

THE TWIN FALLS DAILY NEWS

SELFISH AUTOMOBILE DRIVERS GET BLAME FOR MOST ACCIDENTS

Boise Conference Closes With Formation of Idaho Safety Council for "Conservation of Human Life"

(By The Associated Press.)
BOISE, June 15.—Selfish drivers are responsible for nearly all automobile accidents, Ered E. Lukens, secretary of state, told the all Idaho safety conference here today.
The conference closed with the formation of an all Idaho safety council to work for "conservation of human life."
One hundred representatives of industries of this state and neighboring states attended. The list of members included R. C. Manning of the United States bureau of mines at Salt Lake City; L. E. Newman, Portland, vice president and general manager of the Oregon Portland Cement company; Karl Sparks, safety engineer, Colorado; A. L. Smith, Portland, vice president and general manager of the Oregon Portland Cement company; R. H. Snyder, superintendent of Idaho Falls schools; and P. E. Hansen of the Utah Light and Traction company, Salt Lake City.

Demand strict law.
Demands for a strict law requiring drivers to be licensed to drive automobiles before being allowed to drive automobiles were voiced by several speakers. Hansen especially insisting that "a law to eliminate the 25 per cent of who now cause most of the accidents."

Hansen asserted those people who "take wing at 20 miles an hour," as the cause of many accidents, for, he said, "their minds were going along at the same speed as their automobiles. If they were going faster their minds would be alert."

Secretary Lukens cited figures to show that three out of four automobiles in Idaho to carry out every inhabitant in 10 hours in case of a major catastrophe, with this increase in automobiles, however, has come an increase in the traffic fatalities. "We must be met by some sort of legislation," he said.

Of 85,000 accidents reported to the National Automobile association by pedestrians cutting across streets between intersections—lying down in the path of the automobile driver.

"The same charge of selfishness can be laid against the automobile driver. Drivers under the influence of intoxicating liquor caused 400 deaths of 5200 reported to the national automobile association last year. In the last instance, however, I am of the opinion that we can solve this only by getting at the root of the evil. We must stop the use of liquor. There will not be much progress until we have abolished it."

COLLEGE PRESIDENT QUILTS
WALLA WALLA, June 15 (AP)—President B. L. B. of Whitman college today submitted his resignation to the board of trustees.

CHARLES DAWES OFF TO VISIT MACDONALD

British Public Watching Brusque Mid-West American With Keen Interest

LONDON, June 15 (AP)—Charles Dawes, American ambassador to Great Britain, left tonight for the Scottish highlands to meet Premier Ramsay MacDonald in a conference widely hailed as a landmark in British-American relations. He previously had presented credentials to King George at Windsor castle.

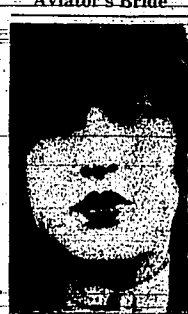

The ceremony at Windsor today was strictly according to tradition, but Ambassador Dawes' expeditious journey to Scotland in the presence of a special messenger as a novel act is dramatically momentous.

Well-informed British sentiment forecast tonight that as a result of tomorrow's luncheon, that between the two nations would be a new era of friendship. British opinion, optimistic as it is, is based on the belief that such a meeting at the head of the two great English speaking nations will eliminate the primary causes of irritation between the two peoples and pave the way for international security and world peace.

UTAHN LOSES IN ARGENTINA
BUENOS AIRES, June 15 (AP)—Argentina's football team, which had been knocked out last Sunday, Salt Lake City, in the second round of their 12-round match here today.

ACUAS SURCA ARGENTINA
BUENOS AIRES, June 15 (AP)—Argentina's football team, which had been knocked out last Sunday, Salt Lake City, in the second round of their 12-round match here today.

Aviator's Bride

AS THE CLIMAX TO A week's courtship, Pauline Parker, New York chorus girl, became Mrs. Jean Asolant. She met her French husband at Old Orchard Maine, starting point of his ocean flight.

FRENCH FLIERS MAY CROSS OCEAN AGAIN

Three Flying Musketeers Intending to Attempt Paris-to-New York Flight

COMILLAS, Spain, (Sunday morning) June 16.—The French transatlantic plane Yellow Bird took off at 6:45 A. M. today for Paris to complete its flight from Old Orchard Maine. A perfect take-off was made.

PARIS, June 15 (AP).—Pettit Journal to report that the French transatlantic plane Yellow Bird, after a flight from Old Orchard Maine, is intended to attempt a flight from Paris to New York.

FLYING MUSKETEERS OF FRANCE.
REST IN SPAIN, June 15 (AP)—The three fliers musketeers of France, Asolant, Lefevre and Loti, returned tonight for another attempt on Spanish soil before going on to Paris, point of their flight across the Atlantic ocean from America.

Yellow Bird is scheduled to soar away from the beach at Old Orchard, S. A. M., tomorrow, taking up its journey from the haven where it alighted the end of its transatlantic trip last night.

On their way to Paris they will stop for gasoline at Casaux flying field near Paris.

Girls' Attempt to Save Two Person's Lives Fails

NEW YORK, June 15 (AP)—A nine-year-old boy scout and his scout-master were drowned at Rockaway beach today despite the efforts of a 15-year-old girl who was almost drowned herself.

Leon Spitzer had ventured too far out and in answer to his cries for help, Joseph Sanhafer, 22, swam to him and began to pull him toward shore. Sanhafer, however, was forced to cry for aid and Paulina Kahn, residing in a nearby bungalow, swam out to help the two. She became exhausted attempting to tow the boy ashore and called for help—her life savers rescued her but the boy and Sanhafer both sank.

Plane Flying 14,200 Feet High Cause of Complaint

COLORADO SPRINGS, June 15 (AP).—An altitude of 14,200 feet above sea level is too low for airplanes hereabouts.

Fred O. Matthews, traffic manager of the Pike's Peak automobile highway, today filed a complaint with the department of commerce by telegram, to the effect that a motorist of an automobile accident just east of Granite Canon on the Lincoln highway late today.

The mountain named by Zebulon Pike is 14,099 feet above sea level.

One Motorist Dead and One Injured in Wyoming

CHEYENNE, June 15 (AP).—Jacob Klatins, Reno, Nevada, was killed, and a companion, Mark Ashworth, also of Reno, was seriously injured in an automobile accident just east of Granite Canon on the Lincoln highway late today.

Ashworth received a broken arm and possibly other injuries. The car went over a ditch, beyond which the state indicated they had been in Washington.

\$141,178.485 GOES TO ENFORCE LIQUOR LAWS IN NINE YEARS

Commissioner Doran Points to Revenues of \$460,502,792 in Answering Critics On Government Expenses

(By The Associated Press.)
WASHINGTON, June 15.—Statistical studies of the cost of prohibition enforcement, prepared by Commissioner Doran place the total government expenditure in the nine years since the adoption of the Eighteenth amendment at \$141,178,485, with collections from fines and revenues from liquor put at \$460,502,792.

Doran said the calculations had been made after circulation of a pamphlet by the Association Against the Prohibition Amendment fixing a decade of prohibition enforcement costs to the government at nearly \$1,000,000,000. The prohibition unit's calculations have been circulated to state prohibition administrators with the statement that "this information is made available to you, the malinformation recently appearing in the public press can be corrected when opportunity offers."

Balance Over Expense.
"It is apparent that the collections by far balance the expenditures," said the Doran letter. "Even if \$72,000,000 estimated as the cost to the department of justice for the enforcement of prohibition should be added, there would still be a balance of \$47,224,307.10 over and above the total expenditures credited to the enforcement of the prohibition laws."

"During the fiscal year ending June 30, 1928, expenditures for the prohibition bureau, coast guard and customs border patrol total \$72,472,000. Collections from fines and penalties, the revenue."

TWIN FALLS THEATRE IN NATIONAL CHAIN CHANGE

ST. LOUIS, June 15 (AP).—Louis Marconi announced today at the International convention of the Paramount Famous Lasky corporation the sale of a half interest in his movie theatre properties in Utah and Idaho to the Public Theatres corporation, a Paramount subsidiary.

Public will take over the operation of the theatre July 1. Marconi will be retained in an advisory capacity. He said there would be no change in the present personnel of his theatre.

The theatre involved included four in Salt Lake City, two in Ogden, one in Provo, Utah, one in Boise and the Idaho theatre in Twin Falls, Idaho, all equipped for talking pictures.

Hoover Signs Farm Relief Bill and Prepares to Name Members of Federal Board

Canadian, Fearing Death While Passing Through Chicago, Wants Escort

CHICAGO, June 15 (AP).—Mayor Thompson today received a letter from Lloyd Kreutzweber, who explained that he was "traveling with a minister," and asked police protection when he passes through here en route to Anderson, Indiana, from Saskatoon, Saskatchewan.

"We wish to pass through the great city of Chicago," he wrote, "but we desire to get out alive."

Kreutzweber gave the make of his automobile, the license number and route of travel. He expected a police escort to meet him at the city limits.

SHORTAGE OF WATER THREATENING CHINA

Condition Continues Grave When Rain Ceases and Small Supply Gives Out

HONG KONG, China, June 15 (AP).—Hong Kong's danger from shortage of water continued to grow tonight when a heavy rainfall which the weather bureau had hoped would last all night, stopped at 8 P. M.

The government vigorously pushed emergency measures. The weather observatory and royal air force intended to undertake rain-making experiments tonight. Two airplanes will mount above the clouds and sprinkle them with a powdered chemical known as silver iodine. The chemical has a reflecting effect which it is hoped will start a heavy rain.

The government has chartered a tanker to transport water from Hong Kong, New Zealand. The Dollar Line President Adams today brought a consignment of water from Shanghai. Another ship brought in 1000 tons of water which was promptly pumped into emergency tanks and rationed to the public. The supply was quickly exhausted.

Burley Man Loses Purse

SALT LAKE CITY, June 15 (AP).—J. W. Kenward, Burley, Idaho, reported to police tonight that a pocketbook had "lifted" his pocketbook containing his railroad ticket to Burley, \$10 in cash and a check for \$20. The money evidently was taken from him as he boarded a street car on Main street, he said.

THE THREATENED INVASION.

Chief Magistrate Next Will Ask Congress For \$150,000,000 of \$500,000,000 Revolving Fund for Loans

(By The Associated Press.)
WASHINGTON, June 15.—President Hoover signed the farm relief bill today, thus making law the major part of his program intended to stabilize agriculture.

