15 Persons Dead and Heavy Damage in Path of Terrific Storm Through Four States

Tornado Breaks Suddenly After Premature Heat Wave in Nebraska, Iowa, Wisconsin and Minnesota

(By The Associated Press) MINNEAPOLIS, April 5—Fifteen known dead, scores injured and heavy property damage, was the toll of tornado windstorms that broke suddenly over Nebraska, Wisconsin, Iowa and Minnesota last night, following a premature heat wave.

North Minneapolis and the adjacent Lake Minnetonka district, where two fatalities occurred and 23 other persons were reported injured, apparently was the hardest hit. A tornado there, demolishing scores of buildings and paralyzing wire communication. Most of those reported injured were struck by flying debris.

Two fatalities occurred at Rice Lake, Wisconsin, where scores of farm homes were blown down. Two children were killed at Rice Lake, a man and an unidentified woman were killed near Forest Lake, Minnesota, and more than a score of persons injured.

A farmer was killed when struck by the falling body of an overhanging near Little Falls, Minnesota, and another killed in a similar manner at Taylor Falls, Minnesota. In Wisconsin, scores of barns were blown down, farm buildings and wire facilities wrecked by a tornado over a 15-mile path in the vicinity of Hudson, Wisconsin. In Minnesota, scores of farm buildings were cut off and it was feared loss of life and heavy damage occurred there. In Nebraska, reported injured several dozen persons.

In Nebraska, where the wind attained less velocity, no casualties were reported, but property damage was heavy. Motorists were blinded by dust whipped about by a 40-mile an hour wind, and scores of automobiles were overturned. Wheat crops were leveled generally over the state, and telegraph and telephone communication crippled.

Winter's Sudden Return Worries Idaho Shepherds LEVISTON, April 5.—Return of winter weather has worried Idaho sheep raisers today. Fear of heavy losses in the lambing season was expressed if a cold continues. A blanket of snow, in places eight inches in depth, covered the Camas Prairie and Clearwater valley tonight.

HEARING ON REEF ISSUE NEARING END

Senate and House Agriculture Committees Preparing to Draft New Measure WASHINGTON, April 5.—With additional leaders confident of the support needed to write a new farm reef bill acceptable to President Hoover, congressional hearings on the farm reef bill were all but closed today, and the senate and house agriculture committees started preparations to draft a measure for consideration by the special session of congress.

The house committee completed the taking of testimony in a way as to bring the committee bill has a few weaknesses to hear before it gets down to business in executive session. The task of writing the new bill of the house side will fall to a sub-committee, a majority of which will have representatives from the senate and house side, the new bill will be written by the full committee and hereafter the measure will be reported to the house.

Follows McNary Bill As the hearings approached a close today administration leaders were convinced the new bill would follow closely that introduced last year by McNary, which was endorsed at that time by the then secretary of agriculture, William M. Jardine, and this week by Secretary Hoyt.

Under this measure the monumental job of regulating the vast industries on the farms in any way as to bring efficient methods and a resultant increasing income, would fall to a federal farm board of six members and the secretary of agriculture. The board would be provided with a revolving fund of \$200,000,000 from the treasury to make loans to stabilize conditions with which to buy, store, and sell crops so as to prevent the surplus from lowering the price. The board would be created to advise the producers of the various crops on efficient and economical principles of production and marketing.

GOVERNMENT OFFICE HOLDERS PAY LARGE SUMS FOR POSITIONS

Evidence Collected by Senate Committee Shows One Postmaster Gave \$200 and Two Hogs to Organization

(By The Associated Press) WASHINGTON, April 5.—Chairman Brookhouser of the senate patronage committee reached today a heavy file of correspondence and affidavits of letters, telegrams and affidavits to show that large sums of money were contributed to Republican campaign funds in the southern states by federal office holders.

In Mississippi, affidavits collected by the post office department disclosed that 110 postmasters gave more than \$12,000 to the Republican fund, some of the money going to E. P. Boone, husband of the negro Republican national committee woman. While nearly all said the subscriptions were voluntary, some of the affidavits inferred that the money was paid in return for postmasterly appointments.

Pays \$378 For Job A former Arkansas postmaster declared he gave \$378 for his job, and a former Tennessee postmaster asserted that he contributed \$200 and two hogs for his appointment. An Alabama physician said he believed appointments were being given to the highest bidder in the state.

Texas letters and memoranda, put in by the post office department, said he believed to have caused the wreck.

