly come from such farms, he believed legislation controlling the industry should be more strictly drawn.

He signed a bill increasing the fees for filing on water, an increase that was aimed at making the reclamation department self-supporting. A bill establishing a fund into which would be paid all taxes collected on gasoline used in airplanes was signed, as was a bill setting up new requirements in registration for voting. The bill requires that the voter must state his party affiliation before voting in the primary and vote accordingly. This feature of the bill was aimed at preventing alien herents of one party causing the nomination of a "weak" candidate on another party ticket, in order that the integrity of the election be maintained.

The bill also required that voters swear to their exact date of birth. The provision in the bill was intended to eliminate several thousand women voters. The new law requires registration before every general election.

PLUMHOF PREDICTS PROSPEROUS FUTURE

General Manager of Oregon Short Line Expresses Optimism During Brief Visit

Prosperity in all lines of production and in the coal industry is being predicted by H. J. Plumhof, Salt Lake City, general manager of the Oregon Short Line, who was in Twin Falls yesterday between the time of arrival of the train from Wells and the departure of the eastbound evening train. Mr. Plumhof, who was traveling in a special car was accompanied by L. W. Alford, superintendent of maintenance of way. Both left for Salt Lake City last evening.

Prospects for agriculture this year appear good at this time, Mr. Plumhof said. The price of metal is high which means mining prosperity, especially in connection with the long winter which has greatly assisted the coal industry.

"This is my first trip over the Twin Falls-Wells branch," said Mr. Plumhof. "The road is in excellent condition and has a fine track. Business over this branch is gradually increasing. The late storms which filled some of the cuts and necessitated the use of the rotary engine, in no way interfered with the stability of the track and the trains are making regular time since the cuts have been cleaned out."

Beach Understanding
Mr. Plumhof said that an understanding had been reached whereby a passenger on the Western Pacific eastbound train No. 2 train could connect with the northbound train from Wells to Twin Falls; and a passenger to San Francisco and way points, leaving Twin Falls over the Twin Falls-Wells branch could make connections with No. 1 westbound passenger over the Western Pacific. In the first instance the traveler would have to telegraph ahead to ask that the Twin Falls train delay departure about 20 minutes. In the second instance the

his resignation was to take effect. Commenting on dispatches from Washington stating that Attorney General Mitchell had granted him a leave of absence effective at once to the effect his resignation became effective, the warden said his affairs were in such shape that he could not leave now.

Turkey Theft Reported

Theft of seven turkeys, constituting a felony under Idaho law, was reported to the sheriff's office yesterday by Mrs. Conrad Duhl, owner of the missing birds.

Stolen Car Discovered Abandoned at Roadside

Abandoned at the side of the highway near Kimberly where it was lodged against a tree, an automobile owned by Lester F. Morse, 211 Third avenue north, which was stolen late Tuesday night from the curb on Shoshone street east, was discovered within an hour after the owner discovered the loss. The car, which was not badly damaged, was turned toward the west and is believed to have been used by thieves on a trip east of Kimberly from which they were returning when the accident caused them to abandon the machine.

MEDICAL UNIT MAY GO TO WASHINGTON

Commissioner Macey Adises Delay May Result in Loss of Opportunity

Unless Twin Falls county acts quickly in regard to the securing of a full time medical unit it will probably lose the present opportunity. It was stated last evening by G. K. Macey, state commissioner of public welfare, who with R. H. Pratt, state sanitary inspector and G. C. Prouty, assistant bacteriologist of the University of Idaho, arrived here last evening, and will meet Dr. P. W. Covington of the Rockefeller Foundation-Salt Lake City, who is expected here on the noon train today to give further consideration to the subject here.

Mrs. Macey declared that several points in Washington want the federal appropriation of \$2400 which goes to make up the \$5400 from outside sources contributed to the county in the event that it meets them with like sum of \$5400. The Rockefeller Foundation puts in \$1500 and the state \$1500.

