MACDONALD PILOTS LABORITES THROUGH LEGISLATIVE CRISIS

House of Commons Defeats Conservative Amendment Rejecting Mines Measure and Saves Government

(By The Associated Press.)
LONDON, Dec. 19.—Ramsay MacDonald's Labor party cabinet was saved from a possible resignation tonight when the house of commons defeated a Conservative amendment rejecting the coal mines bill by the narrow margin of eight votes.
The vote was 281 against 273 in favor of giving the bill its second reading.
The division of the house climaxed the first serious crisis that has confronted the administration. Triumph of the Conservative amendment would have defeated the measure, which is one of the chief projects of the government. The bill was framed to meet campaign purposes.
Liberals Serious
The narrow margin of victory was due to a lessening of government support which hitherto has come from the benches of the Liberals under the leadership of David Lloyd George. The Liberal's objectives had been to support the amendment, but it took exception to only a few of the principal features of the bill and the Conservative majority threatened to support the amendment.
In the debate that preceded the vote Lloyd George denounced the bill as "vicious and as likely to raise the price of coal to the consumers." "But he indicated that his party would not oppose the amendment if MacDonald would assure them that opportunity would be given to deal with unsatisfactory aspects of the measure while the bill was still in the committee stage.
"In closing the debate the prime minister agreed to consider the Liberal objections in committee. Despite this concession, Lloyd George and a number of other cabinet members voted against the cabinet in the division.
Lead Cheers From Labor
Lead cheers came from the Labor benches when the result was certain, but these were drowned by cries of "re-again" when the official figures disclosed the slim margin of government support.
Examination of the ballot showed there were sufficient abstainers among the Liberals to account for the Laborites winning. Only two of the 43 Liberals in the house voted with the cabinet. The total Liberal membership is 58. The eight Independents split evenly, four to four.
The cabinet vote was made up of 273 Laborites, four Independents and two Liberals, and the government was made up of 223 Conservatives, 41 Liberals and four Independents.

Worst Blizzard In Last 10 Years In States Of Middle West Delays Transportation

Flivver Plows Horse Out Of Snowdrift and Then Requires Aid of Animal

CHICAGO, Dec. 19.—The old grey mare played "Androcles and the lion" today. She rescued her rescuer.
The flivver squad, cruising through the blizzard, found her snowbound and deserted in a drift. She stood almost unnoted in the swirling dune of snow.
The squad tilted the car to the old grey mare and hauled her from the drift.
Two blocks from the station the flivver eased into a drift and stalled, the car being the horse. The old grey mare took her place in the life-line and hauled the stranded coppers out. Now she has a new warm berth at the police garage.

CHINA COMPLAINS OF RUSSIA'S INVASIONS

Statement by Government Officials Charges Soviet Leaders With Bad Faith

SHANGHAI, Dec. 19.—China's Nationalist government charged tonight that Russia was continuing military attacks upon the Manchurian border and invasion of Chinese territory, notwithstanding that preliminary Russo-Chinese negotiations had begun at Khabarovsk for settlement of the Chinese Eastern railway controversy.
The Chinese statement, made through the government's Kuomintang News Agency, asserted that Russia was guilty of bad faith in seeking by military expedients to permit the Russian forces to penetrate the territory occupied by Russians, blocking efforts to permit the Chinese to reoccupy the Soviet forces took armed possession Russian troops in armored trains patrol the Chinese Eastern railway in northwest Manchuria, says China, and Russian cavalry has headquarters at Khabarovsk.

Best of Horse-Drawn Fire Engines Brings \$105 at Gotham Sale

NEW YORK, Dec. 19.—The last of the old horse-drawn fire engines which won the glory of the New York fire department was sold at auction today to a junk man for \$105.
Fifteen years ago when it went thundering down the street, it carried five horses. It was worth between \$7000 and \$8000.

Sleeping Watchman Gets Blame For 15 Fatalities

BARCELONA, Spain, Dec. 19.—A sleeping watchman was blamed by civil authorities for a collision in which 15 persons were killed and 16 injured when a passenger train hit an auto-bus today at a grade crossing between Santa Sadurni Denoya and Geliada. Every passenger in the bus was killed. Their bodies were scattered to pieces. The locomotive was damaged but no one on the train was hurt. After an investigation the police arrested the crossing watchman, charging he was asleep as the bus approached the crossing.

Idahoans Confer With Member of Farm Board

SACRAMENTO, Cal., Dec. 19.—A delegation of four Idaho agriculturists arrived here today to confer with C. C. Teague, California member of the federal farm board, in means of securing government aid for cooperative marketing agencies in their state. Teague is in Sacramento attending a fruit growers and farmers convention.
The Idaho party included: H. B. Gardner, president of the Fruitland, Idaho, Fruit Growers' association; M. Thode, director of the Idaho State Board of Horticulture; H. A. McMillin, president of the Idaho State Fruit Growers' association; and W. L. Dean, director of the Idaho state bureau of plant pathology.

Trains Creep Along Hidden Tracks Two to 12 Hours Late and Air Lines Keep Planes on Landing Fields

Snow Stops Falling After 36 Hours But Cold Winds White and Grim Reaper Claims Score of Lives

(By The Associated Press.)
CHICAGO, Dec. 19.—Snow no longer falling, but the blizzard in a decade, the Middle-West took a tingling red nose outdoors somewhat hesitantly today, but buttoned its overcoat and tried to get to work.—Success of a sort was attained, but not without gulches, snowplows, double-header trains, wrecking crews, acid-chains and numerous other accessories of progress.
The snowfall itself was the heaviest since 1926, the government weather bureau reporting it measured more than 14 inches. Added to this was the driving wind which piled it high in drifts, demoralizing all transportation. Trains were long hidden tracks, running anywhere from two to 12 hours late. Street cars, if running at all, had no semblance of a schedule. Auto-tourists plowed forward slowly, when they could.

