TIMBER LAND FIRES LESS MENACING IN PACIFIC NORTHWEST

Crews Battling Blazes in Wenatchee National Forest in Washington Report Advance in 12 Hours

(By The Associated Press) LEWISTON, Idaho, Aug. 17.—Combined crews from the Selway and Clearwater forests in Idaho and the Lolo forest in Montana, aggregating 505 men, were sent against the Great Bend mountain blaze in the Selway forest.

The blaze, which burned for nearly a month, tonight had covered 10,000 acres and was advancing on a 12-mile front in the heavily timbered Clearwater forest.

GENERAL CONDITION IN PORTLAND SHOW IMPROVEMENT SEATTLE, Aug. 17.—After anxious days and nights when the forest fire situation in the Pacific Northwest and western Canada seemed to be growing steadily more critical and federal troops were called in, reports from the flaming fronts gave encouragement to officials.

Search for Douglas C. Ingraham, Portland, federal grading inspector, and Ermano Scott, Lewiston, were being hampered by a fire at McFarland creek in the Cheilan national forest in Oregon.

District Forester C. M. Granger, Portland, who over the fire area yesterday reported a slight improvement in the entire Central Washington area.

Crews Reported Progress — Crews battling fires in Wenatchee national forest, reported they had made considerable progress in the last 12 hours and expected to have the Chinle lake and White mountain fires under control.

21 AVIATRICES WILL TEST FLYING SKILL

Women Pilots Will Race From Santa Monica to Cleveland in Eight Days

SANTA MONICA, Cal., Aug. 17.—Twenty-one young women pilots tonight were racing for an eight-day race from Clover field to Cleveland, to be started at 2:15 P. M., Pacific coast time.

The competing planes have been divided into two classes—class "DW," powered by motors having displacement of 275 to 310 cubic inches, and class "AW," powered by motors having more than 510 cubic inches displacement, up to 800 inches.

Most of the entrants were racing tonight, their planes left under guard at various flying fields. The entrants are: Marvel Crossin, San Diego, holder of the women's altitude record; Louise McPlatridge Thaden, Pittsburgh, former altitude record holder; Bobbie Wood, Los Angeles, former holder of the women's solo endurance record; Amelia Earhart, Boston, and Ruth Elderly; Beverly Hills, California, trans-oceanic flyer; Thelma Rasche, noted German pilot; Mary Hazyley, Tulsa, American's only woman transport pilot; Opal Sears, New York; Len Mack, Detroit; Phoebe Omic, Memphis, Tennessee; Neva Paris, Great Neck, New York; Ruth Nichols, New York; Edith Balz, Portland; Mrs. Keith Miller, New Zealand; Claire Faly, Los Angeles, wife of Herbert J. Faly, a holder of men's solo endurance record; Florence Love Barnes, San Marino, California; Blanche Noyes, Cleveland; Margaret Parry, Los Angeles; Gladya O'Donnell, Los Angeles; Mabel Walter, Tokyo, Kazusa.

The race will require nine days with (Continued on Page 3, Column 5)

IDAHO LUMBER MEN TO PRESERVE TIMBER

Gem State Saw Mills Will Cut Only Sizable Trees Instead of Clearing Land

BOISE, Aug. 17.—Idaho's fine forests, her watersheds and recreational lands will be protected under a new logging policy put into effect by the larger lumbering companies of North Idaho. W. D. Humiston, general manager of the Pacific and timber companies, said today in a talk before the state board of equalization.

REPUBLICAN LEADER IN SENATE APPROVES NEW LEVY ON SUGAR

View of Senator Watson, Indiana, Interpreted to Indicate View of Administration On Schedule

(By The Associated Press) WASHINGTON, Aug. 17.—Approval of the newly proposed tariff of 220 cents a pound on Cuban raw sugar was voiced today by Senator Watson, Indiana, the senate Republican leader, who declared that practically every country in the world imported a rate higher than the American duty.

The view of Watson, as majority leader, was interpreted at the outset to indicate that the new sugar duties, agreed upon yesterday by the senate finance committee Republicans of which Watson is a member, would meet with the approval of the administration, the 220 Cuban rate, if their action is sustained, would replace the present duty of 176 cents and the house rate of 240 cents.

Goes to Hoover Camp

The Republican leader issued his statement prior to departure for a week-end visit to the summer camp of President Hoover, who has been represented by Chairman Smoot of the finance committee as tending toward a sliding-scale sugar duty.

After listing 21 countries having sugar tariffs ranging from 2 to 178 cents a pound on refined as against a present American refined rate of 191 cents against Cuba, Senator Watson declared (Continued on Page 2, Column 3)

ARMY SHIP WILL CARRY FILMS TO LEPER COLONY

NEW YORK, Aug. 17.—The army transport Great sailing from New York today for the Far East, will carry 778,000 feet of motion picture film, a gift from seven producing companies, to the Cullion leper colony in the Philippine islands.

The practice, originally suggested by the late Mayor General Leonard Wood when he was governor general of the islands, has been continued each year by the motion picture producers and distributors of America, acting through the Leonard Wood memorial for the eradication of leprosy.

Seed Men Will Gather At Blackfoot Meeting

BLACKFOOT, Idaho, Aug. 17.—With many representatives of seed dealers and consumers of the East in attendance, the first state pure seed convention will be held here Monday and Tuesday. A tour of seed farms will be made Tuesday.

\$100,000 Worth of Foxes In Exhibit at Blackfoot

BLACKFOOT, Idaho, Aug. 17.—The National Fox and Fur Breeders' association has arranged for space at the district fair here this fall for a \$100,000 exhibit of foxes, a snipe exhibit also will be a feature of the fair.

Borah Declines Debate With Maryland Governor

BOSTON, Aug. 17.—An invitation extended by the Roosevelt club of this city to Senator William Borah, Idaho, to debate Governor Albert C. Ritchie, Maryland, was turned down by the senator. It was learned today.

Idaho Falls Will Aid County's Health Unit

IDAHO FALLS, Aug. 17.—Three members of the Idaho Falls city council walked out of the meeting last night when a vote was taken on the proposal to appropriate \$1500 for maintenance of a county health unit.

Fighting Between Russians And Chinese Continues and Reinforcements go to Front

Marshal Chang Hsueh-Liang Expresses Indignation Over "Malicious Propaganda" Broadcast By Soviet and Declares Own Nation Desires Extermination of Communism, Not Conquest

(By The Associated Press) MUKDEN, (Sunday morning), Aug. 17.—Fighting between Chinese and Soviet troops in the Dalaio region was still proceeding early this morning, with Chinese losses officially reported as being more than 60 killed and many more being rushed to the battle area all day yesterday by China.

He declared China was not aggressive and only desired the extermination of Communist influence in China. He expressed surprise that foreign public opinion, which for 10 years has treated the Soviets as criminal outcasts, should now sympathize with Russia.

MILITARY OPERATIONS BEGUN ON LARGE SCALE

LONDON, Aug. 17.—The first military operations on a major scale along the Manchurian-Siberian border, where the armies of Soviet Russia and China are facing each other, were reported here today.

PUMPING EQUIPMENT TAX ISSUE AT BOISE

BOISE, Aug. 17.—Pumping irrigation projects are not the only ones in distress, for gravely irrigated districts are also suffering, George Barrett, Wendell, declared today in supporting the state board of equalization.

Postal Saving Deposits Show Marked Increase In Period of 30 Days

WASHINGTON, Aug. 17.—The post office department announced today that postal savings deposits July showed an increase of \$4,294,025 over the previous month, the greatest increase since the month following the close of the World war.

RENO, Aug. 17.—Two boys were killed and three seriously injured in an automobile accident on the Lake Tahoe highway near Merck's bay last night. The dead:

JOHN JACOB BROWN, 15, son of E. M. Brown, Bismark, Idaho, California; FRED COULTRILL, 18, son of Fred Coultrill, Louisiana; JOHN COULTRILL, 18, son of Fred Coultrill, Louisiana.

«Hit-and-Run» Driver Kills Utah Pedestrian

SALT LAKE CITY, Aug. 17.—(AP)—A Utah car struck and killed a pedestrian in Salt Lake City today.

SPOKANE NON-STOP FLIERS IN NEBRASKA

Trans-Continental Ship Takes On Fuel at North Platte and Heads East

NORTH PLATTE, Neb., Aug. 17 (AP)—The endurance plane, Spokane, left here at 8:15 P. M. (Central standard time) for Cleveland after taking on a final supply of fifty gallons of gasoline.

Pilots Mamer and Walker expect to arrive over Cleveland by daybreak.

The Sun God arrived at the local airport at 3:22 P. M. (Central standard time) five minutes after its refueling ship, piloted by Vernon Bookwater of Cheyenne, Wyoming, landed at the field.

One hundred gallons of gasoline was immediately taken up to the endurance plane and contact was successfully maintained within 20 minutes from the time refueling ship left the ground.

After contact was made, Mamer and Walker dropped three notes. The first one read:

"Hello, North Platte—will it be O. K. if we hang around a bit? I'm going to try to get a few winks while Art keeps the boat up. This is sure a great country to fly over. No worry about sparring a mountain." Signed "Nick."

Pumping Equipment Tax Issue at Boise

(Continued From Page One)

river and tributary rivers, as well as the Utah Sugar company and other companies directly interested in agricultural pursuits.

In support of the proposed change in the law for pumping plant exemptions, Barrett challenged the statement of William Healy, Boise, that the legislature had approved the bill and that the amount of a power plant's exemption on the basis of the peak capacity available on demand for irrigation pumping.

Pointed out that the legislature had voted down a bill which would have established the method of finding the percentage exempt. He contended that a dozen engineers could get a dozen different exemption figures on the plan used for the past eight years, while the new plan proposed by the board of equalization would give only one definite figure—a figure which he contended was "just and equitable on the face of it."

Shad Hodgins, Twin Falls attorney, who married the forces arrayed against the change in system, declared that Gooding county had no cause to complain because other counties contributed to its welfare by using the power developed in that county. However, he pointed out that the tax exempt gravity irrigation system used by Gooding county farmers was located almost entirely in Blaine county which used none of the water.

Immediately J. W. Williams, chairman of the Gooding county commission, was on his feet to declare that "Blaine county irrigates as much land from that dam as we do, the dam is always dry."

The board closed the first week of its sitting with the lumber hearing and will begin the second week hearing public utilities.

Lumbermen Get Hearing

The hearing on the power pumping exemptions was followed by a hearing of lumbermen on assessments of timber lands, lumber and logs. W. D. Humiston, vice president and general manager of the Polatch Lumber company, presented the lumbermen's case before the board, declaring that though the lum-

The Weather

FORECAST FOR TODAY AND TOMORROW—Partly cloudy and cooler; scattered local thunderstorms.

Extreme temperatures for yesterday as reported by the government observer were 77 degrees maximum and 55 degrees minimum, varying little from Friday's report. There was a slight trace of precipitation last evening.

Leviathan of Skies Rapidly Approaches End of Second Lap

(Continued From Page One)

tract of Manchuria, where Russian and Chinese troops are facing one another on the frontier.

The Zepppelin's approach promised thrills hitherto unknown to the Eastern world and the Japanese public was wildly excited tonight over her visit.

Officials at Kadiyaguru naval air base where the Graf is expected to land, announced that all was ready to receive her. Complete stores, apparatus and mechanical assistance had been prepared for the next stage of the flight around the world, across the Pacific ocean.

Final tests of landing and refueling apparatus were made today and a landing crew of 500 Japanese bluejackets was ordered to rehearse tomorrow morning.

American, German and Japanese engineers in charge of the preparations for brooming the dirigible said the refuel-

ing could be completed within 30 hours after her arrival.

This would permit the Graf to start out over the Pacific Thursday or Friday.

The central meteorological observatory tonight promised fair weather when the Zepppelin should reach Japan since a typhoon has passed over Japan and vanished southward. Another typhoon is reported moving northward today over Korea, but it was not believed it would cross the path of the Zepppelin.

Republican Leader In Senate Approves New Levy On Sugar

(Continued From Page One)

this was ample evidence "that these nations are determined to produce this product at home instead of purchasing it abroad."

He added that American farm organizations were demanding a "much high-

DUMB BELLS

er rate" than that proposed by the Alliance Republican group "because they desired to diversify the products produced by American farmers and thus to develop this industry to such a state that the American supply will be equal to the American demand."

Soon Will Equal Demand

While domestic sugar producers had never had an opportunity to develop their product to the fullest extent, the Republican leader said "it is constantly asserted that, if it be properly protected, the industry will be brought to such a state of cultivation within a short time that the home supply will almost, if not entirely equal home demand, counting, of course, the imports from Hawaii, the Philippines and Porto Rico, which must continue to come in free."

Rudolph Spreckles, New York refiner, contended the free rate proposed would fall to protect American consumers against excessive refined prices.

Senator Harrison, Mississippi, a Democratic member of the finance committee, in a statement issued through the Democratic national committee, described Secretary Simmons' statement as "most unusual and exceptional" and asserted the objections of foreign countries speak for themselves.

"If language means anything, then they are protests," Harrison said, adding that the communications were "so strong in some instances that they threaten to break off trade relations with the United States."

THIRD MAN IN LAMAR ROBBERY CONFESSES

Another Accomplice in Jail for Year-Old Looting and Four Murders in Colorado

COLORADO SPRINGS, Colo., Aug. 17 (AP)—After more than a year's investigation, peace officers tonight had a third confession in the Lamar bank robbery case. The third statement of guilt for participation in the looting of the First National bank a year ago last May was made by W. C. Mesick, who admitted to I. B. Bruce, chief of detectives, today that he was a member of the band which took four lives incident to the robbery of the institution.

Two other confessions are on file—those of Ralph Fleagle, arrested in Kansas, Illinois, and Herbert L. Royston, 34, arrested at his home at San Andreas, California. Hugh D. Harper, chief of police here, who has worked incessantly on the case ever since the bandit fled the town of Lamar after killing A. N. Parrish and his son, John, with gun fire made the announcement of Royston's confession Friday night.

The statement of the three men are alike in several particulars, notably the one that William (Jack) Fleagle, brother of Ralph, was responsible for the deaths of Dr. W. W. Winesinger, Dighton, Kansas, and E. A. Keesinger, bank teller who was kidnaped.

Dr. Winesinger was kidnaped to treat the wounds of Royston, and then killed. William Fleagle has not yet been apprehended.

Fighting Between Army Of Russia and Chinese Continues On Boundary

(Continued From Page One)

have been facing each other for some weeks, were repulsed today from Mukden and purported to be based on an official announcement.

An army of 2,000 Russians, equipped with machine guns and 20 field guns, was said to have penetrated western Manchuria both north and south of Manchull. It was believed that their objective was Dalainor.

Reports reported what was apparently an incident in this general advance. Twelve Russians and four Chinese, according to this version, were killed near Dalainor, when a troop of 700 Soviet cavalrymen engaged Chinese soldiers in a three-hour conflict.

From Japanese sources came other reports of minor border clashes.

Ever before these latest and more serious invasions, it was said that China had drawn attention to the signatories of the Kellogg anti-war pact to its infraction by Russia.

This notification was cited in Moscow today as evidence of Chinese insincerity and that China had been using "the tool of blackmail to cover." The Soviet leaders charged that the seizure of the

afternoon brightened the forest fire outlook for this section. Late this evening storm clouds gathered over the city from the east, showering welcome rain over the valley.

No reports had been received tonight as to the extent of the storm, but forestry men were hopeful that the area included forest regions.

Local temperatures were lowered rapidly after the rain set in about dusk. Today's high was 91 degrees, a drop from the 100 degree temperatures of the past several days.

On Dirigible's Eastward Flight

LIEUTENANT COLONEL NELSON MORRIS (left) and William B. Leeds (center) just before they boarded the Graf Zepppelin for the eastward flight. Mrs. Leeds was there to see the airship sail.

Chinese eastern railway and the dismissal of Soviet employes was a well calculated step in a far-reaching scheme to draw Russia into war. They contended that the Soviet union had adopted only strict measures of resistance in the face of "the most unprecedented provocation."

With the official charges and counter-charges from both sides and the paucity of direct information the actual situation around Manchull was in some doubt tonight. Observers here did not disguise their belief that the present stage of the

controversy is in an unpromising state for peaceful conclusion.

AIR-LINER CONVENIENCES OCCUPY ATTENTION OF BUILDERS

PULLMAN COMFORTS NEWEST FEATURE OF AERIAL TRANSPORTS

Planes to Accommodate Night Travelers With Berths and Buffet Service Now Being Built

By ALLEN QUINN
Associated Press Aviation Editor
WASHINGTON, Aug. 17.—Elaborate interiors to attract and add to the comfort of the aerial traveler are engaging more and more the attention of the airplane builders and operators.

"It is the passenger who is determining what comforts airplanes must have," says one air line operator. "The builder and operator may not see it, but the passenger does. He compares our planes with the comfortable and cozy trains of the country. Those comforts, as nearly as possible, must be incorporated in our planes."

Passengers Can Sleep Comfortable chairs in which the passenger may recline and sleep if he wishes, better ventilation and elimination of engine odors, and less noise in the cabin are considerations that may be carried on into shooting, are among the things operators have learned they must provide if their lines are to attract passengers. In addition, the appointments must be pleasing to the eye and there must be sufficient room for the passenger to change his position.

Two operators and builders, looking forward to the day when regular day and night transcontinental passenger service will be started, are making plans for comfortable sleeping quarters.

To install berths A huge new airplane equipped with berths for 24 passengers by night, and seats for 32 by day, soon is to be put into the air. Several other planes have been built with the idea of installing berths when the need comes. The eating problem has not been overlooked. Buffets have been provided aboard several types of planes, with lunch and tea being served by attendants. A service party with an ice box is a feature of the "flying Pullman" soon to be launched.

