SINKING STEAMSHIP BROADCASTS APPEAL FOR IMMEDIATE AID

Shortly Before Midnight
Vessel Answers: "We Are
40 Miles South of You
and Coming Full Speed"

(By The Associated Press)
SAN FRANCISCO, April 30.—The
steamship Kadik broadcast an S.O.S.
call off Point Reyes, California, at 10:20
o'clock tonight.

The message said: "WE ARE SINK-
ING AND WANT AID."

The Kadik is owned by the Alaska
Packer's Association and is listed as 110
feet long.

The Kadik was bound from Nahnek,
Aleutian Islands, for San Francisco and
the message indicated she was on the
rocks off Point Reyes, just north of the
Golden Gate entrance to San Francisco
bay.

At 10:45 o'clock, the vessel put a sec-
ond message on the air: "SINKING
KADIK—MAY CALL FOR MORE
HOURLY."

Radio station KGO, which picked up
the first message, intercepted a message
at 10:35 from a steamer which signed
"WSCE". The message said:

"WE ARE 40 MILES SOUTH OF YOU
AND ARE SINKING FULL SPEED TO
OUR AID."

The 850-foot ship, caught 35 miles and
other vessels. At 10:45 P. M., the
Union Oilman Gleum reported to the
Mackay radio here that she was pro-
ceeding to the assistance of the dis-
tressed vessel and expected to reach
her within two hours.

Radio station KGO, which had inter-
cepted the first message, sent telegraphic
dash to the Kadik in obtaining radio com-
munications.

PARIS POLICE ACT TO PREVENT RIOTS

Both City and National Gov-
ernment Take Precaution
Against May-Day Trouble

(AP)—Paris, April 30 (P)—Most of Paris
expects to go about its work and play
as usual on May Day, but both city and
national governments have issued pre-
cautions against any trouble that might
arise in or near the capital.

Ex-detachments of the Republican
guards and soldiers brought from the
provinces within the last 24 hours were
expected to be on duty.

Paris and its suburbs.—Most of Paris
is quiet, though a quiet roundup of
suspected foreigners resulted in the
explosion from Prince's 26 within the
last two days.

It is expected that the Paris taxi
drivers will take the day off as has been
their custom for many years and that a
considerable number of workers will
walk out for the day after reporting for
duty at plant and factory.

Paris.—The secretaries of Communists
have been arrested on charges that he
had received orders to direct manufac-
turers outside certain suburban factories

Local Communist organizations and
their followers urged the day to
push their demands for a general
increase in wages and for reduction of
the working day to seven hours.

mobiles in Utah, Arizona, New Mexico,
Louisiana, Oklahoma and Texas.

CANNED GOODS RAIL RATE MAY INCREASE

Examiner's Report Recom-
mends Higher Charges to
Include Idaho Shipments

BOISE, April 30 (AP)—A recom-
mendation for an increase in freight rates
on canned goods shipped between
points in California, Oregon, Washington,
Idaho and Montana, was made in an
examiner's report to the Interstate
commerce commission, a copy of which
was received here today.

The examiner recommended specific calls for
increases from 8 to 60 cents per hundred
on the varying distances. The
changes were made along the line set
by the "Arizona scale."

From Sacramento points to
Spokane the rate on 60,000 pound car-
load minimum lots was raised from 40
to 45 cents.

The rate on 60,000 pound minimum car-
load lots from Sacramento to Portland
was raised from 50 cents to 41 cents; the
Oregon-Portland rate was raised from
49 to 51 cents; the Oregon-Spokane rate from
47 to 51 cents, while the Oregon-British
Columbia rate was raised from 49 to 51 cents.

From Sacramento points to
Portland to Lewiston, Idaho, the
rate on 60,000 pound minimum car-
load lots was raised from 40 cents to 41 cents.

The Oregon-Kansas City, 1,800
miles, the 60,000-pound minimum car-
load lots was raised from 56 cents to 41 cents; the
Oregon-Portland rate was raised from
49 to 51 cents; the Oregon-Spokane rate from
47 to 51 cents, while the Oregon-British
Columbia rate was raised from 49 to 51 cents.

From Sacramento points to
San Francisco, the Montana board of
railroad commissioners, bringing the
case against the bay transport com-
pany and others.

