GROWERS OF TURKEYS SELL TRAD'S POOL

Company at Meridian Birds Highest for 25 Carloads of Thanksgiving Birds

BOISE, Nov. 4.—After all-day deliberation, directors of the Southern Idaho Turkey Growers Association tonight sold its Thanksgiving pool of 25 carloads of birds to the Meridian Produce company, Meridian, highest of six bidders.

Prices for No. 1 birds will be: Young 27 cents, No. 2 birds sold at 10 cents pound less in each classification. These prices are net to growers.

The directors said they learned by the national average. Mrs. G. Frank manager, said the Idaho prices were higher than those offered for poultry at Salt Lake City, at Meridian and Roseburg, Ore., all of which remained unsold, all bids being rejected.

Delivery of the association's turkeys will begin in Boise next Monday and continue at points in Idaho and eastern Oregon for 10 days.

Representatives of every important turkey growing section of the state voted to adopt federal grades for dressed turkeys. John B. Welch, county agent, Boise, is president of the department and will provide inspectors to grade turkeys at request of any of the growers, he said.

Members of the Wendell department were hosts to a large number of persons at their annual dance Thursday night.

Mr. and Mrs. E. D. Dyer entertained members of the Senior Bridge club at their home this evening. Following dinner, bridge was played with high score awards going to Mrs. Corie Price and Mrs. Schenck.

Mr. and Mrs. C. M. Jones entertained members of the Senior Bridge club at their home this evening. Following dinner, bridge was played with high score awards going to Mrs. Corie Price and Mrs. Schenck.

# 22,812 Fans See McLarnin Beat World Champion, Mandell

## Outcome of Battle Surprises Chicago Fight Enthusiasts

Baby-Faced Walloper From Vancouver Appears to Be Better Welterweight than Member of Lighter Class

By CHARLES DUNKLEY  
Special Press Staff Writer  
CHICAGO, Nov. 4.—Hatten for six rounds and nearly floored in the seventh, Sammy Mandell, world's light weight champion, was defeated by Jimmy McLarnin, contender for the welterweight championship, in a thrilling 10-round non-titular battle in the Chicago stadium tonight.

The baby-faced walloper from Vancouver, by his victory showed that he is a better welterweight than he was a lightweight. He completely reversed the verdict Mandell won over him in his last fight, which was in New York a year ago last May.

The result was a stunning surprise to a crowd of 22,812 spectators who paid \$102,500 to witness the battle. Mandell, going into the ring as a favorite was rallied with winning only two rounds, being three. Two were declared fair by even Mandell's most impressive showings were in the first and second rounds, but the winning blow came in the eighth round.

McLarnin centered his attack to the body, occasionally throwing a long overhand right or left hook to the chin. He held Mandell unmercifully in the mid-section.

Otto von Porat, giant heavyweight, scored an impressive knockout over Charles Smith, England, in the final round of their scheduled 10-round bout.

Van Porat, aroving heaver, scored 302 points, with Smith weighing 191.

Ernie Hoffman, recent light heavyweight importation from Norway, knocked out Jake Purcell, of Ironwood, Michigan, in the fourth round of their scheduled six rounder.

Harry Dubinsky, junior lightweight of Chicago, outscored Tony Carraschino, New York, to earn the decision in six rounds.

In a four-rounder, Ray Trambulo, a sensational middleweight prospect of Mandell, convincingly defeated Joe Young, St. Paul, flooring him and boxing him out of a knockout in the last round.

**League Teams Open Season of Bowling**  
Bowling season officially opened in Twin Falls last night when members of two teams topped the pins in the first game on the city league schedule.

The decision of the bowling season was a complete victory over the Idaho Power company, winning three games for a total of 272 to 178.

McIntyre, for the power company team, was high man with a score of 409 and Jones was second with 408. Duffin got the first strike in the fifth frame of the first game.

## Belgian Flyweight Champion Troupes Pugilist Schwartz

**Solid-Socking Battler of Europe Causes Opponent to Announce Permanent Retirement From Ring**

By EDWARD J. NEIL  
(Associated Press Sports Writer)  
NEW YORK, Nov. 4.—Fresh from a sensational campaign in front of his Eugene Hill, flyweight champion of Belgium, made his debut in Madison Square Garden tonight with a stirring 10-round victory over Troy Schwartz, best of the American 112-pounders.

The battle featured the first series of matches between middleweight contenders for the vacant title of sportsworld.

So suddenly did Hual, a slim, calm, solid-socking workman, trounce the widely recognized American champion that Schwartz announced from the ring immediately after the decision his permanent retirement from the professional ring.

The first two matches of the tourney, designed to discover the successor to Fidel Labrara as the flyweight king, did little to help solve the problem.

The winners will be paired later, with the ultimate victor promised the recognition of the New York state athletic commission as 112-pound king.

**SCHALK MAY MANAGE CLUB**  
LITTONVILLE, Ill., Nov. 4.—Ray Schalk, catcher for the Chicago White Sox for years and recently released by the New York Giants as a coach, admitted today he was under consideration as manager of the Brooklyn Dodgers.