He expressed the belief that had the unit been in force when the cerebro-spinal meningitis was discovered here, all the lives lost might perhaps have been saved by a general test for carriers, such as that now going on, much cost would have been averted and the great financial business loss which Twin Falls county suffered would have been avoided. In every state save Idaho and Nevada there is at least one county with a full time medical unit, and in some states 50 per cent of the counties have such units, Mr. Macey said.

Speeders' Day in Court

Violations of traffic regulations, with a preponderance of speeders, made up the Twin Falls police court list yesterday. Six persons contributed \$20 to \$15 fines each for speeding, and two others paid \$250 each for running stop buttons.

Spring Weather Almost Empties Burley Falls

BURLEY, March 19 (Special to The News)—What is hoped for by local police officials to be a sure sign of spring, is the condition of the city and county jail. The population of both centers of detention has dwindled to but one guest. "Curley," the last remaining county charge, has been officiating as jail cook for several months, but preparations are being made for his release. During periods of inclement weather, especially during hard winters, the census figures of both jails sometimes amount to a score or more. But when the robins start pulling long red worms out of the jail yard turf, experts say, the jail inmates takes on the appearance of the great vast spaces of a western state, and nothing remains to remind one of former congested conditions, except a well thumbed deck of greasy cards. The inmates have departed, to pass the milder seasons as foot law abiding citizens.

Christian Endeavor to Hold Meeting at Burley

BURLEY, March 19 (Special to The News)—Sixteen churches are uniting in the Union Christian Endeavor convention to be held in Burley, March 22 to 24. They comprise the southern district of Idaho and include the following denominations: Christian, Presbyterian, Congregational and United Brethren.

Local churches are preparing to provide a banquet on Saturday evening, Friday evening there will be a get-together meeting for visiting delegates and local church members in the basement of the Christian church. The program includes addresses by visiting and local delegates and entertainment.

GASSIA FARMERS FORM HOLSTEIN ASSOCIATION

BURLEY, March 19 (Special to The News)—A well attended meeting in County Agent W. W. Palmer's office Saturday night, final arrangements completing the organization of the Burley-Dixon Holstein Bull association were put into effect. Nine blocks of one bull each were declared on, and it is believed that one or two more blocks will be formed.

Ray C. Edwards, one of the original Mindoka project entrainers, made a stirring plea in favor of the association, reciting the many benefits that would accrue to farmers and dairymen through the workings of such bull associations. He stated that the establishment of this association was the greatest step in advance the farmers had as yet taken on the project, and that it would prove more effective than any industry yet established here. The Burley banker, who are assisting the movement, had representatives present.

A purchasing committee, consisting of M. V. Middleton, James Ebaugh, L. A. Gillette and W. W. Palmer, was appointed. This committee will leave Burley Thursday, in Middleton's automobile, to secure the bulls, which are to come from families producing not less than 600 pounds butterfat. The committee will spend about two days in Boise valley, and then continue to Portland, here to meet R. E. Everly, National Holstein association field man. From Portland they will continue northward Seattle. The bulls will be brought back by Mr. Baugh and will probably arrive about April 1.

Committee members heading groups that have already decided to form blocks are: H. C. Borg, Herman Moberg, Dr. W. Hanks, Iva Thurston, James J. Perry, Fred R. H. Jacobs, L. A. Gillette and Thomas Palacios.

fresh! tea

The world's only truly fresh tea

not merely because it is sealed in vacuum + but because it is fresh to begin with. You will never know how much that means... till you try it. No other tea is so fragrant! Nor can it be + for it's a closely guarded Schilling secret.

When tea is first toasted in its Oriental gardens—it has a fresh fragrant flavor that is lost long before you can enjoy it—lost crossing the Pacific.

But Schilling tea is toasted by a secret process that retains that fresh garden fragrance.

This toasting also draws certain hidden aromatic flavors to the surface of each tea leaf—fragrant flavors that you have never tasted before.

