SLIDING SCALE PLAN FOR LEVY ON SUGAR GOES TO SCRAP HEAP

Chairman Smoot, Sponsor, Advises Against Adoption in View of Position Assumed by Producers

(By The Associated Press) WASHINGTON, Aug. 10.—The opposition voted by the sugar industry to the proposed sliding-scale duty on that commodity today led Republican members of the senate finance committee to cast the plan into the legislative waste heap.

Mr. Smoot, who sponsored the plan, announced it was the consensus of the 11 Republican committee members that the plan would be "ill-advised to press for its adoption."

Navy Receives Scores Of Protests Against Scrapping Dewey's Ship

WASHINGTON, Aug. 10.—The suggestion that Dewey's ship, the USS Olympia, be sent to the scrap heap has prompted scores of protests to the navy against scrapping the vessel, the oldest of a class of war ships whose guns in Manila Bay, more than a quarter of a century ago, won Dewey a brilliant chapter in American naval history.

Such was the case years ago when a similar suggestion was broadcast, regarding the old frigate "Constitution," endeared to many hearts under the name of "Old Ironsides."

So emphatic have been the protests regarding the Olympia that the navy announced today that its disposition should be made until congress had been given time to enact legislation to preserve the ship, should it decide to do so.

IDAHO BAR ACTS TO IMPROVE JUDICIARY

State Association in Favor of Longer Terms and Better Salaries for Judges

IDAHO FALLS, Aug. 10.—The Idaho State Bar association today announced its plan to improve the judiciary by the adoption of resolutions favoring the appointment of a judicial council to make recommendations to the governor regarding the appointment, removal and discipline of judges.

The council would consist of two supreme court justices, three district judges and five lawyers and would serve without pay, except expenses, for a term not to exceed four years. The appointive power would rest with the state bar association.

The salary resolution proposed to increase the terms of the supreme court justices to 10 years and to pay them not less than \$10,000 annually. District judges would receive the same amount, plus \$1000 a year for six years.

Another resolution proposed reorganization of the Idaho statutes, while a fourth urged lawyers to report any barristers who were guilty of malpractice.

Regret of the death of several of its members during the last year was expressed in a series of resolutions. Those named in such resolutions were: George H. H. Johnson, William F. Hanson, Thomas S. Jackson and Harry O. McDougall, attorneys.

IDAHO'S FINANCIAL STATUS IMPROVING

Finance Commissioner Reports Conditions Better Than in Previous Years

BOISE, Aug. 10.—Idaho is in sound financial position that any time in her history, declared E. W. Porter, commissioner of finance, in an analysis today of financial statements covering 1929.

State banks in 1929, the commissioner pointed out, had borrowed \$12,479,784 from the federal reserve bank, less than the \$15,000,000 borrowed in 1928, but the difference is of vital importance. It must be recalled that the deposits of 1929 were increased by the large loans and money borrowed from the federal reserve bank. Now cash and deposits are \$180,628,841.

Loans have been reduced from \$44,648,774 to \$22,772,779.39, more than 50 per cent. Deposits increase. Deposits show an increase of \$3,847,164, from \$44,648,457.71 in 1928 to \$47,845,620.02 in 1929.

FIERCE BLAZES STILL BURNING IN MONTANA AND NORTHERN IDAHO

More Than 4000 Men Trying to Halt Flames by Cutting Out Underbrush, Trenching and Back-Firing

(By The Associated Press) LEWISTON, Idaho, Aug. 10.—A month-old forest fire in the Nez Perce Indian reservation, north of Lapwai, reported to have jumped from fire lines, tonight was menacing rich wheat fields of the Camas Prairie country, and farmers were battling to clear the blaze.

Three contingents stubbornly resisted fire fighters in Northern Idaho—the Bald mountain, Old Man creek and Salmon river fires. Montana firefighters had placed additional crews of men and pack trains to feed them on many blazes there. A number of them were in almost inaccessible timber.

The situation in Oregon was believed better, with one fire in the Mount Rainier forest offering the most trouble. In western Washington only the Wolf creek—in the Chehalis forest—seemed serious.

Another hot, dry day seemed in prospect, making the forests more inflammable than ever. Although low humidity has warned the foresters during the last few days, few new lightning fires have been reported.

More than 4000 fire-fighters were trying to stem the tide of flame by cutting.

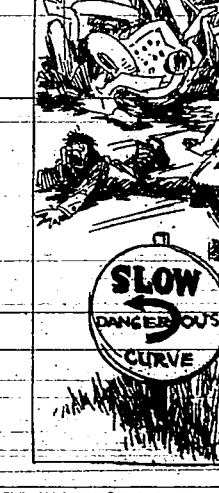

INDUSTRIAL CAPTAIN OF CLEVELAND DROPS DEAD

CLEVELAND, Ohio, Aug. 10.—Henry B. Pickands, who during the last 25 years had made himself one of the most dominating figures in the iron, steel, coal and shipping industries, died suddenly today from heart disease.

Mr. Pickands entered his office at 10:30 a. m. and was found dead in his study at 11:30 a. m. He was 63 years of age.

The death of Mr. Pickands marked the passing within a year of the second of the trio who have dominated Great Lakes shipping. Harry Coulb, another of the company who was known as the "Czar of the Great Lakes" died in England last January 18.

When the Sole Owners of the Road Meet the Sole Proprietors

1200 Iowans Gather to Place Granite Marker At Hoover's Birthplace

WEST BRANCH, Iowa, Aug. 10.—A humble cottage in which Herbert Hoover was born here 55 years ago today was marked for posterity this afternoon as a ceremony in which 1200 Iowans participated.

Members of the Iowa City chapter, Daughters of the American Revolution, placed a granite boulder from an Iowa corn field in the front yard of the freshly painted story-and-a-half dwelling on the stone, which was placed under the spreading branches of a plum maple tree. They fastened a bronze plate reading:

"THE BIRTHPLACE OF HERBERT HOOVER, FIRST PRESIDENT OF THE UNITED STATES BORN WEST OF THE MISSISSIPPI RIVER."

The program was simple in accordance with the Quaker tradition of the community.

10 COAST BANKS IN MERGER AT SEATTLE

New Institution, Largest in Northwest, to Have \$119,025,542 Resources

SEATTLE, Aug. 10.—Formal announcement of the merger of 10 Seattle banks creating the largest bank in the Pacific Northwest and having total resources of \$119,025,542 was made here today.

The merger was completed when the boards of three major institutions involved approved the organization.

The new bank will have a capitalization of \$10,000,000.

Hope For Swiss Fliers' Safety Fades in Lisbon

LISBON, Portugal, Aug. 10.—Military observers tonight were inclined to believe that the Swiss aviators who left Le Bourget on Thursday for this city had met with an accident while crossing the Pyrenees or perhaps had fallen into the sea in attempting to reach the Azores.

BRITISH CHANCELLOR RESUMES DRIVE FOR YOUNG PLAN CHANGE

Situation Becomes Grave and Allied Delegation Calls For Special Conference On Line of Action

(By The Associated Press) THE HAGUE, Aug. 10.—Philip Snowden, British chancellor of the exchequer, resumed his drive for modification of the Young plan and a crisis in the conference was averted by adjournment until Monday, when a showdown is expected.

The situation was so grave tonight that the Allied delegates found it expedient to confer at 11 A. M. tomorrow on the future line of action.

The day began with a speech by W. Graham, president of the British board of trade, setting forth how the British economic situation was adversely affected by deliveries in kind and how it was keeping a great many English working men idle.

The financial committee heard the plea of the president of the board of trade that payments of reparations in kind be reduced to the lowest possible limit.

Henri Corion, French finance minister, following Mr. Graham declared that.

5000 BUSINESS MEN OF WORLD MEET IN BERLIN

BERLIN, Aug. 10.—One of the latest and most convincing signs of the much-touted internationalization of Europe was the spectacular reception arranged here today for the preliminary meeting of the world advertising congress, which opens here Monday.

Special trains, special reception committees, bands, banquets, decorated railroad stations, were all part of the welcome staged by Berlin's city government and business leaders for the 5000 delegates, most of whom reached the city today, and 1000 of whom are American.

A former chancellor of Germany, Hans Luther, L. president of the congress. President Von Hindenburg and foreign Minister Stresemann will speak.

Friends Surprise Chief Magistrate of Nation On Fifty-Fifth Anniversary

MADISON, Vt., Aug. 10.—The president of the United States was surprised today by a party of night by members of his family and the small group of friends and high court officials who are celebrating the week-end with him at his fishing camp in the Virginia mountains.

Just what took place or just what were the presents given the 55-year-old man who holds the highest office in the nation is something that, for the time being at least, is secret, known only to those in the little camp.

It was learned, however, that the party was arranged by Mrs. Hoover and Mrs. Charles A. Lindbergh, wife of the distinguished flier. The only description of the presents was that they were of an inexpensive nature.

RUIN-MARKING PATH OF STORM IN CHILE

Engineer Estimates Repair of Sea Wall Alone Will Cost Nearly \$1,600,000

SANTIAGO, Chile, Aug. 10.—A terrific storm that raged all last night caused damage almost along the full length of the Chilean coast and in the mountains to the east took the form of a blizzard.

A tug boat was sunk and its captain drowned and several lighters and launches were lost at Magellanes in the extreme south.

British cruisers escaped by putting out to sea. The breakwaters at Antofagasta were destroyed and damaged as were the breakwaters at Miraflores and Talcahuano.

All train service and air service between Chile and Argentina was suspended. Passengers on one trans-Andean train were snowed out in a tunnel. They were believed to be well provisioned, but efforts were being made to open the road.

Only the 200 feet of the long sea wall at Antofagasta was left standing. The rest of the sea wall was swept being wrecked. Its anchor chain parted, but it was able to put out to sea in the teeth of the gale.

Small boats and wreckage were cast up on the shore for miles after-while. The port engineer at Antofagasta estimated that reconstruction of the sea wall would cost about \$1,600,000.

UTAH WINS IN VOICE CONTEST

TRAVERSE CITY, Mich., Aug. 10.—(By Herald-Examiner.) Pleasant Grove, Utah, won first place in the voice contest of the National Western Exposition today. Second place went to Alice Dillon, Kerman, California, who yesterday won the solo harp championship.

OUT TO SET RECORD MARYSVILLE, Aug. 10.—Robert T. Wilson and Robin Harris, left here for Spokane, Washington, at 2 P. M. today in a Buell air sedan in which Nick Marnett, Spokane pilot, will attempt a non-stop refueling flight from Spokane to New York and return. They expect to reach Spokane early Sunday night.

SOCIALISTS MASS AT FUNERAL FOR LEADER

75,000 Persons View Body of Victor L. Berger and Follow Remains to Grave

NEW YORK, Aug. 10.—In a dramatic incident, the remains of Victor L. Berger, Socialist leader, were held here this afternoon. The body of the former congressman and Milwaukee mayor, who died Saturday in a street car accident, was held here for a funeral. The body of the former congressman and Milwaukee mayor, who died Saturday in a street car accident, was held here for a funeral.

EXPERTS GROOM BIG DIRIGIBLE FOR NEXT LEG OF LONG FLIGHT

After Crossing Atlantic In 55 Hours and 24 Minutes—Motors Run Perfectly—German Mechanics Report

(By The Associated Press) FRIEDRICHSHAFEN, Germany, Aug. 10.—Taking a new record for a transatlantic dirigible—crossing into her hangar with her, the great air liner Graf Zeppelin reached home this morning 55 hours and 24 minutes after leaving Lakehurst on the first leg of her long, 11,000-mile flight.

A small army of mechanics and helpers immediately began to groom the Zeppelin for the next stage, to Tokyo, on which she will leave within three or four days.

Dr. Hugo Eckener celebrated his 50th birthday today by bringing down the silver moon of the air, at 7:03 A. M. with a journey of 4200 miles to her credit in the log books. The Zeppelin made an average speed of 75 miles an hour for the entire trip.

Within another half hour the dirigible was being unmoored for her crossing in 1928 by 19 hours 23 minutes.

Friedrichshafen, which is used to thrillers connected with Zeppelin, and the sensation of its existence when the Graf Zeppelin landed in almost bare-belly.

The air liner described a graceful curve over the city, and less than half an hour after she had been sighted, came to the ground in one of the prettiest and easiest landings Dr. Eckener has ever achieved.

Within another half hour the dirigible was being unmoored for her crossing in 1928 by 19 hours 23 minutes.

Within two hours after the Graf Zeppelin landed, the Graf Zeppelin plant gave evidence of an unusual occurrence. Mechanics bustled themselves with the motors, only to find they were in perfect condition.

Examination of the hull revealed no tears, so that from this technical point of view, the Graf Zeppelin made Tuesday night. However, Dr. Lennartz, the Zeppelin's lake expert, doesn't consider the blout likely before Wednesday or Thursday morning.

First Pilot to Fly to Bremen, Lost in North

TORONTO, Aug. 10.—Duke Schiller, the first pilot to fly to Greenland in the rescue of the Bremen flier a year ago last spring, is missing in the Canadian wilderness today in the Arctic circle, a special dispatch stated today.

Schiller and a party consisting of Jack Hume, a mechanic, Tom McArthur, and an unnamed prospector have been missing since they were last seen in an airplane from Baker Lake on a prospecting trip in the vicinity of Wager bay, on the northwestern side of Hudson bay, two weeks ago.

Brazilian Flier Dies in Waters Off Florida Coast

PENSACOLA, Fla., Aug. 10.—Strapped in the cockpit of a wrecked airplane, the body of a Brazilian flier, Cardozo-Serius, Brazilian naval flier, tonight rested in fifty feet of water in Pensacola bay, into which he plunged today near Fort Barrancas while on a training flight.

State Auto Headlight Drive Gets Under Way

BOISE, Aug. 10.—The state department of transportation today announced that the drive to get all automobiles in the state equipped with headlights by the end of the year is well under way.

DR. SNOOK'S DEFENSE CALLS 11 WITNESSES

Experts Testify for Side Claiming Temporary Insanity for Professor

COLUMBUS, Ohio, Aug. 10.—Eleven witnesses were called by the defense today in its effort to bear out contentions that Dr. James H. Snook was temporarily insane and struck in self-defense when he killed Theora Hix, Ohio State university co-ed.

Chemists and physicians attempted to describe what was in the sandwiches supposed to have been eaten by Dr. Snook and the girl when she was hampered and slain to death on a lonely hillside near Columbus the night of June 12.

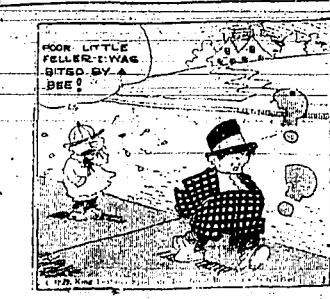

Among the witnesses were: Robert Terry, pharmaceutical chemist; Dr. Clayton S. Smith, professor of pharmacology and physiology, who taught Theora Hix when she was a medical student at Ohio State; Dr. Frank W. Harrah, who made an examination of marks on Dr. Snook's body, which the defendant claims were inflicted by the girl and finally John P. Seidel, one of the doctor's attorneys. Seidel related in detail the trouble he had encountered in obtaining permission to interview his client while he was under arrest.

