### TWO ORGANIZATIONS WORK FOR FARMERS

Secretary Hyde Says Department and Farm Board Cooperate to Aid Agriculture

SYRACUSE, Aug. 28 (AP)—Secretary Hyde of the federal farm board does not threaten the existence of the department of agriculture.

The functions of the two organizations, he said, are "to achieve the maximum of results for agriculture and these results can be secured only by close cooperation between the two."

The department of agriculture, Mr. Hyde said, is fundamentally a great research organization created to collect and diffuse useful knowledge in those engaged in agriculture, a field into which the farm board has neither the funds, the power, nor the disposition to enter. The department, however, he said, has no legal authority, nor is it a suitable agency for the development of use in every field, while on the other hand, the farm board, as an agency through which economic facts can be supplied, is able to put the department's findings more directly to the service of the farmer.

"The general program," he said, "is one of reorganizing agriculture in many respects with the farm board taking the active leadership."

Thousands Cheer  
Graf On Voyage  
Across Continent

(Continued From Page One)

At which she was easily visible, the Zepppelin, her motors humming like dragons, reduced to speed and moved slowly. Crowds lined the streets while many persons had vantage points on the tops of buildings. The city had the appearance of a New Year's celebration.

While the searchlights, played over the Graf and Detroit cheered, a light in the cabin of the ship blinked again and again in recognition of her reception.

The shouts of the crowds were taken up by whistles all over the city. Only about 10 minutes was consumed in the circle about the city. Lazily the big ship completed and then with her nose pointed on her course, the motors quirked and the Zepppelin slipped swiftly away into the night, leaving a blaze of light that was Detroit.

Fires Burn Over 2500  
Acres of Timber Lands

BOISE, Aug. 28 (AP)—Twenty-five hundred acres of timber land has been burned over this year this area supervised by the O'Connell Timber Protective association, the state land department was informed today.

The report said there had been 97 fires during the season of which three were still burning.

Sometimes Prove Fatal  
All drafts cause shivering. And this is especially true of aerodrafts.—Helen Hermit.

### The Weather

FORECAST FOR TODAY AND TOMORROW—Fair, but local thunderstorms in high mountains continued warm.

Maximum temperature yesterday was 88 degrees and the minimum 54 degrees, according to the report of the government observer. Precipitation—breath of an inch of rain fell.

### GIRL CROSSES SEAS TO WED IN DENVER HOSPITAL

DENVER, Aug. 28 (AP)—Her fiancé in a Denver hospital with a fractured hip, suffered in an automobile accident, Miss Valerie French, granddaughter of the late Earl of Ypres, is on her way across the Atlantic to wed him to the bedside of the youth, Army Bradley Martin, Jr., son of a prominent New York family. Their wedding, planned for October this year in London, may be held in the hospital here instead.

Bradley Martin, the young man's father, who came here to be with his son following the accident, which occurred July 26 at Limon, Colorado, said that Miss French called on the doctor to see if he could get her to New York to meet her and bring her to Denver.

"If the surgeon deems it advisable, I think my son's wedding to Miss French will take place here," said Mr. Martin of the Ypres family. Their wedding has been made, but as he will be forced to stay in the hospital until October, any wedding service before that time would naturally take place in the hospital.

Dazzling Aircraft Array,  
Daring Feats of Aviators  
Mark Cleveland Air Show

(Continued From Page One)

ard, its inventor. De La Cierva took the auto-gyre into air before the grandstand as easily as any other plane.

With its big windmill-like, horizontal propeller revolving on top, De La Cierva ascended high and then turned on the motor. The gyro slowly sank to the ground, upright, and landed gently and safely.

Other events on the program included flights of gliders towed by airplanes and automobiles, parachute jumps, maneuvers by army, navy and marine corps planes, and several closed course races.

Tomorrow's program besides witnessing the departure of the Los Angeles, the usual schedule of aerial maneuvers and races, probably will include an attempt by Mac Harrell, Tulsa, Okla., to set a new world's altitude record.

### STATE TO SURVEY HIGHWAY TRAFFIC

Idaho Joins Other Western Groups in Study of Proper Types of Construction

BOISE, Aug. 28 (AP)—A complete survey of traffic on Idaho highways will begin on September 3, it was announced today at the department of public works.

The survey will be made in connection with a general survey over all western states to determine the most used highways with a view to guiding road officials in selecting proper types of construction.

Francis E. Clark, engineer of the department, will be assigned to the bureau of public roads to take charge of the Idaho survey and was expected from North Idaho tonight to begin making plans for the work.

Several points on each highway in the state will be checked upwards of a dozen times during the year that the survey is in progress to get a full picture of traffic conditions the year round.

C. O. Morrison, engineer of the bureau of public roads is in charge of the western states' survey and was expected here soon for a conference.

### Merchants Hold Out For Compensation For Signing Pact

(Continued From Page One)

credials would be broadcast by radio. With the adjournment, the time before the public session is cut to four and a half hours but hope was still entertained that an agreement would be reached in time.

Leaders Plan Departure  
Almost all of the leaders of the delegations had made arrangements to leave The Hague today or tomorrow.

