GOVERNORS RECEIVE PROFFER OF GIFT OF PUBLIC LAND AREAS

Executives of 11 Western States at Salt Lake City Conference View Latest Proposition With Askance

(By The Associated Press) SALT LAKE CITY, Aug. 26—Representatives of 11 Western states meeting here today, received from the United States government a proffer of a gift of some 200,000,000 acres of public lands, regarded it askance and then decided to think it over until tomorrow.

Governor George H. Dern of Utah, who took the floor after Joseph M. Dixon, first assistant secretary of the interior, had made the offer as President Hoover's spokesman, expressed the fear that "What looks at a distance like a fine large horse," might turn out to be a "snake" to be a white elephant.

Other speakers took a different view, and while some of them were not as enthusiastic as might be when it came in question, others urged that the public land states should take all they could get now, and hope for more later.

Without the forest lands and the minerals, Governor Dern insisted, the land would be more of a liability than an asset to the states, which would have to administer it.

"If this proposed gift included all the public lands except the national forests and the minerals, I am sure we should all rise up and rejoice over a gift of justice long deferred," he said.

"If now the United States proposes to give us the minerals, I am sure we should all rise up and rejoice over a gift of justice long deferred," he said.

CROPS MARKETING SITUATION IN HAND

Joint Grain Transportation Committee Rules Against New Limits On Shipments

MINNEAPOLIS, Aug. 26 (AP)—Although admitting that the crop marketing situation in the Northwest remains serious, the joint grain transportation committee of the Northwest Shippers' Advisory Board today decided no further action would be necessary to limit grain shipments, rye and barley shipments to terminal markets in this territory, established last Friday, will be in effect without change, other than that permitting barley shipments to the head of the lakes. The embargo scheduled to expire next Saturday night.

Executives of the majority of railroads serving the Northwest agreed that daily rye and barley shipments should be declined substantially since the embargo took effect. They regarded this as reasons for belief that the congestion in terminal warehouses is not likely to become worse.

More than 11,000 cars, it was said, are in transit to Minneapolis, Duluth or Superior, or lined up in terminals awaiting to be unloaded at elevators which already are loaded nearly to their capacity.

Veteran Prospector Uses Plane In Quest for Snake River Gold

BURLEY, Aug. 26 (Special to the News)—Prospecting for gold and platinum by airplane is the latest development in the aviation field in the Snake river valley, says Charles Ogden, typical placer miner of the region, by making his headquarters at the Burley airport with an airplane chartered from the P. W. Airways company of Ogden.

Ogden worked the placers of old Snake river 20 years ago, before the backwater of the great dams covered most of the more valuable deposits. He is now using a plane to prospect the old placers, claiming to have developed a method of gathering and saving fine gold and platinum that will permit placer mining on the Snake river in the old days.

American Women Use Tons of Powder and Miles of Lipsticks

CHICAGO, Aug. 26 (AP)—American women went in heavy for beauty aids last year. Four thousand tons of powder alone, and 10,000 tons of lipstick to reach from Chicago to Los Angeles by way of San Francisco.

Figures presented today at the tenth annual convention of cosmetics and hair artists went further. There were also used: 52,500 tons of cleaning cream; 28,000 tons of skin lotion; 13,100 tons of complexion soap; 17,500 tons of nourishing cream; 8750 tons of foundation cream; 592 tons of bath powder, and 2375 tons of rouge.

"Women are five to ten pounds lighter than they were a year ago because of the use of beauty aids," said Mrs. M. B. McGowan, president.

FIRE FIGHTERS SAVE THREATENED TOWNS

More Than 150 Men Tilling Over Week-End Bring Oregon Blaze Under Control

BOISE, Aug. 26 (AP)—Fire that threatened for a time to wipe out the towns of Oates and Austin in eastern Oregon today was brought under control after burning over 180 acres.

More than 150 men fought the fire from Friday night over the week-end and it was not until Monday the flames were conquered. The blaze is believed to have been caused by a cigaret thrown from an automobile.

The Oregon Lumber company, whose camps were in danger, closed its sawmill at Oates and turned the entire force over to firefighting officials.