CASSIA COUNTY'S LAMB POOL MEMBERS TO SHIP

BURLEY, Aug. 17.—Special to The News.—Members of the Cassia county cooperative lamb pool are being notified to get their lambs together for the sixth shipment. This is likely to be the last shipment, except for one more to dispose of odds and ends. A total of 528 lambs was sold on the St. Joseph market in the last pool. Figures not available show that 278 top fat lambs, averaging 82 pounds, sold at \$13.25 on the market; a price equivalent to \$10.97 at home without shorn. There were 174 feeder lambs in the shipment selling at \$12.75 at St. Joseph and weighing 14 pounds. A few wrinkly-feeders sold at \$11.50. The fat ewes, weighing 116 pounds, sold at \$8.50.

BRUNEAU WOMAN DIES AT SANITARIUM IN OREGON

CASTLETON, Aug. 17.—Mrs. Fred Pinkston, BrunEAU, died in Hot Lake, Oregon, Friday morning, according to word received here today. Mrs. Pinkston was coming to Oregon to submit to treatment at a hospital there. Intestines will be made Sunday at BrunEAU. The body will be driven over to attend funeral services.

Mrs. J. W. Downey and son, Jack, left for Boise Wednesday, to attend funeral services for a Downey who died in Blith this week. They will remain for a short visit with relatives.

Mrs. Lee Cozart and Mrs. H. A. Kinney were invited to the Methodist Episcopal church ladies' aid on Thursday, at the home of Mrs. Cozart. The theme of the meeting was the annual election of officers. Mrs. W. J. Burze was re-elected president; Mrs. William Hinger, first vice president; Mrs. Del Hagan, second vice president; Mrs. E. E. Ulfelt, secretary and Mrs. R. W. Gager, treasurer.

Gov. Hoffmanner who has been visiting his sister, Mrs. E. E. Ulfelt for a few weeks, left Thursday for his home in Missouri.

Mrs. M. Johnson Charlesworth, Pueblo, Colorado, visited one-day this week at the home of her sister, J. W. Downey, before going to Boise, where she will visit other relatives.

BITTER CANDIDATE FOR RE-ELECTION TO BOARD

William F. Bitter, member of Twin Falls school board, whose first term will expire this fall, will be nominated for re-election, it was learned last evening. Petitions for nomination of Mr. Bitter, signed by at least 50 Twin Falls business men, will be filed, probably next Monday, one of the men active in Mr. Bitter's candidacy stated.

Two members of the board are to be elected at the election next September 3. Members whose terms expire at that time are Mrs. Joanna C. Smith, clerk, and Mr. Bitter.

FARMER HAT WENDELL IN SERIOUS MISAP

R. W. King in Hospital Suffering From Head Injuries Received in Field

WENDELL, Aug. 17.—R. W. King, a prominent farmer of this district, was seriously injured Wednesday, the result of an accident occurring when his truck, loaded with wheat, backed into the front end of a threshing machine...

Theatre Play in Play Union Feature of Orpheum Show

Much of the plot of "Prisoners," Clarence Griffith's newest First National starring vehicle, which is now showing at the Orpheum theatre, revolves around a company of actors who frequent the little baker-cafe where Miss Griffith, in the role of Rita Riga, acts as cashier.

An outdoor performance of a whole new play, "Prisoners," is given by these players with Otto Matzner and Jean Laverty in important roles. Puck, Bottom, Thales, Helena, Isabella, Demetrius, Oberon and Titania with their retinue of fairies and many other of the Bard of Avon's immortal characters desert themselves in picturesque costumes on the forest...

Scene from "Noah's Ark" starring Deores Costello with George O'Brien. A Warner Brothers' Vitaphone production, opening a four-day run at the Idaho theatre this afternoon at 7 o'clock.

KIMBERLY HOME SCENE OF HALCYON CLUB MEETING

KIMBERLY, Aug. 16.—Mr. and Mrs. Herbert Hardin and daughter arrived here this week from Portland to visit at the John W. Hardin home. Both families left the latter part of the week for a two-week outing near Easley's hot springs.

The Calvary Y.M.C.A. will meet Wednesday afternoon, August 21, at the home of Mrs. L. Millon, with Mrs. Halverson, Mrs. Clarence Guse, Mrs. J. M. Mason, Mrs. William Van Houten, Mrs. J. W. Hardin, Mrs. W. L. Turner, Mrs. W. H. Spence, Out-of-town guests were Mrs. J. N. Davis, independent Mrs. L. E. G. Davis, Mrs. H. Hill and Mrs. L. Emery. Mrs. H. L. Powers and Mrs. A. J. Wilson won high score honors and Mrs. L. E. Davis won the most prizes.

Chicago Optometrist Offers \$20 Spectacles For \$2.98

A Chicago optometrist has developed a new comfort spectacle that leaves no mark on the nose or face and is guaranteed against breaking or tarnishing. These spectacles are claimed to be the latest rage and are really the most beautiful produced in years. They create a distinguished appearance and yet remarkably light on the face.

These spectacles will enable anyone to read the printed press far and near. The manufacturers are so pleased with this new product that they offer to send a pair of these spectacles on 30 days' trial to any busy person who writes them, with the understanding that if they are not satisfied and delighted and do not think the spectacles they list at \$20 equal to these sold elsewhere at \$20, they will send out nothing. A beautiful spectacle case and style book included free. Send no money, just your name, address and age. If you wish to try a pair of spectacles at this risk, write Dr. Ritzold & Sons, Suite 221, 1415 W. Jackson Blvd., Chicago, Ill., today.

JEROME PLANS FOR NORTH SIDE EVENT

Bankers and Business Men Will Meet For Annual Tour to Assist Farmers

JEROME, Aug. 17.—American Bankers' association is encouraging the banker-business man tour to bring about closer relationships between the bankers and business men, the agriculture of Jerome county and the extension program within the county. This banker-business man tour was conducted successfully last year. It will be held in Jerome county on Tuesday, August 20, beginning at 9:30 A. M. in front of the North-Side Inn, Jerome. Every banker is expected to be present, and every business house will be represented.

The purpose of the tour is to assist the business men and bankers acquainted with the agricultural programs of the farmers. Mrs. H. S. Harpner Caldwell, is visiting at the Jerry Garman home. Mrs. R. E. Shepherd and Mrs. A. B. Barely were hostesses at card parties held at Mrs. Shepherd's home, August 15, and August 16. A delicious dinner was served to the guests each day. Mrs. Marjorie Freeman is visiting Miss Doris Expedition in Shoshone. Mr. and Mrs. R. G. Freeman and children spent August 14, evening at the Lambert Expedition home in Shoshone. Miss Alice Lee returned August 15 from summer school in Pocatello. She will remain at home until the school at American Falls begins. Miss Lee is employed as a teacher there. Mrs. Carl Palmer, Salt Lake City, and his brother Darrell Dwight, Philadelphia, are visiting their father and mother. Mr. and Mrs. W. H. Dwight here. Mrs. W. H. Dwight and her daughter attended a luncheon, given in their honor, at Twin Falls on Wednesday, August 14. Joe Callicott, assistant manager at the Magic Hot Springs resort, is visiting his brother, Mr. M. E. Callicott. Mr. and Mrs. J. H. Moore and Mrs. Erma Keeser have concluded their visit with Mr. W. W. Atwood and returned to their home in Whitten, Ohio, by way of Salt Lake City. Mrs. P. H. Atwood, Armstrong, Iowa,

Jerome County Fair Two-Way Break Records

Directors of Annual-North Side Exhibition Planning Best Program in History

JEROME, Aug. 17 (Special to The News)—The Jerome county fair, which is to be held September 28, 29 and 30, is well organized and preparations for the coming fair are now being made, according to officers in charge of arrangements. The officers are intensely interested in its success and are determined that although former fairs have been practically the one for this year, if their attention, labor and efforts will accomplish it, shall be pre-eminently a record breaking event. Following is an official announcement given today by officials: Contrary to the custom of waiting until the summer months—September being the best time to hold the fair, these ambitious plans for the year, those in charge of the annual county fair are commencing now to show that they have neither forgotten their friends nor are they unappreciative of the support that the public has given them in the past. The people of this community have always been in constant communication with the fair directors, and to them much praise is due for the past successes of the fair. The same cooperative efforts will this year give Jerome county a fair unsurpassed among the county fairs of this state. Great Interest. Reports from all parts of this and nearby counties show the greatest interest in the fair, and it is expected that this year's exhibits will fill all departments, and a record-making year.

Pajama-Clad Dancer Gets Snubbing in Albuquerque

ALBUQUERQUE, N. M., Aug. 17 (AP)—Pajamas as evening dress made their appearance in Albuquerque tonight. Mamie Foster, captain of this year's New Mexico University Lobo eleven, glided out on a dance floor attired in pajamas of a somber hue. Mamie is a footballer's wife and her nerve is strong. Quarant and Mannie looked disappointed. He checked out. Preceding his appearance at the dance, he paraded the streets. Pat O'Grady, chief of police, squinted casually at Mamie's pajamas. "There's no law against it," he drawled as he shifted his eyes. "Canada exports more wool pulp and newspaper than any other country."

Leaders at the conference include Prime Minister Brundage of France (upper right), Foreign Minister Stresemann of Germany (lower left) and Philip Snowden, British-chancellor of the exchequer.

IDAHOAN SURVEYS SITE OF PROPOSED POWER DAM

BOISE, Aug. 17 (AP)—A survey of the effects of a Canadian power dam on the Kootenai river running into the dominion from Idaho has been completed by C. G. Paulson of the United States Geological survey, who returned here today. Paulson will report his investigations to the state department which requested the survey when the West Kootenai Power and Light company, a Canadian concern, proposed building a dam to store water in Kootenai lake. Both the dam site and the lake are in Canada but land on the Idaho reaches of the river has been reclaimed by dyking and other works and Paulson's study concerned any possible effects of the construction on these.

Mass Production Cuts Kansas Ten-County Farm's Costs

SINGLE ORGANIZATION RAISES 200 CARS OF GRAIN EVERY SEASON

Company of 800 Stockholders Operates on Titanic Basis With Over 50 Per Cent Slash in Expenses

(By The Associated Press) HAYS, Kansas, Aug. 17.—Imagine a train of 200 freight cars filled with grain from a single farm project covering more than 50 square miles! That degree of mass production has been achieved in 10 northwestern Kansas counties by the Wheat Farming company, a \$1,500,000 corporation, which owns and farms 33,000 acres.

Use No Horses
Without using a single horse, the concern this year is harvesting a grain crop, mostly wheat, that probably will total 400,000 bushels—enough to fill more than 200 freight cars. A yield of nearly 300,000 bushels of wheat alone is assured.

This company, whose stockholders exceed 800, include real farmers, doctors and field workers, has pioneered in large scale production in the wheat belt. It is the largest farm project in Kansas and probably in the entire southwest.

J. S. Bird, Hays, where the world's largest farm experiment station is located, is the company's president. Formerly a college chemistry professor, he has a background of years of experience in Kansas dry farming.

Experts Manage Enterprise
Experts manage this gigantic factory-like enterprise. The land is divided into units of approximately 5000 acres, with a foreman in charge of each. A production manager, a specialist in soil management and machine farming, supervises operations. Grain is sold under the direction of a marketing manager.

The concern's equipment includes 22 tractors, 11 combined harvester-threshers and swathers, several heavy trucks and a proportionate amount of other machinery. That outfit is capable of cutting and threshing upwards of 2000 acres of wheat daily.

Grain Cut Before Ripe
The swather, a new machine in the wheat belt, is used because it cuts grain at an earlier stage than is possible with a combine. Cut stalks are struck out in long windrows by swathers, and combines thresh in a few days later.

So efficient are production methods on this farm that wheat can be raised for less than half the amount common to unorganized farming. The company's cost accounting system shows \$4.64 per acre as the cost of production. Most Kansas farmers list \$10 for that expense.

Last year the company paid a dividend of 12.5 per cent. A dozen similar concerns are being organized in efforts to equal that record.

MANY JOIN IN TRIBUTE TO WELL-KNOWN MATRON

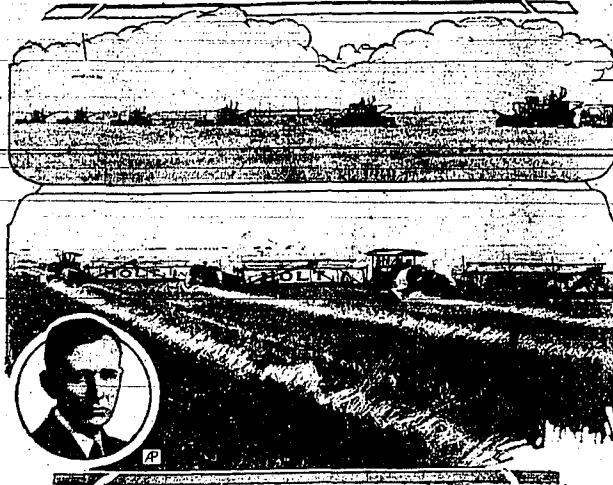

Eden community was joined by delegations from Jerome, Rupert and Twin Falls in paying a final tribute at funeral services here Saturday afternoon for Mrs. Irene Knott, wife of J. C. Knott, prominent Eden ranchman, who was for many years an outstanding figure in Eden's civic, educational, religious and social life, and who had served as chairman of the state Parent-Teacher association's recreation committee and for four years as lecturer of the Idaho State Grange.

Foils Plot

HAROLD HARRIS—16-year-old Associated Press messenger refused to falsify clearing house figures and landed would-be bribers in jail in New York

What combines (above) form the main arm of a Kansas farm company operating on an area of 50 square miles. The swathers shown below are used for cutting grain not ripe enough for immediate threshing. J. S. Bird (inset), former college professor, is president of the company.

Farmer Turns Orchard Into Rural Playground

Small to accommodate all who assembled at the final testimonial of respect and affection—there was a rich profusion of floral tributes.

The Rev. J. C. McAllister, Gooding (conducting the service, took as the text for the sermon a quotation from the Gospel of St. Matthew, "Ye shall know them by their fruits." Songs included three of Mrs. Knott's favorites—"Crossing the Bar," "Lead Kindly Light" and "Abide With Me." Sung by a quartet composed of Mr. and Mrs. Samuel E. Vance, Jr., Mrs. J. W. White and Guy Dixon, and Mr. and Mrs. Vance sang "Goodnight" at the close of the service. The piano accompaniment was played by Mrs. L. W. Beebout.

Participants were D. L. McClure, E. J. McKee, George Evans, Lars Swenson, Bruce Gordon, Arthur Hurdidge.

Simple services were conducted by the Rev. Mr. McAllister at the graveside in Twin Falls cemetery.

The reel includes also reflecting and landing of the St. Louis Rollin on its recent endurance record flight, opening of the Spa season at Saratoga with the tumult of 50,000 persons and the hoof beats of the running horses, a gala day in Brussels and the first landing of the plaza of the United States capitol by an army dirigible.

BUHL MAN SUES FOR \$20,000 DAMAGES

M. G. Heilman Would Require Joseph Abbl to Pay for Malicious Prosecution

M. G. Heilman, Buhl, filed suit in district court here, Saturday against Joseph Abbl for \$20,000 damages for alleged malicious prosecution. Abbl is owner of land on which Heilman has lived as tenant for two years.

In his complaint, Heilman asserts that Abbl, maliciously and without probable cause, accused Heilman of sale of one-half interest in a hay crop that was covered by mortgage and that was

valued at \$120. Heilman was acquitted at trial in district court when the court directed the jury to return a verdict of not guilty, last May.

New Books Get Place On Library Shelves

Following books have been added to the Twin Falls Public Library this week:

Deelo and Rupert Men's Cows High in Association

BURLEY, Aug. 17 (Special to The News)—First and second high testing cows in the Mini-Cassia Dairy Improvement association for July were in herds owned by R. H. Jacobs, Deelo and H. H. Rasmussen, Rupert. The Jacobs cow produced 84 pounds of butter fat and the Rasmussen cow 60.7 pounds.

High herds of the respective classifications were owned by Joe Giler, Rupert, A. B. Smyth, Jackson, and Rasmussen. Herds tested during the month numbered 16. There were 116 cows milking and 63 dry. The association cows averaged 83 pounds of milk and 22.25 pounds fat.

FEDERAL COMMISSION WILL PROBE PROJECT

Word—Reaches Burley That Interior Secretary Will Investigate Power Issue

BURLEY, Aug. 17. (Special To The News)—Word has been received from Washington that a commission will be appointed by the secretary of the interior to investigate the disposition of the power credits arising from the sale of government power plant at the Milldam dam.

It is understood that the commission will be composed of specialists familiar with both the legal and engineering features that will develop in the consideration of this subject. For some years there has existed a controversy between the gravity system of the Minidoka irrigation project and the pumping system of the same project. A former secretary of the interior granted power credits on the basis of 4.4 per cent for the gravity system and 25.6 per cent to the pumping system.