Premier Aristide Briand of France and Foreign Secretary Arthur Henderson of Great Britain planned to return tonight to their respective capitals.

Foreign Minister Gustav Stresemann of Germany yesterday said he was willing to cooperate but that if Germany gives up anything it must get something in exchange. He had been asked to contribute to the overlapping of the Young and Young plans. The former would not expire until September 1; whereas the exports in Paris agreed to apply the Young scale as of last April.

### Varney Redistributes Air Mail Equipment

(BOISE, Aug. 28 (AP)—Air mail equipment which has been amassed by the Varney air lines at the Boise airport is to be distributed over the lines at an early date, Leon D. Cuddeback, vice president in charge of operations, said today.

The repair department is being transferred to Portland, Oregon, as a more strategic point in the air lines since their extension to Seattle. Equipment now at Boise, the midpoint of the Pasco-Ball Lake City line, will be distributed to Seattle, Portland, Ball Lake City, Spokane and Pasco prior to September 16, the date set by the postal authorities for the opening of the air route from Pasco to the coast, Cuddeback said. The pilots will be moved from Boise to the ends of the lines.

ANNOUNCEMENTS  
The Shumrock club will meet with Mrs. Hizenbaugh Thursday afternoon.

Dan McCook Clebe, Ladies of the G. A. R., will meet Friday afternoon with Mrs. Kenneth Merrill, half mile north and half mile west of Five Points. Those desiring transportation are asked to telephone 598-J-1.

# Philadelphia Athletics Trim Yankees, 9-7, to Even Series

## Five Single-Frame Runs Fasten Loss Onto Gotham Team

Each Side Uses Four Hurlers in See-Saw Batting Contest at Philadelphia; Grove Maintains Margin

(By The Associated Press)

NEW YORK, Aug. 28.—The Athletics gained an even break in their two-game series against the Yankees by trimming the champions by a 9-7 here today in a batting race which was a see-saw contest, in which each side called upon four pitchers. After the Athletics had the upper hand, with the score in the seventh, Connie Mack sent Leo Grove to hold it, while he did not permit a spell of misdeeds which lifted the bases in the eighth.

Base hits returned to the game after departing in the first inning yesterday due to a foul in the back, and Jarrett Gooden was back for his thirty-sixth home run in three innings.

## Foxx Upholds Big Six's Bat Honors

### Athletics' Star Only Consistent Hitter With Four High-Point Men Playing

NEW YORK, Aug. 28.—Jimmy Foxx was the only consistent hitter in the Big Six yesterday, when four of the circuit's leading batsmen were held in check in scheduled lineups. Jimmy got two out of two against the Yankees and gained 1 point to 0.74. Hornsby got his thirtieth home run at Pittsburgh, but only one other hit in the game, adding 2 points to 0.66. A. Simmons went hitless, and Babe Ruth's thirty-sixth homer was his only blow. The standard: G. A. B. P. Herman, Rebin, 115 450 85 182 .400. Foxx, A., 125 418 165 274 .387. ## Lucky Fourth Gives Hollywood Victory

SEATTLE, Aug. 28.—Kallo of the Seattle nine kept San Francisco's hits scattered while his teammates were bunting safely in the first, third and eighth to win the second game of the series by a 4-to-2 score.

## Stars Turn in Seven-Runs in Single Inning Defeating Sacramento, 14 to 3

LOS ANGELES, Aug. 28.—One big inning—the fourth—gave Hollywood a 14-to-3 victory over Sacramento today. In Hollywood's lucky fourth inning the stars bunched their hits, including a home-run by Howard Burkett and a walk to turn in seven runs. Pank also hit a circuit cut in the first inning.

## Wrigley Race Waits For Warmer Water

TORONTO, Ontario, Aug. 28.—A second 24-hour postponement of the Wrigley 15-mile marathon swim was announced by race officials late today. It was originally scheduled for this afternoon but postponed because of cold water. Officials said that the direction of the wind, upon which the temperature of Lake Ontario depends to a great extent, had convinced them favorable conditions would not prevail tomorrow, but they expected the water to reach the required 58 degrees by Friday.

SAN FRANCISCO'S OLDEST NEWSPAPER IN MERGER

SAN FRANCISCO, Aug. 28.—After today's issue the Bulletin, San Francisco's oldest daily newspaper, will cease to exist as a separate publication and will be published jointly with the San Francisco Call and Post.

Both the Call and the Bulletin today carried page one announcements of the merger which means, in effect that Herbert Fieldhacker, San Francisco banker, has sold out to William Randolph Hearst.

The consideration involved in the transaction was not disclosed but persons closely associated with the publications place the figure around \$1,000,000.

The Bulletin was established in 1855 by James King William who was shot by persons who objected to his strenuous editorials in favor of law enforcement.

the proposed new constitution is a clause changing the name of the organization to the American Building and Loan League.

**COMMISSIONERS CLOSE GLACIER PARK MEETING**

GLACIER NATIONAL PARK, Aug. 28 (AP)—Charles Webster, member of the Iowa public service commission, today was chosen president of the National Association of Railroad and Utilities Commissioners, now in forty-first annual convention at various Glacier hotels. He has been first vice president of the association since 1927.