FIRES BURNING ON 100 MILE RANGE IN IDAHO FORESTS

BOISE, Aug. 26 (AP)—Fires were burning over a range of more than a hundred miles in the Boise national forest today while 100 of undetermined extent was burning in the Salmon, Payette and Challis forests.

The local forest force was without report since the Challis-Salmon-Payette fire which was estimated to have already burned over "thousands" of acres. It had been burning several large creeks and over the middle fork of the Salmon river to reach the Payette forest, and at last reports was still raging out of control.

SCATTERED SHOWERS CHECK FIRES IN MONTANA FORESTS

MINNEAPOLIS, Aug. 26 (AP)—Scattered showers over the general forest fire area in this country checked most of the fires, and the fire situation tonight was said to be the best for the last week.

The most serious fire, the Half Moon Forest fire, was serious all over the 100,000 acres of timber, was still spreading slowly, reports tonight said, but additional fire crews have arrived from the west of the state and are expected to have the fire under control within the next day or two.

The Half Moon fire was the only one in the state reported out of control tonight.

FOREST FIRES SERIOUS ALL OVER MANITOBA PROVINCE

WINNIPEG, Manitoba, Aug. 26 (AP)—Forest fires were serious all over the province, forestry department reported today. Men and equipment were being rushed to fire centers where valuable timber and settlements threatened.

Ninety per cent of the fires were man-caused, forestry officials said. Legal proceedings are expected to be brought against certain persons in the Dennis district where an extensive fire has been raging.

Dry weather and winds were making the work of the fire fighters hazardous and the smoke haze has retarded the work of the patrol. Practically every wooded section in the province reported menacing flames.

PITTSBURGH FLIER FIRST TO FINISH IN WOMEN'S AIR DERBY

Mrs. Louise Thaden Adds to Pilot's Laurels by Winning Cross-Country Speed Test With Over Hour to Spare

(By The Associated Press) CLEVELAND, Ohio, Aug. 26—"The curly-haired" and bronzed head of Mrs. Louise McPhetridge Thaden, smiling up pilot, was the first to nod before the cheering crowd at the national air races today as the women's transcontinental air derby raced to a thrilling close at the Cleveland municipal airport.

Mrs. Thaden, holder of the women's air speed record, added to her pilot's laurels in distinguished fashion by winning the Santa Monica, California, to Cleveland speed test with an hour to spare, when she brought her plane down across the finish line at 2:14 P. M. only 26 hours 16 minutes of undetermined extent of flying time had elapsed since she soared last from the Pacific coast on Sunday, August 18.

Negotiating the final 120 miles from Columbus, Ohio, in only 44 minutes, the smiling Pittsburgh aviatix maintained her lead over Gladys O'Donnell of Long Beach, California, who won second place with an elapsed time of 21 hours and 30 minutes. Ruth Nichols, New York, who had been in third place when the women's air caravan reached Columbus, crashed while making a landing there and was forced out of the race. She was injured and her plane was wrecked. Miss Nichols' misfortune moved Amelia Earhart, the transatlantic flier, into third position with an elapsed time of 22:08:37.

Aside from the tragic death of Miss Marvel Crosson, Los Angeles, who fell to her death while flying over Arizona the second day of the derby, the transcontinental race ended successfully.

Ruth Nichols Hurt in Crash

Negotiating the final 120 miles from Columbus, Ohio, in only 44 minutes, the smiling Pittsburgh aviatix maintained her lead over Gladys O'Donnell of Long Beach, California, who won second place with an elapsed time of 21 hours and 30 minutes.

"H. A. Speer, Marshall, Missouri, flying a Baring, was the winner of the all-Ohio derby with an elapsed time of four hours and 56 seconds.

Speer Wins All-Ohio Derby

Giant Zeppelin Enters On Last Lap of Globe Circuit

Balky Motor Tests Lindbergh's Wanted Inscrutable Manner

CLEVELAND, Aug. 26 (AP)—Colonel Charles A. Lindbergh lost his wanted inscrutability today although it was probably no less than any other flier would have done after 16 days at the propeller of his plane in an effort to start a balky motor.

