# GRAF'S COMMANDER VOICES GRATITUDE FOR AMERICA'S AID

Dr. Hugo Eckener, Master of Giant Zeppelin, Foregoes Rest to Express Appreciation at National Capitol

(By The Associated Press)

WASHINGTON, Aug. 29.—Tired and sorely in need of rest, Dr. Hugo Eckener, master of the globe circling Graf Zeppelin, came to Washington today to express personally to President Hoover gratitude for the aid and assistance which this country's assistance in the historic achievement.

With an air of deepest feeling the German air navigator told the president the flight could not have been achieved without the generous assistance which came from the United States.

From President Hoover and other officials, as well as the throngs who crowded the streets and department corridors, Dr. Eckener received tribute of high admiration for the feat.

President Congratulates

In congratulating the Graf's commander, President Hoover said the noteworthy flight showed "the spirit of adventure still lives," and it's success has been due to the eminent scientific and engineering abilities of the German people, translated by their own skill and courage.

Replying to the president's tribute, Dr. Eckener said: "I am deeply grateful for the gracious address you have been pleased to extend to me. I have been keenly anxious to appreciate what the ship, captain and crew have achieved and we are proud of such appreciation."

DR. HUGO ECKENER, commander of the Giant Graf Zeppelin, on its round-the-world journey, completed on its arrival last evening at Lakehurst, New Jersey.

## SENATORS APPROVE PLAN TO RE-CREATE TARIFF COMMISSION

House Proposal Giving Authorization to President Retained in Bill as Revised by Republican Committee

By D. HAROLD OLIVER (Associated Press Staff Writer)

WASHINGTON, Aug. 29.—(AP)—The house proposal to authorize President Hoover to re-create the tariff commission by appointing new members without waiting for the terms of the commission serving to expire has been retained in the tariff bill as revised by the Republican members of the senate finance committee.

The president recommended in his message to the special session that legislation be enacted providing for a re-organization of the commission, and the rest of the so-called tariff measure made public Wednesday disclosed that the way had been opened for the executive to bring about such a change.

Dr. Hauge Political Line

The house provision authorizing the executive to appoint new members without regard to party affiliations, however, was retained in the measure in language providing that not more than three commissioners shall be of the same political party.

The bill provided for a commission of seven, designed to prevent deadlock on important decisions, with terms of six years, and authorized members at present, with terms of 12 years, but the finance committee majority bill called for terms of six years, and each. Their salaries would be \$12,000 a year as compared with \$7,500 under existing law.

Each incumbent would serve until his successor was nominated, confirmed and assumed office. The president, however, could retain any member he desired.

Under present law the term of Commissioner Frank Clark, of Florida, expires September 30, 1930; that of Edgar B. Broadus, Utah, the same date in 1932; Chairman Thomas O. Marvin, Massachusetts, July 31, 1933; Chairman Alfred S. Dennis, Maryland, 1936; Lincoln Dixon, Indiana, 1938; and Sherman J. Lowell, New York, 1941.

Authorized Rates Confirmed

All rates previously made public as having been tentatively agreed upon were permanent as far as the committee was concerned.

Senator Nye, Republican, North Dakota, said it would be better to have two 100-cent rates, one for sugar and one for flour.

Chairman Smoot of the committee announced that the majority report on the bill which he had filed to make public on Friday would not be ready until next Tuesday.

The committee Republicans heeded the protest of Buffalo millers and struck out a new house provision subjecting Canadian wheat imported and milled in bond for export to Cuba to a tariff equal to the amount of duty preference which Cuba grants American flour, which is 30 per cent. Some western millers had sponsored the new clause.

"Restored Drawback" On Flour

The another new provision would forbid the Secretary of agriculture to bar importation of nursery stock, fruits, vegetables, roots, bolls, seeds, or other plant products unless they are infected with disease or injurious insects.

Existing law is much more stringent and department of agriculture officials said they would fight for elimination of the clause.

# Third Straight Cubs Defeat Awakens Pirates Pennan Hopes

## Pittsburgh Scores One More Victory, 5-4, Over Chicago

All But Vain Flag Quest by Ens' Club Takes On New Life With Season-Ending Stretch at Hand

(By The Associated Press) PITTSBURGH, Aug. 29.—All the mirages of baseball history would pass before a brave pennant triumph in the season of 1929, but vain quest at Portia field today. Led into battle a second day by their new leadership, the Cubs in a stroke rode forth to their third conquest of the Cubs in two days, this time by a score of 5 to 4.

The stubborn Buccaneers thus reduced the margin of General Joseph McCarthy to a mere 1 1/2 games with September and the stretch at hand. Pittsburgh himself still is without real reason for hope, but two more victories in the remaining games of the season might just pocket a berth for McCarthy back to Chicago with something on the line.