Harvey W. Hannah of Tennessee was named first vice president and John J. Murphy of South Dakota second vice president. John E. Benton of Washington, D. C. general secretary; James B. Walker of New York, secretary and Clyde S. Butler of Washington, D. C., assistant secretary, were re-elected.

The next meeting place was not selected. Adequate authority for regulation of motor bus service was recommended today. The committee on service of public utility companies pointed out that where bus lines lie entirely within one state the matter of regulation is not difficult, but where two or more states are involved there are no means for regulation.

**Man Enters Plea of Not Guilty to Liquor Charge**

J. E. Stevenson, charged with illegal possession of intoxicating liquor, entered a plea of not guilty when arraigned before Judge C. A. Bailey in probate court yesterday afternoon. Stevenson's bond was fixed at \$100. The case is to be heard today at 10 A. M.

Frank Cain, after pleading guilty to a charge of possessing liquor, was ordered to pay \$250 fine and costs, by Judge C. A. Bailey.

**BANDITS SACK MEXICAN TOWN AND SLAY OFFICIALS**

MEXICO CITY, Aug. 28 (AP)—Press dispatches today said that the mayor, a councilman, chief of the defense corps, and five other residents of the village of Tepic, state of Oaxaca, had been killed by bandits who sacked the town. The defenders resisted the attack from the roof of the village church for an hour before they were defeated.

CULVER COMMENTS TWIN FALLS IN TALK ON AIRPORT ACTION

Head of National Real Estate Board Tells of Large Increases in Usage of Commercial Aviation

"The pessimist is all right in his place but the trouble is he never gets there until he dies" declared Harry Culver, president of the National Real Estate board in a strong and well delivered inspirational address before a joint meeting of the local Real Estate Club and the Rotary club held in the form of a luncheon at the Regency hotel yesterday.

Mr. Culver was introduced by C. D. Thomas, head of the local real estate association in a brief speech replete with interesting points of information relative to the growth and development of the Twin Falls county. Governor J. G. Buldridge also spoke briefly in support of the governor was present as guest of honor of the realtors, stopping over in Twin Falls on his return trip to Boise after having attended the conference of western governors at Salt Lake City.

Trip in Airplane Mr. Culver is making a trip which will take him into practically every state in the union, traveling by plane. His itinerary covers a distance equal to three times around the globe and offers the prediction that air travel is as yet in its infancy.

He complimented the Twin Falls upon its new airport as evidence of civic pride and community progress and declared that co-operation in the common good was the greatest of all elements which make for the building of towns and cities.

He complimented the Twin Falls upon its new airport as evidence of civic pride and community progress and declared that co-operation in the common good was the greatest of all elements which make for the building of towns and cities.

Mr. Culver remarks were in part as follows: "The airplane is even now creating new uses for land at a comparatively enormous rate, and air transportation is bound to have a greater effect in the future on real estate values and on the contour of modern cities.

Here to Stay "Commercial aviation is here to stay. We laughed at radio; today, we turn a deaf ear and the voices of the air bring music from Seattle or New York. At one time ago Northcliffe offered \$50,000 to the person flying the English Channel; today they are carrying passengers from London to Paris for \$18.00 per ride.

Like Railroad Terminal "The modern airport is becoming a gateway to the city or community it serves. It may be very directly connected to a railroad terminal in its functions, facilities, and general character. Moreover thousands of people visit airports every day, merely to watch planes arrive and depart. Real estate use and real estate values follow the crowds.

Illumination Needed "More airports illuminated for night work are needed, more landing areas between cities and better equipment there, more safety and comfort in the construction of airplanes, more mail, express, and passenger service, more private capital participating in the development of the industry, more public sympathy, more individual enthusiasm, more Edsel Ford's and Harry Guggenheims, more names of towns painted on the roofs of buildings to guide the flyer on his way. Ten thousand miles of the airways are lighted. Land along these airways will rise in value as land along im-

Willie Willis by ROBERT QUILLLEN. Illustration of a man and a woman.

"Mamma blamed me for havin' no shirt on my back, but I didn't know a kid with curls like that would fight if you dared him to."

Important roads and near important terminals has risen in value. In addition to the 1228 existing airports, there are 4000 unimproved fields, emergency in character, of which the government has no record.

INSPECTOR FINDS DAIRY SITUATION SATISFACTORY

Loans for the purpose of increasing the number of dairy cattle in southern Idaho, so far as made in Twin Falls county, are in excellent condition.

Mr. Spotswood left last evening for Burley to make an inspection there today. Mr. Nelson says that the corporation was organized by the cooperative dairy associations of southern Idaho to assist in securing more cattle.

BARBER TO BE JUDGE OF POULTRY AT FILER FAIR

J. W. Barber, of the university extension department, will judge poultry at Twin Falls county fair here next Tuesday. Mr. Barber has judged poultry for several years at the fair here and announces that he is glad to answer any questions that may be asked by poultry owners.

Judge A. Vance will again place rabbits in the rabbit department. This will take place on the second day of the fair. Mr. Vance will be present at the meeting of the Rabbit association which will be held on Wednesday evening at the fairgrounds. All these events are open to the public.