Attacks Testimony

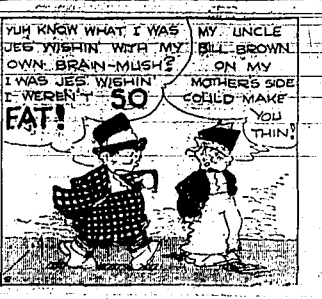

Through Chemist Terry the defense attacked the testimony of Chemist Charles E. Long, who testified that the narcotic to which Dr. Snook had access, supporting the defense protest that if the preparations actually were in the girl's stomach she was responsible for her death.

In Dr. Snook's account of the killing, as related on the witness stand, he said he struck Miss Hix the first blow with a hammer which he had in the car, to loosen her grasp on him.

FEDERAL OIL BOARD TO STUDY NEW LAW

Body Will Observe California Measure; Delays Governors' Conference

WASHINGTON, Aug. 10.—Officials of the federal oil conservation board said today the board did not expect to recommend the calling of another governors' conservation conference until after they had time to observe the workings of the new California conservation law.

The new California law, which prohibits the wasting of natural gas, goes into effect on September 1. Board officials said it had largely been defeated by oil operators who wanted conservation and that it would provide for the orderly development of any oil field in the state.

If the law really brings about oil conservation, officials said, it would be in the best interests of an interstate compact looking to its apportion by all the principal oil producing states.

Members of the board believe the discussions in London by leaders of the oil export industry of a proposed world agreement for oil conservation in this country there also must be some control of production in foreign fields.

The agreement looking to the orderly development of Kettleman Hills field in California, negotiated by the Interior department, is regarded by the board as one of the most advanced steps toward genuine conservation in the history of the oil industry.

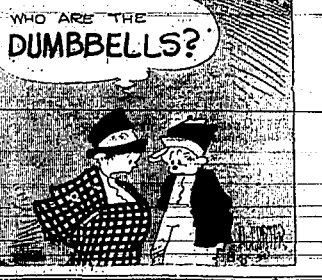

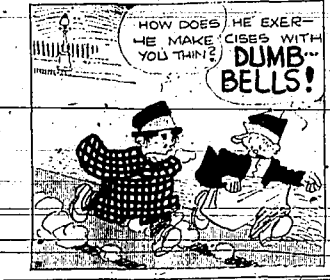

Although there were three parties who had not agreed to the delayed development of Kettleman Hills field in California, negotiated by the Interior department, is regarded by the board as one of the most advanced steps toward genuine conservation in the history of the oil industry.

FIRST CAR OF CABBAGE GOES TO EASTERN MARY

F. H. Adams shipped the first carload of cabbage from the Twin Falls market Friday. The car was consigned to Chicago. The cabbage, an early variety, was all raised in the vicinity of Twin Falls. There will be a large yield on plots planted in later varieties, Mr. Adams said. Prices are said to be good. The Twin Falls Canal company crop report gives the acreage of cabbage grown for commercial purposes here this year at two, against none last year.

The famous Balfour note made by M. Cheron to be "grotesque and ridiculous." The interpreter left out these words when he translated the speech into French but Cheron, already aware of what had been said, smiled without comment.

The total capital invested in Canadian power capital is about \$1,275,000,000.

The Weather

FORECAST FOR TODAY AND TOMORROW—Fair and warm Sunday; Monday generally fair but local thunderstorms in mountains.

Maximum temperature of 80 degrees was reported by the government weather observed yesterday. The minimum was 49 degrees. Friday's extreme temperatures were 69 and 53 degrees.

Pierce Fires Still Burning in Montana and Northern Idaho

Fire under brush, digging trenches and back-firing. Well organized bases of supplies kept them furnished with food, tools and blankets by using trucks and pack animals. The fire had burned over some 50,000 acres.

California fires were reported under control. In the northern part of the state, a fire burned over 300 acres of brush and pasture land near Hauger mountain. Francis Solis, fire-fighter, suffered a broken arm when a horse he was riding rolled over him. Cattle were destroyed, and valuable pasture and oak fuel burned over. The fire started Thursday when faulty lantern set an automobile afire.

Near East Lake, Idaho, California fire-fighters fought flames at the head of Lopez canyon. The fire in the Rinconada section was partially under control and the quickster mill was saved when the fire burned around the works. Three hundred men were on the fire line.

Experts Groom Big Dirigible for Next Leg of Long Flight

(Continued From Page One)

Press correspondent, "I know Dr. Eckener will want his men about all to have real. They will be glad to pieces if they must start right off again by Tuesday morning."

Approve Passenger List

Although the final list for the Tokyo flight has not yet been definitely fixed, the following passengers have been accepted:

Lady Grace Drummond Hay, London; Commander Naohiro Fujiyoshi, Japanese naval officer;

Commander Charles E. Rosendahl and Lieutenant G. Richardson of the United States navy;

Sir Hubert Wilkins, Australian explorer;

Geochim Rickard, Boston and Madrid;

Nelson Morris, Chicago;

William D. Leckie, New York;

Carl von Wiegand and Robert Hartmann, representing the Heinkel publications;

Quatav Kauder, representing the Ulstein publication;

Heintze von Eschwege-Liechberg, representing the Scherl publications;

Yoshimatsu Endo, representing the Osaka Miteichi;

Kichinai Kitano, representing the Osaka Asahi;

Herr Gessauhelmer, representing the Frankfurter Zeitung;

Dr. Heronimo Megias, Madrid, physician;

An unnamed Soviet geographer, a Frenchman and a Swiss also will be passengers.

Sliding Scale Plan For Levy on Sugar Goes to Scrap Heap

(Continued From Page One)

8 cents a pound against a present levy of 7 1/2 cents.

After completing consideration of the wool schedule, the committee began work on the new sundries section, and discussed for two hours the proposed 10 per cent duty on hides, now on the free list, but reached no decision.

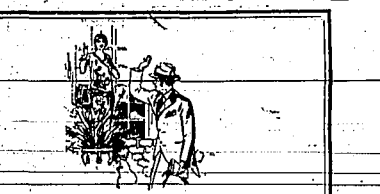

British Chancellor Resumes Drive for Young Plan Change

(Continued From Page One)

An effort would be made to satisfy British interests on that point.

The fact that Chancellor Snowden's resolution for revision of the Young plan meanwhile had been allowed to remain on the table without mention apparently produced better feeling which lasted only until Chancellor Snowden rose to reply to M. Storon in blunt and energetic language.

The British chancellor of the exchequer told the committee that he must not forget his resolution for revision of the Young plan on which he would demand action upon much further

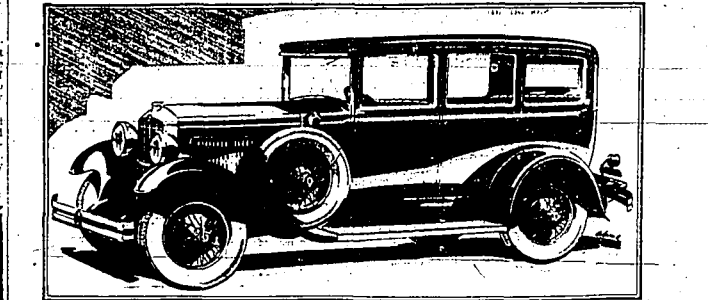

How to Help Your Husband Earn More

Men know that personal appearance counts in business. Employers are slow to promote shabby employees. Yet, many men are careless about having their clothes pressed. They "forget," and the "forgetting" prevents them from earning the money they are really worth.

Help your husband to look well-dressed, and earn more money. Send his clothes here to be pressed. Our modern Valator method of pressing makes clothing look like new.

"Power Detection"—A True Development in Radio Progress

The overwhelming success of the new Majestic models is easily explained. They embody permanent and necessary improvements in radio design.

Two great problems were the target of Majestic research this year. One was Noise—the constant hum, buzz and whistle that bombard our style radio. The other was Unequal Sensitivity—"fuzzy" reception on low wave-lengths—best range and power—high waves. All radio suffered from these troubles. Majestic attacked these problems with all its great engineering, scientific and experimental resources. Majestic engineers developed the remarkable new feature—Power Detection—a complete solution of the many problems of the detector tube. They invented Automatic Sensitivity Control which gives uniform power and range on all wave lengths. Now the new Majestics are wholly free from every hindrance to natural musical reproduction.

You cannot see it, but you can hear it. No matter what you play, you get it.

Come to our store, see and hear Model 92—or phone today and a demonstration will be arranged.

COMMUNITY GROUP MEETS AT HANSEN

Women of Organization at Session in Church Prepare to Hold Election

HANSEN, Aug. 10.—The Women's Community council met in regular session Thursday afternoon at the church...

C. W. Colner, W. A. Colner and A. T. Colner attended the ram sale at Ft. Wednesday. Colner brothers having several rams among those sold.

Mr. Oliver and family from Eden neighborhood have moved into the home on the C. W. Colner ranch...

Frank Satterwhite, who has been in Texas several months, returned home a few days ago.

Leroy Mathered, who has been working in the wheat fields near Pennington, arrived home Sunday.

Margaret Killman has been a guest the last week of Alice Byram, Hazelton. Mrs. Minnie Dunn, who has been visiting...

Albert Gaspar and Eric Thompson, Portland, Oregon, were here from Wednesday until Thursday with Mr. Gaspar's mother...

Mrs. Addie Hilder, who has been visiting the Frank Brewer family and old friends in Middleton early this week.

Miss Josephine Cameron and Miss Treva Van Hook were guests of Mr. and Mrs. Paul Hagedorn at Kinsey on Tuesday until Sunday this week.

Rev. and Mrs. E. L. White, Idaho Falls, were guests at the parsonage here Wednesday.

Sweet cherries sent from this neighborhood to Duluth, Minnesota, Osaage City, Kansas and Kimberly, California, are reported as having arrived in excellent condition.

Mr. and Mrs. D. A. Hiles and daughter, Winifred, left Friday evening for a camping trip.

Farmers here are busy stacking the second crop of hay, cutting wheat and getting ready to thresh barley.

Miss Thora McLean, Twin Falls, was a guest of Miss Florence Stanger from Sunday until Thursday.

Mrs. E. M. Furman and daughters, Ruth and Hazel, and James Sherrod started Thursday for their home in Lincoln, Nebraska.

Mr. and Mrs. J. B. Lewis entertained at a party given Friday evening in honor of Mrs. Lewis' sister, Mrs. Donald McCall, Wendell.

The Royal Neighbors will hold their regular meeting Tuesday at 8:30 P. M.

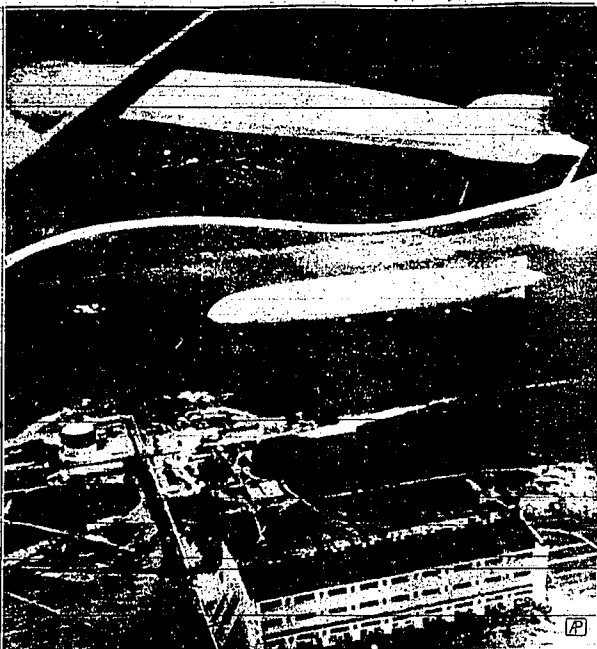

Mr. and Mrs. J. B. Lewis entertained at a party given Friday evening in honor of Mrs. Lewis' sister, Mrs. Donald McCall, Wendell.

Edward Klingeman left on Sunday to resume his work at Fresno, California, after a two weeks' visit at his home here.

He is employed in the engineering department of the Shell Oil company.

The Royal Neighbors will hold their regular meeting Tuesday at 8:30 P. M.

Ghost-Fearing Tribe Shuns Indian as Dead

PAWNIUSKA, Okla., Aug. 10.—(Ho-to-Mole, better known as John Stink, is an exile because the Osage Indians shun him as dead.)

One time John drank too much and became inebriated. A caucus of tripartite elders pronounced him dead and John was buried.

Awakening the morning after his funeral, John freed himself from his grave and set out for his tribesmen's camp, ravenously hungry.

Osage—he was a ghost. They fled in terror and since have refused to recognize him. Now he lives alone with a pack of dogs.

Doctor's Aid War On Disease To Own Will On Dissect

PROVIDENCE, R. I., Aug. 10.—(Compelled to relinquish his medical studies for a year while suffering from paralysis brought on by a little known disease of the spinal cord, Dr. John B. McKenna, Jr., plans to devote the next year to study of the disease of which he was a victim.)

He will collaborate with Dr. Tracy Putnam, Harvard medical school. It was during Dr. McKenna's second year in the Harvard medical school that he was stricken and forced to forego further study until his recovery.

REPLACE COPRA SYDNEY, Australia, Aug. 10.—(The cone of copra has declined so far that planters on the Pacific islands are beginning to put the land into coconuts, rubber and other crops.)

WHEAT HARVEST AT EDEN NEARLY DONE

Louis Couch Produces 90 Bushels of Barley Per Acre On Little Field

EDEN, August 10.—The wheat harvest has almost been completed here this week and threshing of the wheat field will get under way some time during the coming week.

A number of fields of early barley have been threshed. Some good yields of barley have been reported. One in particular, was a nine-acre field that was grown by Louis Couch on the C. H. Helmer farm that averaged 90 bushels per acre.

Dr. H. L. Lish, proprietor of the Eden Pharmacy, is away on a 10 days' vacation.

Mr. and Mrs. John Kober and Mr. and Mrs. Fred Reuber motored to Boise Saturday afternoon where they will spend Sunday visiting with R. F. Reuber, brother of Fred Reuber.

Mrs. Chester Boice is a patient at the Twin Falls hospital where she is recovering from an injury operation performed Thursday.

A number of loads of building material was hauled today to Hillsdale to be used in the construction of a new school building.

During the last week the Eden Elevator company plant here has been under going repairs for the receiving of grain and beans that will soon be placed on the market.

The entire grain department has been thoroughly sprayed and fumigation of the entire plant was being done here today. Machinery for the bean cleaning plant is being installed.

WASHINGTON, Aug. 10.—(The use of airplane fabric for fumigation tents by the citrus industry in Florida and Texas is recommended by the department of commerce's textile division.)

Cotton duck has been used for the same purpose in California but it is very heavy and for that reason of limited value in Texas and Florida. Airplane fabric is strong and light.

The tents are used to cover trees being fumigated for the eradication of insects.

THE CLOCK STAYS PUT MURPHY, N. C.—(The rest of the state can get up an hour earlier but Murphy, only town in North Carolina whose day is regulated by central standard time and not daylight saving.)