The Colonel and Mrs. Lindbergh visited the national air races at municipal airport on their way out of town after spending the day with Farnely Herrick, son of the late ambassador to France.

Mrs. Lindbergh took the controls as her husband spun the propeller. Fifteen times he spun it and stepped back, but the motor would not start.

"No, she knows how to do it. We'll get started some way." After ten more tries the motor roared and the Colonel grinned.

"We" took off for Hunting Valley, southeast of the city, to spend the night, "and perhaps the rest of the week," at the Herrick estate.

UTAH RAMBOUILLET SETS SALES RECORD

Colorado Wool Growers Pay \$1525 for Yearling Beauty at National Ram Sale

SALT LAKE CITY, Aug. 26 (AP)—Rambouillet, owned by John K. Madden, Mount Pleasant, Utah, stockman, shattered all previous records here today at the opening of the national ram sale when he pulled down a price of \$1525.

The price for this yearling beauty passed the high mark of last year by \$485. Galbraith Brothers of Monticello, Colorado, paid the fancy price for the ram.

Another of Mr. Madden's prize ram was sold to the Empirium Livestock company for \$1300.

Groups of 20 or more sheep also brought attractive prices, one group sold by Mr. Madden to N. M. Scott, Dryden.

History-Making Graf Leaves Los Angeles for Lakehurst

Sensational Flight Within 48 Hours of Goal With Epic Crossing of Pacific Ocean From Japan High Spot in Ship Log

(By The Associated Press) LOS ANGELES MUNICIPAL AIRPORT, Aug. 26—The ground crew swung the tail of the Graf Zeppelin to the West at 9:55 P. M. preparatory to unhooking the nose from the 60-foot mooring mast for the take-off on the final leg of the around-the-world cruise, Los Angeles to Lakehurst, New Jersey.

The sixteen passengers of the Zeppelin and Dr. Hugo Eckener arrived on the field at 10:47 P. M., having been delayed by the tremendous crush of traffic in the morning and from a breakdown in the hotel, where they had been unaccompanied.

Dr. Eckener at the last minute ordered the ship lightened in his final hour of preparation. He ordered ballast dumped and sent for more hydrogen.

Twenty Dr. Eckener's demands were met without need for further hydrogen; for at 11:10 the nose was cut and the ship moved down the field.

For 25 minutes the ground crew worked the ship around the airport while ballast was placed aboard and various tests made by Dr. Hugo Eckener preparatory to the actual take-off.

The ground crew held onto the ropes until Dr. Eckener gives the signal to start. He gave the signal at 11:15 P. M.

Weather conditions reported to Graf Zeppelin navigators tonight indicated a clear sky in the approach course to El Paso. Present plans are to fly through San Antonio, Texas, to the Imperial Valley, California, then to Yuma and along the Mexican border of Arizona and New Mexico to El Paso.

The Graf Zeppelin will reach El Paso in nine hours after departure from Los Angeles.

Ready for Another Service

Refueled and groomed for another service after its epic flight across the Pacific, the Graf Zeppelin was ready early tonight to start on the last lap of its voyage around the world.

The ship arrived over the airport here at 1:10 A. M. today, having first visited San Francisco, where it flew over the bay and north American mainland at 6:02 P. M. yesterday.

Waiting for better light, the Zeppelin cruised over coastal California until 5:11 A. M., at which time it gently settled down to earth, where it was moored.

The four of clock tonight was set for the time of departure. This was to give passengers and crew ample time to board the ship and to take their seats on Kamusigima and assure a cooler ride over the more arid portion of the Southwestern coast.

The route was to fly by way of El Paso and Midland, Texas, Oklahoma City, Muskogee and Tulsa, Oklahoma, where it flew over the country to St. Louis, Missouri, Springfield and Chicago, Illinois, Toledo and Cleveland, and thence through the Mohawk valley to Syracuse, Buffalo, Albany, and New York.

Should the weather be unfavorable over this route, the dirigible would be diverted to the way of New Orleans, Birmingham, Atlanta and Washington.

Lakehurst in 48 Hours

The Graf Zeppelin was expected to reach Lakehurst in 48 hours from Los Angeles. If it does, it will bring to the air liner's personnel distinction of making the shortest round-the-world trip.