We do custom grinding every day. Hayes Hatcher, adv.

MANY WILL ATTEND FARM LAW MEETING

Large Number Will Be Here at Gathering to Discuss Relief Measure Plan

Interest in the district meeting of the Idaho State Chamber of Commerce called here Friday evening at Tom's cafe, to consider application to the local situation of the provisions of the recently enacted federal farm relief measure, has extended beyond the boundaries of the seven counties originally included and other sections will have more or less representation. The Idaho Grimm Alfalfa Seed association officers, comprising R. R. Davis, Sterling; H. K. Wiley, Springfield, and E. E. Sanders, Blackfoot, will be present. It was learned last evening.

Those who bought tickets for Utica Jubilee Singers will please see persons from whom they bought for refund on tickets. Ticket sellers will also make every effort to see people to whom they sold that all money may be refunded as promptly as possible, adv.

McNary-Haugen bill; Congressman Addison T. Smith, and R. E. Shepherd, Jerome, president of the Idaho State Chamber of Commerce.

GOVERNMENT OFFICIAL SAYS BEETS BEST HE HAS SEEN

The condition of sugar beets in the Twin Falls section is the best that I have found so far in any part of the country, Dr. E. W. Brander, Washington, D. C. of the department of agriculture, who is on a tour of inspection of the field stations of entomology and plant industry located at sugar factories, said last evening, as he was leaving for California after an inspection visit here. Dr. Brander expressed himself as much pleased with the situation here, with reference to sugar beets.

NOTICE Those who bought tickets for Utica Jubilee Singers will please see persons from whom they bought for refund on tickets. Ticket sellers will also make every effort to see people to whom they sold that all money may be refunded as promptly as possible, adv.

"THROW THE POTATOES IN THE Sink" but drink the water they're boiled in" Yet Super Maid Cook-ware, for all its unusual and important features is fairly priced. It costs more to make, so it is higher priced than ordinary spun or stamped aluminum. But we believe that no cook-ware ever made will last as long in your home or pay for its cost as surely or as quickly. It saves food vitamins, and all the good of the food. It makes even the inexpensive roasts melt in your mouth and keeps them from shrinking. It saves fuel. Saves your time. SAVES MONEY. The only place you could learn all there is to know about Super Maid Cook-ware and Super Maid cooking is in your own home. A demonstrator will come and serve you a meal—free—on request. He will not ask you to buy a single utensil at this dinner. When you buy, the price you pay is the same price thousands upon thousands of men and women have paid throughout the country. Your satisfaction will be the same as that which is recorded in thousands of unsolicited testimonial letters now in the files of the Super Maid Cook-ware Corporation.

Famous Selby Arch Preserver Shoes Now Sold Exclusively At Falk-Tingwall's. Polks, here's an announcement that it is well worth your time to read: "WE, Falk-Tingwall, have been extremely fortunate in obtaining the exclusive agency for the famous Selby Arch Preserver shoes. Our first shipment has just arrived, which is why we can now show you an attractive collection of Arch Preserver Shoes. These shoes are America's foremost comfort shoe. Arch Preserver Shoes make healthy feet and keep healthy feet perfect. A real treat for tired, aching feet. A real doctor for sick feet. Healthy feet means a healthy body. Let's all feel the glow of health and be happy. These shoes are perfect-fitting and we have your size. You can place your problems with us confidently. Our thorough training makes it possible for us to give expert service—which will give you a perfect fit. Come in and see us! MAIN FLOOR. Full Value for Every Dollar.

Are you getting all the good out of the foods you pay for? Or are you throwing from 25 per cent to 50 per cent of their most valuable elements down the drain? Authorities claim that from 57 per cent to 75 per cent of the best part of boiled potatoes is in the water! Super Maid cooking eliminates the terrific waste of the salts, iron and vitamins so necessary to good health and successful living. It is scientific cooking—yet so easy that you can learn all about it in one evening—as you watch a Super Maid dinner being prepared and listen to a competent dietitian. Super Maid cooking is possible only in Super Maid Cook-ware. This is of Super-aluminum, the finest and purest that money can buy for cooking purposes. It is cast aluminum because only through casting can the superior Super Maid design be carried out—the extra-thick bottoms and the extra-thick sides that taper gradually to the top for perfect heat-distribution; the no-roll, no-groove top and perfect-fitting lids; the absence of all rivets, which could work loose and defeat cleanliness and sanitation. SUPER MAID COOK-WARE THE SUPER MAID DEMONSTRATOR shows you why at home

# Charles Lindbergh Easily Masters Throttle of Anything That Chugs

## VERSATILE GENIUS OF FAMOUS AVIATOR APPEARS IN FEATS

Flying Colonel Equally at Home On Land, Sea or Air as Outstanding All-Round Motorist and Mechanic

By DONALD C. BOLLES (Associated Press Feature Writer)  
NEW YORK, Aug. 28.—A mechanical genius whom all motors recognize as their master is the new portrayal of Colonel Charles A. Lindbergh.