SOCIETY AND CLUBS

Dr. and Mrs. Wallace Carter were hosts at a delightful bridge party Friday evening at their home on Eighth Avenue. North complimenting Mr. and Mrs. Hugh E. Wallace, who are leaving Twin Falls to make their home at Riverside, California. Three tables were arranged for the games favor for high score going to Mrs. Sturgeon McCoy and wife to Mrs. R. L. Plensel. There was a gift for Mrs. Wallace. Refreshments were served after the games. A wealth of garden flowers in all their gay colors were used about the room. An enjoyable feature of the evening was several vocal selections by Mrs. J. C. Chamberlin accompanied by Mrs. Carter on the piano.

and Mr. Sullivan will be accompanied by Mrs. Hollenbeck and Mrs. Sullivan. Will Visit Nebraska—William A. Hofer, watchmaker for the Twin Falls Detroiter, will leave today for Falls City, Nebraska, where they will visit Mr. Hofer's mother and other relatives and friends. They expect to visit relatives in Kansas City and a brother of Mr. Hofer in Omaha. They will be gone about two weeks. Mrs. Hofer's mother, Mrs. Elmer E. Willis, will go with them as far as Cheyenne, from which city she will go to Denver to visit relatives.

mailed and received a paper purporting to give the consent of the girl's father, Henry Gibbs, 34. Starts Prosecution—Gibbs went over to Tripp county and started prosecution against Green on charges of forgoing the consent paper, but the couple seemed happy together, and both parties admit, Green gave his father-in-law four mules to forget and forgive. The couple went to Detroit. The bride says she didn't get the pretty clothes he promised her and, moreover, didn't like the idea of being step-mother to nine children. So she ran away and hid in the Michigan city until her father went there for her and brought her home. Green followed her. He was minus one bride and four mules. He wanted one or the other, but the bride stood on her rights, and the father-in-law sold the mules. Yesterday, Green had Gibbs arrested on a charge of converting the proceeds of the sale to his own use. But he still said he'd rather have the bride than the mules. Today the bridegroom came to the conclusion that putting her father behind bars might not be the correct way to win a girl's heart, so he made

COMMISSIONERS FIX \$337,765 LIMIT ON COUNTY'S EXPENSE

Tentative Budget For Coming Fiscal Year Shows Cut of \$18,416 Under Estimates, Gain On 1928

Twin Falls county commissioners have completed a tentative \$337,765 budget for the county during the fiscal year beginning next January, and have placed the tentative budget on file in the office of the county auditor where it is open to public inspection.

Meeting again on the first Monday of September, the commissioners will adopt the final budget and make appropriations for the coming fiscal year. At that time any taxpayer will be heard for or against any part of the tentative budget.

Slash \$18,416 In the tentative budget the commissioners have lopped off \$18,416 from the \$356,181 total of estimated county expenditures as submitted by county officials.

As compared with expenditures during the fiscal year of 1928, totaling \$267,995, the tentative budget for the coming year shows an increase of \$10,770. The commissioners made reductions in estimates submitted by the assessor, \$500; superintendent of public instruction, \$425; attorney, \$100; probate court, \$400; county agent, \$500. They took \$11,250 off the estimate for the commissioners' fund and added to the fund \$14,000, making a net reduction of \$29,500. They reduced the weed department estimate by \$750 and the hospital fund by \$200.

Figures Tentative The comparative figures showing 1928 expenditures, the appropriations and 1929 expenditures in each office or department, are as follows:

Auditor	\$ 12,580	\$ 14,010
Treasurer	10,330	10,380
Assessor	10,731	12,745
Sherriff	11,260	13,480
Superintendent	5,340	6,209
Attorney	4,243	4,673
Probate court	4,644	7,262
Commissioners	61,357	70,100
Sherriff	207	225
Coroner	334	792
Janitor	5,925	7,245
County agent	5,000	5,500
Weed department	52,408	56,642
Hospital	63,636	122,950
Totals	\$287,995	\$337,765

BABY CLINIC LOOMS AS FEATURE OF FAIR

Parents Responding to Opportunity for Examination and Advice for Children

The baby clinic is to be one of the prominent features of Twin Falls county fair at Filer, September 3 to 6, according to reports of registrars in the county's several communities indicating keen interest on the part of parents in the opportunity the clinic presents for obtaining physical examination of children of pre-school age and authoritative advice where needed to insure improvement of physical conditions.

With only this week remaining for registration for the clinic, reports indicate that the number of little folks to be entered will exceed last year's 300 registration list, by considerable margin. Facility that, Shepherd-Towner appropriaation, a part of which is used in meeting expenses of the clinic, may not be renewed another year, makes for apprehension that there will be no clinic at subsequent fairs and is believed to stimulate interest in this year's clinic.

Personal interview with the registrar is not essential, but registration may be made by telephone, Mrs. R. H. Smith, county health unit nurse, stated last week.

The clinic this year is being conducted by the county health unit in cooperation with the state department of public welfare and physicians and registered nurses of this district are volunteering their services. The list of registrars is as follows: Miss Nellie Sandgren, Boring drug store, Buhl; Mrs. R. W. Gager, Castleford; Mrs. L. L. Bates, Murrain; Mrs. C. H. Egan, Rogerson; Mrs. E. E. Lawrence, Hollister; Mrs. H. E. Hammerquist, Filer; Mrs. L. G. Newman, Maroa; Mrs. K. L. Jenkins, Cedar Draw; Mrs. Wesley Arnold, Kimberly hardware and grocery store, Kimberly; Mrs. Fred Scheffer, Hansen; Mrs. V. B. Blackby, Kniv; Mrs. G. R. Ballew, Clover; Mrs. R. F. Heuderson, Berger; Mrs. Alice Abbott, Clos book store, Twin Falls.

FEDERATION PRESIDENT VISITS IN TWIN FALLS

Mrs. J. B. Arthur, Burley, president of the First District Federation of Women's clubs, made a brief visit to Twin Falls Saturday in company with Mrs. Charles McDonald, Burley, and while here visited the Twin Falls public library. Mrs. Arthur expressed deep interest in many librarians and members of women's clubs as possible, will attend an all-day meeting August 24, in Pocatello, at which Miss Merrill, New York, secretary of the American Library association, would discuss library extension and county libraries.

REALTOR ASSOCIATION NATIONAL PRESIDENT TO VISIT TWIN FALLS

Harry H. Culver, Los Angeles Man, Will Arrive in Airplane to Confer With Real Estate Board

Harry H. Culver, Culver City, and Los Angeles, president of the National Association of Real Estate boards, will be the guest of the Twin Falls County Real Estate board August 28, in Twin Falls, according to word received yesterday by Russell S. Wight, secretary of the board here. The visit will be made in an airplane, of which Lieutenant James B. Dickson is pilot, and is, it is stated, to be part of an all-year circuit, which, it is expected will make history as the most sustained use of air transportation for service of a business group.

Seeks Cooperation The purpose of the visit, it is stated, is to bring about the closest cooperation between local and national organizations and further mastery of economic principles governing real estate and establishment of sound standards of business practice. Direct contact between the local board and the national association is expected to bring together viewpoints of various states and communities for unified advance in legislation of vital importance to real estate.

Of first importance in this program, it is stated, is the growing movement for a modernization of present state tax systems, most of them framed in a period when "intangible" assets, now so large a part of the national wealth, were practically unknown, and most of which therefore make no provision for the classification of property for tax purposes.

The national real estate president, emphasizing the need for complete union of strength between realtors and property owners looking toward a simplification of the laws governing real estate transfers, the more equitable taxation for real estate, and establishment of fundamental facts upon which to base a stable real estate.

Mr. Culver's circuit of visits to member boards is being made by airplane under what is believed to be the most compact schedule of meetings ever to be arranged by a business group. In the circuit which has been grouped in five-tours, cross-crossing the country from east to west coasts a number of times and dipping into Canada and Mexico, he expects, through group meetings to confer with practically every one of the association's 63 member boards.

IMPROVEMENT UNDER WAY ON BUHL-FILER HIGHWAY

Resurfacing of a five-mile sector of the state highway between Filer and Buhl, Idaho, will begin Saturday, to be completed before the opening day of Twin Falls county fair, September 3, to 6. The new work is to be done on the road westward from the end of concrete sector of Filer. It is to be done under the direction of O. C. Bell, Twin Falls road builder.

The new surface is to be composed of a mixture of oil and sand, thoroughly mixed and rolled on road. Specifications provide for use of 250 yards of sand per mile.

Lutherans Will "Tramp" Four Days Near Ketchum

Thirty-five members of the senior Sunday school, Immigrant-Lutheran and Mrs. Martin Zavel, Mrs. Ed Kleunder and H. P. Fajen, will leave Monday by auto bus and cars for the Ketchum country, where they will spend four days making their annual fall "tramp."

Indians Rally in Ninth to Defeat Athletics by 2 to 1

Veteran Of Giants Of 1911 Singles In Ninth To Tie Score

Quinn Relieves Walberg and Winning Run Comes On Hodapp's Sacrifice

(By The Associated Press)
CLEVELAND, Aug. 17.—The Indians rallied in the ninth inning today to secure a shut-out victory from Rube Walberg and defeat the Athletics in the series final.

Walberg had allowed only four hits in the ninth, but he started the ninth by passing to Joe Sewell. Earl Averill followed with a double. Pincus was hit to tie the bases. Grover Jarry, a four-year-old member of the Hill Club, was the first to score. Quinn relieved Walberg and the winning run came in on Hodapp's sacrifice.

Don Ferrill, youthful Cleveland pitcher, beat the Athletics to four hits but in error by Jack Beck in the fourth inning.

Leading Pitchers of Pacific Coast Baseball

THE MOUNDMEN who are the greatest worry to coast batters are (left to right) Willbur Hubbell, Mission—Reds; August Johns, Hollywood, and Merton Nelson, Mission Reds. Hubbell leads the league.

Willbur Hubbell, August Johns, and Merton Nelson are the leading pitchers of the Pacific Coast.

Key West is the most southerly city in the United States.

Cincinnati and St. Louis are important markets for hard wood lumber.

"Zach" Gets Hot—Leads League

TOM ZACHARY

Even the Great Grove was second to Tom Zachary in the American League ratings early in August, when Old Tom had won seven and lost none.

Tom Zachary, known down in North Carolina and to baseball as plain Tom Zachary, began the season he had 117 victories and 127 defeats to show for his 12 years in the majors.

So "Zach" started out to square the ledger.

He was not needed to do much pitching for the Yanks, but which he was summoned he usually delivered. Early in August he had won seven and lost none for the best showing in the big league. And that was making some progress at the talk of putting the pinch-hitter

amateurs. Because of the large field, two days will be used in the qualifying round of 18 holes.

Most of the leading threats for the crown will start their drives on the second day, while Espinosa will be among those who play their qualifying round on Wednesday.

Among the leaders entered are: Herriot Smith, Joplin, Missouri; Gene Sanchez, Flagstaff, Long Island; Emmett French, Youngstown, Ohio; Tommy Ardrey, Orchard Lake, Michigan; Ted Duffey, Concordville, Pennsylvania; Al Watrous, Detroit; Bobby Cruchank, New York; Al Espinosa, Chicago, and William Melhorn, New York.

Walter Hagen, four-times winner of the title, was not included in the official pairings, but is expected to compete.

San Francisco Club Strengthening Hold

Vernon Gomez, Formerly of Utah-Idaho League, Celebrates Sale to Yankees

SAN FRANCISCO, Aug. 17 (AP)—League-leading Seals strengthened their hold on first place and took the edge in the present series by defeating Hollywood, 5 to 1, today. Vernon (Lefty) Gomez, young Seal left-hander, formerly of the Salt Lake City team of the Utah-Idaho league, was on the mound and celebrated his sale to the New York Yankees with a fine pitching display. He held the Stars to six hits and blanked the visitors for six innings.

The score: R. H. E. Hollywood..... 5 1 0 San Francisco..... 1 0 0

Batteries: Hollister and Severid; Gomez and Reed.

LOS ANGELES 7, MISSIONS 4

LOS ANGELES, Aug. 17 (AP)—Los Angeles clinched the series with the Missions here today by taking an exciting contest, 7 to 4. Eight-hitting hitters by both teams featured the contest. Toddson's double with the bases full and Toddson's error accounted for the four tallies in the eighth.

The score: R. H. E. Missions..... 7 1 0 Los Angeles..... 4 1 1

Batteries: Cole, Hubbell and Blawie; Barfoot, Platt and Sandberg.

PORTLAND 6, SEATTLE 1

SEATTLE, Aug. 17 (AP)—Kallio's arm weakened after he had held Portland to five scoreless innings in a baseball game here today and the visitors counted six in the final four tries to beat Seattle, 6 to 1.

The score: R. H. E. Portland..... 6 1 0 Seattle..... 1 0 2

Batteries: Mahaffey and Woodall; Kallio and Borranin.

SOLONS 3, OAKS 2

SACRAMENTO, Aug. 17 (AP)—Deacon Jones, acquired this week by the Senators, hurled his first game for Senators today and won it. Jones beat Creighton, 3 to 2, in a battle line sewed up the series for the Solons.

The score: R. H. E. Solons..... 3 0 0 Oaks..... 2 1 0

Batteries: Craighead and Lombardi; Jones and Koehner.

Fun and Fight Tour For Former Famed Flyweight

LOS ANGELES, Aug. 17 (AP)—Fidel La Barba, former flyweight champion, will now a full-fledged 125-pounder, will embark next month upon a fight and pleasure tour of Europe.

George V. Blake, manager for the little Los Angeles Italian revealed today that La Barba will meet Jackie Mendell, former Los Angeles featherweight, in ten-round bout at Hollywood and then will return for New York whence he will sail for England, September 7.

CINCINNATI 2-3, PHILLIES 3-2 PHILADELPHIA, Aug. 17 (AP)—Philadelphia split a double-header with Cincinnati today before one of the largest crowds of the season in the National League grounds.

But the question was not settled by the world series. Late in the season Evers suffered a broken ankle and was unable to take part in the post-season games.

The interesting four years lessened the interest in comparing individual playing between Evers and Collins, for at that time they were regarded major league veterans and others had come up to challenge their claim as the best second baseman.

The sharpshooters figure that Jack Sharkey's inactivity will hurt him in his match with Tommy Loughran.

CHICAGO, Aug. 17 (AP)—Eddie Collins, at 42, sees action occasionally as pinch hitter for the Athletics.

Champs Stab Sluggers Silly With Long Ridiculed Lefts

Southpaw Mastery Wins Loughran And Mandell Top Place

Pugilistic Artists Convert Ordinarily Useless Glove Into Death-Dealing Tool to Build Fight Kingdoms

By JAY VESSELS
Associated Press Sports Writer
NEW YORK, Aug. 17.—A left to most boxers means a second fist to balance their fighting poses.

To masters like Tommy Loughran and Sammy Mandell, a left is as indispensable as a razor is to a Senegambian. They can do more tricks with their left hands than Will Rogers can with a larf.

But the point is that Tommy and Sammy have taken this ordinarily useless, feck weapon, converted it into a death-dealing tool of war and with it built themselves impressive pugilistic kingdoms.

When Mr. Dostine fan thinks of a champion he likes to vision a big, rough slugging, packing two fists full of dynamite and going over the hills.

Tommy and Sammy are devoid of such exterminating equipment but what they carry has been sufficient to disarm the big threats in their own divisions and now the battling boys in the heavier divisions ahead are the cynosures of their eyes.

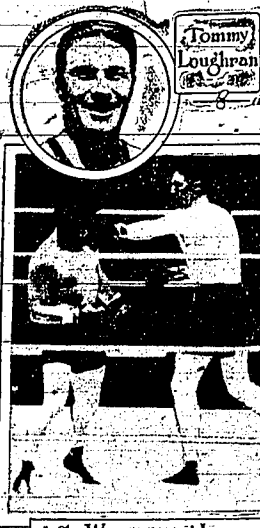

Loughran, rider of the light heavyweights, begins his campaign for the heavyweight championship, September 25, when he meets Jack Sharkey in New York, and Mandell, king of lightweights, takes his first step in the new offensive when he meets the heavyweight in Chicago late in August.

Probably the most interesting tribute paid these fighters is that they have gained rating as elite attractions. This means they have put color into their fighting style with nothing more than an innocent appearing left to work with.

Loughran routinized the erstwhile dangerous Jimmy Braddock into submission in such dazzling style that he became a big time fixture in New York.

At about the same time Mandell turned back Tony Canzoneri in a great exhibition.

And it wouldn't surprise everybody if they showed further contempt for the stars of sock by picking up the new titles they now seek.

left—WALKER and LOUGHRAN

Sammy Mandell

Performing in an era when it's usually slugging or nothing, so far as patrons of pugilism are concerned, Tommy Loughran and Sammy Mandell are getting along right well. They are shown above slashing opponents with wicked lefts.

GOLETS AMATEUR CHALLENGERS

JESS SWEETSER

By BRIAN BELL (Associated Press Sports Writer)

NEW YORK, Aug. 17.—Jess Sweetser's winning score of 214 for 54 holes in the 1929 Victory tournament played over the exacting Sleepy Hollow course, served notice that he is back on his famous game and must be reckoned with in the amateur golf championship.

Sweetser, only native American to win the British amateur title, a feat he accomplished in 1928, suffered a physical breakdown after his triumph and not until last year did he fully recover. The keen edge of his game had become dulled and he could not regain it. He was beaten by George Voigt in the second round of the 1928 amateur, but Voigt played great golf to stop him.

The big Kentuckian, now a resident of New York, won his first important golf title while a student at Yale in 1920 when he captured the Intercollegiate championship. He was runner-up in 1921 and in 1922 won the amateur

championship of the United States. He captured the metropolitan championship the same year and repeated in 1925.

Jess has played on all five of the Walker cup teams representing the United States against Great Britain. Few players, amateur or professional, can swap mangled nibblek shots with the genial and popular Sweetser.

GEORGE VOIGT

By BRIAN BELL (Associated Press Sports Writer)

NEW YORK, Aug. 15.—George Voigt is a golfer of undoubted ability who has threatened repeatedly to win a major championship.

Last year he was the medalist in the amateur with a brilliant 36-hole score of 143, after he had failed to qualify at the Midlands in 1927.

