TEEN-AGE ADDRESSES EDEN SENIOR CLASS

Gooding College President Speaks at Graduation Exercises For 19 Students

EDEN, May 18—An inspirational message was delivered here Thursday evening by C. W. Tenney, president of Gooding college at the annual commencement exercises of the high school. A class of 19 members constituted the largest one in the history of the school. The class follows: Juanita Averitt, Dorothy Bremer, Leona Craig, Eugene Elson, Francis Gunning, Edith Jenkins, Edward Lintz, Weldon Little, Willard Linn, Mrs. Mary Jones, Merle Smith, Merie Smith and Alda Watson. The high school orchestra played March Romaine for the processional. Other numbers of the program included two orchestral selections, a vocal solo by Mrs. Ava Barans, selection by the high school orchestra, songs by the high school club. The invocation and benediction was given by E. W. Little. Earl H. Smith, chairman of the board of trustees, presented the diplomas. The invocation and benediction was given by E. W. Little. Earl H. Smith, chairman of the board of trustees, presented the diplomas. The invocation and benediction was given by E. W. Little. Earl H. Smith, chairman of the board of trustees, presented the diplomas.

The Weather

Weather continued warm in Twin Falls, with a comparatively mild temperature prevailing during the morning hours and with slight changes in the air temperature from the previous days figure.

The Old Reserves held their annual ring service Wednesday afternoon at which time five members of the Eden association were presented with rings for faithfulness to the order during the last two years. Those honored were Pearl and Mr. Smith, Rowena Phillips, Thelma Lattimer and Edith Jenkinson. The presentation was made by Mrs. Alice Smith, secretary of the Old Reserves organization. In appreciation of the work accomplished during the last two years by Mrs. J. H. Sinclair, leader of the Eden girls' home made quilt was presented. Miss Butt was also presented with a gift.

The Eden school was again placed on the list of schools receiving from the state superintendent. A certificate was recently received from the state superintendent.

TWIN FALLS

Boise Track Team Noses Out Burley to Win State Title

Filer Fourth With 10 Points; Ashton Takes Third Place

Gutzman, Salmon—Breaks State Pole Vault Record by Skimming Bar at 24 1/2 Inches Over Former Mark

BOISE, May 18.—Boise high school won the annual state field and track meet here today, nosing out Burley high school and contributing to the breaking of two state records.

Boise won 23 points in the meet and Burley came second with 19, Ashton third with 13 and Filer fourth with 10.

The Boise Half-mile relay team broke the state record by coming through in 3:13, 3:13 and 6:10 seconds, four-tenths of a second better than the state record. The run did not count, toward the Boise score, as the team was disqualified at the hot district meet for improper passing the baton, the entrance this time being by invitation.

Burley, with an augmented team, took the points by coming in in 1 minute, 35 and 4-10 seconds.

Gutzman, Salmon, broke the state pole vault record by skimming the bar at 11 feet 8 1/2 inches, 2 1/2 inches better than the record.

Willie Smith, Boise, was high point man with 10 points, in the 100-yard dash. He was also placed by first in the 100-yard and 200-yard dashes. He was also placed by first in the 100-yard high hurdles, third in the high jump, fourth in the pole vault and running with the winning relay.

The finest race of the meet was the half mile, in which three men finished close to the finish. Making Ashton, taking the race in minutes, 4 seconds, after coming up from third place near the finish.

Other teams finished as follows: Salmon, 6 points; Sugar, City 8, St. Anthony 5, Aberdeen 3, Coeur d'Alene 5, Denry 5, Plummer 5, Thatcher 2, 200-yard dash—Willie Smith, Boise, first; Baker, Burley, second; Gutzman, Salmon, third; Wilson, Moscow, fourth; Olathe, fifth.

100-yard dash—Willie Smith, Boise, first; Baker, Burley, second; Gutzman, Salmon, third; Brand, Wallace, fourth; Time 16.8.

200-yard dash—Willie Smith, Boise, first; Baker, Burley, second; Robinson, third; Gutzman, Salmon, fourth; Time 22.7.

100-yard high hurdles—Forspon, Burley, first; Holman, Sugar City, second; Wallace, third; Hank, fourth; Time 16.8.

400-yard run—Neil, Filer, first; Robinson, second; Galton, Ashton, third; Dobb, St. Anthony, fourth; Time 53.4.

800-yard hurdles—Powers, Filer, first; Holt, Burley, second; Teranza, Sugar City, third; Dixon, Ashton, fourth; Time 2:39.

800-yard run—Mannan, Ashton, first; Rockett, second; Lonsont, Blackfoot, third; McEwen, Spokane, fourth; Time 2:39.

Half-mile relay won by Burley team composed of Ferguson, A. P. Paroli and Baker. Time 1:35.4.

100-yard relay—Gutzman, Salmon, first; Campbell, Nampa, second; Dexey, Coeur d'Alene, third; Ferguson, Burley, fourth; Height, 11 feet 2 1/2 inches.

High jump—Dreike, Plummer, first; McConnell, Hagerman, second; Ferguson, Burley, third; Pierson, Weston, fourth; Height, 5 feet 8 1/2 inches.

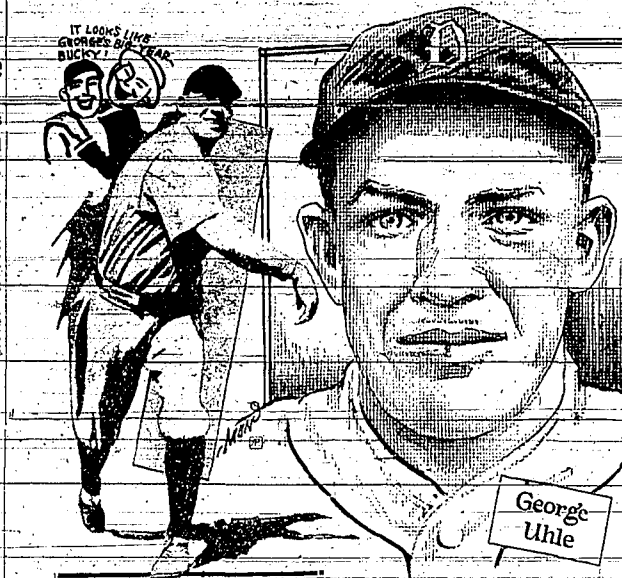

Discus—Braddo, Aberdeen, first; Phillips, Coeur d'Alene, second; Fry, Boise, third; Howard, Emmet, fourth; Distance, 110 feet 9 inches.

Shot put—Harris, St. Anthony, first; Norby, Rupert, second; Tyrill, Blackfoot, third; Smith, Boise, fourth; Distance, 43 feet 3 3/4 inches.

Javelin—E. Smith, Boise, first; Alben, Waller, second; Alden, Bonville, third; Swainston, Diggins, fourth; Distance, 165 feet 8 inches.

100-yard relay—Deyale, Blatter, first; Bunn, Caldwell, second; Brandner, Wallace, third; Holman, Sugar City, fourth; Distance, 20 feet 11 3/4 inches.

Uhle's Twisters Keep Tigers in Running

Victorious in his first five games, George Uhle is showing like the Uhle of a few years back when he twice won more than 25 games in a season.

DETROIT, May 18.—A Detroit fan came out for the first time to see George Uhle pitch asked an old Cleveland fan what the former Indian name was.

"That," he replied, "is just what American league batters have been trying to find out for the last five years. Whether the secret of what George does up to the boys goes beyond himself and his battery-mate matters little or is a long-lost-in-connection-making-up victories.

Traded to Detroit in a between-season deal, Uhle has become the man of the hour in the Michigan metropolis.

His work for the Tigers has been the difference between fair success and disaster. Of the first 12 games won by Detroit, Uhle captured five of them. And they came five in a row.

Uhle, during his 10 years with Cleveland, did what few other major league have done. He twice won more than 25 games, and he worked in the 38-innings, a staggering total.

Burleigh Grimes was heralded as the iron man of the century because of the 331 innings he pitched in 1928. Uhle's 1928 total was just 27 innings better.

Since Uhle was able to win only 20 games against 20 losses for 1927 and 1928 combined, the Cleveland management put him on the trading block. Detroit gave up pitcher Holman and shortstop Traverser for the 30-year-old hurler. It would take half of the Cleveland club to pry Uhle from his Tiger berth now.

Philadelphians are looking for a new star on the ball-field. They are looking for a new star on the ball-field. They are looking for a new star on the ball-field.

Athletics Defeat Washington Team 5 to 4 and 7 to 5

League Leaders Triumph in Double-Header Over Senators; Miller's Triple Results in First Victory

(By The Associated Press) WASHINGTON, May 18.—Philadelphia won a double-header from Washington today by making it the count, taking the first game 5 to 4 and the second 7 to 5. Miller's triple to center in the ninth inning helped the Athletics to a 5-4 victory in the first game.

Miller, who had been in the Athletics' lineup for the first time since his trade from the Senators, hit a triple to center in the ninth inning to help the Athletics to a 5-4 victory in the first game.

Miller, who had been in the Athletics' lineup for the first time since his trade from the Senators, hit a triple to center in the ninth inning to help the Athletics to a 5-4 victory in the first game.

Hollywood Defeats Missions By 8 to 4

Stars Continue Surprising Showing and Triumph in Series With Leaders

SAN FRANCISCO, May 18.—Continuing today their surprising showing of the week, Hollywood stars took a three-run victory over the league-leading Mission Stars with a 4-to-3 victory. Hollywood put the game on ice in the sixth with a seven-run rally from as many players. Rudy Hutt, Mission left-fielder, hit two home runs.

The score: R H E Hollywood 8 15 0 Mission 3 15 0

Batteries: Hutt and Cook, 15 to 0; Nelson, Lockwood and Drenzel, 5 to 1.

SEATTLE 7 PORTLAND 2

SEATTLE, May 18.—Three hits in the seventh inning gave Seattle the run needed to break a tie score and the Indians finished one ahead of Portland today by a 4-to-3 score. The series now stands two to two in favor of Portland.

The score: R H E Seattle 4 11 0 Portland 2 11 0

Batteries: Manafos and Woodall, 3 to 1; Collard, Lamanki, Pippas and Steinbecke.

SALON 4 OAKS 2

SACRAMENTO, May 18.—The Senators of Sacramento have stepped up to winning ways. They recorded their second successive victory over the Oaks by winning today 4 to 3. Puggy Doolittle took home runs on the mound, each yielding eight hits. A three-run rally in the sixth won for Sacramento.

The score: R H E Oakland 3 8 0 Sacramento 4 10 0

Batteries: Hurt, Young and Lombardi; Gault and Sevard.

CLASS AT MURTAUGH RECEIVES DIPLOMAS

Residents of District Attend Exercises Marking Graduation of Students

MURTAUGH, May 18.—Many residents of the Murtaugh district attended graduation exercises held for 23 students of the eighth grade Wednesday evening. Members of the class were Frances Ward, Effie Moyes, Elsie Roberts, Sara Eckert, Eva Merrill, Lora Norton Williams, Ester Williams, Ora Moyes, William Hall, Rex Tolman, Glenn Lee, Frank Randle, Leslie Hoesbeck. The following program was held: Invocation—Hiram Moyes; salutatory—Glenn Lee; class history—Sara Eckert; class with ray—Johnny; (class poem, Effie Moyes; class prophecy, Elsie Roberts; valedictory, Frances Ward; address to graduates, Clifford Smith. The diplomas were presented in class colors, pink and white. Presentation of diplomas was by P. St. John, chairman of the board of trustees.

High school commencement exercises were held Friday evening with invocation by Rev. B. H. Jones, and the commencement address by Rev. O. S. Kendall. Kimberly, diplomas were presented by W. H. Merrill. The benediction was by L. H. Merrill. Teachers, officers of the Parent-Teacher association and others were present. The exercises were held at the home of W. A. Farley Wednesday evening, following graduation exercises. Refreshments were served at the close of the evening's entertainment. Girls of the Blue Bird and Sea Gull classes surprised mothers at the close of the Red Sox supper Tuesday by appearing with refreshments. A rotary meeting was attended by Kate Kirkman and Arnon Hunt, Twin Falls. Mrs. Fay Perkins of the Blue Bird class and discussed the play by Louis N. Parker. Mrs. L. H. Merrill and Mrs. B. H. Merrill and Mrs. Dolmar and Reed, of Victor, are visiting friends here. Mr. Merrill taught the seventh and eighth grades here for three years. Officers of the Mutual association entertained at a banquet at the home of Mr. and Mrs. Steve Perkins Tuesday evening. A program was held and a tray dinner served during the affair. Present were Mr. and Mrs. P. M. Eckert, Mr. and Mrs. Clifford Tolman, Mr. and Mrs. J. J. Tolman, Mr. and Mrs. Le Roy Christensen, Mr. and Mrs. L. W. Lee, Mr. and Mrs. Steve Perkins, Odette Goodman, Dr. Detton, Dorothy Decker, Sara Eckert, Elsie Roberts, Everett Goodman, Lon Pickett, Lou Tolman, Myral Clark, James Clawson, Doris Clawson, Louta Pickett, Inez Tolman and Vincent Hoxworth. Twenty members of the Ladies Aid of the Methodist church met Thursday with Mrs. Griffith and Mrs. Herold. The next meeting will be with Mrs. Hoffman. Mrs. Hilda Meyer, with her sister Grace, is either in the Twin Falls for the coast, where she plans to spend the summer. She will return to teach here in the fall. "He's a good player and a good chap," said the four-time open champion.