The actual flying time from Lakehurst and back again would be about 22 days. The ship would be about 23 days. The ship

DEATH TOLL MOUNTS AS HOSTILITIES IN PALESTINE CONTINUE

Britain Dispatches More Battleships to Jaffa Lately Attacked by Arabs; List of Slain Reaches Nearly 100

(By The Associated Press) ALYING news of the grave disturbances between Jews and Arabs continues to be received from Palestine, despite military censorship.

The death list has reached nearly 100, with hundreds of wounded. The list, which is dated Friday over the ancient dispute regarding Jewish worship at the walling wall, has spread to various parts of the country, and has, according to reports from Syria, assumed proportions of an Arab revolt against the government.

Arab attacks on Jewish tents and colonies appear to be continuing with unabated ferocity. Three persons were killed at Haifa, wounded when Jewish defenders beat off Arab attacks from the Mount Carmel suburbs.

Arab Attack At Jaffa

In London it was considered the British government has taken a firm grip on the situation. The seriousness of the disturbance is indicated by a concerted Arab attack upon the government offices at Jaffa, despite the presence in the harbor of three great British warships. Five were killed and 30 wounded in the Jaffa fighting.

Apprehension exists because news is spreading throughout the Moslem world that the central executive committee, extremist Moslem organization in India, has attacked the British government's high handed pro-Jewish policy in Arab countries, which it is charged has "created a commotion and feeling of resentment in Islamic countries, the consequence of which cannot be overlooked or minimized."

While Ramsay MacDonald is giving most of his time to the situation, conferring with his cabinet, the British government has issued a mandate from the League of Nations.

More Battleships on Way

Two more British battleships were en route to Jaffa and nearly a thousand troops have been sent to cope with the situation. Zionist leaders in London stated the greatest excitement prevails in Jewish communities the world over.

SITUATION QUET IN MANCHURIAN SECTOR

Border Raids Cease But No Signs Appear of Reopening Parleys On Railroad Issue

LONDON, Aug. 26 (AP)—The past few days have seen a cessation of the reports of border raids in Manchuria which have since been reported to have ceased.

Both China and Russia are showing the same reluctance to yield in the talks between the representatives of the respective opponents. Foreign Minister T. C. Wang at Nanking in an interview said he was not optimistic of the results of the talks.

He expressed willingness, however, to adhere to terms of the railroads agreement, which was the basis for the joint direction of the railway by Chinese and Russian.

Governors Receive Proffer of Gift of Public Land Areas

(Continued From Page One) unanimous vote of the public land states.

Reads President's Letter Assistant Secretary Dixon, speaking as a former governor of Montana and a resident of the West for 40 years, read the conference a letter written him by President Hoover in which the chief executive outlined his proposals for turning over the lands with the reservation of the forest, Indian and mineral lands. Of the latter he said that "inasmuch as the royalties from mineral rights revert to the Western states either direct or through the reclamation fund, their reservation to the federal government turns over to the states the administration of the reclamation service, devolving the reclamation fund to the construction of dams for impounding water, and possibly for the relief of present projects on which settlers are about to lose their homes through failure to meet their payments for water.

Table titled 'Standing of the Clubs' showing standings for National League and American League.

Table listing minor league clubs and their standings, including Western Association, Southern Association, International League, Mississippi Valley League, and American Association.

of the mineral reservation that none of the states had the equipment for handling the geological survey, the maintenance of which costs over a million dollars a year.

A proposal, he added, to turn over to the Western states all the deposits of coal, peat, oil, phosphates, and metallic minerals would be rejected quickly by congress.

While he said the president's proposal falls very much short of reclamation as he would like to see, he disagreed with Governor Dorn that the lands offered the states were to be hoped for to see and that they comprised about one-fourth the entire area of the public land states.

Advocates Acceptance He called attention to the fact that at this time of the surface rights to the lands, leaving the water, mineral and forest lands to the Western states would not citizen could afford to accept the public land areas, he said, would soon amount to more than their value.