Predictions were freely made that Voigt would move straight into the final with Bobby Jones, as they were in different brackets. The raven-thatched Voigt, however, was defeated in the semi-final by Phil Perkins, British amateur champion, and it was Perkins, not Voigt, who furnished Jones a volley in the final.

Voigt has won many lesser titles. He has had a long lease on the north and south amateur title and he is the only

amateur to capture the Long Island open.

In 1928 he ran through a long string of invitation tournaments, winning most of them. He was not so good a year later and found it hard to get started this year.

The former Washingtonian, now a New Yorker, is a great iron player with a heavy accent on accuracy. He is not a long player from the tee, but normally is a great putter.

The Pebble Beach course, where the 1929 championship will be held, pays dividends for accuracy, and Voigt's enthusiastic supporters declare it is "made for him."

Jackie Fields, knocked out in two rounds by Jimmy McLaughlin four years ago, has hopes to square things when they meet in Detroit this fall.

Rogers Hornsby holds the National league home run record of 42 in one season.

Grover Cleveland Alexander fanned 341 men in 1915, the year he won 21 games for the Phillies.

Coach Pete Pete will have 18 letter-men back for his Indiana football squad.

Richmond, Virginia, has the largest sawworking plant in the world.

The largest baking powder factory in the world is in Richmond, Virginia.

Nice 5-Room Home, 2 50x150 lots, good lawn, garden space, fruit and shade trees, garage and other improvements.

A real buy at \$2750.00; \$1250 cash, balance 2 1/2 years. Will sell furniture. All new.

Max Schmeling To Battle Stribling

KANSAS CITY, Aug. 17.—The Kansas City Star will say tomorrow that Gabe Kaufman, Kansas City fight promoter, has signed W. L. (Young) Stribling, Georgia heavyweight, to meet Max Schmeling, German contender for the heavyweight championship early in 1930.

But the Star will say, will be staged at Miami Beach.

According to Kaufman, Joe Jacobs, Schmeling's manager, will arrive here within a week to sign the contract.

Two North Carolinians Get Aces in Same Day

ASHEVILLE, N. C., Aug. 17.—Two Asheville golfers joined the hole-in-one club on the same day.

George Snyder, playing the public links course, turned in the first hole-in-one on regulation greens of the course making his ace on number 6. H. F. Perkins shot his ace on the seventh hole of the Asheville Golf and Country club course, the same afternoon.

Heavies Will Supplant Missouri 'Pony' Backs

COLUMBIA, Mo., Aug. 17.—The University of Missouri's spectacular "pony" backfield, will be replaced by huge line-crashers this year.

Only Russell Dills, 150-pound back, remains to represent the "ponies." All other prospective backs weigh 200 pounds or more.

Coach Edwin Henry used the all-pony backfield two years ago when their larger teammates were injured. The middle became regulars and won the final championships of the old Missouri Valley conference.

HUNT GRASS FOR GOLFERS
OTTAWA, Canada, Aug. 17.—The perfect grass for golf greens is being sought in tests at the government experimental farm here. The object is to enable more perfect shots.

Richmond, Virginia, has the largest cigar factory in the world.

Allaviata, Virginia, has the largest cedar chest factory in the world.

Babe Ruth may not make his annual post-season exhibition tour this year.

Peter the Great had a horror of crossing bridges.

America always remembers the birth days of its great men.

Russia, like Canada, is a country of magnificent waterways.

Clubs' Bosses Rule Action On Diamond

Cardinals and Browns Find Front Office Victories Differ From Field Scores

ST. LOUIS, Aug. 17.—St. Louis' two baseball clubs have found winning games in the front office is different from taking them on the diamond. The difference is in the percentage column.

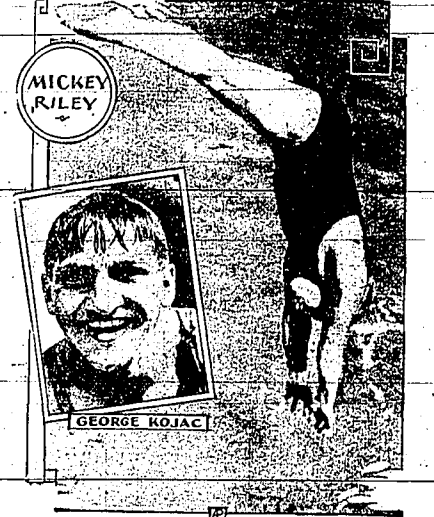

There can't be much doubt that the business offices of the Cardinals and Browns run the teams after the National league champions changed managers in mid-season, and Dan Howley, pilot of the American-leaguers complained the executives dictated pitching selections.

Howley, who brought the lowly Browns into third place last year and kept them there this season, has said he will be out of St. Louis next year.

Sam Breadon, president of the Cardinals, switched pilots this year after the Cardinals took 16 losses in 18 games. Bill McKechnie, banished to Rochester of the International league after his team dropped four straight world series games last fall, was brought back here and Billy Southworth sent to Rochester, which he formerly managed. The Cardinals own Rochester.

Howley, whom Phil Ball, president of the Browns, obtained from Toronto, which he had managed to a pennant, suffered a 16-16 record in 18 games. The Browns in third place all last year and again this year, Howley's team last year was outstanding for its lasting, never-quieting behavior. That is noticeable this year. Howley blames it on office managers.

Nation's Swimming Stars To Compete in Coast Meet

MICKEY RILEY

GEORGE KOJAC

Riley, a titleholder in the junior division, and Kojac, men's backstroke champion, will be among the topnotchers at the national Amateur Athletic union contests in San Francisco August 22-25.

SAN FRANCISCO, Aug. 17.—The established favorites will fight it out with free style title. Blangenburg, now a member of the University of Oregon team, 1929 national Amateur Union 1500-yard breast stroke champion, senior men's outdoor swimming championships here August 22-25.

There will be plenty of room for the new stars to climb to the top now that Johnny Wismuller has turned pro. Consequently there will be a new ruler in the 100-meter free style for first time in six years.

The Juvenile threats include Mickey Riley of Los Angeles and Austin Clapp of Hollywood. Riley won the 1928 national junior high diving title and was runner-up in the senior 10-foot board event. Clapp is national junior mile champion.

Among the "veterans" will be Clarence "Buster" Crabbe, Honolulu, George Kojac, New York City, and Tommy Blangenburg, Alameda, California, all champions.

Crabbe, now 20 years old, was the sensation of last year's meet. He stroked his way to victories in the mile and 800-yard free styles and the 500-meter medley, and is a strong favorite to repeat.

Kojac, not only is expected to cling to his 200-yard backstroke championship but is regarded as one of the out-

Wheat Increases and Carry-over Jam Marketing Machinery

Expeditious Moving Of Grain Presents Serious Obstacles

Winter Crop Piles Into Trade Centers Despite 1928 Surplus Increase of 140,000,000 Bushels

(By The Associated Press) MINNEAPOLIS, Aug. 17.—Expeditious handling of the Northwest's grain crop in August and September a problem with unusual complications. The difficulty arises from the heavy carryover of wheat from last year and the recent rise in grain prices.

In the face of an increase of 140,000,000 bushels of wheat carry-over, receipts at the 123 principal market terminals totalled 112,000,000 bushels between July 1 and August 1. From that figure it is observed that the crop of winter wheat has been piling into trade channels at a tremendous rate. Receipts for the same period last year were only 89,000,000 bushels. To complicate matters further, the spring wheat carry-over of 1,000,000,000 bushels will start to market in September.

Heavy Carryover
The carryover from 1928 had left 44,741,000 bushels of wheat in farm storage July 1, as compared with 22,729,000 bushels last year; 46,279,000 bushels as against 31,029,000 in merchant mills, and 90,501,000 bushels as against 39,587,000 bushels in the visible supply or that amount actually in trade channels.

Including grain afloat, the world's available supply was estimated at 251,000,000 bushels as against 245,000,000 in 1927. Reports from principal wheat producing countries concerning present production, however, lead to anticipation of a substantial reduction in the world supply as compared with last year. The federal farm board, discussing overworked terminals and transportation facilities, observes that "wheat on the market faster than existing facilities can handle it, resulting in cash prices falling much lower than contract prices for future delivery."

Previously, the department of agriculture has recommended farm storage to stabilize prices. **Board Protagonist**
The chief protagonist in the annual autumn battle for orderly marketing is the Northwest Shippers' Advisory board, composed of representatives of carriers, shippers, elevator operators, farm organizations, stock raisers, commissions and traffic experts. During the last decade this group has been able, through careful planning months in advance, to reduce grain "tie-ups." Before its creation, tie-ups were notorious in the northwest and in many shipping points grain was so abundant and cars so scarce that great piles of wheat stretched along the right-of-way.

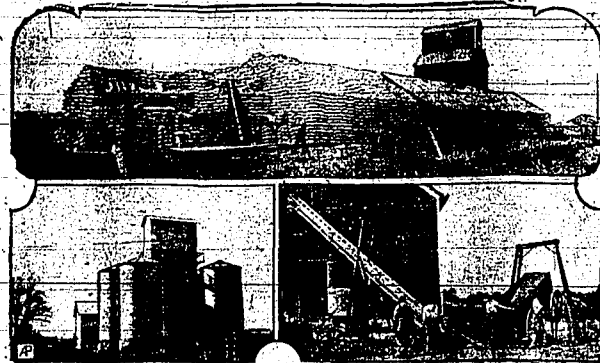

Still unsatisfactory port and terminal situations confront shippers this year. The working capacity of terminals at Minneapolis, St. Paul, Superior and Duluth is 65,500,000 bushels. About in middle of July these elevators had 52,228,000 bushels on hand with available space for only 32,250,000 bushels.

Sale of Army Salvage Brings in Large Sum
WASHINGTON, Aug. 17.—The United States army is one of the world's biggest old-horse-baiters and ragmen. More than \$24,000,000 has been returned to the United States treasury from salvage sales in the last 10 years. The army's junk heap is enormous. The money comes from the sale of old metals, rubber, rags, bottles, hair, horse bones. Last year the sale of dead animals alone amounted to \$17,709,116. An average year's sale of army surplus junk amounts to more than \$1,000,000.

NEW GUINEA PROSPERS
SYDNEY, Aug. 17.—Dr. Ivan Wisdom, administrator of New Guinea, formerly a German colony and now an Australian mandate, has reported a striking progress in trade there since 1926. Great stretches of the country remain to be explored and he offers particular facilities for cattle raising.

Minnesota's potato farms draw many tourists each summer.

ALASKAN FRUIT MEN WANT HARDY TREES

United States Experiment Station Begins Research for Toughened Varieties

ANCHORAGE, Alaska, Aug. 17.—Attempts to develop hardy varieties of fruit trees adapted to Alaskan conditions have been started by the Matanuska experiment station of the United States department of agriculture.

Several hundred trees, including different varieties of apples, pears, cherries, and plums will be planted during the year. Dr. H. W. Albert, director of the experiment station, announced. These will be tested for their adaptability to the climate of the region. The experiment station also plans to develop new varieties in an effort to produce fruit that can be grown in the territory.

Many of the varieties which are being planted this spring, originated in Siberia and were obtained through the bureau of foreign plant introduction at Washington. Dr. Albert said. "It will take several years before these hardy tree produce fruit."

"As soon as hardy fruits adapted to Alaskan conditions have been developed, they will be distributed to settlers as the small high fruits were distributed heretofore."

The experiment station has developed several varieties of bush fruits such as currants, gooseberries and raspberries. These were distributed free to settlers.

Scrapped German Ships To Become Plowshares

RUHRPORT, Germany, Aug. 17.—Dutch lighters brunt the broken hopes of the German empire to this river port. The cargoes consisted of scrap steel, remnants of the German High Seas fleet scuttled by the crew, at Scapa Flow after surrender to the British.

The scrap goes to the Krupp smelting furnaces, to be turned perhaps, into plowshares. "This the proud units of the imperial navy return to the place whence they came. They armor plates, steel turret and other fixtures were fashioned at the Krupp works, which out of the remains of death dealing engines will now manufacture domestic ironmongery."

until they were considered beyond the experimental stage. Alaska's "hemp fruit" imports total hundreds of thousands of dollars. In charge of the experimental work in Alaska, hope to enable the territory to produce as much fruit as possible as a means of reducing the cost of fruit to the consumer.

BRITISH SMOKE HEAVILY
LONDON, Aug. 15.—Nearly 60 million pounds of tobacco were smoked in the United Kingdom in the first five months of this year, an increase of 4,000,000 pounds over the same period in 1928. The Tobacco World also states that \$3,253,000 cigarettes were consumed in the latter year.

A Washington baker delivers bread already sliced.

America leads in airplane production.

TEXAS POTATO GROWERS TO ASK FARM BOARD AID

BROWNSVILLE, Texas, Aug. 17.—A loan of \$250,000 or more, will be sought by the federal farm board by the Lower Rio Grande Valley Potato Growers' association.

F. B. Lathan, president, has announced that the money, if secured, will be used to stabilize market conditions for Texas growers. The association, entirely operated by farmers, has nearly 70 members, including more than 80 per cent of the potato growers in the lower valley district. It controls 70 per cent of an area exceeding 8000 acres.

Home of Messiah Chorus Celebrates Anniversary

LINDSBORG, Kan., Aug. 17.—Lindsborg, home of the noted Messiah chorus, celebrates its golden jubilee anniversary this month.

Birth of the Messiah chorus came in 1883, when the oratorio was presented for the first time. Since then Lindsborg's festival weeks have attracted many of the world's best known musicians.

The little town was founded 50 years ago by a group of Swedish immigrants. In a log cabin they organized McPherson county and named Lindsborg its county seat.

The feat of being elected to congress successfully as a Farmer-Labor candidate and a Republican was accomplished by Representative F. H. LaGuardia, now a candidate for mayor of New York.

BASKETS TO REPLACE BARRELS FOR APPLES

Time Brings Changes in "Keep-the-Doctor-Away" Industry in Virginia

MARTINSBURG, Va., Aug. 17.—Time has wrought changes in the Shenandoah valley, cradle of a 6,000,000-barrel apple industry.

Basket packing is displacing the time honored barrel as the temporary container for the fruit on its journey to market, and a comforting slinker of sod adding a further touch of color to the scene in the summer is spreading through the orchards. These are the changing conditions as viewed by Carroll R. Miller, secretary of the Berkeley County Fruit Growers' Association, that are taking place in this great apple belt that separates the Virginia-West Virginia boundary line.

In that valley belt, the growing of apples has become a great business in the last 30 years, and today the extent of the operations of some growers rivals that of the old cotton plantations of the south and the cattle kingdoms of the west. There are scores of growers who individually produce and market 40,000 or 50,000 barrels annually.

New York state growers are expected to visit the state on their August pilgrimage. Community packing houses have made a little headway in the Shenandoah due to each plantation's necessity for a pack-

Prefixes Replace Early Writers' Fancy Phrases

RED CLOUD, Neb., Aug. 17.—Press agents in the "Big old-time" have the prefix "later" and the flood phrases of the modern to play with, but they looted a mean paragraph anyhow. Fifty years ago the coming of a circus to Red Cloud was announced in this fancy fashion:

"A moving metropolis of marvels, Anderson and Company's monster European, Asiatic, African, American, Arctic, and Antarctic world's menagerie and great international change circus! The mightiest confederation of living lessons, moral and mythical amusements earth has ever known! The largest and rarest wild beast concentration since the Deluge!"

ing plant of its own, Miller explained. Concentrating around the Virginia-West Virginia line with Frederick county, Virginia, and Berkeley county, West Virginia, the heaviest producers, the 4,000,000 barrel crop comes from approximately 10,000,000 trees, 40 per cent of which are not yet heavy bearers.

The New York imperial apple still predominates although no recent plantings have been made.

REFUSE THEATRE SUBSIDIES

STRASBOURG, France, Aug. 17.—The French cabinet this year refused to give the usual subsidies to national and municipal theatres here because the mayor and city council are all autonomists and some of them are also communists. Frenchmen criticized the action as detrimental to the effort to teach Anatolians to use the French language.

TINY ARKANSAS PASTURE FEEDS HERD OF 10 COWS

CONWAY, Ark., Aug. 17.—Feed sufficient for a herd of 10 cows had been grown on a tract of one and one-third acres this year by B. D. Mohr, 74-year-old farmer. One acre planted in alfalfa and a third of an acre in oats. Each day he cuts just enough for two feedings, and the crop has more than filled his need. As one subdivided plot is cut, another is maturing.

Coast Exhibition Shows Rare Raphael Painting

SAN FRANCISCO, Aug. 17.—Kept from the public eye on the island for nearly a century, an early Raphael oil painting, the Madonna of Ovetto, is being privately exhibited here by the German count, Werner Otto von Henning.

It will remain in San Francisco until removed to a Latin European palace, the location of which he declines to reveal. Count von Ugelsh and Lottum purchased the rare canvas about 1850 while Prussian ambassador to the Two Sicilies. Its value today has been estimated at from \$250,000 to \$750,000. The canvas, was painted about 1507 and was purchased by Bartolomeo Arco for Ovetto's church when he was knighted. About 1609 it was sold to a dealer. It then came into the hands of the Prussian noblemen.

A portrait of Jacopo Palma in 1529 representing the martyrdom of St. Bartholomew, has been discovered in Como, Italy, and has been restored.

Current Trends and Happenings Claiming Comment in the Realm of Women

NINE WOMEN TAKING PART IN HOOVER'S WELFARE PROGRAM

Educators Characterizing President's Project as Greatest Children's Work Undertaken in America

By SUE McNAMARA
(Associated Press Feature Writer)

WASHINGTON, Aug. 17.—Nine women appointed by President Hoover will take part in what educators characterize as the greatest child welfare project ever undertaken in America.