Monday he will ask congress for \$150,000,000 of the \$500,000,000 revolving fund authorized for loans to assist the farmer-owned and controlled stabilization corporations and cooperatives.

Simultaneously he will begin selection of the eight men to compose the federal farm board, which is to administer the fund and have authority in agriculture comparable with that of the federal reserve board and the interstate commerce commission in their spheres.

Secretary Hyde will request farm organizations and others interested to suggest men for board appointments. Mr. Hoover hopes that within two weeks he can select a board from this group and that which already has been proposed to him.

No Definite Selections

Thus far Mr. Hoover has made no definite selections, but it is known that two being considered seriously are James C. Stone, Lexington, Kentucky, president of the Burley Tobacco Growers' Cooperative association, and Carl Williams, a farm paper publisher of Oklahoma and formerly a member of

(Continued On Page 2, Column 1)

TWO FLIERS LOSE LIVES IN ACCIDENT AT BUFFALO

BUFFALO, N. Y., June 15 (AP).—Howard Smea, Wichita, Kansas, aviation instructor for the United States department of commerce, and William J. Schultz, Buffalo, plane, were killed early tonight when their biplane went into a dive and crashed at the Buffalo airport.

Schultz, who had held a commercial pilot's license a year and a half, was taking a test for a transport pilot's license.

The instructor, badly crushed, died a minute or so after being extricated from the debris. Schultz, with a fractured skull and several broken bones, lived until he reached a hospital.

At 300 feet the plane went into a nosedive and crashed into the ground near the airport runway.

Her Hat in Ring

MRS. OLIVE JOHNSON wants to be mayor of New York. Nominated by the Socialist-Labor party, she is the first woman to receive a party nomination for the office.

COURT AT LEWISTON ARRAIGNS QUARTET

Men Accused of Abducting Idaho Official Unable to Furnish \$8000 Bonds

LEWISTON, June 15 (AP).—Four men, alleged to have abducted and robbed Lieutenant Governor W. B. Kinn last Wednesday, were secretly arraigned here today and held over to the district court on a charge of kidnaping. Their bonds, which were not provided, were fixed at \$8000 each. The men, it was said, were charged with the robbery in Clearwater county. They were identified by Kinn.

All four persons, who were held in the Clearwater county jail, had secured passage on the train, waited preliminary hearings and then fled to the Clearwater county jail, where they were held. The men were identified by Kinn.

The men were identified by Kinn. The men were identified by Kinn. The men were identified by Kinn.

Fifth Man Not Arraigned.
A fifth man, who gave the name of George Norman, 47, Seattle, who was captured with the accused, Clearwater county officials, however, said they intended to charge him with being an accessory to the robbery of the lieutenant governor. Police of Idaho and eastern Washington had Norman was wanted on several charges.

Paul Klidde, who was shot by the abductor, was taken to the hospital.

Dedication of Highest Bridge Draws Throngs

MARBLE GORGE, Ariz., June 15 (AP).—In a setting reminiscent of his heroic incidents of the Old West, a Pioneer's day pageant was presented here today as a climax to the dedication of the Lee's ferry bridge which spans the Grand canyon of the Colorado river. Approximately 5000 Indians and several thousand paleo faces, descendants of those who erected the territory from Redskin neighbors, took part in the pageant.

Yesterday the bridge, said to be the highest of its kind in the world, was formally opened when governors from four states gathered to praise the engineering skill which at last has made safe the crossing of the turbulent stream.

Rain Causes Farmers of South Idaho to Rejoice

BOISE, June 15 (AP).—Farmers and foresters of Boise valley and southern Idaho rejoiced at today's downpour. Beginning in earnest, rain continued steadily until 9 o'clock in the evening, when the weather bureau said one-third of an inch of rain had fallen. Later precipitation seemed more copious.

In sections where irrigation storage is admittedly short, the rain was a godsend. In forests where only a few successive days of hot sun have made a precarious fire condition, it was no less welcome.

Rain Keeps Guardsmen At Boise From Labors

BOISE, June 15 (AP).—All was slack and span in the Idaho national guard camp today for the rain. Guardsmen were kept on every gun carriage, every bridge and saddle and every kitchen corner was neat.

What saved the cavalrymen of the southeast, the engineer of the south-west and the field artilleryman of the north-west from the rain was the fact that their efforts of six days ago to give them a day's rest was a success.

Philadelphia, June 15 (AP)—The theater, where were crowded with thousands of spectators the rest of the day and evening.

KING OF AMERICA'S SPEEDWAYS CRASHES TO DEATH ON TRACK

Ray Keech's Exit On Altoona Course Mars Spectacular Contest Witnessed by 25,000 Race Fans

(By NORMAN GAGE, Associated Press Staff Writer)
ALTOONA, Pa., June 15.—Ray Keech, who flashed audaciously from comparative obscurity as a dirt track racing driver to fame as holder of the American automobile speed record, met death on the Altoona speedway at Tipton late today as he gained his last racing triumph.

Driving a brilliant race as he led the field through three-quarters of the 200-mile flag day event, the Philadelphia speed king, winner of the Indianapolis grand circuit, was killed instantly in a four-corner smashup on the east turn of the mile-and-a-quarter board oval.

Chief Tipton, California racing veteran, was injured seriously, while Ernest Triplett, Indianapolis, and Bob Robinson, a four-corner smashup on the east turn of the mile-and-a-quarter board oval.

Keech's death marred the spectacular race in which he and Woodbury, together with Lou Meyer, another Pacific coast driver, had thrived a crowd of 25,000 spectators. The disaster came with sickening suddenness. Cheers turned to gasps as the speeding machine, traveling at 110 miles an hour, smashed up. Silence settled for a moment then utter confusion reigned as the infield crowd rushed for the scene.

Car Struck Side.
Keech had maintained a three-quarter lap lead over Meyer for 150 miles. Bob Robinson, his red racer thundering into the east stretch, led the pack to the turn. His car struck a hole in the boards, and the machine, out of control, rolled over the side of the track.

Triplett's car, which had been in the lead, struck the side of the track and rolled over the side of the track. The wreckage of the guard rail, the car, crashing the pilot and bursting into flames, was a sight to behold. The track and fire and smoke added to the menace of six other drivers still in the race.

Triplett's car crashed into the mass of broken wood and careened to the side of the track. The machine then skidded to the infield. Triplett was killed and the machine was little damaged.

Woodbury was not so fortunate. His mount buckled against the wrecked rail and tumbled to the ground, where he was trapped. Emergency doctors and nurses dug him out. He was fully conscious and was rushed to the hospital.

Keech's body was mangled, his skull crushed. He was rushed to the hospital.

NAVY RECEIVES BIDS FOR FIVE CRUISERS

Tenders Submitted Slightly High and Will Be Studied By Department's Experts

WASHINGTON, June 15 (AP).—The administration went ahead today with the cruiser expansion program authorized by the seventeenth congress, the navy department receiving bids for the construction of five cruisers. The ships to be started during the next three years.

While a limitation on this building program may come in for discussion at the contemplated visit of J. Ramsay MacDonald to President Hoover, the navy department is not expected to forgo the building of any of the cruisers unless a new limitation treaty is agreed upon by the United States.

Even with these craft in commission, the total American tonnage of modern cruisers would be less than the 300,000 tons limitation proposed by the American delegation to the Geneva disarmament conference last year.

Tenders High.
Tenders submitted had been expected to be higher than those for the previous year. The contracts are let. Three private yards and five navy yards submitted bids as follows:

Bethlehem Shipbuilding corporation, Quincy plant, \$18,735,000, one ship.
New York Shipbuilding company, Camden, New Jersey, \$18,800,000, one ship.

Report New York, Virginia Shipbuilding and Dry Dock company, \$11,150,000, one ship.
Bethlehem Shipbuilding corporation, Philadelphia plant, \$11,150,000, one ship.

Report Sound navy yard, \$9,907,770, one ship.
Bethlehem Shipbuilding corporation, Philadelphia plant, \$11,150,000, one ship.

Report Sound navy yard, \$9,907,770, one ship.
Bethlehem Shipbuilding corporation, Philadelphia plant, \$11,150,000, one ship.

MURTAUGH GRANGERS TO PREPARE EXHIBIT

Organization Names Committee to Arrange Displays For County Fair

MURTAUGH, June 15.—Members of Murtaugh Grange met at the schoolhouse and named a committee to arrange a county exhibit to be entered at the county fair. New members were introduced into the organization at the meeting.

Mrs. and Mrs. Myra Clark, who were married in Salt Lake City June 8, returned to Murtaugh Wednesday night accompanied by the bride's mother, Mrs. J. L. Tolman, and grandmother, Mrs. L. Bates, Salt Lake City. Mrs. Clark will spend several months with her mother-in-law, Mrs. Tolman, in the latter's home in Salt Lake City. On their return they will visit Yellowstone park.

Hoover Signs Farm Aid Bill and Prepares to Name Federal Board

(Continued From Page One)

The federal board of mediation, rather definite information is available that neither Julius Barnes, New York, former president of the United States Grain Corporation, nor O. Lowden, former governor of Illinois, and foremost among the advocates of the equalization fee plan of farm relief, will be offered places on the board. Both had been mentioned.

First Important Legislation
The farm bill is the first important legislation signed by President Hoover, and its enactment ended one of the longest and most speculative legislative and political controversies in recent history.

Consequently far more than the usual formalities attended the signing. Grouped around the chief executive were Vice President Curtis and Speaker Longworth, who signed the bill yesterday after the house and senate had adopted the conference report; Secretary Hyde, Senator Watson, Indiana, the Republican leader, and all of the house and senate conferees on the bill except Senators Norris, Republican, Nebraska, and Smith, Democrat, South Carolina.

The president used two pens in signing one of which he presented to Senator McNary and the other to Representative Hagen. With one he wrote his first name and the other his last.

\$141,178,485 Goes To Enforce Liquor Law in Nine Years

(Continued From Page One)

new from taxes on distilled spirits and fermented liquors and proceeds from the sale of seizures and fines collected incident to prohibition cases terminated under custom laws total \$21,872,072.17. This showed the total cost incident to the enforcement of prohibition for the fiscal year 1928 to be \$5,618,137.74.

The Weather

Forecast for today and tomorrow—Unsettled with showers moderate temperature.

The maximum temperature yesterday was 65 degrees, and the minimum 45 degrees, the local weather observer reported. Friday's extreme temperature was 63 and 47 degrees. While only a trace of precipitation was reported for the 24-hour period ending at 6 P. M., the final hours of the day were marked by a heavy fall of rain.

