

NEW LAW RELATING TO PUPIL TRANSFER COMES UNDER FIRE

Country Districts Trustees and Patrons Join in Criticizing Requirement For Paying Higher Costs

Form of a new bill passed by the legislature relating to the state superintendent relating to pupils living in one school district and attending school in another district is being criticized by trustees and patrons of country districts. A reference returned by a number of rural school district trustees and patrons of rural schools in the office of Mrs. Ross J. Wilson, Twin Falls county superintendent of public instruction, yesterday afternoon. The new law, as interpreted by the conference, provides that where a pupil living in one district is permitted to enter school in another, the district in which he lives must pay to the district where he attends school a sum equivalent to the estimated cost of the pupil living in one district. Mrs. Wilson stated yesterday. None of these applications have been granted.

In dealing with these applications the county superintendent has been guided by action of the attorney general that more than mere convenience and advantage and benefit to the pupil in attending school in a district other than his home district is necessary to justify the county superintendent in permitting a child to transfer to another district. It cannot attend school in his home district before the county superintendent is justified in making such an order.

Prior to the enactment of the new law, state and county funds amounting to \$10 per pupil per year were diverted to districts to compensate for expense of schooling of pupils from other districts. One effect of the new law, Mrs. Wilson suggested, would be in eliminating the expense for organization of new re-entrants school districts. "It will stimulate migration for more good roads, too," one of the rural trustees asserted.

ANNOUNCEMENTS

Smith Gets Confirmation Of Wire Report On Beans

Confirmation of the recent Washington dispatch to the effect that the department of agriculture is planning to release shipping and crop statistics relative to beans at Boise, together with prices in a few distributing centers was received yesterday, in a telegram from

STATE TO PARTICIPATE IN TAKING STUDENT CULTURES

Assurance was received yesterday by Dr. D. M. Cokhill, Twin Falls county health director, from L. J. Peters, state epidemiologist, that the state will arrive Monday to help plan for immediate taking of cultures of the children in the Twin Falls city schools. Plans would be made on the arrival of Mr. Peters and announced as soon as perfected. Dr. Cokhill said taking of cultures will begin early Wednesday of Thursday.

While definite dates have not been fixed for other schools, it is understood that the purpose of the rolling laboratory is to take the cultures of the 15,000 children in the county, after which it is planned to inspect water in the community for finding where there has been an outbreak of typhoid and then to communicate the results to the farmers, when there was an outbreak of typhoid meningitis last year.

W. M. Dunlap, assistant secretary, in response to an inquiry from Congressman Addison T. Smith, Mr. Smith has been urging the adoption of this system at the earliest possible moment in the interest of bean growers and dealers. Plans for beginning of the service was not announced in the telegram.

Texasans Join Hour in Produce Concern Here

Alvin Harburn, Twin Falls and Ernest M. Shoemaker and Fred F. Gockel, both of Jacksonville, Texas, are the incorporators and directors of the Harburn-Shoemaker company, Twin Falls, which filed its articles of incorporation in the office of the county recorder here yesterday. Under its articles the firm is authorized to produce and market all kinds of fruits and produce. Its capitalization is \$25,000 of which \$15,000 is now subscribed.

Steam and electric baths, woman and man attendant. Phone Dr. Foster, 810, 4th.

SOCIETY AND CLUBS Mrs. E. B. Williams Phone 396

Members of the Ministers' Wives Association in attendance at the thirty-third annual conference of the Methodist church were invited to a reception, Saturday afternoon from three to five o'clock at the home of Humphrey wife of District Superintendent H. G. Humphrey and Mrs. Creel. The wife of the pastor of the Twin Falls church, at the residence on Second Street East. A mid-and-white color scheme was featured at the decorations for the attractive table which was presided over by Mrs. J. E. Crabtree, Twin Falls. Book and music adorned the room. A devotional musical program included a solo by Mrs. F. H. Simpson and a number

by Mrs. B. F. Mccallin, Ripper, with Mrs. Simpson at the piano.

Mr. and Mrs. J. B. Johnson were hosts at dinner Friday evening for Mr. and Mrs. John Ault, St. Anthony, and Mr. and Mrs. J. C. Chapman, Baxter Springs, Missouri. Mr. and Mrs. Chapman are former residents of Twin Falls.

New Doctors Gaining Wide Reputation

Sick folks for 100 miles in all directions coming to Twin Falls and getting well. Drs. Wyly and Hill are credited with almost miraculous cures. Doctors are being served with success in cases of appendicitis, ulcers of stomach, piles and hemorrhoids, enlarged tonsils and adenoids, constipation, enlarged prostate gland, skin cancer, fenestration, gas on stomach and bowels, weak lungs, heart trouble, kidney trouble, rheumatism, neuritis, lumbago, sciatica, high blood pressure, weak eyes, eczema, pimples, backache, headache, hay fever, asthma, tumors, and many other human ailments.

Since locating in Twin Falls Dr. Wyly has dozens of very, very remarkable cures to his credit. Just recently, Dr. Hill, one of Boise's and Idaho's most successful druggists physicians has become associated with Dr. Wyly. They have added more equipment and put on an extra nurse so that they are now better prepared than ever before to care for the sick of Twin Falls and surrounding communities. Both doctors have had a wide and successful experience and those who go to them will get the benefit of the experience of both doctors.

Without a single exception, Drs. Wyly and Hill have the largest and most modernly equipped offices, for giving electrical treatments, in the state. Many are coming to them from as far as one hundred miles, staying from two to four weeks and going home well, strong and happy. Have you been told that you must have an operation? Drs. Wyly and Hill ask you, for the sake of your loved ones to not submit to an operation until you have first seen them. If you must have it they will tell you so. If you can be cured without it, they will also tell you that.

Prices Most Reasonable \$30.00 Pays for 24 Treatments

Each treatment lasts from 45 minutes to an hour. Most cases, if not of too long standing can be cured in 24 treatments.

Examinations Free

No charge will be made for consultation and a careful thorough examination.

We Are Here To Get You Well

News in Twin Falls 19 Years Ago: An offer to sell to the city of Twin Falls the old water plant for \$125,000.

Labor Day was observed quite generally in the lobby of the Hotel Roosevelt.

The Twin Falls county commissioners have appropriated \$10,000 from the county funds toward defraying the expenses of the county fair putting on the agricultural exhibit.

Lincoln Brothers Firm, recently purchased from Andrew Rogerson 40 head of sheep to feed this winter.

Miss Edith Purdy, Humboldt, Iowa, Inspector of the F. B. O. Sisterhood, was given a dinner by Mrs. Dell Sprague, Tuesday afternoon.

They saw water pipes being laid and at home talked professionally of "pressure," "inlets" and "wiring a joint."

Our neighbor's house has been their best bit of education. From it our children have learned a hundred interesting facts about the planning and materials and labor which must go into a house.

They got an idea of the variety of industries by which men make a living. Through their interest and pleasure in seeing their father's building rise before their eyes, they developed a respect for work and achievement.

A house never built to be for them simply a house, but a structure wonderfully and cleverly put together.

It's as good as done, or done for, at any rate. The most important part of all, however, is that they have learned to love their father's work.

They saw water pipes being laid and at home talked professionally of "pressure," "inlets" and "wiring a joint."

COMMITTEES LEAVE FRAMING OF BUDGET TO COUNTY'S BOARD

Commissioners Approve Appropriation Bill Providing for \$386,000 Expense During Next Fiscal Year

No budget committee scrutinized the \$386,000 budget of Twin Falls county expenditures for the fiscal year beginning Oct. 1. The budget was adopted by the county commissioners yesterday, and during the time it was on file in the office of the county recorder and while the commissioners office is a tentative budget, there was not a single complaint nor a single query about it.

Board Names Menus The commissioners this year made some reductions and alterations in the estimated expenditures submitted by each of the county officers and institutions. It is their belief that the budget as adopted provides for a minimum expenditure with which the county's several functions and activities can be carried on effectively.

Wife Charges Cruelty In Action for Divorce On grounds of alleged cruelty, Mrs. Lena Madsen, Buhl, has instituted suit in district court here for divorce from Andrew Madsen to whom she was married in Butte, Montana, on August 13, 1916.