Smiley Region Snowfall— 71 Inches During Season

BOISE, April 30 (AP)—The final snow
report of the Sawtooth national forest
for the year received today said that
watershed had 62 per cent more snow
than last year but was yet below the
average.

At Smiley the estimated fall was
71 inches, compared with 58 inches a
year ago. Five to eight feet of snow re-
mains on the higher reaches of the for-
est—preservative has disappeared from
the flatter and lower elevations.

For the season, the snowfall in the
Smiley region was 1,000 per cent above
the average.

Cow's Capers Result in Discovery of Cache of Jewels Valued at \$2000

COLVILLE, Wash., April 30 (AP)—
The capers of an unruly cow led to
the discovery of a cache of stolen
jewels valued at \$2000, it became
known today.

More than a month ago the gems
were taken from the home of Mr. and
Mrs. William Becker, widow of a
Chicago jeweler. Yesterday a cow be-
longing to Wurmhauser became
fascinated, caressed about and
knocked a plain wire fence when
it found the tubular incanting the
jewelry.

Police have arrested Mr. and Mrs.
William D. Brooks in connection
with the robbery, but they declined to
say why.

NORRIS AMENDMENT TO GENATE'S FARM AID BILL TRIUMPHS

Decision On Change Affect-
ing Debenture Rates Not
Considered Test of Sentiment
On Grange's Plan

(By The Associated Press)
WASHINGTON, April 30 (AP)—The farm
relief bill framed by the senate agricul-
ture committee reached the voting stage
today and the first change made was
the adoption of the Norris
amendment affecting export debenture
rates.

The decision on the amendment,
which would provide for a graduated re-
duction of debenture rates whenever
there is a decrease in production of de-
pendable products, was not considered a test of sentiment for the
debenture plan itself. There was no record
vote.

Senators McMurtry, Oregon, chairman
of the committee favored the Norris
proposal even though it is opposed to
the plan. Senator Patricio, who
opposed the plan, said the measure
would do little harm if it were adopted.

Although Senator Norris, Republican
of Nebraska, and other supporters of his
plan supported the amendment, who feel the
reduction of the debenture plan would
increase production, the proposal did not
have unanimous support of the friends
of the debenture plan. Senator Carter
of Georgia, Democrat, who favors the
plan, voted against it, while Senator
Carr, who presented a bill of graduated
reduction in rates would work against
the farmer the full benefits of
the debenture plan.

The infant daughter of Sam J.
Friley was reported killed but
survived by others. One of the others
hurried the baby was alive, al-
though injured.

OKLAHOMA STORM CAUSES EIGHT PERSONS' INJURY

HITCHITA, Okla., April 30 (AP)—Eight
persons were injured, one possibly fatally,
when a house was wrecked and an unex-
plained amount of debris was scattered
about the scene.

The 8x5 was caught 35 miles and
other vessels. At 10:45 P. M., the
Union Oilman Gleum reported to the
Mackay radio here that she was pro-
ceeding to the assistance of the dis-
tressed vessel and expected to reach
her within two hours.

Radio station KGO, which picked up
the first message, sent telegraphic

munications.

BERLIN, April 30 (AP)—Fifteen thou-
sand police were mobilized tonight
for Germany's celebration of May Day
anticipating trouble. The German
communist party, which has been
banning all open air demonstrations,
is to march through Berlin.

The situation is without a touch

Paul V. McNutt Outlines
Principles of National
Organization and Lauds
Work of Ex-Service Men

(By The Associated Press)
GOODING, April 30—Paul V. McNutt,
national commander of the American
Legion, today dedicated the armory
memorial building here which was erected
in memory of 12 Gooding county ser-
vices men who gave their lives in
the World War.

Commander McNutt's address was de-
livered after patriotic talks had been
made by L. V. Patch, Payette, state
legislative commander, and Governor H. C.
Baldridge.

Credit for erection of the edifice was
given to the local Legion post and to the
National Guard by Mayor A. F. James,
who introduced the visiting speakers.

Commander McNutt, Gooding Legion
member, said: "We dedicated this
memorial building in memory of the
men who gave their all and
performed their duty in the training
of sturdy sons of Idaho who are
ready to make the same sacrifice if
called upon again."

Raskob Lays Plans to Con-
duct Active Organization

Work 365 Days of Year

WASHINGTON, April 30 (AP)—Democ-
ratic party leaders intent upon re-
covering in the 1930 congressional elec-
tions the ground lost in the
recent elections, have decided to open
new headquarters in Washington under the di-
rection of Jouel Shouse, Kansas, as
chairman of the executive committee.