What each will do has not been determined. But as White House guests at the president's first committee conference they were thrilled to alternate smiles and tears at the gigantic scope and possibilities of this plan.

They heard the man who was once a poor orphan boy and now head of the nation cite as concrete aims things which they have only dared dream of. Every woman's face around the White House conference table was beaming over what is hoped to be accomplished for children in the next few years.

Preventive Measures
The president's program includes preventive as well as remedial measures designed to do away with much of the illness to which children are now subjected. Infantile paralysis is one of the diseases which it is hoped can be overcome by scientific study.

The committee which will work to bring about these things includes Mrs. Grace Abbott, head of the children's bureau of the department of labor; Mrs. Grace S. Burlington, St. Louis; Gertrude B. Lede, editor Woman's Home Companion, New York; Mrs. William Brown Meloney of the New York Herald Tribune; Mrs. Elizabeth A. Perkins, Evanston, Illinois; Mrs. Raymond Collins, Brooksville, Florida; Mrs. F. Louis Slade, New York City; Dr. Louise Stanley of the bureau of home economics; and Mrs. Elma West of Fort Harnon, Michigan.

Executive sub-committees are to be appointed to direct the research which will be the first step. The first conference of committees will be held in Washington the latter part of next year.

Office Opens
Dr. H. E. Barnard, executive secretary of the committee, has opened an office in the department of the interior building here.

"We want experts in research rather than experts in emotionality," says Dr. Barnard. "The story of the Good Samaritan has always held a sentimental appeal. But today we go further and ask: why was there a beggar by the side of the road? In this age of progress there should be no need of Good Samaritans. Every child should be given such a good start in life that charitable aid would not be necessary."

Mrs. Viola Hitcher at 28 Becomes Grandmother

OKLAHOMA CITY, Okla., Aug. 17 (AP)—Mrs. Viola Hitcher was research work 15 years old, has born nine children and is a grandmother at 28. The grandchild was born to Mrs. Hitcher's oldest daughter, Mrs. Hanson A. Rice, who was married at 12.

California has 29,877,200 acres of land, of which 28,000,000, or about one-third, are in farms.

Java contains fully three-fourths of the population of the Dutch East Indies.

Winter Handbags Will Carry Wooden Inlays

PARIS, Aug. 17 (AP)—Handbags with inlaid decorations are sport of motor accessories shown by a designer here.

The sacks are envelope form with flap on front side formed by the wooden inlay, on felt or tweed backs.

The tendency in advance winter handbags is toward incursions on heavy wool fabrics added to the costume. Wood mountings are shown on many clasp bags.

NEW FASHIONS TEND TO SCANTIER COATS

Lengths of Garments Involve Fractions; Sport Costumes Remain Long

By BARBARA BEAUFORT
(Associated Press Fashion Editor)

PARIS, Aug. 17 (AP)—The new coats and suit coats involve fractions. They are developed in three-quarter, seven-eighths and five-eighths lengths, particularly in tweed. Many fabric fur coats are several inches short of the hemline.

Only motor and utilitarian sport costumes retain the hem-long coat length. Motor styles have long tweed coats over tweed skirts, and most of the double-breasted coats are belted in the fashion of trench coats.

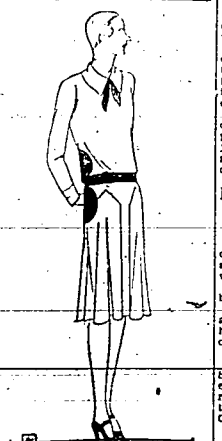

For sports wear some of the newest tweed costumes have waist-coats meant to take the place of an extra sweater worn under the suit coat. Some sports linings here favor three-quarter coats for sport suits of tweed, but the majority still show the shorter jacket, close to a finger-tip length.

Men's black and white tweed is being shown despite its long run of popularity. There are also dark blue and white mixtures. Dark browns and fawn beige tones are as good as ever for the classic tweed sport suit.

The yellow-jacketed summer suit and unsuitably-in summer sport styles, has largely disappeared in the autumn models.

Java is most widely known for its coffee. This is grown at medium elevations, 2000—5000 feet.

British Women Show Mathematical Genius

LONDON, Aug. 17 (AP)—British women have better heads for figures than their brothers, but the intricacies of auditing and accounting lure few of them into that sort of work as a regular occupation.

Such is the state of affairs indicated in a report of the Society of Incorporated Accountants and Auditors.

Out of 916 candidates participating in the recent examinations held by the society, only eight were women. But of these, five were successful, while the majority of the male candidates failed.

CONGRESSMAN'S WIFE ACTS TO MAKE LAWS

Atlanta, Georgia, Woman May Follow in Husband's Steps in Legislature

ATLANTA, Ga., Aug. 17 (AP)—An "Old fashioned Democrat" may be added to the list of women representatives in congress.

Mrs. George Brown, wife of the Fulton county (Atlanta) representative in the state legislature, and a civic leader in Atlanta, was the first to announce her candidacy for the place as representative from the fifth Georgia district made vacant by the death of Leslie H. Stearns.

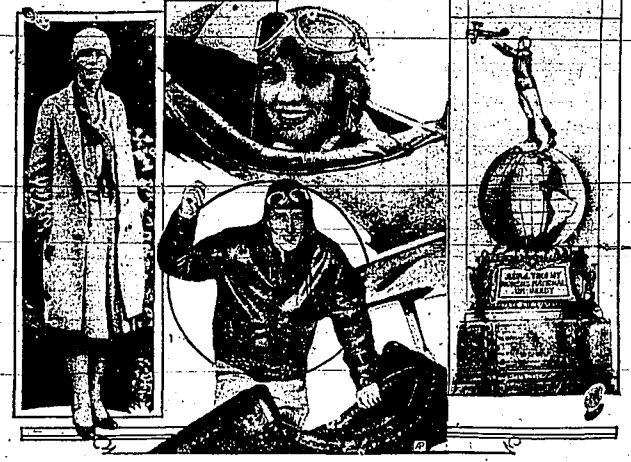

An election to name a successor to Mr. Steele has been called for October 15.

Mrs. Brown spends much of her time in the halls of the Georgia legislature, at the desk of her husband, because of a keen interest in public affairs.

The candidate is an advocate of greater economy in government and of sound public policy to protect the American laborer and farmer, and old age pensions.

The place Mrs. Brown seeks once was held by William D. Upham, who ran on the anti-Smith platform in the 1922 elections, and is the post which Bobby Jones, the golfer, both Jones and Upham have said they would not be candidates for the post, others have announced for the post.

Women Fliers' Skill Will Get Crucial Test In Competition During National Air Derby

Among the feminine pilots to compete for the "Symbol of Flight" trophy (right) in the California-Cleveland air derby will be Amelia Earhart (left), Bobby Trout (lower center) and Mrs. Blanche Noyes.

CLEVELAND, Ohio, Aug. 17 (AP)—Women's skill in aviation will be tested in the National air races at Cleveland, Aug. 20 to 26.

Their interest already evidenced spectacularly in ocean flights and in endurance and altitude tests, women fliers have opportunity to prove their skill and self-reliance in a derby across the continent from Santa Monica, California, to Cleveland and in closed course events reserved for them.

When the women's derby was proposed there were protests. Women fliers had too little experience, objectors said; it couldn't be done. Men must go along to aid them.—The flight was too long for women.

But all protests were overruled. More than a score of the 57 licensed women pilots have entered the air race events. Among them are Amelia Earhart, Bobby Trout, Eleanor Smith, Louise McFetridge Thaden and Mrs. Blanche Noyes of Cleveland.

No men will be allowed to accompany them.

Starting at Santa Monica Sunday, August 18, the derby flight will be by easy stages across the continent with a final dash at the Cleveland Municipal airport, August 26.

The first day's flight will be a short hop to San Bernardino. Monday two hops will carry the women fliers to Yuma and Phoenix, Arizona, where they will spend the second night. El Paso, then a stop at Tucson, will be the goal of the third day's flight, and Wednesday they will fly to Pecos, Midland and Abilene, and Abilene in Texas.

Thursday's flights will be to Fort Worth and Dallas, and Friday they will push upward across Oklahoma to Wichita, Kansas, with stops at Oklahoma City and Tulsa. Saturday will carry them across Kansas and Missouri to St. Louis with a stop for fuel and luncheon at Kansas City.

Stopping en route at Terra Haute and Indianapolis—the contestants will spend Cleveland Monday afternoon.

A huge trophy—"Symbol of Flight"—worth \$500 in cash prizes await the winners.

PHILIPPINE FRUITS FOR YANKEE PLATES

Preservation of Island Delicacies for Shipment Is Research Aim

MANILA, P. I., Aug. 17 (AP)—Such luscious Philippine delicacies as mangoes, guava and pomelo-pear some day may grace the American dining table.

These native fruits of the Philippine Islands are little known outside the islands because they will not keep until they reach a foreign market.

The Philippine government is developing a packing system for perishable native fruits. They then can be shipped to America and Europe.

By an appropriation by the Philippine legislature, two women are studying the subject. They are Miss Maria Orosa, chief of the food preservation department of the Philippine bureau of science, and Miss Isabel de Guzman, daughter of a Filipino "fancy" whose domain extends over 40,000 acres.

They are now studying American canning methods in the United States and later will go to Europe.

Miss Orosa said excellent results had been obtained in preserving many native fruits with a process similar to that used by American housewives. Miss de Guzman is the pioneer packer of native fruits in the islands.

From an economic standpoint, preservation of the fruits would mean much to the Philippines. A foreign market for the fruit would mean an increase in the soil's productivity. Now only 15 per cent is under cultivation.

But there are many difficulties to overcome, Miss Orosa said. Modern packing machinery unknown; plants are expensive, and Filipino fruit growers are ignorant of mass merchandising possibilities.

Loosely-Woven Cheviot Goods Find French Favor

PARIS, Aug. 17 (AP)—Loosely-woven cheviots are being pushed by important French woolen manufacturers in a winter fabric for day-time clothing.

Dark blue, black and slate gray, blues and greens are the leaders.

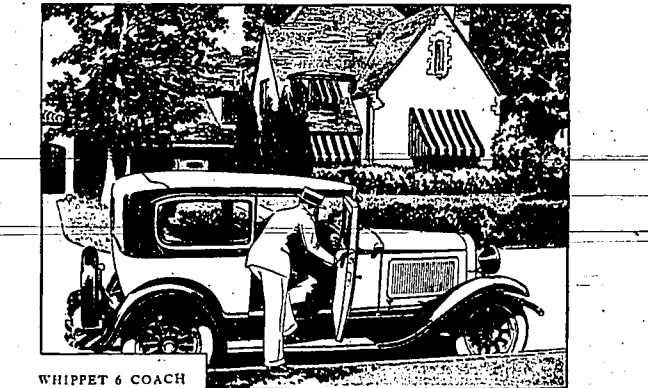

These fabrics are being favored by some as a possible winter favorite. Many houses are also showing pinstriped and olive-green shades.

The heroism of Gustav Lindbergh, a Swedish officer, who landed his plane with one hand while he restrained a half-crazed passenger with the other, has been recognized by the Carnegie Foundation.

The thrashing dinner, prepared by the farmer's wife, is a tradition in Ohio. Many of the wives this year transported the thrashing hands to urban restaurants.

Remains of a Roman bath have been discovered in excavations at Pöschel, Germany, on the Moselle river.

FEATURE FLASHES FROM FAR-FLUNG FOREIGN FIELDS

Hot-Blooded Cubans Still Resort To Duels Despite Official Edict In Settling Various Differences

Famous Old Plaza de Armas in Havana, Where Spanish Dons Once Took Wrongs, Actual or Imaginary, for Decision, Now Merely a Park Wherein Aged Bask in Sun and Young Play

(By The Associated Press)
HAVANA, Aug. 17.—The famous old Plaza de Armas in Havana, where Spanish Dons once took wrongs, actual or imaginary, for settlement by duel, is now but a mere park wherein the aged bask in the sun and the rising generation play beneath the gigantic "Cuba" trees that once filtered early morning light on battle blades or shining pistols.

The Plaza de Armas passed into history as a dueling field some 10 years ago when the Cuban government ruled against settlement of differences between gentlemen on the field of honor and imposed drastic punishment for violators.

The law reads that there shall be no dueling, but the proud blood of Cuban manhood demands personal satisfaction for injuries or insults. The habits of generations of Spanish grandees have not yet been eclipsed by the swift strides of modernity in Cuba. Dueling remains, but its seldom heard of publicly.

Class figures continue to make their stealthy way through the still morning hours to isolated and secluded spots near Havana, there to settle grievances with a blade. Automobile whirling through Havana streets in the very early morning hours conveys a morose young man who has just exploded his wrongs on the field of honor. Entrance into a hospital is the usual result of a duel; death under the report of a spiteful poisoning. So it is said.

There is an occasional report of a duel in newspaper newspapers, but not often. It is considered more expedient and sensible to ignore dueling than to trace down the participants and thereby open wide an official eye now slowly closed to sanguinary settlement of personal quarrels.

Fencing centers flourish in Havana. Young men and old practice there for the express purpose of "keeping fit." One of the most efficient fencing schools in all of Cuba is at the Havana Republic club. Cuban reporters who are allowed the privilege of occasional expression in editorial comment in news stories are often principals in encounters.

Politicians may be chased around for they often enter into heated argument on the street and end in a palm reeve with pistol or blade. Just recently two federal senators entered an impassioned argument which found its release on the field of honor.

The demand for personal satisfaction entered on the floor of the senate. A mere scratch raised the incident. Satisfaction had been secured. The men are now on friendly terms. The law passed up the incident.

Cuba may claim to have blotted out dueling, but Danie Ripper luth it that it is always to know how to parry, and thrust, and fire and the centuries of the true Cuban, who, although boyish, blithe and debonair, can often become old and gruff in the century when it comes to blotting out insults in blood.

PHILIPPINES REJECT VOCATIONAL SCHOOLS

Program of Governor General Davis for Manual Training Fails to Please

(Associated Press Correspondent)
MANILA, Aug. 17.—An announcement by Governor General Davis, shortly before he left the United States, that his program in the Philippines would include the vocational training of the young has met with an apathy here. It is felt that it is useless to work along that line until a demand for vocational training has been created by the economic development of the country.

Indicative of the feeling on the situation, the Manila Daily Bulletin remarked editorially: "If they would popularize vocational education they may meet with a curriculum with courses in platform construction, political fence mending, wire pulling and stump speaking."

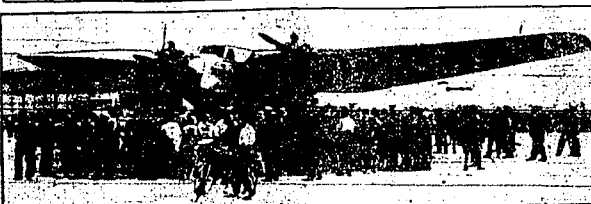

The speaker meant what is obvious to everyone in the islands—that the country leans toward politics rather than toward manual training. But there is more to it than that just. As this is the Philippines today, the youth seeking a career must turn to politics or to the military profession, or to a market for vocational ability.

For instance, the young man without capital who goes to an agricultural school is better off than if he were never taken the training. Unable to set up his own farm, he is forced to work as an ordinary farm hand at from 30 cents to \$1 a day.

Dr. Luther Bewley, director of education, thinks that the islands now already have more vocational schools than are needed.

"Unless we can develop this country economically so that vocational education will become necessary to the majority of the boys and girls will not study in agricultural or trade schools. They will always prefer to prepare for professions or commercial life."

Russians Take Off En Route to America

THE "LAND OF THE SOVIETS" (above) is attempting a Moscow-New York flight over a little-charted area as shown by the map. The crew-of-four consists of (left-to-right): Dmitry Y. Fufayev, mechanic; Philip E. Bolotov, second pilot; Boris V. Sterligov, navigator, and S. A. Shestakov, first pilot.

Aviation Lures Hundreds Of Italian Air Aspirants

CASERTA, Italy, Aug. 17.—The Royal Aeronautical Academy here, training school for Italy's future fliers, is receiving hundreds of aspirants for enrollment from all over the kingdom. Its fall term opens October 10, but the final list of accepted aspirants will be made up before that date. The new code, which will replace the four codes introduced after the partition of Poland by the Russians and Germans, will bring all parts of the country under a single system. Until the passage of the new code the jury system was used before that date, which was Austrian before the war.

Members of the Polish feminist movement object to a jury system which provides that no woman can serve on a jury. They argue that the Polish constitution gives equal rights to men and women and says that "public offices are available to any citizens."

CHILD ARTIST SHOWS PAINTINGS IN LONDON

LONDON, Aug. 17.—Peaky Bonville, 11, is holding her remarkable annual art exhibition here with 52 paintings on the line, including a number of "happy scenes."

Her first exhibition was held eight years ago under the auspices of the Royal Drawing Society. Last year her oil paintings were all sold on the first day of the exhibition.

Painting comes natural to Peggy. Her father is Charles Somerville, a landscape and portrait artist, and her four brothers and 14-year-old sister, also are artists. She is getting to be a rapid worker, some of her best oil having been turned out in half an hour.

As might be expected, she hates arithmetic but likes music, literature and dancing.

French Menage Fearful Of Foreign Competition

PARIS, Aug. 17.—French medical students are trying to prevent the government from granting special privileges to foreign students.

They object in a petition sent the government from their own special provinces to foreign students.

They object in a petition sent the government from their own special provinces to foreign students.