BREVITIES

Here on Visit—Dr. F. C. Debe, Chicago, former Twin Falls resident, is here on a visit.

On Sad Mission—M. L. Beath left yesterday for Leffroy, Kansas, to attend the funeral of an uncle.

Returns to Home—Mrs. Alexander Hamilton left yesterday for her home in San Francisco, after a visit here with Mrs. Jack Moore.

Called by Illness—Mrs. N. C. Booth left last evening for Portland; California, where she was called by the serious illness of her son, Frank Booth.

Here From San Francisco—Mrs. Maggie Moon arrived yesterday from San Francisco to visit her son, E. A. Moon, who is here on a visit.

Here From Milwaukee—Mrs. Frank C. Kieflinger and son, Francis, and Mrs. F. L. Oimare, Milwaukee, were in Twin Falls Friday and Saturday visiting.

Licensed to Wed—Urban E. Couberty, Twin Falls, and Marie H. Graves, Piler, obtained a marriage license at the office of the county recorder here yesterday.

Catholic Winter Service—St. Edward's Catholic school goes on winter schedule today, with masses at 8 A. M. and 10:30 A. M. instead of at 7 A. M.

Go to Beverly Hills—Mr. and Mrs. W. H. Putnam and baby left last evening for a vacation in Beverly Hills, California, where they will spend two or three weeks.

Front at Idaho Falls—C. L. Conrad returned yesterday from Idaho Falls, California, where he spent the Saturday morning killed potato vines and will attend the crop.

Shall for Honolulu—Mrs. Arthur J. Pewee and children sailed at noon yesterday from Wilmington harbor, Los Angeles, for Honolulu, where they will spend the winter.

Returned to Pocatello—Mrs. M. E. Wiers, accompanied by her son, Kenneth, returned to Pocatello last evening after a visit with their parents, Mr. and Mrs. E. N. Henderson.

Debate Coach Returns—John Estes, debate coach of the Twin Falls high school, returned Wednesday from Washington, where he spent the summer with his parents.

Home From Hot Lakes—Conrad Madsen, owner of the hotel, Mrs. Mabel Berta Neelson, has returned from Hot Lake, Oregon, where Mr. Madsen spent two weeks taking treatment.

Here on Visit—Mr. and Mrs. Harry

Ogden, former Twin Falls resident, with his wife, Mrs. Danah and baby daughter, arrived from Pasadena, California, Friday evening for a visit here.

Met Ten Brothers—O. L. Chornak, who recently returned from a foreign trip, met ten brothers, taken in company with Governor William Adams, Colorado.

Leaves for Home—Mrs. Winifred Rowberry, accompanied by her children, left for her home in Payette yesterday, after a visit here with her mother, Mrs. S. O. Spieberg. She will visit a few days in Jerome while on her way home.

Visit in Boise—Congressman and Mrs. Addison P. Smith left yesterday for Boise, from which place, after a visit, they will go to other points in the Northwest, where Mr. Smith will speak after a matter of public interest.

Visits Twin Falls—Walter C. Leth, graduate of Twin Falls high school, need a "week" at the home of Mr. and Mrs. B. Shuman. He is principal of the Youngster, Meek school. He will take his mother, Mrs. Melville Leth, and his sister, Miss Edith, back to Newburg with him.

Home After Wedding—Mr. and Mrs. Thomas Welker returned to their home here from Weiser, Saturday, they were married in Weiser, at the home of Mr. Welker's parents, last Tuesday. Mrs. Welker is the former Mrs. Elsie Ross, daughter of Mr. and Mrs. R. R. Bradford, Twin Falls.

Hilops Home—T. George Hilop and his son, Tom, returned yesterday after a trip to Wenatchee, Washington, and Pullman, where they attended the meeting of Irwinmen Wednesday at Pullman. Mrs. T. George Hilop, who attended the week-end in Pocatello, and Mrs. Tom Hilop, who spent the week in Boise, also returned.

Train Slightly Late—The caboose engine returned yesterday from the west, the first time it has been behind schedule for many months. This was due to the necessity of picking up a number of exhibitors from the county fair at Pocatello, which were not ready to start when the train arrived.

Attend District Meeting—Mr. and Mrs. C. J. Schroeder left Saturday for Wallace, Idaho, where Mrs. Schroeder, who is state chairman of club extension, will attend a convention of the Third district, Idaho Federation of Women's clubs. She will present the subject of "Inter-club membership in the southwest." She will go from Wallace to Weiser to attend the state meeting of the federation, September 17 to 20.

Veteran Democratic Hospital—C. E. Wilson, Soda Springs, was in Twin Falls yesterday on his way to Boise, to visit his wife, who is recovering from a number of hernias, including the last in the Idaho

state hospital—He is a Democrat, said he was hopeful of party success as Democratic "war" develops. An answer to the question whether they would multiply fast enough would determine whether they would carry Idaho next fall or not. He visited his son-in-law and daughter, Mr. and Mrs. T. L. Lethally, Sunnyside, last night.

Confers With Edwin Owners—Rev. W. A. Shantz, secretary of the Twin Falls Rapid organization, was in Twin Falls yesterday conferring with owners of summer homes near Estley relative to further improvement on the swimming pool, which is owned by the Baptists of Idaho. He said that summer home owners had cooperated, generally in improvements at Estley. No definite plan has been finally worked out, so far, he stated, but it is hoped to make progress during the coming year.

Members of Company E, 118th Engineers, Twin Falls unit of the Idaho national guard, will assemble for drill at Pocatello, Idaho, Monday, August 26, according to an announcement issued last night by Captain J. L. Hodgin, commanding officer.

The company will resume regular drill several weeks suspension during which beginning Monday night, following several weeks suspension during the summer months, Captain Hodgin, announced.

LIGHTS ON ONE OUT OF EIGHT CARS PASS TEST

Out of every eight automobiles brought in for testing of lights, only one does not require some adjustment. According to tests established during the first two days operation at the authorized light testing station in connection with the state's battery service station, 227 Main avenue west.

The car that does not require adjustment of lights almost invariably is a Ford. In the requirements of the others—range from minor adjustment to installation of one or more lights.

Progress in the work here, which was begun last Friday, has been handchecked

CAPTAIN HODGIN ISSUES CALL FOR LOCAL GUARDS

Members of Company E, 118th Engineers, Twin Falls unit of the Idaho national guard, will assemble for drill at Pocatello, Idaho, Monday, August 26, according to an announcement issued last night by Captain J. L. Hodgin, commanding officer.

The company will resume regular drill several weeks suspension during which beginning Monday night, following several weeks suspension during the summer months, Captain Hodgin, announced.

LIGHTS ON ONE OUT OF EIGHT CARS PASS TEST

Out of every eight automobiles brought in for testing of lights, only one does not require some adjustment. According to tests established during the first two days operation at the authorized light testing station in connection with the state's battery service station, 227 Main avenue west.

The car that does not require adjustment of lights almost invariably is a Ford. In the requirements of the others—range from minor adjustment to installation of one or more lights.

Progress in the work here, which was begun last Friday, has been handchecked

Pigskin Tossers of Northwest Prepare to Answer Call

Gridiron Training for Nearing Campaign Gets Under Way in South Central Idaho District High Schools

Idaho Vandals Face

Early Contest With Montana's Bobcats

Moscow Institution's Gridiron Team Fights With Reception of Diehl, Filber and Kershishnik, Burley

By CLEVELAND WILLIAMS (Associated Press Staff Writer) SPOKANE, Sept. 7.—The thump of the pigskin will be heard again in the West on September 14, at inland Empire colleges as well as other Pacific coast football schools.

This year the cleats will begin to pound gridiron at Washington state, Idaho, Gonzaga and Whitman a day ahead of schedule, because September 15 falls on Sunday and the conference has relaxed its rule by 27 minutes to get the collegiate ankles in trim as fast as possible.