WOMEN TO CONDUCT SALE ON POPPY DAY

American Legion Auxiliary Plans Annual Affair For Benefit of War Veterans

Next Saturday will be Poppy Day in Twin Falls. Every week during the week preceding Memorial day the American Legion sponsors and the American Legion Women's Auxiliary conduct a national poppy sale to provide funds for veterans' welfare work. This is the means they take for honoring the dead through service to their comrades—the disabled. The poppy that they offer for sale is made entirely by disabled veterans, and it bears the label of both organizations. More than 2000 of these crimson tissue poppies have been purchased by the Twin Falls Auxiliary for the sale here next Saturday. They will be offered from booths in the hotel buildings and on sidewalks in the business district throughout the day. The sale here is to be conducted under direction of a committee of the Auxiliary, composed of Mrs. P. H. Howell, Mrs. Oris Snyder and Mrs. Carl Ruch. Picnic Marks Closing Of Amsterdam School

Members of Rock Creek Board at Maroa Sets School Closing Date

ROCK CREEK, May 18.—Eighty grade pupils of Rock Creek school were honored at a banquet prelude over by Miss Neva Mosley Wednesday evening. Miss Neva Clark was the guest of the affair. The table was centered with pink carnations. Nut cups and place cards marked the flowers. Following the banquet the class attended a theatre in Twin Falls. Members of the class are Loretta Danrose, Alpha Weighall, Doris Larsen, John and Ray Hansen, Donald Crockett and Dearl Abbott. Almond Varieties Almonds are of two kinds—bitter and sweet. The bitter almond is cultivated in the United States and is used in the manufacture of flavoring, extracts and of praline. The sweet, or edible, almond is grown on a commercial scale in the south of Europe, in California and in some other countries. How About Planer? A thief stole a bass drum from an Akron musician. If you have any complaints around the house, keep your eye on them.—Akron Beacon Journal.

Stanford Net Star Wins Const Conference Title

LOS ANGELES, May 18 (AP)—Johnny Dugg, Stanford university net star, triumphed over Dr. H. H. Harrison, Oregon university, at the Los Angeles Tennis club here today to win the Pacific coast conference tennis singles championship. The scores were 6-3, 6-4. Oregon, represented by taking the doubles title when Harrison and Sherman Lockwood upset the California duo, Doc and John Wheatley, 6-3, 6-2.

Walter Hagen Praises Prince On Golf Course

LONDON, May 18 (AP)—Walter Hagen had a wonderful game of golf today with the Prince of Wales. He said tonight when he returned to London from the sporty and aristocratic Swinley forest course where with His Royal Highness he defeated Sir Philip Sasson and Aubrey Boomer, British professional, "the pro from the United States was enthusiastic over the game he saw the heir to the British throne

AIRPORT COMMITTEE PLANS FINANCING OF LANDING FIELD HERE

Meeting Will Devise Means for Raising \$1250 Necessary Following Official Approval of New Site

Twin Falls Chamber of Commerce airport committee, under the direction of T. F. Wilms, will meet Monday night to devise ways and means for immediate financing of the airport for Twin Falls.

All preliminary steps and legal requirements have been fulfilled by the committee. The field has been surveyed and located definitely as to position of runways and the general location approved by state and federal authorities. The attempt was made by the Twin Falls highway district to proceed with improvements under the new air commerce law, however, by ruling of attorneys, the present law is not sufficient to justify the highway district in proceeding with the improvements. The sentiment of the board was strongly in favor of lending whatever assistance possible.

Mrs. E. B. Williams Phone 396

Harold Dagle, Wallace, and Miss Pauline Stephens, Twin Falls were united in marriage at the parsonage of St. Lawrence's Catholic church, at Twin Falls, by the Rev. Rev. R. K. Keyser. Immediately following the ceremony a wedding breakfast was served at the home of the bride's parents. The groom, a former resident of Twin Falls, is now employed at the Wallace garage. The bride is a former student of the Mountain View school. The young couple will make their home in Wallace.

Pan-Helenic Club observed its annual guest day with a beautifully appointed luncheon in the banquet room at the Park Hotel. The tables were decorated with pink and white, and the guests were seated with a hostess of the bride's party. The luncheon was most enjoyable and the banquet was a success. The club is now engaged in raising funds for the construction of a new building. The construction of this building will place Twin Falls at a point of advantage in developing the country. Already calls are in for two large ships to land within the very near future, including one of the largest ports serving points due here about the middle of June and another large plane carrying the national president of the Real Estate association, in making his country-wide tour.

Also, a number of local citizens have already expressed the wish to own planes of their own and it is expected that in the very near future hangar facilities will be available for all purposes including private flying. The committee is also handling the matter of the purchase of commercial enterprises. To Be Self-Supporting

It is the intention of the committee to have the new building self-sufficient to insure that the revenue to be secured from the business will be sufficient to support the hangar, thereby preventing the necessity of a contribution from the money or by subscription to support this enterprise. Developments in aviation are coming so fast at the present time that it is difficult to determine just what the ultimate requirements will be in this direction. However, Twin Falls can never begin to receive any of the benefits of aviation until it has a landing field. The committee feels that immediate construction of the hangar is imperative and is therefore using the engineer's estimate as a basis for planning the general program.

There has been much interest shown by the business men of Twin Falls in the prospect of developing this business for Twin Falls community and it is not anticipated that there will be much difficulty in securing the funds with which to start this new industry here.

Cost Estimates

The committee is starting out to build the Twin Falls airport on a basis that will insure an A-1 classification field sufficient for any type of air plane now in usage.

The engineer's estimate calls for an initial expenditure of \$250,000 for rental of the land from the state and installing the water supply system.

Improvements which must be completed once include clearing of all asparagus and roots to a depth of at least four inches below the ground and leveling of the runways. Although the ground is particularly uniform and level there are nevertheless slight undulations and depressions which will call for an expenditure of approximately \$100,000 to level the ground.

Mrs. E. J. Ostrander and Mrs. E. E. Ostrander preceded at a bridge luncheon on the home of the latter on Eleventh Avenue East. Ladies of the valley and

74 WAR VETERANS GRAVES APPEAR ON CEMETERY LIST

Graves in Twin Falls cemetery of 74 veterans of American wars are to be correlated with the National flag and with emblems of flowers in connection with the observance here of Memorial day on May 30.

The list of Twin Falls soldier dead includes 41 veterans of the Civil war, four veterans of the Spanish war, and 29 veterans of the World war.

The list, as compiled by the American Legion and the cemetery association, is published at this time in order that announcements may be brought to attention before Memorial day. Here is the list:

WAR VETERANS

Elly Truesdale, L. V. Kellogg, W. E. Galpins, George H. Rosell, Lewis O. Becklin, Joel A. Cox, William G. Carter, Gilbert Guille, Henry F. Swick, Brooker S. Scott, Henry B. Vance, William B. Greenough, Robert Wilson, William S. Adams, Bert W. Hughes, Henry Smith, A. B. Lambert, William Baker, M. F. Kossman, William B. Hall, Cyrus W. Hitchcock.

SPANISH WAR VETERANS

William A. Johnson, Lewis Klersted, R. T. Hazen, Burton Homer.

WORLD WAR VETERANS

John J. Jones, Guy H. Tunks, Frank Leitch, W. C. Hickey, W. L. Hopp, John H. Smith, Alvin H. Conard, William B. Trossell, Louis Kerr, Alfred H. Maitzen, Justice Alvord, Gilbert Miller, Clifford T. Burt, Benjamin F. Hughes, Sue St. Martin Blakeslee.

Charles Dutton, Kenneth Zuk, Arthur D. Scott, Arthur G. Shields, Fred J. Leitch, W. R. Neils, William Pierce, John D. Spray, Bert L. Delano, Eugene Skinner, Charles J. Slack, William H. Hughes, Paul Max Gott, E. E. Coburn.

HOLD SUSPECTED THEFT

POCAHONTAS, May 18—J. E. Johnston, Salt Lake City, was arrested here tonight at the request of Chief of Police Joseph E. Burdige, Salt Lake City. Johnston is said by Salt Lake City police to be wanted for the alleged theft of valuable documents from G. B. Hawley of that city.

Cheese as Staple

Cheese is regarded as the staple food in many countries because of its high nutritive value. It is especially rich in calcium. In Switzerland it is consumed almost universally because of its protein content which exceeds the protein of average meat, and is richer than any other food, except perhaps eggs, butter, and cod liver oil.

FUNERALS

GLENN—Funeral services for Mrs. Nellie Glenn will be held at 2 P. M. Monday in the White mortuary chapel and will be conducted by Rev. Carl E. Riegle of the Methodist Episcopal church. Burial will be in Twin Falls cemetery.

Announcements have been received here of the wedding of Miss Audrey Bradford, Twin Falls, to Emory Williams, Bigelow, Kansas, in Denver Saturday. The bride was for 17 years secretary of the principal office of the superintendent of Twin Falls schools, following her graduation from high school here. Mr. Williams was at one time employed at the Twin Falls Bank and Trust company here. They will make their home in Bigelow, Kansas.

SOCIETY AND CLUBS

Harold Dagle, Wallace, and Miss Pauline Stephens, Twin Falls were united in marriage at the parsonage of St. Lawrence's Catholic church, at Twin Falls, by the Rev. Rev. R. K. Keyser. Immediately following the ceremony a wedding breakfast was served at the home of the bride's parents. The groom, a former resident of Twin Falls, is now employed at the Wallace garage. IRRIGATION DISTRICT ELECTION'S BATTLE LINES BECOME PLAIN

Hearing Before Twin Falls County Commissioners on Petition Brings Out Matters Causing Contention

Lines on which question of proposed organization of the Southern Idaho irrigation district, embracing 37,000 acres of the Salmon river irrigation project, is likely to be fought out at an election, were indicated at a hearing before Twin Falls county commissioners Saturday on a petition for creation of the district. The commissioners, within the next few weeks must determine whether the proposition is to be submitted to the resident landowners. Friday's hearing was continued to Saturday, May 31. Adverses of the district are represented in their petition that the district would take over the Salmon river project's irrigation system, now operated by the Salmon River Canal company, and improve the project's water supply by acquisition of additional storage. Signers of this petition number 9500 and represented approximately 9500 acres.

Set Forth Objections

Opponents of the proposed district, numbering 65 and representing ownership of approximately 18,000 acres, set forth their objections to the proposition in a petition which was filed before the county commissioners Saturday. It is their contention that (1) An adequate irrigation system now is owned and operated by the Salmon River Canal company; (2) in operation and management the canal-owners-directors and officers have been efficient and thorough and have extended credit regard for expenditure of the company's funds; (3) Residents of the Salmon river project recently voted to discontinue an irrigation district embracing these lands; (4) No benefits would inure to the lands through organization of the proposed district.

County commissioners indicated that the election probably will be called if examination of the petition shows compliance with all legal requirements. Advocates of the district have furnished \$500 bond to guarantee payment of election costs in the event of defeat of the proposition.

During the hearing Saturday-Orville E. Farrell, owner of 540 acres, and E. DeWitt, owner of 120 acres, who previously had signed the petition for the district, withdrew their signatures from the petition, and joined the opponents of the district.

Ole A. Woge presented a power of attorney authorizing him to sign the petition for the district for G. O. Allen, and R. C. Souder, both of whom intend to amend the petition record to show increase in the amount of land he owns. Names and signatures of a number of the signers of the petition for the district were identified by the number of persons taking part in the hearing Saturday, including C. L. McFarland, E. L. Rayborn, Elmer Ingraham, D. E. Ryan, Robert Taylor, A. E. Kunkel, and advocates of the district.