RIISING WATERS MENACING RESIDENTS IN MICHIGAN

DETROIT, April 5.—Torrential spring showers, falling at widely separated points over Michigan, tonight had created serious flood menace in Detroit and along the Tobacco and Tittabawassee rivers, between Gladwin and Midland, Michigan.

Three hundred families in Midland were ordered from their homes as a smashing crest of water in the Tobacco carried away two small dams and a report reached Midland that a large reservoir dam on the Tittabawassee river had failed.

In the territory which would be affected by any sudden rush of water, a fire "epidemic" of 1000 persons at fourth dam at Edenville, was reported, weakening tonight.

Apartment House Craze Sweeping Animal World

BOISE, April 5.—The apartment house craze has extended to the "underworld." A predatory animal hunter reporting to J. B. Dade, state sheep inspector, today said he had dug 19 coyote puppies out of a single den near the Milner dam, and there were indications that at least three pairs of adult coyotes were making it their home.

Then to go one better, a hunter from Gem county reported he had dug 25 coyotes out of one den and killing two of the adults which attempted to rescue their youngsters.

27 PERSONS PLUNGE TO DEATH IN TRAIN

Crack Rumanian Express Jumps Tracks During Early Morning at Bezeu

BUCHAREST, Rumania, April 5.—The Baclarescu-Jassy Express jumped the track today, plunging 27 persons to their deaths and injuring 65. The accident occurred near the town of Bezeu, after the train had been shunted to another track. A number of those injured were expected to die.

Traveling at high speed through the dark snow early morning, the locomotive went heading down a steep, snow-covered embankment, dragging with it the first and second class coaches which soon were a mass of burning wood and twisted metal. A faulty rail was believed to have caused the wreck.

Endowment Funds Earn \$10,000 During Month

BOISE, April 5.—Ten thousand dollars interest was earned on endowment funds during March and will be divided among the educational and charitable institutions of the state, the department of public investments announced today.

During the month, savings in principal was paid into the department. The department's bond securities totaling \$12,236,142.

BAN ON SHEEP DENIED

DENVER, April 5.—Governor Adams today signed an executive order, excluding the importation from San Juan and Rio Arriba counties, New Mexico, and from the Navajo Indian reservations of Arizona, New Mexico and Texas, sheep which have been examined for traces of scab disease.

GOVERNMENT MOVES TO PRESERVE LIVES ON MEXICAN BORDER

Authorities at Washington Become Impatient With Accidental Bombings of Naco by Rebel Aviators

(By The Associated Press) WASHINGTON, April 5.—The American government took further steps today to protect the lives and interests of Americans threatened by the activity of rebel forces in Mexico, especially in Sonora and Sinaloa.

The authorities at Washington have become impatient with the accidental bombings of Naco, Arizona, by rebel planes operating against the federal troops in the Mexican town across the border.

Secretary Stimson and Secretary Good decided to warn the rebel leaders again. Accordingly instructions were sent to Major General William Lawler at San Antonio.

Brigadier General Frank S. Cocheu, commanding the American force along the Arizona-New Mexico boundary, will be sent again to visit General Fanto. To give to impress upon him the seriousness with which the American government views the carelessness of the rebel aviators. General Fanto has twice apologized for the falling of bombs on American territory and will be expected to receive relief.

In his opinion, however, it will be at least six months before the subject can be discussed in a direct action, because of the fact that the extent of government expenditures under recent legislation first must be determined.

HAILEY MINERS DISCOVER UNUSUAL STRIKE OF ORE

HAILEY, April 5.—(Special to The News)—Bumby has a strike of unusual importance discovered in the workings of the Triumph mine north of Hailey. The ore is said to improve with the depth of the mine, or shaft, being much richer than that of the higher levels.

This mine descends from the old tunnel on the 200-foot level. It is now down 300 feet on the incline and will be driven an additional 200 feet. It is reported that the National Lead company will take over the property.

An aerial tramway to carry ore to a mill on the railroad is to be built. This will facilitate winter shipments.

In sinking this mine the workers cut through a layer of basalt rock which when the ore was found again it was richer than that above.

Arizona's Governor Moves To Force Federal Army to Respect State Sovereignty

German Delegation and Reparation Experts in Accord on Vital Issues

PARIS, April 5.—The German delegation to the second Dawes' committee met Allied experts today in private talks to obtain some precision in and further elucidation of the allied reparations claims. It was understood that the experts were in agreement on the questions of principle.