Finnish Officials Insist On More Pay

HELSINKI, Finland, Aug. 17.—The threat of a strike by government officials of Finland because they haven't had a raise in salary is facing the newly elected Finnish Diet. The former Diet was dissolved on the grounds that it had not supported the bill to raise the salaries of government officials.

The Cabinet hoped by new elections to obtain better support for the case of the officials, but the result was the exact opposite. The Cabinet's own party, the Progressives, lost three seats, the Swedish People's party and the Social Democrats each lost one seat, and the Conservative Finnish party lost seven, while the opposition parties, Agrarians and Communists, gained seven and five respectively.

When the new Diet gets to work there probably will be a heated battle with the Cabinet over the salary question. Organizations of government officials have been working throughout the country seeking to force what most people agree are reasonable demands.

The threats of strike was used last spring but withdrawn in view of the approaching elections, but it has reared its head again, and it is expected may have an official-less government. The new Diet will consist of the following members: Social-Democrats, 50; Agrarians, 50; Finnish Conservative party, 27; Communists, 25; Swedish People's party, 23; and Progressive party, 7.

BAR SCANT GARB
MUNICH, Aug. 17.—Women wearing short, sleeveless dresses will hereafter be barred from meetings and social affairs of the Catholic Bavarian Federation of Munich. The action was taken to support the efforts of Bavarian church officials to do away with scant garb.

ITALY BARS AUTO HORNS
ATENE, Aug. 17.—In an effort to curb street noises the police have banned automobile horns during the hours of the afternoon siesta and at night. Fine playing, shouting of news boys and shrieking by peddlers are also forbidden during those hours.

Prisoners of war are being sent back to their homes in Germany. The two weeks annual vacation is planned only for long-term prisoners with exceptionally good records.

The division of the prisoners into categories or classes, Judge Genz said, is a measure to prevent continuation of first offenders by habitual or confirmed criminals, and to offer special advantages to those mentally equipped for education.

In the sections for nearly all ages and types, except the incorrigible and mentally deficient, self-government will be instituted in the hope of developing in the prisoner a sense of respect for the self made laws of a democracy.

Proving what thousands already know . . . that here is America's finest medium-priced automobile.

BOTH SEX EQUAL IN NUMBER OF BIRTHS FOR 30-DAY PERIOD

Report at Office of Statistician Show 16 Girls and 16 Boys Born in Month; Score of Deaths on Record

There were 16 males and 16 females born in Twin Falls county during the month of July, according to reports filed by physicians with Dr. D. M. Cowell of the Twin Falls county health unit. The total number of deaths in the county during the period was 20. There were five deaths of infants under one year and three accidental deaths. The infant death rate was in the ratio of 143 to 1000 births.

The following is the list of births as reported:

- July 2—Mr. and Mrs. Clyde Woodhead, Twin Falls, boy, Clyde Woodhead.
July 3—Mr. and Mrs. Woodhead Julian Hills, Kimberly, boy.
July 3—Mr. and Mrs. Everett Fuller, Murtaugh, boy, Eugene Fuller.
July 3—Mr. and Mrs. Charles George Gentry, Murtaugh, girl, Helen Louise.
July 4—Mr. and Mrs. Leo Stuegelin, Twin Falls, girl.
July 5—Mr. and Mrs. Harlan See, Dahl, girl, Norma Marie See.
July 7—Mr. and Mrs. Benjamin Stahl, Piler, boy, and Mrs. Orla McEwen, Kimberly, girl, Florence Kay.
July 8—Mr. and Mrs. George Schach, Taylor, Twin Falls, boy, Robert Allen.
July 8—Mr. and Mrs. Gordon Rahn, Dahl, boy, Leo Rahn.
July 8—Mr. and Mrs. Vernon Gady, Boyd, Piler, boy, Richard Grant.
July 10—Mr. and Mrs. John R. Strate, Piler, boy, William Ray.
July 10—Mr. and Mrs. Frank C. Anderson, Twin Falls, boy, Norman.
July 10—Mr. and Mrs. Earl J. Adkins, Hollister, boy.
July 10—Mr. and Mrs. Charles Henry Thiberton, Twin Falls, boy.
July 13—Mr. and Mrs. Ralph Smith, Hansen, girl, Mary Lou.
July 13—Mr. and Mrs. Frank LeRoy LeRoy, Twin Falls, girl.
July 14—Mr. and Mrs. Jacob DeWald, Kimberly, girl.
July 15—Mr. and Mrs. George Ray Henry, Twin Falls, girl, Lela Josephine.
July 18—Mr. and Mrs. Marion Russell Bebout, Eden, girl, Elizabeth Jean.
July 18—Mr. and Mrs. George Washington, Twin Falls, girl, Amy Elaine.
July 18—Mr. and Mrs. George Miles White, Twin Falls, boy, George Miles.
July 19—Mr. and Mrs. Lee Roberts, Twin Falls, girl, Betty.
July 19—Mr. and Mrs. Jack Lee Callamer, Twin Falls, boy.
July 20—Mr. and Mrs. Joseph J. Miller, girl, Helen Patricia.
July 22—Mr. and Mrs. John Leonard Turner, Twin Falls, son, Gene Roy.
July 25—Mr. and Mrs. Vern W. Arj, Twin Falls, boy, and Mrs. Neoph W. Arj, Twin Falls, boy, Jerome.
July 25—Mr. and Mrs. Avery Ward Robinson, Twin Falls, boy.
July 26—Mr. and Mrs. Thomas Timbers, Piler, girl, Patricia.
July 27—Mr. and Mrs. Stratton, Twin Falls, girl, Telva Ruby.
July 29—Mr. and Mrs. Paul Edward McKinley, Twin Falls, boy, Donald Alton.

The doctor believes that the cause of the death is encamped around a large lake in the sky which, when it overflows, causes rain upon the earth.

Many savage races do not believe in natural death, and if a man dies without being wounded, he is the victim of magic.

The Veddas deserted their cave homes whenever any one of them died, as did also the Australian Blackfellows and other savage hordes.

Allow 1000 slinches and five pounds of nails to each 100 square feet if the slinches are to be laid 4 inches exposed to the weather.

One-half of the world's rain receiving areas is in the United States.

Intricate Federal Arbitration System Fails in Australia

PRIME MINISTER TO SUBMIT BILL ENDING INDUSTRIAL CONTROL

Decision Outcome of Long Struggle Between States and Commonwealth, Each Side Claiming Authority

By HUGH ALLAN (Associated Press Correspondent) CANBERRA, Australia, Aug. 17.—After 25 years' chequered career the bottom has fallen out of the vast and intricate structure of the Australian federal arbitration system.

Prime Minister Bruce has announced that legislation will be introduced in the next session of parliament abandoning federal control of industrial conditions and, with exception of shipping and waterside industries, surrendering the entire field to the six states.

This decision, so far as Australia is concerned, arises out of a long drawn struggle between the states and the commonwealth, each claiming the fixing of wages, hours and other conditions governing industry, as its own province.

Employment of labor, harassed and weary of conflicting and overlapping laws, has clamored for unification of industrial laws. Each state has had its own, and the federal government has super-imposed yet another set of statutes.

Go to Federal Courts

Any body of employees discontented with what it had extracted from its state courts, would seek to create what is known as "an inter-state dispute," giving it access to the federal court. Having got an award there, the union would proceed to pick "eyes" out of both the state and federal award, and insist by strike or threat of strike—a weapon often resorted to although declared illegal under the arbitration laws—upon enjoying the best out of each award.

By this means, wages have progressively risen and hours have fallen, and so tangled has become the web of state and federal laws that awards that it has become impossible for either the states or the commonwealth to retire from the field.

It was argued that with the commonwealth in control conditions in an industry would be identical throughout the continent. But the federal government failed to induce the states to adopt this course and was obliged by the constitution to put it to the country by referendum. This was done in 1926. The workers, however, were apprehensive that the change might be detrimental to them, and by a big majority the proposal was rejected. The situation has since gone from bad to worse until the prime minister has been driven to announce the government decision to repeal federal industrial legislation.

This has caused uneasiness among employers in many industries. The difficulties of the situation are well exemplified in the theatrical industry. The wages, hours and most petty details of the employment of actors, musicians, singers and stage hands are governed by awards. When the decision of the federal government is put into effect a company, on a tour of the six states, will be subject to six entirely independent sets of laws and awards with varying hours, wages and conditions.

Another effect is that differing rates of wages and hours in a given industry establish enormously varying costs of production, affecting interstate, import and export trade in a most capricious fashion.

Road Bulletin

Idaho State Automobile association. Information contained herein is compiled from reports received from the district engineers, by courtesy of the state bureau of highways.

IDAHO-MONTANA HIGHWAY: Idaho Falls to Roberts good. Roberts north sections good. Unimproved sections to Dubois and Montana line improved sections rough. Mondia to Lima fair. Lima to Dillon good; six-mile detour into Dillon. Dillon to Butte good; six-mile detour four miles north of Dillon over a country road.

IDAHO CENTRAL HIGHWAY: Mountain Home to Tollgate good. Tollgate to Hill City and Halley in good shape. Bellevue to Arco. Home and Dubois fair, some gust holes.

OLD OREGON TRAIL: From Portland, Oregon, east to Pendleton good paved or oiled median road. Pendleton to Idaho line good with exception of several short stretches of construction. Ontario to Caldwell fair. Caldwell to Parma seven miles oiled road west of Parma. Parma to Caldwell rough gravel. Weiser to Caldwell oiled and in very good shape. Caldwell to Boise via Nampa, oiled or paved. Caldwell to Boise via Starr rough gravel to Star. Star to Boise paved. East from Boise to Mountain Home six miles oiled road, balance gravel. Resurfacing and oiling operations in progress. Mountain Home to Bliss, Bliss, Pizer, Twin Falls and Burley oiled or paved. Burley to American Falls gravelled. Oiling in progress. American Falls to McCammon all-oiled or paved. McCammon to Soda Springs and Wyoming line good gravel.

RAFT RIVER HIGHWAY: Utah line to Carthel, five and one-half miles graded, balance surfaced, all in good shape.

NORTH SIDE HIGHWAY: From

ooding to Wendell, Jerome, Rupert and Declo all surfaced in good shape.

SAWTOOTH-HIGHWAY: Nevada line to Twin Falls good. Getting rough in spots due to dry weather. Oiling from the bridge to Jerome. Good to Shoshone. Shoshone to Halley via Richfield good with exception of five miles west and north of Pagari. Shoshone to Halley via Timmerman Hill fair, rough in spots. Halley north over Galena Summit to Stanley, Challis, Salmon and the Montana line good.

NORTH AND SOUTH HIGHWAY: Weiser to New Meadows good. New Meadows to Riggin's good. Riggin's to Whitebird good. Whitebird to Lewiston, Moscow and Pottahatch good. Pottahatch to Harvard fair. Harvard to Emida good. St. Maries to Harrison, surfaced portion good, balance fair, but dusty. Harrison to Wolf Lodge fair. Wolf Lodge to Coeur d'Alene. Coeur d'Alene north to Sandpoint eight miles unimproved section good except dusty, balance good. Sandpoint to Fort Hall good.

SCOTTENAI HIGHWAY: Bonners Ferry to Montana line, all surfaced and in good shape. Branch road east to Eastport, Coeur d'Alene fair.

COEUR D'ALENE-YELLOWSTONE TRAIL: Washington line to Coeur d'Alene concrete pavement. Coeur d'Alene to Millen good. Millen to Montana line fair. Montana line to Missoula good.

CLARKS FORK HIGHWAY: Washington line to Sandpoint 12 miles unimproved, 13 miles surfaced. Sandpoint to Montana line, 27 miles good, eight miles unimproved fair.

PAIDORSE HIG HWAY: Pullatchi detour to Plummer, Worley and Coeur d'Alene, 71 miles fair.

PAYETTE LAKES HIGHWAY: Boise to Horseshoe Bend good; 45-mile detour from Mountain Home to Pizer.

This detour is slow but in good shape. From Cascade to Donnelly construction work in progress for five miles detour in good shape. Balance to New Meadows in good shape.

PAYETTE LAKES HIGHWAY - EMMETT BRANCH: Boise to Emmett paved for seven miles, balance rough. Emmett to Horseshoe Bend fair.

ARROWROCK HIGHWAY: Boise to Arrowrock dam, all graded and partly gravelled in good condition.

BOISE TO IDAHO CITY: Mostly good to Idaho City. Idaho City to Lowman fair.

LOST RIVER HIGHWAY: Blackfoot, Arco, Mackay and Challis, all surfaced or graded, fair to good.

YELLOWSTONE PARK HIGHWAY: Idaho-Utah line to Preston, Downey and Bogertville all good. Bogertville to Idaho Falls paved. Idaho Falls north to Lorenzo good. Lorenzo to Ashton, slow going. Loose gravel and rough sections. Ashton north to park road.

BEAR LAKE HIGHWAY: Montpelier to Paris good. Paris to Utah line fair to good.

ROOSEVELT HIGHWAY: Idaho Falls, Antelope, Irwin, Wyoming line surfaced for 31 miles. Balance 43 miles mostly unimproved. Improved sections good, balance fair to rough.

MALAD VALLEY HIGHWAY: Utah line to Malad, Downey, all surfaced and in good condition.

JOHN DAY HIGHWAY: From Vale, Oregon, to Brogan, John Day, Dayville, Condon and Arlington, all in good shape.

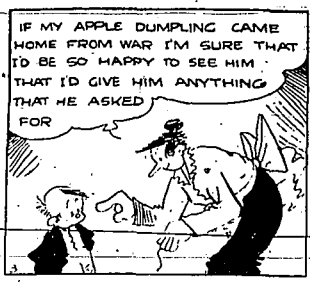

BEND - PRINCEVILLE, OREGON: Good macadam to Mitchell. Very poor from Mitchell to Dayville. Best crossing to the John Day highway is via Service Creek road. This road is a winding narrow mountain road, rather slow, but easily passable. Drive carefully.

BURNS - CANYON CITY, OREGON: Good gravel road for 17 miles, thence dirt road for 33 miles. Last 23 miles into Canyon City gravel road rather narrow and winding. There is considerable construction work on this road and it is nearly all poor except the 17-mile section which is improved.

Previous to this century Chinese youth was expected to spend most of his waking hours in school, after his fourth year.

Radio has developed a business of over \$500,000,000 annually.

Corn Belt "Who's Who" Includes "Onion King"

KING CITY, Aug. 17 (AP)—The corn belt's almanac of royalty has a new name to enter—James Millan, the "onion king."

Millan introduced Bermudas to truck farmers in this section and now his sale of plants runs into the millions annually. His peak sales year was 1927, when he sold \$5,000,000 plants.

Three States Celebrate Launching of "Houston"

HOUSTON, Texas, Aug. 17 (AP)—Virginia, Tennessee and Texas, the three states sharing claims to General Sam Houston, will share honors when the United States cruiser Houston is launched at Newport News, Virginia, September 7.

Members of congress and state officials of the three states have been invited, means will go by special train. The Houston, the fourth cruiser of its type to be built, cost \$17,000,000.

THIRTEEN FOUR-LANE ROADS IPSWICH, S. D. Aug. 17 (AP)—Four-lane highways are advocated by J. W. Parmenter, president of the South Dakota automobile club, as a means of lessening accidents. He suggests a two-way center track for fast traffic, with dirt roads at each side for slower traffic, such as teams, tractors and livestock.

A person can ride farther for a nickel in New York than any city in the United States.

A mother may chastise her offspring, regardless of his age, an Illinois court ruled.

ALL APPLE GROWERS TO RECEIVE MARKET REPORT

BOISE, Aug. 17 (AP)—A comprehensive apple market report will be mailed out daily by the department of agriculture beginning September 1. A. W. Davis, assistant commissioner of agriculture, said the report, which will be received over announced here, will be received over the special market wire now connecting the department with the federal market service will be continued during the peak of the apple-marketing season. It will be sent to all apple growers and dealers on request as part of an expansive market service which the department hopes to develop as a result of connection with the federal service.

WEALTHY ROMANS COME HOME
ROME, Aug. 17 (AP)—Out of 98,927 Italians who departed themselves in 1928 with enough fortune to live here, 31,815 came from France, 25,220 from the United States, 10,831 from Switzerland, 18,270 from Argentina and 3119 from Brazil.

TRACES AZTECS IN TEXAS
SAN ANTONIO, Texas, Aug. 17 (AP)—Henri Cozart, archaeologist and historian, is seeking the birthplace of the Aztec race along Texas' historical trails. Cozart, convinced that this ancient civilized race had its beginning in the southwest, Cozart will attempt to trace its history by a study of Aztec graves, carved rock pictures and other artifacts.

SALESMEN USE PLANES
ST. LOUIS, Aug. 17 (AP)—Approximately 135 large corporations own airplanes for use by their salesmen, executives, and for other business service, a survey here shows.

Chicago has 114 parks, the largest being Lincoln and Jackson.

Our 1930 Cars

Throughout our business careers we have sincerely endeavored to make our products constantly better and to present them to the public without exaggeration. Today... you can see the 1930 Sixes and Eights, the best looking, finest performing cars and the most substantial values we have ever offered.

Petritch, Capital of Revolutionary State Not on Map

ORGANIZATION WITH POWERFUL DICTATOR GOVERNS MACEDONIA

Bulgarian "County" Maintains Complete Independence; Young Leader Bane of Balkan Powers

By JAMES A. MILLS (Associated Press Correspondent) PETRITCH, Bulgaria, Aug. 17.—This little town, about 150 miles south of Sofia near the Bulgarian-Greek-Jugoslav border, is the capital of a state which the reader will not find on any map.