Cow Drags Boy to Death

TOPEKA, June 15.—A scheme to prevent a cow's tail from switching him in the face as he milked the cow resulted in the death today of Dennis Trent, 10-year old farm boy.

He was dragged to his death after he had attached the cow's tail to his wrist.

EDEN PASTOR WILL SPEAK AT SERVICES

Rev. J. Gassner to Deliver Anniversary Address at Filer Lutheran Meeting

EDEN, June 15.—Rev. J. Gassner, pastor of the Eden Lutheran church, will give the principal address at the anniversary services conducted at Filer Sunday at 10 A. M. The Lutheran church will observe the anniversary of the introduction of the Small Catechism by Dr. Martin Luther in the year 1529.

Many members of the Eden Lutheran church plan to attend. The next regular meeting of the Ladies Aid of the Presbyterian church will be held next Thursday afternoon at the home of Mrs. N. L. Swenson. The members of the organization conducted a food sale here today.

Fruit growers of the North Side, Floyd Brown, Joe Day, and Paul Larsen have just completed the application of the third spray to trees. Prospects are good for a big apple crop this season, according to information given out by these apple growers.

Mrs. Bill Johnson has returned to her home at Purnam after visiting for several days here with Mr. and Mrs. E. Gordon and family.

Mr. and Mrs. H. A. Barnes and two children left for Boise Wednesday on a combined business and pleasure trip. Mrs. Robert McClain and daughter Thelma are in Boise visiting Mrs. McClain's mother, Mrs. Smith.

Court at Lewiston Arraigns Quartet

ductors when he went to the assistance of Kane, in Purnam. Tribbey was recovering from two bullet wounds and a severe beating administered by the robbers. Tribbey's automobile, in which the men fled after tying Kinzie, Kilde and Tribbey to trees, was recovered today by traffic officers. It had been parked in the woods. Under the front seat of the car was the \$200 which Tribbey reported had been taken from him. A revolver also was found on the floor. Livingston, the youngest of the suspects, made a confession yesterday in which he said Norman was the leader of the gang, although not present at the abduction and robbery. Norman denied this.

King of America's Speedways Crashes To Death On Track

(Continued From Page One)

being fractured, his chest crushed and his left leg severed by the knp. His machine was destroyed by fire. The other drivers on the track succeeded in passing the barrier of wreckage. Almost without official signaling, the race was ended. Today's event was the seventh on the Tipton track, which was opened in 1923. In the initial event "Howdy" Wilson lost his life. In the following year Joe Boyer was killed, and Keech was the third to end his career on the speedway.

Keech's death came shortly after that he would attempt next year to regain the world's record, now held by Major H. O. D. Segrave, with a record of 204 miles an hour at Daytona Beach. Keech held the fastest time ever set by an American.

Race officials announced prizes would be awarded to the drivers in the order of their positions at the time the race ended. This would give Keech first money of \$4500; Meyer, second, \$2000; and Wilson, third, \$1000. The order of the others was: Triplett, Fred Winnie, Dave Evans, Fred Smith, Jimmy Gleason, Four drivers—L. A. Moore, Bill Langley, "Speed" Gardner and Chester Gardner were forced out of the race.

French Fliers May Cross Ocean Again

(Continued From Page One)

Bordeaux and then continue to Le Bourget field. Arthur Schreiber, American steward, on the big Berliet monoplane, remained with the French aviators and will be taken by them to Paris.

Comiles could not be met the occasion slip by without a celebration, and as there wasn't time to organize a formal one last night, it was decided to have the tonight.

Schreiber was invited along with the three aviators who have reconciled themselves to his presence and permit him to tag along as they go from one ovation to another.

Loft said that they would take him to Paris in the airplane, put him up at the hotel of M. Loft's, let him share in whatever festivities awaited them and when all was over they would send him home.

Pilot Assolant declared that he had never had a moment's doubt that they would succeed in the crossing once they had left the American coast.

"But it was a terribly hard trip," he acknowledged. Not long after discovering the unwelcome extra passenger, Loft said that the aviators were forced to go above the clouds, "during the early part of the night there was thick fog and violent rain squalls for four hours, during which we had to make a real fight to hold to our course and there were times when it seemed as if we were in a disaster. But after four hours of bucking the worst of weather the depression cleared and the night sky cleared. Lo Fevre was then able to calculate our latitude again. We turned southward somewhat and at 7 P. M. the coast of Portugal showed up ahead."

WOMACK GETS DIVORCE PANAMA, June 15.—The Panama district court today granted Lyle Womack final decree of divorce from Ruth Elder, the aviatrix, from whom he obtained an interlocutory decree on December 11, 1928.

WOMEN'S COUNCIL MEETS AT HANSEN

40 Members and Guests of Group Gather at Home of Mrs. Albert McLeay

HANSEN, June 15.—The Women's Community Council met Thursday afternoon at the country home of Mrs. Albert McLeay with Mrs. Louise Kennedy as assisting hostess. Nearly 40 members and guests were present and a very pleasant afternoon was spent in a social way. During the business session a donation of \$2 was voted to apply on the pledge to build the new building. The next meeting of the council will be held at the church and all members are requested to come early, prepared to assist in cleaning the building. Mrs. McLeay and Mrs. Kennedy served a delicious lunch at the close of the afternoon.

Hansen-arrived will meet Thursday evening at the church and the lecture hour period will be given up to family duties.

Virgil Wilson and Albert Frum returned Tuesday from Moscow where they have been attending the university. Leonard Wiseman also expects to come home this vacation having employment at the invitation during the summer months. He expects to accompany the university show cattle to the interstate fair at Spokane in the fall.

The Latawah club will meet Tuesday afternoon at the W. A. Collier home. The program is in charge of Mrs. E. C. Montgomerie, the topic being "Healthful play for children," and roll call being answered by nursery rhymes. Mrs. C. J. Schroeder, Elmer will be present to talk on state and national federation issues.

Mrs. and Mrs. Robert Shoemaker, Pullman, Washington, visited the Kennells and Corad families this week. They are en route home from an extensive tour as far south as Texas. Mrs. Shoemaker is Mrs. Keith's niece.

Sherman Clark, Ladies of the Grand Army of the Republic, met at the church Tuesday afternoon, 14 members being present. Mrs. Fern Prior was taken into membership in the circle. The flag day picnic was postponed until the evening of June 21 when it will be held at the home of T. E. Galt.

The retirement services were held by Mrs. Anne Tolson and Mrs. Carl Houchens.

Mrs. and Mrs. T. E. Galt, son-in-law, Harold Keenly and Mrs. E. O. Martin returned Friday from their trip to Boise and Idaho Falls.

Mr. and Mrs. Galt, accompanied them and was an overnight guest at the Galt home. She returned to Boise Saturday.

Mrs. Alice Curry was called to Cassville, Missouri, the early part of the week by the sudden illness of her mother who had suffered a paralytic stroke. The Hansen home building is being given a new coat of paint. The owners have completed a great deal of work on the interior.

Mrs. Jennie Henry, mother of Mrs. Myrtle Kirkpatrick, Mrs. O. F. Motherhead and George Henry, arrived Friday from her home in Paradise, Kansas, for an extended visit with her children and their families.

Helen Minnick is visiting her aunt in Buhl this week and also attending chautauque.

Mr. and Mrs. Sam Wiseman, Junie Wiseman and Mrs. Wiseman's niece, Geneva Beecher, Kemmerer, Wyoming, arrived home from their trip to Kemmerer Thursday evening. Mrs. J. D. Gaspard remained for a longer visit with relatives.

The Lloyd Spencers had as guests for a few days last week Miss Leta Hoit, Clarkston, and Miss Parsh, Lewiston, Idaho, who are en route to Boulder, Colorado.

The Sunday school class of Mrs. A. H. Scott was entertained with a "pot luck" supper at the home of their teacher Tuesday from 5 to 7 P. M. The following girls attended: Alma Grace Curry, Jessie Johnson, Martha Froehlich, Charlene Bailey, Fern Martin, Sherwood Spencer, Margaret Kinsmann, Alice Blum, Irene Schaefer, Florence Sherwood, Ellen Hedcock and Mary Montgomery.

Charles Collier left Saturday morning for Ketchum to assist in bringing home the party of girls who have been camping there for a few days. His daughter Gladys stayed in the party.

Miss Merle Hyman, who has been visiting her aunt and uncle, Mr. and Mrs. Stuart Severn, for several weeks went to her home near Jerome Sunday. She

Mary Pickford in "Coquette," her first all-talking picture, here for a four-day run at the Idaho theater, starting this afternoon.

Laura La Plante as Magnolia in "Show Boat," a Universal super-picture, coming to the Idaho in seven days.

was accompanied by Miss Nova Gish for a short visit.

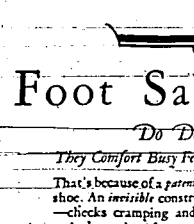

Junie Wiseman went to Salt Lake City Saturday morning where he will take a course of instruction provided by the Union Pacific preparatory to taking up railroad work.

The Royal Neighbors of America, Springing camp, met Tuesday evening at Woodmen hall, a good attendance being present. The vacant place of oracle was filled by the election of Mrs. Minnie Bedow. Mrs. Edna Bailey was elected vice oracle and Mrs. Elgie Swenson and Mrs. Robbie Deahl were appointed as grace and flap bearer, respectively. Refreshments were served by Mrs. Stella Hughes and Mrs. Minnie Bedow.

The Girl Reserve delegates from Hansen to the camp at Payette left for Thursday morning. They were Leta and Margaret Cowan, Dorotha Wafel and June Reuben. Mr. Cowan took them as far as Boise from where they went the rest of the distance by stage. Guy Cowan, Jr., accompanied his father.

Mrs. Carl Hughes and mother, Mrs. Anna Tolson, two little sons and Charles Tolby returned Sunday from a few days in Boise visiting relatives.