# SMITH APPROVES OF CONFERENCE ACTION

Congressman Endorses Plan for Investigation of Public Land Situation

Approval of the action of the conference of western governors at Salt Lake City for their endorsement of investigation of public lands ownership and control by a commission appointed by the president, was voted yesterday by Congressman Addison T. Smith, following his return. Interviewed on the subject, Mr. Smith said: "The president's suggestion in his letter to the assistant secretary of the interior Dixon, which he read to the conference of western governors and delegates from the public land states at Salt Lake City on Monday last, that the remaining unoccupied and the public lands be turned over to the state in which they are located is worthy of the most careful and serious consideration, and I heartily approved the resolution of the conference that the president be advised that the west would welcome the investigation by a commission of this proposition, as well as the president's suggestion relating to changes effecting the reclamation of our arid lands and the handling of the mineral resources."

Hoover Attitude New It is the first time in the history of the country that the chief executive has shown any special interest in legislation affecting the public land status of their resources, and he has suggested to have a commission conduct an inquiry will afford the western people an opportunity to have their views considered and formulated in a report to the president upon which he may base his recommendations to congress.

Covers West There are over 10,000,000 acres of public land in Idaho, title to which can only be acquired under the homestead and desert land laws. These cannot be purchased outright under existing law. If the land should be turned over to the state as proposed by President Hoover, the legislature could provide for their disposition by purchase, or they could be leased under the new law in their providing for the leasing of state lands, and the proceeds placed at interest for the benefit of the school fund, or for any other purpose the legislature might determine.

Congress Must Act "Of course congress must first act in the matter and then the various states could determine whether or not they desired to avail themselves of the benefits accruing from the change of ownership. The western senators and representatives in congress would insist, I am sure, that the federal lands be held in trust for the benefit of the people for at least 10 years; that the reclamation work of the United States geological survey in the west be continued, and that the mineral and underground water resources.

Proposition Tentative "The whole proposition is tentative and congress cannot act intelligently without the information it is proposed shall be obtained by the commission the president will appoint. But in view of the president's desire to secure legislation that he believes will be beneficial to the public land states, I hope that the senators and representatives from the West will support his plan to the extent that a commission be appointed, to make the inquiry he suggests."

Report Held Hearings The whole proposition is being considered by the committee on public lands in each branch of congress, when opportunity would be afforded for an extensive hearing by those interested, before a report would be made to the senate and house of representatives. A bill might be reported which would give to the states much more than what the president suggests. The states are entitled to the same consideration given the other states, but congress has given looked with favor on any plan to permit the states to secure control of the public domain."

Studio Murder Mystery All-Dialoguë Thriller  
"The Studio Murder Mystery," a new Paramount all dialoguë thriller, based on the well known story of the same name which ran serially in Photoplay magazine, is now at the Idaho theatre. The all star cast is headed by many of the best known actors in the business, including Hamilton, Warner Oland, Doris Hill, Fredric March, Eugene Pollette and Florence Edwards.

This latest murder mystery to make its way to the audience screen has been handled with uncanny skill, building up through a series of unusual and exciting sequences to a powerful and convincing climax. Its locale is Hollywood; in the desert land law. The crime is committed at night. Richard Hardell, an actor, is found on one of the sets—murdered. So cleverly has the crime been committed that police are at a loss to place their hands on the guilty party. But there are a number of people under suspicion, including a foreign director, the jealous wife of the murdered man, and the ground-keeper's young daughter, Helen, supposedly killed by Hardell.

# REPORT SHOWS GOOD HARVEST CONDITIONS

Crops Mature Rapidly in 'Southwest Idaho, Summary for Week Indicates

BOISE, Aug. 29 (Special to The News) Another week of moderately high temperatures and abundant sunshine made conditions all that could be desired in southwestern Idaho for the maturing of crops and the harvesting and threshing of grain, according to the summary of conditions issued by the United States department of agriculture weather bureau here for the week ending August 27.

All crops are maturing very rapidly and in good shape. Grain harvest made good headway and is well along, being completed in all of the early districts. Beans are getting under way in the Twin Falls district. Early potatoes are being dug for market in the Weiser section. Apples and prunes are doing well. The latter are taking on size and color rapidly. Pastures and rangelands are very dry in all localities outside the irrigated section but feed continues adequate and stock continues in good condition.

Warm weather prevailed in southwestern Idaho during the week. Light to heavy local rains occurred in many sections and caused some loss of wheat in Fremont county. Wheat and oats here are progressing rapidly in all sections. The second cutting of alfalfa is under way in Fremont county. Potatoes are maturing rapidly and some are being marketed. Beets are making good growth on irrigated land. The range is good, but very dry, except where local rains have helped. Cattle and sheep are in good condition.

Field notes included in the summary are as follows:  
Twin Falls—Grain threshing about completed; bean cutting begun; hot weather of last 10 days has damaged some fields; a violent wind accompanied by light rain did some damage to hay stacks, shade trees, prunes and apple; late apples doing fine, good size and clean.