Schalk's home is here and he started his career on local sandlots.

The skunk is one of the most important fur-bearing animals in the United States.

Weekly dues of 15 cents build a \$1,200-auditorium for 15,000 Flint, Michigan, factory workers.

## Hunters Get Two Birds Apiece On North Side

Dr. W. D. Reynolds, Arthur Holbrook, Clifford Stanton and Lloyd Hill went on a pheasant hunt on the North Side Sunday and returned with two birds each, seven dead and one alive. It is stated the birds were said to be hard to approach.

## Jackie Fields Wins On Knockout Punch

**Battle Witnessed by More Than 10,000 Fans**  
KANSAS CITY, Nov. 4.—Jackie Fields, welterweight champion, tonight knocked out "Dunnies" Mahan, San Francisco, in the second of a scheduled 10-round game.

### CITY COUNCIL NEEDS TIME FOR STUDY OF TRAFFIC REGULATION

Ordinance Proposed to Abolish U Turns at Intersections Goes On Shelf

Taking more time to study the whole question of eliminating U turns at the intersection of Main avenue and Florence street, where two principal traffic arteries meet, Twin Falls city council last evening postponed action on a proposed ordinance to eliminate U-turns at four street intersections within particular blocks of the intersection of Main avenue and Florence street.

The proposed ordinance was drafted by the city engineer and is to be delivered by the council at its meeting next week.

**New Ordinance Provisions**  
The measure included, besides the provision for eliminating U turns at other places in conformity with new state traffic regulations. Among these are:

1. Requiring for sounding horns before entering a "through" street, and whenever the operation of any other motor vehicle is affected; requirement for giving arm signals; but no horn is to be sounded at pedestrian on crosswalks or pedestrian crossings.
2. Requirement for being machine to stop before crossing a sidewalk on entering or leaving a street from alley or private driveway and yielding right of way to pedestrian on the sidewalk.
3. Prohibiting maximum speed limits of 15 miles an hour at school houses in business districts and within 100 feet of an intersection where the view is obstructed, and 20 miles an hour in residential districts; these maximum speed limits to be unenforceable.
4. Prohibiting operation of motor vehicles while under influence of intoxicating liquor or narcotics.
5. Prohibiting following of fire apparatus closer than 500 feet, or parking of cars within a block of a fire or fire apparatus.
6. Prohibiting driveways across sidewalk within 10 feet of intersection with another sidewalk.

**Educational Campaigns**  
In discussion of the traffic problem, it was again suggested that J. E. White, commissioner of public safety, should launch a program of education through the newspapers. The commissioner countered with the statement that he had already proposed to the police chief the issuance of a series of articles dealing with traffic regulations.

Necessity for another campaign of

education was indicated in remarks of councilmen in regard to accident by T. Sanderson, commissioner of streets and waterworks, that provisions must be made for installation of foot-operated traffic lights at the intersection of Main avenue and Florence street in order to avert a condition that he declared, threatened disaster.

Monthly Reports  
Monthly reports on the water works department for the month of October, including receipts and accounts charged to be collected the month in the sum of \$4442.20.

Plumbing Permits  
During the past month, the plumbing inspection office has collected for 22 plumbing permits and inspection of water works installations and water tap services.

**American Falls District To Elect Three Directors**

Call for election for three full three-year terms of three members of the board of directors of the American Falls reservoir district to be held December 17, was issued yesterday by the regular meeting of the board held here, Terms of J. W. Spence, Kimberly, A. F. McClintock, Wendell and A. A. Davis. Five candidates were named.

**Boy Scout Executive Arrives from LaGrande**  
E. Russell Scott, boy scout executive for the Snake river district, accompanied by Mrs. Scott and their little three-year-old daughter, arrived here yesterday from LaGrande, where Mr. Scott has been district scout executive for the last two years. Mr. Scott spent yesterday morning in the headquarters of the boy scouts in the court house and then went to Dunley to visit Pascal Adams, district president.

more than doubled between 1919 and 1928.

### YOUNG MEN UNSCATHED IN WRECK FACE CHARGES

Three young men who escaped materially unscathed from the wreck of a borrowed automobile that was damaged when it plunged off the highway a mile north of Kimberly Sunday evening, pleaded guilty to charges of reckless driving on arraignment in police court here yesterday.

The young men gave the names of Armand McAtley, 22, 1014 East 2nd street; and the other two were not named.

It was stated at the sheriff's office yesterday that the young men were arraigned to make restitution in the sum of about \$200 each to John Maxwell, owner of the car that was wrecked. They were arraigned at the police court here yesterday.

McAtley, believed at first to have been severely hurt, was taken to the county hospital here, where it was ascertained that his injuries were superficial and he was discharged from the hospital to rejoin his companions in jail.

### Twin Falls Attorney Back From California

Turner K. Hackman returned Sunday from San Francisco where he appeared in federal court of appeal in appeal of the independent meat company and Swift and company in an appeal from the federal district court of Idaho in the matter of bankruptcy proceedings of C. W. Simpson. Harry Bennett represented Simpson and company, Twin Falls wholesale grocery company, in the same proceedings. The suit took the matter under advisement.