William Cline is leaving Sunday for Compton, California, where he will stay

SOCIETY AND CLUBS

Mrs. E. B. Williams
Phone 250

Complimentary to Mrs. D. W. Standford, Pocatello, historian of the State Federation of Women's Clubs and the Rural Federation of Women's Clubs, a luncheon was given at the home of Mrs. Standford on Thursday afternoon in the dining room of the hotel. The luncheon was given by the local Women's Club. Mrs. Standford, who was here in the interest of the loan scholarship fund, talked on the subject making an excellent presentation of the fund. She also completed her quota to the fund. Two clubs in the Federation have done so in her address. Mrs. Standford, who of having received an invitation sent out by the Sorosis Club of New York, to a meeting of women which resulted in the organization of the General Federation of Women's Clubs. Mrs. Standford is an honorary president of the State Federation and one of the best known women of the state, having always given freely of her time and talents for the building of women's work in Idaho. Mrs. C. J. Schroeder, at whose home she will be a guest over Sunday, introduced her talk in behalf of the Rural Federation, presented her with a beautiful bouquet of peonies and with a gold and white, the club girls. Mrs. J. B. Arthur, Durley, the first District president, spoke on universal membership. Tea was served from a beautifully appointed table with a lace cover and was centered with a silver bowl filled with American Beauty roses and was flanked with silver candlesticks holding lighted yellow tapers. A wealth of peonies and roses artistically arranged decorated the room. Mrs. Schroeder rendered a number of delightful plays songs during the tea hour.

Complimentary to Mrs. Jim Keel, Mrs. H. R. Grant, and Miss Ann Smith entertained with four tables of bridge Friday evening, at the home of Mrs. Grant on Time-Taker Boulevard. There was a dainty gift for the house and flower prize was won by Mrs. Emma L. Warren, second by Mrs. Anna C. Cliff and third by Mrs. Katherine Provost. Following the games, refreshments were served at the small tables, centered with yellow rose buds in bud vases. The room was beautifully decorated with peonies.

Mr. and Mrs. George T. Linc entertained a group of relatives at their home on Kimberly Avenue Friday afternoon. A delicious dinner was served by Mrs. Linc and after a splendid time recalling memories of former days, the party took a sight seeing trip to various points of interest. Those present in addition to the hosts were Mrs. and Mr. Clifford Linc and daughter of Round Lake, Minnesota; Mr. and Mrs. G. G. Huns of California; Mrs. Charles Young of Iowa; Mr. and Mrs. Robert Ling and family of Rupert; and Mrs. Harriet Ling-McGowan, Lima, and Mrs. R. G. Davies and Mrs. Lloyd, all of Twin Falls.

IMPORT-CHINESE EGGS
HAMBURG, June 15.—The importation of Chinese eggs into Germany has increased at such a rate that a special warehouse has been erected here to handle them. Three years ago 15,000,000 eggs came from the Orient. Last year the total for 27,000,000.

with his grandmother and aunt. He is planning on taking vocal lessons. Vance Naylor was pleasantly surprised Tuesday evening by a number of friends of the family who visited on his birthday. Anniversary to call and wish him many happy returns.

Mr. and Mrs. F. F. Frith were given a charming Monday night.

Mrs. Stuart Severn and Mrs. Willis Saugson attended the meeting of the Young Women's Christian association council members held in Twin Falls Monday afternoon.

COMMITTEE SECURING BULH ARMORY FUNDS

Report On Drive Indicates New Home for Company Will Rise in West End

BULH, June 15.—Construction of an armory for Company 12-Bulh national guard unit, is practically secured, the finance committee reporting that a cash sum of \$4000 has been secured, and that an additional \$1000 will be obtained from central and state funds. Members of the local American Legion post are taking an active part in the movement to provide an armory, which, according to an order, is necessary if the company is to be maintained. Work on the building is anticipated, will be started when the ground has been cleared. The proposed structure is to be 120 feet long by 50 feet wide, with a second story for the armory and a first story for the drill hall and drill hall. The estimated cost is approximately \$15,000.

Mrs. J. E. Parker, secretary of the Bulh library board states that 12,410 volumes were distributed from the city library during the past year. During that time 300 new books, including fiction, non-fiction, and juvenile books were added to the library. Mrs. Parker also stated that 12,410 books were loaned to the library.

Mrs. Victor Miller is a patient in the Twin Falls hospital following an operation for appendicitis. She is expected to be discharged in a few days.

Mrs. Ruth Brown left Saturday for Seattle where she will enter school. Mrs. Benning Bailey, Mrs. Ada Repley are visiting a brother in Portland. They will be gone two weeks.

Miss Music Piper, Tulsa, Oklahoma, is a guest of her parents, Mr. and Mrs. Harry Piper. They made the trip by auto.

Word has been received here of the recent marriage of Clyde Baymiller, son of Mr. and Mrs. J. F. Baymiller, to Miss Ruth Youngs, June 8 at Berkeley, California. Mrs. Baymiller formerly lived in Twin Falls.

Mrs. J. C. Nason and daughter, Mrs. Ralph Bristol, Pocatello, are vacationing at Payette Lakes.

Mr. and Mrs. E. B. Foster have returned from a month's visit with relatives in Indiana. They made the trip by auto.

Mr. and Mrs. Earl Seebler with Mrs. Seebler's brother, Clarence Watson, Schenley, Missouri, are guests of Mr. and Mrs. E. B. Foster.

Mr. and Mrs. E. B. Foster will also visit Mr. Seebler's sister, Mrs. William Lunte and Mrs. Hattie Beaumont.

Mrs. Bernah Barker is home from the College of Idaho to spend the summer

WESTERN AGRONOMISTS ASSOCIATION TO MEET

BOZEMAN, June 15.—(Special to The News)—Agronomists from the 11 western states, members of the Western Agronomists' association, will hold their fourteenth annual meeting July 15, 16 and 17, sharing their time between the University of Idaho and Washington State college, announced Professor A. W. Hobbins, head of the department of agriculture, secretary of the association. The program of the meeting will include a tour of the University of Idaho experiment station, and the attendance at the convention. Professor Hobbins says, will include agronomists, experimental workers on elevations, commercial men interested in lines closely related to agronomy, and representatives of the United States department of agriculture. Among the things which will be discussed will be the weed situation as it now appears to various agronomists of the West. If the program permits the agronomists will be taken to Sandpoint to visit the northern Idaho experiment station of the Idaho college of agriculture.

ANNOUNCEMENTS

Members of the World Wide Guild of the Baptist church are to be guests of Mrs. Frances Patten, 1335 Ninth avenue east, on Monday evening.

High Water and Blustering Snow Fail to Daunt Fishermen

Good Catches Being Made in Old Haunts Officials Report

Conditions Favorable in Wood-River-Country, Magic Reservoir and Silver Creek, Sportsmen Aver

(By The Associated Press)
BOISE, June 15—High water and blustering snows in various sections of Idaho failed to daunt Idaho fishermen and good catches were made in many of the old haunts, say reports to the state fish and game department. Reports from North Idaho were not satisfactory—many of the deputy game wardens censuring themselves with describing what they had been doing instead of what the fishermen had been doing. The result was that what enlightenment was available could be had from such statements as "patrolled whisky creek. Rain today. Repaired hatchery. Checked nine licenses on North Fork."

But as one North Idahoan in the state house remarked: "Anybody can catch fish up in Ooda's country, if he knows how."

But as the fishermen waxed fat the yarns waxed fatter. A story from American Falls reservoir that a man was trolling from a boat driven by an outboard motor when a big trout bit the propeller off.

As to fishing in southern Idaho streams, the reports here are a different matter. On the Big Lost river from Mackay reservoir to Virgin, the fishing is excellent with good catches being made in short order. On the upper waters of the Snake river, north of St. Anthony, the fish are striking vigorously, though too far north some occasional snow storms that discourage both the fish and the ordinary fisherman. The last report from the Henry's lake section was that fishing was failing to poor.

In the Wood river country, the fishing, as usual, is good. Magic reservoir is turning out some good catches and Silver creek is continuing to be prolific. The Wood river itself is likewise among the headliners.

Successful turnouts have been made in streams in Ketchum vicinity. In western Idaho the fishing is not so good. Fishing continues poor in the Weiler and Elsie Balmors rivers and streams are high and roily in the Lowman section. Bear and Lick creeks were reported by the warden at Council to be not all that was desired from an angling standpoint.

M. A. Kiger, secretary of the public utilities commission, left for his home in Harrison, Kootenai county this week, for a short vacation among the fishing streams of North Idaho.

Don't let your "economy" come too high

The man who feels that he cannot afford to buy the Chrysler-built De Soto Six is perhaps the very man who cannot afford not to buy it.

Obviously, if he buys a cheaper six he will do so entirely on the strength of its purchase price.

But purchase price is only one of the three major items entering into the expense of owning a car. There are also the costs of upkeep and of maintenance to be considered. The sum of these three actually represents what it costs you to drive any motor car.

De Soto Six is economical of fuel and oil. It will keep on running almost indefinitely with a negligible maintenance expense—records of De Sotos that have gone over 40,000 miles prove this. Consequently, in the course of a few months, your De Soto Six will easily save the difference between its price and that of a car inferior in engineering, design and materials.

This purely dollar-and-cents reason for preferring De Soto Six can be supplemented by the self-evident fact that all the time you are getting more comfort, pleasure, safety and pride of ownership from this Chrysler-built six than a cheaper car could possibly give you.

It will cost you nothing to take a demonstration—and no obligations implied.

CHURCH AT JEROME TO HONOR CHILDREN

Classes to Take Part In
Special Program, Sermon
on "Christian Education"

JEROME, June 15—Children's day will be observed in the Presbyterian church Sunday with a special program presented by the Sunday school at 10 A. M. The pastor, Rev. J. S. McDonald, will deliver the sermon at 11 o'clock on "Christian Education." In the evening there will be a union service with the Methodist church here. The service will be in the Presbyterian church, and Rev. H. W. Parker of the Methodist church will preach.

Orla Johnson, seven-year-old daughter of Mr. and Mrs. Lee Johnson is reported recovering satisfactorily from a painful operation performed at the Twin Falls county hospital. Mrs. Elbert Rice entertained the members of the bridge club to which she was invited last night. There were three tables at play. Mrs. Charles Tronson, Mrs. W. O. Harmon, and Mrs. Tony Kallala were the hosts. Mrs. Vernon Vinyard was injured in an automobile accident Wednesday when the car which she was driving skidded on loose gravel on the highway east of Jerome, and plumed off the highway. Glass was broken out of the door, and Mrs. Vinyard sustained a severe cut on the left arm which required nine stitches to close. One of the children was slightly cut. Vinyard and her two children were brought into town by a passing driver.

Funeral services were held in the Methodist church Friday afternoon for Howard C. Tinkering, who died Wednesday. Interment was in Jerome cemetery.

Mrs. Fannie Wrangell left Friday for Yellowstone park, where she will have charge of a cafeteria at West Thumb during the season the park is open.