Weekend—Week dry and hot; threshing in full swing; good yield corn developing rapidly; some early potatoes being shipped; other crops look well; fruit prospects good; a good rain Sunday afternoon.

Focastello—Temperatures above normal; good rains last week; wheat and oats harvest progressing rapidly; alfalfa making good growth; beets making good growth; potatoes doing well, some being marketed; range is good and will be helped by rains; cattle and sheep in good condition.

COLORFUL CAREER ENDS IN GUN FIGHT

Dick Gregg, Notorious Outlaw, Meets Death With Two Officers at Tulsa

TULSA, Okla., Aug. 29 (AP)—The colorful career of Dick Gregg, notorious outlaw of the southwest, was ended abruptly today in a gun fight on the outskirts of Tulsa which also claimed the lives of two county highway patrolmen.

Ross Darrow and Link Rowland, the officers, lost their lives in effort to bring to justice the man wanted for a number of bank robberies in Oklahoma and Kansas. One of them was killed after Gregg himself had been mortally wounded.

Meet Face to Face The shooting took place on the outskirts of Tulsa on the Sand-Spring highway when the two officers, who apparently were expecting Gregg along, met him face to face. When the officers met Gregg and a companion, who was arrested as he fled from the scene of the shooting, Gregg drove machine off the concrete slab and stopped.

A woman who witnessed the shooting said that when Gregg brought his automobile to a stop one of the officers jumped to the running board of the car while the other started to turn the machine around and drive up alongside Gregg's car. The officer carried Gregg with a gun but Gregg whipped out of his pistol and shot him down. Just as the shooting started the other officer drove up. He opened fire on the bandit who returned the fire before falling. Both fell, dying. Gregg's companion fled when the shooting started but was arrested a short time later. He said his name was Bob Dyer.

Dyer, about 25 years old, was held in the jail but was too intoxicated to give officers a satisfactory explanation, authorities said.

Identification of Gregg was made at a morgue. Each of the three men had been struck by one bullet. Each of the officers was struck near the heart. Gregg's left temple was pierced, the bullet emerging just above the right eye. His face was covered with powder burns. The woman did not know which of the officers jumped to the running board of Gregg's machine.

Dyer, an Indian, said he came here last night from his home in Pawshuwa with Gregg and drove around with him. They took their motor car to a garage for repairs this morning, he said.

Gregg was being sought in connection with the holdup of the Peoples State bank at Stephens, Kansas, July 25, of \$2000 and the robbery of at least three banks in Oklahoma. State officers held a warrant for his arrest in connection with the robbery of a bank at Centralia, Oklahoma, last year.

He also was believed to have been implicated in the robbery of the Wynona National bank at Wynona on March 20, 1928, and the holdup of a bank at Key-stone April 9, 1929.

Six Jurors Chosen in Textile Workers' Trial

CHARLOTTE, N. C., Aug. 29 (AP)—Three more jurors were added today to the trio selected yesterday in the trial of the 10 persons charged with murder of O. P. Aderholt, Gastonia police chief, during the Lory textile strike.

The special venire of 200 was more than half exhausted, however, when court adjourned and court officials were confident at least a part of the new special venire of 300 would have to be used before the 12 were selected.

The grand jury also selected two organizers and strikers at the Lory textile mill in Gastonia. Chief Aderholt was fatally wounded as he and four police officers entered a tent colony of the strikers on the night of June 7.

Much Discussed Novel Assured of Haven Here

WASHINGTON, Aug. 29 (AP)—The "Well of Loneliness," a book by Radclyffe Hall, English writer, which has been kicked about the courts of London and New York and was once barred by the customs service from entry into this country, today was assured a haven in the United States when Commissioner of Customs Egrie declined to object to a customs court decision holding that it did not violate the law.

Egrie said he had read the book carefully and agreed with the decision that it was not offensive to clean-minded persons.

The book which is barred from Canada first came to attention in this country nearly a year ago when the customs service denied it entry from that country. Previously the book had been held by London courts to be obscene and was ordered destroyed. Later convictions for selling it there were upheld by the higher courts.

In this country it was pronounced obscene by New York but the decision was reversed by a municipal court justice in and the "Well of Loneliness" was given a clean bill by the court of special sessions.

Ideal Librarian Called Missionary of Culture

SPOKANE, Aug. 29 (AP)—The ideal librarian was held to be a missionary of culture instead of simply a dispenser of books, at the opening session today of the twentieth annual conference of the Pacific Northwest Library association.

Delegates from Oregon, Idaho, Washington, Montana, Utah and British Columbia attended.

President E. S. Robinson of Vancouver, British Columbia, told the delegates that the model librarian should "be in a position to guide individuals past the danger signs and so prevent them from falling victims of their own whims and fancies."

Speakers favored legislation which would provide a sound library system. The sessions will continue until Saturday.