The private talks will continue for several days before another plenary session of the committee is called.

HOOPER WOULD CUT WAGE EARNER'S TAX

Chief Magistrate Regards Levy on Incomes as Placing Penalty on Thrift

WASHINGTON, April 5.—When the revision legislation can be undertaken by the President Hoover has given the thousands of people who pay a federal levy on earned incomes almost the first to receive relief.

In his opinion, however, it will be at least six months before the subject can be discussed in a direct action, because of the fact that the extent of government expenditures under recent legislation first must be determined.

His suggestion that the tax on earned incomes be the first to be reduced is in line with recommendations already made by Secretary Mellon of the treasury department.

The president feels that a sufficient distinction is not made between earned incomes and incomes which fall into the unearned class, such as returns from investments. He believes that the tax for future use must be provided by the former while no such use must be made of unearned income and he regards the tax on earned income as placing a penalty upon thrift.

HOOPER TO GREET BYRD

SCHENECTADY, April 5.—Greetings from President Hoover to Commander Richard E. Byrd will be pending during Byrd's semi-monthly Antarctic voyage tomorrow night at 11 o'clock.

Will of Uncle Leaves Nephews \$2,000,000 In Return for \$1000 Loan

LEAVENWORTH, Kans., April 5.—Fifteen years ago two nephews of Peter Brill, wealthy Ukiah, California, lumberman, loaned him \$1000.

Today one of the nephews, Peter J. Smith, a painter here, was informed that his uncle's estate will be valued at \$2,000,000 estate with John Glennon—the other nephew—believed to be in New York.

The painter, who is unmarried, told of the loan today. He said his uncle declared all of his other relatives except Glennon had turned him down.

"You boys will never regret this," Smith quoted his uncle as saying. The uncle died March 3.

Floods and Landslides Menace San Juan Basin

DURANGO, Colo. April 5.—Floods and landslides menace the San Juan basin today in the wake of a severe storm yesterday. Railroad service was hampered, and communication was hampered in some sections the storm continued today.

On the Rio Grande southern railroad several landslides occurred between Dolores and Rico. Several severe snowdrifts were reported on Lizard Head road and the recent American midlands was reported running again.

A terrific snowstorm was reported on the Cimarron where from six to eight inches of snow had fallen in 24 hours.

A passenger train from Durango was turned back at Dolores last night.

CRUISEUR IN FRENCH FLEET ON GREY ATLANTIC

Finest Cruiser in French Fleet on Grey Atlantic Heading for New York

BREST, France, April 5.—The cruiser Tourville, newest and finest of the French navy, tonight was bearing back to her home port after a cruise of 19 ports at 11:30 A. M. and headed for New York at a speed timed to bring her there a week from tomorrow.

The cruiser was already 100 miles out on the grey Atlantic when William Scott, third secretary of the embassy, who is the only American accompanying the body, radioed:

"Words cannot express the gratitude that Mr. Herriek's family and myself feel for the God speed of France."

The ambassador was one of us. He lives forever in the history of France. — Eloquent Tribute

HERRIEK'S BODY ON HOMEWARD JOURNEY

The body of the ambassador arrived by train with the Tourville from Paris where yesterday the most eloquent tribute in the power of the French was paid.

The colonial infantry battalion band played "La Marseillaise" as the cortege headed by a band of mounted republican guards started toward the harbor. A stop was made on the Avenue President Wilson where a navy band played solemnly the requiem anthem.

Again the American anthem and "Aux Champs" were heard at the pier on the boats where from six to eight inches of snow had fallen in 24 hours.

A passenger train from Durango was turned back at Dolores last night.

### OFFICIALS OPPOSING TRIAL IN TWIN FALLS

#### J. S. Welch and Other Defendants in DeLong Suit Enter Demand for Change

Whether the suit of Carl L. DeLong, Twin Falls potato dealer, for \$38,000 damages from John S. Welch, state commissioner of agriculture, and others, will be tried in Twin Falls county, will be announced within a day, of Judge W. A. Babcock stated after hearing in district court (in defendants' motions for change in the place of trial.

Welch and George Tucker, employee of the department of agriculture, two of the defendants, through Leon M. Pisk, assistant state attorney general, filed change of venue to Ada county, while the other defendants, Idaho Falls Potato Growers' association and Fred Gustafson, through C. A. Johnson, contended that the trial should be held in Bonneville county.