Identifies Tax Roll

E. H. Winslow, deputy county treasurer, identified tax rolls showing ownership of property within the proposed district, and Fred P. Bales, former superintendent for the Salmon River Canal company, was requested by the commissioners to furnish records of the company to assist the commissioners in determining whether all signers were actual owners of property as set forth in the petition.

Advocates of the district were represented by R. P. Parry, J. Paul Thoman and E. L. Rayborn as legal advisors at the hearing.

W. Orr Chapman, of Bothwell and Chapman, appeared as attorney for opponents of the proposition.

Oppose District

Signers of the petition in opposition to the district were:

C. A. Robinson, Leonard Hulsebosch, L. Smith, R. Glavin, J. R. Sprague, Randolph Orinstead, J. E. White, H. L. Maxwell, Asher B. Wilson, Ira Hufler, R. A. Carter, J. M. Pierce, George J. Ward, M. O. Gates, G. W. Carter, W. W. Powell, Neston Cahley, R. W. Lammers, W. Weddie, Hugh Dodd, Thomas Carderson, H. L. Brandt, Mrs. A. J. Abramson, L. C. Peterson, Fred P. Bales, C. I.

RELATIVES WIN ON CLAIM FOR DAMAGE

Jury Awards \$4500 to Widow and Son of Man Killed in "Gas Trap" Blast

Mary E. Hartman, widow, and Harold Hartman, son of Frank M. Hartman, 73, Glenns Ferry, who was fatally injured in an explosion of a "gas trap" at a well near Hammett, Idaho, December 14, 1928, won judgment for \$4500 damages awarded by a jury in district court here Saturday. They had asked for \$25,000. Under the verdict, the judgment is to be paid by the Gas Dome Oil company and its president, Beverly Howard, Bush, and Secretary, Mrs. Frida Maxwell Bush.

Hartman was alleged to have been injured by "blowback" and "blowover" which went with them to the well to witness a demonstration when the fatal mishap occurred.

Nine out of 12 jurors signed the verdict which was returned at 3:35 P. M. After deliberations of nearly an hour and a half.

Government Announces Typists' Examination

The United States civil service commission announces that competitive examinations will be held for the positions of junior stenographer and junior typist for which applications will close June 15. The stenographer's salary is \$4440 more or less, and the typist \$1920 more or less, for those entering. The examination is open to men only. Information and application blanks may be obtained at any first or second class postoffice.

Cataract Conqueror's Attempt Navigation of Shoshone Falls-Fourth

Al Faussett-Yakima, who says he has been in the attempt to navigate the boat here July 4, to participate in the celebration by riding over great Shoshone falls in a canoe, is expected to attempt to run over Niagara a month later.

Faussett negotiated with the last year but his attempt was not reached. He wants to lease the grounds around the falls and charge admission. He promises to sign documents releasing anyone from any responsibility in case he should be killed going over the big cataract, and will get a "high-powered" advertising man to give out publicity which he declares will bring 40,000 people to the grounds. He wants to come here June 1 and remain until he takes the high dive. He says he rides up to 300 feet and hears that the great Shoshone drops to 214 feet.

He has been shown in motion pictures riding over different falls. One such film appeared in a picture house here more than a year ago taken when he went over the Willamette river falls at Oregon City 92 feet high.

Vincent Taylor, the "human boat," who dropped from the Twin Falls-Jerome inter-county bridge, July 4, 1928, wants to come back and make another dive with a parachute on the occasion of the celebration, and also make a balloon ascension and parachute drop. The committee is corresponding with both men but has not come to terms with either.

CARD OF THANKS

We wish to extend our appreciation to all those who assisted us and expressed their sympathy in the loss of our mother.

Mrs. Katherine A. Lewis, Mrs. Frances B. Venable, Mrs. J. W. Clifton, Miss Annie Berry.

Hoover's Special Committee Predicts Greater Prosperity

RECENT ECONOMICAL CHANGES IN NATION IN EXPERTS' SURVEY

Present Balance Between Production and Consumption of Wealth Must Be Maintained, Says Report

(By The Associated Press.) WASHINGTON, May 18.—An increasingly prosperous future for the United States, provided that the present economic balance between production and consumption of wealth can be maintained, is predicted by the report of President Hoover's committee on recent economic changes.

A maintenance of high wages, in the light of what the report cites as a "stable commodity demand," increasing application of scientific and managerial skill, and an elimination of speculation, the writers of the document concluded, would assure the continuous advance of living standards for the majority of the nation's population. "We seem only to have touched the fringe of our potentialities," the report said, though it declared emphatically that during the season ending in 1928, with which year the data ceased, Americans had enjoyed a material welfare scarcely beyond all human experience.

"The survey has proved conclusively," the report continued, "that wants are almost insatiable; that one satisfied makes way for another. The conclusion is that economically we have a boundless field before us; that there are new wants which will make way endlessly for newer wants as fast as they are satisfied."

National Opportunity
"We have the power to produce and the capital to bring about the exchange between producing and consuming groups. We have communication to speed and spread the influence of ideas. We have the science and arts to help us. We have a great national opportunity."

Besides the president, signers of the report were Owen D. Young, Clarence Mc-Woolley, Daniel Willard, Louis J. Taber, A. W. Shaw, John J. Raskob, Lewis E. Pierson, Adolph C. Miller, George McCadden, Max M. Cohn, John B. Lawrence, Julius Klein, William Green, R. W. Dunlap, and Walter F. Brown. The committee's studies began a year ago and were financed by the Rockefeller

Women Smokers Receive Half of German Train Smoking Compartments

BERLIN, May 18 (AP)—The increasing number of women cigarette smokers in Europe has resulted in a ruling by the German state railroads, requiring that half the space of every German train shall be designated as smoking compartments.

By another ruling directed toward improving the comfort of Germany's railway traveling public, a thousand small cushions have just been issued. These will be rented to travelers at 25 cents apiece, fresh linen covers included.

er and Carnegie foundations, while the National Bureau of Economic Research assisted in the survey. The committee was seeking for the cause and cure of unemployment, and for possibilities of diminishing the up-and-down movement of cycles of business activity and depression.

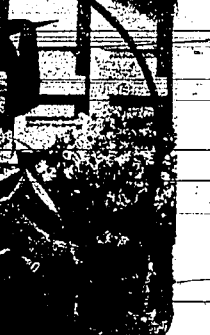

The outstanding fact which is illuminated by this survey is that we cannot maintain our economic advantage," the document continued, "or fully hope to recognize our economic future, unless we consciously accept the principle of equilibrium, and apply it skillfully in every economic relation."

"The danger," that through ignorance of economic principles or through selfish greed or inadequate leadership, the social balance will be distributed to our economic detriment. If natural resources are wastefully used; if money in quantity is taken out of production and employed for speculation; if any group develops a method of artificial price advancement which puts one commodity out of balance with others; if either surplus of labor depresses the common interest—to this extent equilibrium will be destroyed for all. Our complex and intricate economic machine can produce, but to keep it producing continuously it must be maintained in balance. It would seem that we can do so on with increasing activity. But we can do this only if we develop a technique of balance."

Advancing use of automatic machinery, it was stressed, caused "technological unemployment," as displaced workers were forced to find jobs elsewhere than in their original industry. But the increasing output of goods, and increasing demand for sales and services in connection with their use, the increasing leisure and consumptive wants developed in leisure, were said to have furnished a field for filling the employment gaps.

FINNS SIGN RUSSIAN PACT
MOSCOW, May 18 (AP)—A convention establishing customs control zones in the Finnish Gulf has been signed in Moscow between the Soviet union and Finland. The zones are outside the territorial waters of the two countries.

WINS HOOP RACE AT WELLESLEY

AGENT ANNOUNCES SHORT COURSES AT POCATELLO

BURLEY, May 18 (Special to The News)—D. E. Warren, district extension agent, calls attention to the boys' and girls' courses to be held at Pocatello for which the program has been about completed. These courses will be held at the southern branch of the University of Idaho, June 24 to 27, inclusive.

The first three days will be devoted to instruction in crop improvement, feeding and showing, livestock production, and in home demonstration work. On the last day there will be a trip to Lava Hot Springs, and an all day picnic. A preliminary enrollment is asked by June 1, so that plans can be made. Regularly enrolled 4-H club members are eligible. Expenses of board, room, picnic dinner and transportation, will be about \$5 for club members.

140 MURDERS
LONDON, May 18 (AP)—The Home Office criminal statistics for 1927 in Great Britain showed a total of 140 murders, including 41 of infants less than one

French Cardinal Once Soldier in Trenches

PARIS, May 18 (AP)—Cardinal Baudry, Archbishop of Besancon, is the only war veteran in the sacred college and it was as a soldier and not as a priest of the church that he was invited to follow the remains of Marshal Foch to the last resting place.

Private Henri Bland of the medical corps served as a stretcher bearer in the front lines throughout the war. His gallant conduct won for him many mentions in writing orders. On one occasion, seeing a number of men lying wounded and helpless, he wished to go out and pick them up, but his comrades refused on account of the fury of the bombardment. The cardinal-to-be determined to go alone. Hardly had he set out on his errand of mercy when a big shell struck the ambulance in which the others remained, blowing it and his comrades to atoms.

year old. For the other 99 cases 11 persons were married. Nine were acquitted and 23 were found guilty, but insane. There were 24 deaths and 19 executions.

OVER 900 BOYS IN SCOUT COUNCIL, ADAMS REPORTS

BURLEY, May 18 (Special to The News)—Pascal Adams, president of the Snake River Council, Boy Scouts of America, returning from the last meeting of the season held at Dahl Wednesday evening, says that there are now 99 troops in the council with a membership of over 900 boys. There are several other troops now being formed. Attention is now being given to preparing for summer camp activities. There are three mountain camps under the jurisdiction of this council. Dates set for these camps are as follows: Shoshone camp, south of Twin Falls, June 16 to 30; Independence camp, south of Oakley, July 7 to 21; Bartlett camp, July 28 to August 11. T. M. Robertson, Twin Falls, is camp commissioner. From 50 to 60 boys can be accommodated at one time at each camp. The boys are charged \$4.50 to \$5 per week for transportation and board, most of the boys who attend remaining in camp one week.

Model A Ford

"The Liberty Bond of the Automobile Industry"

A SAFE INVESTMENT

What's your car worth fifteen minutes after you sign the dealer's order? 500 miles—or five years after? It's a big point that many folks overlook when they buy automobiles, and it's a heartbreaking situation when these buyers attempt to sell or trade-in their cars.

The resale value of the model "A" Ford is perhaps the nearest to purchase price of any other car on the market. The old model "T" gained this place through customer satisfaction. So today the new FORD sets even a higher mark in this respect. "That's why we say it is The Liberty Bond of the Automobile Industry."

The Model A Ford is a Safe Investment

It will return you more money per dollar invested than any other car you can name. With this knowledge of re-sale value in mind, buy your favorite Model "A" Ford car today.

GRACE AND SPARKLE OF CAPITAL SOCIAL LIFE DISAPPEARING

Age of Automobiles and Bridge Making Inroads Into Old Time Type of Charming Entertainment

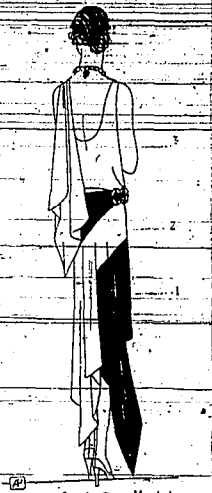

By SUE MENAMARA (Associated Press Feature Writer)

WASHINGTON, May 18—In this day of automobiling and bridge, social entertaining in Washington has lost much of its grace and sparkle, at least from conversational standpoint.

Mrs. Frances de Kraft, one of the very few remaining old-time hostesses of the capital, is in a position to contrast the days of half a century ago with those of today to the credit of the former.

"White-haired, aristocratic, with a twinkle of fun in her eye, she lives in one of the old apartment hotels near the White House on a street which once housed more distinguished families than any section of Washington."

PARIS DRESSMAKERS STUDYING AMERICANS

Yvonne Davidson Finds Women of United States Develop Strong Tendencies

By BARBARA BEAUFORT (Associated Press Fashion Editor)

PARIS, May 18—Women in the United States are dominating dressmaking tendencies about clothes, and quite recently so, says Yvonne Davidson.

"She is designer for a Paris haute couture house," says the wife of the American sculptor, J. Davidson.

"Some dresses that are beautiful in Paris are utterly miserable for New York," she announced upon her return to Paris after her first visit in 10 years to the United States.

"The Paris designers hope to satisfy American taste unless we know the life and background of the country for which the clothes are designed."