### Mexicans Deny Guilt Of Possession Charge

Evardo Corvoso and Consuelo Corvoso, Mexican, charged with illegal possession of intoxicating whiskey that is believed to have been the source of a series of disorders among Mexicans in Twin Falls Saturday, pleaded not guilty on arraignment in police court here yesterday. They were indicted to \$500 bond each, which was not furnished and they were remanded to the custody of the sheriff.

Police stated that the liquor was found in a trunk at a lodging house where the accused party were guests.

### ANNOUNCE POLICY

BOISE, Nov. 4 (AP)—The state land board today announced a policy whereby all agricultural lands now held by the state will be sold as rapidly as consistent with good business. Following upon the resolution the board directed J. H. Nash, state land commissioner, to advise the present lessees so they may have a chance to purchase.

# Every Beneficial Act Dubbed "For Revolution" in Mexico

## EVERYTHING OFFICIALS APPROVE GOES DOWN UNDER SAME HEADING

Nov. 5.—(Associated Press Correspondent.) MEXICO CITY, Nov. 4.—Every step taken by the government calculated to contribute to the reconstruction of the country is in the name of the "Mexican Revolution."

Agriarian laws, penal codes, labor legislation, everything tending to advance the welfare of the people and the stability of national affairs is branded as part of the "Revolution."

President Porfirio Diaz recently defined it as "a generous impulse extended to men and women of the country to create a new people, with all classes cooperating."

It is perhaps the most familiar word in common use here when referring to political events, and probably the most abused one. It does not imply a constant military movement, nor a series of military uprisings, but refers to the principles laid down by the men who in 1911 overthrew Porfirio Diaz, for thirty years Mexico's dictator. Since then all governments have claimed to champion the real purposes of the "Revolution," but the claims of some have been refuted by others.

Old Dispute Resolves  
Even now, 18 years since Francisco I. Madero took office as president, the "Revolution" is in dispute. The national Revolutionary party, organized by General Plutarco Elias Calles when he stepped out of the presidency in 1929, holds that it owes its existence to the

ideas that prompted the overthrow of the Diaz regime. Its presidential nominee, Pascual Ortiz Rubio, lauds the administration of Obregon, Calles and Portes Gil as truly revolutionary and promises to carry on their work.  
At the same time, Jose Vasconcelos, anti-revolutionist, says the standard-bearer asserts that the real aims of the Revolution have been lost sight of in recent administrations and promises that if he is victorious at the presidential election November 17 he will revert to the principles that inspired Mexico.

Crisolito Huerta  
Of the various governments that have held sway over the country since Diaz's dictatorship came to an end, that of General Victoriano Huerta is most generally regarded as "anti-revolutionary." All parties and candidates, delight in taking potshots at the brief Huerta rule, while the Venustiano Carranza administration, which also was overthrown by force and its leader slain, is recognized as "revolutionary." Acts of the Carranza government are accepted as legal by the present administration, although it is a product of the Obregonista uprising against Venustiano.

## SCHOOL IN BLACK PINE DISTRICT WINS PRAISE

BURLEY, Nov. 4 (Special to The News).—County Superintendent Marquette Buchanan reports school affairs in the Black Pine district. In the extreme southeastern part of Cassia county, in excellent shape. Though there are only 10 pupils, the trustees have provided a new building with proper heating and lighting arrangements.  
Under direction of Albert Harbold DeLo, their teacher, the pupils have made over the old schoolhouse, a long, spacious log structure, into a very good gymnasium, and have equipped it for basketball playing.

At the time the state specialist was examining school children for meningitis carriers at Astand, Mr. Harbold loaded his charges onto a truck and piloted them to the county seat of the adjoining county for a test. Throat cultures were taken, and all the pupils pronounced free from any trace of meningitis.

Though this school is in an isolated district, with rather desolate surroundings, Mrs. Buchanan expresses herself as impressed with the school, the pupils and the management.

## CASSIA COUNTY MEN PLAN ERADICATION OF COYOTES

BURLEY, Nov. 4 (Special to The News).—Cassia county range sheep men, meeting in the office of the Idaho Wool Growers' association Saturday, elected the following as the predatory animal committee: K. Frank, president; L. E. Harris, vice president; Eugene Pickett; Odell McMurray; W. Matthews; C. H. ...

It was decided to continue a poisoning campaign for eradication of coyotes and other predatory animals along the same lines as last winter. Two men will be employed as poisoners. They will have the assistance of specialists sent in by the federal biological survey. These federal men come in at stated periods and assist in establishing and maintaining the bait lines. Local sheep men in localities where poisoning campaigns are carried on also furnish help.

The poisoning will continue until March, after which the bounty system is to be put into effect.

## BRITISH CONSUL PLANS TO RAISE SUNKEN SHIP

WHEELER, Ore., Nov. 4 (Special to The News).—An ancient teakwood ship, buried in the sands of Almazanita ship, may be salvaged from its age-old grave on beach of the Pacific ocean by men who have become interested in its history.  
Shattered portions of the craft have been seen when winds have swept the sands away.