It is a picture that has shaped itself gradually to portray the famous aviator as one entitled to recognition for extraordinary versatility. A world that read with avidity all that was written of the young American aviator through the clouds of the Atlantic is gaining a new appreciation of his accomplishments.

Not only in the air, where his exploits first turned the attention of the world to his skill, but on land or sea, the flying colonel is at home. Motorcycle and automobile, airplane and motorboat, find their master in the tall slim figure that is known the world over.

The evolution by which Lindbergh became an all-around motorist was completed when he learned the intricacies of manning alone a launch. It was upon the Moustie, the sleek craft upon which he successfully sought to escape the curious eyes of the world for his honeymoon with the former Anne Morrow, that Lindbergh essayed his role as a sea pilot.

His motoring education began in tender years when he tinkered with bicycles and motorcycles in Little Falls, Minn. His means of transportation during his brief career as a university student at Madison, Wisconsin, was said to be a "one-lunger" motorcycle which earned him a "whistle" while the natives shook their heads. His uncanny knowledge of the intricate details of the power house of the vehicles he drives has inspired a self-confidence that is responsible in a large degree, for his daring.

The most recent example of his sang-froid in dangerous pursuits was given by the flying colonel on the Detroit automobile proving grounds. Strapping into a strange automobile, he whirled around

**A FIRST REAL THRILL OF SPEED—ON A ONE-LUNGER AT WISCONSIN U., MADISON.**

**THE SPIRIT OF ST. LOUIS LIFTED HIM TO THE HEIGHT OF HIS TRAVELING CAREER.**

**THEN IN A FEW HOURS, HE MASTERED HIS HONEYMOON BOAT.**

**SHADES OF THE HORSE AGE! HE PITCHES SHOES AT THE PRESIDENT'S CAMP.**

**AND AS A LATEST FEAT, HE PILOTS A RACING CAR, 112 MILES AN HOUR.**

Col. CHARLES A. LINDBERGH

The versatile Lindbergh! He is master of the airplane, the motor car, the motorcycle and the motorboat. He even is a deft hand at circling a horseshoe peg with ringers.

the track at the dizzy speed of 112 miles an hour. Not fast for an aviator but sufficient to qualify him to join the daredevils of the race track.

The truth is that Lindbergh has a faculty of doing well whatever he tackles; whether at work or play he conquers the job at hand.

A glimpse of the lighter side of his versatile character was given in stories that came out of President Hoover's camp.

There Lindbergh draped horseshoes over posts with a consistency that discouraged all contestants and in the miniature engineering projects directed by

President Hoover, the executive found his youthful guest had a strong back as well as a strong mind. He turned to wielding a shovel with alacrity.

### Vegetable "Makes Good"

The fava is a water-growing vegetable resembling the lima bean. It is said to be an importation from Italy and has been planted in South Carolina, where it is growing in favor with gardeners and truck raisers. It is planted in the fall and matures early in March.

A "Firm" The "firm firm," as applied to a business establishment, is from the Latin "firmare" to cement by signature. Originally the meaning changed until it meant those who signed trust letters—the "firm."

### All-Powerful Gold

The idol gold can boast of five peculiarities: It is toughest in all metals without a single trouble, and by all classes without a single hypochrite.—Colton.

## IDAHO VALUATIONS GAIN \$3,000,000

Assessments Increase For Real Property and Utilities Except Railroads

BOISE, Aug. 28.—Property valuations for taxation purposes in Idaho will show an increase of approximately \$3,000,000 this year over last year, a compilation of work of the state board of equalization revealed today.

The total will be about \$485,000,000, including an estimated personal property roll of \$23,000,000, compared with \$482,026,451 a year ago.

The final figure for this year will not be known until the final cleanup of personal property assessments, consisting mainly of military livestock, is submitted to the board.

Increases in assessments were shown in the real property roll, in power companies, in telephone lines and in car companies, while there was a decrease shown in railroad valuations.

The tabulation shows comparisons of the various principal classes, excepting personal property.

	1929	1928
Real property	\$341,697,700	\$340,213,925
Railroads	\$5,225,201	\$5,428,931
Power companies	23,704,865	23,188,267
Telephone	3,912,076	3,570,700
Telegraph	107,435	702,450
Car companies	1,427,465	1,201,915

Newspapers Ad reach the people you wish to attract.

It's Really Quite a Tribute Anthropologists always go away from home to search for the missing link. Thanks for the compliment—Yvonne Hines.

Weight of Gold One thousand dollars in gold weighs 32.173 Troy ounces, which is the equivalent of 1.23 pounds avoirdupois.

Earliest Pins When pins were invented, in the fourteenth century, the maker was allowed to sell them only on the first two days of the month. Then those days women flocked to buy them. The pins were so expensive that it was the custom to give as a present a sum of money to be used as pin-money, hence the term.

**UNION PACIFIC SYSTEM ATHLETIC MEET at BOISE SEPT. 1-2-3 1929**

Bigger and Better Than Ever!

The Greatest Attention ever shown in Boise, eclipsing last year's Meet. New Features. New Entrants.