#### Claim Adverse Sentiment

Defendants' attorneys argued that they did not want the case tried in Twin Falls county and argued that sentiment here in opposition to the department of agriculture's potato (flax) regulations is so deep and general that they could not be given a fair trial in this county.

DeLong alleges conspiracy on the part of the defendants in Twin Falls, Idaho, and that they also took an interest in and reputation, charging that Tucker told growers and bankers here that DeLong would not ship potatoes in 1929 and referred to an injunction suit instituted against DeLong in the district court of Idaho Falls which was later withdrawn.

The same charges were made by DeLong against the same defendants in a suit filed here last January and in which and referred to Judge Hugh A. Baker, junior district judge, decreed that the place for trial should be moved from Twin Falls to Boise.

#### Government Moves To Preserve Lives On Mexican Border

(Continued From Page One)

many lives has promised it would not. He also instructed that all citizens engaged by the shells be settled at once.

#### Interests Endangered

The danger to Americans and their interests in the state of Sinaloa, caused by the retreat of the rebels who were successful in their attack on Mazatlan, is so worrying state department officials, there are large American interests in Sinaloa and in the adjoining state of Sonora which is held by the rebels and to protect these Secretary Blish today requested the secretary of the navy to dispatch a destroyer to the port of Topolobampo in Sinaloa, about 500 miles north of Mazatlan.

The rebels on their retreat from Mazatlan had concentrated at Culiacan with a small rear guard at Quila about 40 miles south of that place. They are being pursued by federal troops. It is feared here the retreating rebels might commit depredations against American and American property in the two states.

The destroyer Smithe sent some time ago to Mazatlan, will remain at that port and be available for duty there up the Gulf of California at Guaymas, if assistance is needed there.

#### Protest Before Silson

A protest from Governor Phillips of Arizona, against the United States giving permission for Mexican federal troops to pass through Arizona, has reached Secretary Stimson. It was feared by the Arizona governor that the Mexican government might wish to send to Mexico for entry into Mexico and to assist in the defense of that place the Mexicans detained at Fort Bliss, Texas. Those troops crossed into the United States at the time of the battle of Juarez. No application for such movement has been received by the Washington government.

Before permission would be given to allow any Mexican troops to pass over American soil, the state department would secure the consent of the governors of the states through which they would be taken.

### The Weather

**FORECAST FOR TODAY:** Cloudy and cool; snows in the mountains; freezing temperatures.

A sharp decline in temperatures marked the weather in Twin Falls Friday, the weather observer giving 41 degrees as the highest, 13 degrees below the Thursday maximum. The minimum temperature was 32 degrees. Precipitation during the 24-hour period ending at 6 P. M. amounted to .15 of an inch.

### DESERTION CHARGED BY FOUR HUSBANDS

#### District Court Grants One Decree; Hears Evidence in Second; Two Filings

Desertion was alleged as grounds for divorce by four men in district court here Friday.

One of the petitioners obtained the decree he sought; one other presented evidence in support of his claim, and two others instituted suits for divorce.

For no other reason than that she was dissatisfied, C. S. Knight told the court his wife abandoned their home and three children here. Mrs. Knight did not put in an appearance at the hearing, and her side of the case was not in evidence. Judge W. A. Babcock granted Knight the decree.

The court took under advisement the cases of Emma F. Scott against Earl G. Scott and of Lloyd Hill against Lorna Hill, after hearing evidence offered in support of petitions for divorce.

Charles V. Zimmerman, suing for divorce from Esther M. Zimmerman to whom he was married in Twin Falls on September 29, 1928, alleges that she abandoned their home without cause on October 21, 1927. He asks, in addition to the divorce decree, that his wife be returned to her former name of Esther M. Rogers, and that she be restrained by court order from use of his name. E. V. Larson, attorney, filed the complaint.

On grounds of extreme cruelty and of desertion dating from February 1, 1928, W. P. Jones instituted suit for divorce from Katie C. Jones to whom

### MAYOR ISSUES CALL FOR NEW ELECTION

#### Proclamation Follows Official Canvass by Council On Returns of First Vote

Proclamation for a municipal election next April 23, with Mrs. H. W. Clouch and Thomas Sanderson will be opposing candidates for Twin Falls city councilman, was issued by Mayor R. E. Bohler at a special meeting of the council last evening to canvass the returns of the municipal election last Tuesday.