Miss Johanna Arps, who has been spending the last year in Seattle, is home for the summer. Word has been received that Mrs. E. E. Shawver, who underwent a serious operation recently at Mayo brother's clinic, Rochester, Minnesota, is making satisfactory recovery.

Helene needs to come from Albion state normal from which she graduated last Monday. While there she received special mention for natural science studies. Mr. and Mrs. W. P. Box have returned from a visit with their son, Clifford and Ben, at Haley. They were accompanied by Mrs. W. P. Box.

The junior department of the Methodist church held a convention in the city park on Wednesday afternoon. A large number of children and the following teachers, Mrs. Fred Kennedy, Miss L. G. Quinn, Mrs. Harry Freeman, Miss Homer Robertson, Mrs. Frank Laurenson, Mrs. Estelene, Mrs. Flatters, and Mrs. Ray Osborne, were present.

DELEGATES TO PATRIOTIC STATE MEETINGS RETURN

Members of the Grand Army of the Republic and the Ladies of the Grand Army of the Republic returned yesterday from the state convention held in Payette last week. Horace Hart, veteran, who will be 101 years old July 29 next, and James M. Bile were members of the Grand Army who returned. Captain R. H. Barnes, Long Beach, who went with them, is visiting in Weiler but will return during the present week.

Ladies of the Grand Army of the Republic who returned were Mrs. Hazel Shields, Leighton, retiring state president; Mrs. Hazel Gardner, retiring state secretary; Mrs. Martha Smith, retiring state treasurer; Mrs. Frances Wolter, president Twin Falls circle, and Ida Ballantyne. Retiring officers of the Ladies of the Grand Army of the Republic are: Mrs. Lydia Bissett, Weiser, president; Mrs. Lydia Landers, Emmett, senior vice president; Mrs. Carrie Galley, Hansen, junior vice president; Mrs. Elsie Rose, Parnis, treasurer; Mrs. Renee Graham, Emmett, secretary. The council of administration is composed of Mrs. Frances Wells, Emmett; Mrs. Harry Freeman, Twin Falls, and Mrs. Laura Thurston, Boise. The conventions next year will meet at Idaho Falls.

Officers Seize Car and Liquor On West End Road

Federal and Twin Falls county officers at 10 o'clock last night seized a light car three miles north of Buell on the state highway and placed the driver, who gave the name, Roy Stockman, under arrest on a charge of possession and transportation of liquor. The prisoner was placed in the Twin Falls county jail and Monday will appear before a United States commissioner for arraignment and fixing of bonds for his release.

GRADUATE STUDY AT MOSCOW INCREASING

Large Number of Students
in Summer School Work
Toward Masters' Degrees

MOSCOW, June 15 (Special to The News)—Registration of graduate students in the University of Idaho summer school session is unusually large this year. The school is expected to have nearly 100 students, registered toward their masters' degrees, reports Dean F. Messenger, director of the summer school.

Although the total enrollment is practically the same as last year, Dean Messenger pointed out an increasing trend toward specialization in the upper division of graduate work. The majority of students registered are either graduate students or university scholars, with only a few undergraduates.

Many School Officials
More than one-half of the graduate students are superintendents of schools, high school principals or high school teachers working toward advanced degrees in education. They come from almost every county in the state, and from several neighboring states.

Special educational problems in the state of Idaho are being studied by research and conferences, particularly methods of co-ordinating more closely the work of the high schools and the university. The ultimate purpose of such study would be to make the work of the high schools and the university continuous, Dean Messenger said.

In addition to the regular faculty members, four noted outside men have been obtained for the summer session. Dr. J. F. Hirsch, educational research specialist for the city of Sacramento, California, will offer courses in their respective lines. Dean Victor Louis Sear, noted pianist and composer, will arrive in Moscow June 17 to give a six-week master course in piano. He will give a public recital, mostly of his own compositions, during his stay. Waldo Gellert, another nationally known musician and head of the department of music at the University of Kansas, will conduct a similar course in violin in July.

FORD TRI-MOTOR PLANE LANDS ON BURLEY FIELD

BURLEY, June 15 (Special to The News)—Roy Davidson and Mrs. Davidson stepped out of a big Ford tri-motor plane here Friday morning, after an air voyage from Salt Lake City that lasted one hour 45 minutes. Forty minutes thereafter they saw the train pass the Burley air field which had left Salt Lake City for Burley nine hours before the big plane that bore them took off from the Salt Lake City field.

The big plane, which was loaded with the plane as it came to rest, at the field cornering on the edge of town. It was the first tri-motor ship ever to land here.

The big plane will remain here part of two days. It has a wing spread of 74 feet, the three independent motors supplying 875 horse power, and it has a carrying capacity of 10 persons, including pilot. The tanks hold sufficient gasoline for a cruise of 200 miles. Clyde Cide, a pilot of 14 years of experience, was in charge. Earl Leary, a company's ship is business manager. The big plane is on a cruise for the purpose, it was explained, of arousing interest in commercial flying.

TOURIST PARK SOON READY AT WENDELL

Modern Cabins and Building
With Complete Equipment
Nearing Completion

WENDELL, June 15—A modern tourist park soon will be completed here, work on the cabins and main building nearing completion. The park, which will include complete equipment for the convenience of tourists, is owned by F. H. Ostler.

Mr. and Mrs. Ira Anderson entertained Saturday evening in honor of their guests, Mr. and Mrs. Stanley Anderson, Portlath, Idaho. Bridge was played at the home with high scores going to Mrs. and Mrs. Beveridge. Guests included Mrs. and Mrs. Glenn Weiberg, Mr. and Mrs. Le Roy Schaeffer, Mr. and Mrs. Arthur MacQuay, Mr. and Mrs. Austin Schaeffer, Mr. and Mrs. C. E. Weaver, Mr. and Mrs. Dwight Huey, Mr. and Mrs. Fred Chapman and Mr. and Mrs. Beveridge.

Mr. and Mrs. W. W. Hemphill and three children left for Quincy, Illinois, Sunday in response to a message, telling of the serious illness of Mrs. Hemphill's mother. They expect to return in the fall.

At the open air dance pavilion in the Wendell park several dances were held recently—the proceeds going to the fund for the annual corn show.

John Thorpe has sold his residence. Mrs. Dwight Huey entertained in honor of Mrs. Pauline Simpson, Great Falls, Montana, Tuesday afternoon. Bridge formed the diversion at the affair. Mrs. Simpson received an attractive guest prize. Guests included Mrs. Malvina Oates, Mrs. L. Jones, Mrs. P. H. Pollard, Mrs. Owen Simpson, Mrs. Tom Gates, Mrs. Le Roy Schaeffer, Mrs. F. H. Ostler, Mrs. Glenn Weiberg, Mrs. C. B. Hixon and Mrs. R. F. Bradshaw.

According to the report on the Gooding county lamb pool, 1928 lambs sold on the St. Joe market last Thursday had an average weight of 76 pounds, and brought 16 cents per pound. The pool is in charge of O. E. McConnell, Gooding.

George Curtis, superintendent of Wendell schools, will continue to offer during the coming school year. Mr. Curtis plans on registering for study at the University of Idaho summer school.

A group of members of Wendell Old Fellows lodge were guests of the Hagerman lodge Wednesday evening. Mr. and Mrs. William Barrett and children have returned from a month's trip during which Mr. Barrett attended the national Prohibition assembly at St. Paul.

Miss Nancy Blunkham has returned from a vacation trip to Helena, Montana. Mr. and Mrs. Bert Hixon and son left Wednesday evening for Weiler, where they will attend the golden wedding anniversary of Mr. Hixon's parents. Mr. Hixon will later undergo an operation at a Pocatello hospital.

The Gaterman SWINGING Windrower

THE NEW GATERMAN SWINGING WINDROWER fills a long-felt need and bids fair to revolutionize the harvesting of Alfalfa, Clover, Peas and similar crops.

Heavy yields of Green Alfalfa and Clover, Hay, Peas, etc., have demanded a Windrower of great strength, so constructed as to roll the crop under all conditions and also to roll the windrow over far enough to be clear of the mower on the next round.

The Swinging Windrower has a wide extension with four bars directly back of the mower. This is a very important feature since the extension rolls the windrow over to a position that leaves ample clearance for the mower.

THE RAPIDLY INCREASING use of TRACTOR MOWERS with seven-foot cutter bars has created a demand which is filled to perfection by the Swinging Windrower!

RABBIT-BREEDERS BEGIN REGULAR WEEKLY KILLING

The first regular weekly slaughtering of rabbits of the Twin Falls Rabbit Breeders' association took place Friday at the house, formerly used as a chicken slaughtering house, attached to the Lincoln Creamery company property, now owned by the Jerome Cooperative Creamery. A total of 102 rabbits were slaughtered, packed in ice and shipped through the Jerome Cooperative Creamery, probably to San Francisco.

Three men were employed during the slaughtering and packing. The association expected to begin slaughtering about July 1, but was able to make a start earlier than anticipated. Hereafter slaughtering will take place on Thursday instead of Friday each week. It is not known as yet whether there will be any killed next Thursday. A. N. Bonwell, Curry, president of the association, said last night. It is expected to proceed on a small scale until about July 1. The rabbits are very simple. Three men handled the slaughtering here Friday.

There are now 60 members of the association and it is hoped to slaughter and ship 12,000 rabbits this season. Two rabbits are said to be in line condition. There have been individual growings in Twin Falls county for several years who did their own slaughtering and shipping. These are now practically all in the association. Mrs. Gordon Bennett, Castleford, has nearly 3,000 rabbits on her farm. The business is growing rapidly. "A slight shipment of rabbits was made by the association yesterday morning, also through the Jerome Creamery, but a regular slaughterhouse was not previously established."

200,000-Cut-throat Trout Eggs Arrive At Local Hatchery

Two hundred thousand cut-throat trout eggs arrived here yesterday from the Henry Lake hatchery in the northern Idaho and were deposited in the troughs at the hatchery of the Twin Falls Fish and Game association.

This is the first consignment of eggs of this variety brought here for hatching. The variety gets its name from the fact that the fish has a bright red mark across its throat. The hatchery now has 15 troughs in operation. Most of these are filled with young rainbow trout. The rearing ponds now have 85,000 young fish of the rainbow variety, which have been released from the troughs.