The county commissioners apparently were not cognizant of this for they ordered the court house clock moved up one hour. They changed their mind when it brought a storm of protest. Murphy insists on its extra hour of sleep even if it is old fashioned.

Monument Marks Tossing-of-Hoop

KEWAUNEE, Wis., Aug. 8.—(A monument to Ransom A. Moore, an agronomist at the University of Wisconsin, has been erected at his birth place here because he threw a barrel hoop into the air.)

Moore is credited with being the father of the agricultural show course, used in nearly every agricultural college in the land.

Years ago Moore, provided with his barrel hoop, went about talking to farmers about the grain they were losing from injuries of pests and insects. Usually they denied his arguments. Then he tossed his hoop into the air and counted the perfect and imperfect stalks it circled, computing the losses.

TWIN FALLS CONTRACTOR WEBS HAZELTON TEACHER

HAZELTON, Aug. 10 (Special to The News)—William Hoops, Jr., son of Mr. and Mrs. William Hoops of Twin Falls, and Miss Julia Ellingford, daughter of Mr. and Mrs. John R. Ellingford, Hazelton, drove quietly to Burley this morning and were married by a justice of the peace there at noon.

The party returned to Hazelton. After a brief visit at the home of the bride's parents, they left for a honeymoon of a week in the Yellowstone park, after which they will be at home to their friends in Burley.

Mr. Hoops attended the Hollister high school and also attended the University of Idaho for two years. Mrs. Hoops is a graduate of the Hazelton high school and of the Idaho State normal school at Albion, and has been teacher in the Excelsior school for the last two years.

After Rafael Ruiz, Aix-en-Provence, France, had suffered his thirty-third industrial accident, police became suspicious and arrested him on a charge of fakery.

Crippled Boy Goes To Classes On Cot DEARDORN, Mo., Aug. 10.—(For three years Earl Younger, high school freshman here, has gone to school on a cot.)

By the flat on his back he has completed the last two years of grade school work and his first year in high school.

Four years ago he was stricken by a spinal ailment. A year afterwards the plucky boy was taken back to school; his desk a suitcase, which he kept at the side of his bed.

After Rafael Ruiz, Aix-en-Provence, France, had suffered his thirty-third industrial accident, police became suspicious and arrested him on a charge of fakery.

WASHINGTON, Aug. 10.—(The use of airplane fabric for fumigation tents by the citrus industry in Florida and Texas is recommended by the department of commerce's textile division.)

Cotton duck has been used for the same purpose in California but it is very heavy and for that reason of limited value in Texas and Florida. Airplane fabric is strong and light.

The tents are used to cover trees being fumigated for the eradication of insects.

THE CLOCK STAYS PUT MURPHY, N. C.—(The rest of the state can get up an hour earlier but Murphy, only town in North Carolina whose day is regulated by central standard time and not daylight saving.)

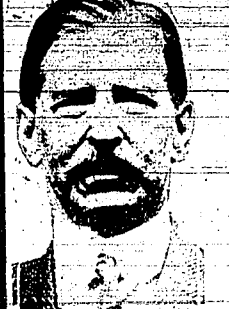

The county commissioners apparently were not cognizant of this for they ordered the court house clock moved up one hour. They changed their mind when it brought a storm of protest. Murphy insists on its extra hour of sleep even if it is old fashioned.

SUB-STATION MARKS SCENIC ATTRACTION

Idaho Power Company's New Installation Flood-Lighted at Night, Show Place

Marking another scenic attraction for Twin Falls as well as assuring continuous and adequate electric service, the new sub-station lately completed and put in operation here by the Idaho Power Company is a structure of the Spanish or California Mission type, built entirely of reinforced concrete and housing modern equipment for handling electric current that enters Twin Falls.

Illuminated at night by flood-lights consisting of four-1000-watt projectors, the new sub-station is one of the Idaho Power Company's most scenic attractions. The station is situated on the northern boundary of the city, at the intersection of Filer avenue and Blue Lake boulevard. It is directly in the line of the main transmission line between Thousand Springs and Shoshone Falls hydro-electric plants. It replaces the old Twin Falls sub-station situated in the middle of town, which had become inadequate and obsolete, and which required the looping of heavy transmission circuits through the streets.

CALIFORNIA MISSION type structure of reinforced concrete, built by Idaho Power company to house modern equipment for handling electric current entering Twin Falls. Illuminated at night by powerful electric flood-lights, the building is one of Twin Falls' show places.

Most Modern Equipment

The station as completed consists of a 44-kilovolt line switching station and a 2750 kilovolt busbar step down sub-station to serve the city of Twin Falls. Inside the station building a 4000-volt double bus, with attendant oil circuit breakers and auxiliary apparatus, is contained in a concrete bus structure. Feeder-voltage-regulators and steel lightning rods are lined up against this structure with direct connections to it. The switchboard is housed in a separate room.

A most striking feature of the electrical installation is the keel switchboards. All vertical wiring on the back of the board is inclosed in a steel gutter at the edge of the board, and only the short horizontal runs are exposed. Automatic feeder reclosing is provided, and the installation is encased in approved respects.

The building rests on a solid rock foundation. It is built of reinforced concrete throughout, including the roof and tracks.

The building was designed by Wayland and Fennell, Boise, and was built under contract by the Ernest White company, Twin Falls.

Twin Falls New Sub-Station

CABINET CAUSE OF GENEVA BREAKDOWN REAR ADMIRAL SAYS

Retired Officer Declares Great Britain's Orders Result in Failure of Armament Conference

(By The Associated Press)
WILLIAMSTOWN, Mass., Aug. 10.—The breakdown of the Geneva naval conference was due to British cabinet orders to England's conference representatives that Great Britain should not retreat from her demand for a total cruiser tonnage of 600,000 tons. Rear Admiral C. L. Hussey, United States navy, retired, said today at a luncheon of the Political Armament Limitation round table.

British representatives at the conference—the admiral said—had maintained that England's geographical position made the number of cruisers a vital question, and had demanded 15 10,000-ton cruisers and 55 smaller cruisers of a maximum tonnage of 7500. This was not true armament limitation, he asserted, adding that other nations had requested a considerably smaller cruiser tonnage.

Scene from "On With the Show" a Warner Brothers Production, with Ethel Walters and the Harmony Emperors Quartet. At the Idaho today.

MAY HEAR COOLIDGE
SUPERIOR, W.Va., Aug. 10 (AP)—A proposal to name Superior Central high school "Calvin Coolidge in honor of the former president, has been submitted to the board of education. Mr. Coolidge, while spending his 1928 summer vacation at Cedar Island lodge near here, had his executive offices in the high school.

TALKIES FOR DEAF
LONDON, Aug. 10 (AP)—So that even near deaf may enjoy talking pictures, London's newest theatre has installed adjustable amplifiers in certain seats reserved for those hard of hearing. By using the simple device, the film fans can "tune up" the players' voices until they hear them perfectly.

The waterpowers of Canada will permit of a turbine installation of more than 41,000,000 horsepower.

SOCIETY AND CLUBS

Mrs. E. B. Williams
Phone 396

The Riverside Social Club met Thursday at the home of Mrs. E. Hansing with Mrs. Archie Quensen as assistant hostess.

After the regular business meeting, the lunch was enjoyed in stunts and games. During the afternoon delicious refreshments were served.

Mrs. F. C. Pierce, St. Louis, Missouri, who is a guest at the home of her daughter, Mrs. E. A. Reynolds, was complimented with a charmingly arranged one-thirty o'clock bridge luncheon Friday at Kimberly, with Mrs. R. O. Wilson presiding as hostess. The guests were seated at one long and two small tables covered with pink roses, other decorative center featuring pink and white motifs. The rooms were lovely with a profusion of sweet peas in pastel shades. There was a dainty gift for the honoree.

Miss Violet Adams entertained with a bridge dinner of beautiful appointments Friday evening at her home on Seventh Avenue North. The attractive centerpiece was a low bowl of nasturtiums, flowers in the center of the table crystal holders held yellow lighted candles and the place cards were in harmonizing hues. Miss Gaedyn Bradley won the favor for the evening and the latter part of the evening was piano selections by Miss Charlotte Vogel and Miss Marcelle Wynn.

Earl Clark and Miss Esther Havens were married at high noon Saturday in the United Brethren Church in this city. The pastor, Rev. C. E. Leidy, in the presence of relatives and immediate friends, the bride was attired in pink crepe de chine and the groom in dark grey. Mr. Clark is associated with the Independent Meat Market. Mrs. Clark is a daughter of Mr. and Mrs. J. W. Havens. They will make their home in field, Missouri; Mrs. P. W. Scott, Twin Falls.

Members of the Kirkman family attended a reunion at Artesian Springs Thursday. Those attending were: Mr. and Mrs. John Kirkman and Mr. and Mrs. Bert Hand, Salt Lake City; Mr. and Mrs. L. G. Kirkman and children; Ruth, Bob, Naomi and Nell; Mr. and Mrs. J. M. Kirkman and children, Lucille and Duell; Mr. and Mrs. Ann Ruth, Beauchamp and Mrs. Theodore Kirkman and children, Don Wesley, Bowen, both of Los Angeles. Four tables were at play. Mrs. Wade Lawrence, Kimberly, receiving the prize for high score.

and Mrs. W. F. Epler, Los Angeles, a two-course supper was served after the games. Gindoll and sweet peas adorned the tables and rooms.

Mrs. W. L. Epler, Los Angeles, was honored with a charmingly appointed bridge supper Friday evening by her sister, Mrs. H. E. Ormsby and her niece, Mrs. J. O. Hansing at the Ormsby home on Second Avenue North. The guests were seated at ten small tables with central decoration of yellow and the delectable menu carried the yellow and white color scheme. The rooms were most attractive with baskets of garden flowers in various shades. Favor for high score was won by Mrs. L. E. Salladay, second by Mrs. Earl J. Cary, Encinites, California. Mrs. Epler was presented with a pretty favor. Other out-of-town guests were Mrs. Earl J. Cary, Mrs. Theodore Bowman and Miss Ruth Beauchamp, Los Angeles; Mrs. A. J. Finke, Mrs. L. V. Bowen and Miss Wilma Eden, Salt Lake City; Mrs. J. W. Havens, Salt Lake City; Mrs. J. W. Havens, Salt Lake City; Mrs. J. W. Havens, Salt Lake City.

Miss Phyllis Mulliner entertained a number of friends Friday evening at her home on Tenth Avenue East with a luncheon party. In the early evening a swim at the nation was enjoyed after which dancing was the diversion at the Mulliner home until midnight, when a two-course supper was served. The rooms were decorated with balloons in orange and white. The guest list included the Misses Norma Mulliner, Edna Bates, Vivian Taylor, Mrs. V. V. Vera, Lola Mulliner, Twila Wray, Wilma Chiar, Valene Tarr, Irene Morrison and Nancy Haddock, Shoshone. The festivities closed with a delicious breakfast Saturday morning.

The Bachelor Girl

At Orpheum Theatre

The excursions at Ocean Park, one of the many shore playgrounds near Hollywood, are usually started during the week in the winter months. Excursions were therefore started when the large company of Columbia's "The Bachelor Girl" a production synchronized with dialogue and music now playing at the Orpheum theatre today, swooped down on them during the film.

At a studio in the city, on scenic railroads, excursions and circuses. Bystanders were shocked when a boat came from a dark tunnel bearing Jacques Logan and William Collier, Jr. locked in a tight embrace, missing each other.

Talking comedies have proved the Open Sesame to larger and better fields of laughing material. Before the advent of the speaking screen, the comedy leaders in pictures had about reached their limit in hush-hush, but now that they have found their voice, their comedies are infinitely funnier than ever before.

UNIVERSITY BULLETIN URGES PROVED STRES

Moscow Publication Points to Economical Method of Improving Dairy Herds

MOSCOW, Aug. 10 (Special to The News)—More general recognition of the merit of proved sire as the surest and most economical means of improving dairy herds is urged in a new bulletin published by the University of Idaho college of agriculture experiment station. The bulletin is entitled "Dairy Herd Improvement Through the Use of Proved Bulls."

It was written by F. W. Atkinson, head of the college dairy department and dairy husbandman with the experiment station; H. A. Matheson, formerly agent in dairying in cooperation with the United States department of agriculture, but now representative of the Holstein-Friesian association of America; and D. L. Fout, field dairyman with the extension division.

Presents Data

The bulletin, which presents considerable data obtained in surveys in Idaho's major dairy regions as well as conclusions obtained elsewhere, takes the premise that "The dairy farmer who obtains the greatest return from his enterprise not only must be a student of feeding and management but also must build for the future by using a constructive breeding program that will increase year-by-year the productive capacity of his herd."

The authors advocate more general recognition of the merit of proved sire as the surest method of herd improvement, concerted effort to save all herd bulls until their value is known, and to prove the bulls as early as possible. This sort of a program, they feel, would be the most constructive type that could be undertaken in Idaho.

Copies of this bulletin in the Idaho experiment series, are available for general distribution among dairy farmers. Queries should be addressed to the college of agriculture, Moscow, or the extension division Boise.

TEMPERANCE UNION AT PAUL ELECTS OFFICERS

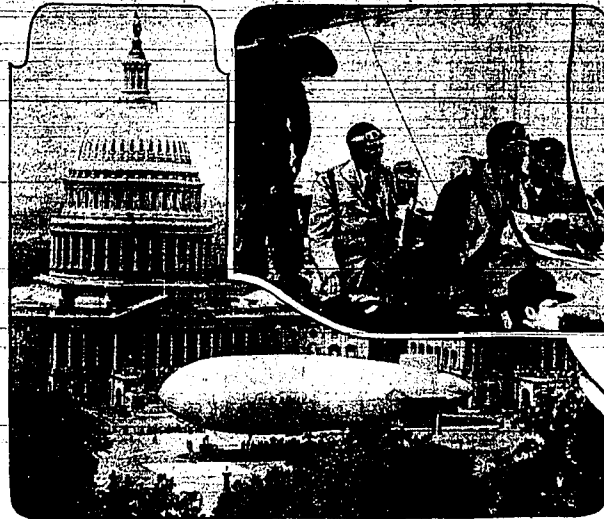

PAUL, Aug. 10 — At a meeting of the Women's Christian Temperance union held here Wednesday afternoon, Mrs. F. J. Toews was elected president, Mrs. Al Hardin, vice president, and Mrs. Hendrickson, secretary and treasurer. The election followed a picnic held in the park.

CLAAR OFFERS PLAN FOR NEXT RAM SALE

Secretary Reports Success of Annual Filer Event; Announces Improvements

BURLEY, Aug. 10 (Special to The News)—A successful sale at the Filer ram auction is reported by Mr. C. Claar, secretary of the Idaho Wool Growers' association.

Larger accommodations for buyers are expected to be provided at the next annual sale, Mr. Claar states. Seats in the auction pavilion were insufficient for the crowd this year.

Among other betterments for the next sale will be a different classification in the order of offerings. The big range pens will be sold following the stud entries, and entries in the catalog will be printed in the order of sale. Next year's catalog, Claar states, will probably be twice the size of this year's. It is also probable that an even more rigid inspection of offerings will be made for next year's sale. Both the "sifting" committee and the inspectors will be more severe in their scrutiny of offerings.