The canvass showed that Mayor Bohler and T. J. Douglas, councilman, had been re-elected at last Tuesday's election, but that no majority had been received by any candidate for the second vacant post to be filled on the council.

Counts Colnaded

The official count coincided in all respects with the unofficial returns previously made public showing a total of 544 votes cast, with T. E. Bohler, candidate for mayor, received 54, and votes for candidates for the council as follows: T. J. Douglas 442; Mrs. H. W. Clouch 377; Thomas Sanderson 297; S. S. All, 170.

Three other persons received one vote each for mayor, the council T. E. Bohler and they were W. W. Wright, W. F. French and Harvey Mundy, each of whom received one vote in the second ward.

Proceedings in connection with the second election will be precisely the same as for the first, with the same requirement for registration of voters. Registration books, at the city clerk's office, will remain open daily until 8 P. M. on the Saturday preceding the election for registration of voters, and all persons, except those who were registered two years ago and have not since moved from one precinct to another, are required to register.

### Government Office Holders Pay Large Sums For Positions

(Continued From Page One)

to the record at the request of R. B. Greager, Republican national committeeman for that state, revealed that a large number of office holders, many of whom were recommended by Greager, had been regular contributors over a period of years. Nearly all of the letters signed by Greager's method, but some did the opposite.

### Accused of Falsehood

Brookhart read a telegram in which Greager accused the senator of falsehood with respect to a recent statement. "Greager," Brookhart said, "is intellectually dishonest. The charges laid before this committee indicate that Greager has demoralized his organization in Texas, and for no other purpose of these contributions is unexplained."

Among the Mississippi affidavits was one from R. K. Haxton, postmaster at Greenville, which declared that he gave \$2125 to the Republican organization there. Of the amount, he said \$500 went for stock in an insurance company. It is also charged that he was a member of the officers were men of strong Republican influence in the state, it would be a mighty good thing to take some stock.

He was married in Twin Falls on November 11, 1916. The complaint was filed by W. L. Duun, attorney.

# Big Five from Athens, Texas Defeats College Grove, 22-7

## Six-Foot Hoopsters Trounce Tennessee Players at Chicago

Mid-Summer Temperatures Make Teams Sluggish in Important Tilt; Mercury Reaches 80 Degree Mark

By ORLO L. ROBERTSON (Special to Press Sport Writer)  
**CHICAGO, April 5**—A team of six-foot-plus athletes from Athens, Texas, today successfully battled mid-summer temperatures and College Grove, Tennessee, to go into the semifinal round of the National high school basketball tournament at the University of Chicago. The score was 22-7.

A temperature of 80 degrees, said to be the hottest April 5 day in Chicago in 50 years—had a visible effect on both teams. Both were sluggish in advancing the ball and time and again missed up easy shots—which in preceding games were good for two points.

College Grove, which yesterday eliminated a tournament favorite in Wheeling, West Virginia, committed not only the heat but Athens' stubborn defense and hard luck at connecting with the goal.

Barton of Cleveo, Illinois; Columbia, South Carolina; Wheatland, Wyoming, and Brockton, Massachusetts, qualified for the final-round game of the consolation tournament in today's preliminary. Morton eliminated Moorhead, Minnesota, 24-13, and took to the field in the last second of play. Columbia put Wisconsin, Nevada, out of the running, 32-12. Wheatland downed Bristol, Connecticut, 24 to 11, and Brockton took the measure of Johnston City, Illinois, 31 to 29.

## Gooding College to Stage Outlaw Meet

**WESLEYAN, April 5** (Special to The News).—The third annual outlaw track meet which is scheduled for April 27, is the first major competition of the season. Gooding and other teams will bring together many of the former college stars of the cinder path who are now residents of members of the outlaw circuit. Strong opposition is expected and the winners will be awarded medals. Coach Ford will soon announce the officials and other details concerning the meet. Some of the records which have stood for two years are: 10.4 seconds in the 100-yard dash set by Werner, Burnett; 4 minutes 50 seconds in the mile by Cronwell; Gooding college; 2.6 seconds for the 220-yard dash set by Powers, All; 1.5 seconds for the 100-yard dash set by Brennan; 11 minutes 2 seconds set by King, Gooding, in the 270-yard hurdles, held by Powers, All. Records were set last year in other events by Bates, Filer; Fowler, Caldwell; Burnett, Caldwell, and Gould, Jerome. A new event, the mile relay, is to be included this year.