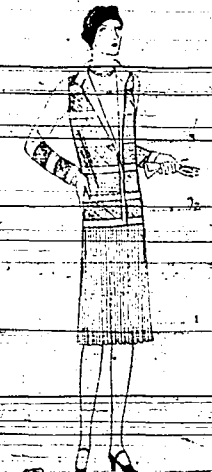

"She found that America dictates in large measure what the style will be for the United States despite the ascendancy of Paris."

"For one thing, women in the United States require brighter colors than Paris. They wear fewer woolen clothes and more silk because of efficient heating systems in use."

"The American woman wears more hats because there are few, if any, servants necessitates clothes which are easily kept in condition."

"Mrs. Davidson's observations are that the American woman wants clothes which express her personality."

Housewives May Buy Only Parts of Fowl

WASHINGTON, May 18—It may be possible in the near future, the department of agriculture says, for the housewife to buy only the chicken, legs or heads of dressed fowls.

New York and Chicago consumers now buy poultry drawn, with the feet and head off. The poultry is preserved at the point of shipment, thereby saving transportation costs.

This innovation in marketing ultimately may lead to the retail sale of parts of birds, and the special breeding of fowls for those parts that command the best prices.

WOMEN SEEK VOICE IN LAW CODIFICATION

National League of Voters Will Urge That Own Sex Be Included in Delegation

WASHINGTON, May 18—The national League of Women Voters will urge that a woman be included in the American delegation to the first conference on the codification of international laws scheduled for 1930.

The status of married women in international law will be considered.

"The doctrine that the nationality of a married woman automatically follows that of her husband has been abandoned in many countries. The independent League of Women Voters will urge that a woman be included in the American delegation to the first conference on the codification of international laws scheduled for 1930.

"It was largely through the efforts of the league and its first president, Mrs. Maude Wood Park, that the Cable act was so promptly enacted after the establishment of women's suffrage.

"It helped wipe out the humiliation which American-born women experienced during the war. To their dismay, these women discovered that when they married they had forfeited their own nationality. In spite of American ancestry and unbroken residence in this country they had to endure restrictions as 'enemy aliens.'"

"The League of Women Voters is the member in this country of the International Alliance for Suffrage and Equal Citizenship, the organization of women which has worked longest on this question."

ASSOCIATION PLANS CONFERENCE CENTER

Land and Two Buildings, One 150 Years Old, Gift From Vermont Women

LEWISBURG, Vt., May 18—A school and conference center is to be established by the National Board of Young Women's Christian association upon property donated as a memorial to Allen M. Fletcher, fifty-seventh governor of Vermont.

The 500 acres of land and two buildings, one of them 140 years old, come to the national board as a gift from the widow and daughter of former Governor Fletcher. Announcement of the gift was made by Mrs. Marion Gary of Rutland, former Young Women's Christian association field secretary in Vermont.

The school is to be opened in June with Miss Elizabeth D. Hering, national rural communities department secretary, as dean of the facility. There will be a school for rural work secretaries, according to Mrs. Gary, which has been held for three years in Vermont, and which has outgrown accommodations there.

Instruction in methods of work with girls will be offered to non-professional or volunteer workers. Miss Gary said.

"A special course is being given them opportunity to study while spending a vacation in a delightful spot."

There also will be a foreign students group. Later it is hoped to develop at the Fletcher farms small conferences of people interested in adult education.

Leaders like Benson Landis of the federal council of the churches and Henry Terrell of the International Young Women's Christian association for adult education already have expressed the need for such a center and their interest in this project.

Work is beginning in the preparation of the places for their use by the national board. The new house will contain the classrooms and dining room. "Hockside" will be a dormitory for students.

An attractive little pond in the hillside will be made into a swimming pool and the old "Hockside" will be used for arts and crafts classes.

RUSSIA BUILDS ELEVATORS

MOSCOW, May 18—The grain collecting organizations are making preparations to handle this year's crop. In addition to 100 elevators built in the last few years, 60 more elevators of 1600 ton capacity each, have been begun.

Among the New Spring Hats

LEFT: A BLACK TWEED SUIT, collared with flat white tulle and worn over a white satin blouse, goes well with this smart felt. Upper right: Flowers will adorn lady's chapeau this summer. This one has poppies over and under the brim. Lower right: A velvet and felt gardenia on a dark beige-brown turban.

Jeweled Roads Adorn Mining Territories

BERLIN, May 18—A street almost literally paved with amethyst is reported by Professor Otto Quelle of Bonn university.

He found it in Brazil, in the province of Bahian, where he visited German farm owners and rubber colonies that have mined and handled 900,000 hundred-weight of amethyst.

Whole streets, he said, are paved with the waste material that gives them a lovely violet sheen. Dr. Quelle said he knows of a place in Siberia where opals are so plentiful that the corner grades are made of small material.

"The Deutsche Allgemeine Gellung reports roads at Berneville in the Austrian Burgenland, graveled with waste from the semi-primitive serpentine stone. In the same country, near Rejnitz, arc roads of a beautiful green opals, said to be free from dust. They are surfaced with waste from asbestos stone."

Ship Ahoy! Styles Becoming Nautical

PARIS, May 18—Ships and ships that go with them are a fashion over here.

Style makers are having a national turn. To judge from the variety of sport styles which employ seafaring motifs, many of the printed designs for mid-summer are stamped with sailing ships in full rig.

With a nautical designer of sport clothes turns out a pullover sweater with ships' pennants applied on it in spirals.

Old hats and trousers, all the way from America where they originated, now are an established feature of French sport apparel.

This year's up and coming yachting girl wears gab trousers over her bathing suit.

Protestant Churches in Russia Halting Divorce Mills of Soviet Warsaw

WARSAW, May 18—So many Roman Catholics changed their religion for the evident purpose of obtaining a divorce from the protestant church that the latter body here has introduced a system providing a preliminary marriage period of six years. This has shut off at least the cases in which a remarriage was the motive of the divorced suit.

The protestant church organization in Vilna, however, has not adopted the restriction. It decided that it did better to legalize many relations and therefore it has been lenient in accepting new members. It both parties agree to a divorce there is little difficulty in getting a decree in Vilna.

PRINCE BROUVER-CUP

ROME, May 18—Prince Boncompagni Ludovico, governor of Rome, has given a chased silver cup by the city of Calcutta, India. He has sent a return present to the mayor of Calcutta.

2000 CLUB WOMEN TO MEET IN BAY STATE

Better and Happier Living Both in Home and Community Aim of Delegates

BWAMPSCOTT, Mass., May 18—With better and happier living both in the home and the community their aim between 2000 and 3000 club women will enter here the week of May 20, for the general federation biennial council meeting.

Health, home management, motion pictures, religious training and kindred subjects will be discussed at round table conferences.

One day will be devoted to community plans and achievements another to international relations, at which Dr. Julius Klein, newly appointed assistant secretary of commerce, will be the chief speaker.

Dr. W. F. Draper, assistant surgeon general of the United States public health service, will talk on "Rural Extension" at a big public welfare luncheon.

Mrs. John D. Sherman, past president of the national federation, will have charge of a program dealing with the "American home." Winners in the national essay contest on "Why I Should Vote" will be announced.

The list of honorary hostesses includes such well known Massachusetts women as Mrs. C. W. Calverton, Mrs. Frank Gilman Allen, wife of the governor, and Edith Nourse Rogers, who represents her state in congress.

Mrs. Arthur Deventer Potter, Greenfield, is chairman of the local biennial board of the council. Mrs. Grace Morrison Folsom Brockton, who is first vice president of the general federation, represents that organization in local arrangements. Mrs. John A. Frick of Allentown, Pennsylvania, is chairman of the program committee.

FEATURE FLASHES FROM FAR-FLUNG FOREIGN FIELDS

United States Army Engineers Lay Plans to Make Panama Canal Large Enough to Care for Needs of 2060

Present Lockage Facilities Will Provide for Requirements of Traffic Until 1960, According to Estimates Made By Officials, If New Water Supply From Great Dam Comes in By 1940

By E. L. POWELL.
(Associated Press Correspondent.)
BALBOA Canal Zone, May 18—Steadily increasing traffic through the Panama Canal is hastening the day, still distant, when the big waterway will reach its capacity in traffic. But United States army engineers already have plans laid which would make the canal adequate until the year 2060.

Present lockage facilities will take care of the traffic until 1960, according to estimates made by Governor Harry Burgess of the Canal Zone, and Colonel Julian L. Schley, engineer of maintenance, provided a new water supply to be furnished through construction of a great dam in the Chagres river, 14 miles away, is brought into it by 1940. The dam has already been authorized by congress.

During the rainy season, from June to January, there is a surplus of water, the level of Gatun lake rising to approximately 87 feet above the sea. But in the dry season of four months the level of the lake drops down to 80 or 81 feet. Through the construction of the new dam a basin can be created where surplus water may be stored for the dry period.

Work Underway
Surveys show that a dam at Alhajuela, 170 feet high, in the Chagres river, will form a reservoir of some 22 square miles, which will provide 2,000,000,000 cubic feet of water. Actual work on the project began early this year, when a highway was constructed from the canal to the dam site. This highway has been named "Madden Road," in honor of the late Martin B. Madden, member of congress from the first Illinois district, who for many years was chairman of the House committee on appropriations.

Free State Plans To Make Lawyers Use Irish Tongue

DUBLIN, May 18 (AP)—The legal profession in the Free State is triumphant at the decision of the government to make Irish lawyers speak the Irish language.

The government's bill, which has the official support of the official opposition, Eamon de Valera's party, provides that all persons now under 15 years of age who desire to become solicitors must satisfy the chief justice that they can conduct business in the Irish tongue. The measure has aroused much opposition, and many members of the government party are refusing to support it. Irish is compulsory in the schools now, and it is argued by the bill's supporters that lawyers now in schools have ample opportunity to comply with the proposed act without hardship.

The expansion, they declare, can be brought about through the construction of a third set of locks parallel with the existing chambers. Drafts of this third set have already been prepared, and the work has been placed at between \$75,000,000 and \$100,000,000. These drafts provide for longer locks and chambers 100 feet wide, or ten feet wider than the present chambers.

Third Set of Locks
This expansion, they declare, can be brought about through the construction of a third set of locks parallel with the existing chambers. Drafts of this third set have already been prepared, and the work has been placed at between \$75,000,000 and \$100,000,000. These drafts provide for longer locks and chambers 100 feet wide, or ten feet wider than the present chambers.

It is estimated that a third set of locks would carry all traffic offered for, perhaps a century, and that the waterway would be capable of passing 100,000,000 tons annually at that time. If a third set were constructed there would be two sets of chambers in continuous operation, even during the period of overhauling which comes every two years.

Each lock is given a thorough overhauling every four years which necessitates the closing of one set of chambers for about four months each year. At present the locks on the Pacific side at Pedro Miguel and Miraflores are undergoing repairs, which makes it necessary to operate for twenty-four hours a day the remaining single set of locks. The repairs which have been begun since late in January, will cost approximately \$400,000. No further overhauling will be necessary until 1931, when the Gatun Locks on the Atlantic side will undergo repairs.

Under the terms of the present contract, the government will be required to pay for the construction of the locks, but the government is now paying for the operation and maintenance of the locks.

BERLIN CITY COFFERS AID HUNTER OF HOME

Municipality Draws Plans to Provide 96,000 New Residences Before 1932

BERLIN, May 18 (AP)—With about 600,000 people being hunted in Berlin, a three-year program to provide 92,000 homes annually has been drawn up by the municipality.

Funds for 24,000 houses will be provided by the income from the tax on house rentals, and the cost of the remaining 68,000 will be covered by municipal loans.

The capital city is paying the penalty of overcrowding for its growing economic importance as the center for German industry and business. Homeless apartment-seekers must be ticketed, registered and investigated by government bureaus before they can secure living quarters. Even then, there is usually a premium to be paid, and one room with specially lit "cots" of the kitchen, must be reserved for the apartment owner.

Apartment lots under the bureau under this system have risen rapidly from 200 to 25,000 in 1928. Building, however, has fallen far short of keeping up with the demand, chiefly because capital has been attracted to more profitable lines. The 1928 construction, instead of showing an increase over 1927, provided 200 fewer homes.

Cleveland Clinic Explosion Kills Scores

homes, with the result that the municipality has been forced to aid the private builder.

CHICAGO, May 18 (AP)—The task of making Cook county's rambling forest preserves a chain of primeval beauty at the city's back door has been entrusted to George O. Bauers, assistant to the director of the Indiana department of conservation.

Bauers, who is 36, for 19 years had full charge of construction development and administration of the Indiana park system. During his term of office the Hoosier park system has grown to be one of the finest and best administered in the country.