That state is Macedonia, domain of Mikhailoff, dauntless revolutionary leader and bane of Balkan governments, who boasts of having exterminated thousands of his adversaries in order to win autonomy for his beloved Macedonia. Officially Macedonia is a "country" in Bulgaria, which is a Balkan kingdom about the size of Ohio. But actually Macedonia is a powerful entity of its own which brooks no interference from any authority in the world. It has a government of its own in the Macedonian Revolutionary Organization, which is absolute master in this little land. It has its own administrative machine, its courts, its financial system, its local paper, "Liberty or Death," its army and its police.

Strict Censorship
It exercises a censorship that is absolute. No paper on its black list comes into Macedonia. No meeting of which it disapproves can be held. It controls public morals and enforces the Ten Commandments with the sternness of Moses, although it omits one to read "Thou shalt not kill, except in the name of the organization." As a result, excellent order prevails in Macedonia. There is no brigandage in the mountains and very little just. Whatever you lose is returned. Wherever you seek shelter or hospitality you receive it. When a promise is made it is fulfilled. Stern justice reigns because evil doers are delivered to the organization which works as silently as a winged arrow.

Friend of the organization
A young man of quiet manners who has a university education and is well informed about European affairs. He is an admirer to boot of the revolution which he always carries.

Bold Men Aid
This Macedonian dictator, Ivan Mikhailoff, is surrounded by bold young men of his own qualities. But along with the intellectuals there are also ordinary gunmen. Each revolutionist has his duties, his area and his chiefs. The organization has embassies in Vienna, Geneva, Paris and America. It sends observers to the League of Nations and all international peace conferences.

It has organized the Macedonian refugees in Bulgaria and other places into brotherhoods, women's societies and youth's associations. It has cooperated in the formation of a national bank. It has sent eleven national representatives to the Bulgarian parliament in Sofia, and when they were needed, there was of course no opposition.

The Macedonians divide their activities into two categories, the legitimate and revolutionary. It is only the latter organizations that appear in the open, and their representatives carry all relations with the revolutionists. By the supreme power behind everything is the Revolutionary Organization and Ivan Mikhailoff.

Relations Friendly
The relations between the Organization and the Bulgarian state are not unfriendly. On the contrary, the Bulgarians sympathize with it, for the Macedonians are Bulgarians—of a special kind.

And it is just for that reason that the whole "Macedonian Movement" exists. Macedonia was partitioned among Bulgaria, Serbia and Greece, and Bulgaria got by far the smallest share, although on the basis of nationality she thinks she should have gotten most of it.

It is stated by the Bulgarians that the inhabitants of those parts of Macedonia occupied by the Serbs and Greeks are subjected to persecutions. The Revolutionary Organization exists to "free" them. Its seat is really in Bulgarian Macedonia, but it endeavors to operate with bombs and guns. It wants to bring about a new European settlement which means war.

The fastest battle ship in the world is Britain's Queen Elizabeth.

Canada is leading the way in things electrical.

The aggregate national wealth of Canada is more than \$26,000,000,000.

There are only 10 banks in all Canada.

California Flier

GLADYS O'DONNELL, Long Beach, California, will enter the women's air derby August 18-25.

Goes to Congress

NUMA MONTE of Thibodaux, Louisiana, recently elected to congress from the Third Louisiana district, succeeding the late Whitfield P. Smith.

IDAHO EMPLOYMENT CONDITIONS STABLE

Supply and Demand in Gem State at Balance Even Though Workers Increase

BOISE, Aug. 17 (AP)—A marked increase in employment of labor during July was recorded in the monthly report of the United States employment service of the department of labor. In that month, 11,000 workers were employed in the fruit and grain harvest and in cultivation of sugar beets and other miscellaneous crops. The supply of labor was sufficient.

Major industries reported normal operating conditions and some increase in their forces in some instances. Hauling firms have absorbed several hundred male and female workers.

Repairing Factories
The annual overhauling of the best sugar factories has been started giving employment to quite a number of skilled and semi-skilled workers, with extensive improvements have absorbed quite a number of men. Lumbering activities increased in the Lewiston and northern Idaho districts.

Road Work Help
Highway construction has given employment to a large number of men and additional work will probably be started soon. Forces in railroad stop and maintenance-of-way departments were steadily employed and an increase in railroad freight-train forces is expected in August. Sufficient labor is available for all building and construction projects.

In the Pocatello district there was a further increase in the demand for agricultural labor; building, trades men, and highway workers will be the result. The labor supply and demand are fairly well balanced. A favorable building work was underway at Pocatello, including the erection of an automobile

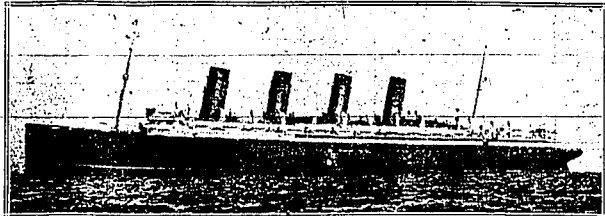

Washington Boy Scouts Turn to Reforestation

ABERDEEN, Wash., Aug. 17 (AP)—Boy scouts of western Washington have turned to reforestation for their daily "good turn" and have planted trees that should be ready for harvest when scouts of today are old men.

The scouts have started their work while timber is plentiful in this state. The state and federal governments own most of the timber on the Olympic peninsula and plan to regulate cutting on a basis that will assure a permanent supply through reforestation. Timber in the district is valued at approximately \$100,000,000.

Including the erection of an automobile distributing plant, two business blocks, and a number of residences and private garages.

Liner Fails to Regain Speed Record of Atlantic

CUNARD S. S. MAURETANIA, which lost its record for fastest crossing of the Atlantic after 22 years, failed to lower the mark of the German liner Bremer, hung up in July.

BURLEY SUPERINTENDENT OF SCHOOLS TAKES POST

BURLEY, Aug. 17 (Special to The News)—D. T. Williams, new superintendent of the Burley schools, has arrived here from California with his wife and children. Williams has taken the place of W. W. Christensen who resigned to take the superintendency of Carbon county, Utah, schools. He has been engaged in post-graduate work at the University of California.

Glas Eggen has also arrived here, to become the new Smith-Hughes instructor. Eggen has come from Coker where he was Smith-Hughes instructor last year. He had brought his wife and family. Burley schools will open September 2.

NEW FORD TUDOR SEDAN \$525

plus charge for freight and delivery (see rate card)

Real quality has been built into every part of the new Ford

Read over the details of the mechanical features of this new car and you will know there is nothing quite like it anywhere in design, quality and price.

FEATURES OF THE NEW FORD

REMARKABLE ENGINE
The engine of the new Ford embodies many new mechanical features. It gives unusual acceleration, smoothness, speed and power without sacrifice of reliability and economy. Ford engineering has found the way to include an essential feature of good performance without the necessity of a high speed motor. The design of the cylinder head is just one factor in this performance. Others are the specially designed carburetor, the new hot-spot manifold, the carefully planned large valve diameter, the chrome silicon alloy valves, the aluminum pistons, the statically and dynamically balanced crankshaft and flywheel, and the simplicity of the electrical, ignition, cooling, lubrication and fuel system.

VIBRATION-ABSORBING ENGINE SUPPORT
A special feature of the Ford engine is the manner in which engine vibration is absorbed before it reaches the chassis of the car, thereby preventing unpleasant vibration periods. This is done in the new Ford through the introduction of a flexible front end support that is both simple and practical—a truly remarkable improvement in engine mounting developed after many months of testing and experimenting.

55 TO 65 MILES AN HOUR
The new Ford has unusual speed. It will do 55 to 60 miles an hour with ease. This is a conservative statement. In many road tests it has exceeded 65 miles an hour. So well does the new car hold the road that you can travel at high speed for long stretches with a new feeling of comfort and safety. Even bad roads may be taken at a fast pace. You will be delighted too with the way the new Ford climbs the hills. You will face the steepest grades with confidence, knowing you have power to climb them all without greatly reduced speed, without strain, or unnecessary shifting of gears.

QUICK ACCELERATION
Everywhere you go you can see how quickly the new Ford accelerates. Fact is, there are very few cars at any price that are any quicker on the get-away. Watch it in traffic: the next time the light says "GO."

LOW UP-KEEP COST
The reliability and economy of the new Ford are as important as its beauty, speed, comfort, and safety. Because of the quality that has been built into it, you will save many dollars a year in operation costs and in repair bills.

SILENT SIX-BRAKE SYSTEM
One of the first things you will notice when you drive the new Ford is the quick, effective, silent action of its six-brake system. This system gives you the highest degree of safety and reliability because the four-wheel service brakes and the separate emergency or parking brakes are all of the mechanical, internal-expanding type, with braking surfaces fully enclosed for protection against mud, water, sand, etc.

A further improvement is effected by the self-centering feature of the four-wheel brakes—an exclusive Ford development. Through this construction, the entire surface of the shoe is brought in contact with the drum the instant you press your foot on the brake pedal. This prevents screeching and howling and makes the Ford brakes unusually silent.

SIMPLE OILING SYSTEM
The lubrication system for the engine of the new Ford is as simple in principle as water running down-hill. A gear pump in the bottom of the oil pan raises the oil to the valve chamber reservoir. From here it flows on to the main crankshaft bearings and the front camshaft bearing. Overflow oil drops into the oil pan tray and runs into troughs through which the connecting rods pass.

As the ends of these rods strike the oil they scoop up a supply for the connecting rod bearing. At the same time they set up a fine spray that lubricates the pistons and other moving parts in the valve chamber. From the tray the oil runs into the bottom of the pan, and is again drawn up through a fine mesh screen and pumped to the valve chamber. This system is so effective that the fine-grained contents of the oil pan pass through the pump twice in every mile when you are traveling at only 30 miles an hour. Yet there is only one movable part—the oil pump.

EASE OF STEERING
The new Ford is exceptionally easy to steer because of the well-proportioned weight of the car, the steel spoke wheels, the co-ordinated design of springs and shock absorbers, the size and shape of the steering wheel, and the simple mechanical construction of the steering gear. The Ford steering gear is of the worm and sector type used on high-priced cars and is three-quarter irreversible. In simple, non-technical language, this means that the car responds easily and quickly to the steering

wheel yet there is no danger of the wheel being jerked from the hands of the driver by ruts or bumps in the road. A light touch guides the car, yet you always have that necessary feel-of-the-road so essential to good driving.

TRIPLEX SHATTER-PROOF WINDSHIELD
All of the new Ford cars have a TripLEX shatter-proof glass windshield. This eliminates the danger of flying glass—the cause of 65% of automobile injuries.

EASY RIDING TRANSVERSE SPRINGS
The springs are of the transverse, semi-elliptic type, specially designed and built for the new Ford. They are built of the finest spring steel, and the leaves are wide and thin. Each spring is built up of varying sizes and number of leaves to give proper flexibility and to meet riding requirements of the different body types. The size and number of leaves used in these springs is one of the reasons why the new Ford is such a comfortable car. The construction of the transverse springs also contributes to the safety and efficiency of the six-brake system.

HOUDAILLE SHOCK ABSORBERS
Houdaille hydraulic shock absorbers are standard equipment on the new Ford. These combine with the low center of gravity, the minimum unsprung weight, and the easy riding quality of the transverse springs to make the new Ford one of the most comfortable cars on the road today.

THREE-QUARTER FLOATING REAR AXLE
The rear axle of the new Ford is of the three-quarter floating type with spiral bevel. The axle housings are made entirely of steel, built up by welding steel forgings to steel tubing. The axle shafts carry most of the weight of the car, the wheels running on roller bearings on the housing. The pinion hub is exceptionally heavy and the pinion is carried on double taper roller bearings, insuring perfect alignment of the gear. Special care has been taken to insure silence in the pinion and ring gears.

GREASE GUN LUBRICATION
The chassis of the new Ford is lubricated by the Almirite high pressure system, the simplest and most effective method of lubrication.

STANDARD EQUIPMENT
Standard equipment on all new Ford cars includes four Houdaille hydraulic shock absorbers, five steel spoke wheels, electric windshield wiper, speedometer, gasoline gauge on instrument panel, dual light, mirror, combination tail and stop light, oil indicator, complete tool equipment, self-press, cast-iron lock, high pressure grease gun lubricator, and TripLEX shatter-proof glass windshield. Wide, substantial mudflaps are also standard equipment on the new Ford Sport Coupe. TripLEX shatter-proof glass windshield wings are provided and standard equipment on the Roadster and Phaeton.

Indians Issue Summons for Ancient Annual Ceremony in New Mexico

RELIGIOUS URGE OF PRIMITIVE PEOPLE CALLING 22 TRIBES

Athletes, Singers, Dancers and Medicine Men From New Mexico, Arizona, Utah and Colorado to Meet

(By The Associated Press) GALLUP, N. M., Aug. 17.—The religious urge of primitive people, prayer finding expression in dancing chants to the Great Spirit, is calling the Indian tribes of the great Southwest.

The annual summons has gone out for the Southwestern inter-tribal Indian ceremonial here August 28 to 30, with the best known medicine men, athletes, dancers and singers of 22 tribes summoned from New Mexico, Arizona, Colorado and Utah.

In many respects the Gallup ceremonial is the most extraordinary spectacle on the North American continent.

Impressive Ceremony — Not a rodeo or ruddy ballhoof, the inter-tribal festival is an impressive and plausible expression of a life and religion bound up with nature and natural phenomena—a presentation of awe-inspiring rituals of a barbaric and pagan, yet artistic race.

Of the scores of Indian tribes in the United States those of the southwest probably are the least affected by the inroads of civilization. The annual ceremonial shows the best of the centuries-old games, arts and handicrafts of the tribes and the most honored of the traditional and deeply religious dances, songs and rituals.

The Southwestern Indian does not pray by verbal communication with his God, but petitions and praises are rendered by intricate dances that involve much physical sacrifice and solemn ceremony.

Portray Indian Life — Every detail of the Indian life, every venture upon which he embarks, every aspect of his nature, every change of season, the change from day to night, the appearance of the sun, of a storm, is attended by a chant or dance. There are a few of the Indian religious ceremonies that are retained exclusively for the reservations, but the great majority of tribal celebrations are shown before the white man here. It has been only in recent years that the Southwestern Indians have let whites see their ceremonies.

Oklahoma City Newsie Turns Lungs to Pulpit

OKLAHOMA CITY, Aug. 17 (AP)—T. H. Pate's lusty voice, whose newspaper-selling cry long has been familiar to Oklahoma City's Broadway, now is out to save souls. Pate plans to drop his newspapers and pick up the Bible. He is not an ordained minister, but he intends to preach from pulpits of missionary Baptist churches. It is evident that Pate knows his Bible. Rarely does he utter a sentence without quoting some passage of scripture.

There is a tradition that Missouri lead was used in the Revolutionary war.

He who overcomes others is strong but he who overcomes himself is mightier still.—Lao Tzu.

In the Fifteenth century in England it was customary for the upper classes to entertain on Valentine's day.

In 1477 Coxton set up his press in Westminster, and printing was established.

Lead, zinc and copper are found in the Gaspé Peninsula of Quebec.

Indians of the Southwest will hold their annual inter-tribal ceremonial at Gallup, New Mexico, August 28 to 30. Above is shown the devil dance of the Apaches. At lower left is the Taos hoop dance. A Teanahu Indian (lower right) is performing the eagle dance.

NORA YARBOROUGH AT BUHL CLUB MEETING

Home Demonstration Worker Judges Exhibits of Cooking and Needlework Art

BUHL, Aug. 17.—Miss Nora Yarbrough, home demonstration worker conducted a demonstration of judging exhibits of canned meats, vegetables and needlework at the meeting of the Buhl club held Wednesday at the home of Mrs. Ed Morris with Mrs. Ernest Miller assisting hostess. Mrs. Elsie Bonar took first and second place with canned meats; Mrs. Lawrence Roubinek took first and second in the vegetable department; Mrs. Fred Reed took first on fruit and second place was won by Mrs. Roubinek. There was no first ribbon given for bread and pastry and second place on bread was taken by Mrs. O. G. Brooks. In the needlework department Mrs. Harry Pajer won first and Mrs. Maurice Currington second on fancy pillowcases; Mrs. Currington first and second on embroidered luncheon cloth; Mrs. Glen Brooks, first and Mrs. Ernest Miller second, on girls' school dress; Mrs. Currington first and Mrs. Brooks second on fancy cushions; crochets, Mrs. Ralph Skinner first and second. Daily refreshments were served to 25 guests.

Miss Barbara Bugg was hostess at a cleverly appointed bridge luncheon Thursday at which cards were laid for twenty. Five tables were in play with high score going to Miss Cynthia Daley and the consolation to Miss Lucille Mousset, a guest of Mrs. Lester Parker. Wheat yields in the West and are not proving as heavy as expected earlier in the season due to the extremely hot weather. Most fields are averaging forty bushels with a few going as high as fifty. Much of the crop is being sold as soon as threshed and a number of cars have left the local station for eastern markets. Barley and oat crops will yield heavier than wheat, some fields of barley making 80 bushels per acre. Harold Harvey, son of Mr. and Mrs. W. H. Harvey is spending several weeks in southern California where he plans to try some deep sea fishing and surfing to gather material for articles to be published in nationally known sport magazines to which he has con-

of Chile where there is no dairying industries. An election has been called by Independent school district No. 3 for September 3 when two directors will be elected. Those whose terms expire are P. P. Ahlquist and Geo. L. West. The election will be held at the high school building and the polls will be open from 1 P. M. to 6 P. M., questions covering general problems will be taken up and disposed of at this meeting.

J. O. King, Winchester, Idaho, is the guest of his granddaughter, Mrs. Lloyd Hays and of his grandson A. J. King. He will also visit relatives at Twin Falls and Kimberly. Mr. King who is a Civil war veteran is 88 years old and spends most of his time traveling.