STATES NOT BOUND BY BOARD'S ADVICE

Governmental Baldrige Tells Status of Proposed New Public Lands Policy

BOISE, Aug. 29 (AP)—The Western land grant states are bound in no way to accept the recommendations of the investigating committee which will study the proposed change in the reclamation policy, Governor H. C. Baldrige declared today on his return from the governors' conference in Salt Lake City. He said it was apparent that there was considerable misunderstanding of the proposal made by Assistant Secretary Joseph M. Dixon of the interior. He reiterated his explanation made in Salt Lake City that the proposal called for the federal government putting up all the money necessary for reclamation projects, the change being that the cost of the dam would be charged to flood control account and never assessed against the land; while the cost of the distributing system along would be paid from the reclamation fund, as assessed against the settlers. The state, in turn, would administer operation of this reclamation project.

"We are assured that the West will be represented by at least five members of the board which will study this project and certainly we can depend upon their giving the West a fair break, especially in view of the fact that President Hoover is also from the West."

"If at the end of the study, the Western states deem it inadvisable to accept the proposed project, they may reject it as is their right."

The governor announced himself very well pleased with the conference and its success by other state governors and delegations attending.

Spanish War Private Veteran's Commander

ST. PAUL, Aug. 29 (AP)—Hershel H. Duff, Lansing, Michigan, private in the Spanish-American war, late today was nominated for the office of commander in chief of the Veterans of Foreign Wars attending their thirtieth annual encampment here.

Duff was the only one placed in nomination after Admiral Robert E. Coote, Washington, retired, put down a boom started by his friends who sought him back for the position. Admiral Coote likewise refused to accept the nomination as senior vice commander of the veterans.

Down the Alley

Little Ruth Alice, age two, went to a funeral recently with her mother and, of course, watched everything. After she came home and was playing with her dolls she started to sing: "We're 'ol' down the alley, one by one; ah! 'we're 'ol' down the alley."

Inspection Law Offers Constables Opportunity

BOISE, Aug. 29 (AP)—Financiers and others today were considering with amusement the possibility of constables in certain packing house districts of the city on considerably enlarging their incomes as the result of the federal court ruling upholding the meat and hide inspection law.

The law provides that hides of all animals slaughtered for market must be inspected with a view to checking up on cattle rustlers. The fee for inspection is 10 cents a head for cattle and 10 cents a head for sheep.

As constables, unlike sheriffs, are paid on a fee basis they could legally claim all the money they derived from the inspection business. By cooperation with the packers to assure his being present to make the inspections, it was pointed out he could not only remove one of their principal worries—that it would be difficult to find an inspector when slaughtering was to be done—and assure him a steady income of inspection fees.

Hearing Results in Case Going to District Court

L. A. Repass must answer at the next term of district court to a charge of driving an automobile while under the influence of intoxicating liquor, Judge C. A. Baily ruled at a hearing of the case in probate court yesterday afternoon. Amount of the bond was fixed at \$250.

When Repass entered a plea made in a complaint signed by Ted Geckner last Monday, Repass entered a charge not guilty.

Defendant's witnesses at the hearing were J. A. Repass and E. T. Pratt. State witnesses were Dale Adcock, Ted Geckner and D. C. Parker.

Two Out of Five Hurt In Utah Plane Crash

TOOELE, Utah, Aug. 29 (AP)—Two persons were injured and three others escaped injury in an airplane smashup here today. C. L. Crockett, 59, Tooele, farmer, was out about the head and shoulder and suffered a back injury, his housekeeper, Mrs. Katie A. Anderson, 57, suffered three broken ribs.

Two other passengers, After St. Joer, 32, Tooele, and his three-year-old son and the pilot, Lawrence Despain of Salt Lake City, were not injured.

The plane, Miss Vico, owned by an oil company of Salt Lake City, was damaged. The crash occurred when the plane was taking off. A wheel collapsed and the plane hurtled into an embankment.

### CALIFORNIA ADOPTS NEW APPLE GRADING

Fruit Growers Here Show  
Interest in Change of  
Minimum Measurement

The new standardization law of California which went into force August 15, will affect the handling and shipment of apples from Idaho into that state in the opinion of apple dealers here, although its ultimate consequences have not been determined. One outstanding feature seems to be that all apples shipped as "Fancy Loose" and "Combination Fancy" and "C Grade Loose" require a minimum size of two and three-eighths inches instead of two and one-fourth inches as heretofore, and as still required by the Idaho regulations.

**Tells How to Ship**  
One dealer stated that because of the responsibility of the California department of agriculture had suggested that he pack his apples, in the "Combination Fancy" and "C Grade Loose" as required by the Idaho regulation, and that the California department would send him words to be used for additional stamping besides that of Idaho. So far he has not received the required words, but expects to before shipping season begins.