The outstanding event in the auctioning was the sale of a Suffolk stud from the University of Idaho. There were two auctioneers and two ring men, taking bids. When this stud ram was offered the bids came in like rapid fire from light artillery. It is customary for the auctioneers' force to keep the identi-

Royal-Neighbors Hold Meeting at Hollister

HOLLISTER, Aug. 10—Seventeen members of the Royal Neighbors of America society meet at the home of Mrs. A. J. MacDonald on Wednesday evening. Refreshments were served by Mrs. MacDonald and Mrs. F. S. Lloyd.

Nelson Hayward, Willows, California, was a business visitor in Hollister today.

Mr. and Mrs. Harold Williams, Oakland, are the parents of a boy, born recently. Mrs. Williams was formerly Miss Blanch Skeem.

The ladies' aid society of Hollister Presbyterian church held a surprise reception for Rev. and Mrs. John K. Walpole at their home in Rogerson Thursday evening.

of those bidding secret until after the close of bids. Keen interest developed, and when the bidding approached \$800, which may be the highest price on record for a state auction sale, excitement ran high. The ram was finally sold for \$800, and the successful bidder was announced as Laflair and Brockie, Muldoon.

Newest Neckpiece Made Of Dyed Pelt From Fox

PARIS, Aug. 10 (AP)—White fox pelts dyed gray except for the tips of their tails, are the newest neckpieces and threaten to put a crimp in the popularity of silver foxes next winter.

Blue fox also is mounting the fashion scale with the result that prices for the blue skins are going up here.

The dyed white foxes were first shown by a firm in the Paris dressmaking house which advocates them for wear with suits.

As black and white mixtures are hailed as the primary favorites in autumn suiting, there seems little likelihood that the gray-dyed-fox fashion will be dropped immediately.

Mayor Wants Data

BOISE, Aug. 10 (AP)—Mayor James P. Pope mailed letters today to 10 Idaho towns, asking for a record of their municipal expenditures. He intends to make a comparison with the Boise budget and issue a report at an early date.

Police of Two Countries Looking for Hungarian Crown Jewels

REPORTS POINT OUT PRESENCE OF GEMS IN FRENCH MOROCCO

"Hapsburg Treasure" Taken From Vienna in 1927 Subject of Investigation—Ex-Empress Files Suits

By GEORGE HALADJIAN (Associated Press Correspondent) BUDAPEST, Aug. 10.—The "Hapsburg treasure," the Hungarian crown jewels, which were stolen from Vienna in 1927, are reported as having turned up in French Morocco. Police of this kingdom and of France are working on the case.

A member of the ex-Empress Zita's household, who followed the royal family into exile in Brussels, said that these jewels should not be confused with the family jewels belonging to the late Empress Marie-Theresa. This court official said, by jewel-sharps who sold them for less than their real value and squandered the proceeds, leaving Zita and her eight minor children destitute.

The jewels reported to have been found in Africa were those set in the diadem, surmounted by the crown of St. Stephen, which the late Empress Marie-Theresa used to wear on special occasions in the royal palace in Budapest. According to the police report, an Italian offered them for sale to a Jewish dealer at Safi, French Morocco. The dealer informed the police and the Italian was arrested. He is said to have pleaded that he was the innocent tool of persons prominent in the social life of Austria.

Americans Owners

The family jewels form the subject of another story. Large quantities of diamonds, pearls, rubies and emeralds, many of them wedding presents to Zita, have been auctioned in London, Paris and Geneva, and the members of her household who told about them said that some of those gems are being worn by rich Americans who are unaware of their origin.

When Gen. Gaudin in 1918 he and his family were allowed to take only personal jewelry into exile with them. Large quantities of them were sold in 1921 and 1922 by Barron Charles Steiner, master of the late emperor's household.

In 1923 Zita began suit in Switzerland to recover some of the proceeds from these sales. It was charged that the baron had disposed of a number of gems without her knowledge at too low a price and without giving her the benefit of the proceeds. She accused Steiner of embezzlement but the Swiss courts dismissed the action and gave the baron nominal damages of 100 francs.

Sues Jewelers

The ex-empress then turned to the French courts and brought suit against some Parisian jewelers in the Rue de la Paix, the fifth-avenue of the French capital, charging that they had acquired at high prices many of the jewels which baron Steiner had sold in Switzerland. The jewelers rejoined that they had bought the stones in good faith through an intermediary after they had convinced themselves that this agent had full authority to conduct the transactions. They further contended that the purchase money had been duly turned over to Zita. Archduke Max, Zita's brother-in-law, and the princess Marie-Antoinette de Bourbon de Parme testified in behalf of Zita, but again her suit was dismissed.

Shahers of churches in Brescia, Italy, refuse admittance to girls whose clothing they judge too scanty.

Chicago spent \$12,000,000 for new churches in the last six months of 1928 and the first six months of 1929.

Deaf and Blind Pianist Leads Churches' Music

OLATHE, Kas., Aug. 10 (AP)—Olathe claims the world's only deaf and blind pianist in Helen May Martin. Despite her handicaps, Miss Martin has played concerts in public the last seven years. She handles the most difficult selections with comparative ease. On several occasions she has directed church services in Chicago. Atlanta, New Orleans and other cities. Miss Martin also embroiders, cooks and typesets.

CEDARHOLM SOLE OWNER OF STUDEBAKER AGENCY

H. L. Cedarholm has taken over the interests of Fred O. Conant, his partner in the Cedarholm-Conant Motor company, distributors of Studebaker automobiles, and the firm is to be known in the future as the H. L. Cedarholm Motor company, retaining its present business quarters at 259 Main avenue north. The firm entered the Twin Falls field about a year ago when it purchased

the business of Barrett Auto company, Studebaker distributors. With introduction of new models, including three eight-cylinder cars, and recent price reductions, Mr. Cedarholm said last evening, the Studebaker line is attracting a great deal of attention in this district. An eight-cylinder car, he said, seems to be making a strong claim on the interest of people of this region. The Cedarholm company has shown all of the new Studebaker models except the Dictator Six. Some of these cars now are in transit and will be shown here shortly.

The real transport power of Ceylon is the bullock, a little animal no larger than a Jersey calf. The Woolworth building in New York has a daylight population of more than 10,000. One hundred thousand men spent 20 years building a tomb for the family of a Pharaoh. Some of the material used in building the pyramids was brought 500 miles up the river Nile.

The biggest of the pyramids erected by the Egyptians was of granite and limestone. Before the pyramids were built the trick of overlapping bricks had been learned.

Preliminary to the introduction of the new

CORD FRONT DRIVE

By E. L. CORD

ALTHOUGH we have released no advertisements—the general public is aware of this new car's approach, has diversified ideas about it, and has built up extreme expectations. Auburn appreciates the widespread interest in this original type of automobile, but feels we have a responsibility unique in all automobile history. No other manufacturer has ever been in this same position. Auburn has the industry's first production car of its kind, has a favorably expectant world-wide audience, and has the exclusive opportunity to truthfully make claims never before possible for any other motor car.

Therefore this earnest attempt to clarify the situation. We will not introduce the new Cord front-drive car as a "radical revolution." It creates an entirely new place never before occupied by any other car. We will offer it as an addition to our other products, being priced between our complete line of Auburn and Duesenberg cars.

It is Auburn's contribution to automotive progress; it is leadership in the latest automotive development; it is a hitherto unavailable type of car that creates a new place of its own.

But we will not promote it as "marvelous," "sensational" or as, "at last the perfect automobile."

In one respect the Cord is like every other automobile ever built—it is a mechanical vehicle. It differs basically in the application of power to the front wheels instead of the rear wheels.

Although we have no apologies to make for its design, structural strength and efficiency, neither do we claim infallibility, which everyone knows is impossible in any mechanism.

We do assure you it is extraordinarily well built. It is not an untried experiment. It can render you a quarter of a million miles of safer, easier and more economical service. And it has many exclusive advantages that have a decisive appeal to more people than we even anticipated. But, do not expect a miracle!

It is a certainty that the front-drive type of car has come to stay. It is equally certain that other progressive manufacturers must follow Auburn's leadership. And it is also certain that the manufacture of rear-drive cars will continue.

Auburn enjoys priceless advantages through being first, through having a free field in which to try and select all methods, the pick of all engineers such as Harry A. Miller, and unhurried years for exhaustive research and development. The result is a product that is attracting unprecedented orders before it is even put on the market.

Therefore, we hope this advanced statement will counteract exaggerated rumors. The Cord car is not built for speed. It can not do the impossible. It is not "the coming of the millennium." It is a man-made machine with many exclusive advantages that may or may not appeal to you.

We invite you to find out for yourself when this new Cord Front Drive is soon introduced.

JUDGES AT FAIR TO EXPLAIN AWARDS IN EVERY DEPARTMENT

Secretary Outlines Plan for Emphasizing Educational Phases of Annual County Exhibit at Filer

Educational phases of Twin Falls county's thirteenth annual fair at Filer, September 3 to 6 will be emphasized according to a plan outlined by H. W. Graves, secretary, last evening.

Not only will patrons of the fair this year see the results of the judges' work as shown by the exhibits, but opportunity will be given for demonstrations of which judges will be invited to explain their placards and discuss methods making for superior products.

Mr. Graves said that the department has arranged for demonstrations and lectures in connection with the various exhibits in that department and intends to carry this plan into effect in all departments of the fair. We believe that the fair can be made more profitable to its patrons in this means, and we are confident that the specialists whom we expect to see at the fair will cooperate with us in this undertaking.

Indications All Favorable Indications, Mr. Graves said, point to a well rounded fair in all departments this year. All livestock departments are rapidly filling up with prospects, especially good shows of dairy cattle and horses. Popular interest in rabbit raising is reflected, and also in many early entries in these departments.

Thirteen grange organizations have made space for their exhibits in the community exhibits, thus filling up products hall. All prizes have been increased in fruit and farm products, first and second prizes. Market gardeners and a number of individual growers of fruits and vegetables have indicated their intention to enter exhibits.

All available space in the merchants' building which a concrete floor has just been completed, has been reserved, giving assurance of a wide and varied showing of merchandise and farm and home equipment.

Reservations for concessionaires' booths on the midway are virtually completed, with prospects that more space will be demanded for the accommodation of vendors of food and drinks and operators of games of skill.

Next year's fair rapidly response that was entirely gratifying to the committee on the fair. They were available when the sale opened July 7 of these boxes.

Carrying the word of Twin Falls county for neighborhood committees. Secretary Graves and a number of assistants will set out this week on a tour of the North Side and the territory to the east, making generous use of handbills in addition to advertising placards.

ANNOUNCEMENTS

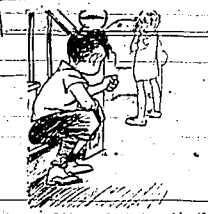

The Junior Women's Christian Temperance Union will meet at the home of Mrs. Frank E. Barnhart on Tuesday, August 13 for a "pot luck" dinner. Please bring covered dishes, sandwiches, cup and fork. Those wishing to attend are requested to meet at the Methodist church corner at 11 o'clock A. M.

Antonia club of the Baptist church will meet at the home of Esther Stockamp Monday. The girls attending are to meet at the Bunkhouse at 7:30 P. M.

Kimberly Grange will meet at the Grange school auditorium in Kimberly Tuesday at 8 P. M.

HAYES URGES FULL USE OF WATER SUPPLY IN FIELDS

Declaring that there are evidences here and there on the Twin Falls project that some farmers are not using enough water for irrigations, though the supply is ample, H. W. Hayes, manager of the Twin Falls Canal company, makes an appeal to all to utilize the means at their disposal and raise the means at their disposal and raise the means at their disposal and raise the means at their disposal.

Speaking of the matter last evening, Mr. Hayes said: "It is pointed out that a number of farms were irrigated this year. With the canals and laterals available, full use is lamentable that the crop should fall in reaching maximum production for want of water."

The operating records of the Twin Falls Canal company show that there has been a shortage of water for 100 per cent and that ample water has been, and is still, available for every acre of the project. It is the trend of the market has been increasing every acre is deserving of a maximum yield.

DEATH CLOSES COLORFUL CAREER OF IDAHO MAN

Last rites for Lewis Elbert Achenbach, Twin Falls resident, for many years, were held in the Grosman funeral parlors chapel here Saturday afternoon and were conducted by Rev. E. F. Ristow of the Methodist Episcopal church. Burial was in the Twin Falls cemetery. A little group of friends assembled at the final tribute. E. O. Reed, Sall Lake City, a brother-in-law who the only relative present. Achenbach's family and his daughter, Mrs. H. W. Laramie, Wyoming, had been here recently on a visit.

Known familiarly as "Baldy," Achenbach had owned one time being proprietor of a card room here and had also been employed as a shepherd. He was said to have gained and lost fortunes twice during his lifetime.

He died here Friday afternoon from pulmonary tuberculosis. He was 51 years old.

TWO WOMEN ACCUSED OF LIQUOR LAW VIOLATIONS

Two women accused of possession, transportation and sale of liquor to patrons of a dance at Declo, were held to answer to the charges in federal district court following arraignment before Judge John E. Davies. United States commissioner, here, Saturday.

The women gave the names of Mrs. May Orndorff and Mrs. May Brigham, 32 both of Albion. They were arrested at Declo by the Cassia county sheriff who delivered them to federal prohibition agents in Twin Falls. In default of \$500 bond, they are held in the county jail here.

ASSESSOR DEMANDS HIGHER VALUATION

S. Claud Stewart Declares Short Time Should Pay Tax on Earnings Basis

On a bank of increased tonnage and carrying the associated valuation of the Oregon Short Line Twin Falls branch, is comparable to that of the Oregon Short Line, Live Oak, Potlatch and Butte, and should be raised to that level, according to S. Claud Stewart, Twin Falls county assessor. The Twin Falls branch valuation now is \$18,000 a mile, Mr. Stewart said, and that of the Potlatch-Butte line is 55 cents per acre. He pointed out that the state board of equalization at its meeting this week will see the force of his argument. He will follow the valuation of the Twin Falls branch to the higher figure.

Several thousand dollars will be added to Twin Falls county's assessment rolls this year as a result of the Idaho Power company construction of the Lewiston-Butte transmission and expansion of its distribution lines to rural districts. Mr. Stewart stated. Valuation of this and other utilities is to be fixed by the state board.

Mr. Stewart will leave today for Boise to attend the state board's sessions.

THRASHING UNDERWAY IN FIELDS NEAR TWIN FALLS

Thrashing is under way in some of the fields around Twin Falls although most of the grain that has been cut is still in the shocks. A few loads of fertilizer wheat and one load of barley have been brought into the Twin Falls mill. It was stated yesterday. The quality of both is said to be excellent.

The grain acreage on the Twin Falls project has fallen slightly this year according to the annual crop report of the Twin Falls Canal company. Wheat acreage fell from 10,000 to 9,700 acres in 1928, a decline of more than 10,000 acres. Barley dropped from 5,051 to 4,183 and corn from 3,169 to 2,945. Oats showed a slight increase, the acreage in 1929 being 1,998 against 1,760 in 1928. Rye of which the acreage in 1928 was 210, dropped to 20 acres this year.