And extra day. The Idaho Vandals have the unenviable assignment of meeting Montana state two weeks later, and the Bobcats clawed Idaho severely last year. In addition, the Vandals are trying out

Luck Deserts Utah

State Agricultural College Grid Team

Coach E. L. Romney Without Services of Joe Call

(By The Associated Press) LOGAN, Utah, Sept. 7.—Lady Luck has deserted the Utah State Agricultural college football team ever before the season. It appears from an early survey of the Aggies' chances to make gridiron history this fall.

With backfield material exceptionally scarce, fortune took another whooping at the former gridiron and relieved the way coach, E. L. Romney, of the services of his much prized quarterback, Joe Call. Call recently submitted to an operation for acute appendicitis and although he may break into the lineup late in the season he is lost for the early games.

Always a strong contender for the Rocky Mountain conference championship, Logan farmers face a tough problem this year if they expect to repeat their past record. The line material appears to be fairly strong.

In addition to the scarcity of material another thorn in the side of the Aggies is the fact that their schedule is almost unusually long and hard. They will meet all the leading teams in the conference this fall.

Coming Week Will

Find Many Squads

Trekking To Field

On September 1, Coach Romney will send his charges through light drills. Coach Romney has the expectation that they will "bleed down" to real practice on the season opens.

Vandals' First Day

For Practice Nears

Graduate Manager Announces Time for Beginning

MOSKOW, Sept. 7.—(Special to The News)—University of Idaho gridiron coach will report for first practice on Saturday, September 14, a day earlier than the announced opening date of the conference football season, reports George E. Horton, graduate manager.

September 15 falls on a Sunday, with the result that a conference ruling has authorized the changed starting date, said Mr. Horton. Two weeks later the Vandals will play their first game of the season against Montana State college here at Moscow.

Coach Leo Callahan returned from southern Idaho Wednesday night accompanied by Rich Fox, Idaho's best all-around player, and two other players. Callahan and Fox were officials in the recent Union Pacific athletic meet at Boise. During their trip south they visited the Southern Branch of the University at Pocatello, and worked out with Coach Felix Plante in a cooperative athletic program for the two institutions.

The football fever has reached an advanced stage around the Vandals gridiron. Graduate Manager Horton is preparing a larger turnout than usual, and has enough suits on hand to take care of the largest squad in years. Coach Callahan's only reply to questions regarding the Vandals' prospects is that "the team will give a good account of itself."

Compare its beauty with costly cars

SMART, GRACEFUL LINES MAKE THIS LOW-PRICED CAR A STYLE LEADER

ONLY among cars of much higher price can you find any adequate comparison with the modish and beautiful design of the new Superior Whippet.

Mechanically, too, the new Superior Whippet offers many features found on cars costing two or three times as much. Whippet is the only low-priced car with all these important advantages: Ford's best lubrication, silent timing chain, higher compression engine for more speed, power and pickup; lever-actuated pistons; extra heavy wheelbase; oversteer balloon tires; "Finger-Tip Control"; and, in the Six, a seven-bearing crankshaft.

The Roosevelt

A CAR FOR ALL MARMON-BUILT

News of the new models is here. Many new values are claimed.

The Roosevelt, with a great six months back of it, is still on the crest, without a rival in sight. ... It alone, of all \$1000 automobiles, is a straight-eight. ... It alone offers eight-cylinder smoothness and flexibility at the regular six-cylinder price. ... Powerful adjectives don't make a car perform better, but real advanced eight cylinder engineering does. ... Until someone betters the Roosevelt it will remain the most advanced automobile at or anywhere near the \$1000 price.

- Full-size, four-door, five-passenger.
- Broadcloth upholstery throughout.
- One-piece crown fenders.
- 70-horsepower Marmont-built straight-eight engine (same motor of slightly smaller bore as in higher-priced Marmont Eight).
- Quick, smooth eight-cylinder acceleration.
- Wonderfully easy steering and easy clutch action.
- Powerful, four-wheel brakes.
- Luxurious, low-wheelbase riding quality.

Harrison R. Johnston National Amateur Golfing Champ

Battling Broker of St. Paul Vanquishes Fighting Oregonian

Boyan Manner of Success of Bobby Jones Wins Doxy of Crowd During Contest at Pebble Beach

By ALAN GOULD
(Associated Press Sports Editor)
PEBBLE BEACH, Cal., Sept. 7.—The amateur golfing capital of the United States shifted today from Atlanta to St. Paul when Harrison R. (Jimmy) Johnston, fighting son of the recent Mid-West, beat the Pacific Northwest Dr. Oscar E. Willing, 4 up in holes, in the final match of the first tournament ever held this side of the Rockies.

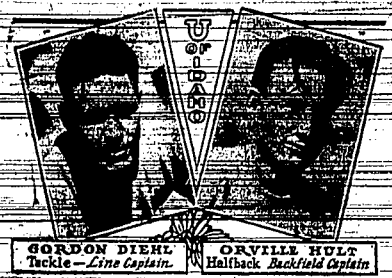

Johnston, competing in the title round for the first time in his career, succeeded to catch the fancy of the crowd, rallied after a bad start to overthrow and beat the veteran Dr. Willing in a match that was named by the press and by an attitude of distinct hostility toward the loser on the part of a good share of the brand of Golf Interiors.

Except for the gallant fighting spirit manifested by both contestants right up to the final stroke on the thirty-third hole, the contest was a one-way affair. Johnston, who had a grand of golf was not up to championship standard, as it has come to be exemplified by the play of the winner. The attitude of the gallery toward the robust Oregonian was as remarkable as anything ever witnessed in 23 years of competition for the amateur crown.

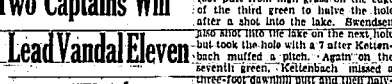

In spite of the fact that Dr. Willing carried the banner of the Pacific coast in the first round of the first tournament held in the Far West, 6,000 spectators manifested strong support of Johnston throughout the match in a tremendous ovation at the finish.

Outburst of Cheers?
The match witnessed a startling outburst of cheers at the eighth hole, when Willing missed a put in a trap and Johnston won his first hole after apparently having tossed it away by putting his second shot into the hole of the first tournament hole in the Far West. 6,000 spectators manifested strong support of Johnston throughout the match in a tremendous ovation at the finish.

GORDON DIEHL Tackle—Line Captain

ORVILLE HULT Halfback—Backfield Captain

Two Captains Will Lead Vandal Eleven

Gordon Diehl, Filer, and Orville Hult, Burley, to Share in Duties on Team
MOSCOW, Sept. 7 (Special to The News)—Two captains instead of the conventional one will lead the University of Idaho football team in the first game of the season, a banquet at Los Angeles following the University of Southern California game last night.

Gordon Diehl, Filer, 200-pound tackle, will captain the line, and Orville Hult, Burley, will lead the backfield. Both are playing their last season of conference competition for the Vandals. Diehl is rated as one of the best tackles in the conference. Hult, while not as heavy as his twin captain, "chips in" on both ends of the line.

First practice on September 15 will find both men in top notch condition. Hult is a former member of the packing chemical and supplies for a white pine miller, but crew near Elk River, Ore. Hult, a doctor, consists of handling a few hundred wheat sacks in a Snake river warehouse.

Boise Men Battle For Golfing Title
Myron Swendsen and W. L. Baker Contest For Gem State-Link Championship
BOISE, Sept. 7 (AP)—Two Boise men, Myron Swendsen and W. L. Baker, will contest tomorrow for the Idaho amateur championship as result of victory in the afternoon in the semi-finals of the Idaho state golf tournament at the Idaho County club.

Swendsen, 2 and 1.
Baker also chalked up a 2 and 1 defeat of Harry Taylor, Pearl, a member of the local club.
The big play of the day was centered around the elimination of Lewiston's two leading entries by Swendsen, who ranked eighth in the qualifying round, and Baker, who began play this morning at the same score of 2 and 1, scored again today by defeating Lewiston, 2 and 1, this afternoon.

Swendsen and Baker will contest tomorrow for the Idaho amateur championship as result of victory in the afternoon in the semi-finals of the Idaho state golf tournament at the Idaho County club.