Formal announcement of this move
was made today by John E. Raskob,
executive director of the campaign, who
has decided to locate his headquarters
in Washington, and others, and continue with
discussion of the Legion's program of
Americanization and its four-fold
program of world peace, including adop-
tion of a code of ethics which in
event of war will call all
labor and industry, as well as
farmers, to a standstill.

Replying to questions put to him by
newspaper correspondents after he had
read his formal statement, the national
chairman said he had succeeded in reducing
the party deficit of \$1,850,000 to about
\$800,000, "with every indication of
a further reduction to \$500,000 within
the next few weeks."

Commander Patch Speaks

Commander Patch, who, during the
war, was a member of the 146th Field
Artillery regiment, praised the
service of the Idaho men in service in
the conflict, and paid tribute to the offi-
cials of national guard troops.

Governor Baldridge dealt in laudatory
terms with the activities of the
American Legion, and declared the World War veterans carried
the spirit of service that they had
demonstrated in the great war.

The national and departmental
commanders of the Legion, who were
present, addressed the gathering and
saluted the Legion members through streets lined with flags to the armory-memorial
building.

Opening of the Idaho national
guard unit formed an escort for the
distinguished visitors, who passed be-
fore ranks of World War veterans to
their place at the head of the parade.

Women Win Race Against
Death to Father's Side

NEWTON, Iowa, April 30 (AP)—
Daughters today had won right with
the elements to reach the bedside of
their 85-year-old father, M. A. McCord,
former Newton mayor and postmaster.
After a long period of suffering and the
radio was used in a vain effort to rouse
him before the expiration of the few
hours physicians had given Mr. McCord
to live. Today the daughters, Mrs. Fred
W. Jasper and Miss Stella McCord, were
relieved to learn that their father had
had a "slim chance to recover."

The fight against time and the elements
that brought the daughters home from a
California trip to their father's bedside
two days ago when McCord's life
was ebbing away, was ended when the
local manufacturer, radiotelephone on the
line, announced that their father was given
but a "slim chance to live."

Peanut Pusher Will Use
Nose to Propel Nut to
Summit of Pike's Peak

COLORADO SPRINGS, April 30—
After propelling a peanut with his
nose in a way across the country,
a Colorado boy, 14, announced today
he intended to push one to the summit of
Pike's peak, he said.

Frank Thompson, 14, who has
been pushing a peanut from his
nose since he was 10, said he
had pushed it across the country.

He has pushed it across the country
from the Pacific coast to the Atlantic
coast, he said.

It is a fine thing," Commander Mc-
Nutt declared in his address at the dedi-
cation, "to dedicate this structure to the mem-
ory of the men who gave their all and
performed their duty in the training
of sturdy sons of Idaho who are ready to make the same sacrifice if

Outlines Objectives

In his address at the banquet Com-
mander McNutt outlined the Ameri-
can Legion's objectives, first, in caring
for the welfare of the dependents
and orphans, and continued with discus-
sion of the Legion's program of

PROFIT IN WASTE

Another piece of legislation that
prohibits a measure of "waste" in the agricultural situation that is claiming the
attention of the Nation's lawmakers is a
bill proposed by Senator Thomas J. Schatz of Minnesota, which authorizes
an appropriation to encourage use of
farm waste for production of paper.

"Utilization of such crops now wasted
as cornstems, cotton stalks, tobacco
stems, straw of all kinds, sugar-pulp
would provide a supply of paper in excess
of two million tons annually
annually into this country, and at
the same time, the senator averred, mean
many millions of dollars to the farmers
of this country."

The proposed appropriation of twenty
million dollars would be loaned in
amounts not exceeding four hundred
thousand dollars each to organizations
of local Chambers of Commerce and
farmers to build and equip paper pulp
mills.

Production of fifty thousand tons
more of waste field-crops suitable for
paper making is made a requirement for
obtaining governmental aid in the enter-
prise. "Loans" would be made for a
period of twenty years and would bear
four per cent interest.

The proposal has earmarks of a good
business proposition.

It is directly in with the trend in
industry that has converted waste into
profits, and made possible the creation
of great institutions such as DuPont,
as the great meat packing plants which
are reported to meet all of their oper-
ating costs with revenues from the sale
of by-products.