More than 600 Contestants will participate. In addition—Major Events, including Baseball, Horse-shoe Pitching, Band Contest, Track Events, Golf, Tennis, Trap Shooting, Rifle Shoot, Juggling Contest, Football, Swimming Contest and Junior Track Events.

Big Midnight Frolic, Professional Boxing Match, Fireworks Spectacular. Photo Glass will be held on these same dates.

# INVESTIGATE this unsurpassable tire Guarantee

And the remarkable test that made such a guarantee possible

**GUARANTEE**

We guarantee this tire to outwear any other tire of equal price when run under the same conditions.

THE MILLER RUBBER CO. OF N. Y.

**MILLER'S New Geared-to-the-Road balloon tires are guaranteed to outwear any other tires of equal price when run under the same conditions.**

Read that again! It means exactly what it says. How, you may ask, can so complete a guarantee be made?

The answer is: the tire itself.

This unsurpassable guarantee was adopted only after we had perfected the tire and had proven it by test. Definite, undebatable proof of that statement is contained in the chart shown here.

**Road tested against 13 leading makes**

Before putting this tire on the market, it was subjected to most strenuous and remarkable tests. Tests whose results leave no question as to which tire will wear the longest.

On the wheels of the Miller Test Fleet we ran this new tire opposite the tires of 13 leading makes over all kinds of roads. Consider this sensational result:

In every case the New Miller Geared-to-the-Road outwore and outlasted the competitive tire.

That's why we place upon this tire an unsurpassable guarantee.

That's why we say: based on actual tests, this is the one tire that offers you the maximum of wear.

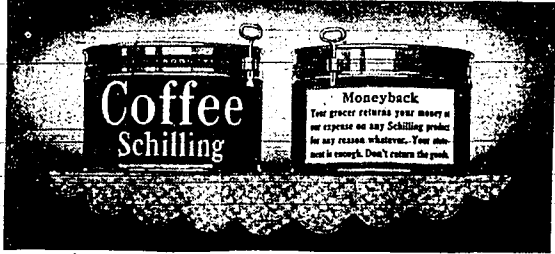

See this new tire at your Miller dealer's, today.

Take Mileage of New Miller at 100%:

Tire No. 1 ran 95.9%	Tire No. 7 ran 51.4%
Tire No. 2 ran 85.7%	Tire No. 8 ran 45.8%
Tire No. 3 ran 68.0%	Tire No. 9 ran 40.3%
Tire No. 4 ran 57.0%	Tire No. 10 ran 38.1%
Tire No. 5 ran 61.5%	Tire No. 11 ran 36.0%
Tire No. 6 ran 54.7%	Tire No. 12 ran 35.9%
	Tire No. 13 ran 25.4%

How the New Geared-to-the-Road Compared with the Other Biggest Selling Tires in America.

THIS is the one that never varies in fine flavor

Whether it is your 1st tin or your 61st - - it never varies. A quality that never varies comes only from methods that never vary. That's why cheap coffee-making and fine coffee-making do not belong together - - for nothing is so contagious as "cheapness." There is one coffee roaster who specializes on fine coffee only. No 2nd or 3rd grades - no cheap blends - ever enter or leave the fragrant Schilling-roasting rooms - - - the only place in America where that is true.

## SOUTHERN PACIFIC TO OPEN NEW LINE

Golden Spike to Be Driven at Joining of Rails on Klamath-Alturas Road

SAN FRANCISCO, Aug. 28 (Special to The News)—The Southern Pacific Pacific new line of railway between Klamath Falls, Oregon and Alturas, California, has been officially set for Sunday, September 14 when the golden spike will be driven to commemorate the joining of the rails.

A celebration in which the entire countryside will join in to be held on Saturday, September 14 when a gold spike will be driven to commemorate the joining of the rails.

Delegations from Portland, San Francisco, Klamath Falls and Alturas will travel in special trains to participate in the celebration.

The new line is 96 miles in length. It connects the Southern Pacific Cascade line with the Nevada-California-Oregon railway which was recently acquired and standard gauge by Southern Pacific.

Not Easily Attained  
No one is to be blamed for great or wise, but when it comes to health, health is not to be had for nothing.

Grows in Many Places  
The point is one of the most important of all the nutritive food...

## BEAN HARVEST ON AT MOUNTAIN VIEW

Cutting Early Crop Begins; Wheat Threshing About Completed; Yields Good

MOUNTAIN VIEW, Aug. 28.—Bean cutting started in several fields in this district Monday morning. The main part of the crop will not be cut until next week probably as the early-planted beans are the ones being cut at this time.

Miss J. W. Riedeman celebrated her birthday Sunday. Those who called during the day were her and Mrs. Frank Hill and many others. Mrs. Riedeman is 68 years old and has been married 45 years to her husband, Mr. W. Riedeman.

Henry Wises' father from Pocatello paid him a visit Saturday. Mrs. Wises and her family were here and Mrs. Frank Hill and many others. Mrs. Wises is 68 years old and has been married 45 years to her husband, Mr. Wises.

Once Had More Stripes  
The American flag has not always had 48 stripes. A stripe was added for each new state until 1818 when it was decided to put in the original 13 stripes and place an additional one for each new state in the blue corner.