BEAUTIES OF FOREST AT Windy City's Back Door
SAN LUIS, Maranhao, Brazil, May 18 (AP)—Thirty-two thousand tons of banana nuts were grown in this state last year. Most of the crop was exported to Europe.

LONDON, May 18 (AP)—Dr. W. J. A. Murray, noted explorer, said that the Royal Geographical Society will, within 20 years, the Arctic region will be crossed by daily aviation services. He said that Wilkins and the aviators who worked at "rescuing survivors" of the Halls disaster proved that landings could be made on the ice with skids.

BRISTOL, England, May 18—What might have been a great British navy is dying north of here of a mysterious malady.

It is the famous Forest of Dean, planted shortly after the Napoleonic wars to provide oak for a greater fleet than the England of Nelson's time had seen. Now thousands of the great trees are shriveling, their trunks covered with moss and fungi.

The planting seemed a splendid bit of foresight but by the time the oaks were grown the armed fighting ship was beginning to crowd the frigates of the sea. Meant to resist the pounding of waves and battle the oaks of Dean have been transformed instead into wagon scallings. As they matured they were cut down about 300 each a year and most of them planted to make more oaks.

Perhaps it is of disappointment and wounded pride that the Forest of Dean is dying. Experts admit they are ignorant of the exact nature of the ailment; but they have advanced several theories. One is that the covering of parts of the forest into coal and iron mining districts has caused atmospheric pollution harmful to the trees. Another is that a hitherto unclassified fungus causes the mischief.

MEXICO CITY'S FIREMEN TO CONSTRUCT MONUMENT

MEXICO CITY, May 18 (AP)—Mexico City firemen are considering erecting a monument to their forty fellows who were killed more than ten years ago by Zapata revolutionists who thought they were enemy soldiers.

This happened when Emiliano Zapata, leader of the nearby State of Morelos, occupied Mexico City for a while during the chaotic period when Carranza, Villa, and others were fighting here and there. His army was made up of Indians from the tropical lowlands, big hatted, roselined fighters—but country Indians who were seeing the capital for the first time.

There was a fire alarm. The engines and hook and ladder wagons came racing through the streets, the firemen in brass helmets and blue and crimson uniforms. The Zapata men thought the fire trucks were war chariots and the firemen a crack bunch of troops bent on firing to some other rebel. They directed deadly volleys at the supposed enemy.

BIRMINGHAM, Ala., May 18 (AP)—Birmingham real estate dealers are positive that one never gets too old to learn something in school.

For six days, for half hour each day, the dealers attended a real estate school and at the end of the week a tabulation of reports showed more proficiency than had been shown during that period than during any other previous week of the year.

The Convertible Landaulet Sedan
Open to sunshine .. closed to the rain... smart in any weather

When the summer sun sends down its warm, health-giving rays... fold back the top... enjoy the freedom of an open car. If a sudden shower springs up... you can have shelter instantly. Simply raise the top... snap three catches... and you are snug and dry in closed car trimmy.

On either the New Oakland All-American Six or the New Pontiac Big Six chassis you can obtain the Convertible Landaulet body type... A Fisher body erection designed to combine the fair weather benefits of an open car with the protection of a smart, completely appointed sedan. Its rear quarter of durable fabric may be folded back or raised easily and quickly. It fits perfectly into either position... revealing the fine design and workmanship which you would expect in a Fisher-built body of any type.

A special demonstration of Convertible Landaulets has been arranged which we will be glad to make for you at any time. Let us show you how light and fun one of these cars is when open... how comfortable when closed... and how easily it can be changed from one position to the other.

The New Oakland All-American Six, \$1145 to \$1375. The New Pontiac Big Six, \$1445 to \$1995. 5% Pontiac, Michigan, plus delivery charges. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values... Oakland-Pontiac delivered prices include only reasonable charges for delivery and financing.

STUDEBAKER
world's largest builder of Eights
offers championship performance at One-Price prices in The-
Commander Eight
\$1495

TODAY'S Commander Eight has swept to a popularity eclipsing even that of its predecessor, the gallant Commander which sped 25,000 miles in 22,968 minutes. Studebaker holder of every official speed and endurance record for stock cars, now sells more 8-cylinder cars than any other manufacturer.

The Commander Eight blends style and speed with comfort unknown until Studebaker introduced ball bearing spring suspension. And its One-Price price is quite as remarkable as its championship performance.

GOOD WORK

Twice within the past week Twin Falls Chamber of Commerce has attained a major objective, and the Twin Falls county has been placed in line for substantial benefits from two new sources.

As a result of negotiations carried on through the Chamber's bureau, the Jerome Cooperative Creamery, with which Twin Falls County Cooperative Dairymen's Association has been affiliated for some years, has purchased a Lincoln Produce company building and equipment here, and will, within the next few months, convert it into a big plant for the making of ice cream for distribution throughout this region.

With the active assistance of the Chamber's industrial bureau, again, a campaign has been carried on to a successful conclusion marked by announcement of definite commitments for the establishment here this season of a cooperative plant for processing vegetables.

Both of these new enterprises are of vital importance to the Twin Falls community. They hold promise of facilitating the marketing of products, and are to be regarded as very real contributions to the cause of rural relief.

BUSINESS AUTHORITY ASSERTS PURCHASING POWER TO CONTINUE

Roger W. Babson Points to Increased Employment as Reason For Predicting Good Summer Conditions

By ROGER W. BABSON, DABSON PARK, Mass., May 18.—The chief factor to watch, as it affects the general business situation and the security markets this summer, is the trend of employment. Money rates are important, but in the last analysis it is the purchasing power of the people that determines whether business is good or bad, and whether present values of securities are fictitious or whether they are based on sound foundations. Purchasing power in turn depends absolutely on employment conditions. Latest figures show that the employment index is higher than at any time since the spring of 1927.

Factory employment shows a 5 per cent gain over the same period a year ago, while total money paid in wages is 9 per cent ahead. Of course, there will be seasonal recedents in employment in certain lines during the next few months, but as a whole, purchasing power should hold up well into the summer.

Employment Gains.—Industries which are adding the most men to their payrolls are the most prosperous. It is interesting to analyze the latest employment statistics. Out of 45 separate manufacturing industries, 21 of 27 per cent have more employees on their payrolls than they had last year. In spite of the continued installation of labor-saving machinery and improved industrial technique, a number of industries are employing from 10 to 40 per cent more men than they employed a year ago. Demand for their products is so great that they have been justified in expanding their working forces in order to satisfy this demand.

Among the notable advances in employment are machinery and machine tools with an increase of 17 per cent; automobiles, 29 per cent; electrical machinery, 21 1/2 per cent; agricultural implements, 10 per cent; transportation, 12 1/2 per cent; automobile tires, 10 1/2 per cent; shipbuilding, 23 per cent; and iron and steel, 4 per cent. The only industries showing marked declines in employment compared with last year, were leather, cast iron pipe, fertilizers, brick and tile, cement, fine tobacco, car building and repairing, pianos and organs, boots and shoes, both rubber and leather.

While the largest percentage gains

are shown in the automobile centers generally. 1928 conditions are reflected throughout the country. Department of labor figures show the east, north central states leading with 13 per cent more men on the payrolls than a year ago. Next come the middle Atlantic states—where industrial activity is flourishing, with over 5 per cent more workers employed. Marked improvement has been shown in New England recently. There are about 2 per cent more workers in the factories than there were last year. In the south and south central states the improvement is less marked than in New England. Nearly 4 per cent more people are on the factory payrolls in that section than a year ago. The south Atlantic and east south central sections are averaging 1 1/2 per cent more workers. The Pacific coast shows less pronounced improvement compared with last year, but industrial employment is generally active in that section. There are, of course, certain individual industries, in certain localities where conditions are not so good, but as a whole it may be said that prosperity is more generally distributed than at any time since the war.

Five-Day Week Looks.—Although employment in the present time is generally satisfactory, there is constantly going on a displacement of workers by machinery, which, in the long run, threatens to create a serious unemployment problem unless some solution can be found for it. Evidence is accumulating that we are already beginning to find explanations for the problem. One experiment to be tried out this summer is worth watching. The General Electric company plans to put into effect a five-day week plan in its lines, while the five-day week plan which Ford has had in operation for some time, and which is reported to be successful. This shorter working week, if it were generally adopted by industry, would probably help solve unemployment difficulties. It would also mean more hours of leisure for workers, which, up to a certain point, would increase their consumption of all sorts of commodities. In the long run, moreover, the adoption of the shorter working week would tend to swell the total purchasing power.

Of course, the mere shortening of the working week and allowing workers more leisure without some assurance that this leisure would be properly used, would do more damage than good. Consequently, if industry is to adopt the five-day week it should undertake a workers' educational program, teaching them the difference between leisure and idleness. Spare time properly used will assure continued prosperity. Employees should be encouraged to utilize at least a part of their spare time in self-improvement. It may be that we shall have Saturday morning sessions in various educational subjects of interest and value to workers. The principal danger in the five-day week is the loss of production, but possible encouragement of idleness. I believe, however, that our educational system could offer special courses which would appeal to many workers who have long felt the need of further education, but who could not spare the time for it. Also, employers should insist on a full day's work for a full day's pay. Climbing in the stock market, for in-

HOME-IMPROVEMENT WORK SHOWING GAIN

Miss Marion Hepworth Reports Activity in Many Districts of Gem State

MOSCOW, May 18 (Special to The News)—Home improvement projects, dealing with beautification of homes and landscaping, are showing definite gains in many parts of the state, according to Miss Marion Hepworth, state home demonstration leader for the agricultural extension division, who has returned from a trip through southern Idaho. Bonneville county has been setting the pace in this work, Miss Hepworth said, while other counties that are actively engaged are Bonner, Jerome, Latah, and Twin Falls.

County Groups Cooperate.—Bonneville county two years ago started a landscape project, which has developed into an activity which includes the representative groups in the county. Active contributions are being made by such organizations as the American Legion, Kiwanis club, Rotary club, Business and Professional Women's clubs, Women's Federated club, and Boy Scouts, combined with the leadership of the Idaho Falls chamber of commerce. Each group is responsible for some civic improvement.

District Agent Leads.—A county-wide home demonstration improvement under the leadership of Miss Letha Christensen, district home demonstration agent at Idaho Falls, is responsible for landscaping of representative homes in the various communities. Yard and flower contents are to be held this fall.

Many of the home improvement projects in other counties are being carried on under plans similar to that of Bonneville county. Miss Hepworth said. In most counties there is an awakening to the importance of well-planned and well-kept homes as a development of individuality in home life and the economic value of improved homes in the community. She said.

Idleness, is creating a favor of dissatisfaction in the ranks of employees. This means that a large group of people are not concentrating on their real jobs. If we should have a five-day week—those days—Monday through Friday, with everyone's attention directed to the job in hand, and the suggestion of holding a two-day day show the coming year.

D. L. Fourt, extension dairyman, addressed the gathering, referring to the

A NEW and FINER OIL

For Motors that FLY in the Sky or on the Road

FIFTY, sixty, seventy miles an hour on the open highway... a hundred, a hundred thirty, a hundred sixty miles an hour in the sky! Today's motors are built for terrific speeds. Vast improvements have been made in recent years in motor design and construction. But what about oils?

In the New Vico you have a 100 per cent paraffin oil at its best. Brought to the highest lubricating efficiency by scientific processes that remove the non-essential and harmful elements, such as carbon and acids, the New Vico will give your motor a new and greater margin of protection and operating economy.

Vico is one oil that has kept pace. Always the highest quality oil money could buy, Vico is now further improved. The Vico policy is a policy of progress... constantly forward and up in quality. And Vico engineers and scientists have constantly studied for ways to improve this fine oil.

Unconditionally Guaranteed
If the New Vico does not satisfy you, after 1000 miles of use, that it is the best oil you have ever used, your dealer will refund the purchase price. Drive in today whenever you see a Vico sign and get a fresh supply of the New Vico in your crankcase.
Manufactured and Guaranteed by U'PAH OIL REFINING CO., Salt Lake City

The New Vico is an improvement even over the Vico that the U. S. Bureau of Standards reported to have the highest flash point of thirteen of the leading American oils. The New Vico stands up under heat even better than the Vico that was noted for its high resistance to heat. The New Vico is better than the Vico that four great airlines selected for their airplanes in preference to all other oils on the market!