ROCK GREEK LANDOWNER ENJOINS SHERIFF'S SALE

Twin Falls county's sheriff has seized under foreclosure of a mortgage some barley which Robert Brose, Jr., Rock Creek, has owned for some time. Brose, manager, and Brose has obtained an order for injunction signed by Judge W. A. Babcock in district court here Saturday, restraining the sheriff from selling the grain until determination of the dispute.

The grain is alleged to have been grown on Brose's land and this season and is alleged to have been seized by the sheriff under foreclosure of a mortgage given by L. D. Johnson and his wife, Edna Johnson, to R. A. Reynolds last January. The sheriff had advertised sale of the barley for next Thursday.

Defendants named besides E. F. Prater as sheriff are Reynolds and Mr. and Mrs. Johnson.

S. T. Hamilton is attorney for Brose in this action.

All foot troubles. Phone Dr. Foster, 844 adv.

BREVITIES

W. A. Babcock and children will leave today for a vacation at Robinson Bar.

Will Go to Hills—Mr. and Mrs. Lem A. Chapin will leave this morning for a vacation at Robinson Bar.

Will Visit Essey—Mr. and Mrs. H. P. Moorehouse and Mrs. C. R. Sprague will visit Essey, Oregon, and spend several days in the mountains.

On Week's Vacation—Judge and Mrs. W. A. Babcock and children will leave today for a vacation of a week in the Robinson neighborhood. Judge Hugh A. Baker will arrive Friday to hear motions.

Go to Conventions—C. G. Dudley, general agent of the Continental-Life Insurance company, left yesterday for Chicago where he will attend a national convention of the agents of the company.

Start on Vacation—Mr. and Mrs. George W. Gerrish and son, Ellsworth; Mr. and Mrs. O. Taylor and son, George, and Mr. and Mrs. R. H. Whitaker, will leave today to spend a week at Essey Hot Springs.

Leave for Week-end—Miss Helen Wolfe, Miss Lucile Wolfe, and Miss Jean Dinkelaker are spending week-end at Ketchum.

Returns to Berkeley—Mrs. T. C. McCauley and her son, Charles, left yesterday for Berkeley, after a visit with friends here.

Will Visit Yellowstone—Mr. and Mrs. Harry W. Wallace and family plan to have this week for a trip through Yellowstone park.

Here on Business—Nelson Hayward, accompanied by Mrs. Hayward and daughter, Wilma, California, is here on business connected with the Salmon and Oakley irrigation projects.

Back After Visit—Miss Wilma Gilman returned yesterday from Virginia where she visited friends.

Visits Parents—Mrs. R. Kuder arrived yesterday from Birmingham, New York, to visit her parents Mr. and Mrs. F. A. Holmgren.

Will Go to Lava Springs—D. O. Pierce will go to Lava Hot Springs today to assist Mrs. Pierce and daughter home after a vacation there.

Received—Sue McEwen—Mrs. W. J. Taylor received word Friday of the death of her brother in law, Charles Haugset, at St. Paul, Minnesota.

Walla, and Mrs. Martha Lowery, J. E. Lowery and Warner Lowery, Hansen.

Willa Visit Hills—Ted and Zouber Turner, Houston, Texas, are here visiting their uncle, G. E. Turner, and his family, and will spend the summer here. They arrived overland Saturday.

Will Visit Essey—Mr. and Mrs. H. P. Moorehouse and Mrs. C. R. Sprague will visit Essey, Oregon, and spend several days in the mountains.

On Week's Vacation—Judge and Mrs. W. A. Babcock and children will leave today for a vacation of a week in the Robinson neighborhood. Judge Hugh A. Baker will arrive Friday to hear motions.

Go to Conventions—C. G. Dudley, general agent of the Continental-Life Insurance company, left yesterday for Chicago where he will attend a national convention of the agents of the company.

Start on Vacation—Mr. and Mrs. George W. Gerrish and son, Ellsworth; Mr. and Mrs. O. Taylor and son, George, and Mr. and Mrs. R. H. Whitaker, will leave today to spend a week at Essey Hot Springs.

Leave for Week-end—Miss Helen Wolfe, Miss Lucile Wolfe, and Miss Jean Dinkelaker are spending week-end at Ketchum.

Returns to Berkeley—Mrs. T. C. McCauley and her son, Charles, left yesterday for Berkeley, after a visit with friends here.

Will Visit Yellowstone—Mr. and Mrs. Harry W. Wallace and family plan to have this week for a trip through Yellowstone park.

Here on Business—Nelson Hayward, accompanied by Mrs. Hayward and daughter, Wilma, California, is here on business connected with the Salmon and Oakley irrigation projects.

Back After Visit—Miss Wilma Gilman returned yesterday from Virginia where she visited friends.

Visits Parents—Mrs. R. Kuder arrived yesterday from Birmingham, New York, to visit her parents Mr. and Mrs. F. A. Holmgren.

Will Go to Lava Springs—D. O. Pierce will go to Lava Hot Springs today to assist Mrs. Pierce and daughter home after a vacation there.

Received—Sue McEwen—Mrs. W. J. Taylor received word Friday of the death of her brother in law, Charles Haugset, at St. Paul, Minnesota.

California in Berkeley. Her parents, Dr. and Mrs. E. E. McCoy, Monmouth, Illinois, are already here, guests of Mr. and Mrs. Ritchie. Mrs. Ritchie and Mrs. McCoy are sisters.

Big Crop Sure—All who attended the meeting of Amalgamated Technical school, according to Burley Friday night were united in expressing the opinion that the sugar-beet crop in all parts of southern Idaho section will be good and that it is practically made. It was stated by Warren O. Swendsen, district manager of the Amalgamated sugar growers' association, here, Swendsen left last evening for Boise to spend a few days there.

New Standard Manager—E. R. Hopkins has arrived from Pralle, Oregon, to take charge of the management of the Standard Oil company business here, succeeding George M. White, who has been transferred to Yakima as manager for the company. Three Mrs. White, accompanied by her small son, Miss Helen White left Friday to join Mr. White. Mrs. Hopkins will come here to join Mr. Hopkins in a short time.

Leave for Missouri—Mr. and Mrs. Charles F. Brown, accompanied by their grandson, James E. Ancher, will leave this morning for Carthage, Missouri, to make their home. Mr. Brown, who resigned as assistant secretary of the Twin Falls Canal company a week ago, will settle on a small farm in the suburbs of Carthage, Mo. and Mrs. Brown have resided here more than 10 years. They will travel overland through Yellowstone park—the question of Mr. Brown's successor will be discussed at the annual canal meeting Tuesday.

Eighth Grade Failures To Get Another Chance Eighth grade pupils in Twin Falls county who failed to pass examinations given at the close of this school year last evening will be given another opportunity. It was announced at the office of the county superintendent of public instruction last evening.

Special examinations for this purpose will be held in the county superintendent's office here on August 14 and 15.

Buy The... HESSE WAY A Small Payment Down—Balance in Easy Payments Con W. Hesse & Son Twin Falls Diamond Shoppe

DRY WEATHER HURTS BEAN CROP IN NORTH SECTION

There will be a short crop of beans in northern Idaho and eastern Washington this year, owing to the dry weather which prevailed here this summer. In the opinion of Rev. C. E. Lichty, pastor of the Twin Falls United Brethren church, who, accompanied by Mrs. Lichty and her sister, Miss Violet Kelly, returned Friday night after seven weeks spent in the north in connection with the work of the United Brethren church.

Rev. Lichty attended the Idaho conference of the United Brethren church at Southwick, New Potosi, and from there went to Albion, Washington, where he attended the Pacific Coast convention of the church. He then returned to Idaho where he was the evangelist in charge of a three-week camp meeting, near Southwick, delivering the series of sermons at the services. After a brief visit in La Grande, he accompanied by Mrs. Lichty and Miss Kelly returned to Twin Falls. All of the meetings in the Lewiston section, Rev. Lichty stated.

In the Lewiston section in Nez Perce the bean fields on the hills show a very poor yield and will probably not produce more than eight to ten bushels an acre. Rev. Lichty said. In the Walla Walla section in Washington, the Campbell Soup company, has over 10,000 acres planted in beans. These will yield, it is estimated, from 12 to 15 bushels this year, while a full crop there would be from 18 to 25 bushels. Beans here in Great Northern fields, yield from 20 to 45 bushels an acre and in some fields even more.

The bean-growing in northern Idaho and Washington, is the small navy variety and not as large as the Great Northern.

The Luxury of Electric Cooking—Is Now Within Your Reach In fact, you may be astonished to find how economical it will be. We will gladly help you figure just what it will cost you to cook with electricity. Think what a delight it would be to cook with a MONARCH Electric! Always so beautifully clean—and Oh, so convenient. You can put your dinner in the oven, set the regulator, and turn away for the afternoon. The current is turned on—the heat kept uniform—current turned off again, all automatically. The stored up heat finishes your dinner, and you come home to find it hot and ready to serve! Miss Helen Wills Clinches Wightman Cup for America

California Tennis Star Victor After Gruelling Contest

Betty Nuthall, 18-Year-Old British Girl Nearly Upsets Hopes of Queen of World's Best Courts

By ALAN J. GOULD (Associated Press Sport Editor)

FOREST HILLS, N. Y., Aug. 10.—Miss Helen Wills, champion of the Wightman cup for America today, but it took one of the hardest won triumphs of her career to turn back the challenge of her youthful English rival, Betty Nuthall, and regain the emblem of women's tennis supremacy for this country.

For nearly an hour, while a gallery of more than 8000 spectators sat thrilled in the big West Side club's stadium, the queen of the world's courts was played to a standstill by the bounding, impetuous rush of the 18-year-old English girl. Expecting a one-sided victory, the crowd was startled instead by one of the most dramatic battles of Miss Wills' career, as well as one of the biggest upsets of the tennis season.

Queen Helen, finally, by scores of 8-6, 8-4, applying the winning touch in identical fashion in each set, but for 56 minutes of slashing action the American was given the sternest battle she has had in three years.

French Want Chance At Wightman Title

PARIS, Aug. 10 (AP)—French women are exacting anxious eyes at the Wightman cup.

Competition for the cup, the only trophy in international tennis for women, now is confined to the United States and Great Britain.

French women stars have diagnosed the subject and speculated on the possibility of competition, ultimately to determine female world tennis supremacy, on a par with the Davis trophy.

Watchers at Wimbledon in recent years it has been evident that at least half a dozen countries could put strong teams into the field. France has yielded its former supremacy among women players to Helen Wills but has a number of fine players including Mme. Mathieu who played the American champion in the French finale.

In international competition, Great Britain, the United States, France, Germany, Holland, Australia and South Africa might be entered.

The all-round athlete, Senorita de Alvarez, would head any Spanish aggregation. Germany has the pretty little fraulein Cilly Aussem; Holland, Mlle. Kea Bouman, while Australia has her champion, Miss Aklav, Mrs. Boyd and Mrs. O'Neil. South Africa could easily recruit a high grade team from players such as Mrs. Peacock, Miss Heine and Miss Tappett.

Rock Springs Nine Wins Junior Baseball Title

CASPER, Wyo., Aug. 10 (AP)—Rock Springs won the Wyoming junior baseball championship here yesterday, defeating Cheyenne 21-3 in the final game of the tournament sponsored by the American Legion. Rock Springs will represent Wyoming at the Western division at Colorado Springs.

Starman Rock Springs pitcher, allowed only one hit and contributed a home run to the cause.

Rock Springs Nine Wins Junior Baseball Title

NEW ORLEANS, La., (AP)—Homer Renegar, southern sports writer, has joined the athletic department at Tulane University.

Two champions were knocked out in one week. Andrew Routh, featherweight title bout and Jackie Fields put over a knockout on Joe Dundee, the much-abused welterweight champion.

Notre Dame's Football Team Will Not Play at Home this Fall

Notre Dame's football team will not play at home this fall. A new stadium is under construction and all "home" games will be played in Chicago.

Australia Heats Boy Pioneer

MINEUR, Ark., (AP)—A 17-year-old amateur radiolite, W. Schultz, received a letter from C. Jay, another amateur, New South Wales, Australia, reporting that the Phoenix station came in clearly. Schultz was operating on 41 meters.

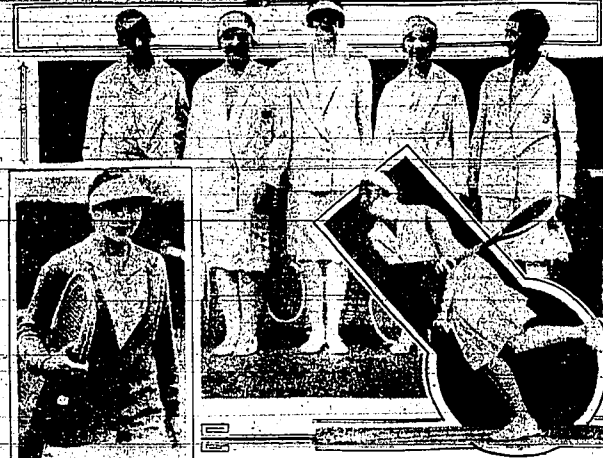

Wild West Interests Science

NEW YORK (AP)—The oldest known pictures in North America are being copied by a team of geologists at the American Museum of Natural History here. They are rock paintings and photographs, rude line drawings, left on cave walls in the Southwest centuries ago by a forgotten race.

The Junkers D.D. Said to Be the Oldest Commercial Airplane

The Junkers D.D. said to be the oldest commercial airplane "to have been" celebrated its tenth anniversary at Berlin.

Players in Wightman Cup Tourney

Helen Wills (lower left) and Helen Jacobs (right), who fulfilled America's hopes in the Wightman cup matches today and yesterday. The British team (above), left to right: Mrs. B. C. Covell, captain; Betty Nuthall, Mrs. M. H. Watson, Mrs. D. C. Shepherd-Barron and Mrs. L. R. C. Mitchell.

Officers Searching For Bulldog, Accomplished Thief Of Golf Balls

NEW YORK, Aug. 10 (AP)—Police today were hunting for "Maslie," a bulldog, said to be the most accomplished "golf ball thief" that ever trotted across Van Cortlandt park links.

"Maslie" was missing, because after biting a detective on an order, police said, from their master—the apparatus of a human something was wrong, and escaped away.

The master, Frank Conroy, of no address, was arraigned in Morristan court today and held in \$200 bail on a charge of having taught "Maslie" to grab the balls and bring them to him in the bushes, so that he could sell them back to the players.

Alaskan Captures Duck With Twin Falls Band

One of the 100 ducks banded by W. R. Friebe here last winter was taken Aug. 10 at Sitka, Alaska, by A. W. Payne. It was stated on a card received yesterday by Mr. Friebe. Another duck banded by Mr. Friebe was taken some time ago in Alberta, Canada. Mr. Friebe states that when she shooting season opens in October 1 he expects reports from a number of others.

Water In Northern Idaho Streams So Low Fish May Die

LEWISTON, Idaho, Aug. 10 (AP)—R. E. Thomas, state game warden, said here today that the unusually dry summer had so depleted mountain streams of North Idaho that fish were in danger and that streams may be closed to fishermen temporarily.