10 Twin Falls Grid Stars Join Plastino

Tim Robertson, Mentor at Southern Branch of University Follow Coach
Twin Falls high school graduates, at least, who were members of high school football squads coached by F. A. Plastino during his four years service here, will assist the University of Idaho southern branch, at Poentele, this year, and will be candidates for the southern branch national team. Plastino, who will put in the fall this season, in addition, not less than 12 students who were members of high school teams in the district, are expected to place this season on the southern branch line under his direction.

Plastino, who will put in the fall this season, in addition, not less than 12 students who were members of high school teams in the district, are expected to place this season on the southern branch line under his direction.

30,000 Trout Go Into Boise River Tributary

BOISE, Sept. 7 (AP)—Thirty thousand four-inch brook trout were planted in the Boise river tributary today by the state game department.

The trout, raised at the United States hatchery at Bismarck, will be ready for fishermen late next year and the following year and will build up fishing in a stream that is reported to have been almost barren for several years.

Louisville Preparing to Receive Legionnaires of Nation

Men of Service to Meet in Southland 12 Years After War

Parades, Bands, Bugle and Drum Corps, Horse Race and Jubilee Features of National Convention

By CHESTER L. SHAW (Associated Press Service Writer) LOUISVILLE, Ky., Sept. 7.—Louisville, gay city of the southland, is bustling with the flags and the bustle for a visitor. Twelve years ago the great of honor—marched away—in olive drab, in navy blue or in marine green, a sack of tobacco in his ammunition belt and a cigarette in his throat.

Now he's coming to Louisville—in a business suit with a blue and gold American Legion cap perched over one ear, for the Legion's national convention will be here September 20 to October 1.

Mr. Legionnaire isn't the boy he was when he wore a long belt that he did when the mess sergeant experimented with the army cook's manual, perhaps he will be followed by his wife and some little future soldiers—even so, he is trained for a good time, and Louisville will give it to him.

And maybe Mr. Legionnaire won't show Louisville a good time?

Henry Parades "Show" that draws a Legion convention may as well shut up shop and let the hired help see the lights, for they'll never see back door. They'll see too much to see parades, formal and impromptu; bands, bands, bands; bugle and drum corps, too. The dances on the corners, mingling on the streets; natty, by day and natty by night.

A feature of the entertainment is the American Legion derby, to be run on the Churchill Downs track, September 30—Paul V. McNutt, national commander of the organization, will give his dinner to distinguished guests the same day.

That night there will be a golden light jubilee, with fireworks across the Ohio river, and a night flying exhibition for airplanes. The distable, Len Angeles and army and navy places are expected.

The annual parade will be October 1. Other events are a "watts' dinner," the Party and Eight's "week," marksmanship events; band and drum corps contests, athletic events and scenic trips.

The convention has a serious side, too—business and discussion of world questions.

MIXTURES DOMINATE DAYTIME ENSEMBLES Tweeds at Top of Clothes Heap, Featuring Autumn Trend in French Capital

By BARBARA BEAUFORT Fashion Editor (Associated Press Feature Service) PARIS, Sept. 7.—Tweeds are at the top of the clothes heap, dominating daytime autumn styles.

Fashion houses show woolen mixtures of tweed type, for coats, suits and dresses, singly and in combination. When the material is not actually tweed weave it may carry with a tweed pattern, or preoccupied with mixtures are the designers.

Tweed coats, lined with fur, are to replace fur coats for sport to a large degree, apparently. Nearly all the important designers show the fur-lined tweed, in a variety of patterns, in dress and seven-eighths or three-quarter coats.

Most of the costumes of woolen mixtures are belted at a normal waistline.

The American Legion is on the way to Louisville. A typical parade scene is shown above with a bugle and drum corps marching in Paris in 1917. Nor are the women and children neglected, as the picture at lower left attests. Paul V. McNutt (lower right) is national commander of the organization.

EXERCISES TO MARK UNIVERSITY OPENING Cotton Growers' Exchange To Test Mechanical Picker

Busy First Week Starts at Moscow Institution With Special Train's Arrival

MOSEOW, Sept. 7.—Special to The News.—Opening exercises will take place this week on the calendar of the new college year at the University of Idaho this fall, starting for freshmen September 10, and ending for all students the following Monday morning when all classes start.

Arrival of the student special train from southern Idaho at 2 o'clock Sunday afternoon, September 15, is the unofficial opening of the university—for from that time the students date their coming and going for the busy first week. Three days, September 10, 11 and 12, have been set aside as freshmen days, students registering for the first time will be given every opportunity to find out about the university, the various departments, student government and campus activities.

All students, new and old alike, will register on Friday and Saturday, September 20 and 21. A new university rule provides a maximum of \$10 for those who register late. All classes start Monday morning, September 23.

Freshmen will receive more than the usual amount of attention this fall. Most of them will register in the university junior college which opens this fall. Engineering that division they will be the first group of students to register in the university who can obtain degrees under the new system. Old students will find little change in their schedules this fall.

or have semi-fitted lines which take the normal waistline into consideration. Many of them have broad leather or "butter" belts, and "make" a few of the new coats are double breasted with 4x button fastening.

Big fur coats are less conspicuous on the new coats than they have been for several seasons. Outstanding collars from two to four inches wide, with broad fur trim, or absence of fur on the shoulder and belt are characteristics of the new coat models which set them apart from those of last season.

Tans, browns, blue and white and black and white mixtures are the favorite colors. Some of the favored coats have kaasha linings to match kaasha one-piece dresses, in place of fur linings. Others have fancy Jersey linings to match dresses.

DALLAS, Sept. 5.—A mechanical cotton picker, whose inventors claim it will harvest 500 pounds of seed cotton in 10 hours, is to be tested by the American Cotton Growers' exchange this fall.

Already the picker has been approved by cooperative farm organizations in 14 states. If Texas tests are successful, the exchange, which is handling \$90,000,000 worth of cotton this year, has been authorized by its directors to acquire an interest in the mechanical harvester.

Light in weight, the new machine is 29 inches tall, 24 inches wide and 46 feet long. Aluminum cages house revolving spools that remove cotton from bolls by a whirling motion.

The operator drops the picker heads on open bolls, spools remove the cotton, suction carries it through a cleaner and it then is dropped into sacks.

A one-horsepower gasoline motor operates the picker heads, which extend to 10 feet on each side of the machine. Its inventors say the cleaning process adds \$10 to each bale's value.

The American Cottonpicker corporation, which manufactures the picker, claim hand-pickers average 168 pounds in California tests, while the machine picked from 300 to 400 pounds.

ULAN BATOR, Mongolia, Sept. 7.—The local Soviet has confiscated the property of Tsain Gogen, one of the strongest ecclesiastical rulers in Mongolia, because of his reactionary activity, as well as that of the recently deposed the 13th Dalai Lama. The property of the dead Buddhist representatives of the living Buddha, has been inventoried.

BRUSSELS, Sept. 7.—Queen Elizabeth, who is a first class violin player, has taken the initiative in creating a "Musical Foundation" for which she has subscribed 100,000 francs. The organization aims to promote the work of Belgian composers abroad and to provide means for young musicians to study in foreign countries.

Swedish lumber, paper, matches, butter and iron ore.

BORAH WILL ATTEND MOSCOW DEDICATION

University President Sets Day for Outlawry of War Foundation - Ceremonies

BOZEMAN, Sept. 7.—Special to The News.—Inauguration ceremonies for the William E. Borah Outlawry of War Foundation established at the University of Idaho by Senator Borah, a prominent Chicago attorney and world peace worker, will be held this fall with the prominent in the movement for international peace participation, announced President F. J. Kelly.

Definite dates and plans have not been set as Mr. Levinson is now in Europe and Senator Borah is engaged with legislative work in Washington.

The Outlawry of War Foundation was made possible by a gift of \$50,000 by Mr. Levinson honoring the contribution of Idaho's senior senator to the cause of world peace. Mr. Levinson is generally acknowledged as the man who started the "outlawry of war" idea which is now embodied in the Kellogg peace pact. When the pact was signed at Washington, Mr. Levinson was the world statesman who was not present in an official capacity.