While still warm it is sealed in vacuum. A vacuum tin is just as important for tea as it is for coffee. Tea loses flavor when packed in any other way.

If you would like to know the real delight of truly garden-fresh tea—try a tin of Schilling's. Compare it cup for cup with any other tea. Your money back if you don't like Schilling's best.

SELF-GOVERNMENT FOR DRIVERS

Another state prepares to follow the example first set by Michigan and Connecticut...

Safe speed is defined as speed that will permit him to bring his car to a stop within the visible clear distance ahead.

Another main reason given for such a limit is already following this rule in practice, ignoring the letter of the law...

Along with this highway rate, it is proposed to speed up traffic a little in cities and abolish "speed traps."

Missouri proposes a maximum speed of twenty miles an hour in congested districts of municipalities and thirty-five miles elsewhere within the city limits.

It remains to be seen how well motorists will actually use their freedom...

CIGARETTES

It is not in the least surprising that objection should be raised to certain recently appearing upon local billboards.

Whether or not the use of cigarettes by men or women amounts to the evil which it is frequently painted, a large percentage of people will feel perfectly free to resent the manner in which the business is put up to all and sundry in the pictures referred to.

But modern business is susceptible to public expression and as a result of this, many indignities are meted out.

There are a good many women's organizations in the United States, from the National Federation of Women's Clubs down.

MACHINE-MADE PROGRESS

Statistical figures that it takes only thirty per cent as many persons today to produce the same number of automobiles as it did in nineteen hundred forty.

We might guess that, speaking in general, half of us are now producing as many things for human use as all of us together were producing before the war.

most of us get our share according to our capacity. We are able to do this because of the progress of material science...

POWER MEN ORGANIZE TO PROMOTE SAFETY

Twin Falls Division Emphasizes Program to Stop Mishaps

In line with the Idaho Power company's safety first program, organization of a district safety committee for the Twin Falls district was effected at a meeting here last evening.

"Our main objective," J. D. Orr, division manager of the company said last evening, "is to reduce the number of accidents."

Choose Safety Guards The plan to be followed by the Idaho Power company provides for the selection of safety guards from each crew of linemen, each power plant, sub-station and other operating unit.

The movement will, it is expected, have a far-reaching effect in reducing accidents, including those of both a serious and a minor nature.

Organized safety work includes the checking out of each crew of protective equipment, particularly that used by the employes in his work, such as goggles, rubber blankets and insulating gloves used in working on live wires.

There is much to be learned by the methods to be followed in handling heavy equipment, building new lines, the type and kind of apparatus to be used and the design of the insulators.

MERCANTILE INSTITUTION

Occupying lately remodeled and artistically decorated and arranged quarters in the Rooster hotel building, Main avenue east, Twin Falls, newest mercantile institution, the S. V. E. store will be opened next Thursday, March 21, W. A. Van Eneken, manager, announced last evening.

A complete stock of ready to wear clothing, yard goods, dress accessories, boys' wear, men's necessities and work clothes has been delivered and now is being arranged throughout the store.

"No effort has been spared by this organization," Mr. Van Eneken stated, "to give the people of this territory the best merchandise obtainable at the lowest possible cash prices."

The Twin Falls store is the sixth of the S. V. E. chain with other stores in Durley and American Falls, Idaho; La-Gro, Oregon; and Anaheim and Orange, California.

Mr. Van Eneken, the manager, was quoted in business in Twin Falls for about five years in association with the Hood-Van Engelen company. In his present enterprise he is associated with H. C. Stevens of the Golden Rule store of Oxnard.

L. McKinney, lately of Elkhart, Wyoming, is assistant manager of the Twin Falls store, and its employes will include Mrs. Tilton, Mrs. Zella Julek, Miss Pearl Arrington, Mrs. Naomi Johnson, Mrs. Berzie Mahan and Wilson Jackson.

Boy Scout Council To Map Out Program

Snake River Council of the Boy Scouts of America will meet in dinner session at the Perrine hotel at 7 P. M. today to map out the program for spring and summer. The meeting was called by Pascal Adams, Burley, president of the council.