Little Salmon river, he declared, was the lowest he had ever seen it and Salmon river is running little water. Thomas said he had received many requests to close the Big Salmon river. The state fish hatchery at Grangeville had almost lost its water supply, according to the warden, and attendance was controlled with the problem of disposing of 800,000 fingerling trout.

Commenting on the resignation of W. H. Keil, as state fish commissioner, Thomas said a successor to Keil had not been considered.

"We won't fill that position for some time," he added.

Big Plans For War Officials

ITHACA, N. Y., (AP)—Two of the largest airplanes ever constructed here were being assembled and tested. One is for Major General James E. Peche, chief of the army air corps; the other for F. H. "Doc" Thompson, assistant secretary of war for aviation. The planes are valued at \$40,000 each.

Grover Cleveland Alexander Takes Place As Greatest All-Time Winner In History Of National League Ball

PHILADELPHIA, Aug. 10 (AP)—Grover Cleveland Alexander took his place today as the greatest all-time winner in the history of the National league. Old Pete got credit for the 11 to 9 victory of the Cardinals over the Phillies in the second game of a double-header, and he registered the three hundred sixty-third victory of his 19-year career to displace the former mark of the "law" Christy Mathewson.

The gangling recruit of 1911, who single-handedly pitched the Phillies into

Sage Hen Hunters Get Limit of Four Birds

Several hundreds of sage hens that returned last evening declared that they had secured the new limit of four birds. Reports all the way from the Richfield neighborhood to the vicinity of a more distant—while there were many hens, the flocks were more difficult to locate than usual.

The fact that the season opened on Saturday resulted in fewer hunters going out the first day, but many will be out this morning.

Soviet Pilot Ready

SEMION SHESTAKOV has announced plans for a 12,000-mile trip from Moscow to New York via Siberia and the Pacific.

Los Angeles Woman Takes Diving Event

WAIKIKI, Honolulu, Aug. 10 (AP)—Taking her second championship, Georgia Coleman of the Los Angeles Athletic club, won the plain and fancy platform diving event at the closing meet today of the women's national Amateur Athletic union swimming and diving championships. Wednesday Miss Coleman was crowned national high board diver.

Kathryn Brown of the Women's Swimming association, New York, was second, and Ethel Foley, representing the "Obvers" of the "Lone Star" club, was the third. There were no other entries.

Former Big Leaguer Wants Southern Club

CHARLESTON, S. C., Aug. 10 (AP)—LARRY CHENEY, who once was quite a spit ball artist in the National league, is ambitious to own a ball club.

He is conferring with Charleston business men about putting a South Atlantic association club here—Charleston used to be in the league but poor attendance forced it out.

Cheney managed the Pats in 1921 and finished in second place.

Fire Loss In Retreat

NEW YORK (AP)—Evidence that fire losses in the United States are definitely on the down grade after more than a quarter century of warlike in a report by the Underwriters' laboratories. Within the last few years, says the report, the United States has dropped from \$466,000,000 to \$472,000,000.

Incident Of Davis Cup Matches Arouses Discussion In Germany

BERLIN, Aug. 10 (AP)—An incident of the Davis cup matches has untended a nation-wide discussion in Germany when the European zone final match, from Great Britain, when H. W. "Bunny" Austin sustained a wrenching fall which ultimately forced him to forfeit the deciding match to Daniel Penn, the German ace.

Tennis circles now are debating the question of whether a match should continue when one of the players is not in condition physically.

A number of physicians said they favored terminating a match as soon as the physical unfitness of a contestant becomes apparent.

One holding this viewpoint is Dr. Hermann Engel, sports physician for players.

Nine Pocatello Men On Idaho Rifle Team

BOISE, Aug. 10 (AP)—The personnel of the civilian rifle team, which will compete at the national rifle team matches, was announced today at the office of Colonel M. C. McConnell, assistant adjutant general.

The team consists of nine men from Pocatello and two alternates from Lewiston.

Chalmers E. Smith, Wallace, was named team captain. The rest is expected to be at Camp Perry, Ohio, for the national matches between August 25 and September 15.

College Aces Beat Tilden and Hunter

Berkeley, Allison and Gregory Mangin Triumph in Fast Contest With Veterans

By TED VOSBURG (Associated Press Sports Writer)

SOUTHAMPTON, N. Y., Aug. 10.—Under the withering racket fire of a brilliant pair of college stars, Bill Tilden and Frank Hunter went down to defeat today in their first tournament since they returned from the Davis cup campaign abroad.

Dealing sudden death from all corners of the court, Berkeley Bell of the University of Texas and Gregory Mangin of Georgetown, smashed the hopes of the former national champions in a thrilling doubles final by scores of 11-9, 10-8, 1-6, 6-4.

Tournament honors in singles went to Fritz Mercur, Bethlehem, Pennsylvania, who outplayed Johnny Doe, Santa Monica, California, by scores of 6-3, 6-4, in a comparatively colorless encounter.

The match found Mercur, seventh ranking American, at the peak of his game and not even the furious service and aggressive net play of the husky California southpaw could avail against the easy perfection of his strokes.

Allison Rises Rapidly To Fame as Net Player

PORT WORTH, Texas, Aug. 10 (AP)—Four years ago the name of Wilmer Allison, now half of the world's leading doubles team in tennis, was unknown to headlines of Texas papers.

His rise to tennis fame has been meteoric. During four years in high school here the sandy-haired boy was not considered a net star. Not until he entered the University of Texas did he bid for honors.

Allison first sprang into prominence by winning the Southwest conference tennis crown under the coaching of Dr. A. D. Webster, then he won the title he achieved national recognition by winning the collegiate title.

Former Big Leaguer Wants Southern Club

CHARLESTON, S. C., Aug. 10 (AP)—LARRY CHENEY, who once was quite a spit ball artist in the National league, is ambitious to own a ball club.

He is conferring with Charleston business men about putting a South Atlantic association club here—Charleston used to be in the league but poor attendance forced it out.

Cheney managed the Pats in 1921 and finished in second place.

Kauffman Winner Over Soncrant For Public Links Title

Pittsburg, Golfing Clerk National Champion For Third Time After Battle With Toledo Mail Man

By PAUL R. MICKELSON (Associated Press Staff Writer)

ST. LOUIS, Aug. 10.—Curly Kauffman, the somber-faced golfing clerk from Pittsburg, is the national public links champion for the third straight time.

Fighting one of the hardest uphill battles in his brilliant career, Kauffman retained his crown today by conquering Milton Soncrant, the Toledo mailman, 4 and 2, in the final 36-hole match of the national municipal tournament. The match was fought on the Forest park course before a record gallery of 3000.

Catching the champion off his usual game, Soncrant stroked his way to a 3-up margin at the end of the first 17 holes, but from that time on gradually yielded to the nation's municipal links master.

Unperturbed by his opponent's margin, the champion shot almost perfect golf the rest of the course, taking the eighteenth hole to become but two down at lunch, and then forged through to gain a 2-up margin himself at the end of the twenty-seventh hole. From then on he was never headed and ended the duel on the thirty-fourth hole.

Krause Goes to Seattle

KEOKUK, Iowa, Aug. 10 (AP)—The sale of Earl Krause, right-handed pitcher of the Keokuk Municipal valley league team to the Seattle club of the Pacific coast league was announced tonight by Dr. C. R. Logan, president of the Keokuk Fans association. The transaction was not made public.

Mills Valley Boys Team Wins In Legion Contest

PASADENA, Aug. 10 (AP)—Mills Valley won the California championship of the American Legion national baseball competition today, defeating Long Beach, 15 to 8. The victory entitled Mills Valley to enter the area championship competition at Salt Lake City on August 20.

Mark Koenig Finally Convinced Miller Huggins that He was a Better Short Stop Than Leo Durocher

Vandals' Followers Directing Thoughts to Football

Idaho Grid Outlook Good With Calland Directing Destiny

Gordon Diehl, Filer, and Orville Hult, Burley, Mainstays of 1929 Eleven, in Trim for Drive

MOSCOW, Aug. 10 (AP)—Opening of the conference gridiron season on September 15 has attracted the thoughts of Vandal supporters to football. Conjectures about players, styles of play, and football in general are becoming questions of moment whenever Idahoans meet.

News of preparations and plans for the coming season are beginning to trickle into Moscow, headquarters of the Vandals. Coach Calland, who is entering his first year as director of physical education and athletics and head football coach, will arrive on the campus August 15 from Los Angeles, where he has directed inter-mural athletics and coached freshman football and varsity basketball at the University of Southern California for the past two years. He is bringing with him Otto K. Anderson, former University of Southern California track star, whom he appointed track coach on his staff.

Jacoby Coaches Fresh Anderson and Rich Fox, Vandal basketball mentor, probably will be Calland's assistants in the task of molding the Vandal 1929 grid machine into shape. Glenn Jacoby, Bonners Ferry, flashy quarterback, Idaho's great grid center, has been chosen as the freshman grid squad.

Practically all of the regulars who were out for Calland's grid practices will return to the university. Idaho gridiron aspirants are scattered far and wide over the Northwest, engaged in a variety of occupations. Gordon Diehl, Filer, line captain, is getting into condition heaving wheat sacks in a warehouse on the Snake river, and Orville Hult, Burley, backfield captain, is packing chemicals and supplies for a white blister rust crew near Bluff. Others are working on farms in mines and lumber camps. All are engaged in activities that will keep them in trim for the fall campaign.

(By The Associated Press) Jimmy Fox booted his average 2 points to 289 by getting two out of four at Detroit yesterday as Helme Manuwh went hideous against the Senators and fell 3 points to 271. The Ruth got his twenty-ninth home run and one other hit, gaining 2 points to 353. The Standing: O' AB R H Pct. Fox, Athletics, 102 388 82 180 289 Manuwh, Brevis, 107 445 72 165 271 Horstby, Cubs, 105 407 105 147 261 Ruth, Yankees, 81 304 79 168 265 P. Wamer, Pirates, 87 327 79 122 231 Out. Giants, 105 385 100 127 230

Mose Solomon, Columbus semi-prominent last spring when he became a holdout from the ranks of the Canton. Central league club. Mose held his ground until late July before yielding to persuasion.

Tommy Laughran, the best boxer among the big boys, is having more trouble convincing the matchmakers of his value as a drawing card.

Scion Of Oil Family In California Develops Boats For Speed Classics

LAB ANGELES, Aug. 10 (AP)—From putting around with an outboard motor boat, James Talbot, Jr., got an "itch" for developing speed boats which would show the world a thing or two.

The son of an oil family in California, Talbot has just completed two boats which he believes are of superior power capacity and which he hopes to send fame-chasing in the gold cup trophy races at Red Bank, New Jersey, in August and in the Harnsworth international speed races at Detroit in September.

Talbot's latest water conquest was the winning this summer of the Dale of York Trophy at London with Miss Rice III. The Miss Rice is a 341 class speed boat of 51 cubic inch displacement, Ralph Shoddy, internationally known pilot, drives all of the Talbot boats.

The 25-year-old racing enthusiast has spent most of his life at Malibu, California, near the ocean. Several years ago he became interested in outboard motors and has since several of his speed sensations to victory in Pacific coast classics.

Encouraged, he stepped into a bigger class of boats with the Rice, his victory at London followed two years of successful competition at Palm Beach, Mount Don, the lake at Malibu, California, and Havana.

Talbot is reticent about his latest speed demons, Miss Los Angeles I and Miss Los Angeles II. He is driven by two 4-cylinder engines in tandem. It will appear in the Detroit classic.

JAMES TALBOT, JR. Miss Los Angeles II. Miss Los Angeles I is an eight cylinder craft developing 125 horsepower with a super-charger and 1500 cubic inch displacement.

Miss Los Angeles II is driven by two 4-cylinder engines in tandem. It will appear in the Detroit classic.

Brewer Deplores Nocturnal Games

COLUMBIA, Mo., Aug. 10 (AP)—Night football will ruin what for 50 years has been "America's finest college sport," believes a leading director of athletics at the University of Missouri.

Brewer sees the floodlight gridiron as an attempt by "commercial interests to increase gate receipts, which will deprive the game of the color, student sections give it.

"Football to live, must carry college atmosphere and be primarily for college students and alumni," he says. "It undoubtedly will lessen the fine technique of the game to play in at night because football is so highly organized and depends so much on precision, timing and team play.

"It is a mistake for athletic men to boost it. Commercial interests are promoting it because it will draw curiosity seekers and a certain interested public. It is against the fine spirit of a wonderful game played in the open air in the sunshine.

College football is not carried on for the gate, although receipts have helped to build plants and develop other sports. None of the great schools is considering night football. It's just a fad.

"There may be some justification," Brewer says, "in the south where afternoons are too hot.

Cabin Floor Forms Tee For Golf Professional

BATTLE CREEK, Mich., Aug. 10 (AP)—Clarence Chamber, long hitting golf professional of Detroit, played a novel par in a recent pro-amateur match here.

During off-the 375-yard seventh hole tee, Chamber's club went through the doorway of a log cabin in the woods.

Opening a window, Chamber pitched through to the fairway and sent his third so near the pin he holed in four.

Young Indian Shows Qualities Of Thorpe

LAWRENCE, Kas., Aug. 10 (AP)—One of America's finest all-around athletes at the track and field was unceremoniously another champion at Denver, in William Charles, 19-year-old Oneida Indian of Haskell institute.

"Long Star" Dietz, Haskell's football coach, regards Charles as another Charles Thorpe, and predicts that within two years, the six-foot, 185-pound youngster will be in a class by himself. He is only a sophomore.

Charles' father was a four-letter man at Carlisle. The son already has proved to be one of the hardest hitting and versatile backs a Haskell football team has known. He can do everything with a football, and is unsurpassed as a kicker.

Until he injured his left ankle in the Amateur Athletic Union decathlon, Charles was in front for the championship. The injury slowed him up, but he finished the remaining events in great pain and was third in a field of 10.

By far the eastern stars—Sun Beau, Osmond, Sun Edwin, D'Alary, Mistepe, usually the favorite at 3 to 5 or even money, went to the post on 8 to 1 shot. The old Western champion Mistepe has won thousands of dollars from his followers but they gave him the

Winner At 17

Phyllis Buchanan

DENVER, Colo., Aug. 10 (AP)—Nothing but praise has come to Miss Phyllis Buchanan, 17-year-old Denver colfer, since her elimination in the semi-final round of the women's trans-Mississippi tournament here.

The Denver star carried Miss Marion Turple, New Orleans, to the twenty-second hole before a bad fall cost her a chance to play Mrs. O. S. Hill, Kansas City, in the 30-hole final.

Miss Buchanan's game is notable for its consistency and there isn't a woman player in the Rocky Mountain region who can beat her regularly. Those who saw her play in the trans-Mississippi tournament—predile—she will be among the country's leaders within a few years.

Rabbit Maranville, at 37, is one of the best shortstops in the National League.

Eight Grid Veterans Returning To Albion

Normal School's Powerful Eleven May Open Season Against Twin Falls Team

ALBION, Aug. 10 (Special to The News)—Albion state normal school's football prospects are considered brighter this year than in any other time in the history of the institution.