Distributed By GEM STATE OIL COMPANY
SOLD BY GOOD DEALERS THROUGHOUT THE WEST

Mediterranean Fruit Fly Menace to National Industry

IDAHO EXPERT SETS FORTH DIFFICULTIES IN COMBATTING PEST

Rapid Propagation and Evacuation of Sprays Increase Problem of Control, Says Plant Bureau's Director

(By The Associated Press)
BOISE, May 18.—The Mediterranean fruit fly, recently discovered in Florida, is a real menace to the fruit industry of the nation—in general, M. L. Dean, director of plant industry, said today in an article prepared for The Associated Press.

"Its rapid propagation and the difficulty of getting at it with sprays increase the problem of its control," he said.

"The quarantine services of the federal department of agriculture, of the state of Florida, of California, and of all other states have been enforcing quarantine provisions against the introduction of this pest, the same as against the European corn borer, the Japanese beetle, the Oriental fruit moth, the Asiatic beetle, and many other pests which cause many diseases—yet it has come in.

In many countries

"This insect is found in many countries of the world. It is more generally distributed in the eastern hemisphere, was named, the Mediterranean region, including Spain. It has spread until it is thoroughly established in South Africa, Brazil, the Azores, Cape Verde islands, Australia, Jamaica, Bermuda and Hawaii.

"Its appearance is not much different from the ordinary house fly except that it has yellow lined spots on the body and yellow bands on the wings. The adult fly stings like a bee and deposits its eggs beneath the skin of the fruit.

"In one sting it deposits many eggs—20 or 30 eggs may be deposited. The eggs hatch in a few days and develop somewhat upon temperature conditions, the eggs hatch into small maggots about one twenty-seventh of an inch in length, which feed upon the interior of the fruit. In from five to ten days the fruit becomes a mass of small maggots. After five to eight days, if the fruit does not decay and drop from the tree, the maggots crawl out and drop to the ground and enter the soil two to six inches and pupate. If the fruit falls, they leave it and enter the soil. When temperature conditions are favorable they pupate in from 8 to 11 days and appear as an adult fly.

"Life-Span Varies

"The life of the female is from 4 to 100 days, and they have been known to lay 500 to 800 eggs each. From 17 to 22 days are necessary for the complete life cycle of the fly, and it is known that seven to nine broods would probably complete the cycle under Florida, California or Arizona conditions.

"There are from 70 to 80 fruits and vegetables that are hosts to this fly. In Florida, the principal ones are the citrus fruits—grape fruit being the most susceptible—and cherries and other so-called deciduous fruits. Green bananas are not attacked but as the fruit begins to ripen it is attacked. This gives an idea of the seriousness of the workings of this fly.

"The first infestations were found in Orange and Seville counties. The infestations have been found in packing houses, in orchards, both in fruit on trees and in piles of cut fruit.

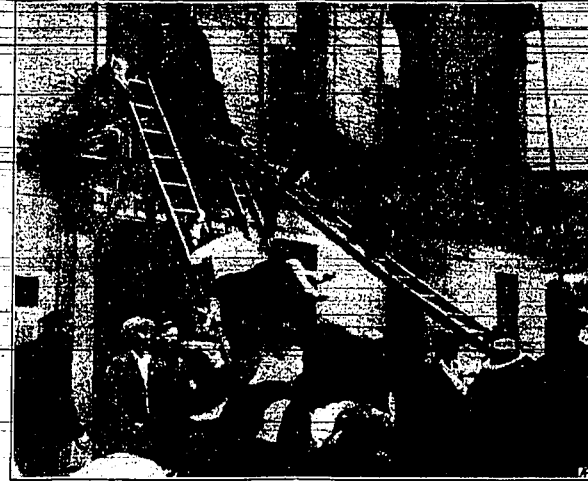

"Upon the location of an infestation, the fruit is all destroyed; the trees are sprayed with a sweetened arsenical solution to attract and poison the fly. The soil is fumigated to a depth of three feet, and quarantine measures prevent the moving of any products—soil fruit or vegetable—except after the most rigid inspection.

"Peach or other deciduous trees are dug and burned, fruit, roof and branches, as these fruits are likely to carry the fly through despite all other efforts. This fact points out the danger surrounding infestation in Idaho.

Representatives of the 11 Western states met in Sacramento on May 8 and for two days thoroughly discussed the situation. Comprehensive resolutions were adopted covering the various phases of the question.

"In Idaho the transportation companies, fruit and produce distributing companies have been appealed to and all offer the strongest cooperation in preventing the introduction of this pest into the state. No shipment of Florida products will be permitted in the state until it has been met thoroughly inspected and found to have complied to all quarantine regulations, both federal and state. Dealers should be careful in receiving grape fruit to send any doubtless to the Idaho department of agriculture."

Victims Being Removed From Hospital Blast

TWO WOMEN patients of the Cleveland clinic hospital are carried out after an explosion and fire had killed scores of persons. (Picture by telephoto from Cleveland).

AUTOMOBILE DEALERS TO CHANGE LEADING LINES

Local changes affecting two well known makes of cars were announced yesterday. The Buick line, heretofore represented by the Rendahl Auto company, has been taken over by the Idaho Auburn Sales company. In addition the complete Chrysler line of cars will hereafter be handled by the Rendahl Auto company.

The Idaho Auburn Sales company will handle Durants in addition to their Auburn representation, and have already unloaded their first commitment. Arrangements for the new line are now being made and facilities for the handling of the additional representation in the matter of floor space and office arrangement are now being worked out.

Representation of the Chrysler line has been under consideration by Mr. Rendahl for some time, the initial shipment now being on the floor. Service facilities will be in the hands of the Schwartz Auto Repair shop which continues to occupy space with the Rendahl Auto company as heretofore.

SIAM LINKED TO BERLIN

BERLIN, May 18 (AP)—Short wave radio phone communication soon will be established between Berlin and Bangkok, capital of Siam. On a platform near the Siemens city stands the receiving station with instruments made in Germany. Bacteriophony tents have already been made.

BURLEY HOLDS FIRST ANNUAL DAIRY SHOW

Exhibits Include 99 Head of Purebred and Grade Cattle of Two Counties

BURLEY, May 18 (Special to The News)—Burley Thursday staged the first of what is to be continued as an annual affair—the Cassia county spring dairy show, with 99 head of purebred and grade cattle on exhibit. Dairy stock was entered from both Cassia and Minidoka counties and the four principal breeds, Holsteins, Jerseys, Guernseys and Ayrshires were shown.

Championships were won as follows:

Guernseys, males: Carl Adley, grand champion, senior champion and junior champion; females: Gochmorr brothers, all classes—Holsteins: males: Burley, Dacia, Holstein Bull, association, all classes; females, Sam Grant, grand champion and senior champion, Ray Jacobs, junior champion, Jerseys, males: John Shumate, grand champion and senior champion, W. L. Burton, junior champion and senior champion, E. Nichols, junior champion.

Tom Miller won first place in the high school judging contest. John Crane was first in the 4-H club fitting and showing contest and Darrel Darrington has first in 4-H club judging. Much interest was shown in the meeting, especially as to the amount of butter-fat produced by four tested cows.

SPECIAL HOUR FOR NOVICES

DALLAS, Tex., May 18 (AP)—An audition period for a new radio talent is held for an hour three afternoons a week at KEBL. That time is reserved exclusively for tests to determine applicants' abilities.

Filer School Principal Kiwanis Club Delegate

W. C. Nuzman, principal of Filer grade schools, was elected delegate at the Tuesday luncheon to the Kiwanis International convention to be held in Milwaukee next month.

The program consisted of an address by Attorney E. M. Rayborn, Filer, on the subject, "The Evolution of Law." Mr. Rayborn presented his subject in an interesting manner. Mrs. L. C. Ollman favored the club with vocal numbers. Songs by Mother Faughy, Mrs. and Mrs. L. C. Ollman, accompanied at the piano by Mrs. E. A. Beem.

"CHURCH 'KNOCKS DOWN' LEWISTON, Neb., May 18 (AP)—A portable tabernacle destined to put religion close on Satan's trail, has been set up here for a month's revival service. When the revival ends the structure will be unbolts and carried off to the next town.

VEGETABLE GARDENS HOLD WIDE INTEREST

Projects Enjoy Success in Idaho, Gem-State Leader Announces at University

MOSCOW, May 18 (Special to The News)—Vegetable gardens to suit the needs of a development in the nutrition project of the university extension division, is meeting with considerable interest in various parts of the state, according to Miss Marlen M. Hephworth, state home demonstration leader for the extension division who has just returned from southern Idaho. One of the problems confronting many women who are taking the vegetable garden is the growing of them for the year.

Food Selection Project

The project deals with food selection and facts that make for growth and development as well as vitamin content. Many people live at a considerable distance from market and vegetables cannot always be gotten. Many times family's meals cannot be obtained, such that the growth has been a garden suited to the family's needs. Vegetables have been grown that it had been thought could not be produced because of adverse conditions. Miss Hephworth interested family in carrying on the demonstrations for the benefit of their groups. Information on storage of vegetables for the winter or for their use in the winter is being sent out by Miss Hephworth.

Three Faculty Members Will Return to Hansen

HANSEN, May 18 (Special to The News)—D. A. Hiles, superintendent of Hansen schools, is planning to leave about June 1 to take post-graduate work during the summer at either the University of California, Colorado or Iowa, and will return to his duties here in the fall. Other faculty members who will return are Ralph Nyland and Mac G. M. Shaw.

Miss Rachel Storer is leaving for Oahu Island, Nebraska, for a short time, and will return to her home who has just returned from southern Idaho. One of the problems confronting many women who are taking the vegetable garden is the growing of them for the year.

Miss Prior will spend the summer with her parents here. Miss Nordyke will be at Hansen in the fall. Miss Neff is to make an extended visit in Blufffield, and Mrs. Burns and Miss Lou Stowell will be at Twin Falls.

RADIO MAKES MEN COOK

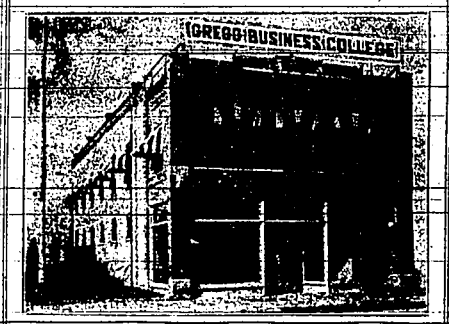

CHICAGO, May 18 (AP)—Radio is making men cook in the city. In a contest that the growth has been a garden suited to the family's needs. Vegetables have been grown that it had been thought could not be produced because of adverse conditions. Miss Hephworth interested family in carrying on the demonstrations for the benefit of their groups. Information on storage of vegetables for the winter or for their use in the winter is being sent out by Miss Hephworth.

A Three Months' Start Towards Success

If you are planning to secure a business education, why not start this summer? Attending our summer term will give you a three months' start over those who wait until fall. You will secure a position three months sooner. You will be three months ahead when promotions come along. During the summer term you will be working with other ambitious young men and women who are seizing the opportunity to get ahead while others are wasting the summer in idleness or in aimless work.

Summer term starts June 3.

JEROME HIGH SCHOOL GRANTS 48 DIPLOMAS

C. F. Dienst, Boise Superintendent, Delivers Address at Commencement

JEROME, May 18.—Two new vocational courses will be added to the high school curriculum next fall. Cooking course, and will be taught by Miss Gladys Oiler. Equipment is now being purchased for this department. The agricultural course farm shop is being introduced. C. E. Hyde will have charge of this course.

One of the annual events of commencement week is the awarding of the Davis cup. This cup, presented by Mrs. E. G. Davis is the highest honor that any student of the Jerome school can receive. For it represents the summarization of all high school honors. Its award is based on scholastic records for all four years of high school and the popular vote of the student body. The recipient of the cup this year is Alfred Ball, son of Mr. and Mrs. C. D. Ball, whose average for the four years is 2.104. He has also taken part in many of the activities of the high school.

With the close of the school year, many of the teachers are returning to their homes for the summer. On Saturday Miss Grace Myers left for her home in Texas. Miss Adina Crowder left for her home in Idaho. Miss Frances Oiler for Moscow. Friday afternoon Miss Amy Mason returned to her home in Shoshone and Miss Frances Wilson, her home in Filer. Mr. Carroll Matson, Miss Claire, and Miss Vassar returned to Boise on Friday. Mr. Matson will be connected with the bureau of entomology at the department of agriculture this summer. He will be located in southern Utah, where he will assist in an investigation of the beet leaf hopper. Superintendent Emery D. Doane and Mrs. Doane will spend a number of weeks at the University of California, at Berkeley, where they will both take special work.