World's Debt to United States Now Over \$25,000,000,000

INTEREST ADDS TO AMOUNT OF MONEY COMING TO NATION

Government Figures Show
\$2,000,000,000 Annually
Increasing Sum, Resides
Other Loans Being Made

(By The Associated Press)
NEW YORK, June 15.—The world owes the United States more than \$25,000,000,000 and the debt increases yearly.

Interest on this indebtedness exceeds \$1,000,000,000 annually and there is a trade balance in favor of the United States which is piling up another \$1,000,000,000 each year, government figures reveal.

In order to meet these payments and maintain exchange balances, foreign countries have been borrowing in the United States between \$1,000,000,000 and \$1,500,000,000 yearly since 1921.

The difference between these borrowings and the \$2,000,000,000 which must be paid annually, is accounted for by America's "invisible" export of gold. This consists principally of money spent by American tourists abroad, funds sent out of the country by immigrants, premiums paid to foreign insurance companies by Americans and money paid to foreign shipping interests for transporting American cargoes.

Final Day Looms
The question of a possible day of reckoning has become the world's greatest economic problem. German reparations and Allied debts are only a part of it.

Economists and bankers are far apart in their theories and predictions. One of New York's most prominent financial authorities was asked the question: "How can foreign countries, particularly Europe, hope to make an eventual repayment of this huge debt if they must borrow from America to meet constantly rising interest charges?"

He replied: "There are only three ways in which the debts of international debts can be made: through the shipment by debtor to creditor of gold, commodities or services, or by the export of gold from creditor to debtor."

"Getting down to economic bedrock, the world must unload at American ports \$25,000,000,000 worth of commodities, or supply their equivalent in gold, services, and hospitality to tourists, in order to liquidate this debt."

"Obviously this cannot be done while America's exports rise faster than imports, and for that reason, I believe, that an eventual readjustment of our foreign trade must take place unless we hope to be paid entirely in rubber, coffee, Paris night life and other things which America does not produce."

Some competent authorities, he disclosed, saw nothing in the present situation resembling a financial merry-go-round. They disagree sharply, he said, with the theory that the present world economic situation is like a dog chasing its tail and believe that the day of reckoning can be postponed indefinitely.

This hope is based on a wider distribution of obligations.

**Girl Third of Family
To Be Phi Beta Kappa**

COLUMBUS, Ohio, June 15 (AP)—Virginia Hockett, co-ed at Ohio state university, is the third member of her family to win Phi Beta Kappa honors. Her father, Professor Homer O. Hockett of the university's history department, and her brother, Robert, a graduate chemistry student, both wear the golden key.

Former Hedjaz King Bankrupt in Cyprus

BEIRUTH, Syria, June 15 (AP)—According to Syrian press reports, ex-Khalid Husni, former king of the Hedjaz, has been declared a bankrupt by the court in Nicosia, Cyprus.

The aged man has been living in Nicosia since his banishment with his wife and two attendants in a flat of four rooms. He has always been considered enormously wealthy, but also has been noted for his deep-rooted aversion to any expenditure of money.

His failure is said to be due to reverses sustained in export deals in which he engaged soon after his arrival in Cyprus.

De Valera Party Assails Bargain On British Debt

DUBLIN, June 15 (AP)—Declarations of the Republican party by Eamon De Valera, have made it plain that in the possible event of their securing power one of their first acts would be to challenge the financial settlement made between the Free State and Britain.

The treaty establishing the Free State provided that it should be responsible for its share of the British war debt and war pensions, but allowed a reduction for over taxation of Ireland in the past.

This undermined liability embarrassed the Free State, and a fresh bargain was made by the Cosgrave ministry by which the British agreed to accept about \$25,000,000 a year for 50 years. This money represented partly loans by the British to Irish local authorities, partly loans to the Irish farmers to buy out their holdings from the landlords, and partly provision for pensions to the displaced Irish gentry.

The bargain concluded all outstanding financial claims and was described as final. Mr. De Valera says his party now argue that this settlement was not ratified by the Dail and that the land purchase annuities should be paid to the Free State Exchequer. The farmers would still have to pay their annual instalments, but Mr. De Valera would apply the money to agricultural relief. This is attractive to voters in the agricultural districts.

But President Cosgrave insists that the bargain made with Britain was a good one and should be kept, and that any attempt to divert from the annuities payment of the money which Britain lent the farmers would be dishonest.

AUTOMATIC CLUTCH ON CAR ELIMINATES SHIFT

PARIS, June 15 (AP)—An automatic clutch that all but eliminates gear shifting and is credited with many other advantages is to be put on the six horsepower car of one of the leading French manufacturers.

Centrifugal motion causes two segments to expand in a drum, much like a brake drum. Contact is made gradually at slow motor speed, giving a smooth start on high gear to the light touch of the accelerator. It is classified for any other reason, such as momentum going downhill, the car runs faster than the motor, the clutch is released.

Limberlost, the country estate of the late Gene Stratton Porter, will be preserved as a boy scout camp.

New Hostess At Downing Street

Associated Press Photo

BUHL

A Sweeping Success because it offers Big Car Qualities for only \$745

The New Pontiac Big Six is a sweeping success—an even more pronounced success than its famous predecessors. And it owes its success largely to the fact that it offers big car qualities at low prices. Oakland produced this car to enable progressive people to step up in motor car quality without leaving the low-priced field. And the very people for whom it was created have made it an impressive sales success.

Pontiac Big Six, \$745 to \$895, f. o. b. Pontiac, Michigan, plus delivery charges. Bumpers, spring covers and floor jack absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values. Oakland-Pontiac delivered prices include only reasonable charges for loading and for financing when the Time Payment Plan is used.

Current Trends and Happenings Claiming Comment in the Realm of Women

WASHINGTON OFFERS WOMEN BIG VARIETY OF ENTERTAINMENTS

Society Matron of Capital Does Not Stick to Bridge and Club Dances as Do Her Sisters of Other Cities

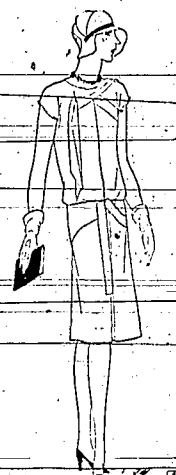

By SUE McNAMARA
(Associated Press Feature Writer)
WASHINGTON, June 15.—From just plain sight-seeing to the thrills of presidential receptions, Washington probably offers as varied entertainment to the woman visitor as any place in the country.
The Washington society matron does not stick to bridge and country club dances as her sisters in many other cities do. She goes to circuses, tennis matches, races, garden parties, noonday breakfasts, lectures and even high brow picture shows as part of the social program. She dresses carefully for each event and her various costumes are as carefully studied by the society editors.
Gold braid on army and navy uniforms, spotless white duck trousers and coats form interesting backgrounds at these outdoor events for the sports costumes of the women. Beige and various tones of tan and brown are popular with here and there a dash of costume of all red, green or bright blue.
Wears brilliant tie.
Mrs. Al Williams, wife of the navy's noted stunt flier, appeared at the Curtis trophy races for airplanes in a brilliant red dress and hat which set off her blond prettiness. When her husband executed some of his loops and whips about the grand stand where sat the secretary of the navy and other notables, he no doubt could single Mrs. Williams out from the crowd.
With bands playing, water sparkling and the navy airplane motors roaring through the air, hundreds of feminine faces uplifted to the sky have no difficulty in acquiring the much-talked-of fashionable "sun-lan."
Big tennis matches between the star of the Davis cup bring society out in full force in gay costumes. Here again the sun does his work in giving countenance the proper tan.
Circus, levade.
Mrs. Edward Everett Quinn, sister of the vice president, is a devotee of summer circuses and enjoys going to such as the children she takes with her, Mrs. James J. Davis, wife of the secretary of labor, takes the five little Davises to the circus.
A very different atmosphere from the big top was found at an entertainment given by the British and American ladies, Isabella Howard when a British lady, descriptive of the life and work of Sheraton, Chippendale and other furniture makers of the Eighteenth century was shown.
In spite of these varied entertainments, bridge is not neglected in the capital. The minister of Egypt and Madame Sanny are very fond of bridge. They have guests constantly for both afternoon and evening. Frequently the same company plays through both the afternoon and evening, starting with luncheon and laying down their hands long enough for dinner.

Scythe On Statute Causes Argument

VOYER, Mrs. June 15 (AP)—A sculptor's conception of the Kansas "pioneer woman" has aroused an argument as to whether the statue should be armed with a scythe or a rifle.
Criticism arose following acceptance by the Kansas Pioneer Woman Memorial Association of a model submitted by Bryant Baker, New York artist—his design showed the pioneer woman holding a scythe. Several women then suggested a woman armed with a rifle would be more appropriate.
One critic facetiously suggested the dispute might be settled by arming the woman with a mortgage if the statue was intended to represent the period from 1870 to 1890.
The monument, to cost \$20,000, is to be erected on the capitol grounds here.

NURSES MANEUVER TO HANDLE OWN AFFAIRS

To Remove Profession From Military Jurisdiction Chief Aim of Organization

MONTREAL, June 15 (AP)—To remove the nursing profession from military jurisdiction, and make it equally responsive to educational and public health interests, will be one of the chief aims of the "International Council of Nurses" which meets here July 8 to 13.
To be affiliated with the international council, which is the largest body of professional women in the world, an organization must be offered by nurses in every country.
Six new countries, having complied with the regulations, will be admitted at the coming council. They are Sweden, Philippine Islands, Korea, Japan, Finland and Holland. Nineteen other countries are represented by the 122,000 members.
The 150 foreign nurses who will attend have begun to arrive in this country. Among them is Miss M. Chapin, president of the National Association of United Nurses of France. She is one of the candidates for president of the international council and was nominated by the French nurses.
Two other candidates are Miss Clara P. Noyes, Washington, D. C., vice president of the council and director of nursing service of the American Red Cross, and Miss Jean L. Gunn, Toronto, Canada. Miss Gunn was nominated by the American Nurses' association. Miss Noyes has requested the American nurses not to nominate her, but she reckoned without the Cuban Nurses' association, which placed her name in nomination.
Under Miss Noyes' direction the American Red Cross gave valuable support to many foreign nursing schools during the period after the war. She is widely known among foreign nurses.
The sessions will be presided over by Miss Nina M. Gage, president of the international council. Miss Gage has been associated with nursing in China since 1908. Conditions in China make hospital and school work impossible in 1927. She returned to this country and was appointed executive secretary of the National League of Nursing Education.
Miss Gunn is superintendent of nurses of the Canadian general hospital.
Virtually all the distinguished women of the nursing world have taken part in the international meetings of the council. Professional discussions at these meetings have marked effect on standards of nursing, legislation and international nursing.
The International Council of Nurses was organized in London in 1899 by a group of British nurses led by Mrs. Bedford Fenwick.