**Gives Information**  
Detailed information on this subject is contained in a statement just issued by M. L. Dean, director of plant industry of Idaho department of agriculture in setting forth information obtained from the California department of agriculture, bearing on this subject, which reads as follows:

**Applies to All Shipments**  
"All commodities, regulated by this act, which are sold in California, less of point of origin, must comply with these regulations.  
The provisions which apply to apples as found in Section 15 A of the law, states that the "Unclassified" grade has been eliminated and that the lowest grade of apples which can be sold is "C Grade." Also that "Fancy Loose" and "Combination Fancy" and "C Grade Loose" require a two and three-eighths inch minimum size. "C Grade Loose" has no size requirements.

**Size Must Be Uniform**  
The Extra Fancy, Fancy and C grades do not specify a minimum, and the apples must be uniform in size and well packed. The definition for well packed requires that all of the fruit in the container shall be in regular, compact arrangement. Therefore the face and fill pack must be uniform in size and comply with the loose grades."

**Asks Direct Question**  
We asked the question—"If shipment of combination grade, 75 per cent of which are "Extra Fancy," and "Fancy," the balance being two and one-fourth inches in diameter and two and three-eighths inches, will be classified as "C" grade? The reply is as follows: "In any inspection of a certain lot of produce, the inspectors will examine representative samples throughout the cartload to determine whether or not the shipment meets the requirements of our law. If on the other hand, there are various lots designated by sufficient marks of identification on the containers, the inspectors will examine these lots separately and determine the status of each lot. If some question has reference to variation in size and quality between lots, then the answer is—we will allow those lots which meet the size requirement go without being marked down to "C Grade Loose," and the individual lots which have small apples in them will be marked "C Grade Loose." If the individual container has 75 per cent apples two and three-eighths inches in diameter and 25 per cent two and one-fourth inches in diameter, this "C Grade Loose" of course would apply to the entire shipment."

### MEXICAN GOES TO JAIL FOR GROWING MARIJUANA

When arraigned in probate court yesterday afternoon, Jesus Barrera, Mexican field worker, entered a plea of guilty to a charge of growing a plant known as Marijuana and was sentenced to 10 days in the county jail and fined \$100 by Judge C. A. Butler.  
Barrera was arrested three miles east of Hansen Wednesday after a complaint had been signed by Sheriff E. F. Hansen. To grow or possess Marijuana, a plant which produces an effect similar to certain drugs when smoked, is prohibited under the state law.

### BUIH YOUTH SUFFERS FROM SHOTGUN WOUND

West End District Farmer  
Discharges Weapon; Injury to Boy Not Serious

**BUIH, Aug. 29 (Special to The News)**—Wayne Hancock, 16, son of Mr. and Mrs. Alvey Hancock, is suffering from a shotgun wound of the right leg inflicted by a weapon in the hands of a different farmer last night about 9 o'clock. The charge was fired by O. D. Sanford, it was understood by officers. After receiving treatment at the county general hospital last night, the youth was brought back to his home here today.  
The boy, accompanied by several friends, had been driving his car and stopped at a point about two miles northwest of Buih. The group left the car and Sanford, it is believed, discharged the weapon when he thought they were stealing at his place.  
The wounded youth was taken to the hospital at Twin Falls by Dr. F. W. MacManus. Injury from the charge of shot is confined to the lower part of both legs.

### BORAH INTERCEDES FOR CITIZEN HELD IN CUBA

**WASHINGTON, Aug. 29 (AP)**—Chairman Borah of the senate foreign relations committee has requested the state department again to intercede with the Cuban government in behalf of Joseph C. Barlow, an American citizen arrested there.  
Borah told the department he had received an urgent cablegram from Mr. Barlow, in which she asked the senator to take steps to secure Barlow's release, but Barlow said he did not know what action the department would take.  
Meanwhile Secretary Stimson repeated tonight that he had sent a special envoy to Cuba to study the claims of Barlow against the Cuban government for alleged seizure of his land. While he declined to say whether he would further details, Stimson added that he had devoted more personal attention to Barlow's case than that of any other American investor in foreign lands.  
Barlow wired Mr. Stimson today telling of his arrest, and said the charges against him were false.  
Secretary Stimson, before reports were received in Washington of Barlow's release, instructed Chief of Staff American charge d'affaires in Havana, to investigate the allegations that the American had been arrested on false charges and to take the matter up with the Cuban foreign office.  
Borah recalled that the senate foreign relations sub-committee investigated the Barlow case last year and was unanimous in declaring that Barlow's claims on property in Cuba were just and that he had been defrauded.

### Ford Truck Runs Over Rock Creek Canyon Rim

Because he felt that he could trust his Ford touring car, transformed into a truck to climb unaided, with engine running, Floyd Hamby, Twin Falls threerhman, is confronted with the problem of raising the auto from the wall of Rock creek canyon into which it jumped at 10:30 A. M. yesterday.  
Mr. Hamby, who is running his thrashing machine in a field on the Salmon segregation, drove in to get Cleve Bates, cook, who lives in South Park,

a slope from the canyon, to go out with him. He left his car facing the canyon with the engine running and stepped into the Bates house for a moment. As he came out the car started down hill toward Bates' camp. Mr. Hamby, after it took before he could reach the auto, jumped over the canyon wall, ran down half ways, just above the Shoshone street bridge, and turned on his side. An examination indicated that it was not badly damaged, but the problem of getting it up to the top again is still unsolved.