The foundation is to inaugurate this operation the university hopes to make its inspirational benefits available to the largest number of Idaho people as well as those in nearby states. When the foundation is fully established prominent authorities on world peace problems will be brought to the university from time to time for special courses and lectures. Whenever possible students of the Southern Branch will be given an opportunity to hear these noted personages.

CONTINUED PROGRESS

ULAN BATOR, Mongolia, Sept. 7.—The local Soviet has confiscated the property of Tsain Gogen, one of the strongest ecclesiastical rulers in Mongolia, because of his reactionary activity, as well as that of the recently deposed the 13th Dalai Lama. Rust, Foe of Machinery, Adds Pounds to Cattle

AMES-Iowa, Sept. 7.—Common iron rust that has damaged the Iowa farmer's machinery may pay him back by adding pounds to his cattle.

Experiments at Iowa State college show that iron oxide, scientific name for rust, added to cattle ration, is beneficial.

One eight-month group of cattle were fed different rations, and of the lot the group which ate the ration with rust gained more weight than the other rations included a mixture of 84 percent of bone meal, linseed cake and potassium iodide, and 2 per cent iron rust. For eight months each steer received an ounce of iron rust a day.

The average gain was 2.63 pounds per head a day, almost one-third more than what fed a ration similar except that the iron rust was omitted.

The cost of the gain was less for the "rust" group by 20 cents a hundredweight, according to John M. Everett, college feeding expert.

WOMEN CATHOLICS WILL STUDY IMMIGRANTS' LOT

WASHINGTON, Sept. 7.—The future of the lot of arriving Catholic immigrants and making him feel at home will be part of the program of the National Council of Catholic Women which will meet in Washington September 20 to October 1.

Miss Mabel Hickey, director of the Bureau of Immigration for the National Catholic Welfare Council, says that immigration officers are anxious to create a more friendly atmosphere here, and that the work of the Catholic women is doubly needed to help fit the foreign born into their new surroundings.

Under the present plan each diocese has Catholic representatives, who speak the tongue of the newly arrived aliens, give them a welcome upon arrival.

The women's council includes Catholic women over the country to aid in the work. About 300 women will attend the national council. The entire membership, which includes 1700 organizations, numbers approximately 500,000 women.

Miss Mary C. Hawks of Summit, New Jersey, is president.

NEW FORD SPORT COUPE
with rumble seat

\$550
(F. O. B. Detroit, plus charge for freight and delivery. Bumper and spare tire extra.)

A new and modern car designed and created to meet modern conditions

THE minute you see the new Ford you will be delighted with its low, smart lines and beautiful color harmonies. There, you will say, is a truly modern car.

From the full-nickel radiator shell to the good-looking banjo differential housing, the new Ford is an outstanding example of fine automobile design and engineering.

55 to 65 miles an hour . . . quick acceleration and ease of control . . . vibration-absorbing engine support . . . fully enclosed, silent six-brake system . . . four Houdaille hydraulic two-way shock absorbers . . . Triplex shatter-proof glass windshield . . . Alcomite chassis lubrication . . . typical Ford reliability, economy and long life.

These are just a few of the reasons why the new Ford is such a really great car—such a good car to own and drive.

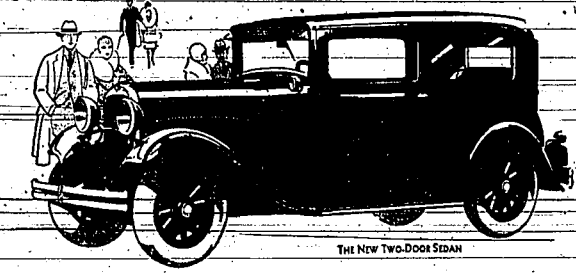

Come in and drive it yourself. Its performance will be a revelation.

Roadster, \$450. Phaeton, \$460. Business Coupe, \$525. Tudor Sedan, \$525. Coupe, \$550. Sport Coupe, with rumble seat, \$550. Fordon Sedan, \$625.

MYSTERY INVOLVING ARCHDUKE AND LOVER WILL NOT BE SOLVED

Death Seals Lips of Last Member of Ill-Starred Family and Details of Murder Remain Secret

By The Associated Press
VIRNNA, Sept. 7 (AP)—One of the most fascinating mysteries that cost the life of the heir to the Austrian throne and his beautiful sweetheart, promises never to be unraveled.

Death has sealed the lips of the last member of the ill-starred family of Hapsburgs and the manner in which the double murder at Meyerling came about is as much of a secret today as when the tragedy occurred in the late twilight.

Austria was robbed of an heir to the throne when Archduke Rudolf, son of Emperor Franz Josef, was murdered with his sweetheart, **Baroness Marie Victoria**, a member of the Hapsburg family.

Family in Exile
 The tragedy sent the members of the imperial family into exile after the war. Baron Hapsburg, grand uncle of the slain baroness, a Levantine, was among those forced to find a home outside the borders of the country.

His friends said he knew too much about the tragedy, but if he did he carried his knowledge to the grave. He had promised never to talk.

"On the spot where Archduke Rudolf died," **Maximilian**, a Germanic namesake, said today, "every morning mass is celebrated by a Catholic priest for the repose of the soul of the imperial prince. It is in accord with the last wish of the late emperor, who was a devout Catholic."

Body in Chapel
 The body of the archduke lies in the Royal chapel in exile until after the war. For away in an unassuming grave in a small courtyard of the monastery of the Helliggenkreuz, rest the remains of the girl he loved.

A simple inscription on a monument says: **MARY FREDERICK VON VERZEL, BORN MARCH 19, 1871; DIED JANUARY 30, 1889.**

It is the only reminder that it is the resting place of a girl whose offense was that she loved beyond words the heir to one of the mightiest empires in the world.

NINE SIZE LORD'S PRAYER
ASHVILLE, N. C., Sept. 7 (AP)—A prayer, the oldest in the world, which was written all the Lord's prayer, is owned by Captain R. G. Mendenhall of the local police force. The text was accomplished by Mendenhall's father, a native of Scotland, in 1885. The tiny piece of paper was encased with a cover of magnifying glass, making all of the words legible.

Eight Girls Study Weather For Flying
MADISON, Wis., Sept. 7 (AP)—Eight girls are studying flying weather here under Eric H. Miller, chief of the local United States weather bureau.

The girls are prospective pilots and are learning about cloud formations, winds, storms and other conditions they will meet in the air. Charts prepared by Amundsen and Wilkins are used by Miller in his aeronautical meteorology course.

Colorado holds first place in coal and iron west of the Mississippi.
 Leuzha, Germany, is the center of the world's coal trade.

Golf Gains Much Favor Among Women of France
PARIS, Sept. 7 (AP)—The popularity of golf among women in France is growing almost as rapidly as with the plus-favored male of the sport called golf.

There are now 13 Frenchwomen with national handicaps under 10 and 43 handicapped at less than 10.

The most famous champion, **Mlle. Simone de La Chaux**, rated at plus one, followed by her sister-in-law, **Mlle. Robert**, minus one, and **Mlle. Germaine**, both minus one, are the women's champions, as well as French titles, but neither is playing actively this summer.

Gentle Washington Woman Editor-Penning Thrillers

By **RUE MCNAMARA**
 (Associated Press Feature Service Writer)

WASHINGTON, Sept. 7 (AP)—A quiet, unassuming little Washington woman writes such thrilling detective stories that presidents and other great men of the nation read them with interest.

She is **Natalie Sumner Lincoln**. She started writing in 1917. Since then she has written 21 detective novels, all of which have been published. Most of them are still big sellers.

Daylines **Miss Lincoln**, editor of *Daughters of the American Revolution* magazine. At night she turns her imagination loose and her typewriter keeps up an incessant clatter as she writes and sees scenes race across the pages.

President Wilson and **William Howard Taft** were among many prominent men who turned to **Miss Lincoln's** books for relaxation and diversion. They followed "The Blue Car Mystery," "The Moving Finger," and "The Nameless Man" into the late hours.