FLIERS HOP OFF IN SEARCH FOR EISELSON

Two Intrepid Airmen Last Seen Speeding Across Strait On Way to Siberia

NOBE, Alaska, Dec. 19.—Pilot Joe Crosson and Harold Gillin hopped off today from Teller, Alaska, for Siberia in the search for Pilot Carl Bert Eiselson and Mechanic Earl Borland, lost since November 9 somewhere in the vicinity of North Cape. They were last seen speeding across Bering strait and it was believed they had reached the mainland.
Crosson and Gillin were in sight for an hour and a half after they took off and their plane seemed to be functioning well. There were fog banks over the strait far out from shore.
Two Pilots to Follow
Pilot Ed Young and Ehrhlich are to follow tomorrow, if weather permits, with two planes carrying gasoline and supplies for the fliers who have preceded them. The present plan is to establish a base in Siberia so that planes engaged in searching for the missing man will be able to cruise over a greater area. Supplies at the base will be replenished as used by planes operating from Alaska.
North Cape, where Eiselson and Borland are believed to have been forced down, is 500 miles from Teller and the long flight requires such a quantity of gasoline that there would be little left for scouting. The men were attempting a second trip to the Nanuk fur trading ship, ice bound at North Cape when they were lost. Eiselson and Frank Dorshank, another Alaskan flier, made one trip to the Nanuk.

EMMETT JUDGE PONDER'S OVER ALLEGED HOMICIDE

EMMETT, Idaho, Dec. 19.—Probable Judge W. T. Orzech had not decided tonight whether to bind John T. McClurg over to district court for trial on the charge of murdering his wife before their car burst on a hill road west of Emmett.
McClurg's preliminary hearing, begun yesterday, was continued at night and concluded this morning with more testimony from one of the physicians who had examined the body of the woman.
The defense contended at the close of the hearing that although effort had been made to show possible motive, the state had produced no evidence that the woman's death was other than accidental.

WASHINGTON, Dec. 19.—Secretary Ramsay McDonald's proposal to abolish battleships has reached the admirals' club.

Hickman Captors Sue City

LOS ANGELES, Dec. 19.—The dispute over the \$100,000 reward offered by the city of Los Angeles for the capture of William Edward Hickman, slayer of 12-year-old Marion Parker, was projected today by the filing of a suit for \$100,000 against the city by T. B. Gurdane and O. L. Llewellyn, Oregon police officers, who captured the slayer.

OKLAHOMA CONVICTS DIG MINERS' GRAVES

MCLESTER, Okla., Dec. 19.—Convicts from the state prison here were drafted today to dig the graves of 59 miners who perished in an explosion in the Old Town coal company mine here Tuesday and Saturday. Convicts were supplied at reduced prices and cemetery lots given by the city of McAlester.

While Prisoners Labor In Cemetery Authorities Launch Investigation

Following a check of the bodies in the morgues, William Duvall, foreman of the mine, said he believed that two more bodies lay hidden in the dark passages from which the others were removed by rescue crews, and a search for them was planned for tomorrow.
The state prison authorities, James and Harry Allison, the latter a convict, two of the funerals were held today, but most of them have been set for Saturday and Sunday. Coffins were supplied at reduced prices and cemetery lots given by the city of McAlester.

Package Left by Man at Bureau Contains \$63,000 In Bonds Lost by Texan

NEW YORK, Dec. 19.—A package containing \$63,000 worth of New York City bonds, lost eight months ago in a suitcase by its owner, Mrs. Ida Rodam, Austin, Texas, was found in it at the lost and found bureau in the Pennsylvania railroad terminal today by an unidentified man.
"Here is a package I found," the man said, and walked away from the window.

Storm Forces Air Mail Planes to Wait in Boise

BOISE, Dec. 19.—Storm conditions completely interrupted air mail service west of Boise today, though planes kept regularly between here and Salt Lake City. Between here and Portland mail was carried on trains. Resumption of flights both ways by night planes was contemplated. It was said at Varney air mail headquarters.

GOVERNOR OF TEXAS URGES STIMSON TO AID IN OPENING PORT

Moody Expresses Hope Washington Will Not Let Mexico Close Consulate and Still Profess Friendliness
By The Associated Press.
AUSTIN, Texas, Dec. 19.—Governor Dan Moody, in a telegram today to Secretary of State Stimson, expressed the hope that the general government of Washington "has a policy with reference to foreign relations that will not permit the Mexican government to profess friendliness toward the United States and at the same time offer the affront of closing the door at one of the principal ports between the two nations."
Governor Moody's telegram was in reply to Secretary Stimson's message advising the governor that he understood the action of the Mexican government in closing the consulate and port at Laredo "was not in any sense an attempt at retaliation for a single incident but because the Mexicans feel that from several incidents arising over a considerable period of time Laredo is a safe point for their public citizens to pass in traveling."
It was Governor Moody's second appeal to Secretary Stimson's message advising the governor that he understood the action of the Mexican government in an effort to have the consulate and port reopened.

BUSINESS MEN MOAN

LAREDO, Texas, Dec. 19.—Willie Weinger, the witness related to the federal enforcement officers.
William Barrens, miner, said he "tipped off" two days ago, agents, who had several other arrests. Barrens added he was later imprisoned on an assault charge. With the approval of Sheriff R. E. Weinger, the witness related to the other prisoners told a blanket over his head and beat him severely.
Then the sheriff told federal officers that he "got their good piece" and wanted them to leave his county. Barrens affirmed. Other high lights in the liquor conspiracy trial of 28 persons were:
—Testimony that Mullin city officials passed an ordinance to license liquor sales and vice.
—Testimony of M. D. Needham, former police chief, that he protested the ordinance from run dealers, gambling hall proprietors and inmates of vice dens, at an average rate of \$25 per month.
—Testimony that this money was not given to the sheriff, but was used for legitimate municipal purposes.
—Testimony that county officers warned bar tenders of federal raids.
—Statements by government witnesses that their lives had been threatened, making it necessary for them to carry guns, and for the United States marshal to guard them.
Late local defense attorneys sought Barrens' admission that he was to receive \$100 for giving testimony damaging to the defense. His story was that the sheriff threatened to railroad him to the penitentiary if he did not keep quiet was not shaken, however.

POISONED FOOD HALTS 23 GIRLS ON WAY TO HOMES

KANSAS CITY, Dec. 19.—Twenty-three girls students of Slesphig college, Columbia, Missouri, en route to their homes for the Christmas holidays, were given medical treatment tonight for food poisoning or their arrival here.
The most seriously ill were Miss Mildred Hoggatt, 18, Longmont, Colorado; Miss Evadne Lewis, 17, La Junta, Colorado; Miss Helen Cox, Cimarron, Kansas, and Miss Katherine Patton, Woodward, Oklahoma.
Box lunches were given to the girls this afternoon to be eaten on the train en route to their homes. Each of the girls said she had eaten ripe olives placed in the lunches.