The majority of the present faculty of the high school plan to return to their homes next fall. Those returning are Superintendent Emery D. Doane, Principal H. Maithe Shanon, O. J. Merrill, Mrs. D. F. Merrill, C. E. Hyde, Harold A. White, Carvel Matson, Miss Vassar, Mrs. W. A. Peters, and Gladys Oiler. Miss Emery Truitt returns to her home for the first time next year. She will fill the place left vacant by Miss Arda Claire.

Mrs. Frank Smith entertained at an attractive luncheon on Thursday honoring Miss Dorothy Sheldon and her fiancée, Arthur Bean, San Diego. The guests were a group of teachers and close friends of the honoree, with whom she has been associated this year in her work as an instructor in the high school. Immediately after the luncheon, Mr. Bean and Miss Sheldon left by car for Payette. Their marriage will take place Monday in Payette, at the home of Mrs. Barlow, a close friend of the bride. After the ceremony they will leave for their new home in San Diego by way of Portland.

Members of the Business and Pro-

Will Run for Senate in 1930

REPRESENTATIVE RUTH HANNA MCCORMICK, who has announced she will be a candidate for the senate in 1930, is shown with her daughter at the children's horse show in Washington.

Professional Women's club enjoyed a banquet Wednesday evening at the North Side Inn. Covers were laid for 20. Miss Lorene Johnson—Miss Deborah, Lincoln and Mrs. Spelling were guests of the club. There was no program but the club songs were sung by the group. A business meeting was held after the dinner at which officers for the ensuing year were elected. Mrs. Lois Bridgeman was the new president of the club. Mrs. May Oiler, Mrs. W. A. Peters, and Gladys Oiler were elected. Mrs. W. A. Peters, Mrs. W. A. Peters, and Gladys Oiler were elected. Mrs. W. A. Peters, Mrs. W. A. Peters, and Gladys Oiler were elected.

The Tuesday night bridge club met this week at the country home of Mrs. Henry Trappan, with three tables playing. The award for high score was won by Miss Winifred McCuire and low by Miss Frances Daley.

With the opening of the Inland Baseball League on Sunday, May 19, the local team has been practicing two or three times a week under the direction of coach Harold A. White.

Mrs. Ina Foster and baby daughter of Shelley are visiting Mrs. Foster's

parents, Mr. and Mrs. McKenzie at the Jerome hotel.

A weed tour for the purpose of looking over the weed work during the season of 1929, has been arranged for May 22. The Jerome county commissioners, and several members of the North Side canal board will be present. All others who are interested in the weed work that is being done in Jerome county are urged to attend. The party will meet at the court house Wednesday morning.

Arrangements have been made between Jerome post, American Legion, and the county fair board, by which there will be summer night racing on the fair ground track every other Saturday night during the summer, beginning June 1. There will be running races and chariot races. The profits will be divided between the fair and the Legion and it is expected by this means to secure funds for improving the race track.

Queens of the Rotary club at the regular Tuesday luncheon meeting this week included Harry Benoit, Twin Falls, Henry Oranson, Rupert, and Judge Benker. Each was called upon to speak and responded with short talks. Wal-

Mr. and Mrs. W. L. Brewer, and their daughter, and son-in-law, former residents of Jerome, arrived last week to again make their home in Idaho.

Mrs. Clyde Jenkins was hostess to the members of the Nechanic club on Tuesday afternoon at her home. 13 members being present. The afternoon was spent with needlework after which refreshments were served.

Mr. and Mrs. Frank Smith left Friday morning for Boise where they will spend a few days on business.

The Junior dancing club enjoyed a dance at the Civic club Thursday night.

The interior of Harper's hardware store is undergoing a complete renovation. Showers, walls and ceiling have all been painted, and a room partitioned off in the rear for an office.

Smooth at all speeds Quiet, Quick and Flexible!

YOU can have no conception of the high quality of Plymouth's behavior until you have driven this amazing Chrysler-built car.

For today's improved Plymouth—with its many recent engineering refinements—affords an utterly new and higher standard of smooth, silent operation unusual in cars of similar low price.

Plymouth is smooth at all speeds—and amazingly quiet and flexible. Take the wheel—drive as you will, where you will. Throttle it down—step it up—run the whole range of speed. Not a flutter—not a tremor.

655

A new crankshaft—dynamically and statically balanced; lengthened engine stroke; and increased piston displacement—larger main bearings and connecting rods and light aluminum alloy pistons—all these play a part in creating Plymouth's new smoothness.

1,000 A DAY

The engine is insulated by live, resilient rubber, while a body-insulated neutralizer is added as a further guarantee of smooth operation.

Plymouth eclipses the entire low-priced field in value.

Coupe, \$655; Roadster (with rumble seat), \$675; 2-Door Sedan, \$675; Touring, \$695; Dr. Line Coupe (with rumble seat), \$695; 4-Door Sedan, \$695. All prices f. o. b. factory. Plymouth dealers extend the convenience of time payments.

PLYMOUTH'S LOWEST-PRICED FULL-SIZE CAR 2 8 8

MANY OF TEACHERS AT BUHL TO RETURN

Committee Chairman Lists Members of Faculty to Serve Next School Year

BUHL, May 18—All members of the school faculty have been offered contracts for the year 1929-1930 according to George E. Wash, chairman of the teachers' committee, and many will return to their duties September 9, the opening date of the first term. Those who have accepted contracts include: High school—Lola Rudy, vs. Onan Clifford Davidson, Carl Curtis, Eulalia Schaefer, Helen Milliken, Gladys Reed, Clara Walton, Orrin S. Luker, Moore, Grace Collings, vs. high school—Mrs. E. E. Van Houten, principal; Fern Thompson, Ethel C. Davidson, Ellen Dahlquist, Lincoln building—Myrtle Gault, principal; Marjorie Miller, Mrs. Lulu Gault, Bernadette LeBlanc, Norma Scully, Virginia Hart, Elizabeth Kayser, Ruth Lewis, Bernice Skiller, Wanda Lee-Woolford, Frank H. Rimary, Buhl school—Grace Seehler, principal; Ida Hersheshimer, Kate Skiller, Lucia Houston, Mrs. Helen Fletcher, Wilma Noh, Ruth Duffington, Frances Seely.

ARMED WITH EGGS and stones, 150 students at Des Moines, Iowa, university, stormed the administration building where trustees were meeting to protest ousting of President Harry Wayman. Picture shows students before police broke up the riot. The trustees closed the school and discharged the entire faculty.

Draw school. A community picnic was held at noon. Mrs. E. J. Shaub was jostled Wednesday afternoon to the Clear Lakes road Kensington and during the business session Mrs. Andrew was recruited as a new member. Refreshments were served to 16 members and four guests, Mrs. Methven, Mrs. Orr, Mrs. Robertson and Mrs. Rhoads-Gordie. The next meeting will be June 10. The Sunnyside Social club met Wednesday afternoon at the home of Mrs. R. Crawford for a session of the Women's Federation meeting at American Falls. Reports were given by Mrs. George Haxel, president of the club, and Mrs. Wierholt. Roll call was answered with memories of mother and Mrs. Clay Cox sang several songs. Dining refreshments were served to 16 members and one guest, Mrs. D. W. Jones. The next meeting will be May 22 with Mrs. Sam Malone.

The following births have been reported here: Mr. and Mrs. Earl King, a son born May 11; Mr. and Mrs. H. H. Cook, a daughter, born May 12.

HONOR ROLL AT HANSEN INCLUDES 50 STUDENTS

HANSEN, May 18 (Special to The News)—Fifty Hansen students achieved high scholastic standing the last year according to the honor roll announced by the school district. The semester honor roll includes the names of 50 students—Grace Brewer and Ezra McFarland made all A grades during the semester, and Grant Reynolds made a straight 'A' average of 99 per cent in all courses. The honor roll: First grade—Kenneth McFarland; Paul Clinton; Helen Pettigrew; Mary Ellen Wood. Second grade—Bert Bennett, Betty Jo

Chasahat, Dorothy Schaefer. Third grade—Virginia Durk, Euna McFarland, Farleigh Hill. Fourth grade—Ruth Burnett, Theora Belle Burns, Bill Kerr, Irene Scott, Blake Froehlich, Edna Trunkay. Fifth grade—Charlotte Hubbert, Margaret Hfrance, Spas Pennington, Wayne Stundt, Beulah Smith, Ross Trunkay. Sixth grade—Evelyn Swindler. Seventh grade—Evelyn Egan. Eighth grade—Margaret Klingemann, Martha Froehlich, Irene Schaefer, Bill Wiseman, Helen Ezzah. Ninth grade—Grant Reynolds, Norvil Reynolds, Robert Durk, Bill Pledger. High school—Margaret Cowan, Grace Reynolds, Robert Durk, Bud Heider, Leonard Hall, Lucile Hall, Tom Kendall, Clarence LaCourse, Fern McFarland, Victor Mal, Lester Naylor, June Hobson, Zenda Bebbon, Gerald Stanger, Roy Smith, Ruby Wiseman.

Caravan Transportation Caravan (Starvation) is a word denoting a body of traders, traveling together for greater security and for mutual assistance. Caravans, however, are generally employed for the transport of heavy loads. Loading tobacco in early Virginia. HIGHWAY DISTRICT BUYS GRADER AND TRACTOR

The Twin Falls highway district board yesterday voted to purchase a grader and tractor similar to the combination used by the city provided that demurrage should cover the price of the work required by the district. J. D. Shenna, district engineer, reported that the grader was a road-runner north, which connects with Addison avenue two miles east of Twin Falls would be finished. Mr. Shenna further reported that resurfacing of the road down the grade to Shoshone Falls badly washed on some weeks ago had been completed. A trip of the board over roads leading toward Jarbidge was discussed but no date set.

QUALIFIES FOR ACADEMY TOKYO, May 18 (AP)—Feng Hung-Kuo, first son of General Fenu Yu-Hsiang, is one of 101 young Chinese who qualified for admission to the Imperial Army Academy here. The young man's father recently pleaded at Nanking for military preparedness, pointing to Japan as the ultimate enemy of China.

China's Gigantic Wall It is the opinion of experts that the Great wall of China was built of round boulders and earth, the different sections being reinforced as they fell into place. Only in the valley bottoms and on the passes was it constructed of masonry or hewn stone. The office rebuilt certain sections of solid masonry.

Industrial Beginnings The first machine installed for weaving silk cotton here in 1872 was set up at the Hilsford (Maine) plant of the Vermont Manufacturing company in 1874.

Hawaii's Floral Emblem The tropical flower of the islands, the waiwai national flower, is the Pan Ateolo.

GATHERS DATA

LONDON, May 18 (AP)—Lord Charnwood, author of a biography of Abraham Lincoln, hopes to have a life of George Washington ready for publication in 1932. Meanwhile he will visit the United States to gather data.

Losses Caused by Cold

England has lost \$100,000,000 in a year, according to a preliminary report. He places the main loss through the loss of stock and property in the north. His estimate is based on the number of people who have from one to twelve colds a year, and that the efficiency of these is reduced for at least a week; the sum totaling in time they are ill even though still able to work to some extent.

SENIORS PREPARING PLAY AT KIMBERLY

Graduating Students Will Stage "Mary's Millions" in Auditorium at School

KIMBERLY, May 18.—The senior class of Kimberly high school is completing arrangements to stage the play "Mary's Millions" in the school auditorium Tuesday night. The production will include the following students: Wilbur Jones, Jack Spencer, Zeldan Meyer, James Felton, Martha Herndon, Mildred Silvers, Opal Boyd, Edie Krueger, Millie Foster and Lucy Horah. Members of the Calendar Tea club were entertained at the home of Mrs. William Van Houten Wednesday afternoon. During the business session, which was presided over by Mrs. Eric, in the absence of the president, club finances were arranged, including a \$16 sum for the Old Deserter and \$20 for the church. Mrs. D. C. DeLapp, in charge of a spring program, gave an introductory reading on music week. Mrs. C. McVey read a paper on "Music," and Mrs. J. P. Henry gave a reading, "Every Day is Mother's Day." Mrs. Charlotte Upton gave an instrumental solo and Edith Bruns read "May Day." Community singing of patriotic songs and a short poem by Mrs. DeLapp concluded the program. Mrs. C. McVey, Mesdames J. A. Moran, G. S. Pomeroy, B. E. Potter, E. V. Newcomer and Miss Edina Ray served refreshments from a table centered with apple blossoms with yellow tapers on each side. Mesdames G. D. Fletcher, Thum and Mrs. Bernard poured at the event.

AIRPLANE ESPECIALLY equipped with recently perfected apparatus which made two-way teletphony from airplane to ground station possible. Inset shows aviator talking.