## Hansen Arranging Four-School Meet

**HANSEN, April 5** (Special to The News)—Ralph Nyblad, coach at Hansen high school, is making preparations here for a track and field meet to be held April 26, in which Kimberly, Eden, Murtaugh and Hansen teams will participate. At present athletic activities at Hansen high school are confined largely to basketball activities. Although Coach Nyblad expects to develop a speedy track squad during the coming weeks.

## Some indication of the terrible storm of metal-tipped bullets

was gained from the report today of General Nazario Medina Dominguez, who commanded the federal artillery, that 224 shells of 75 millimeter calibre were fired in three days. Press dispatches from Guadalajara today said that 17 rebel irregulars were killed by a federal detachment after they had attacked and burned the town of Villages near Guadalajara and Colima. Eight men of the garrison of the town were killed and eight were wounded before the arrival of the federal reinforcements. The rebels also fired two bombs to the railroad track which exploded under a train running from Colima to Guadalajara. The track was torn up and one of the trucks of a first class passenger coach was destroyed but the passengers escaped. The train escort of 50 soldiers drove off the rebels of Mexican Consul Licens at El Paso. He informed the president today that friends of the government were recruiting 800 volunteers at Guadalajara, Chihuahua, to attack Ciudad Juarez. The consul said that Feliciano Sanchez Quintana, said to be treasurer of the rebel forces, had been arrested at Guadalupe presumably by rebel when he attempted to cross the frontier with five automobiles containing munition.

THE PASSING OF A LANDMARK

An interesting chain of reflection is set in motion by the announcement of the collapse of the old Wells-Pargo Express stage station building in Virginia City, Nevada.

The structure was an intimate part of life in the days when life was gauch and ran fast in the mining camps of the West.

There was a hotel there the door knobs in which were made of solid silver. There were newspapers which cost fabulous sums to publish.

The history of the Wells-Pargo Express company is very largely the history of the west. The company moved with the vanguard and played a foremost part in every major development as the search for gold extended itself over the hills and valleys of the country.

There is a stage station, relic of the early days, within a ten minute ride of Twin Falls around and about which might be woven much of the excitement and romance attendant upon the formative life of Idaho history.

Only the ruins remain today and before long not even these will be discernible, yet they stand as a monument to a race of men whose courage and fortitude none will deny and whose energy and ambition are to be credited with a tremendous share in the building of the empire which we enjoy today.

The Wells Fargo Express company was an advance agent of civilization and it is entitled to full credit for the work which it performed.

HIGH COST OF GAMBLING

The average of "call loan" money in New York during the month of March was over eight per cent, more than twice as much as it was two years ago in its normal month. It was, too, about twice as much as the dividends accruing from the average stock dealt in, in current prices.

During one hectic week the loan rate for stock gambling money averaged fifteen per cent. This was more than five billion. Wall Street statisticians estimated the daily interest charges paid by the stock operators at two million, two hundred eighty-one thousand and fifty dollars.

JUST IDAHO

Comment on Current Conditions in The Gem State. By GUY FLENNER.

CONVICT LABOR

Prison labor comes into competition with some form of free labor irrespective of the course into which it may be directed. Therefore, if we are to have convict labor we must concede that fact at the outset.

Idaho starts out with convict labor on the highways, then switched to farming. Both plans were abolished in favor of the present shift factory, which has produced a considerable revenue.

The first work done by convicts on highways was on the famous White-bird hill. John W. Snook was the warden of the Idaho penitentiary and he did a fine job although hampered by lack of road building machinery.

The farm experiment under his management was also highly successful, so much so it was predicted that if continued for a few years it alone would have placed the Idaho penitentiary on a self-supporting basis.

There is enough additional convict labor to perform some service on our roads, either for the counties if that could be locally arranged, or for the state. There is great need for this service.

So far as road building is concerned heavy expense would be involved for several miles of road to be built. It would be a waste of money to work on farms away from the prison which would need no rifles over them while employed in road building.

No Forced Construction

Examiner Rogers of the Interstate Commerce commission has an advisory report on the plan to compel the Union Pacific to build from Housestead to Lewiston. No surplus will be expected because of the fact that no forced building of railroads or telephone lines will be authorized unless the near future holds promise for a profitable investment, and if that is reasonably assured, no compulsion will be necessary.

How Espionage Works

Mable Willbrandt must have noticed during the past fortnight some effects of her espionage work. As the result of an operation in Illinois, a gallon of wine was discovered and a mother was murdered. A stock exchange had been on the job.