Suffrage Leaders Planning To Attend Berlin Meeting

Three Americans who will take prominent parts at the meeting in Berlin this month of the International Alliance of Women for Suffrage and Equal Citizenship. Left to right: Miss Dorothy Straus, New York attorney, Mrs. Ann Webster, Washington attorney, and Miss Ruth Morgan of New York, vice-president of the League of Women Voters.

WASHINGTON, June 15 (AP)—Equal rights for women in moral, working conditions and pay will be sought by women from all over the world at the meeting of the International Alliance of Women for Suffrage and Equal Citizenship in Berlin, June 17 to 22.
While women have made tremendous advances since the alliance was formed 25 years ago, much remains to be done. Suffrage is still to be won in many European countries. There are problems to be faced in connection with nationality, the unmarried mother and the legal position of married women.
Twenty-four American women will attend the meeting. All of them are members of the League of Women Voters, the only affiliated member organization in the United States. Mrs. Ann Webster, a practicing attorney of Washington, will attend as a representative on the committee for an equal moral standard and against the traffic in women. As social hygiene chairman of the National League of Women Voters she has been interested in social betterment work since the days of the World War.
Miss Dorothy Straus, a New York attorney, will be United States representative of the committee for the equal status of women under the law. She is founder

Science Bears Out Talmud Doctrines

NEW YORK, June 15 (AP)—Some commentators of the ancient Jewish Talmud in line with modern scientific principles are reported by William Grossman, Hebrew scholar of Passaic, New Jersey, to the American Eugenics society.
One says that two very tall or very short persons should not marry, lest their children be abnormally tall or short. For a similar reason marriage was discouraged between blonds or between dark persons. Marriage was forbidden into an epileptic family. Marriage for persons of families manifesting continuous antagonism to each other was advised against.

Needn't Cook to Wed. Promise of Chicagoans

CHICAGO, June 15 (AP)—Maybe present day girls aren't good cooks. What of it? Who cares? One thousand men were asked to give their conception of the ideal mate at an open-house exposition here. Only two were interested in cooks. The others were strong for "eudoesmic" ladies.

SCARFS AND GARDENIA COMBINED WITH SUITS

PARIS, June 15 (AP)—Three color scarves—white, black and gray predominating, with additional bright colors making up the trio—are recent arrivals for wear with tailored suits.
White, smoke gray and lemon yellow often are combined for wear with black suits. Lemon, nasturtium and gray are favorite colorings.
Leather gardenias of matching shade are the classic accessory with the three-color scarf.

regarded as an able interpreter of women's political and legal status in the United States. Miss Ruth Morgan, New York, is on the committee for peace and the league of nations. She will preside at a big peace meeting.
The American delegations is headed by Miss Bell Sherwin, Cleveland, president of the National League of Women Voters. Mrs. Carrie Chapman Catt, founder and first president of the International Alliance, will be unable to attend.

BLENDED COLORS IN NEW EVENING FASHION

Chiffon and Velvet Basic Combination For Dresses and Wraps in Gay Paris

By BARBARA BRADFORD
(Associated Press Fashion Editor)
PARIS, June 15.—One-color ensembles for evening are less smart here just which blend shades or combine soft colors with coat and dress costumes.

Chiffon and velvet are the basic combination for the blended dresses and their wrap.
The vast-colored dresses are chiffon models made with loose panels or overskirts. Usually they have chiffon velvet wraps in the same tone as the frock. The wraps themselves may utilize more than one color and be a clever arrangement of panels and scarves designed to carry out and complete the lines of the dress.
Advance glimpses of the luxurious silk stuffs which French manufacturers are turning out for next autumn's evening fashions indicate more color in the lame and printed velvet fabrics. Some of them are decidedly oriental in design and coloring.

Manufacturers are turning out varicolored chiffons, which blend pastel shades, for the summer gown of varicolored ensembles.
All tones of yellow are popular in the shaded suits. Pale greens and blues also are widely shown.

WHOLE SUPPLIES FOOD
HONOLULU, June 15 (AP)—A stranded whale recently provided the town of Waianae on the island of Kauai with free meat for several days. The whale was 14 feet long and was dragged ashore from shallow water.

STOOD ALONE FIVE YEARS AGO—STANDS ALONE TODAY

"Chrysler came into a seemingly crowded motor car market and almost immediately swept its way into unprecedented acceptance as a quality product. That which ordinarily takes years to achieve was won almost overnight. * * * Why? Because Chrysler brushed aside outworn traditions in engineering, in design, and in performance. It brought to bear both scientific exactness and artistry. * * * That is why Chrysler has taken the country by storm—why it still stands and will long stand alone—why, if you want what Chrysler gives, Chrysler alone can satisfy you."

CHRYSLER'S PLACE IN THE SUN

Prior to five years ago there were no Chrysler motor cars. In five years, Chrysler, from a standing start, has overtaken leading cars of three, four and five times its age.
The spectacle of a new car so swiftly becoming a leader can bring the logical mind to but one conclusion: There must be something remarkable, something altogether different and superior, in the cars that Chrysler builds.
There is a definite superiority in Chrysler cars. Hundreds of thousands of motorists the world over have learned it.
There is in Chrysler performance, a thrilling sense of endless power, a swift eagerness of life and spirit, a resful feeling of perfect balance and positive safety that cannot be experienced except in a Chrysler. There is in Chrysler design artistic freshness and modern charm. There is in Chrysler riding qualities a smoothness, a cradled restfulness quite without counterpart.
Drive a Chrysler car today and realize, better than words could ever tell you, why Chrysler has won so glittering a place in the sun—and why Chrysler goes on and on to an ever-increasing popularity and prestige.

TEST OF RUGS KNOTS DECLARES MERCHANT

Newlywed Warned by Florida Vendor With 29 Years Experience in Floor Goods

TAMPA, Fla., June 15 (AP)—Mrs. Newlywed is warned by Charles G. Adelman, Tampa rug merchant of 29 years' experience, "to know her rugs as well as her onion."
He claims that knowledge of this sort will save much household expense, particularly when the rug peddlers come around.
"If you know little about rugs—can't tell whether they're come from England or Newark, New Jersey—do this," said Adelman. He created what he said was a genuine oriental face outward and revealed a core of inflexible knots at the base of the nap.
"No machine in the world could tie those knots," he declared. He then showed that the knots would resist the strongest human pull, while the nap on machine-made rug would loosen with a sturdy pull.
GRANDMOTHER GRADUATES
LOS ANGELES, June 15 (AP)—After auditing her three sons through college, Mrs. Nellie A. Freeman, three a grandmother and widowed 34 years ago, will receive a bachelor of arts degree from the southern branch of the University of California this year. She will wear the same cap and gown in which each of her sons were awarded degrees at the same institution.
DENMARK WEALTHY
COPENHAGEN, June 15 (AP)—Denmark is the richest country in the world, according to official statistics. The country's real estate is worth only 1 percent of her wealth, so she owns 99 percent of her fortune.

FEATURE FLASHES FROM FAR-FLUNG FOREIGN FIELDS

Mussolini and Aides Push Italian Naval Expansion Program to Equal French Republic's in Three Years

Execution of Plan Involves, Up to End of 1929, Expenditure of \$100,000,000 and 11 Duce Bends Every Effort to Make Fleet Possibly Strongest of All Armaments of Mediterranean Countries

By ANDRUE HERBING
(Associated Press Staff Writer)

ROME, June 15.—Mussolini and his Fascist ministry of marine are bringing the Italian navy up to a high point of efficiency at a time when Italian newspapers are crying, apropos of the preparatory disarmament conference at Geneva:

"We want a navy equal to France's."

Mussolini, who is himself minister of marine, said in an election campaign speech:

"Before 1922 the sea was neglected. This regime has renewed Italy's possibilities there."

Recent figures bear out his contention, for by 1932, when the naval program now in course of construction is completed, Italy will have 43 new ships of light cruiser class and destroyers, of a total of 118,400 tons; 27 new submarines, of 21,350 tons, and 10 special ships of 32,700 tons, a total of 80 units, and 176,490 tons.

Since the Fascist regime began, the need of light fast cruisers in preference to battleships has been emphasized. If Italy could go to war with a country of considerable naval strength, her fighting would be done on the sea. The Mediterranean and the Adriatic, she would have to fight on her long boat-like coastline, means she must have a fast navy capable of sailing from one strategic point to another. No dreadnaughts.

It is significant of the changed tactical theory that no dreadnaughts have been laid down since 1913, 16 years ago. The Andrea Doria and the Duilio were completed in 1915, just before Italy entered the World war.

Only within the last few weeks Mussolini announced the impending construction of four new cruisers, two being the Trento (10,000 tons) and the Trieste (10,000 tons) and two being lighter.

The execution of the new program involves, up to the end of 1929, an expense of 1,528,000,000 lire, nearly \$100,000,000.

At the same time, the Duce is bringing every effort to make the Italian navy possibly the strongest in the Mediterranean, even taking into consideration the Mediterranean division of the French and British navies. He is likewise concentrating considerable attention on shore defenses and bases, especially Palermo, in Sicily.

Change Arsenal

At the end of the war the Italian marine was in possession of five arsenals—Spesola and Naples on the west coast, Taranto within the inside of the heel of the Italian boot, Venice on the east coast and Pola on the Delmatian coast. In accordance with the needs of the navy, radical changes were made in this arrangement. The arsenal of Naples was abandoned. Those at Venice and Pola were transformed into naval bases. The base at Brindisi was abolished. Only two arsenals remained in operation—Spesola and Taranto, and on these all the forces at the disposal of the government were centered. Thus, these two and particularly Spesola, have become as efficient as any in the world.

The personnel organization has also been changed, again on the theory of quick, unified action in several years. There was instituted one high command, which has responsibility for absolutely everything connected with the navy and the coast. Under the high command are four commands located at Spesola, Naples, Taranto and Venice, with jurisdiction respectively over the High Tyrrhenian, the Low Tyrrhenian, the Ionian and Low Adriatic and the High Adriatic.