There are eight counties in the district, comprising Blaine, Camas, Cassia, Gooding, Jerome, Lincoln, Minidoka and Twin Falls. The scope of subjects discussed has not been fully outlined. Campaigning will be among the things considered, although conditions of the roads leading to the camps has been such that investigation of their present state may be difficult, it is stated.

Girls, don't worry about middle age

Lots to recommend it, if you keep fit

TELL a sensible woman of 50 that she looks like the older sister rather than the mother of her children, and she just laughs at you.

"I'm middle-aged," she'll declare, "and not trying to hide the fact. Why should I? Middle age has a lot in its favor—that is, if you're well and healthy."

"Sick? Never had a doctor in my life except when my babies came. Never had the habit of dousing myself with pills and medicines, either. I just took Nujol—all the time my babies were coming, and in between times, too. I'll always depend on Nujol."

"Even the healthiest woman is better times when her system is out of normal conditions. It not only prevents an excess of body poisons (we all have them from forming, but

aids in their removal. It's these poisons that age people prematurely. Medicine-free, oil-and-curd—no pills—Nujol isn't a medicine or drug. For this reason it can't possibly disagree with you or upset you. It's a pure natural vegetable works-effectively without being drastic. Start Nujol now. You'll find Nujol at all drug stores. In sealed packages only. Get a bottle today.

"I'm middle-aged," she'll declare, "and not trying to hide the fact. Why should I? Middle age has a lot in its favor—that is, if you're well and healthy."

"Sick? Never had a doctor in my life except when my babies came. Never had the habit of dousing myself with pills and medicines, either. I just took Nujol—all the time my babies were coming, and in between times, too. I'll always depend on Nujol."

"Even the healthiest woman is better times when her system is out of normal conditions. It not only prevents an excess of body poisons (we all have them from forming, but

aids in their removal. It's these poisons that age people prematurely. Medicine-free, oil-and-curd—no pills—Nujol isn't a medicine or drug. For this reason it can't possibly disagree with you or upset you. It's a pure natural vegetable works-effectively without being drastic. Start Nujol now. You'll find Nujol at all drug stores. In sealed packages only. Get a bottle today.

Steeplechase Entry Trains for Classic

Famous Fencer of America Favorite in Second Try to Win Race at Aintree

LIVERPOOL, England, March 19 (AP)—Billy Barton, sturdy steeple-chaser from the Blue Grass country of Kentucky, is just about ready for his second attempt to win the greatest of horse racing honors in Europe—the famed grand national at Aintree Friday afternoon.

The crack jockey of Howard Bruce, Baltimore sportsman, wound up training and will arrive here tomorrow for the last of Aintree's ten and a half miles of treacherous hazards, cruel jumps, and baffling water.

Where last year the pride of Maryland came to the races just another horse in a field of 48, this season the big fencer is one of the prime favorites, an equine hero as the result of his heart stirring showing in the last Aintree duel.

The uncertainty of the event almost reaches the proportions of fate among many sportsmen. Almost anything can happen when three score jockeys send their mounts away in the frantic scramble for position and place.

Over 80 horses still are possible starters from the original entry list of 121. With 60 racing, the field still is 12 times as large as last year, and doubling the list of spectators.

Twin Falls Rifle Club Holds Shooting Event

Eight members of the Twin Falls Rifle club engaged in a competitive shoot last night on the 500-foot range, scoring from both prone and standing positions. Next Tuesday night a team from the club will compete in an indoor shoot with a similar team of national guardsmen.

Scores turned in by participants in last night's shoot are as follows: W. A. Greive, prone 88, standing 75; Greive, prone 87, standing 70; Moore, prone 81, standing 81; Cochran, prone 74, standing 71; Smith, prone 86, standing 67; Gunderson, prone 83, standing 57; Snodgrass, prone 82, standing 56; Evans, prone 93, standing 63.