From a number of cities come reports that there is less cooperation here hereafter. The rapid wet of course will not inform and the fanatical dry misses the target when shooting cross-wind arrows. There is a third class that is numerous, quite representative and well informed. It is thoroughly disgusted with the use of the spy system as a means of law enforcement and it will not cooperate.

Real law enforcement in this country will never come about without the help of these people. The United States department of justice has done more than any other agency to encourage that great body of men and women and to discuss them not in terms of operations of those who idea of law and order are first-of-all viewed upon political jobs and then on publicity to retain them.

Will Seem Small Then

Five to ten years from now we will wonder why we were bragging about production of butter fat in 1928 amounting to \$12,000,000. Before that time the decade has passed. Idaho butter producers will be receiving better \$100,000,000 a year. To be sure this \$100,000,000 is very important and reveals the foundation strength of the dairy industry in this state. We must project our vision beyond the \$12,000,000. That is, only a start. This butter fat production creates pay-mis as it moves along to milk condenseries and transportation.

Sheep Feeding in Fields Because of Late Spring

BURLEY, April 5 (Special to The News)—Sheepmen, usually taking their flocks to the hills or open ranges the first days of April are delayed and confined to the fields this spring because of the lack of green grass.

Some few, who have been trained to the foothills, are supplementing the scant forage with corn and other feeds. Potatoes are being fed with good results by D. B. Langley, who is feeding a ration of two and one-half pounds of the tubers per head, daily. He says his stock is doing fine.

Nearly all sheep on the range are dry. Ewes with lambs, or about to lamb, are held in the fields and feeding awaiting green grass.

### NEW MANAGER HEADS BUHL CASEIN PLANT

#### O. T. Koster Fills Office in Firm Following Resignation of George Davis

BUHL, April 5.—George Davis has resigned his position as manager of the Buhl casein plant, and O. T. Koster, formerly of Twin Falls and for several years associated with the Nelson River creamery company, has been appointed as his successor. Mr. Davis who left with his family for Boise, plans to return in California. A new receiving vat with a capacity of 10,000 pounds was installed at the plant recently to take care of the increased business. Now amounting to 25,000 pounds of milk and 300 pounds of cream daily. Twelve trucks are at present employed to gather the milk from the Buhl and Sherman districts and seven men are employed at the plant. Cream from the Buhl district is sent to Jerome for manufacture and the skim milk is retained here to use for the making of casein. The Jerome creamery has put a new poultry and feed feed buttermilk on the market this season.

W. L. Howard left for Roseburg, Oregon, Tuesday, on a message telling of the critical illness of his mother. He plans to return to Buhl in about 10 days.

Erville Rugg is a patient in a Twin Falls hospital following an operation. Senior class members gathered Thursday morning for the annual business breakfast at the Royal cafe. Places were marked for 80 persons at long tables gay with Spanish motifs. Place cards were miniature guitars. Don Orayot acted as toastmaster and loasts were given by Frank Macheck, president of the senior class, Glen Davis, Superintendent, M. Van Patten, Earl Walker, and Miss Walton, senior class adviser. Miss Mary Herman and Emory Woodard gave a vocal duet, Frances Hoyce and Mabel Weaver, guitar numbers and Miss Nancy Ann Langz sang a solo.

#### "The Spiler," Showing at Orpheum Last Times

"That stupendous sensation—the death defying master of the air—Professor Mcintosh," is the role played by Ernest Dea in "The Spiler," according to the introduction given him by Alan Hale, who enacts the title role. Cook, who will be seen as a tight-wire walker, is further described by Hale in his spiel as "the sensation of Europe and the Americas." Renee Adoree has the leading feminine role in "The Spiler," at the Orpheum for the last times today. Fred Kohler, Fred Warren, Jimmy Quinn and Keupie Morgan complete the cast. "The Spiler," a Ralph Bock production, was filmed from an original story by Ernest Dea, Salt Lake City, western representative of the Edison Lamp works, vividly portrayed the history of the growth of the Edison Lamp works, illustrated by moving pictures, before the Rotary club members, Thursday evening. Mr. Dea was introduced by Mr. Reynolds, and the production of the branch of the Idaho Power company. During the business session nominees for directors of the club for the ensuing year were elected as follows: A. E. Kilgus, C. H. Coleman, James H. Shields, Jr., C. D. Boring, C. G. Voeiler, Lawrence Van Ripley, F. C. Macquard, L. J. Johnson, W. H. Herman, Ed Foster, Fred Parry, Stanley Webster, Ben Tully, Harry Wilson. The election of procedure for the latter part of April, Mr. and Mrs. Ralph Bristol, Pocatello, were guests this week of Mrs. Bristol's parents, Mr. and Mrs. J. C. Meacham. Mrs. Earl McGrath was hostess to members of the Episcopal guild Thursday evening. Rev. Irvin G. Woodard, of the Twin Falls Episcopal church, was present, and following a brief business session the afternoon was spent socially. The next meeting will be with Mrs. John Peber, April 17.