GOOSE BITES CHRISTMAS SHOPPER ON STREET AND SATISFIES NEWS NEEDS

ST. LOUIS, Mo., Dec. 19.—When a goose bites a Christmas shopper, it is also news.
A live goose was carried along a street in a paper sack, only its neck and head protruding.
A woman shopper brushed against it. The goose, judging from its behavior in the season of good cheer, bit and realized with a snap of its long beak. The victim screamed and a "goose" around to see who had pinched her.
"You goose!" she exclaimed looking at the woman carrying the sack.
"Yes, my goose," the owner admitted, pointing to the fowl.

WITNESS AT COEUR D'ALENE TRIAL TELLS OF SUBMITTING TO "THIRD DEGREE"

COEUR D'ALENE, Idaho, Dec. 19.—Witness in the Mullins run ring conspiracy trial here charged on the witness stand today that he was "given the third degree" in the Shoshone county jail because the sheriff objected to federal enforcement officers.
William Barrens, miner, said he "tipped off" two days ago, agents, who had several other arrests. Barrens added he was later imprisoned on an assault charge. With the approval of Sheriff R. E. Weinger, the witness related to the other prisoners told a blanket over his head and beat him severely.

WASHINGTON, Dec. 19.—Improvement fire protection facilities in national forests was sought in a bill introduced today by Senator Wheeler, Democrat, Montana.

OREGON CRASH ENDS LIVES OF TWO MEN

OWYHEE, Oregon, Dec. 19.—A four-ton rock skip, swinging wildly in the narrow canyon soon to be filled by a gigantic dam, last night smashed into a rock car, killing one man and hurling another into the canyon where he was so badly injured that he died this morning.
The dead are:
W. C. LINDSEY, 21, Owyhee, killed instantly.
B. L. WEST, 25, Baker, Montana.
The latter died in the Holy-Rosary hospital in Ontario.
The men were working for the General contracting company which is building the 480-foot high reclamation dam in the black slit carved in the lava rock on Owyhee river in southeastern Oregon.
The men were believed to have been riding the car when the heavy skip struck it and turned it over, crushing the car. Lindsey was killed when he was hurled into the canyon where he was so badly injured that he died this morning.

Idaho Supreme Court Holds Four-Year-Term Amendment Null Because of Ambiguity

HOIST, Dec. 19.—The Idaho supreme court today determined that the four-year term amendment to the constitution was not legally adopted and that state officers—therefore—hold their offices for only two years.
Ruling on only one question raised in the contest of the validity of the amendment, the court decided that the voter could have been misled by the use of the phrase "limited to four years" on the ballot, while in fact the resolution intended that the wording of the constitution should be changed to provide definitely for a term of office for the present two-year term to a four-year term of office without reference to repeated terms.
In a brilliantly written opinion, Justice T. Bailey Lee expressed the unanimous opinion of the court that the wording on the ballot could only lead to confusion in the mind of the voter.
Contest On Court Order
The contest was brought in the name of the voters, and an order from the supreme court to compel the secretary of state, Fred E. Lukens, to call an election for next fall, according to the unanimous opinion of the court, was issued by the supreme court.
In the attack on the amendment it was contended that a question submitted to the voters was misleading, ambiguous and directly in conflict with the amendment proposed; that the amendment had been inserted in the journals of both houses of the legislature; and that it was not retroactive.
Court Rules on Ambiguity
The court ruled only on the question of the validity of the amendment to the voters, as "in view of the conclusion reached, it is not deemed necessary to pass upon the merits of the remaining objections."
After quoting the proposed amendment to the voters, the court declared that the amendment was not expressly fixed the term of office as a period of four years, thereby extending it from this then period of two years to four, the question submitted to individual voters was whether or not the term should be merely limited to that duration, leaving the actual time of incumbency undetermined.
The question immediately arising as addressed to the significance of the language that confronted the voter, on the ballot, could be, by attributing to the word "limited" its ordinary meaning in common parlance, have understood that a successful candidate might under such amendment hold office for two years, but the amendment submitted to the voter was whether or not the term should be merely limited to that duration, leaving the actual time of incumbency undetermined.

Answers Defendant's Claims
Answering the claim of defendants of the amendment that publication of the amendment had cured any defect in the question as given to the electors, the opinion insists that "the character and purpose of the amendment fixing the term of office of the electors is included in the question."
"Under the law," the opinion stated, "the only method of submitting a public question to the voters is by the use of proper ballot advising him directly or by general reference to the actual issue to be determined. And, how was the amendment published to the voters? The amendment was published in the journals of both houses of the legislature, and that it was not retroactive."

Northwestern Conference Adopts 1930 Gridiron Schedule

Portland College's Petition Goes Over Until Next Meeting

Columbia University's Application to Regular Standing to Be Decided at End of 1930

(By The Associated Press) PORTLAND, Dec. 19.—The petition of Columbia University of Portland for admission into the Northwest intercollegiate conference was deferred for another year by members of the conference in a annual session here today. Columbia obtained four games with conference members, however.

Members of Columbia's application occupied the entire afternoon session today. At the conclusion the following statement was issued: "Columbia University was asked to maintain itself under the conference rules for one year and at that time final action will be taken regarding the application. Columbia a year ago was asked to govern itself by the rules of the conference but failed to comply fully with them, the conference officials said."

Election of faculty member officers for the ensuing year was held at the morning session. Charles A. Robinson, College of Puget Sound, was elected president, and Paul Murphy, College of Idaho, secretary-treasurer. Robinson held same position last year.

The football schedule was drawn up as follows: College of Idaho—September 27, Washington State at Pullman; October 18, Willamette at Caldwell; 25, Pacific at Caldwell; November 1, Linfield at McMinnville; 11, Whitman at Walla Walla; 27, Brigham Young university at Boise.

College of Puget Sound—September 27, Navy team at Tacoma; October 4, Bellingham normal at Tacoma (tentative); 25, Willamette at Salem; November 1, Washington at Seattle; 8 Columbia at Portland; 22, Pacific at Tacoma.

Linfield—October 11, Pacific at Forest Grove; November 1, College of Idaho at McMinnville; 11, Willamette at Salem; 22, Columbia at Portland.

Willamette—September 23, Oregon State at Corvallis; October 11, Oregon at Eugene; 18, College of Idaho at Caldwell; 25, College of Puget Sound at Salem; November 11, Linfield at Salem; 15, Pacific at Forest Grove; 22, Whitman at Salem.