UNCLE SAM ON THE MISSISSIPPI
The Interstate Commerce Commission
establishes through routes and joint
rates for the Inland Waterways Corpora-
tion and the railroads connecting with
its docks. The rates are favorable to the
water carrier to insure plenty of freight
for it. The commission expects the rail-
carriers also to benefit, through stimula-
tion of general traffic.

"The interesting thing about this de-
cision is that it lends new life to a now
dormant line of boats and barges, oper-
ating mostly on the Mississippi and
Wabash Rivers, and apparently destin-
ed to further expansion. This line is
referred to by the government in spite
of the Federal policy of retarding
public generation and operation of util-
ities because it has paid a profit and
serves useful purpose."

It is giving transportation facilities
which did not exist before to a region
which needs them. It is showing anew
the potential value of inland waterways.

When the "demonstration" is complete
enough to attract private enterprise, may
not only...

PERPETUAL SYMPATHY

"In our desire to be merciful," says
President Roosevelt, "no punishment has
come in favor of the criminal and far
away from the protection of society.
The sympathetic mind of the American
people in its ever-concern over those
who are in difficulties has saved too
far from the family of miscreants to
the family of the murderer."

This is shown right along in the day's
news. It is a queer perception of just-
ice, feeling, when the sympathy of jury
and public goes out to the offender and
his family instead of the victim and
his family!

This is inaudible sympathy—drunken
sympathy. Justice is swayed by super-
ficial men and women drunk with
their own foolish emotions. It is time
to restore morally honorable emotion
which is reverence for law and right
to its proper place in our American

democracy.

DR. SCHACHT EXPECTS SECOND CONFERENCE

German Reparations Com-
mission Delegate Looks
for Failure of Experts

BERLIN, April 30 (AP)—Dr. Gustav Schacht, president of the Reichsbank and member of the German delegation to the reparations conference, was busy this day with sessions of the Reichsbank directorate.

Dr. Schacht, who has been receiving the inevitable series of calls and messages from his colleagues, is submitting separate reports on the different viewpoints. He is represented as feeling that the present conference is merely preparatory to a later and more important meeting.

Dr. Schacht also is reported to feel most disappointed about the rather limited functions for the proposed reparations bank should it become a reality. His vision of a bank which would manage international trade and thereby definitely keep Germany out of her reparations but with the ability to pay their debts.

POINTED ADVICE

PARIS, April 30 (AP)—Pointed advice to Germany to satisfy its reparations problem at the present conference of experts came simultaneously from the Government and through the Paris peace committee. It was pointed out that there will be no political conference later to patch up affairs if the present second Davis committee fails.

It is informed that the Davis plan, though the permanent peace plan, though it is considered most acceptable, is the only alternative to an "agreement" at the committee.

Through Paris newspapers, led by a small-time reporter, this nation and the other countries were advised to take the same view. It was learned elsewhere tonight.

Thus Germany appears to be faced with strong pressure for an immediate settlement. Dr. Gustav Schacht, German minister to Paris on Thursday,

Sheriff, Going Into Hills to
Investigate Shooting, Encounters Bodies On Side

HARRISONVILLE, Ky., April 30 (AP)—A sheriff, going into the hills to investigate reports of a shooting, today met a horse-drawn sled, still a common vehicle in rural areas, but not good roads, and found two bodies. One was a woman and a boy as well as a wounded man. All apparently were victims of a drunken quarrel which occurred far back in the hill country.

Deputy Wayne Hammill, 22, wounded for the gun battle, breathing beside the body of his brother Wallace Hammill, 36, and the bodies of Lee Gibson, 35, his wife Carrie Gibson, and their son, Dennis, a 16-year-old, who was driving the sled. Another man, Dennis Taylor, later was arrested, he was shot through the arm.

Authorities were gathering together the details of the Wayne-Hammill and Taylor in an effort to reconstruct the tragedy. Thomas Hamer, 30, said probably will identify Taylor as the only witness.

Statements taken from the women and the boy, who had been drinking with a man between Gibson and Wallace Hammill over their race for school trustee, each asking the other to withdraw, all had been available, Wayne Hammill said.

The sheriff reported finding a moonshiner near the scene of the shooting.