The optimism in the teacher camp is due, largely, to the fact that eight men who earned their letters on the gridiron intend to return for the fall campaign.

School opens September 9, and if present plans work out the team will receive its first test against the Twin Falls high school Bruins on September 22. Games definitely scheduled are as follows:

October—University of Idaho; Southern branch, at Albion—November 2—Ricks college, at Albion; November 11—Weber college at Ogden. An attempt is being made to obtain a game with Lewis normal and other schools.

Three veteran backfield players returning to school this year are Perrins Hatch and Crouse, R. Wilson, Thomas, and King, tackles, T. Buhler, center, and Moore, guard, are the other players expected to be in the team's lineup once more.

One Way of Giving the Wife a "Break"

fine—being much better tires than the average driver actually needs.

But because they wanted to wipe out any apprehension of danger or annoyance where their wives or families were concerned, they felt that even the best was none too good.

Specifically, the GOODYEAR DOUBLE EAGLE TIRE is a stronger, heavier, handsomer tire than the world has previously seen.

Its deep-cut, sure-footed tread is double-thick, and virtually immune to puncture.

So stout and sinewy is its matchless Supertwist cord body that the odds against a blowout are perhaps 1000 to 1.

The men charged with its development and perfection were free of a cost limit or specification of any kind.

They were told simply to produce "the tire of tires," and they succeeded magnificently.

That is why you will be giving your wife a "break" and yourself an experience in travel luxury, once you put these SUPER tires on your car.

MOVE AGAINST MAN'S CONVENTIONAL GARB STARTS IN CITIES

CHAMPIONS OF CAUSE FOR LIGHT GARMENTS CARRY ON CAMPAIGN

Main Street Undisturbed, But Males of World's Metropolitan Centers Hear Urge for Comfort

(By The Associated Press)
NEW YORK, Aug. 10.—A call to throw off the shackles that have bound the male to conventional garb has been sounded. More man, usually represented as more scornful than envious of the approach of the pony-vested garb for the so-called vain sex, now finds himself exhorted by self-appointed champions to rise in rebellion against the burdensome garments that have weighed on his shoulders for centuries.

Thus far the unruffled calm of Main street has been undisturbed, but in the great metropolitan centers of the world—New York, London, Paris, Berlin and Chicago—males have heard the belligerent of brave souls suddenly aroused by man's sartorial enslavement. Their potential emancipators have gained few followers. But they are not downhearted. Some would change the male frame in pajamas of multicolored design, with a swanky cut and set off by a tie or a belt. These two-piece costumes would supplant the heavier and more cumbersome apparel which the lace-trimmed suit such fortune.

Expose knees
 Others more conservative probably taking their cue from the golf links and the tennis court, would uncover the long hidden masculine knee. To the breeze, expose his Adam's apple and free his bony elbows from encasement.

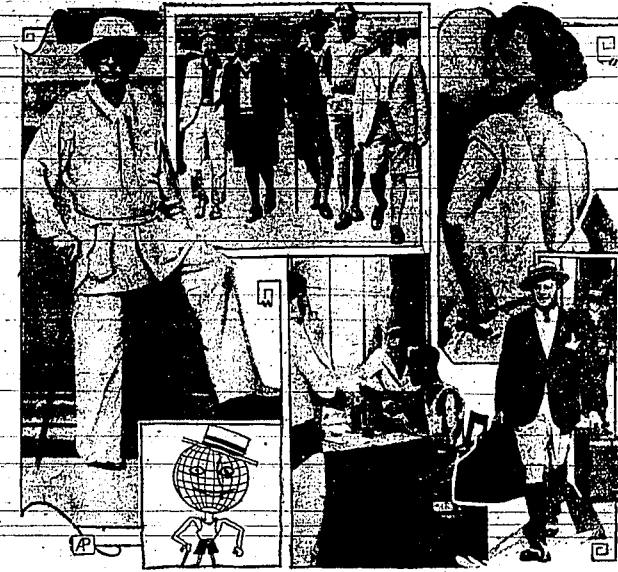

To accomplish this revolutionary step they would have men don shorts reaching just above the knee, and sport shirts with collars open and sleeves and also complete the costume.

The men of London, Paris and Berlin have been urged to adopt the shorts and reverberations of the call for a war on male dress have reached American shores.

In New York and Chicago, fearless intiles have expressed their scorn of convention by appearing in pajama costumes on its thoroughfares. Apparently they have been undismayed by the tenor of interest in their garb.

More Comfort
 All of these champions of male freedom in dress contend that men should no longer suffer in stifling weather but take their cue from the opposite sex, which, though pictured as weaker, has shown far more courage and independence. More comfort and less clothes is the watchword.

Some time midday's four-pound costume may be matched by men's garments but right now most of them seem content to bear up under their 10 pounds of clothing. But who can predict what the future may bring?

Champions have appeared to free man from his heavy garb in warm climes, on both sides of the Atlantic. On the left is W. O. Saunders, Elizabeth, North Carolina editor, as he strolled on Fifth avenue, New York. In bathing suits, men found relief in Berlin from heat (center below). Short trousers and shirts with open necks are worn in London (above), and in Chicago. Upper right is girl showing low necked back that was banned in a Florida school.

Kansas Town Claims Largest Cooperative

COPELAND, Kan., Aug. 10.—Two Kansas towns have settled their rivalry, temporarily, for an claim to the world's largest cooperative grain elevator. Copeland, with its newly completed wheat storage plant, has won. Copeland's cooperative equity exchange outdistanced a similar organization in the nearby town of Fowler by building a new elevator, providing added storage capacity for 175,000 bushels of wheat.

This skyscraper of the plains gets its business from 150 members who have more than 6,000 acres in wheat. This year they expect to ship 100 carloads of grain, 100 more than was handled last year.

Mergers of Iron Range Railroads New Proposal

DULUTH, Minn., Aug. 10.—A merger of two northern Minnesota railroads owned by the United States Steel corporation, important factors in the development of the iron ranges of this section, is being sought.

The application to the interstate commerce commission asks that the Duluth Iron Range railroad be permitted to lease the Duluth, Missabe and Northern.

The merger would involve 5,000 employees.

Dallas Mayor's Reforms Favor Blue-Shirt Class

DALLAS, Texas, Aug. 10.—J. Waddy Tate, the "hot dog" mayor of Dallas, favors blue-shirt classes in his reforms.

He has removed spikes from the city-hall-railling-so-called "common people" may sit down. "Keep off the grass" signs in city parks were destroyed at his order.

An ordinance to provide a city defender, who would be employed in police court as free legal counsel for vagrants, traffic violators and peace disturbers, is his latest proposal.

Mergers of Iron Range Railroads New Proposal

DULUTH, Minn., Aug. 10.—A merger of two northern Minnesota railroads owned by the United States Steel corporation, important factors in the development of the iron ranges of this section, is being sought.

The application to the interstate commerce commission asks that the Duluth Iron Range railroad be permitted to lease the Duluth, Missabe and Northern.

The merger would involve 5,000 employees.

Potash Fertilizer Aids Alfalfa Crop

MACLEONA, Mich., Aug. 10.—Dan Makiel, sand land farmer, has discovered a way to make two blades of alfalfa grow where only one would have grown.

Last summer he gave a new seedling a light top-dressing of phosphate-potash fertilizer, leaving a check plot. There was a sharp contrast between the fertilized plots at haying time in July.

Makiel cut 6745 pounds of alfalfa per acre, green weight, from the unfertilized plot, while the part of the field receiving a straight 10 per cent superphosphate top-dressing cut at the rate of 10,000 pounds of green alfalfa per acre and the phosphate-potash plot yielded 13,620 pounds per acre. The dry weights were about two-fifths of the green figures.

The crop from the phosphate-potash plot was almost twice as heavy as the unfertilized crop.

More striking results were obtained where an old seeding of alfalfa was given a light top-dressing of phosphate-potash fertilizer in the fall. Makiel cut 1640 pounds of green alfalfa from an acre of the unfertilized plot while the fertilized tract yielded 4,620 pounds an acre—almost three times as much as green hay.

Jackrabbit Furs Bring Hunters \$20 Per 200

COMANCHE, TEXAS, Aug. 10.—Although he is just a "bit" opposite with four legs to carry it around, the Texas jackrabbit is worth \$20 per 200.

Hunters have found they can sell the skins for the manufacturers of felt hats, at 75 cents a pound or 10 cents each. An expert can skin 200 a day.

Nevada Dairy Owners Bury Silage in Straw and Earth

ELKO, Nev., Aug. 10.—Inexpensive "trench" silos are popular with Nevada dairymen. They are dug as the same manner, filled with silage and the silage covered with straw and the straw with earth. Some do not even use the straw packing.

V. E. Scott, extension dairy specialist, says cattle must be fed silage liberally at least during the low of milk. The fact that corn does not grow well in the state should not eliminate the practice, he says.

SUNSPOTS AND SUNBURN SEEM CLOSELY RELATED

PASADENA, Aug. 10.—Although sunburn is a summertime complaint, the ultra-violet rays that cause it are not confined to summer.

They are not even necessarily most numerous in summer although in earlier winter atmosphere tends to exclude them. Measurements of this sunburn light at Mount Wilson observatory since 1924 show fall and winter maximum periods. The highest figure was in October, 1925, the next highest in February 1927 and the minimum value in September, 1928.

Dr. Edson Pettit of the observatory, in a report to the American Association for the Advancement of Science, says that the factor controlling the volume of ultra-violet rays is sun spots.

GREATEST BUTTER EATERS
OTTAWA, Aug. 10.—Canadians, with a per capita consumption of 29.31 pounds per year, are the world's greatest butter eaters. The government butchery of statistics says also that the consumption in the United States is 19 pounds per capita.

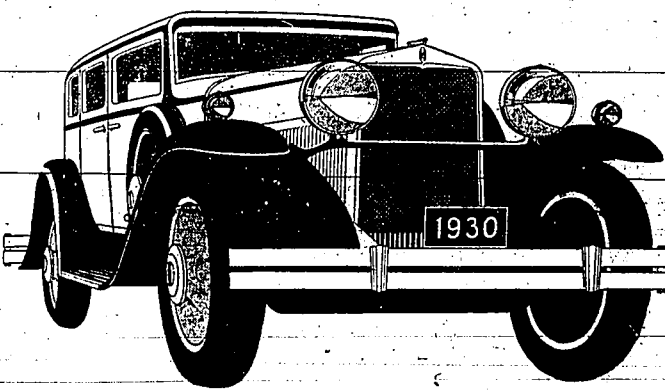

Detroit Man Buys Last Lindbergh Mail Plane

ST. LOUIS, Aug. 10.—The last of the old Lindbergh planes used by Colonel Lindbergh and Phil Love to open the Chicago-St. Louis air mail service has been sold.

George Anderson, Detroit, bought the ship from Joe Read, sales manager for the Universal corporation.

HOOVER'S TEACHER MAKES BAKER QUIT TELLING OLD YARN

Mollie Carran Puts Stop to Lunch-Room Proprietor's Story of "Licking" Nation's President

THE OBSERVER GOES A-VISITING
By SUE MENAMARA
(Associated Press Feature Writer)
WEST BANGOR, Iowa, Aug. 10—Mollie Carran, President Hoover's old school teacher, still has control of her "boys."
She has made Newt Butler, sinewy proprietor of a small lunch room here, quit telling around the country how he once "licked" Hoover. Carran was a pupil of Mrs. Carran's, too.
She told me about it at her quiet little home here where white-butterflies flit above the petunia beds.
"You know, I acted terrible when a talking movie concern took pictures of some of West Branch folks," confessed Mrs. Carran.
"The director wanted Newt Butler and me to do a scene. He wanted me to lecture me, then I was to say I understand politics. He had the camera on me."
"I wouldn't do it," she said. "The director looked scared and dropped the subject. Maybe he just wanted to see how they were boys, but there's no use in talking about that now."
Tells of Experience
When the two returned to West Branch, the director "bumped" the teacher in her black silk dress, and Butler, her former pupil, were invited to surrounding towns to tell about their experiences.
"Klwanis and Lions' clubs and Girl Scouts listened eagerly. But Butler refused to continue from any further reference to the "licking" episode, although in one town where they asked him to repeat the incident he said the President himself had laughingly admitted the affair.
"The quaker village where President Hoover was born was peacefully in its well earned glory. 'Newt's Place' has gained such notoriety that tourists from almost every state in the Union have flocked against his shining counter to eat home-baked ham sandwiches and drink pop and ginger ale.
The town hotel has been renamed the "Hoover." Besides the one traffic light at the main street intersection a sign points the way to the little house where the President was born.
Erect Tablet
A big granite boulder has been set in front of the house. The Iowa City chapter of the D. A. R. will place on it a bronze tablet and hold dedication ceremonies.
Mrs. Scellars, who served breakfast to the President and Mrs. Hoover last summer, still lives in the little house. Twenty thousand persons have registered in the guest book on her front porch. Mrs. Scellars seems to be always at home and always attired in a crisp fresh gingham dress and a white apron.
A reproduction of the old Hoover home will be shown at the Iowa state fair in August and Mrs. Carran is to preside over it. She laughs as she tells how the state fair committee is even planning her costume. It will be brown satin with a white kerchief about the neck reminiscent of the quaker costume.

Chance for Gay Debut Lures Many Families to Washington

EMISCHA GALE DAVIS (left) will be presented to capital society this season by her parents, Mr. and Mrs. Percy Hamilton Davis, who have been living abroad and have now taken a home in Washington. Miss Clara Holling (right), daughter of Mr. and Mrs. Wilmer Holling of Washington and niece of Mrs. Woodrow Wilson, is a deb of national interest.

By SUE MENAMARA
(Associated Press Feature Writer)
WASHINGTON, Aug. 10 (AP)—Washington is rated so socially desirable that a few wealthy families with no business necessity for living elsewhere establish homes here for the time of their daughters' debuts draws near.
Some of the reasons are old world glamour, courtly customs encountered at embassy functions, the brilliance of White House affairs and the presence of figures of national and international renown.
A tea for all the debutantes opens the season. Here the girls meet each other and get acquainted. Mrs. Helen Ray Hagner plans her get acquainted tea for the debutantes this year the latter part of October. The high spot of the season will be the Christmas night ball attended by all the debutantes and their parents and guests from Annapolis and West Point.
Mr. and Mrs. Percy Hamilton Davis this fall will present their daughter Emischa Gale, to society. Miss Davis has been studying in Europe.
Mrs. Eric Swenson, Colorado Springs, has bought a home here. Her daughter, Margaret Swenson, is among the season's debutantes. A Baltimore girl, Miss Margaret Stringer, will have her coming out party in Washington. Her parents, Mr. and Mrs. W. P. Stringer, Jr., have moved here recently.
A debutante of national interest is Miss Clara Holling, niece of Mrs. Woodrow Wilson. She is the daughter of Mr. and Mrs. Wilmer Holling of this city.
Among the congressional debutantes are Miss Janet Ball, daughter of Representative and Mrs. Henry Watson, Pennsylvania; Miss Florence Curry, daughter of Representative and Mrs. Charles P. Curry, California; and Miss Star Barton, daughter of Representative and Mrs. Barton.