She would never take **Miss Lincoln** for a writer of hair-raising thrillers. She wears glasses. Her hair is parted in the middle and done up in a tight little knot in the back. But her eyes hold a gleam of humor.

Miss Lincoln had never done any writing before her first book, "The Trevor Case," in 1917. She wrote the 78,000 words of that in three weeks. It found immediate acceptance with a publisher. Her latest book, "The Fifth Lady," is having a big sale.

Miss Lincoln is no less successful as an editor than she is as a writer. She increased the circulation of the *D. A. B.* magazine from 200 to 18,000.

LONG, COLORED GLOVES
 NEWEST THING IN PARIS

PARIS, Sept. 7 (AP)—Pleasant pink and olive green long gloves are shown in the winter collection of a dressmaker who does a larger business with the courts of Madrid and London.

The colored kids are elbow length and are worn with matching slippers in the tone of the costume.

Heretofore the occasional wearer of long gloves has chosen café au lait, deep cream or black. Long gloves seem slowly to be returning to usage among the smartest women in Europe. The red and green ones go a step beyond any thing previously shown.

The page house that sponsors bright-hued gloves shows short black suede gloves for wear with black chiffon or lace dresses with long sleeves.

Keeping Legislature "Dry" Temperance Union's Object

Women's Organization Considers Congressional Elections of 1930 of Unusual Significance to Cause

INDIANAPOLIS, Sept. 7 (AP)—Making the country "dry" and keeping congress "dry" are questions of the moment with the Women's Christian Temperance Union. The organization, founded in 1824, met here September 10 to 25, according to Mrs. Ella A. Booda, president.

Of equal but different interests to the temperance women will be the unveiling of a bronze tablet to **Frances S. Willard**, founder, who 50 years ago became president of the White Ribbon organization.

"The 'dry' men will devote much time to consideration of ways it can aid the government in stopping up outlawed liquor and emanating sentiment against prohibition."

"The Women's Christian Temperance Union considers the congressional elections of 1930 unusually important, coming as they do in the 60-year after the 'wet' and 'dry' fight of the last presidential year. The women will throw their strength behind 'dry' candidates for the senate and house."

Among the better known prohibition authorities and devotees who will speak at the convention will be **Dr. James M. Doran**, federal commissioner of prohibition.

The tablet to **Miss Willard** is to be presented to the state. It will hang in the statehouse where some of the most outstandingly severe legislation in the

Wichita Women Devote Spare Time to Aviation
WICHITA, Kan., Sept. 7 (AP)—Airmindedness has become a reality of aeronautical study for women of Wichita, whose numerous airplane factories have made it a Detroit of aviation.

A class exclusively for women has been organized at a Wichita flying school. Housework and society fill the day for these enthusiasts, so they're learning to fly by night.

They study the mechanics of airplane engines before pilots teach them the art of manipulating planes in mid-air. Evolving flight instruments, masts and gear, learning intricacies of various motors.

None of them, however, plans to fly professionally.

Airplane Ride Holds No Thrills For Women Oklahoma City Woman

OKLAHOMA CITY, Sept. 7 (AP)—Mrs. Molly Tice, 36, wishes she could get a thrill out of flying. She is the grandmother of **Burris Tibbo**, pioneer Oklahoma-city aviator. After scaling high mountain peaks, hunting big game in Africa, and living alone in isolated Indian villages, the woman finds their majesty in demand for films.

"I wish I could get a thrill out of flying like some of my neighbors 'round up around' me," she said. "All my friends gathered around and told me how they wished they could make such a grand trip. But I couldn't get excited over it."

WOMEN EXPLORERS PUT ADVENTURES ON SCREEN

WASHINGTON, Sept. 7 (AP)—Motion picture makers are planning the adventures of the Society of Women Geographers.

After scaling high mountain peaks, hunting big game in Africa, and living alone in isolated Indian villages, the women find their majesty in demand for films.

Marguerite Harrison and **Ann** are the picture-makers on a four-year tour of the world to prepare explorers for a talking picture company.

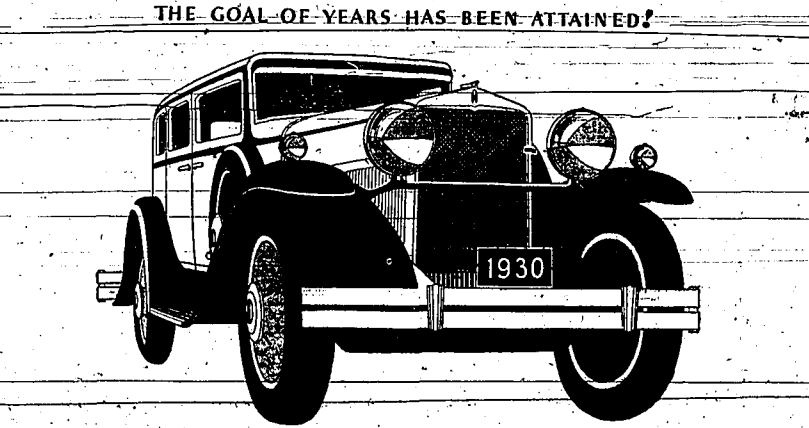

Blair Niles spent several months in Hollywood writing a scenario based on her book, "Commanded to Devils Island." It will be shown on the screen soon. The book has been translated into both German and Swedish. It has resulted in the **Stratton Army** establishing a base in French Guiana and in investigation of the penal colony by prison organizations of Europe and America.

Japanese Emperor Honors American Woman Educator

BOSTON, Sept. 7 (AP)—An American woman, missionary educator, has received the blue ribbon medal from the Japanese Emperor.

The recipient is **Dr. Susan A. Genrie**, who has served for 46 years under the American Board of Commissioners for Foreign Missions. Her service for distinguished service outside of government service.

Miss Genrie was born in Wiley, Michigan, and is a graduate of Wilkes College in the city of 1881.

THE GOAL OF YEARS HAS BEEN ATTAINED!

COME OUT at 70 miles per hour in THE NEW 1930 HUPMOBILE SIX

The excess power and the dominant speed of the new 1930 Hupmobile Six are matched by just as remarkable advances in its comfort. For Hupmobile wanted this new Six to be perfected in every detail. . . . A spacious interior, marked by more leg room . . . more head room. Wider seats and doors . . . deep, easy cushions. Long springs of matched tensions are controlled by improved shock absorbers. Vibrations that nibble at your nerves no longer exist, because the counterweighted crankshaft and rubber-cushioned engine mountings stop them before they start. The result: comfort becomes luxury; riding gives new pleasures in quiet and ease. . . . Drive the new Hupmobile Six today. Let it tell its own story of extraordinary value . . . of excess speed and power . . . of 1930 riding luxury . . . on any road you choose.

Regulations for Educational Work in Private Schools of China Perturb Missionaries

Ruling of Nationalist Government's Ministry Prohibits Teaching of Religion As Subject Required in Studies

By The Associated Press
 AMOY, Sept. 7.—Missionaries engaged in school work in China are frankly perturbed over the possible effect of regulations issued by the ministry of education of the National government in Nanking. Some are advocating defiance of the order and others are ready to close their schools. But a third element is going ahead in harmony with the government ideas.

Several articles of the new regulations governing private schools have been seriously questioned by leaders among the mission forces but most of the debate centers around one which reads:

"A private school is not permitted to make religion a required subject, nor to give religious instruction in the classroom. If there are any religious expressions, students shall not be compelled to participate."

The element which is advocating conformation to this and the other rules, sees an opportunity for Christianizing extracurricular activities. It believes that an approach to religion will prove more successful and bring through the confidence of the government, and thus obtain more liberal concessions in the future.

But the size against compulsory religious courses involves the subject nearest the heart of every missionary. To deny him the right to teach Christianity in schools which he has founded for that very purpose, raises with him the question of the freedom of religion.

Offer Explanation
 The point is explained in a letter from the board of education of the Lutheran church in China, addressed to the church's Chinese and Chinese-American joint action with a view to obtaining freedom of religious instruction. In part, the letter reads:

"The constitution of the Republic of China guarantees religious liberty to its citizens. We are aware that this has been construed by many people outside the church, among them men of high authority, to involve that the individual student should be allowed the liberty to choose whether he wants to take part in religious activities. And from the point of view of non-Chinese Christians this attitude is intelligible."