E. M. Cherry, British vice consul to Astoria, Oregon, became interested in the matter when plans to raise the ship were made, bearing gold, years ago.

GERMAN COAL USE GAINS  
BERLIN, (AP)—Germany's domestic coal consumption, amounting to 197,400,000 metric tons in 1928, was the largest ever recorded.

It is estimated that from 5,000,000 to 10,000,000 one-cent pieces disappear annually.

## GERMAN FINDS CURE FOR SEA SICKNESS

Dr. F. Metzler, Ship Doctor, Publishes Therapeutic Result in Use of Vasano

BERLIN, Nov. 4 (Special to The News).—The results of the treatment of seasickness with vasano have been published by Dr. F. Metzler, ship's physician on the liner Hamburg, who has described his experiences with the drug in cases running over a period of two years.  
Dr. Metzler found that if vasano was administered early enough it invariably prevented seasickness even in passengers who had suffered from the disease for years. In the milder form of seasickness, a few tablets of vasano did the trick, whereas in persistent and more aggravated cases vasano supplemented, were indicated, the curative effects setting in within half an hour and continuing, if not leading to a radical cure, at least 12 hours.

Vasano administered in conjunction with a soporific Dr. Metzler also found highly efficacious. He considers hypodermic injections the ideal form for administering the drug.

## Deer Ride in Grand Canyon Over Deep Canyon

PHOENIX, Ariz., Nov. 4 (Special to The News).—Mr. and Mrs. Deer may have watched in anxiety while eight fawns were transported across the Grand Canyon. They went over in an airplane.  
The fawns were taken from the Kaibab forest on the north rim of the canyon to the south rim. There are more deer on the north side than the winter range will support.

Heretofore, the fawns have been transported each year by truck and it took about 30 hours to make the trip. The eight flying fawns got over in three hours.

Yellowstone national park is visited by more than 200 species of birds annually.

## Air Traffic Agent

ZORA KORINTNIK, St. Louis, is one of the first women air traffic representatives in the country.

## ARLINGTON'S TRAFFIC JAM WORRYING WAR OFFICIALS

WASHINGTON, Nov. 4 (Special to The News).—Burials in Arlington cemetery are increasing at the rate of about 150 a year and the tomb of the Unknown Soldier is rapidly becoming the mecca for the entire nation, the quartermaster general's office has informed the war department.  
With an average of two funerals a day coupled with the hordes of sightseers which swarm over the majestic heights overlooking the Potomac, the war department has a real traffic problem to solve.

Few visitors come to Washington who do not visit the Tomb of the Unknown Soldier. Buses from every state in the union are in the cemetery almost daily. The roads are narrow and winding.  
On April 28, 1920, the next total eclipse of the sun will be visible in California, lasting about two seconds.

## IDAHO DEBATE TEAM FACES OXFORD MEN

Students of University at Moscow to Take Part in International Contest

MOSCOW, Nov. 4 (Special to The News).—Debate against one of the best known debate teams in the world, the Oxford union team from England, is the assignment for three University of Idaho men for November 6, in the first international debate ever held on the Idaho campus.  
The university will be represented by Warren H. Montgomery, Boise; John Lewis, Miles City, Montana; and Paul J. Martin, Boise. Montgomery is an Idaho graduate with the class of 1927, Lewis an outstanding varsity debater for three years. Last year he was principal of the Mountain Home High School. He is now studying toward his master's degree in history.

Being a senior in the college of letters and science, has been a member of the varsity debate team for two years. Martin is the youngest of the three in experience, but he was a place on the team in competitive tryouts. He was a member of the freshman debate team last year.

The question is typically English: "Resolved: That this is the best of all possible worlds." Coach Jasper V. Curdland has not yet announced the captain, who will be well-known man in the Empire.  
The Oxford team is touring the United States, representing the Oxford union, one of the oldest debating societies in the world. While the trio are in Moscow they will appear before the chamber of commerce and a special student body assembly. From Moscow, they will proceed to San Francisco.

Several years ago an Idaho team debated at touring Oxford team at Boise, but the debate next year will be the first international contest ever held on the campus.

The origin of butter has been traced to the Arabian's habit of carrying curd milk in skin bags across the desert.

## Office Building Garages May Solve Parking Curse

NEW YORK, Nov. 4 (Special to The News).—The downtown parking problem in large cities is being solved by providing automobile storage spaces in office buildings. It is urged by Dr. Miller McClintock.

Dr. McClintock, who is director of the Federal bureau of street traffic research, has conducted a study in respect to the American Institute of Architects said office building garages already had been provided in numerous cities.  
Chicago, which utilizes what normally would be the court of the building to a height of 200 stories to provide parking space for 600 cars.

## RAILWAY EARNINGS RISE WHILE RATES GO DOWN

WASHINGTON, Nov. 4 (Special to The News).—Edward E. Loomis, president of the Lehigh Valley railroad, says that \$4,800,000,000 has been clipped from railroad shipping rates in the United States since 1922. "This represents the total amount."