### SPECIAL NO. 1 Big School Shoe Event in the Economy Basement

When our shoe buyer was in St. Louis, the great shoe center, he was successful in purchasing 1500 pairs of what are known as factory rejects—from the best makers of high grade all leather shoes for the whole family. In the factories some times a slight cut on the sole occurs or a stitch is dropped, or just enough of a slight defect to prevent its going out in a regular way. We purchased these shoes at a fraction of their regular price, and pass the savings and good shoes on to you at prices that will make you happy. We recommend them. Our wonderful "Make It Right" policy is behind them. It was a great deal of labor to get these shoes ready for you. It takes you only a minute to see them and use your own judgment. School opens September 9th. The School Shoe Event starts Friday, August 30. COME!

# BIG WHEAT YIELDS ON DIXON'S FARMS

R. C. Cochran Gets 71 Bushels On Part of Field and General Average of 63

DIXON, Aug. 29—A few wheat yields above the average for the season have been reported in the Dixon community. R. C. Cochran secured 71 bushels per acre on one acreage of Federation wheat and an average of 63 bushels per acre on two fields. These reports are by actual weight of wheat and measurement of fields. Ray Looney who farms the W. W. Nickelson place across the road from Mr. Cochran harvested an average of 60 bushels on a 22-acre field of Federation wheat, and an average of 58 bushels per acre on a 10-acre field of Federation wheat.

### KNOLL WOMAN IMPROVES AFTER SERIOUS ILLNESS

KNOLL, Aug. 29.—The condition of Mrs. Dan Johnson who has been seriously ill with heart trouble the past two weeks is some what improved but she will be compelled to remain in bed for some time.

The Rev. James Miller, D.D., will conduct services at the Presbyterian church on Sunday evening, September 1 at eight o'clock.

Charles Grievie received the sad news of the death of her uncle, Mr. Roberts, which occurred while he was visiting with relatives at Caldwell. On account of a delay in the message Mrs. Grievie received the word too late to attend the funeral.

Mrs. Duncan Campbell, Mrs. Gladie Wahl and Miss May Kuntz arrived Wednesday from Lewiston for a short visit at the home of Mr. and Mrs. C. E. Kinsler.

Mr. and Mrs. Eugene Thometz are the parents of a boy born August 21 at the county general hospital.

Ennio Green, Whitriver, Wisconsin, is a guest of his sister, Mrs. E. J. Colbert. Mr. and Mrs. Colbert and Mr. Green left Wednesday morning for Silver creek where they will spend a few days vacation.

George Cappell underwent an operation for the removal of his tonsils Wednesday forenoon and at the present writing is reported to be recovering nicely.

Eldon and Heidi Kinsler returned from Lewiston this week after spending the summer months with relatives there and at Clarkston.

Mrs. Harry Capps spent the fore part of the week with relatives at Eden. Mrs. Albert Victor was hostess to a number of the members of her family at her home in Twin Falls Sunday. Present were: Mr. and Mrs. T. & Beal and daughter Dorothy Jane, and Mr. Ramsey of Des Moines; Mr. and Mrs. John Beal and children, Pete and Dorothy of Caldwell; Mr. and Mrs. F. S. Cappell, George and Patricia; Mr. and Mrs. T. M. Baird, Mr. and Mrs. F. W. Neale, Marjorie and Billy of Knoll, and J. H. Beal, Boise.

### Factor Pleads Guilty To Murder of Daughter

PORTLAND, N. M., Aug. 29.—B. F. Bouldin, 60, Roosevelt county farmer, who last week was acquitted by a jury of a charge of killing his wife, after pleading insanity, yesterday pleaded guilty to a charge of second degree murder for killing his daughter and was sentenced to life imprisonment by District Judge Carl Hatch.

The agreement between attorneys and Bouldin that he should plead guilty to second degree murder was reached today, while the state attorneys were preparing to send Bouldin to trial for shooting to death his daughter, Mrs. Lizzie B. Barker.

Bouldin killed both women in a hotel here after a family quarrel.

### Youthful Heir To Quarter Million Holds Circus Job To Collect Pay

PORTLAND, Aug. 29.—A 21-year-old eight-dollar a week water carrier for a circus playing Portland remained at his post under the white tops today and refused to leave to collect a \$25,000 inheritance available in Los Angeles because he declared the circus owes him \$60 "hold back" money.

The youth, Robert Sterling, Philadelphia, said he would remain with the circus until it reached Los Angeles where he would answer personally the telegram received from an attorney informing him of the inheritance left by his father.

Sterling said when the Radio Corporation of America was organized his father operated a radio shop in Philadelphia and purchased a few shares of stock in the corporation. When the elder Sterling died in 1927, according to Robert, he left the stock in keeping of a Los Angeles attorney until Robert became of age. Young Sterling became 21 years old on July 20, but he said he was "so busy filling the cook house ice tanks with water" that he paid little attention to the attorney's notice.