**Gavuzzi Races on
To Second Victory**

MILLER, Mo., April 30 (AP)—Pete Gavuzzi, Italian speed king of South-Central, England, led the preceding platoons of G. C. Pyle's transcontinental team to their second consecutive victory.

He ran the 33.7 miles from Springfield, Missouri, to Miller in 4:15:15, finishing just before John S. Davis, Pacific, New Jersey, policeman, 12 miles.

He finished in a tie with Paul Stimpson, North Carolina, today.

Stimpson, of the state police, New York, was second in 4:25:13.

Others in the race, Hamilton, Ontario, and Granville, Ontario, were fifth.

Mr. Gavuzzi, Scarpa Negro, who finished in elapsed time, finished thirteen and a half hours.

Resolution Seeks Inves-
tigation of Conditions

WASHINGTON, April 30 (AP)—An investigation of the financial condition of the domestic sugar industry with special attention to be given to the labor situation and contracts with beet sugar growers, will be sought in a resolution to be introduced in Congress by Representative Frank, Republican, Wisconsin.

Frear, a member of the ways and means committee now framing the tariff bill, also will request the joint committee on agriculture to inquire into rapidly increasing free imports of cane sugar upon the future of the domestic sugar industry and what methods can be used for its protection.

The resolution, showing that of 500 families studied, one-fourth of the workers in the sugar-beet fields of Michigan were less than 10 years of age, and that 75 to 90 per cent of the labor employed in the beet fields and sugar mills is foreign.

It also cited a report by the Institute of government research declaring Indian children under 13 and surrounded by bad living conditions are employed in the beet fields and sugar mills.

The petition read like carbon copy, except that it was signed by a number of Indians to a "Pitt Indian because of the way she ate her hair." He also did not like the way she fried eggs.

**WHEELER WILL INTRODUCE
PERMIT FOR PROSPECTORS**

WASHINGTON, April 30 (AP)—Senator Wheeler, Democrat, Montana, introduced a bill to permit a qualified person to contest and obtain cancellation of oil and gas prospecting permits.

"The bill will direct the Secretary of the Interior to notify the contestants after the cancellation of a permit and would make the contestant a preferred bidder for the land," Senator Wheeler said.

He also would provide that if a contestant died while his claim was being contested, his rights would pass to his heirs.

Senator Wheeler said his bill would not affect oil conservation policy of the administration.

Step Toward Commitment
of H. F. Sinclair to Jail

WASHINGTON, April 30 (AP)—The Supreme Court is ready to take its final step toward commitment of Harry F. Sinclair to jail to satisfy three months sentence for contempt of a congressional committee.

The court's mandate was drawn to day to carry into effect its decision of April 19 that the sentence imposed by the District of Columbia supreme court against Sinclair for contempt of a congressional committee should stand.

The mandate probably will reach the clerk of the District of Columbia supreme court Friday morning. It will be signed by Justice Brandeis, who is presiding over the case.

The judge making the commitment will decide when Sinclair must appear, and is expected to designate which day of the week he must appear.

The supreme court now has before it a defense, another contempt case against Sinclair arising out of jury shadowing during his trial for conspiracy to violate oil conservation laws.

COUNCIL POSTPONES ORGANIZATION WORK UNTIL COMING WEEK

Budget Will Be Taken Up at
Adjourned Session; Gen-
eral Discussion Feature
of Usual Week Meeting

Organization of the city council and consideration of the budget for the coming year were again postponed at an adjourned meeting held yesterday afternoon. The budget will be under consideration at a meeting Saturday evening and the matter of reorganization will go over until the regular meeting Monday evening. This bill, aggregating \$974,24, were all levied for expenses for the month of April. This sum included \$220 for a new motor grader, known as a road patrol, which is run by a company motor. The bill was introduced by Mr. McNeish with the services of one man. This machine was ordered a month ago when it was learned that the revenue would exceed the appropriation for the year sufficiently to pay for it. Mr. McNeish, Robert C. Soule, G. H. Gray and Claude Gates, defendants, were returning yesterday from a decision handed down yesterday by Judge W. A. Babcock.