He said, "that shippers would have paid \$100 million in these seven years above what they actually paid had the rate remained at the peak of 1921." Meanwhile, railroad earnings continue sharply upward. The reason, say rail officials, is greater efficiency in operation. The total net income of 180 first class roads during eight months in 1929 was \$277,724,976, says the bureau of railway economics, or \$141,652,245 more than the same period in 1928.

## Priest Makes Replian Of Grotto at Lourdes

RIO GRANDE, Texas, Nov. 4 (Special to The News).—A replica of that famous French shrine, the grotto of Lourdes, has been built of stone and petrified wood by a German priest here.

**DISCUSSIONS FEATURE OF IDAHO SEED SHOW**

Program at Jerome Event Will Deal With Subjects Important to Farmers

JEROME, Nov. 4.—An unusual program has been arranged for the nineteenth annual Idaho state seed show to be held at Jerome November 14 and 15. There will be interesting talks and discussions on those subjects which most deeply concern the Idaho farmer. Potato production and marketing is the subject announced for the morning of November 14. During the afternoon a discussion of problems dealing with the production and marketing of small seed crops will be held. On the morning of November 15 bean production and marketing will be discussed. The afternoon program will deal with general crop production, including small grains, corn, beets and other crops. There will be an evening meeting on November 14, 7-9 o'clock, the cooperative marketing of Idaho products will be discussed. This discussion will be held by Dr. Paul A. Eke, economist for the University of Idaho agricultural experiment station. Dr. Eke will open the meeting with a short talk on the new federal farm board act in its relation to cooperative marketing. Representatives of cooperative organizations of Idaho are invited to enter into this discussion. The Sunday evening services at the Presbyterian church, were in charge of the Oulda. Mrs. Ruth Spurling led the devotional. A musical reading, "The Mansion," by Henry Van Dyke, was given by Miss Mabel Kenney, accompanied by Mrs. H. Elaine Shoin. There was also special music. Mr. and Mrs. Arthur Moseley are the parents of a boy born last Saturday at St. Valentine's hospital, Wendell.

**POCATELLO SCHOOL DEAN VISITS MOSCOW CAMPUS**

POCATELLO, Nov. 4 (Special to The News)—Dean and Mrs. John R. Dyer left for the University of Idaho at Moscow early Saturday morning by train where Dean Dyer will become acquainted with the northern campus. While there Dean and Mrs. Dyer will be guests of President and Mrs. Frederick J. Kelly, and will attend a reception in honor of the new faculty members Tuesday, November 5. Dean Dyer will also meet with university officials and faculty members, and hold conferences with those whom the southern branch of the college business, including Dr. M. P. Angell, former executive dean of the university here. En route home Dean Dyer will attend the northern Idaho teachers' convention at Lewiston, November 7, and the southern teachers' convention at Boise November 8 where he is scheduled to speak. From Boise, short stops will be made at the Albion Normal, Gooding college and College of Idaho, and many high schools in southern Idaho will be visited before returning to Pocatello November 10 or 11. Dean Dyer's classes in psychology will be instructed by Miss Ethel Redfield, Miss Josephine Hrossard, and Victor E. Jones.

**RUPERT CHAMBER CLAIMS ROUTING DISCRIMINATION**

RUPERT, Nov. 4 (Special to The News)—Protesting that South Central Idaho towns were being discriminated against by unfavorable routing tariffs, the Rupert Chamber of Commerce, meeting Friday night, named a committee to take the matter up with chambers of Burley, Twin Falls and other cities in an effort to bring the matter to the attention of the interstate commerce commission in Washington. W. W. Newsom, local produce shipper, in bringing the matter to the attention of the Rupert chamber, charged that under the present tariff all produce and livestock shipped from the Idaho Falls section to California points must be routed through Utah although a saving of 12 miles could be made by routing through Rupert, Burley and Twin Falls to Wells, Nevada. "This section of Idaho is being deprived of its interstate marketing business seemingly without any justification," Mr. Newsom stated, explaining that freight shipped from the northeastern part of the state to take the shorter route through this section must pay local freight to Rupert and then local freight to California, no through rate applying whereas the through rate applies via Ogden, the longer haul.

**Girl From Twin Falls in Charge of Gooding Event**

GOODING, Nov. 4 (Special to The News)—The Associated Students of Gooding college sponsored the second annual month-week-end night. The annual Halloween party was a costume affair with all the apes, and apirls of the season represented and an unusual program.

**PHILIS EVANS, Twin Falls, was general chairman. Assisting Miss Evans were Missan Melton, Rose Springs, chairman of the entertainment committee, Zella Johnson, Hansen, chairman of the decoration committee, and Lucille Regan, Twin Falls, chairman of the refreshment committee.**

Two thousand farm homes will be served by 60 new transmission lines to be built in Alabama in 1930. The United States supplies 80 per cent of the electrical goods placed on the Cuban market. Scores of printing machines from the United States for the eight months ending in August were valued at more than \$11,500,000.