Pacific—October 4, Columbia at Portland; 11, Linfield at Forest Grove; 25, College of Idaho at McMinnville; November 1, Whitman at Forest Grove; 15, Willamette at Forest Grove; 22, College of Puget Sound at Tacoma.

Whitman—September 27, Washington at Seattle; October 4, Idaho at Moscow; 18, Washington State at Pullman; November 1, Pacific at Portland; 11, College of Idaho at Walla Walla; 22, Willamette at Salem.

Morgan Will Defend Title Against Bass

Junior Lightweight Champ to Battle For Sixteenth Time Since Taking Belt

NEW YORK, Dec. 19 (AP)—For the sixteenth time in four years, Ted Morgan, efficient ruler of the junior lightweight realm, will defend his title tomorrow night at 130 pounds, this time in Madison Square Garden against Benny Bass, Philadelphia boxer. The match law on the title route, 15 rounds. Despite the "trick" aspect of the class, invented by the late Richard F. Fox for Johnny Dundee seven years ago, Morgan had made the division popular and himself wealthy by whipping contenders as fast as they appeared. The blond youngster from Seattle has risked the crown he won from Mike Ballerinio at least a half dozen times here.

Cougar Wrestlers Indicate Promise

PULLMAN, Dec. 19 (AP)—The Washington State mat squad is one of the most promising turned out in several years, says Ken Driscoll, who tutors the lads with the big muscles. In their first meet, with Multnomah Athletic Club, Portland, Driscoll expects his prize wrestler, Mike 128, to show a feature wrestling match, to give a good account of himself. The lad from the coast is Leonard Moore, said to be the cream of the Cougar crew.

Man O'War Wins One Race in 1929 Season

NEW YORK, Dec. 21 (AP)—Man O'War, who won every race as a two-year-old in 1928, headed but one juvenile stunner during 1929. Quarter Deck was the only youngster to upstage the name of the super horse and he won but one race. The victor, however, of Clyde Van Dusen, winner of the Kentucky derby and the fourth-year-old filly, placed Man O'War third in the list of 20 leading American sires for 1929.

Oregon University Mentor Loses Job

Executive Council of Institution Urges Early Termination of Contract

KUGENE, Dec. 19 (AP)—The executive council of the University of Oregon tonight adopted recommendations of the athletic committee that the contract of Captain John J. McEwen, head football coach, be terminated immediately. The council also decided to open negotiations with McEwen for a salary settlement. McEwen's contract does not expire until the close of the 1930 football season. Tom Stoddard, student body president, said the move, which was not expected, was made in the interest of athletic policy. The Oregon coach, who is in New York, will be advised of the council's action by Jack W. Bennett, Oregon graduate manager. Captain McEwen, who took over the football reins here in 1926, recently announced his resignation to newspapers here. University authorities said he had tendered no official resignation, however. The resignation was to have taken effect with the expiration of the coach's contract. Bennett announced he would start looking for a new coach. "The field will be thoroughly canvassed in the hope of getting the best man available," he said.

Junior Bruins Beat Castleford by 37-4

CASTLEFORD, Dec. 19 (Special to The News)—Twin Falls junior high school basketball quintet won from the Castleford five, 37 to 4, in a one-sided fray in the local high school gymnasium tonight. Wally, Twin Falls center, was high-point-man with 23 counts chalked up to his credit.

Rambler Star Goes To Huskies Staff

SEATTLE, Dec. 19 (AP)—A local newspaper tomorrow will say that Heartley Anderson, head football coach at Blaine, will be on the coaching staff of the University of Washington. Anderson will resign his duties at Blaine at once in company with the Seattle after the first of the year and will begin activities as line coach at the spring football practice here, the newspaper will say. Bart Spelman, present Washington line coach, will be retained as a scout and general assistant.

Bruin Quint Beats Hollister, 35 to 4

Twin Falls Team, Playing Season's First Contest, Wins Without Trouble

Playing in their last appearance of the season the Twin Falls Bruins took the measure of the Hollister boys in a practice game on the home floor last night, 35 to 4. It was good, fast play and in many spots excellent. The Bruins' defense was consistently good, good enough so that of Hollister's 29 throws at the basket only four went through the hoop and that came almost at the end of the final period on a lay-up by Skeem.

On the offense there were times when quick sharp break could be seen but early season condition is not good enough to carry the play to top speed all the way. Weaver and Morgan at guard, and Lincoln at forward are survivors of last year's squad. Bacon is being worked at center, pace into the air in good shape and was high on points with 12. Lincoln made 11 from forward and Givens chalked up 6 from the other side.

Greenleaf Regains Cue Championship

Matches at Detroit Result in Victory For New York Pocket Billiard Artist

DETROIT, Dec. 19 (AP)—Ralph Greenleaf, New York, regained the world's pocket billiard championship tonight by defeating Edwin Rudolph, Chicago, 125 to 92, in 18 halving in a post-tournament match game here. Greenleaf and Rudolph played off a tie which resulted last night when Rudolph lost to Greenleaf in the last game of the 28 game tournament. Greenleaf was the only player who defeated Rudolph and the new champion was defeated only by Marcel Camp, Detroit. Greenleaf won seven games and lost one. Rudolph won six and lost one. The championship match was a tensely contested game throughout, both contestants playing on the defense for most of the time, making it a battle of wits. Greenleaf misbued twice and fouled once, while Rudolph made four costly misses. The new champion's high run tonight was 44 and Rudolph's 23. The victory was worth about \$2000 to Greenleaf. The first prize was \$1000 plus a percentage in the gate which would bring it to about \$2000. A winter championship also gets a \$6000-a-year contract from the National Billiards association.

Twenty-one members of the Western team met tonight in the city, with only one absent.

Bruin Girls' Team Beats Castleford

Sextets Vie to 31-9 Score in Favor of Twin Falls in Hard Fought Contest

CASTLEFORD, Dec. 19 (Special to The News)—Twin Falls high school girls' basketball team defeated the local Castleford high school girls in a hard fought game in the Castleford high school gymnasium tonight. The inability of the local team to hit the basket proved their downfall. Otherwise the game was evenly contested, as the local team was able to keep the ball in forward position a good share of the match.

A GRIM RELIC: An old black walnut rocking chair was sold at auction in New York the other day to a dealer for twenty-four hundred dollars.

It was a small price, although, as a measure of the value of the chair in which President Abraham Lincoln sat when he was mortally wounded in Ford's Theatre, Washington, on that fateful evening in April, eighteen hundred and sixty-five.