The plaintiff's contention was that the defendants claimed that these were given in consideration of assistance given by defendants in construction diversion works and ditch. The plaintiffs denied that they had such a claim and that the city in terminating the connection on 30-day notice in the event that such a contingency should arise is specific and definite. The court ruled that the agreement entered into with the city by those outside the corporate limits desiring sever connections, *Be it noted*, form of agreement, follow closely the provisions of the sewer regulations inside the city. However, the city would reserve the right to cancel the agreement without refunding any amount paid in excess of its cost to the city in terminating the connection on 30-day notice in the event that such a contingency should arise. A specific provision in the agreement provided that if the sum of \$100 would be paid, in addition to inspection fees, and cost of installation and maintenance of plumbing, the agreement would run for 10 years, unless abrogated by reason of failure to exceed the capacity of the sewer system, or violation of the terms of the agreement by the private party signing it.

No action was taken on the proposed agreement.

AIRPORT SITE HERE PLEASSES INSPECTOR

M. C. Hoppin, Federal Ad-
visor, Examines Landing
Field, Will Return Again

"This appears to be a good site for an airport," said M. C. Hoppin, federal airways and field inspector, yesterday morning, after a visit to the proposed landing field, five miles south of Twin Falls. He was accompanied by A. C. Blodgett, state engineer, and C. H. Fuller, who drove part way yesterday. They drove part way over the ground and then walked some distance over it. "While Mr. Hoppin made a number of observations, he did not believe the site a good one, and definitely no criticism, he made no definite statement relative to the exact character of his report. He stated that in his opinion the site was not suitable for an airport, but said that as they had a great deal to do in the meantime they might not get back by that time."

They left for Gardiner shortly after returning from the proposed field, with a view of finding a proposed site for a bridge there. They will then visit Pocatello, Rexburg, St. Anthony and Ashton before returning home. It is stated

NON-SUPPORT AND CRUELTY'

BASIC OF DIVORCE CLAIM

Charlottesville non-support and cruelty, Hager-Lester years, was facilitated by divorce from S. A. Castor to whom she was married in October, 1914. DEF TRANSFERS TO HAVE CERTIFICATION OF STATE

Attention to the law requiring proper certification of bees or used bee equipment for sale was called Tuesday by O. B. Knight, bee inspector for Twin Falls county. The law provides that every person dealing in bees or equipment for bees or bee equipment must procure a permit to sell from the state department of agriculture, based on satisfactory evidence that the bees or equipment are not diseased, nor infested with other insects or contagious diseases and deliver a certified copy thereof to the purchaser. Failure to comply constitutes a misdemeanor, each violation being a separate offense.

COURT UPHOLDS PRIORITY FILINGS IN WATER SUIT

That H. L. Stewart, E. J. Fuller, F. L. Fuller, and C. A. Davis, plaintiffs, had priority rights to use of flood water of Cottonwood creek which they had not waived by stipulation, was held yesterday by U. S. Commissioner Robert C. Soule, G. H. Gray and Claude Gates, defendants, in a decision handed down yesterday by Judge W. A. Babcock.

The plaintiffs contend that the

defendants claimed that these were given in consideration of assistance given by defendants in construction diversion works and ditch. The plaintiffs denied that they had such a claim and that the city in terminating the connection on 30-day notice in the event that such a contingency should arise is specific and definite.

The court ruled that the agreement entered into with the city by those outside the corporate limits desiring sever connections, *Be it noted*, form of agreement, follow closely the provisions of the sewer regulations inside the city. However, the city would reserve the right to cancel the agreement without refunding any amount paid in excess of its cost to the city in terminating the connection on 30-day notice in the event that such a contingency should arise. A specific provision in the agreement provided that if the sum of \$100 would be paid, in addition to inspection fees, and cost of installation and maintenance of plumbing, the agreement would run for 10 years, unless abrogated by reason of failure to exceed the capacity of the sewer system, or violation of the terms of the agreement by the private party signing it.

No action was taken on the proposed agreement.

Mexico's Latest Revolution Passes Formal Military Stage

INSURGENT LEADERS PARADING TO SAFER SOIL ACROSS BORDER

Gil Regime Accepts Sudden and Unexpected Proposals of Revolutionary Chieftains to Abandon Cause.

(By The Associated Press) NOGALES, Sonora, April 30.—With unnumbered fanfares Mexico's latest revolution virtually passed out of the formal military stage here today.

Sudden and unexpected proposals of surrender by the few revolutionary leaders who had fled from this city to the United States were safely accepted by the Mexican government without loss of safety or clothing as requested.