He said the president's proposal to place upon states the burden of distributing the water for reclamation, he declared that while storage in Washington would only cost about 100 an acre, the cost of putting it on the land was about \$120 an acre. Storage for the Columbia basin project, he said, would amount to only about \$1 an acre, as against \$180 an acre for distribution.

The president also proposed that the federal government turn over to the states the administration of the reclamation service, devolving the reclamation fund to the construction of dams for impounding water, and possibly for the relief of present projects on which settlers are about to lose their homes through failure to meet their payments for water.

States to Handle Water The state would look after the distribution of the water and its colonization, the president suggested, and may the federal government only to the extent of the money received from electrical power developed or water sold, in some cases, and in no event for more than 30 years after the dams were built.

Archivist Phone 244. Dr. Foster adv

Giant Zeppelin Enters On Last Lap of Globe Circuit

(Continued From Page One) started from Lakehurst last August 7. The flight from Krasnaya Gora to Los Angeles was regarded by many as the most thrilling of the globe-circling adventure but as probably the most sensational flight made.

Roofs were covered with eager witnesses of the aerial triumph and the radio man on the ship described the picture as "grossly magnificent."

When the Ekener took off, Dr. Ekener was taken ill to a hotel. He was reported later to be improved and in no danger. The other notable aboard were anxious to get on their land legs again, and made lengthy statements. They were all enthusiastic, however, and used such words as "marvelous," "wonderful," and "magnificent," to describe their experience.

Liquor Under Seal Liquors, consisting entirely of wines, taken aboard the craft in Japan, were partially issued. They were placed under custom bond and sealed, to be unopened until after the Graf has cleared United States territory.

Utah Rambouillet Sets Sales Record

(Continued From Page One) Texas, commanding \$203, while another sold by L. N. Marsden, Parowan, Utah, to John G. Sory, Salt Lake City, bringing \$125.

A change of schedule was announced Monday. Sale of pure bred stock Suffolk will be held Wednesday instead of Thursday.

Mr. Callers suggested that the conference advise an increase of funds for fire protection as provided by the Clarke-McNary bill, and a continuing jurisdiction would be retained on the forest survey begun in the Pacific Northwest.

Delegates were guests of the Salt Lake Chamber of Commerce at a banquet tonight.

Pittsburgh Flyer First to Finish in Women's Air Derby

(Continued From Page One) row. Racers in the Miami Beach to Cleveland event were to spend the night in Louisville and finish tonight, the Oakland, California, to Cleveland racers were headed for Omaha, Nebraska, stop-over point for them tonight, and on to the national races.

Maneuvers, Thirl Crowds While the crowds waited the arrivals of the various racers, they were kept thrilled by stunts and maneuvers of other pilots. The piercing whine of diving planes, the deafening roar of quadrons in battle trials made the air a din throughout the day.

Victory in the women's air derby carried with it a grand prize of \$8000 and other prizes for winning the various legs which will make the total to be distributed about \$25,000. Mrs. Theden will receive the major share.

Card of Thanks We wish to extend our sincere thanks for the busy friends and many kind words and deeds extended us during illness and death of our beloved husband and father.

THE NEW FARM RELIEF BILL

One of the questions which has interested Idaho people for some time is as to what if any benefit Idaho agriculture is to obtain from Federal farm relief legislation.

The question is apt to be pretty well answered as a result of a meeting called by the Twin Falls Chamber of Commerce for the end of the week when the entire program is to be given up to a discussion of the topic.

The impression is quite wide spread that Idaho comes but slightly within the scope of the measure; that the present farm relief bill is designed largely to afford assistance in the case of a half dozen or more major crops, only a small part of which are factors in the Idaho agricultural program.

MEN AND WOMEN TEACHERS

There is no sound reason for paying men teachers more than women. This is the conclusion reached by Dr. James R. McCaughey, professor of education in Columbia University...

Why, then, are men usually paid more for such work? Because of the law of supply and demand. There is a greater demand for the services of able young men than for the services of equally able young women...

Women are naturally preferred for the lower grades. They usually handle small children better than men do and have more patience with them.

ALLIED TROOPS GO HOME
Whatever happens to the Young Plan and reparations settlement, evacuation of the Rhine country by allied forces will begin on September 1.