MEDALS AWAITING KIN OF WORLD WAR NURSES

WASHINGTON, Aug. 10 (AP)—The American Red Cross is seeking relatives of 14 nurses who died during the World War, in order that medals and citations can be given them.
The names served in various the Army or Navy nurse corps and died in line of duty or as a result of disabilities contracted during their wartime service.
For the last 10 years, the Red Cross has made an effort to locate the nearest kin of these nurses but without result. If the relatives cannot be found, the medals will be presented the various training schools from which the nurses were graduated.
Anandhapur was the seat of government of Ceylon in the 6th century before Christ.

SUPERIORITY OF SEX NOT YET DETERMINED

MEDFORD, Aug. 10 (AP)—Men have led in great achievements in the past, says Dr. Abraham Myerson, professor of neurology at Tufts college, not because they were superior to women, but because women were so handicapped with restrictions they could not compete with men.
No one, he now contends, can judge which sex has the strongest powers until all the hampering influences which are being removed from the lives of women are entirely eliminated.
The standards of beauty have changed, according to Professor Myerson. The bright, talented, educated woman is the woman of beauty today, rather than the clinging vine type.
The song "Aloha Oe" was written by Queen Liliuokalani of Hawaii in 1879.

WOMEN GAIN STRONG FOOTHOLD IN OFFICES

Fairer Sex Sweeps Into Almost All Political Posts But Lieutenant Governor

WASHINGTON, Aug. 10 (AP)—Women have swept into nearly every political office except that of lieutenant governor and attorney general since they acquired the vote in 1920.
A survey of women in public life has just been completed by the National League of Women Voters. It shows women holding important jobs in virtually every field.
Miss Annie Matthews, serving her second term as registrar of New York county, receives one of the largest salaries paid a woman—\$12,000 a year. Miss Genevieve Gilie, associate judge of the United States customs court at Ohio, gets \$10,000 a year and has a life commission.
Caryll W. Hoffman, South Dakota, is the only woman state deputy game warden in the United States, but women are serving as assistants to Wyoming, Michigan, New Jersey, Florida and California. Five states have had women sheriffs: Kansas, Ohio, Michigan, South Dakota and Wisconsin.
Two governors and six secretaries of state have been women. Each year marks the election or appointment of more and more women on state commissions and boards. All down the line to county and municipal jobs, the survey shows that "votes for women" is not an idle phrase.

Among the outstanding office holders in the federal government are Miss Grace Abbott, chief of the children's bureau of labor; Miss Jessie Bell, member of the United States civil service commission, and Miss Mary Anderson, director of the women's bureau, department of labor. There are many other women holding responsible appointive offices.
There are four female collectors of customs: Mrs. Nellie Green, Tamuning, district of Iowa; Mrs. Jeanette Hyde, district of Hawaii; Mrs. Jennie P. Musser, district of Utah, and Mrs. Eddie McCall Priest, district of Tennessee. Mrs. Myrtle Tanner Blackledge is collector of internal revenue in Chicago.

Five women have passed the state department examination for foreign service. Three are acting as trade commissioner abroad for the department of commerce. Thirteen have been sent to congress—there are at present 149 women legislators. Women are serving as mayors in a number of smaller cities. Several judges of municipal courts are women.

Our Helen Shows Long Skirt

WHEN HELEN WILLS returned to the United States, her skirt somewhat longer than the accepted custom, attracted attention. She is shown in a tailored beige frock, with hose and sun-bleached oxfords to match. Her hat is of the cloche type. With her is shown Miss Betty Nuthall (right), the English tennis star, also modestly dressed.
Myrtle Tanner Blackledge is collector of internal revenue in Chicago.
Five women have passed the state department examination for foreign service. Three are acting as trade commissioner abroad for the department of commerce.

BEACHCOMBER STYLE SUITS SUN-BATHERS

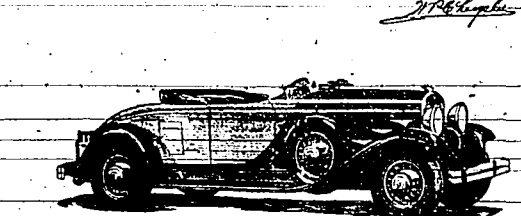

Noted Designer Favoring Comfort and Carelessness in Costume for Beaches

By BARBARA BEAUFORT
(Associated Press Fashion Editor)
PARIS, Aug. 10 (AP)—Comfort and carelessness in undress costume for the beach bather have a champion in a well known designer of sport clothes.
This designer's last minute effort for sand ensembles is baggy trousers, loose sleeveless coat and a housed hat.
Since sun bathing outdoors is sea bathing this summer and not all would-be smart people have smart figures, the beachcomber suit, with its protruding coat, its comfortable baggy and sun-baked jersey top, supplied by the bathing suit underneath, is far and away, the favorite with the holiday maker.
Dark blue, black and printed shantung are made up in the beachcomber style. Many women are ordering stitched linen hats, made on "barefoot boy with cheeks of tan" ideas, and between hats and backless sunbaths some of the smartest beaches look like the old swimmer's hole when the gang's all there.
Another step forward in the careless elegance movement is the non-rumpling materials from which the beach costumes are made. There is plenty of old-fashioned dark blue and brown denim in use at the exclusive sport shops. Some of the beach models are of soft mohair or light-colored linen, which neither creases nor spots with salt water.
The sale of striped cotton umbrellas is being pushed by the continued popularity of beige. The proper umbrella—according to latest ideas, is not too large for one but big enough to provide shade for two.
The favorite carry-all for the beach kit is a big chudette with ribbon ties, equally useful as bag or headgear.
Rubber beach shoes which imitate the appearance of canvas shoes, are worn.
Wooden umbrellas which match bracelets, worn by the half dozen in brilliant contrasting colors, are the last word in beach ornaments.

3 NEW CHRYSLERS

NEW FROM THE GROUND UP - IN PERFORMANCE, CONTROL, LUXURY & BEAUTY

FIVE years ago the first Chrysler car revolutionized automobile design, performance and style. Our corps of great engineers now present new cars even more sensational by today's standards than was the first Chrysler. I can sincerely say that in all my experience there has never before been accomplished such outstanding and revolutionary engineering improvement in any single era of motor car advancement.

Germans Object to Drink Of Diluted Hard Drinks

BERLIN, Aug. 10.—Germans who like their liquor have are protesting that the new excise law makes their whiskey prices for water. The law went into effect June 1. It not only raised the tax by 50 cents to \$3 per gallon, but reduced the legal minimum of pure alcohol in spirits from 35 to 32 per cent.

BUHL LEGION NEARS BUILDING OBJECTIVE

Fund, Raised By Popular Subscription in West End, Now Totals \$7062.50

BUHL, Aug. 10—Bids will be let in the near future for the proposed American Legion memorial building, which is to be built on the site of the old store on Broadway, at an estimated cost of \$12,000. The building fund has reached a total of \$7062.50.

Three rock walls of the old building which burned several years ago are to be used and a new front will replace the old one. The walls are to be raised four feet and the roof is to be of the Lamella type.

Rooms will be provided in the upper story which is to extend back from the street for 30 feet, for the club rooms of the Legion and Auxiliary. The main floor is to be used as the drill room for the National guard.

Harold Hyde, Harlan Sec. Glen Taylor, Chester G. A. Divilbiss, and Lawrence Van Riper compose the building committee, co-operating with Dr. J. G. Venter, Leonard Ahmquist, and Leslie Nelson as the advisory committee. Glen Taylor is serving as president of the newly incorporated American Legion building organization with Harlan Sec. vice president and Harold Hyde secretary and treasurer. Funds for the building have been raised by popular subscription.

Mrs. C. J. Oliver, Frank Pospisil and Gustav Kunze, West End members of the Idaho-Oregon Turkey Growers' association met with Mrs. C. C. Brink, Boise, secretary of the association, recently in Buhl to discuss improved plans for marketing and grading of birds to be sold through the organization. Mrs. Brink stated that there are 50 association members in Twin Falls county at the present time. The Idaho crop of turkeys is approximately the same as in 1928.

Buyers from Eastern markets are in the field for the Thanksgiving crop, Mrs. Brink states.

Plans are being matured for the Idaho national turkey show at Boise, December 16-20 when Dr. Billings, St. Paul, Minnesota, noted turkey expert of the University of Minnesota will deliver lectures on turkey raising without disease.

A. D. Walker, Memphis, Missouri, will act as "judge of the exhibits and the show will be managed by Frank Keenan, manager of the Ada county fair. It is expected that a number of prize winning birds will be exhibited from the West End.

Mrs. Ruth Yeaman, police judge, reports, \$122 in fines paid into the local police court treasury during the month of July with 50 red tickets distributed for traffic violations. There were four arrests for drunkenness, one arrest for reckless driving, and one for felony which was transferred to the probate court.

Mr. and Mrs. Frank Rhoda have moved to their newly built home on the state highway east of Buhl.

Maurice Kellier, formerly of Twin Falls is the manager of the T. F. Willis Variety store which opened here Saturday in the Brennan building. A similar business has been conducted in Twin Falls by Mr. Willis for a number of years and the Buhl store is the first in a proposed chain.

W. E. Luntz, residing southeast of Buhl, reports a yield of 80 bushels of wheat per acre from a 10-acre field.

Mr. and Mrs. Ralph Volght, Eversport, Nebraska, are guests here of Mr. Volght's brother, A. C. Volght. They will go to Salem, Oregon for a visit with relatives before returning home.

Miss Florence Allen is visiting her brother, H. M. Allen, Huntington, Oregon, and friends at Hal Lake, Oregon. She will return to Buhl September 1.

Miss Edna Weeks and Miss Mamie Grace, Denver are guests of Mrs. C. O. A. Divilbiss.

Mr. and Mrs. Truman Boyd and small son are guests of Dr. and Mrs. J. H. Murphy.

Mrs. G. F. Howe, Salt Lake City, has joined her husband here to make their home. Mr. Rowe is manager of the Reed's Five-Way store.

Miss Helen Ahlquist is spending several weeks in Spokane as the guest of her uncle Dr. T. M. Ahlquist.

Mr. and Mrs. J. F. Hunt are touring Yellowstone park in company with Mrs. Hunt's cousin, Mrs. Peter Hugstins and two daughters, Philadelphia.

Mrs. Joseph Maschek and daughter Viola are spending several weeks at their former home, Sydney, Nebraska.

Mrs. Etile-Walters-Schlwater-Oklahonda is the guest of her sister, Mrs. Charles Skinner, Corning, California are also guests in the Skanner home.

Mrs. A. S. Maden is critically ill in a Twin Falls hospital.

The Deep Creek bridge club met for one of their luncheon Wednesday with Mr. and Mrs. Ernest Molander. Three tables were in play with high score going to Mrs. W. A. Thompson and Andy Weeks and the consolation to Mrs. C.

Graf Passenger

MORRIS SHUMOFSKY, Bridgeport, Connecticut, who made the return trip to Germany on the Graf Zeppelin

Serves Farmers

C. O. MOSER, Dallas, Texas, chairman of the American Institute of Cooperation, heads the organization committee for the National Chamber of Agricultural Cooperatives.

H. Taylor and Mr. Thompson. The next meeting will be with Mr. and Mrs. Thompson.

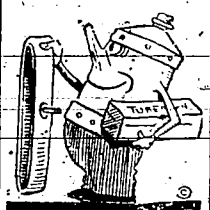

Mr. and Mrs. George Marshall have gone by motor to Nebraska, where they will spend a month with relatives.

Mrs. Ed DeMoss, assisted by Mrs. Staats was hostess to the last meeting of the Cedar Grove club, at which Mrs. B. F. Buffington, president gave an interesting report on the women's vacation camp at Oyster Hot Springs. Hot call was answered with "Vacation Trips in Idaho." Daily refreshments were served of 21 members and three guests.

Mrs. Keith Jenkins, Mrs. Cobb and Mrs. W. M. Sample. The next meeting will be a children's picnic in the city park, August 22.

Early registration of entries in the rabbit and poultry department at the Piler fair is urged by Mrs. Gordon Bennett, Buhl, who will be in charge of the department, this year. Mrs. Bennett, who has one of the largest rabbitries in the West End states that a new breed of fur rabbit the Angora Wooler, will be exhibited this year. French Giants, New Zealand and Chinchilla will also be featured. Mrs. Bennett raises the Chinchilla. Other West End raisers who are also members of the Twin Falls County Rabbit Growers' association include Blitchee brothers who specialize in Chinchillas.

QUOTATIONS REBOUND ON MARKET FOR STOCK

Previous Day's Torrent of Selling Appears to Have Wiped Out Weak Holdings

MARKETS AT A GLANCE

NEW YORK, Aug. 10 (AP)—Stocks strong; decline in general list checked between midday and afternoon.

By CLAUDE A. JACGER (Associated Press Financial Writer)

NEW YORK, Aug. 10.—Prices recovered from a sharp decline early in the stock market today. Yesterday's torrent of selling appeared to have wiped out weak holdings, for the moment at least. Investors who had been hurried to cover their commitments, and were forced to do so at fairly high prices, are now recovering and an amount of buying by bargain hunters who found the better stocks attractive, added to the price of the bulk of the day's trading.

Psychological Reaction. The flood of selling was generally regarded as a sober second thought, as the general public had been misled by the news of the Federal Reserve's action in raising the rate of discount to 4 1/2 percent.

Building Boom in Rockies. These prices are obtained daily at 4 1/2 percent advance and are intended to cover only the advance of the market.

PAID TO PRODUCERS. The Twin Falls market yesterday was as follows:

Table with columns for various commodities like Wheat and Mill Feed, HAY, and other goods with their respective prices.

NEW YORK STOCK MARKET

Table listing various stocks such as Am. Chem. & Dye, Am. Can., Am. Coal, etc., with their closing bid prices.

Table titled 'Stock Market Averages' showing indices for Dow Jones Industrial Average, S&P 500, etc.

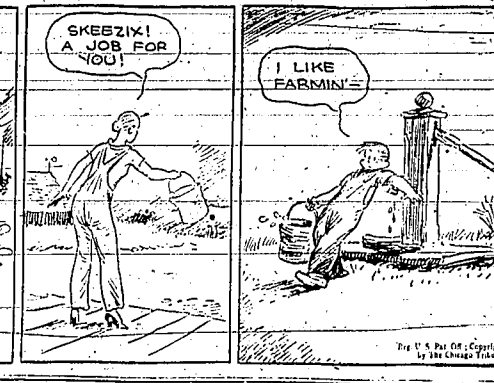

NEW YORK, Aug. 10 (AP)—Stock market averages: Dow Jones Industrial Average, 200.00; S&P 500, 100.00.

NEW YORK, Aug. 10 (AP)—United States government bonds closed: Liberty 4 1/2, 98.28; Treasury 4 1/2, 100.89.

NEW YORK, Aug. 10 (AP)—United States government bonds: Liberty 4 1/2, 98.28; Treasury 4 1/2, 100.89.

NEW YORK, Aug. 10 (AP)—United States government bonds: Liberty 4 1/2, 98.28; Treasury 4 1/2, 100.89.