The parade of rebel chieftains to safer soil was followed today by an aerial attack on the city by federal planes, which although apparently doing little damage evidently hastened the flight of the rebels. The feeling of uneasiness was enhanced when 500 Yaqui Indian troops at the rebel garrison bolted. It was reported yesterday that the Yaquis were under the orders of General Conrado Escobar, commander-in-chief of revolutionary armies, who is supposed to be at Bulfone pass personally commanding the tiny remaining body of rebel troops of importance the rebels.

Americans Called to Arms.

White soldiers were moving here United States troops at Camp Stephen D. Little near American Nogales were called to arms, presumably to be prepared for any clash that might occur across the line affecting American 1928 and property.

For the rebels to surrender was made at a hastily summoned conference of insurrection leaders with Fausto Aveyda, Mexican consul in Nogales, Arizona. There was no general conference of the rebels.

General Conrado Escobar, former chief of the United States Army, the proposal asked that the lives of rebel soldiers and commanders in Nogales be spared. The request was referred to General Conrado Escobar, former chief of the City who promptly replied accepting the proposal, thus availing bloodshed.

What "disposition" is to be taken by rebel generals who fled across the line has not been decided. They include General Fausto Tapia, Francisco Baez, former commander of the Nogales garnison, General Hector Sanchez Almada, General Iturbide and Dr. Francisco Arriola, chief surgeon of the rebels.

Accept Rebel Terms.

When acceptance of the rebel terms was announced Mexican federal authorities in American Nogales crossed over the border and took possession of Nogales in the name of the government.

By coinciding the revolution virtually ended in the principal point of its claim. Although the rebels had driven back into Hermosillo, Sonora, and broke out at Vera Cruz on the same date it started here, March 3, last, Nogales, however, always has been the chief headquarters. The Vera Cruz defeat, however, was the final blow after the outbreak.

There still remain roving bands of so-called religious rebels in some places in conflict with and the possibility of a revolution dividing into guerrilla warfare. What the government's plans are regarding Escobar's troops was not known here.

Federal Forest Air Patrol Again Ready to Drone Over Massed Trees Of Washington, Idaho and Montana

By CLEVELAND WILLIAMS*

(Associated Press Staff Writer)

Spokane, April 30.—Cinders from several forest fires which are ready to spread over the massed trees of Washington, Idaho and Montana, are about to bring the thin wrath of smoke and fire to the thin wrath of smoke and fire.

The timber for the three states of

Washington, Idaho and Montana, of course, Idaho on the south, the Cascades of

Washington on the west and the Canadian boundary to the north.

If assumed to duty, a pilot goes no

Great Armada of Army Planes to Engage in Sham Battles

AERIAL FORCES OF UNITED STATES TO EXHIBIT STRENGTH

Maneuvers, Lack of Enemies Only in Demonstration to Take Place Over Great Cities of Middle West

(By the Associated Press) WASHINGTON, April 30.—"Dog fights" between opposing planes in aerial bombing raids on "sleeping" cities and wartime aerial maneuvers that lack only a real enemy will be brought to the skies above thousands of homes in Oregon and surrounding states in May.

Just as the navy's fleets concentrate against Japan, the armament of aerial power—the armament of the air—will bring together more than 200 planes from all parts of the nation to participate in a gigantic 10-day battle.

New York City will get a taste of night bombing raid later in May. Dayton, Ohio, is to be the metropolis, of course, of housewives who will be able to follow the story of Cincinnati's destruction through a nationwide radio hookup, May 15.

Friends Contest
Two little friends, Lieutenant Colonel John S. Pratt and Major John Reynolds of Mitchell Field, New York, will be pitted against each other as bitter enemies in the struggle between the opposing forces.

Colonel Pratt is in command of the bombers to be based at Columbus while Major Reynolds is chief of the Blue Squadron to be concentrated at Dayton. The combat will start at midnight, May 15, and continue until noon.

Photographers will fly to the great industrial centers, photograph them from the air with a few clicks of the camera shutter and return with the developed pictures to be dropped to the ground. Attack planes will be held on the basis of accuracy.

Radio Plays Part

Radio is to be used for two-way communication with the ground to report the battle's progress from planes to the home audience and to the press, passing the news of the use of the planes, the number of hits for each mission.

A radio plane flying with the battle formation when Cincinnati is attacked on the afternoon of May 16 by more than 100 planes will broadcast news of the conflict as it's waged above the city. The story will be broadcast on a national radio hook-up, making it possible for millions to follow the battle's progress and the innovation in war-telling.