One of the most noteworthy advances of the Italian navy has been in the scientific study and development of ships of war and their accessories. Toward this end there have been created:

An experimental center to test the most modern Italian and foreign methods of anti-aircraft defense; another to experiment with poison gas and smoke screens; and a third to study means of research and communication under water. In addition, the chemical service for explosives and combustibles was reorganized and further developed, as was also the precision laboratory and the radio services.

Observers say too, that Mussolini has inspired his navy with a new spirit. King Victor Emmanuel referred to this fact in his opening address to parliament.

"You will be asked," he said, "to provide new and further material means for the national defense. The spirit is already there."

Premier MacDonald and His Cabinet

Associated Press Photo

HOLDING PROMINENT posts in the new labor government of Great Britain headed by Premier MacDonald are: Top row, left to right: Philip Snowden, chancellor of exchequer; Lord Parmoor, lord of president of council; Sir John Sankey, lord chancellor; Arthur Henderson, foreign secretary. Middle row: William Graham, president of board of trade; Premier MacDonald; Margaret Bondfield, minister of labor. Lower row: John Clynes, home affairs; J. H. Thomas, lord privy seal; Tom Shaw, secretary of war, and Sydney Webb, secretary of dominions. A. V. Alexander, is first lord of admiralty.

AMERICAN GREEKS GENEROUS GIVERS

Spartan Residents of Gotham Send \$77,720 Home to Provide Supply of Water

ATHENS, June 15.—Greeks living in America have been very generous in benefactions to their native land. Spartans resident in New York have sent \$77,720 to provide their home city with a water supply.

American Greeks from the island of Lemnos have donated \$400 for a school at the famous harbor of Moudros.

Lebanese have received \$4300 from former emigrants to that island for construction of a school.

Two Peloponnesian villages have collected more than \$1000 from their fellow-citizens in the United States for the construction of aqueducts.

These benefactions, taken in conjunction with the steady flow of private remittances from America, have served to arouse interest in the history of Greece: emigration to the United States. The Messenger of Athens recently published a statistical survey in which it was stated that the first Greek to settle in America was "Captain Thomas," who arrived at Boston in 1660.

Several families from Maine followed Captain Thomas to Boston in 1675, says the paper. In 1760, Florida, extended its sunny hospitality to 1500 Greeks and Italians from Smyrna, and these gave the name "New Smyrna" to their settlement.

During the Greek war of independence, many Greek orphans were adopted into American homes. Greek emigration did not begin until 1824, but was on so small a scale that by 1855 only 550 Hellenic folk had entered the country.

The migration had become a flood later and by 1917, there were 372,527 American Greeks. Legal restrictions checked the flow, but the number rose to the present figure of about 600,000.

One-sixth of the American Greeks live in New York and Chicago. The others are scattered among 250 communities.

PROPOSE SHORT WAVE PHONE

PARIS, June 15.—A project for linking up widely colonists by radiophone is under examination. If adopted, all colonists living many miles from towns in Morocco and southern Algeria will be supplied with a receiver and a transmitter, working on short waves and enabling them to keep in constant touch with one another and with local headquarters.

PRINCE DEVOTEE OF ARTS AND HISTORY

Italian Capable Colonel of Infantry at Age of 24 and Unusual Connoisseur

TURIN, Italy, June 15.—Crown Prince Umberto of Italy, besides being a capable colonel of infantry at the early age of 24 and a half, recently has revealed himself a connoisseur in matters of art.

The prince follows artistic publications very closely, particularly those containing articles on the works of the Italian masters.

Seeing in Delafon, an art review, a communication from Dr. Leo Planisc, director of the famous Vienna museum, concerning the hitherto little known works of the sculptor Francesco Bertoni, he forthwith extended that servant by addressing him a letter enclosing 12 photographs of Bertoni's statues contained in his own palace here—masterpieces hitherto unobserved by the general public.

The prince found the work of Bertoni, an artist of Turin, when he picked it out for his own habitation, possessed of a wealth of statues and paintings, which, however, had been placed in obscure corners. He took pains to sort them out and to place them where they would have the best light and setting.

Besides having this flair for statuary and portraits, the heir to the throne is interested in documents bearing on the royal family, the house of Savoy. Whenever his duties permit, he likes nothing better than to delve among the palace archives in order to have new light on various phases of his line's history throughout the centuries.

Prince Albert Coat On Shelf in Japan

TOKIO, June 15.—The passing of the Prince Albert coat, for two generations the official Japanese idea of the last word in ceremonial dress, was marked by the requirements for the 1920 Imperial Chrysanthemum prize. The coat, which was worn by the emperor, was worn by the emperor's son, the crown prince, and by the emperor's daughter, the empress. The coat was worn by the emperor's son, the crown prince, and by the emperor's daughter, the empress. The coat was worn by the emperor's son, the crown prince, and by the emperor's daughter, the empress.

It is even rumored that soon persons, received in formal audience by the emperor may wear morning coats. At present they must appear in full evening dress unless they have military, naval or diplomatic uniforms.

WOMEN WILL WITNESS UNVEILING OF TABLET

EVANSTON, Ill., June 15.—The annual convention of the Women's Christian Temperance union will witness the unveiling of a tablet to Frances Willard, pioneer in the movement. Mrs. Ella A. Boole, president, in calling the convention for September 15-16 in Indianapolis, said the tablet would commemorate the election of Miss Willard to the presidency 30 years ago. It was designed by Lorado Taft and will be unveiled in the Indiana capitol building, where it will be accepted by Governor Harry E. Leslie.

Mrs. Boole took credit for the organization's aid in the Hoover victory, but said "we have been paying the price. The opponents of prohibition are outside the breakwaters."

PICK UP CORAL

HONOLULU, June 15.—A Tom Sawyer stunt was used to get the famous Walker-bench free from loose pieces of coral washed up by the tides. Prizes were offered to the boys and girls who gathered the most coral—and 100 youngsters labored all one day for pocket knives and school sets. Tons of coral were taken out of the water.

Law of Estonian Expropriates Land

GENEVA, June 15.—As a measure of agrarian reform, all large estates in Estonia have been expropriated for the purpose of providing farms for a larger number of persons and to enlarge holdings considered too small to support a family of peasants.

Of the persons formerly employed on large estates 550 applied for land during 1927-28 and 321 received it. Other applications for land totaled 1047, but 108 of these could not be satisfied legally. The number of new holdings given in tenancy since 1919 amount to 53,076.

News Want Ads reach the people you wish to attract.

AUSTRALIA'S ARMS PLAN NEARING END

Army and Air Program in Better Position Than Naval Building Designs

SYDNEY, Australia, June 15.—Following the precedent set by Great Britain and for the sake of efficiency in expenditure, the Commonwealth government in 1924 laid down a five-year program for all three branches of the defense service. It was intended that by the end of that period the defense of the country would be advanced to a definite point.

The five years will expire on June 30, and although the army and the air programs have not been nearly carried out, the naval program—or at least that portion of it represented by ship construction—is in a better position.

The sum of \$40,000,000 was provided for two cruisers, two submarines, an aircraft carrier, a subsidy of \$750,000 toward the construction of a floating dock at Newcastle and five 8000-ton tankers full of oil for the use of the navy. The building program was completed well ahead of time.

With the five new vessels added to her fleet, Australia has a navy which, if it does not begin to compare with those of the great powers, is at least an effective addition to the naval strength of the British empire.

Law of Estonian Expropriates Land

GENEVA, June 15.—As a measure of agrarian reform, all large estates in Estonia have been expropriated for the purpose of providing farms for a larger number of persons and to enlarge holdings considered too small to support a family of peasants.

3:00 P. M.—Laying of cornerstones of

Night Safety

YOU guard your body jealously. . . your teeth are given constant care. . . your lungs are closely watched. But your eyes receive practically no attention. You expose them heedless of consequences. . .

It is the danger signal and the rush to see us. Avoid this. . . Let us start you on the road to protection! Ask us to show you our special

SOFT-LITE LENSES—They remove glare and protect you by providing pure filtered light that keeps your eyes constantly refreshed!

6:30 A. M. and 9:00 A. M.—Masses weekdays.

7:45 A. M.—Mass week days.

"SCRUBS" DITTIES FOR RADIO

CHICAGO, June 15 (AP)—Gene Arnold, announcer and singer for WENR, has been "cleaning up" a few old songs. He has taken a number of songs not of a character suitable for public presentation and rewritten them for use over the radio. His latest, to test the cleaning brush is "Fiddlers & Songs."

SUCCESS BY RESEARCH

WASHINGTON, June 15 (AP)—Reliance upon scientific research is growing, says a report by Henry S. Dennison for the national bureau of economic research. "It is widely believed by business managers," he says, "that the research activities of leading companies are the primary causes of their success."

MORE WHEAT IN MONTANA

BOZEMAN, June 15 (AP)—While Montana has only about a third as many farmers as it had 10 years ago, the state is producing nearly three times as much wheat, surveys by the Montana agricultural college reveal. Power farm equipment is credited for the increase. Industrialization of the farm is well under way in Montana.

PALMER URGES SHIPMENT OF HIGH QUALITY LAMBS

BURLEY, June 15 (Special to The News)—Lamb raisers should be more closely united to bring satisfactory prices according to County Agent W. W. Palmer, who has just returned from Denver where one load of a two car shipment of wool lambs was sold. The second car was forwarded to Omaha.

Many clipped fetlocks are being marketed, and the packers are buying them freely at 11¢ cents, Palmer says. Native lambs from the corn belt and from Tennessee are also coming to market in greater quantity than usual, he states, which is a regret. California lambs are also still coming in to compete with the Idaho product.

Market quotations should be studied with care, says Palmer, and it should be borne in mind that top quotations as published in the reports are generally of isolated sales of fancy lambs from the best consignments. It is recommended, he says, that only standard quality lambs be shipped from Idaho at present, and that after careful sorting those under standard be kept at home for later shipments.

It's a GREAT tire —priced low!

Rugged—fine appearing—generously over-sized! That's the NEW Goodyear Pathfinder, and it wears as well as it looks.

Every bit of material used in those big, sturdy tires is carefully selected and thoroughly tested. The rubber is blended to obtain the standard uniform toughness of Goodyear treads and sidewalls. All materials must meet Goodyear's rigid standards. Goodyear experts measure for fine quality every bale of cotton used in Goodyear mills. Again when the cotton leaves the mill as Goodyear Superwrist Cord, it is tested. All through its building each tire is tested—inspected—watched to assure high quality.

No wonder Goodyear Pathfinders are GOOD.

We'd like you to see these tires. You'll appreciate their value. You'll appreciate their low cost. Just glance at the price for your size.