**Majestic RADIO**

"Now Again the Public Benefits by Increased Majestic Economies" . . . Wm. O. Grunow

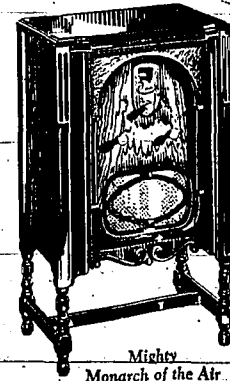

CONSISTENTLY, day in and day out, month in and month out, Majestic has produced up to 6,000 radio-receiving sets per day, until nearly 2,000,000 people now own a Majestic radio. MAJESTIC is the only concern in the world with such a record. It is the only concern in the world with the facilities to build such tremendous production. IN THE EIGHT great Majestic plants, employing more than 15,000 people, economy of operation is a scientific study. Under expert guidance, Majestic has literally been able to improve the unimprovable. By constantly checking and rechecking every minute operation of production, Majestic has effected economies that at one time were thought impossible to attain. MAJESTIC'S POLICY has always been to pass on to its dealers and the public the economies made possible through

increased production over a long period, and through improvement of that production. AGAIN, therefore, Majestic is enabled to assert its leadership by offering the public sensational savings in the purchase of the best radio set that money can buy. Note these new low prices, and remember that you are buying a Majestic set, the standard of value, at the price named, only because of the production job that the whole world is still talking about. REMEMBER, too, that in its own factories, Majestic makes from raw material every part and parcel of its radio sets, including its own tubes. For the greatest enjoyment from your Majestic set, and for the perfect reproduction which you are assured of with Majestic tubes, be sure to insist that your dealer equips your set with Majestic tubes.

**Buy at these Sensational New Prices!**

# The DEVIL'S MANTLE

By Frank L. Packard

Jaffray drew his brain functioning abnormally in his last agony, might have accepted the impression that was perhaps cunningly being thrust upon the murderer for instance, whispering: "So I answer to Peter Blake's description do I? Well, I am Peter Blake! That would have done it. But the pre-supposed that Jaffray had spoken of the resemblance to some one else besides Captain Mumm, himself, Peter Blake, in the cabin the night before last. Why, why not? It would have been natural enough. But did it go any farther? The reward of five thousand pounds didn't enter into it, did it? Jaffray, could you claim the reward? Would the murderer stop forward to claim it? Quite absurd. Nevertheless Jaffray's reference to the reward on that paper that dying statement as genuine. But if Jaffray knew that Alee Dunn was Peter Blake, why had he waited to be murdered? He was to be the first—why hadn't he promptly gone to Mr. Garth, to Captain Stone, to anybody to whom he ever found out that the fact had been found out? Was it only the murderer who had found out and who had written that paper? Or was it the murderer who, in his desperation of Peter Blake, had shifted the crime from his own shoulders had made Jaffray believe he was being then, as Rand had suggested, had managed to reach the table and across those words?

Somebody had discovered that Alee Dunn was Peter Blake—whether Jaffray or the man who had killed Jaffray. But how had that discovery been made? How? And who had made it? And why had Jaffray been killed? What was the motive? What was the reason? Why had Jaffray been murdered? Humphrey Garth knew, Marion knew, all the world would know by now! How could there be any question about it? Jaffray had found out that Peter Blake was masquerading as Alee Dunn, so Peter Blake had killed Jaffray to mark himself from exposure and arrest for the murder of Tom Morehoun—a crime for which he was being hunted by the law. But Peter Blake had not killed Jaffray. Another three—perhaps—back to the origin—another three.

Martin believed he was being hunted. He would have ever cared; in time, would he have come to care—as he would? An inner voice answered him: "Yes!" He relaxed itself fiercely, challengingly, defiantly. "Yes!" It had been dancing in her eyes, her voice, her smile that night when he had been together up there on the deck—and he had led her, clinging despondently to her, his might not crumple out forever, in horror and awe, in the glory of a great promise that in his fulfillment would hold all that was tender.

She: "the thought of her—that it was that made him flinch, wasn't it? It wasn't that he never wanted it, love for her had never come into his life; he could have faced the world, in a sense contemptuous of the world's verdict, and in the end have accepted the glorying from the shame and the brutal unfair-

LADIES AID SOCIETY MEETS AT HAZELTON

Church Organization Picks Mrs. H. K. Belmont for Office of Vice President

HAZELTON, Nov. 4.—The Ladies Aid society of the Presbyterian church met Wednesday afternoon at the home of Mrs. W. Mitchell with Mrs. Will Coplin, president, in charge. The business session was held by the resignation of Mrs. John...

Associated Press Photo

A SCENE ALONG Wall Street, as tense and curious throngs gathered when the market opened Monday. Experienced sweepstake men were seen exchanging the New York stock exchange. Leading bankers checked the sickening drop of stock prices. The meeting included W. C. Foster, president of the Guaranty Trust company; Thomas W. Lamont, senior Morgan partner; and Charles E. Mitchell, chairman of the Chase National bank.