A giant bomber, carrying six men and the equivalent of two 100 pound bombs, will stage a night bombing raid on New York City May 21 after flying from Dayton with the aid of refueling in mid-air. The target will be the financial center, more than a dozen cities in Ohio may be made the objective of attacks and raids during the war games, the planes will use their first supply of live ammunition on the final day of the maneuvers. The "sham battles" of the "armada" will be raked by heavy air bombardment.

The airbase will be set up with old condemned planes and panels to denote hangars on the ground. The planes will be forced to land in the terrific striking power of military aircraft by unleashing an extraordinary attack with real ammunition on the dummy airbase near Dayton.

IDAHOANS MAKE TESTS WITH SPECIAL WHEAT

Grain From Australia Being Used to Obtain Variety For Dry Farming

MOSCOW, April 30 (UPI)—Eleven new varieties of wheat have been obtained from the Triangle experiment station of the New South Wales, members of the faculty of the Federation dry-farm wheat; with a view of finding new varieties which may be successfully grown in Idaho.

The new varieties were received by the university experiment station and are being tested in test plots under the general supervision of Dean E. J. Tiddens, of the college of agriculture, Iddings selected the wheat while on a visit to the islands.

The new wheats from which Idaho experiments are being made hope new varieties may be obtained for farmers of the state carry the following names:

Bombay, Bona, Hazel, Ideration, Early Blue, Canterbury, Silver, Silver King, King, and Warratah.

Australian wheat farmers have established an international reputation for their ability to develop new varieties of wheat, the wheat varieties are now tried for adaptability to Idaho are several developed since Federation was found. Triangle station experimenters indicate that several are giving such high yields that they are becoming strong competitors of Federation.

Old World Charm at New World Prices

PABCO THATCH SHINGLES usher in a day of new roof beauty...they create the roof beautiful with a charming Old World thatched effect.

But more important than beauty is the service and satisfaction that these shingles give. Not only is each shingle woven together at the bottom and sides with a patented thatch, but in addition every shingle is made in an integral rigid part of the roof. It is the only shingle made which is nailed at the top, center and bottom...making it impossible for the shingle to ever slip in the wind or permit the rain to penetrate. The shingles are ingeniously arranged, not a single nail head is exposed.

NEW YORK April 30, 1929—(UPI)—The market has been held largely in check by the strict credit policy of the Federal Reserve Board which has limited loans against high money rates.
The forward movement was prompted by a number of factors, among which were the call money rate held at 14 per cent, and funds came into the market during the month, and down to 10 per cent during the afternoon. Some funds were available in the thin market, however, but there was no indication that the federal credit would be speculative until there had been a very substantial increase in the call money rate. Better sentiment in the call money market has appeared during the last few days, but it is still not quite as compared to 10 per cent in April. But this was apparently due rather than more abundant credit. A year ago the April average was \$125,000,000 in bills.

It is understood the New York Federal Reserve Board will not increase its bill to its portfolio in the last few days which has probably contributed to the market's present strength, but these purchases are said to have been made in the interest of safety, and reflect no change in policy. An

other factor in the situation is Germany's flight. Outward developments in the day's market were the offering of rights to \$210,000,000 in conversion—evidently to be used for war reparations since the war and the ratification of the armistice report a record high record of \$3.04 per share, more than double the \$1.11 per share.

Automobile accessories, and parts, were up, while office equipment and electrical goods were down.

Americans Can't Buy

American exports, though strong, were well supported by the development of a possible market in Argentina, and the United States' sales to Argentina, up 10 per cent.

Aircraft was again hurried upward, rough lumber, and lumber generally moved up to a new top on the market, and the market's general movement of about 30 per cent on the preferred.

Afternoon, the market was up, and a number of firms with an extreme gain of more than 4 points. United States steel was up 10 per cent, and Orla Elevator, 10 per cent.

The market was Brooklyn, afterered

which dropped 22 points to 100, a new record low, in line with the rest of the market, and was 20 points to 100, and Orla Elevator, 10 per cent.

Cotton markets were generally firm, cotton rebounded about 10 a bale after yesterday's record low.

Wheat futures gains, 12 cents a bushel, were on availing up of May contracts. Cotton was 10 cents.