Last night Sterling received a telegram from the attorney stating that the stock was worth \$250,000 and that there also was \$15,000 in accrued dividends awaiting him.

"But I can't leave the circus because I won't get the \$60 the circus owes me in holdback salary," Sterling said. He said he would open a radio shop in Los Angeles and "get married."

### Mrs. Barah Pronounces Mrs. Gann Lovable Woman

BOISE, Aug. 29.—Mrs. Dolly Curia, sister of Vice President Curtis, is not, the pompous, pouting, and self-assertive woman certain published accounts of her have indicated. Mrs. William E. Barah, wife of Idaho's senior senator, declared today.

Mrs. Barah, here for a short visit, said that Mrs. Gann was "charming—modest—unassuming—devoted to her brother's interests, a loving foster mother to his daughters and completely unlike the descriptions printed of her in connection with the stir of trouble over precedence."

### VETERANS WANT ACTIVE NATIONAL DEFENSE ACT

ST. PAUL, Aug. 29.—Veterans of foreign wars went on record favoring more active attention by the federal government to carrying out the provisions of the national defense act after their thirty-third annual encampment here.

Criticizing the appropriations committee of the national house of representatives for "inertia" in respect to supplying funds, a resolution was adopted charging that the defense act has been "emasculated." It urged that "adequate, efficient and prompt execution of the requirements of the act, which is the will of the people of the United States," be taken.

JAMESBURG, N. J., Aug. 29.—Three persons were killed and two others seriously injured last night when a Pennsylvania railroad train struck a truck on which a group of potato diggers were returning to their homes, at a crossing near here.

The dead are: Mrs. Mary Caplanio, about 50; Mrs. Mary Polombo, about 60, and Frank Measlon, 14, all of Jamesburg. Mrs. Polombo was the mother of 20 children.

# RIVERSIDES

## Why you can save \$2 to \$15 on every tire you buy at WARD'S

MILLIONS OF MOTORISTS, all over the world, already ride on RIVERSIDE Tires—and still more millions soon will.

You will agree that . . . with the Super-Service RIVERSIDE guaranteed for a minimum of 30,000 miles—the First-Quality RIVERSIDE guaranteed for a minimum of 16,000 miles—and the WARDWEAR for 10,000 . . . these tires simply must be tires of quality!

And then—on comparing RIVERSIDE prices with many other high-grade makes that are not officially guaranteed for any specific mileage—you are astonished to find that at Ward's your saving per tire ranges from \$2 to \$15!

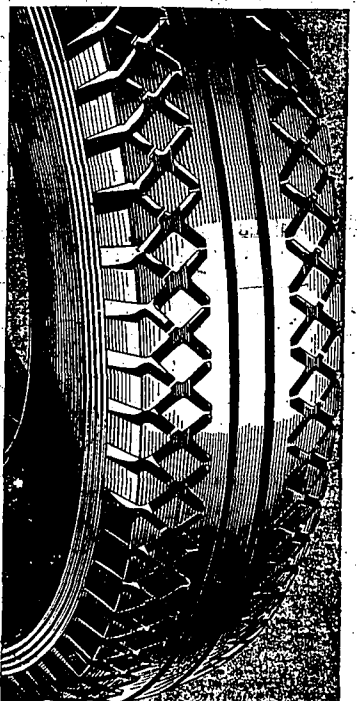

It's surprising. You are frankly puzzled. You discovered, long ago, that there's no such thing as "getting something for nothing." Therefore, when you find, in tires, high quality, provable quality and guaranteed quality . . . coupled with prices so low they seem to contradict all that . . . you "wonder," don't you?

You needn't! For the simple explanation lies in Ward's plan of selling to the user direct.

Instead of cutting quality in any shape or manner, we merely cut out most of the in-between profits of ordinary distribution! Thus you are protected at both ends of your transaction: on Quality, by the guarantees . . . on Economy, by the unusual savings of Ward's low prices.

Do you know of—or need—any better reasons for putting Montgomery Ward & Co. tires on your car? . . . Or any better arguments than these facts proving why you save \$2 to \$15 on every tire you buy?

**Don't buy any other tire unless more miles are guaranteed!**

# Giant Dragline to Gouge Out Canal For Reclamation of Desert Region

## CONTRACTOR MOVES FORCES ON COURSE OF GOODING DITCH

### New Channel to Drain Water from American Falls Reservoir to Pour On 120,000 Acres of North Side Area

(By the Associated Press)  
BOISE, Aug. 29.—Taking seven cubic yards at a bite, giant dragline will begin operations in about two weeks on the Gooding canal, which will drain water from the American Falls reservoir to pour over 120,000 acres of land, much of which is now without any water.