750 MILES PER HOUR IN AIR PREDICTION

French Aviator Pioneer Predicts Amazing Advance in Speed of Airplanes

PARIS, Nov. 4.—Airplanes will fly 750 miles an hour with ease in a not far distant future, declares Louis Bleriot, the aviator pioneer and first to cross the channel between France and England. Mr. Bleriot considers the speed planes of today—those in construction—with too many impediments, especially the floats on sea seaplanes. He sees five engine planes which will be much more powerful and will draw the planes from the earth with a rapid pull. The problem of how to bring these speed planes back to earth will, says Bleriot, be solved by a parachute. In order to stop a plane flying at such speed the aviator will cut off the engine and cause the plane to ascend. When at last it slows up sufficiently, he will spread out a huge parachute and come slowly to the ground.

Eagle Picks Up Boy; Carries Him 10 Feet

ROMEBET, Ky., Nov. 4.—George Mercer, 6-year-old son of Mr. and Mrs. W. T. Mercer of Smith was carried 10 feet in the air by a huge bald eagle and dropped. The bird swooped down on a hillside where George and four other lads were playing and seized him by the straps of the aviator with its talons. George's weight 50 pounds, he was unhurt.

POSTOFFICE FROWNS ON AIR MAIL FEVER

Judicious Use of Service Urged by Postmaster General Walter F. Brown

WASHINGTON, Nov. 4.—Judicious use of the air-mail service is urged by the postmaster general, Walter F. Brown, who does not approve the "shoo-hoo-campeter" destined to influence the public to make air mail the "air." "Our reasons are two," Brown said. "First, impractical use of the air mail service is not good business for the mailer; and second, it is not good business for the department. He estimated that 85 per cent of the mail carried does not require extraordinary speed, and pointed out that in many cases a letter sent by air mail between nearby points—between many points not on an air line, will go just as quickly by train. The advantage of sending business mail between distant points by air was emphasized by the postmaster general...

Farmers Will Operate Giant Irrigation Project

MERCEDRES, Calif., Nov. 4.—Farmers of the Rio Grande valley have moved to take over the largest privately owned irrigation system in the world. More than 100,000 acres of land which produce nearly one-third of the valley's stock, crops of fruits and vegetables, are included in the project that is to pass into the hands of farmers using it. Formerly it was operated by the American Rio Grande Land Irrigation company. Partners voted to issue bonds and take over control of the system after the company announced increases in its rates.

Nature Has Edge For Cheap Flying

BERKELEY, Cal., Nov. 4.—From the standpoint of economy in flying, birds still will have it on man and his mechanical contrivances until a plane is developed which will fly 20 miles on a pint of gasoline. That is the observation of Mrs. O. Fritz Kelly-Alamesa naturalist, who has found from study that the golden plover frequently makes several long hops of 2,000 miles on two ounces of fat.

GOOD MUSIC AIDING IN TRAINING YOUTH RIGHT

INDIANAPOLIS, Nov. 4.—Good music makes boys good, J. B. Vandenberg is convinced after building character with a baton for 29 years. Since 1908, as superintendent of the Newberry band of the Indianapolis News, he has used music to lure street urchins, boys with root homes and boys without any homes, to accept his teachings. A splendid musician himself—he plays every instrument used in band work—he has found the idea highly successful. Seven of the boys are in the state music camp under the direction of the newspaper center. Successful business executives, engineers, physicians, judges and business men, are some of those who have been taught by playing various instruments. The band has 40 pieces and approximately 400 boys are kept in constant training. Instruments are furnished. Group instruction is given three times a week. Private lessons occupy the rest of the day. "I do not care if I turn out good musicians or no," he says. "The land won a prize in a national concert and assists in many civic and state affairs."

HUNTERS NOW CAN CHECK AIM WITH NEW CAMERA

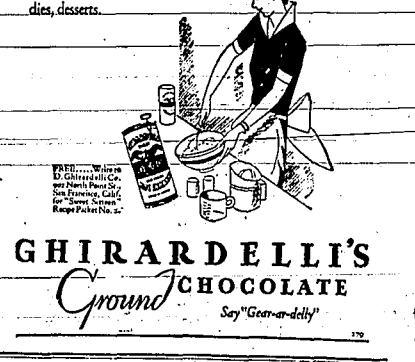

PARIS, Nov. 4.—"Shooting" game both with lead and a camera, now enables one to correct faulty aim. A small camera, the size and shape of a pocket camera, is mounted on the end of a gun barrel. Pulling the trigger fires a shot and opens the camera shutter. A picture is taken about the time the shot is half way to the bird. Allowing for the dip of the bird during the ensuing fraction of a second, one can determine what fault there may be in aiming.