One cannot look upon that grim relic of the tragic event without expressing appreciation of the service rendered, and the immeasurable obligation that the Nation owes to the Great Emancipator.

There is something new for the sterling integrity, unswerving fidelity and indomitable fortitude that were Lincoln's. This Nation and its people will do well to keep the memory of Lincoln bright.

That old rocking chair, its red damask upholstery blotched with Lincoln's life blood, has no place among a storekeeper's wares.

It ought to be enshrined, along with the Liberty Bell, among the Nation's treasures, and so preserved that its impact and influence may continue eternally to inspire the forward march of the Republic.

A GRIM CHRISTMAS: It is difficult to imagine a more desolate, heart broken Christmas than that which will come this year to the widow and orphans of the nearly three score victims of the mine horror of a day or two ago at McAlester, Oklahoma.

Disasters of this kind seem unavoidable. Notwithstanding every measure of precaution for the safety of the men whose daily work carries them into the bowels of the earth, every so often the world is shocked with the news of an other wholesale wiping out of human life. This sort of thing seems to be a part of the business of mining. In some cases carelessness on the part of the mine management is disclosed by investigation to have been the cause.

Sometimes the carelessness is on the part of the miners. But in a majority of cases no human agency has been at fault. The disaster, apparently, has just happened.

There is never a lack of sympathy for those who are left, as for those who are gone, but widow's tears nor the wails of hungry little ones will serve to call back those who are taken. Fresh crews are recruited; the damage repaired and the business of mining goes forward as usual.

The victims' dependents are scattered; within a few short years the incident is all but forgotten. The matter of keeping underground workings safe for the workers is one of the big problems of the mining industry. The thought of possible disaster is never wholly absent from the minds of management. The resources of science have been called upon to plan a means for rendering accidents impossible, yet in spite of it all nature takes her toll.

year now under consideration by various countries. There are said to be many other concerns in the United States doing the same thing. Business men generally are friendly to the new scheme and think it would be an improvement over the present calendar—at least for business purposes. Whether it would serve as well for social and religious purposes is another question.

High School News

Fifty persons attended the meeting of the Twin Falls Forum club in the Blue Triangle room of the Twin Falls High school last evening. A special number included a saxophone solo by Milton Pettum, Charles Heim and Virgil Mitchell; a banjo solo by Vernon Jones, and an accordion solo by Gene Allen. They also included readings by Ruth Brown and Dorothy Hardesty, and talks by Ralph Stinson, Paul Sarwell, Sebastian Kohlas, Maurice Throckmorton, Roy Head and Anna Sweeley.

The high school held a pep assembly in the auditorium at 1 P. M. yesterday to instill enthusiasm for the basketball game here last night.

A New Yorker at Large

G. D. SEYMOUR

NEW YORK, Dec. 19 (AP)—A single share of American Express stock, par value \$100, sold for \$2300 in an auction room on Vesey street the other morning.

A minute later a dollar bought 300 shares of chemical stock with a paper value of \$3000, and notes of a defunct Florida real estate company for \$135,000 went for less than 60c.

Good and bad securities are knocked down to the highest bidder every Wednesday morning at the Exchange sales room, down Vesey street a block past old St. Paul's church.

Sometimes they are stocks that must be sold to close up an estate or to liquidate a bankruptcy. Sometimes they are collateral on which banks have made loans.

Some are sold to individuals for sale at any price, so losses can be entered on income tax returns.

Others are bill-edged securities listed on the exchanges, and often they are worthless paper. The financial houses at the Exchange sales room are ready to pay market prices for good securities. Half a dozen men come to the bidding week after week looking for securities stocks which they can buy for a point or two under market price and sell quickly at a fraction profit.

Some sell several make some sort of living this.

No matter how worthless, almost every stock and note put on the auction table finds a bidder. There is always the chance that a no-good package of mining stock which turns up in someone's estate and gets on the market one day will be worth face value again. And some people collect worthless stocks like others collect stamps.

Monument to Folly: This is the only stock auction in town. Mrs. F. H. Winter Wednesday afternoon in a moment of high good fortune had a monopoly in the unusual field for some 90 years.

Later she was delegated to settle estate sales and trouble by sending a chestful of assorted stocks to the auction block, this for the first time since she disposed of the stocks one by one.

Simple-Pleasant Way TO LOSE FAT

How would you like to lose 15 pounds of fat in a month and at the same time increase your energy and improve your health?

How would you like to lose a load of fat without fatiguing your body and not want and at the same time feel better than you have for years?

How would you like to look more dignified and your too prominent abdomen and at the same time make your skin so clean and clear that it will compel admiration?

How would you like to get your weight down to normal and at the same time develop that urge for activity that makes you a pleasure and also an ambition and keenness of mind?

Get on the scales to-day and see how much you weigh. Then get on the scales again in 30 days. You will lose 15 pounds for 4 weeks. Take one half teaspoonful in a glass of hot water every morning and when you have lost the contents of this first bottle which you will gain.

Now you can laugh at the people who lose hundreds of dollars in a few pounds of fat—now you will know the pleasant way to lose unsightly fat and you will know the pleasure of the training talks of Kruschen. (All the training talks of Kruschen glands that have to function properly—have presented you with a plan.)

After that you will want to walk around and say to your friends: "I weigh 81 cent now." Kruschen's "Worth One Hundred Dollars" of any fat person.

at a dozen different markets. The auction is also useful to men who have bought securities unwisely. The man who lost \$10,000 worth of stock in a defunct Idaho mine can enter a \$10,000 loss on his income tax report as long as he still has the securities and they still have a paper value. But he can turn them over to the Exchange salesroom and let them go to the first bidder for \$2; that gives him the right to mark down a \$998 loss on his income tax blank.

Real Estate Market: The real estate market is maintained, however, not primarily for the once-a-week securities sales, but for real estate auctions.

These are foreclosures, or to settle large estates, and a good share of Manhattan's front footage has changed hands there.

In this auction room were sold the really holdings left by Frank Woolf, Mrs. F. Russell, John B. Grant, and the merchant price, and Matilda Bruce, daughter of the man who brought printing type to America.

It is a matter of fact, such evidence as has been observed that babies usually they are attracted to playthings by characteristics other than color. They prefer to play with the rattle which will make a loud, interesting in texture and capable of making a loud, distinct noise. During the first months of baby's life he is far more interested in appealing story values are clear outlines and the size, shape and the feel of a thing—than those which have—than in its color.