This one to be let August 23 for the proposed Legion Memorial building, according to announcement made by Harold Hyde, secretary of the association. Mrs. A. J. D'champs and three sons, Olympia, Washington, who have been the guests of Mr. and Mrs. Fred Jacques and Mr. and Mrs. Melvin Fowell have come to St. Boniface, Manitoba, Canada, to make their home. Mrs. D'champs formerly lived in Buhl before moving in Washington.

Mr. and Mrs. Ed Russell and daughter Vergine, who have returned to Buhl to make their home. Mr. Reynolds will be employed by the Fargo Truck company with headquarters at Twin Falls. Members of the board of directors of the Methodist Episcopal church voted unanimously for the return of Rev. Charles P. Fletcher to the pulpit church, for another year at the fourth quarterly conference held here recently. Fred Nichols was elected delegate to the layman's

Pilots "Air Bullet"

HENRY J. BROWN, mail pilot, has entered in the national air race a plane expected to produce 200 miles an hour.

electoral conference to be held in conjunction with the annual Methodist Episcopal conference in Twin Falls in September.

Edgar V. Clifton, horticulturist who has visited the orchards of the West End recently states that the prune crops in the W. H. Harvey and P. C. Marquardt orchards will not be as heavy as expected earlier in the season due to the heavy drop of the fruit during the hot weather. Mr. Marquardt expects to ship about 20 carloads of prunes to eastern markets and the Harvey orchards will yield eight or nine. However, all of the work, including the irrigating, themselves and plan to use the funds from their work for schooling.

Peach harvest will begin in the near future at the Niagara and Crystal Springs orchards. Heavy crops necessitated thinning in some orchards.

Jack Tingey, manager of the Clear Lakes fish hatchery, left Saturday for Salt Lake City to visit Mrs. Tingey who has just left a Salt Lake City hospital following a critical operation.

D. L. Lindley, manager of the Clear

BURLEY ENGINEER DRILLS WELL FOR IDAHO FALLS

BURLEY, Aug. 17 (Special to The News)—T. J. Stephenson, city engineer of Burley, who is drilling a municipal water well for Idaho Falls, states that they are now down 225 feet, with about 80 feet more to go to complete the contract.

During the last portion of the drilling, they have encountered cracks and faults which have made the going very slow. These cracks had to be filled with bowlers or cement, and redrilling started, to straighten the hole. They went down 212 feet with a 24-inch hole, then reducing to a 18-inch hole. They are using 20 and 16-inch screw-joint casing, and expect a flow of water of about 3000 gallons per minute.

There is now 100 feet of water in the hole, which is rising and with a strong flow. The entire hole was through lava, except for two very narrow strata, one of clay and one of sand and gravel. They expect to set the pump bowls at a depth of 150 feet. George Stephenson is associated with his brother J. J. Stephenson, and is in charge of drilling operations.

Lakes resort, is spending a week at Magic Hot Springs following an attack of pneumonia poisoning. Mr. Lindley has made extensive improvements in the resort this summer. Several new bowls have been added and the old ones given a new coat of paint.

Garth Bruhn and Ray Briggs, aged 12 and 13, have recently completed the clearing, cultivation and seeding of a 5 acre field of alfalfa which is producing a splendid crop of late hay, in the canyon near Clear Lake. The Indians did all of the work, including the irrigating, themselves and plan to use the funds from their work for schooling.

Even before the birth of Confucius (550 B. C.) some Chinese literature had been produced upon bamboo, blocks of wood and silk.

When Washington was born in Virginia in 1732, there were no states, no union.

"IRON FIREMAN saved us \$4496.30 from September to February"

and no complaint whatever from tenants.—an apartment house.

From all over America such tributes pour in. "Forced Underfiring," the Iron Fireman principle of combustion, is recognized by heating engineers as the one scientific way to burn coal. Enthusiastic endorsements from thousands of Iron Fireman users prove that the engineers are right.

In four ways Iron Fireman effects outstanding economies and betterments:

- (1) It burns lower-priced coal and less of it.
- (2) It greatly reduces labor costs over hand firing.
- (3) It automatically maintains steady, even heat or boiler pressure.
- (4) It positively eliminates smoke, by obtaining complete combustion.

The Iron Fireman is made in sizes that serve every firebox from domestic to 200 h. p. boiler size.

We will gladly analyze your heat and power problems and render a report, without obligation on your part. Let us give you the facts—show what the Iron Fireman will do for you in your boiler room. Ask for full information.

NOTE: Ask about the Iron Fireman for homes

FROM September 15, 1927, to February 29, 1928, we made an actual saving of \$4496.30 over oil. This amount is 49% of our total oil bill during the past year.—from an apartment house owner.

"We were using four boilers, hand-fired. Now we use two 125 h. p. boilers with Iron Fireman automatic coal burners, and save 25% in tonnage plus the labor of one man."—a bank.

"We have saved in coal and labor approximately \$2500 during the past year."—a manufacturer.

"We have saved \$675, or almost 50% in our fuel bill since installing the Iron Fireman."—a school board.

"A net saving of \$22.80 a week, or 33% on our total fuel bill."—a laundry.

"We are saving 40% of our heating cost, about 25% in tonnage and 15% in fuel cost."—a manufacturer.

"A net saving on our total heating costs this year of \$1159.48."—a florist.

"Fuel bill, hand-fired, was \$1118.88. Fuel bill, with Iron Fireman, now \$654.11."—a bank.

"Before installing Iron Fireman had numerous complaints on account of building not being properly heated. Have gone through two winters now without the least bit of trouble.

Stock Price Advances Outstrip by Large Margin Corporation Earnings For Six Months, Says Roger Babson

By ROGER W. BABSON
BABSON PARK, Mass., Aug. 17.—Earnings of our leading corporations have for the most part scored substantial advances in the first half of 1929. This, however, does not mean that many of the present speculative favorites are justified by their earnings in selling as high as they do.

with the same period last year. Stock prices in the oil group, however, gained only 40 per cent. A few carefully selected oil securities, if held outright for the long pull, clearly prove profitable.

Average Show Girl of Screen

Associated Press Photo

MAXINE CANTWAY, Chicago, has been selected the "average" show girl of the talkies. She is 19 years old, has blue eyes and light brown hair.

Smallpox Continues Disease to be Feared

By DR. D. M. COWGILL
(Director Twin Falls County Health Unit)
The idea as often expressed by the lay public that smallpox is no longer a disease to be feared, is wrong according to recent statistics in Twin Falls county.

feared, is wrong according to recent statistics in Twin Falls county. During last winter there were hundreds of cases under quarantine with smallpox thus keeping many people shut in away from work so that they could not make a living.

Problem of Chicago School Officials Much Like That of Old Lady in Shoe

BY EDWARD STANLEY
(Associated Press Feature Writer)
There was an Old Lady who lived in a shoe.

tax rate to satisfy that the schools for years have been operating with deficits of millions. Caldwell estimated the deficit this year at \$20,000,000.

CHICAGO, Aug. 17.—That's about the predicament Chicago's public schools face in. So many children they don't know what to do.

All in all, school costs have tripled since 1914, figures compiled by the board show. It cost \$73,000,000 in 1928.

In debt up to the blackboards, the schools needed \$40,000,000. If they didn't make a budget they could hardly open for the fall term, said H. Wallace Caldwell, president of the board of education.

There were but 200,075 shining scholars in 1914. The books counted 489,771 in 1928, an increase of 85 per cent. Salaries of the 13,000 teachers have risen, roughly about \$1000 each in the period.

A proposition to borrow \$40,000,000 from a syndicate of bankers on tax anticipation warrants was put to the city council for approval. It was shouted down with great excitement and enthusiasm.

Politics has bobbed in and out of the scene, sometimes serious, often ludicrous. Mayor Thompson made his campaign, using Superintendent William McAndrew, a prominent educator, as one of his chief targets.

Let's all try to prevent another smallpox epidemic this winter by being vaccinated this summer.

Then the school board, sweating profusely to find the \$40,000,000, abandoned all general fund council approval, had only asked to be polite, and made the loan anyway.

January 1, 1776. Washington's army, numbered fewer than 10,000 men and lacked arms, ammunition, and proper clothing.

The annual mineral output of Arizona sells for more than \$100,000,000.

There are five well established religions in China. These are Confucianism, Buddhism, Taoism, Mohammedanism and Christianity.

Chicago has 65 miles of tunnels under Lake Michigan carrying water to filtration plants.

JUDGE the HIGH QUALITY of Western Giant and Wear-well Tires

by Our Reputation and Resources Not by Our LOWER PRICES

Then you will know why, despite our LOWER PRICES, hundreds of thousands of wise car owners unhesitatingly class our Western Giants with nationally advertised First Line Tires, and our Wear-wells also irrespective of the savings they offer— with nationally advertised secondary lines.

EVERY SUNDAY IS NATIONAL KODAK DAY! Sunday is the day we take our trips, live in the open—and a camera helps us to enjoy the out-of-doors more.

TAKE PICTURES WHEREVER YOU GO! FILMS LEFT AT 9 A. M. FINISHED SAME DAY!

REMEMBER— IN QUALITY... class Western Giants with nationally advertised First Line Tires... and Wear-wells with nationally advertised secondary line tires... then SAVE at our Lower Prices...

Table with columns for SIZE, Wear-well, Western Giant, and Western Giant. Lists various tire sizes and their corresponding prices.

Western Auto Supply Co. 222 MAIN NORTH TWIN FALLS, IDAHO

BRAKES unsurpassed in any car

Judging them by any standard that measures the merit of a braking system, owners have found the Dodge 4-wheel hydraulic brakes to be absolutely unsurpassed. Being hydraulic, they have no long succession of lubrication points to require attention, no complex mechanism to work out of adjustment. They are simple in construction, permanently quiet, positively expanded on all four wheels. Being internal-expanding, they are perfectly protected against mud, dust and water and operate just as efficiently in wet weather as in dry. And obviously, being built to Dodge Brothers standards, they are absolutely dependable.

FRIENDS OF HIGHER WHEAT PRICES AG

Increasingly Bad Threshing Reports From Dominion Proving Influential

By JOHN P. BOUGHAN (Associated Press Market Editor)

CHICAGO, Aug. 17—Friends of higher prices for wheat took heart in their teeth today and forced the market higher regardless of determined opposition. Increasingly bad threshing reports from Canada gave a basis for a larger buying here than had hitherto developed, and so, too, did sharp upturn in Liverpool, and the fact that a fair number of American farmers in the Northwest holding back their wheat hoping for a steep advance ahead.

BANKERS TO INSPECT DIXON'S 4-H SOCIETY

North Side Club, Girls Prepare For Visit of Business Men's Delegation
DIXON, Aug. 17—Representatives of the Bankers' association who are touring this section of the country will stop at the home of B. C. Cochran Tuesday afternoon to meet with the Dixon 4-H club girls for investigation of their work. The meeting will be held on the lawn of the Cochran home. Leaders of the club, Mrs. Julia Brown and Mrs. R. C. Cochran, are assisting the girls in preparing for the occasion. Dean Hildings of the University of Idaho, and Tom Speedy, Jerome county agent, will accompany the delegation.
Thrashing has started in this community and yields of 52 to 60 bushels have been reported from the Huckleby farm, owned by Mr. and Mrs. W. C. Varnes secured a yield of 50 bushels.
Mrs. Nell Branam and family motored down from Rigby last week to spend a few days visiting at the home of Mr. and Mrs. Ed Spencer.
Harry Snook and son, Donald, are doing electrical work in the vicinity.
Miss Margaret Andrews, Greenwood, was a week-end guest of Miss Ruby Cope.
Mr. and Mrs. Edgar Ferris have received word from their son, Archie Ferris, Kalamath Falls, Oregon, that he and his wife were painfully injured when a car ran into them as they were stop-

ped by the roadside mending a tire. Mrs. Ferris, who was standing in front of the car, was thrown over the hood of the car and Mr. Ferris was knocked into the ditch.
Tom Speedy, county agent, was here on business Wednesday afternoon.
Farmers of this community, under the auspices of the Dixon Parent-Teachers' association had a meeting Monday evening at the school house to make plans for the community exhibit this fall at the fair. An appeal has been made to all exhibitors to select grain and seed samples now and to reserve their best types of fruits and vegetables.
Mrs. Julia Brown has returned from her summer school course at Albion. Her aunt, Mrs. Daisy Woods, who was taking care of the Brown home during Mrs. Brown's absence, has returned to the home of her daughter, Mrs. Fred Ellis, Twin Falls.
Mr. and Mrs. J. Vaughn and daughter returned last week to Kansas City after a few days' visit here with Mr. Vaughn's daughter, Mrs. George Cope.
Mr. and Mrs. Ray Looney and family and Walter Beer and son attended the *Kimberly* Grange meeting Tuesday evening.
Miss Henna Palmer of Twin Falls spent the week-end at the home of her parents, Mr. and Mrs. W. C. Varnes, at the home of Mr. and Mrs. W. C. Brown.
Misses Donna and Blanche Johanson entertained the 4-H Sewing club at their home east of Dixon Wednesday afternoon. During the business hour, directed over by the president, Donna Johanson, plans were made for the meeting Tuesday afternoon at which they will entertain the delegation of bankers and business men. At the close of the afternoon Mrs. Rilla Johanson assisted her daughter in serving lunch to the members.

SEATTLE MAN VISITS AT PARENTS' HOME IN PAUL

PAUL, Aug. 17—J. M. Riley, Jr., Seattle, Washington, arrived in Paul Wednesday to visit the home of his parents, Mr. and Mrs. J. M. Riley.
Mrs. Mary Keck, Yuba City, California, who has spent the last two months at the home of her son, H. H. Keck, left Tuesday for her home. She was accompanied by her grand-daughter, Susan Keck, who will spend the winter with her. Mr. and Mrs. Keck and Dan Cobb took them auto as far as Wells, Nevada.
Eighteen girls members of the "Blue Bird" class of the Methodist Episcopal Sunday school, chaperoned by Mrs. M. E. Watson, Mrs. Albin Brown and Miss Elizabeth Hoover, motored to Minidoka dam for an outing. After a swim in the Minidoka bay, a picnic dinner was served.
Mrs. Robert DeLong and son, George, and Mrs. Harley Whitton motored to Twin Falls Wednesday and spent the day shopping.
Mr. and Mrs. David Layton, Clearfield, Utah, Mrs. Lola Smith and Mrs. Charles Smith, sr., Centerville, Utah, spent Wednesday visiting old friends, Mr. and Mrs. Joseph Payne and family.
Mrs. John Martin has been ill the last few days.
Miss Alice McMillan has accepted a position as teacher at Carey, and will leave the first of the month to begin her duties.
Mr. and Mrs. Jay Van Avery, Mr. and Mrs. Shelby Dupert, Misses Hazel Nelson, Lener Brown, Ada Brown, Harold and the delegation of Brown, Will Nelson and Kent Hutchins comprised a party which motored to Heyburn beach for a swim, a watermelon feast and a watermelon bust.
Mrs. Paul French and two children,

FILER WOMAN ENTERTAINS IN HONOR OF NEBRASKAN

Dr. and Mrs. A. Newberry and son, Wilmer, returned Thursday from an auto trip to Portland and Bellingham.
Mrs. J. H. Shinn entertained Wednesday afternoon at her home for her house guest, Miss Jean Droughart, Riverdale, California. The afternoon was spent

WRECKAGE OF AIRPLANE

Locally followed by a rainy lunch. Miss Ubiquity left Thursday morning for Seattle.
New Processed Steel to Eliminate Use of Oils
CLEVELAND, Ohio, Aug. 17 (AP)—Steel with a surface three to four times as hard as that obtained in case hardening is being adapted to automobile and airplane engines and parts.
Progress in production and use of this new hard surface is one of many advances in metallurgy during the last year which will be demonstrated at America's first National Metal Congress here September 9 to 13.
The hard surface is obtained through the process of "nitriding," a product of research by Dr. Adolf Fry in the Krupp laboratories at Essen, Germany, and later by metallurgists at Paris.
Cylinder and piston surfaces nitrided will run in emergencies without lubrication it is stated.
The first printing from movable type was by Coster in Haarlem, Holland, about 1445.
Canada is second to United States in the production of gold.
Many of the stones in the pyramids weighed from 40 to 60 tons each.

REVOLUTIONARY NEW CHRYSLERS

CHRYSLER MOTORS PRODUCT

LEAVE NO BASIS FOR COMPARISON

MULTI-RANGE GEAR SHIFT
ELIMINATES ALL POSSIBILITY OF COMPARING CHRYSLER PERFORMANCE WITH OTHER PERFORMANCE. A DEMONSTRATION SPEEDILY PROVES THIS TO YOU.

In the new Chryslers, '77', '70' and '66', Chrysler has actually transformed the fundamentals of motor car design.

Throughout the country, thousands have been quick to appreciate and acclaim the new MULTI-RANGE GEAR SHIFT. It makes driving a joy and gear-shifting easy.

Equally enthusiastic has been the reception of the performance provided by DOWN-DRIFT CARBURETION. This is a principle of fuelization used with amazing success in airplane engines.

The smartness, style and elegance of appointment of the new ACROBATIC BODIES combined with their strength and roominess, have won general admiration.

Make a note, too, of the new Chrysler '66'—the lowest-priced six ever to bear this honored name. This new six is a Chrysler in the best Chrysler tradition.

Only by riding in these remarkable cars, only by taking the wheel in your own hands and driving, is it possible to comprehend how thoroughly Chrysler, in these sensational new creations, has revolutionized and regenerated the motor car.

THE NEW '77' CROWN SEDAN, \$1775 (Special Equipment Extra)