HAZELTON, Nov. 4.—The Ladies Aid society of the Presbyterian church met Wednesday afternoon at the home of Mrs. W. Mitchell with Mrs. Will Coplin, president, in charge. The business session was held by the resignation of Mrs. John... Mrs. H. K. Belmont was elected to fill the vacancy for the remainder of the term. Plans for the Harvest dinner to be given Monday evening in the church were discussed and the meeting adjourned. Following adjournment the ladies served dainty refreshments. Mrs. A. A. Finkbeiner has returned from Oakland, California, where she visited at the home of her sister, Mrs. Ruth Brown, and family. The attendance at the eighth grade was 105, the ninth 110, the eighth 100, the seventh 100 and the sixth 100. The eighth grade was held at the home of Mrs. J. B. Belmont on Friday afternoon at the home of Mrs. J. B. Belmont. Mrs. Arthur Bales was co-ordinator of a surprise party Thursday evening at the home of Mrs. J. B. Belmont. Ralph Butler, at Kimberly. Mr. and Mrs. Olin Turner are house guests at the J. J. Kelly home for several days during the last week. Mr. and Mrs. Turner are former Hazelton residents and are now located at Boise. The members of the Ladies Aid society entertained at a surprise luncheon at the home of Mrs. J. B. Belmont. Mrs. Dawson Baine, president of the organization, who is leaving for Arizona where she will spend the winter with relatives. The afternoon was spent socially. A list of home-made handicrafts was presented to the honor guests at the close. Twenty-two members attended the affair. Mrs. Clark Brooks was taken to the Twin Falls hospital Sunday where she was operated upon for appendicitis. At a recent meeting of the American League Auxiliary Mrs. A. K. Keeler was elected president for the ensuing term. The Past Noble Grand Master, Mrs. J. B. Dickson. W. W. Slokoberg of the Hazelton high school and W. J. Keeler spent Saturday and Sunday fighting at the Magic dam. Fay Young, son of Mrs. Olyn Baine, painfully cut his foot Friday while at work cutting willows on the ditch. Mr. Weatherly and family returned Tuesday from a visit of two weeks with friends in the northern part of the state. Mrs. Victor Keeler and family and several friends at the H. Kerlock home Wednesday evening, complimenting her husband, Finckel who is the diversion of the evening. Mrs. J. J. Olsen, Mrs. Mel Roylance and Grant Reynolds left Saturday morning for Salt Lake City where they will visit relatives and friends.

CHICAGO, Nov. 4.—Clarence Darrow, famous criminal lawyer, is 22 years old now, but his temper is years younger. He is getting more complacent every day. He is adding to his list of "pleas" the time which goes to the judge quickly out of me is the responsibility of my past, who seeks my punishment according to his idea!

Cocoa's convenience—Chocolate's flavor

Everyone likes the full, fine flavor of chocolate—just as everyone who cooks likes the simple convenience of Ghirardelli's Cocoa's powdered form. Ghirardelli's Ground Chocolate combines them both—true chocolate flavor in one form for beverage, cakes, icings, candies, desserts.

**TRADE IN OGDEN**

It pays you to trade in Ogdén because Ogdén merchants, professional people, financial institutions, manufacturers and tradesmen are the equal in skill and experience of any to be found anywhere... because their goods and services are nearer to you in point of miles than others in cities as large as Ogdén... because your time is valuable and because, provided your dollars go as far here as elsewhere, a saving of time is actually a saving of money... Finally, because Ogdén goods and service are priced as reasonably (often more so) and in larger variety than in smaller communities.

Ogdén, remember, is the real trade center for many important lines in the Intermountain Region. Its position as the industrial and commercial gateway to this vast area is quite secure, not only through geographical location, but through the energy and enterprise of its citizens. Ogdén's buyers are aware of your needs, because they are life-long residents of this section. Ogdén's business people are progressive. They have placed at your disposal the finest quality goods, the best facilities and equipment and the best of personal training. You'll find, eventually, that it pays to trade in Ogdén.

STOCK TICKER LATEST THING ON GOLF COURSE NEW YORK, Nov. 4.—The stock market has finished the past week one of the few remaining refugees where a business man can forget about profits and losses. The stock exchange firm of E. F. Hutten and company established a temporary branch in a tent at the end of the 14-hole course at Pebble Beach, California, for the convenience of players and spectators. The enterprise proved so successful that discussion has started in brokerage circles about the possibility of following up the same idea in other directions. Recent changes in stock exchange rulings, which permitted the opening of branch brokerage firms aboard ocean liners, simplified the task of traveling traders, no matter where they might be abroad, of transactions on floor of the exchange. UNITED STATES DEVICES SPEED OFFICE ROUTINE MINNAPOLIS, Minn., Nov. 4.—The South Central division, comprising Alabama, Kentucky, Tennessee, Mississippi, Louisiana, Oklahoma and Texas, reported the greatest mid-summer rise in electrical power production of any section in the country. The department of interior puts the average increase during the second half of 1928, compared with July, 1928, at from 21 to 25 per cent. The region showing the second largest increase was New England, followed by the middle Atlantic, the Pacific, the west north central, east north central, and the south Atlantic. CHICAGO, Ill., among individual states with a rise of 28 per cent in July over previous year. The states showing the sharpest declines for the same period were Delaware, with a 48 per cent drop, and Arkansas, down 52 per cent. Clarence Darrow, 72 But Young in Temper CHICAGO, Nov. 4.—Clarence Darrow, famous criminal lawyer, is 22 years old now, but his temper is years younger. He is getting more complacent every day. He is adding to his list of "pleas" the time which goes to the judge quickly out of me is the responsibility of my past, who seeks my punishment according to his idea!