"We believe, however, that the paragraph on religious liberty, as in most enlightened countries of the world, refers to an alienable right of parents to determine in which way their children shall be instructed as regards religion. This involves the right of the parents to establish schools which give religious instruction in the way which they deem best, provided the authorities of the school thus organized are at least equal to those set by the National government, and that the schools otherwise totally submit to the various non-maintainable religious instructions necessarily should be compulsory."

ERECT STONE TOMB
 MOSCOW, Sept. 7.—The Lenin tomb in the Red Square, a wooden structure erected in 1924, is being replaced in stone. It has been undertaken by the various nations in the Soviet Union. The literature, the drama and all that goes to make up culture. They hope the

British Officer Writes Comedy On Life in Navy

LONDON, Sept. 7.—The funny side of the life of a British officer in the navy is the subject of a comedy written by a young officer who seeks to depict in theaters. It is to reach London stage for fall.

Commander King-tall of his Majesty's navy is the author. His first play, "The Lieutenant," first saw the stage in London. It is a comedy about a young officer who is a technical expert, making use of the language and actions of his characters are usually comically misapplied.

As a concession to managerial taste in titles, the farce will make its London debut under the name of "Sailors' Knave." After a trial cruise behind the footlights of a theater in Southsea.

CRITICS WORRY OVER DRINKING IN FRANCE

Doctor Informs Academy of Medicine On Physical Effects of Beverage

By JOHN EVANS
 Associated Press Staff Writer
 PARIS, Sept. 7.—The cocktail is charged with undermining France's "thousand years of culture."

"The American bar" is accused of providing "our backbone in many ways."

Alcoholism, less prevalent in workers since the war—possibly because of the price—is growing rapidly in high society.

Aid the American cocktail, frequently spelled "cocktail" and variously pronounced, is blamed for all this.

Before the solemn and erudite Academy of Medicine, Dr. Georges Oullain laid down all these "facts" and thereby furnished ammunition for newspaper attacks on the new fashion.

Dr. Oullain, of course, devoted most of his time to the influence of mixed drinks on the human mind. "Others, however, worry more about the psychological effects than the physical results."

A multi-million business is ready made for Americans, delivered and installed at home. It is failing to keep up with the demand for those who want to shake their own. Ten parties still are given but the tea set seldom has to be refilled. Cocktail shakers are worked overtime.

No longer, says one critic, does the young girl seeking a husband shyly boast of knowing how to run a kitchen. She now boasts of her cocktail and prosecco party ability to mix all sorts of fancy drinks.

How all this is going to end, troubles those who feel called upon to defend art, literature, the drama and all that goes to make up culture. They hope the

GIRLS EMPLOY RISE TO ENTER UNITED STATES

WASHINGTON, Sept. 7.—The immigration of Polish girls into the United States by false marriage with American citizens has been discovered by the police and the American consulate has informed the state department of the discovery.

A man giving his name as Morris Hinkley accepted the that a Polish girl, who had obtained an American passport as a document with which to conclude false marriages.

The Polish immigration quota to the United States is so low that the girls' parents accepted any that might get them in. The same leaders arranged with two rabbis for signing marriage contracts between the girls and American citizens, but some care was taken to be sure of counterfeited passports.

The cocktail crowd will touch their skirts and change their "luminous" and refrain to say so with such mournfulness that the hope of marriage is dashed. The fear society, must have its fling and fear their approaches are vain.

Commercial evidence abounds to prove the bar is "the thing." Dozens of stores have bar departments. They sell the small bars for the corner of the high stools, the shakers, patent ice-making devices, and stacks. Floral vases, "cocktails" and "cocktails" and also the ingredients.

German Group Waps On Fascism and Communism

BERLIN, Sept. 7.—A call to the youth of the world to fight for Fascism and Communism has been sent out by the central committee of the German Young Democrats, in the shape of an invitation to an international congress of liberal youth in Berlin, November 13 to 17.

"Declaring this both Fascist and Bolshevik are exploiting the post-war poverty of Europe, the Young Democrats' invitation reads:

"Wherever we look in Europe, the parliamentary institutions of democracy are hard pressed by Fascism and Bolshevism. In such a situation democracy can no longer merely defend the position it has won. It must attack."

BARE HEAD FAT HITS PARIS
 PARIS, Sept. 7.—The hottest hair for summer has made severe inroads on the hair-hat sales in Paris. Merchants, however, by offering novel designs in straw headgear at tempting prices, have largely made up for the loss.

The only Icelandic community in this country is in North Dakota.

Amsterdam is the first coffee market of the world.

White-Drill Suits Still Favored Costume in Cuba

HAVANA, Sept. 7.—While certain portions of the United States are casting about for costumes providing more comfort during the summer months, the Cuban citizen is still clinging to the white-drill suit.

There is no such procedure in Havana for a citizen to wear the "white-drill" suit. When such a citizen encounters a foreigner, he usually is a tourist whose visitations have induced him to seek relief from all excess clothing. This to the Cuban constitutes the ultimate breach in good manners.

No matter how hot the day, the Cuban is fully attired but, strange to say, never experiences any effect from the heat. He is always calm and cool looking. Nor does he heed his coat at the office.

Company Designs Radio Set For Use in Planes

LONDON, Sept. 7.—Lightweight radio for use on private planes to communicate while in flight with ground stations has been designed by the Marconi company.

The new set combines a telephone transmitter and receiver in a compact wooden box measuring 16 by 9 by 7 inches and weighs about 60 pounds. It will cover ranges of 50 to 75 or more miles.

Hits Irish Free State

DUBLIN, Sept. 7.—The problem of precedence, which recently disturbed Washington society is raising its head in the Irish Free State.

Who is to follow whom, and why cannot be determined, despite the prevalence of titles in Dublin, for the titles are all British and the Free State formerly recognized by the British accord those conferred by it.

It has been suggested that a national order of merit be established to maintain precedence after all social functions. It is understood that the government favors the proposition, while an opposition condemns it as undemocratic.

The only Icelandic community in this country is in North Dakota.

Amsterdam is the first coffee market of the world.

HUNTING IN SCOTLAND ATTRACTS AMERICANS

Millionaire Sportsmen Pay Large Sums to Use Deer Forests and Grange Monks

INVERNESS, Scotland, Sept. 7.—America's annual hunting in the deer forests and grange monks of Scotland is on a scale which has attracted a million Americans in the city of Inverness in the past few years.

It has been a prosperous year for the United States, and the shooting this season is expected to yield a record harvest of American dollars for the sportsmen who have come to the forests of Inverness.

Already numerous private preserves have been taken over by business men from New York or Chicago, and American travelers have led vast numbers of deer to the forests of Inverness. The deer forest of Castle Grant, not far away, are held by H. L. Pratt, head of the Standard Oil Company of New York, C. W. Ogden, New York, has hired a ranchman in Inverness-shire, Percy Chubb, New York, is again tenant of the famous Cawdor House. King Duncan was murdered by Macbeth and the Edwin J. Baiter, also of New York, has leased the forest of Inverness.

The increasing number of rich Americans come to hunt the deer forests and grange monks. The deer forest of Castle Grant, not far away, are held by H. L. Pratt, head of the Standard Oil Company of New York, C. W. Ogden, New York, has hired a ranchman in Inverness-shire, Percy Chubb, New York, is again tenant of the famous Cawdor House. King Duncan was murdered by Macbeth and the Edwin J. Baiter, also of New York, has leased the forest of Inverness.

CAPITAL CITY OF TURKEY HAS LOW MARRIAGE RATE

CONSTANTINOPLE, Sept. 7.—A changeless image of marriage held in the days of polygamy. Constantinople now celebrates fewer weddings, annually, than any of the great cities of the world. Out of a population of 700,000 there are only two-sevenths as many marriages as in the city of London.