PARISIANS DEBATING GENERAL CENSORSHIP

Books, Plays and Pictorial Art May Be Made to Conform to Critics' Taste

By JOHN EVANS (Associated Press Staff Writer) PARIS, May 18.—Censorship of books, plays and pictorial art is up for debate. Those who "express" themselves are deemed by many to have gone too far. Some of the plays, innumerable books and quite a lot of pictures cause critics to reach far afield for vague phrases to indicate the subject. France constantly boasts that art is free here but "The Intermediary," the organ of the book trade, inquires where freedom ends and license begins. The idea of censorship is repellent to artists and writers but there is fairly wide agreement that the situation needs correction. Marcel Proust of the Academie Francaise, who won fame by his analyses of swank's souls and very free treatment of delicate subjects, favors a sort of literary group empowered to discipline offending writers. "People get the kind of literature they deserve," says Baron Ernest Scitoni, member of the Academie of Moral and Political Sciences. Pierre Mille and Jose Germain, the first, a critic and the second a novelist, propose a sort of citizens' committee of censorship. Extreme modernists like Carlucci and Jean Cocteau naturally oppose any censorship. Carlucci says: "We have freedom in France; let's keep it." However, it is precisely to keep freedom that the book trade and much of the art world is concerned over what they consider abuse of freedom. They fear the government of the people may put their house in order for them if they fail to do it themselves.

REPORT POPULATION

SHANGHAI, May 18 (AP)—Chinese authorities report the population of Shanghai as 2,728,216, of whom 47,760 are foreigners. There are less than 5000 Americans in the city. French, British, German, Portuguese, Swiss, Italians and Japanese are numerous.

DISEASE DECREASES

MOSCOW, May 18 (AP)—The public health department has reported steady decreases in disease and mortality in Russia in ten years. Since 1914 smallpox has decreased eight times and typhus three times.

Chinese Fond of Poultry

While cattle, pigs, sheep and fish provide part of the usual diet in China, poultry is the most common of all animal food in poultry. Many varieties of chickens, ducks and geese are raised and eaten.

Uncle Eben

"I ain't an up-to-date to lend a lay 'lar," said Uncle Eben. "When a man ain't got anything to do, he goes 'lar' an' ails 'lar' an' worried 'lar' do some." —Washington Star.

A Convict's Plea

By D. & C. CUBICILLI Behind these prison walls father, locked in a convict's cell. What thoughts go racing through my brain. No free man's tongue can tell.

My doom is sealed, the die is cast; My destiny was fixed. Upon that fatal mispent night—When gas and whisky mixed— I'd give the world if it were mine, To wipe away the stain; But here I am, confined for life, My supplication vain.

'Twill break poor mother's heart to know That I disgrace and shame Have heaped upon your aged heads, And those who bear my name.

May God forgive if I consent Or wrongfully accuse; But take one long, deep solemn thought, As you these lines peruse.

You granted me my every wish, Firm discipline withheld; And when the law forbade you drink, You willfully rebelled.

Like all indulgent fathers, You hoped that I'd go right; Though failed to lend me as you ought, So here I am tonight.

My crime is but the ripened fruit Of acts you did endorse; 'Till pay for it in servitude, While you pay with remorse.

I never learned until too late That law must be obeyed; I tried with it till at last— My freedom for it paid.

And here within a felon's cell, I am condemned to die; That you are father-to-son—in 'You cannot-will deny.

You tempted me to break the law; Hence I have gone astray; For want of someone, when a child, To teach me to obey.

THE HOUSE THAT WASN'T READY

It was a trim, stylish house and looked so snug. But when the first terrific storm swept upon it, the owners were dismayed at the chilly comfort. They hadn't known that only radiator heat can keep an entire house warm in any weather—and that American Radiator Heating Equipment can be bought on easy payments for less than \$75 a room. Let us tell you about it. We guarantee all work.

CARTS UNDER BAN

HAVANA, May 18 (AP)—The narrow rimmed carts long characteristic of Cuban roads, have been ruled off the new paved streets of this city because they cut up the surface faster than it can be re-laid.

POPULATION INCREASES

BERLIN, May 18 (AP)—The 1929 budget of this city was drawn on the basis of an increase of 50,000 in population in one year making Berlin a city of almost 4,000,000. The total was \$268,800,000. Last year's deficit was \$1,840,000.

Ocean Levels

The mean level of the Pacific ocean at the latitude of Panama has been found to be about eight inches higher than the mean level of the Atlantic. In the month of February the levels are the same, but throughout the rest of the year, on account of current, tidal and wind influences, the mean level of the Pacific ranges above that of the Atlantic. It is as much as one foot higher in October.

Action of Explosives

The belief that gunpowder explodes upward and high explosives downward is erroneous. Each explosive tends to go in all directions. However, when powder is placed on a surface it does not actually shatter the object it is in contact with, while dynamite does so rapidly that it does shatter the object it is in contact with, and the hole it makes in the earth is greater than that which the powder makes.

Egyptian Builders

An Egyptian says that the Egyptian set up tall obelisks, like Cleopatra's Needle, by building a temporary embankment with a deep pit in the middle, dragging the monument to the edge of the pit, and tipping it over to stand by place on firm ground.

WOMEN OF DISTRICT TO GATHER AT GUYER

State Home Demonstration Leader Announces Plans for Vacation Sessions

MOSCOW, May 18 (Special to The News)—Holding of the annual summer vacation camp for women in the southern Idaho district at Guyer Hot Springs has been definitely decided upon, Miss Marion M. Hepworth, state home demonstration leader for the University of Idaho, agricultural extension division, announced upon her return to Moscow. Location of the camp in this district had been uncertain, Miss Hepworth said, until word could be received from Guyer.

Six Summer Camps

The camp at Guyer will be one of six annual summer vacation camps to be held in Idaho during the coming summer. Plans for improving the grounds at Guyer and getting the buildings ready will be started at once.

Starkey Camp First

The first camp of the season is to be held at Starkey Hot Springs June 26, 27 and 28. A camp is scheduled for Moeck's Inn July 20, 31 and August 1. The Twin Falls camp will be held August 7, 8 and 9. Locations of camps for the Southwestern and Northern districts have not been decided upon.

EIGHTH GRADE STUDENTS GRADUATE AT ROGERSON

ROGERSON, May 18—Many Rogerson residents attended graduation exercises held in the schoolhouse for students of the eighth grade Wednesday night. The address was given by Ethel L. Hodgins, Twin Falls. The program

also included the singing of "America," invocation by Rev. J. K. Walpole, address of welcome, Joe Deal, class poem and vocation song, Ruth Waters; class prophecy, Thomas Holley; piano solo, Grace Joslin; class will, Florence Heckli; presentation of class, H. Troy Thompson; presentation of diplomas, Mrs. Rose J. Wilson, county superintendent; class song by graduates, and closing remarks by H. Troy Thompson. Students graduating were: Ruth Waters, Florence Heckli, Grace Joslin, Ted Joslin, Jess Deal, Joe Zellbach and Walter Moon.

Rogerson school closed Friday morning for his home at Teton where he will spend the summer and Mrs. Lucile Folk will reside in Twin Falls. Mrs. Dove White will remain in Rogerson.

ROOM AWAY TO SCHOLARS

SPRINTLIFT, Mich., May 18 (AP)—A student boarder to the Michigan state normal school here provides free room rent for scholars for six young women.

MEDICINE REPORTS SHOW

SPRINGFIELD, May 18 (AP)—About half a million pills and medicines shipped abroad last year went to South America and the Orient. The United States chemical industry is expected to increase its share of that business.

EXPENSIVE AIRPORT

WICHITA, Kan., May 18 (AP)—A \$600,000 budget to house 15 planes will be included in a new 640-acre municipal airport here. More than \$250,000 will be spent for improvements including a \$100,000 administration building, \$200,000 for lighting and an equal amount in landscaping.

GRANTS EXTENSION PAPERS

SACRAMENTO, May 18 (AP)—Governor Crocker-Hughes today granted extension papers for the return of Nicholas Dias from South San Francisco to Las Vegas, Utah, to answer to the murder of a Utah-Panama miner.

The seniors held class day exercises Tuesday night before a large audience. The program opened with a clarinet solo by Jack Snodgrass. The cathartic was given by Maxine Abramson and the valedictory by Helen Derby. Catherine Folkman read the class will and Cordelia Mewhiter the class prophecy.

Members of the glee club, who belong to the senior class: Renta Davis, Josie Handy, Hilda Rasmussen, Pinkston, Lucille Henley, Elizabeth Hendry, Bulah Parkinson, Marguerite McCutcheon and Esther Garner. Two one-act plays were given by the program. The first, entitled, "The Valiant," was played by Merion Christensen, Walter Shaw, Alfred Ball, Richard Lee, Harold Carlson and Hazel Wheatcroft. "The Ghost Story" was the name of the second play and the cast was made up of Maxine Wolfe, Sam Otto, Beanie Spofford, Elizabeth Hendry, Juanita Lawrence, Murray O'Rourke, Ella Shawyer, Clifford Bird and Harve Carlson.

At a meeting of the Association Tuesday night it was decided to erect four additional cabins in the legion tourist park. The legion already owns and operates four cabins, and with the completion of the new cabins, will be splendidly equipped for the season.

Honoring three of their members who are leaving Jerome soon, the Ladies Aid society of the Methodist church gave a banquet in the basement of the church Monday evening. The honored guests were Mrs. Frank Laurinsson, who will go to Boise about June 7 to make her home; Mrs. Cool-Bott, who is leaving soon to reside in Hazelton, and Mrs. Cleo Moseley, who leaves Wednesday for her new home in Nampa.

Covers were laid for 36 members at tables decorated with spring flowers. Mrs. W. O. Harmon presided as toastmaster, and musical numbers were given by Josie Handy and Mrs. J. P. Quigley, and a reading by Mrs. A. P. Heister. Mrs. E. M. Snodgrass, on behalf of the society, presented flowers to the honored guests.

Twenty-five members of the Senior Guild met at the home of Mrs. Roy Smith on Monday night. The business meeting was presided over by the president of the guild, Mrs. Catherine Eakin. Plans were made for a silver tea to be given next Monday night.

An interesting book review was given by Mrs. G. Conger. During the social hour refreshments were served.

Reports from St. Valentine's hospital, Wendell, regarding the condition of Amos Clark, the lad who was severely injured when he was crushed under the wheels of a truck, are very favorable. A decided improvement is noted.

Representatives of several local churches met Monday night for the purpose of organizing a vocational Bible school. Mrs. James Grant was made chairman and a number of assistants were named. Bible school will begin June 3 and continue two weeks and will be open for all children from 4 years to high school age. It will be held in the Methodist church, as it was last year.

Would You Like to Forget Your Car Has Tires?

"An Invitation to Tire Punishers"

You motorists who step on it up to 60, 70, 80 miles per—
 —who like to cover 400, 500, 600 miles a day on trips
 —who show no mercy to tires on destructive roads
 —who drive several times farther each year than most people do.

See this New Type of Tire!

We now offer a tire that out-matches, and outlasts any previous type—oversize, extra-ply or heavy duty—for motorists who "drive hard" by choice or necessity.

An entirely new type—a super-tire—built without limit as to cost. Goodyear's 30th Anniversary masterpiece! The DOUBLE EAGLE. Frankly, a better tire than most people will ever require.

We doubt if it will wear out before a motorist ordinarily

Important Features of the "GOODYEAR DOUBLE EAGLE"—The Tire of Tires

1. The finest, strongest, hand-molded tire that money can buy.
2. The deepest, most practical All-Weather Tread is practically double-thick.
3. Longest-wearing rubber compound in this tread Goodyear has yet developed.
4. The body of the tire is built of extra-heavy STRENGTH cord fabric, to a new
5. both in cross-section and overall diameter, more plies of cord fabric; more rubber between the plies.
6. Lined with an extra layer of rubber to protect the cords from moisture.
7. Special low temperature cure.
8. The finest materials, the finest construction, regardless of cost.

parts with his car. And the chances against blowouts—or even a puncture—are figured at 1,000 to 1!

New records for long and non-stop runs without fire trouble—new records, too, for low per-mile cost—service these are now to be expected.

Come in, examine this tire—you'll agree with us. Never, have you seen anything like it. You'll also admire its distinguished beauty—a set of DOUBLE EAGLES adds to the appearance of the costliest car!

Similar endurance, proportioned to the needs of regular service, is found in regular Goodyears, which for most motoring requirements, are "The World's Greatest Tires."

On change-overs, of pairs or sets, we are offering most liberal inducements.