While the important decision to evacuate the Rhine land was made rather easily, strenuous discussion continued among the creditor powers in an effort to reconcile conflicting calculations relative to the amount of German reparations payments.

CURRICULUM TO HAVE EIGHT COURSES HERE IN SENIOR CLASSES

Principal Terry Outlines Program for Twin Falls High School for Coming Nine-Months' Season

Registration in the Twin Falls high school for the term which begins September 9, will take place next week. Seniors will register Wednesday, September 4, at 9 A. M.; juniors will register Wednesday, September 11, at 9 A. M.; freshmen will register Thursday at 9 A. M.; sophomores will register Thursday at 9 A. M. Registration will not be previously registered will take place Friday at 9 A. M., but it is the desire of the faculty that such students register, if possible, before Wednesday of next week, as it is necessary to evaluate their credits and determine as to their eligibility to enter the eight-course curriculum.

The curriculum of the high school will be divided into eight courses. The first course is one which leads to graduation without college admittance. This includes two minor courses with three years for majors and two for minors. The only specific requirements of this course is that the student shall have four years of English and a half year each of United States history and a half year of civics.

Preparatory Courses
There is a general college preparatory course, a classical college preparatory course, a college preparatory course with major in agriculture, a college preparatory course with major in commercial lines, a college preparatory course with major in home economics, a college preparatory course with major in music.

Compulsory False Impression
The division into eight courses is made for the purpose of guidance, Principal W. H. Terry said yesterday, since some people have the mistaken idea that credits in mechanic arts, home economics, commercial work, etc., will not count in courses for college or university entrance.

All classes in the high school will be for 60-minute periods, except mechanic arts, home economics and agriculture in which classes will be for 90-minute periods.

Compiles Handbook
The faculty is getting up a handbook for students which is hoped will be ready by the opening day of school. It is hoped to make this a satisfactory source of educational information for students and parents, which, among other things, will give them more thorough information about school life and activities.

Other Registrations
There will be no change in plans for courses in the junior high school. Mrs. Vera C. O'Leary, principal, said yesterday. Registration will take place September 9. Registration in the grade school has not been positively announced, but it is believed that the usual course of registering all but beginning pupils on the first day and registering beginning pupils on the second day, will be followed.

BREVITIES

Leaves for Denver—Dr. and Mrs. J. H. Morgan left yesterday for a visit in Denver.

After the home during her mother's absence.

Visiting in City—Mr. and Mrs. Edgar W. Bower and Mrs. Bower's father, of Los Angeles, are visiting at the home of Mr. and Mrs. L. R. Siles. They expect to remain in Twin Falls about three months. Mrs. Bower and Mrs. Siles are sisters.

On Vacation Visit—A. Wilson Peck will leave this morning to visit his vacation with Peck and children at Medicine Lodge on Peck lake. Mr. and Mrs. A. B. Beach, who are on vacation, will be at the bedside of Mrs. Robinson's sister, Mrs. A. E. Peck, who is critically ill in Oklahoma City, Oklahoma.

Attends National Meeting—H. R. Grant, manager of the Mutual Building and Loan association, left last evening for Salt Lake City, to attend the national meeting of the United States League of Building and Loan associations, which opens in three day session there today.

On Summer Visit—A. Sward and family of Kallispell, Montana, with Mr. and Mrs. F. H. Tupper of Kallispell, are visiting at the home of Mr. and Mrs. Sward at Hagerman. Mr. Sward is connected with the Kallispell Daily Inter Lake, a newspaper owned by Louis D. Sward who some 10 or 12 years ago was connected with the Twin Falls News.

Back to St. Louis—Mrs. Carrie Brown, East St. Louis, who, accompanied by her daughter, Mrs. Mary Ferre, and children, has visited the families of H. B. Hogue and Frank Hogue, Twin Falls; A. F. Hogue, Curtis Metcalf and Rollin Metcalf, Eden, and Theodore Erwin, Jerome, will leave for home today.

Eastern visitors and relatives all met at a dinner in the city park here Sunday.