The severe economic crisis which Turkey is traversing is a factor of the decline in the number of marriages. The average number of marriages in the city totaled 1000 in the same period this year the number dropped to 750.

Modern Short Skirts Worry Girls in Japan

TOKYO, Sept. 7.—The transatlantic influence of modern fashion, like their obese oriental sisters in Turkey, are finding considerable distress in the mode for short skirts.

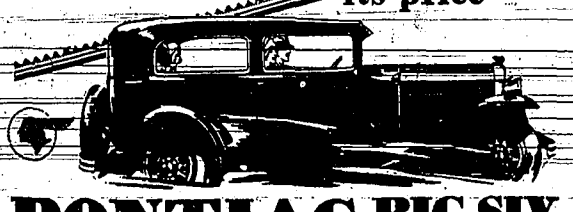

Time was when the graceful, elegant Japanese, trailing the ground, wore a kimono in a kindly and courtly manner. But the advent of occidental fashion displays have brought pillbox hats to public attention. The fact that the average Japanese girl would see a very quality for the front row of a Broadway runway. Legs here are usually thin, heavy or bowed.

So the girls are going to the surgeons. This started when Miss (Hiroko) Hagi went to Aichi Medical university hospital and emerged with such improved appearance that she is going on the stage as a dancer. Now the university has two or three applications daily for similar operations.

OFFICERS WIN STRIPES

RIO NEGRA, Sept. 7.—Police in Brazil's capital may be known to be on duty when they wear brassards of black and white stripes on their left arms. Off duty, they wear the regular uniform but discard the brassard. Cotton khaki constitutes ordinary wear but on holidays they blossom out in dark blue with white epaulettes and a cap band of white leather.

For Speed, Power and Pickup ~ a Six without a rival at its price

PONTIAC BIG SIX at \$745

Without a single exception, the Pontiac Big Six is the fastest, most powerful six of its price available today. Its 16-horsepower, 200 cubic inch, L-head engine develops 60 horsepower at moderate engine speed. Its speed and acceleration are the fastest to be found in any low-priced car; according to the "Auto Wheel" is "the most accurate speed measuring device known to automotive engineers. Unquestionably, today's Pontiac Big Six is the performance leader of its price field—and the style and value leader as well."

ESSEX THE CHALLENGER

first prize for reliability

Motorodom is given conclusive proof of the outstanding reliability and performance of Essex the Challenger, in the 15-day running of the famous "Tour de France." The two Essex entries finished the race without a single penalty, winning by a great margin over the strong field of high-priced American and European Cars.

Not only the Grand Prix, but the Ansado Cup, for quick get-away—the Lyonsais Cup, the Pyrenees Cup, the Atlantic Cup, the Cup of Brittany, the Cup of Normandy and the Cup of the North were also taken by Essex the Challenger.

"Our opponents themselves were astonished at the speed performance and reliability of Essex the Challenger," said M. Lamy, Parisian distributor. "We did not experience a single mechanical fault during the entire Tour."

The same sort of experience, the same sort of reliability, in the hands of 200,000 owners, has made Essex the Challenger everywhere known as "The Reliability Car of the Year."

WINNING NEW FRIENDS EVERY DAY

Triumphs won, sales records broken, world-wide acclaim as the most successful achievement in the field of low-price sixes have not found the De Soto Six content to rest upon its laurels. Conceived and built by Chrysler Motors, this car of character is continuing to prove its superior appeal to those who insist on distinction in their motoring. Alert and brilliant performance, smooth power, easy control and the utter comfort of this stylish De Soto Six have captured almost romantically the fancy of the motoring public. Owners indeed, talk of the De Soto Six in terms of generous affection as if it were a living comrade rather than a motor car. It is this individuality that has set De Soto Six apart. It is this which will make you eager for this car's possession as soon as you get your hands upon the wheel.

IDAHO UNIVERSITY NOT TO SELL DECORATIVE TREES

BOISE, Sept. 6.—Upon the protest of the members of the State University of Idaho has decided to go out of the business of supplying decorative trees and shrubs to the citizens.

The board of education ordered the check of such plants closed out and on the recommendation of President Kelly will furnish only standard pine-wood lot trees at the same nominal price formerly charged.

Over three hundred gardeners have been rather universal in the state. It is thought that the State University of Idaho has decided to go out of the business of supplying decorative trees and shrubs to the citizens.

GOVERNOR ISSUES CALL FOR CONSTITUTION WEEK

BOISE, Sept. 7.—Governor H. C. Hilditch today proclaimed the week of September 15 to 21 as constitution week to assist patriotic societies to thwart all efforts to substitute any other theories of government in place of the constitution of the United States.

"Believing that an understanding of the constitution cannot fail to stimulate an American in his allegiance to his country and optimism in his future," the proclamation said, "a period each year is devoted to a special effort to arouse our citizenry from the indifference and apathy with which the nation's fundamental law is too generally regarded, and to a special effort to maintain in peace as well as war, 'eternal vigilance is the price of liberty.'"

NAVY LISTS POPULAR

GDYNIA, Poland, Sept. 7.—The dinky white hats of the American navy were highly fashionable this summer at this and other Polish seaside resorts. Men, women and children wore them, finding them convenient for tennis and boating.

BAPTIST DELEGATES HOLD BULK SESSIONS

Miss Ina Campbell, Rupert, Head of Young Folks Group, Presides at Event

BOISE, Sept. 7.—Miss Ina Campbell, Rupert, president of the Central Idaho district Baptist Young People's union, presided at the opening session of the annual assembly held at Ketchikan. The district church ladies on the subject "Our Young People—Responsibility for Change in Our Missionary Work." Seventy-five delegates representing seven societies of the district were present and gathered for the reception and noon hour following the services. Delegates opened the sessions today at 9:30 A. M. followed by the reports from all churches represented on the annual assembly held at Ketchikan. The new unified plan of state organization and the unified work of the young people in the local church was discussed by Rev. A. G. Lutton, pastor of the local Baptist church, Idaho.

Bertha McCauley, Buhl and Morris O'Leary were the winners to the career money. Mrs. and Mrs. Buhl will make their home on the bride's room near Buhl.

Castledale high school will open Monday morning, September 9, and pupils will be assigned to classes on that day. S. D. Hays is superintendent and principal and other members of the faculty include Mrs. G. D. Hays, Winifred Fryer, Lambert Delphus and George Powell. In the grades teachers will include Marion Jones, Leonard B. Stover, Mildred Porter, Edith May Brown.

Eastern Star members met for the first meeting of the fall season Thursday evening with Mrs. Helen Abbott, Miss Grace Aldrich, Mrs. Herman Gray, Mrs. J. F. Dymally, and Mrs. Sage Heath, hostesses. During the session Mrs. E. M. Warty was installed as "Mrs." Mrs. J. P. Hunt is worthy matron of the group.

CASSIA COMMISSIONERS ADOPT COUNTY'S BUDGET

BURLEY, Sept. 7 (Special to The News)—Cassia county's budget for 1930, as finally adopted by the county commissioners, allows \$77,608 for current expenses; roads and highway contributions, \$10,235; bond interest, and redemption, \$2,535; warrant redemption, \$6,000; fair exhibit, \$500.

Among items in the current expense budget are: For agricultural extension service, \$3,500; board of health, \$2,250; county buildings, \$6,695; destruction of weeds, \$1,000; indigent's burial, \$1,500; indigent's pensions, \$250.

Kenneth Swallow and Jefferson Hyde will leave early next week for Poetville where they will enter the southern branch of the university.

This Business of Buying a TIRE by

GOODYEAR TIRES

several grades in Goodyear Tires. Each of these grades is superior to other makes of corresponding price, because of the economies Goodyear effects through building millions more tires than any other company.

THE PROOF OF THIS IS THE FACT that for 13 years more people have ridden on Goodyear Tires, than on any other kind.

IT ALL GETS DOWN TO THE QUESTION OF WHAT grade your driving needs require or how much you want to pay. You'll always find it in Goodyear Tires, the best combination of quality and price. A lower price than a Goodyear offers is a sure sign of a whole lot lower quality. A higher price than a Goodyear is just paying for somebody's applause.