Grammar Shift  
The term "infling" is a noun deriving from the noun "infling" and an adjective "infling" or "infling".

## Cassia County Budget Up For Final Action

BURLEY, Aug. 28.—September 3 has been set by the county commissioners for final consideration of the county budget, tentatively passed on at their recent meeting. A four mill levy is required to raise some \$40,000 by taxation, together with a like amount to be raised other than by taxation, to meet current expenses, capital and other outlays.

Corsets Still in Use  
Corsets, fitting looser than are still used in Wales, were used in the lifetime of the time of the invasion of Julius Caesar, who left a description of them.

movements up to a certain extent are necessary to the economic and business development of the country. Our great automobile industry would never have been possible were it not for good roads. However, it appears that the state and local governments have entered upon an orgy of expense, not can we charge it all up to road building.

There is a woeful lack of scientific method in the appropriation, rating, and expenditure of public money by our cities, towns and states. This means that we are getting only partial value for the taxes we pay.

Local Taxes Advance  
Federal taxes are still altogether too high. It costs us \$3,200,000 more to support our general establishments. However, ten years ago it cost \$4,500,000.

Without plenty of rich, red blood, there could be no strong, sturdy, powerful men, or beautiful, healthy women.

When you get the number of your red-blood-cells back to normal, that sluggish, leaden feeling, loss of appetite, those expensively called rheumatism, boils, pimples and skin troubles disappear. You get hungry again and sleep soundly. Firm flesh takes the place of that which was once flabby. You feel strong. Your nerves become steady. You are resistant to disease.

Throughout more than a hundred years S.S.S. has been a blessing to millions of people who have taken advantage of its wonderful medicinal properties. It is Nature's remedy for improving the appetite.

BOARD OF UNIVERSITY SELECTS FOUR NEW HEADS OF SCHOOLS

Law, Mines, Music, and Junior College Departments Will Begin Term With First-Year Deans

UNIVERSITY OF IDAHO, MOSCOW, Aug. 28.—With the opening of the college year and the first faculty meetings approximately three weeks distant, the University Board of Regents today organized for the coming year according to President F. J. Kelly.

Changes on the faculty are relatively few in number. Appointments of major importance which have been made this summer are the dean of the College of Law, the dean of the School of Mines and the director of the music department.

Dr. William E. Masterson will take over his duties as dean of the College of Law on September 1, succeeding Dean H. M. Davis, who becomes dean of law at the University of Kansas.

Fahrenwald Heads Miners A. W. Fahrenwald, who has been an ore dressing engineer for the United States bureau of mines for the last 10 years, stationed at Moscow, took over his duties as dean of the School of Mines on August 1.

### COLLECTIVE LIVING INCREASING PROBLEM

#### Building and Loan Business Depends on Home Ownership Spenser Tells Group

SALT LAKE CITY, Aug. 28 (AP)—Collective living was held up as a growing problem to home builders at the convention of the United States league of local building and loan associations here yesterday.

Lee C. Stidd of Portland, Oregon, declared the modern tendency was not conducive to home ownership, that the expense of maintaining a home has increased until "in comparison with renting, it has become an economic factor."

"Our greatest liability to society today," he asserted, "is to minimize the burden and expense incident to home ownership. Our exemption laws, exempting the home from confiscation when adversity overtakes the owner is a step in the right direction."

He compared what he termed "the rapid dissipation of natural resources in the industrial field" with the situation in the building and loan field. He said the demand for growth in assets was leading building and loan concerns away from personal contact with investors into a field of mortgage loan competition.

"In other words," Mr. Stidd added, "the prospects for developing the building and loan business do not hinge on our ability to finance large apartment houses, industrial plants and other business enterprises, but they do hinge on our ability to develop the desire among the renting population for a home of their own."

Walter P. McDowell, Tacoma, Washington, president of the league, declared in his address opening the convention this morning that it was necessary to study the fundamental problems in the every day life of the people in order to succeed in business.

Mr. McDowell said the bootlegging problem would vanish if business men refused to deal with bootleggers. He made a plea for law observance.

### CULT'S CURE LEADS ONE MAN TO DEATH

#### Chicago Art Model, Seeking 'Youth, Truth and Health,' Victim of Starvation

LYON, Colo., Aug. 28 (AP)—On a cot under his tent, the lifeless and withered form of a Chicago art model and member of a cult that came to the virgin wilderness of Peaceful Valley, in the shadow of lofty mountains, to seek "youth, truth and health" was found today, a victim of starvation.

Instead of youth and health, Chris Solburg, 40 years old, found death. Solburg, registered from 414 South Hat street.

Solburg was one of a party of 20 members of a Chicago health cult, who a month ago, under the leadership of Dr. George Huntley Aaron, came to Colorado seeking a place where they might practice their belief.

Sunday Solburg, who had completed his fast of thirty-one days began eating solid foods. His fast had reduced him from 160 to 83 pounds. After consuming several sandwiches his friends said that he was in agony. All day Monday he remained on his cot and yesterday he was inert and lifeless, refusing to converse with other members of the cult who were taking the fast cure.