### BUHL DEBATE TEAMS IN STATE CONTEST

#### Defeat of Nampa Squads Gives West-End Forensic Artists Place in Finals

BUHL, April 5 (Special to The News)—Buhl won the inter-district championship of the Southern Central and the Southwestern Idaho districts from Nampa when the decision was won for its affirmative team at Nampa this evening, over the negative high school debating team of that city. The Buhl negative team Thursday evening won the decision in a debate here for which J. W. Taylor, Twin Falls attorney, was judge. The Buhl teams will enter the state championship contest at Nampa next Friday, competing with the winner of the Blackfoot-Wallace debates which are held tonight.

The negative team which defeated the Nampa affirmative here Thursday night was made up of Mrs. Dunbar Ewer, Miss Margaret Griffin and William Merrick. The affirmative team which with the coach, Miss Edith Schaefer, travelled to Nampa yesterday and won was composed of Don Orayot, Frank Nielschack and Louis Blinnic. The judge at Nampa was Dr. Paul Murphy, Caldwell, instructor in the College of Idaho.

### Carstens Firm Loads Big Cattle Shipment

Carstens Packing company shipped 16 carloads of cattle to Tacoma from its feed yards at Kimberly last Thursday, according to records of C. J. Bonrose, county brand inspector. Similar shipments are to be made each week hereafter. It was stated. Two carloads of cattle also were shipped from this county to the Portland market, Lind and Jensen loading a carload at Hansen and William Walker leading a carload at Twin Falls.

That night will open at the Majestic pharmacy this morning.

Some of the best of Twin Falls talent is cast in the play of patriotism. Mrs. J. L. Hedden will delight in her characterization of the German "Mamma" in one rarely seen in a local production. Most of the laughs are entrusted to Mr. H. A. Salsbery at the German banker, "Block." Polly and Vaughn Price are the leads and have the part of lovers. Miss Florence Wahlen will be seen as Nora, the maid. Joe Collins as the secret service agent of the German government and Arthur Roberts as the "Paps" complete the cast.

The play is being presented to raise money for the Veterans' memorial building fund.

### ARBOR DAY EVENT IN SCHOOLS OF COUNTY

#### Observance of Tree Planting Occasion to Take Place in 37 Districts

Pursuant to proclamation issued by Mrs. Rose J. Wilson, county superintendent of public instruction, Arbor day will be observed on Friday, April 19, in 37 rural school districts throughout Twin Falls county.

Suggested program for exercises on Arbor day in the schools have been sent out from the superintendent's office to the several schools. In addition to the exercises, it is recommended that some arrangement be made for participation by the pupils in the planting of trees or shrubs.

Invitation to pupils of Twin Falls county schools to vote on the bird to be designated the Idaho bird, also has been extended through the county superintendent's office. The suggestion has come through the State Federation of Women's clubs. Each pupil must submit a statement of reasons for the bird favored for the designation.

### Riteway Stores Owner Pleased With Results

E. A. Reed, Salt Lake City, owner of Reed Riteway hardware stores, accompanied by C. Abbott, Ogden, left Thursday on a visit to Boise after spending sometime here in conference with Ray Taggard, manager of the Riteway store in Twin Falls.

Mr. Reed expressed gratification with the record that had been made by the store here since its establishment last June 9.

The ninth store in the Reed Riteway store is to be opened in Pocatello the last of this month.

### Four Lodge Officers Named by Appointment

Appointed officers of Twin Falls Elks lodge for the coming year who were installed with R. E. Bobler, exalted ruler, and other newly elected officers at a meeting of the lodge Thursday evening, were Vaughn Price, exalted; H. M. Bolter, chaplain; John Ford, inner guard; A. Wilton Peck, organist.

With the exception of Mr. Ford, all were re-appointed.