Visits Father Here—Miss Mary Wahl, San Francisco, arrived Sunday to spend the week as guest of her father, Eugene Wahl. Miss Wahl was formerly secretary to the county agricultural agent, here a position which she resigned eight years ago to accept a position in California. She visited Oregon and Washington points on her present vacation.

Rooming house permit to be effective until February 1, 1930, was issued to Fannie Allberry of the Reed hotel, 200 Main avenue south.

Building permit was granted to H. C. Ericson, as owner, and Bruce L. Pollock, lessee, for a structure 24 by 20 feet, on lot 14 Main avenue east between Fourth and Fifth avenue east.

Investigation of the accident was made by Sheriff E. F. Prater, who reported that the Powell car crashed when following a course at the extreme left side of the highway while starting to pass another car.

Wheeler, warden, after Judge Hugh A. Baker had signed a certificate of probable cause for appeal.

The certificate provides that Tharp is to remain in the custody of Sheriff E. F. Prater while awaiting judgment on the appeal filed in the supreme court. The appeal includes the claim that defendant was sane at the time of the alleged murder. Tharp was sentenced to a term of the remainder of his life as hard labor in the penitentiary. In his appeal to the state supreme court Tharp is represented by the law firm of Porter and Taylor.

WARD OTIS THARP AGAIN PRISONER IN COUNTY JAIL

Ward Otis Tharp, 32, convicted in district court here last November on a charge of first degree murder of Mrs. Lola May Downer, was returned from the state penitentiary to Twin Falls county jail Saturday night by Joe

Denver Citizen Had Suffered 25 Years

"I Am Bound to Admit Sargon Is a Marvelous Medicine, for It Built Me Back to Health and Strength After I Had Suffered Twenty-five Years."

JOHN W. SWITZER
"For years I suffered with the worst kind of stomach trouble and disordered digestion. I was nearly always troubled with constipation and was constantly bilious. I spent a lot of money on medicines and treatments, but never got real relief until I began taking Sargon and Sargon Soft Mass Pills.

"Before I finished my first bottle of Sargon I knew my search had finally been rewarded. Now I can eat anything I want, my stomach trouble is over, I am gaining weight and am just full of new strength and energy. Sargon Pills are the best thing I ever saw for constipation. My constipation is over and I feel just as good as I did before my attack. Sargon deserves all the credit."

The remarkable statement of one of John W. Switzer, 1410 Marion St., Denver.

Sargon may be obtained in Twin Falls from Schramm-Johnson, Drugs—Ad.

CITY COUNCIL PASSES TAX RATE ORDINANCE

Fixing Total Levy of 30 Mills for Fiscal Year

An ordinance, instead of the customary resolution fixing the city's tax rate to be levied for the present fiscal year was passed at a meeting of Twin Falls city council last night. It was pointed out by E. M. Sweeley, city attorney, that the ordinance, which provides for a total levy of 30 mills, is more satisfactory from a legal standpoint than a resolution.

The total tax levy, as listed in the ordinance for the fiscal year ending on the first Tuesday in May, 1930, is divided as follows: General expenses for city, 10 mills; street lighting, 2 1/2 mills; library, 2 mills; band, 1 mill; principal payments and sinking fund, 1 1/2 mills.

A rooming house permit to be effective until February 1, 1930, was issued to Fannie Allberry of the Reed hotel, 200 Main avenue south.

Building permit was granted to H. C. Ericson, as owner, and Bruce L. Pollock, lessee, for a structure 24 by 20 feet, on lot 14 Main avenue east between Fourth and Fifth avenue east.

Investigation of the accident was made by Sheriff E. F. Prater, who reported that the Powell car crashed when following a course at the extreme left side of the highway while starting to pass another car.

Wheeler, warden, after Judge Hugh A. Baker had signed a certificate of probable cause for appeal.

The certificate provides that Tharp is to remain in the custody of Sheriff E. F. Prater while awaiting judgment on the appeal filed in the supreme court. The appeal includes the claim that defendant was sane at the time of the alleged murder. Tharp was sentenced to a term of the remainder of his life as hard labor in the penitentiary. In his appeal to the state supreme court Tharp is represented by the law firm of Porter and Taylor.