This report was brought here today by George N. Carter, state reclamation commissioner, after a trip to the site of the seventy-mile canal which under present plans will be completed in 1931.

Series of contracts for the canal have already been let on contract and an additional section, representing several miles more, will be let on contract in September.

The canal will serve a manifold purpose, a statement making supplies of the Big and Little Wood rivers, by taking over the burden of watering about 35,000 acres and leaving an equal share to the Snake river, which will scatter its water over the entire project.

It will water about 20,000 acres of new land along its course, while as a flume job it will assist the North Side project in carrying water to the first creek of the present North Side canal which runs parallel to the new Gooding canal for several miles.

Six Up Own Community  
Commissioner Carter said much of the machinery was on the ground, and the contractor, Mitty Brothers Construction company of Los Angeles, expected to virtually set up its own community in the district, drawing power from the power line which runs parallel to the line of the ditch. By the time snow flies, the ditch will have been approximately half the line of its course, towards Shoshone, the immediate goal.

# Oil as thin as water from "wet" gasoline!

There's a "dry" gas now—the result of careful refining and scientific processes. Vaporizing completely, going all into useful power, Shell 400, the "dry" gas, gives you advantages that only very careful drivers can overlook.

All yellow and red Shell pumps contain Shell 400, the "dry" gas. And when you fill with it you have a double assurance—greater power and mileage because all of it is used, plus freedom from disastrous oil thinning.

Thousands of motorists are avoiding this loss from thinned oil and wasted gasoline—so easily that they never even give it an extra thought.

There's no water in "wet" gasoline, of course. But there are heavy "wet" fractions of petroleum. These heavy particles are difficult to vaporize; they don't burn cleanly or completely.

So every time you use the choke to start, or step suddenly on the throttle or turn off the ignition switch, "wet" gasoline cascades down the cylinder walls to thin your oil!

When you have the oil changed at a thousand miles notice how thin and weak and watery it is—if you've been using "wet" gasoline. Certainly a lubricant can't do its work well when it is diluted by half. And how about the wasted gasoline? You bought it for mileage and power—power you didn't get.

And about oil: There's an oil now that forms no hard, sticky carbon, you won't avoid the soot and trouble caused by carbon, and add thousands of miles to the life of your car—instant on Shell Motor Oil, wherever you buy.

THE GUMPS—ON AGAIN—OFF AGAIN

The GREEN SHADOW by Herman Landon

(Continued from Yesterday's News) Adele could not resist a temptation to laugh. Axelson scowled heavily. "You and Dale had it all fixed up for tonight didn't you?" "What?" she exclaimed hoarsely. "Oh, I know all about it. He told you that he wouldn't be far away from you, didn't he? And he was to be closer to you than you imagined?" Adele gasped in astonishment. "Those had been Dale's very words. He said Wambley was not the only spy in her home. She wondered about Marie, her maid. Axelson chuckled sarcastically. "Oh, I know all about it. He told you that he wouldn't be far away from you, didn't he? And he was to be closer to you than you imagined?"

son went toward her and they conversed excitedly in an undertone. Then the old man left the room. Adele's heart beat frantically with suspense. Hope and doubts thronged her mind. Who could it be but Dale? Yet she had an uneasy feeling that Dale's arrival would not be heralded by the clanging of bells. Joan came forward, her blue eyes full of rage and indignation. A faint, listless smile came on her lips; her little chin quivered. "Well, you were cleverer than I thought," she declared furiously. "Now you come with me!" She pointed to a door at the farther side of the room. Adele rushed her hand across with outward calm into her blazing eyes. "I prefer to remain here," she announced. "Oh, you did!" Joan tossed her head jaegerly and ran to the door. "Caesar!" she called. The great, black beast came leaping into the room. Joan stroked his head, pointed to Adele, and addressed the girl in an undertone. Caesar bared his teeth, growled menacingly, and approached Adele, his yellow eyes gleaming with deadly greed, his slaving jaws set for attack. With an instinctive cry of fear, Adele sprang back as well for her. The sight of this magnificent beast filled her with dread. Joan laughed artfully as she ran to another door and flung it open. With Caesar rushing at her ankles, Adele hastily fled through the opening. "In the aisle!" Joan snapped. Adele obeyed, the low rumbling growl of the beast quickening her pace. She ran up until another flight of stairs and then with a flashlight in Joan's hand showing the way, through a succession of rooms. The light pattered of paws at her heels filled her with a sense of savagery and venom as she hurried on. At length, however, she stopped before an obstruction. Caesar growled. Joan's hand fumbled along the wall. An opening appeared. Adele hesitated a moment. All she could see was a dark place. "Get in!" Joan ordered. "Caesar will keep you company." A surly snarl and a nip at her ankle drove Adele forward. Darkness rolled in from all sides. She felt a furry, loutishsome form rubbing against her legs. Joan laughed spitefully. "There smarty! Now your friends can search for you all they like." Adele shivered. She heard the sound of a door closing and then all was still. (Continued in next issue)