He lives a joy for the new sensations which he can get out of it, and for the things he can do to it such as shaking, manipulating and throating.

The realization that the baby has no particular interest in color for its own sake does not mean that he should not have plenty of pleasing and harmonious colors in his environment. For it is only very little discrimination of color that they are more attracted to light, gradually acquire a body of experience which makes him discriminate among colors and enjoy them.

NEW EPISCOPAL HEAD LIVES IN QUIET WAY

Elevation to One of Most Important Church Offices Fails to Change Habits

CHICAGO, Dec. 19 (AP)—When the Right Rev. Charles Palmerston Anderson returned to Chicago after his elevation as primate of the Protestant Episcopal church of the United States, only his family and a redcap man met him. The elevation to one of the most important church positions in this country had not changed the habit of humility and modesty that the Chicago bishop had learned as a novice.

Bishop Anderson remains head of the Chicago diocese, in itself one of the most difficult places in the Episcopal church in America. He eventually, however, will be given a coadjutor to aid him in diocesan affairs.

The second head of the American Episcopal church—the late Most Rev. John Gardner Murray having been the first—has been a bishop 28 years and a clergyman 41. Bishop Anderson is a native of Canada, 65 years old.

His organizing ability and his devotion to charitable work have distinguished him. His new jurisdiction covers the United States and extends to the orient, where missions are supported.

UNITED STATES AIR MAIL LINKS WITH 22 COUNTRIES

CHICAGO, Dec. 19 (AP)—The United States now is connected by regular air mail routes with 22 countries.

A survey by the American Air Transport commission shows there are 16,730 miles of air mail routes between foreign cities and the United States.

Both New York and Detroit are linked with Montreal. Minneapolis connects with Winnipeg, and Seattle with Victoria in Canada.

San Diego, California, connects with Mexico City and Guatemala. From Miami, Florida, there are lines to San Juan, Cristobal, Nassau and Havana, and via San Juan to Paramaribo, via Cristobal to Curacao and Santiago, and via Santiago to Buenos Aires.

Brownsville links with Mexico City and thence to Tampico and Merida, Vera Cruz and Toluca.

Mail now may be flown from New York City to Buenos Aires, 8,600 miles.

RATE OF PRODUCTION OF CARS INCREASES RAPIDLY

DETROIT, Dec. 19 (AP)—The United States had a daily average factory sale of 18,707 motor vehicles for the first 10 months of the year, according to a department of commerce report.

A total of 5,071,206 vehicles was produced, in contrast to 3,867,503 cars and trucks for the same period last year.

The entire 1929 production was 1,158,302 machines under the production in the 1928 period closing October 31.

Production in the current year reached the highest peak in April when 621,347 cars were produced, October production totaled 378,043 cars, of which 250,227 were passenger vehicles.

AGENTS CONTEST POWER PERMIT WASHINGTON, Dec. 19 (AP)—Final bids became public today in the contention between the Rocky Mountain Power company and Walter H. Wheeler, Minneapolis engineer, for a power site on the Flathead river in Montana.

ATTORNEY CHARGES MURDER-ROANOKE, Va., Dec. 19 (AP)—R. T. Hubbard, commonwealth's attorney, tonight lodged a formal charge of murder against Buren Harman, in the slaying of Freda Bolt, Willis high school senior, last week. The youth's indictment will be sought at a special session of the Roanoke county grand jury January 6, he said.

STATE TESTS TAX LAW BOISE, Dec. 19 (AP)—A test of Idaho's 1928 statute taxing foreign corporations' income based on the State's brought by the Utah Mortgage Loan corporation, was urged today in Ada county district court, on a demurrer by Attorney General W. D. Gillis.

Man Repays Ex-Slave's Loan After Long Period

LITTLE ROCK, Dec. 19 (AP)—The bread on the waters has come back to John Rogers, 91, former slave.

In 1870 John gave \$1 each to four slaves, members of a family which had owned him in slave days, who were leaving Georgia to go to Arkansas. Now John has \$128.80, the sum received by the \$4 at compound interest, plus the original gift.

The refund was made by Harvey Couch, Arkansas utility magnate, whose mother was one of the girls. Mr. Couch took his mother back to her native state for a visit at Griffin, Georgia, and the aged negro whom they had thought dead.

SCIENTISTS CLAIM BRAIN GROWS UNTIL AGE OF 60

CLEVELAND, Dec. 19 (AP)—Belief that man's brain continues to grow until the age of 60 is expressed by Professor T. Wingate Todd of Western university, in a report to the British Foundation for the Advancement of Human Stock.

"It is doubtful," he says, "if that part of the brain which registers experience has reached its limit of growth before 60."

"That area of the cranium which covers the part of the brain devoted to imagination and originality shows its maximum growth between four and seven years."

"The part covering the growing brain area which stores memory and experience begins to grow at seven years and continues until 19."

"Thereafter another part of which we understand very little—the silent area, it is called—shows possibility of expansion in human beings some of all living creatures until late in life."

Any recent purchaser of a Eureka will do well to get in touch with Mr. Taylor at the I. D. Store.

THREE STATES PLACE BAN ON IDAHO HAY SHIPMENT

BOISE, Dec. 19 (AP)—Three states bordering on Idaho today advised Governor H. C. Hildreth that they would not permit shipments of alfalfa across their borders en route to North Idaho.

The states were requested by the Idaho department of agriculture to modify their quarantine against Idaho hay in order to simultaneously relieve an over-production of alfalfa in South Idaho and a shortage in North Idaho.

The situation was made difficult by the fact that railroad shipments from South to North Idaho must be routed either through Montana or through Oregon and Washington. Neither of the Pacific coast states would modify the quarantine for fear of introduction of weevil while Montana agreed to permit passage only of shipments of alfalfa and wild hay but banned alfalfa, in which the weevil is usually found.

CHILDREN SCORE IN CHRISTMAS PROGRAM

Boys and Girls of Bickel School Present Play With Music and Pretty Dances

More than 60 boys and girls of the Bickel school took part in a Christmas play, "Polly's Christmas Eve," that was witnessed by an appreciative audience that filled the Bickel school auditorium last evening.

Music, both instrumental and vocal, readings and dances were given by groups of children in pretty costumes, whose part in the play was to entertain Polly, a little lame girl, at her home on Christmas eve.