THE HOME NEWS

Editor—Roy Wood. Chief Plinker—W. D. Naylor. Vol. 1. Tuesday, August 27, 1929. No. 1. Cub Reporter—Jennie Shurtliff

WE suppose that every one, some time or other, has wanted to be a writer, wanted to edit a column, or even run a newspaper.

We'll confess there's our weakness, too. Editing a newspaper has always interested us.

So we'll be here every week with the Home News, and we'll talk about:

TOY FOLKS
OUR TOWN
AND THINGS
and maybe we'll talk a little about the Chamber and Coal business.

We'll promise to be interesting and give you some good news. We'll try to be as interesting as you along once in a while, but that's our sure sign. We'll try to be as interesting as you along once in a while, but that's our sure sign.

ANOTHER THING
An editor needs confidence and criticism from "their public," so you are welcome. Tell us what you think about our efforts.

George Peterson is building a new house by his own design that promises to be a great success. He will reduce the cost of feed for his fine herd of cows.

Success to you, George.

Ed Chan is so busy with the construction of a new building for Mrs. Mary V. Norton on the corner of Fifth avenue and Third street, north that he almost forgot to go fishing Sunday.

We wish to issue a bulletin right here on our Fabro Paint and Staining.

Traffic Cop: "Don't turn around in the middle of the block."
Traffic Driver: "Oh, officer, I think I can make it. Just watch."

You can please the whole family by laying hardwood floors right over the old ones.

A neighborhood bulletin here on our desk says that spraying will destroy all pests. Why not try that on the next book agent that comes along?

Pharmacy Bulletin: Break down the door there's a crocheting gang in there.

Good for Twin Falls. You see, we make our money in dollars and cents.

Theatre

Orpheum Offers Comedy Skits and Mystic Drama

With plenty of comedy dancing and the usual routine of singing of the Fanchon-Marcus vaudeville in conjunction with a feature program consisting of an all-talking musical drama, a sound comedy and news, the Orpheum will today present "The Christian," a Universal production based on the famous Broadway stage success of that name. Margaret Livingston and Fred MacKay are seen in the principal roles. George Melford directed the picture under the supervision of Carl Laemmle, Jr.

The story concerns the weird events following the staging of a fortune telling party at the home of one of the society leaders of a certain American city. The Hindu mystic, played by Holmes Herber, becomes frustrated in the tangled heart affairs of the several couples attending the seance. The startling results make gripping drama.

"The Christian" was a sensation as a play. It was written by Ernest Bramm and Leonard Franks. The picture is said to be even better, due to the broader scope of the screen in developing such a story.

Herbert handles a difficult role ably. An equally good portrayal is done by Rockliffe Fellowes. Miss Livingston is seen in this picture for the first time in a blonde wig, which will be an agreeable surprise to picture fans. Fred MacKay is one of the screen's most prominent juveniles. He is a Universal "find." Others in the cast are Crawford Kent, Philo McCullough, Anita Garvin, Dorothy Gould, John George, Rose Tully and Bernard Siegel.

Even if you could put a BOX of apples into one dumpling, you wouldn't

Ann you'll never find Hills Bros. roasting their fine blend of coffee in bulk. Only a few pounds at a time pass through the roasters—a patented, continuous process—Controlled Roasting. Every berry is roasted evenly and a flavor is produced such as no other coffee has.

Ford Dealers' Selling Prices on USED CARS Are Low

Why not get a Used Car for the second car your family has been needing? Most of the cars we have accepted for trade-in on new Fords have a generous number of miles left in them—miles of unused transportation—at a price you can easily afford.

You'll find our Used Car prices low because there is no "price padding" to make up for high trade-in allowances. The price of the Model A Ford is so low, and the value so high that excessive trade-in concessions are impossible. That and our reputation for fair dealing, which we value so highly, protect you when you buy a Used Car from us.

When we offer a Model T Ford for resale it has been thoroughly reconditioned. New parts wherever needed; everything properly tightened and adjusted—and with it goes a guarantee. We have a number of these reconditioned Fords now. Also several cars of other makes, priced according to the unused transportation they offer. Let us prove our prices.

Stop in today and look over these bargains!