Overeats After Fast

Today a friend entered Solburg's tent and noticed that his face was white and drawn. The friend called other members of the cult and it was determined that Solburg had died some time early today. Coroner A. E. Howe of Boulder county, who went to the camp, reported that the art model's death was caused by starvation and then over eating when he broke his fast.

The Chicago cult received considerable publicity when ranchers reported that members of the cult were running around Peaceful valley without clothes, taking sun baths. Authorities demanded that they at least wear a sun suit.

A business letter found in Solburg's pocket from the Chicago Utility Security company admonished the fasting devotee "not to carry this thing too far." Fifty shares of valuable stock were also found in his tent.

### Graf Zeppelin Shares 'Place in Limelight' With Blue Goose Nest

#### OTTAWA, Aug. 28 (AP)—The Graf Zeppelin isn't going to be the only news in North America tonight.

Out of the frozen North, where men are mounted on blue goose egg, or a blue goose fledgling. The blue goose appeared every summer but nobody knew whence it came or where it went in the autumn.

Sopher found its habitat away off in the Finland and is now en route to Ottawa with blue goose eggs, nests, goslings and mature birds.

### PENSIONS COMMISSIONER PROMISES "SQUARE DEAL"

ST. PAUL, Minn., Aug. 28 (AP)—Earl P. Church, in his first address since becoming commissioner of pensions, May 24, promised to carry out a policy of a square deal for the claimant and the government. He spoke before the thirtieth annual encampment of the Veterans of Foreign Wars.

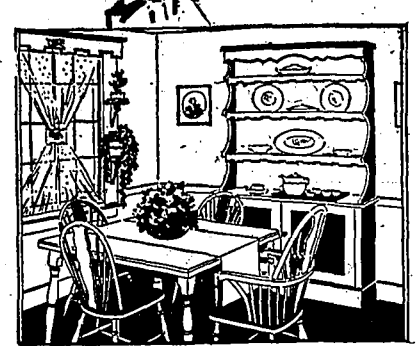

Every pension claimant will be given full opportunity to present his or her case and the department will seek to take action promptly compatible with appreciation of "fidelity to the government," Mr. Church declared.

During the last fiscal year the federal government paid out \$230,000,000 in pensions, an increase of \$1,000,000 in payments over the previous year. There was a drop of 13,000 from the rolls, leaving 478,000 pensions. Mr. Church said the increase in funds expended resulted from increase in allowance for widows of Civil War veterans.

For the first time the past year marked the passing of Civil war veterans from the class receiving the largest total of payments. Spanish-American war veterans and their dependents received a total of \$65,000,000, compared with \$7,000,000 to the Civil war group.

Computing Averages

The law of averages alms to demonstrate that while the trend of human affairs cannot be forecast with certainty, it can be worked out to a considerable extent arithmetically by arriving at averages based on statistics relating to the event.

### Zena Dare selected these bright DECORET colors

The cupboard, decorated with Powder Blue Decoret Quick Drying Enamel, her floor painted with Black Decoret, trimmed with Orange, table and chairs, Powder Blue Decoret trimmed with Orange; seats of the chairs, Black.

Zena Dare, the Fuller expert on home decoration, has written a folder (illustrated in color) fully describing this colorful breakfast room. Write us for it—it's free. And tune in on Zena Dare's talks on color and home decoration—every Wednesday morning at 11.10, "Woman's Magazine of the Air," N B C network; and KSL and KXIR. These talks are interesting and entirely practical—they give you workable plans, tell what to use and how to use it.

The nearest store listed below will gladly give you complete information about Decoret, the Fuller household enamel that dices in four hours.

### RAILROAD MEET WILL DRAW RECORD CROWDS

#### BOISE, Aug. 28—Over 5000 Union Pacific employees and their friends are expected to converge on Boise in more than 100 Pullman cars arriving for the first annual athletic meet, started on September 1, 2 and 3, messages received at the Boise office of the System Meet reported today.

Besides these thousands, who have already signed up to make the trip to Boise, several additional thousands will journey to the capital city from all over Idaho and Boise is preparing to care for a record-breaking crowd of visitors and spectators.

The streets of Boise, store windows and buildings have been gaily decorated in red, white and blue, the official U. P. colors. The whole town now awaits the arrival of six special trains, that will bring the U. P. employees, which are scheduled to arrive Sunday morning.

Program Arranged

On the official program for the meet are 10 major athletic events in which 600 trained athletes will compete for

the contest, the winner to be crowned "Queen of the Meet."

Mexico and Canada Like American Movies Best

WASHINGTON, Aug. 28 (AP)—The American motion picture equipment industry apparently has won a victory over its foreign competitors in two countries, according to the commerce department. In Mexico and Canada reports say exhibitors are replacing French and German machines with American projectors. With sound and talking pic-

tures being introduced in Latin America there is expected to be a large export field, opened for American motion picture machine manufacturers.

Mennonites Vote Fund For Russian Refugees

HUTCHINSON, Kas., Aug. 28 (AP)—A general call for funds to aid several hundred Mennonite refugees from South Russia, now destitute in Manchuria, was voted unanimously by the general conference of the Mennonite Church in America, meeting here.