The principal characters were Katherine Johnson, who played the part of Polly; Katherine Johnson as the Holy Spirit; Walter Skinner as Arthur; the Christmas tree fairy, and Richard York, who was Jack Frost.

A group of first grade boys in brown costumes and girls in white and red costumes with an arabic dance, played outstanding parts in the performance which appeared groups of carolers, a group of dancers, French dolls, Japanese dolls, freight trains and elves who were Santa Claus' assistants.

The girl clowns, who turned, cartwheels and handspins rhythmically and expertly were Erva Palmer, Margaret, Jessie Nossie and Doris Leighton, and the elf dancing dolls were Jennie Allen and Lorna Ward.

A group of children who appeared before the arrival of the fairies and dolls and elves—Includ—Helen-Mekay and Mildred Eirod who gave piano solos, Dorothy Reed and Jean O'Connell who gave Christmas readings, and Betty and Herman Yarborough, who played a piano duet.

In preparation for the play the boys and girls had been rehearsing for several weeks under direction of Mrs. Ethel Gray, principal of the school, and the members of the Bickel school faculty.

GARL THEFT PLAYS PART IN LONG CRIME RECORD

Lloyd Tressler, 27, escaped convict from San Quentin, California, prison, and self-confessed burglar and drug addict, traveled in an automobile he had stolen in Nevada to break into doctors' offices, a jewelry store and a lodging house in a half dozen southern Idaho towns during the past two months, he had officers here yesterday.

Tressler admitted theft of the car, officers said, after a telegram was received here yesterday identifying the machine as stolen.

Tressler was arrested here Tuesday evening as he was leaving the Smith-Kline building on a street near here after making forcible entry into a doctor's office and a beauty parlor on the second floor.

He is held here for San Quentin prison authorities. He was serving a term for burglary committed in San Francisco when he was arrested in the California prison road gang last May.

WHIRLWIND FINISH AT STATE'S CLOSE IN FORGERY TRIAL

Prosecution Introduces Other Asserted Spurious Orders and Evidence Against Accused Woman

With a whirlwind finish the prosecution at 3:55 P. M. yesterday rested in the case of Miss Vera Lowe, former clerk in the office of Twin Falls county superintendent of public instruction, charged with forgery of a rural school district order for \$400 amount, on trial in district court here since last Monday. Defense will open this morning, with two handwriting experts among the witnesses. There was no indication this evening whether the accused young woman would testify in her own behalf.

Within three hours yesterday, Prosecuting Attorney E. V. Larson introduced evidence tending to show that Miss Lowe was the author of a number of other forged orders, that she had ordered them herself at local banks; and that there was no record of the asserted forged orders in books in the county superintendent's office which Miss Lowe had kept for about five years.

Over objection of defense counsel, the prosecutor introduced in evidence a number of other forged orders that previously during the trial had been used by handwriting experts for comparison with specimens of the handwriting by identified as having been penned by Miss Lowe.

Error in Name
Two of these orders were drawn on Deep Creek school district's account. One carried the name of A. J. Beazer, and the other the name of A. J. Beaser as chairman. Mrs. Neis Larson, Deep Creek district clerk, testified that on two different occasions when she had visited the county superintendent's office she had heard Miss Lowe refer to the chairman as Mr. "Beazer." On the second occasion, Mrs. Larson testified, she pointed out to Miss Lowe that the name was "Beaser." She testified further that the second of the asserted forgeries, which carried the name "Beaser," bore date subsequent to her second visit to the superintendent's office when she had told Miss Lowe the chairman's true name.

One of these orders was drawn in the sum of \$120 and the other in the sum of \$200. Both Mr. Beaser and Mrs. Larson testified that their names had been forged on both orders.

Banks On Stand
Mrs. O. D. Tiley, Hansen, clerk of Seedew school district, testified that her signature had been forged on an order for \$500 on Seedew district's account, and S. D. King, Buhl, clerk of Willowdale district, testified that his signature had been forged on an order for \$200 on Willowdale district's account.

The asserted forgeries, Charles S. Kingsley, Boise, handwriting expert, testified, were, in his opinion, penned by Miss Lowe.

Edgar Muscell, former employee of the Twin Falls Bank and Trust company, was recalled to testify that the asserted forged order of the Berger school district, on which the forged charge against Miss Lowe was brought, had been cashed by Miss Lowe at that bank.

L. L. Patrick, assistant cashier of the Twin Falls National bank, testified that while associated with the Twin Falls Bank and Trust company he had cashed for Miss Lowe two of the orders alleged to have been forged and that in his later connection he had cashed other orders for her.

Defense Asks For Time
Overcoming defense objections to admission of these additional alleged forged orders, the prosecuting attorney argued successfully that they were "material for the purpose of showing intent, knowledge, identity, design, scheme and plan."

Defense attorneys after Judge H. A. Baker overruled their objections to admission of this evidence, asked for immediate adjournment so that they might make preparation to meet this evidence, admission of which, they asserted, came to them as a surprise.

Charles H. Davis, accountant, was called by the prosecution to testify that he was engaged in auditing books of 24 rural school districts of the county and that he had examined a large number of school district orders for warrants. His testimony was cut short at that point by objections of defense counsel, who demanded that he should be qualified as a handwriting expert before continuing.

**LEADERS IN SENATE
ABANDON LABORS ON
A MEASURE ON TARIFF**

Upper House Members Once
More Pledge Bill Right
of Way Following Few
Days Christmas Reces

(By The Associated Press)
WASHINGTON, Dec. 19—Once more
pledging the long pending tariff bill
an undisturbed right of way after the
holidays, senate leaders today virtually
abandoned efforts for further work be-
fore the Christmas recess.

The tariff measure again was placed
before the senate today after the dis-
position of some emergency measures.
An unexpected quorum call showed
most of the membership busy with
Christmas shopping, however, and an
early recess was forced with little pros-
pect of any action during the remainder
of the week.

After two days of debate, the nomi-
nation of Richard J. Hopkins to be federal
district judge for Kansas was confirmed,
47 to 22. Senators Blaine, Republican,
Wisconsin, and Tydings, Democrat,
Maryland, had contested the nominee.
Chairman Borah of the Judiciary sub-
committee which investigated Hopkins,
said he had made a personal inquiry and
was satisfied of the nominee's quali-
fications.