Golf Club Members to Consider Limitation

Limitation of the membership of Twin Falls Golf club to 100 persons probably will be recommended to the club's membership at an annual meeting Monday evening. The members of the club's executive committee who met at luncheon yesterday to arrange for the general membership meeting, it was decided, will be held in the Rogerson hotel at 6:30 P. M. next Monday. The executive committee will report on its activities during the last year, and will also present its recommendations as to future activities of the club.

TWIN FALLS NEGATIVE TEAM WINS IN DEBATE

Bruin Trio Scores Majority of Points; One Filer Team Ill Unable to Clash

Twin Falls negative team defeated the Filer affirmative team here last evening scoring on three of the five points to be considered and breaking even on the other two, according to the decision of Rev. H. C. McCallister, pastor of the Gooding Methodist church and instructor in debate at Gooding.

The subject for debate was "Resolved, That the United States Government Should Cease to Protect by Armed Force Capital Investment in Foreign Lands Except After Formal Declaration of War."

The Twin Falls team won on ability to make a consistent unified case; on knowledge, evidence and information; and on ability to recognize and meet the strong points presented by the affirmative.

In ability to adapt the case to meet that of their opponents and delivery, enunciation, grammar and stage presence, the race was even, according to the decision.

The Filer team was composed of Ross Moseley, Mable Johnson, and Eugene Hollar. The Twin Falls team was made up of Gerald Wallace, Houston Trullinger and Paul Galloway.

The negative team, which met the Filer team in a debate in the dual contest with Gooding tonight. The affirmative team, accompanied by the coach, Miss Eulalia Schaffer, traveled to Gooding to compete with Frank Macneach, Lulu Shank and Don Gray.

The negative team, which met the Gooding affirmative, was composed of Margaret Griffin, Eunice Ever and William Merrick. Ray Agee, Twin Falls attorney, judged this debate, and also decided in favor of Buah.

The Gooding affirmative which came here, accompanied by the coach, Harold F. Willmorth, was composed of Donovan Moore, Helen Berry and Bruce Bowler.

At Opening Market Wheat Market Gives Temporary Exhibition of Strength

CHICAGO, March 19 (AP)—Active selling on the part of holders of future deliveries led to a heavy market with values today at the last domestic and foreign reports today were indicative of less wheat-billing...

Temporary Show of Strength At first, the wheat market made a temporary show of strength as a result of the fact that domestic stocks of wheat in country mills and elevators had proved to be smaller than expected.

Corn Prices Tumble Corn tumbled with wheat in the late dealings. Commission houses sold freely, and one large holder was reported as getting out of his lines.

STOCK MARKET PRICES STEADY DURING DAY

Non-Ferrous Metal Shares Develop Strength in Response to Copper's Trend

NEW YORK, March 19 (AP)—The stock market was calm between the opening and closing of a 10 per cent call money rate, and an assortment of favorable industrial developments today. Operations for late advance were noted in several selections of the list, but the session ended with price indices practically unchanged.

Non-ferrous metal shares developed outstanding strength in response to a jump of a full cent in copper metal prices, carrying the quotation for domestic shipment to 22 cents, a figure not exceeded since 1919, and a jump of 35 cents in lead prices. A price of 25 cents for copper before the end of the week was freely predicted.

Call money renewed at 8 per cent, but looking to 10 in the afternoon, though calling of loans was moderate, probably not exceeding 15,000,000. No advance in the new stock market, but a very redemptive note is looked for this week, but the federal reserve is apparently meeting with considerable success in gaining the cooperation of member banks to reduce credit available for speculation.

Calling of loans was said to be about 2 million, only to lose its gain, and the New York banks appeared to be unwilling to replace them.

Gasoline War Ends In addition to higher non-ferrous metal prices, the day's industrial news included the ending of the gasoline price war on the Pacific coast, and reports that crude oil production figures will show a substantial reduction for the second successive week.

American Surety placed its new stock on a 36 annual dividend basis, only to 112 on the old, which paid 110.

Recorded the copper with an advance gain of 7 points, making a record price at 197. Amcoanda, Chile and United States Smelting were other coppers reaching new high ground, and National Lead gained a new peak. Bethlehem Steel reached a new step, then reacted, and United States Steel moved up about 2 points, only to lose its gain.

Operations Switch to Rails. Bullish operations were switched to the rails for the first time in several weeks, but failed to meet with much success. MOSELY LOSES IN FIGHT ON EVIDENCE

Filer Man, Accused on Felony Liquor Charge, Goes On Trial; Motion Denied

Selection of the jury in the trial of Ross Mosely, filer, held to answer to a felony charge of second offense illegal possession of liquor, was begun in district court here yesterday afternoon, after Judge W. A. Babcock, presiding, denied motion of Mosely's attorneys for suppression of the evidence.

The motion for suppression of evidence involved an attack on the sufficiency of the search warrant with which the officers were equipped when they are alleged to have discovered liquor in Mosely's possession.

Among witnesses called to testify at hearing on the motion yesterday was John Jackson, Boise, probate judge and United States commissioner, who, in his capacity as commissioner, tested the search warrant in question.

E. V. Larson, prosecuting attorney, is presenting the case for the state, while Mosely is represented by W. L. Dunn and O. W. Witham, former prosecuting attorney.

TWIN FALLS MAN INVENTS MILK BOTTLE RETRIEVER

"The Pool Bottle Retriever," for which a patent has been applied, is a new invention designed by C. A. Pool, Twin Falls. The invention is intended to furnish protection to milkmen, who carry many bottles annually through carelessness of patrons.

The retriever will hold one or more bottles of milk, depending on the size, but is so made that no bottle can be taken out unless another has previously been inserted. It will therefore, be necessary for the patron to put in an empty bottle to get a full one out, and when the milk man puts in a full bottle, he can get out an empty.

Cottrell Wins Acquittal On Felony Liquor Charge

Alfred Cottrell, accused on a felony charge of second offense illegal possession of liquor, is not guilty, according to the verdict returned by a jury in district court here at 5:30 P. M. yesterday, after deliberations of about two hours.

Cottrell was accused, after a prior conviction of previous violation of the "dry" law, of illegal possession of a bottle of moonshine whiskey which police officers testified they had seen him deposit behind a box on the sidewalk in front of a Shoshone street cafe.

Defense attorneys brought out testimony that finger prints of another person were discovered on the bottle, but that Cottrell's prints had not been identified on it. Cottrell, according to some of the witnesses for the defense, had played cards until early morning at his mother's home on the night he was alleged to have been found in possession of the liquor.

The case for Cottrell was presented by Porter and Taylor and J. P. Kostelark.

ORATORICAL CONTEST WILL BE HELD HERE

High School Students of South-Central District Vie For District Honor

The South-Central district oratorical contest will be held in Twin Falls, Friday, March 29. It was announced yesterday by H. N. Terry, principal of the Twin Falls high school. It is not known whether it will be necessary to hold an afternoon as well as an evening session, as the school has learned how many schools will enter. Eugene Perryman will represent the Twin Falls school. So far Robert, Richfield and other schools are the only other schools that have indicated a determination to enter.

The contest is part of the national and international oratorical contest on the constitution of the United States and each oratorical contest of some phase of the instrument or its question. Each contestant must write his or her own oration.

Eliminations in the national contest are effected through the following divisions:

Each high school of the nation sends its champions to the district finals, of which there are from five to eight in each state.

District champions gather in each state meet in a central point to determine a state champion.

The nation is divided into seven districts, from seven to eight states each. The state champions gather at a central point in their district for the national semifinals, which reduces the national list to seven contestants. Each of the winners in the semifinals is awarded one of the grand prizes, this year a 12,000-mile trip through South America.

The national champion is entered in the international contest as representative of the United States to compete against representatives from England, France, Germany, Canada, Mexico, Cuba and Argentina for the international championship.