With this controversy out of the
way, approval was given to the
house bill authorizing an appropriation
of \$3,740,000 for the construction
of a supreme court building on
capitol hill. The work probably will
begin during the forthcoming year.
The supreme court occupies the
small chamber in the capitol form-
erly used as the senate forum.

Senator Simmons, North Carolina,
ranking Democrat on the finance com-
mittee, again asked the pledge of Re-
publican leaders to consider the tariff
after Christmas recess.

Senator Watson, Indiana, the Re-
publican leader, reiterated his pledge to
this effect and while Senator Simmons
was speaking he raised his right hand
in a jesting mood.

Chairman Smoot of the finance com-
mittee, also insisted that after the hol-
idays nothing else be considered by
the senate until the tariff bill is passed.

Despite the prospect of continuous
consideration of the tariff beginning
January 6, leaders expressed the opinion
that it could not be finally acted upon
before the end of January.

**Lawyer Writes Treatise
On Smuggling of Liquor**

BOISE, Dec. 19 (AP)—A thorough
analysis of laws affecting smuggling and
more particularly the running of liquor
from foreign ships off shore is contain-
ed in a new book written by William E.
Masterson, dean of the Idaho Univer-
sity law school.

The book, entitled, "Jurisdiction in
Marginal Seas," deals especially with
smuggling problems and is the result
of studies made by Dean Masterson in
Washington, London, Paris and at The
Hague.

Masterson, recently promoted to the
deanship, took his bachelor of arts de-
gree at Texas University and followed
it by earning a series of degrees at Har-
vard. Subsequently he taught in the
University of London and was there
awarded an honorary doctor of law de-
gree.

**Macey Plans Probe of
Conditions at Weiser**

BOISE, Dec. 19 (AP)—A study of health
conditions at the Intermountain Insti-
tute in Weiser was ordered today by C.
K. Macey, commissioner of public wel-
fare, following two outbreaks of a severe
throat quickly ended illness there.

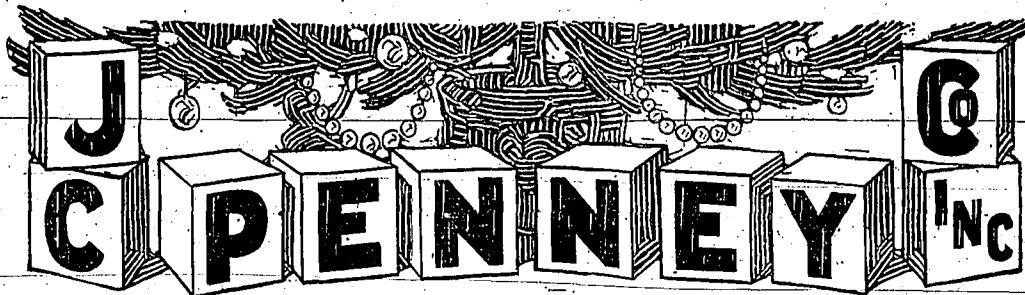

W. V. Leonard, state chemist, will go
next week to make the study at the in-
stitute as attempts to isolate the cause
of the illness among more than half of
the students have so far been unsuccess-
ful. Examinations of the water and milk
revealed both in sanitary condition.

Penny-post was invented by Sir Row-
land Hill, England, and passed by the
house of commons in 1838.

BUHL TO CARE FOR 26 NEEDY FAMILIES

Committee For Community Christmas Celebration Predicts Gala Occasion

BUHL, Dec. 19 (Special to The News)—Plans for caring for the needs of 26 families during the holiday season and distributing Christmas cheer were discussed Wednesday morning at a meeting of all committees in charge of the community Christmas tree celebration, according to Harry W. Barry, secretary of the Buhl Chamber of Commerce, sponsor of the festivities. A list of 19 families was turned over to the committees and six more families in need of help were still to be added. E. M. Worley, Harold Hyde, Dr. H. C. Coleman, Robert Sire and Jess O. Eganman, committee in charge of soliciting contributions for the baskets, state that there is still a need for potatoes, onions, apples, chickens or turkeys and that anyone desiring to assist the committee may leave their donations at either the American market or in the vacant building across the street from the office of Dr. McManus, on Saturday or Monday. Numbers diminish.

Mr. Barry states that the number of needy families in Buhl is not so great as last year when 35 families were provided for. Treats and toys will be included in the baskets where there are children in the home.

The finance committee reports the sum of \$600 contributed this year to 2600 remaining from last year's celebration. It is expected that from 1800 to 2000 little folks of Buhl and vicinity will receive a stocking of candy, nuts and fruit from Santa Claus, when he arrives on his trip to the big tree at the intersection of Main and Broadway streets. Santa Claus will be assisted in the distribution of his treats by Captain Walter E. Genton and members of the Buhl Idaho national guard unit.

Mass Meeting of Men Interested in Federal Plan of Farm Relief to Convene

FURLEY, Dec. 19 (Special to The News)—A mass meeting of farmers and others interested in the marketing of wheat, and the federal farm board plan of financing, is to be held here some time during the week beginning January 11, under the auspices of the Burley Chamber of Commerce.

DANGER LIES IN REDUCING DIETS

Unless They Have Bulk, Constipation is Inevitable

Today thousands of young women and girls are wondering why they are so miserable as they diet to reduce.

The trouble is that many of the new diets lack roughage which is necessary to clean the intestinal system. The symptoms are headache, "gone" feeling and bad complexion. It is called a "constipation with its evils occurs."

By including Kellogg's ALL-BRAN in a reducing diet, you keep it as you take off weight, because you prevent constipation.

ALL-BRAN does not add fat to the body. It just sweeps the intestines clean of poisonous wastes. No pills or drugs can play the part of ALL-BRAN in a reducing diet. Their dose has to be constantly increased and harmful results often follow.

You will like the appetizing, nut-sweet flavor of ALL-BRAN. Eat it in soups. On salads. Soaked in orange, prune or fruit juice. As a cereal with milk or cream. Delicious with honey added. Just eat two tablespoons daily—in chronic cases with every meal.

Made by Kellogg in Battle Creek. Served in hotels, restaurants, dining-rooms. Sold by all grocers.

eral speakers familiar with the details of this organization will be on hand. Roy Palmer, president of the chamber, announces that Frank L. Atkins, manager of Pomona Grange, Twin Falls, is expected to be present at the meeting. It will be held in the hall in the afternoon, and that Atkins will also attend a similar meeting to be held in Rupert, the same evening, sponsored by the Idaho Chamber of Commerce.

At a meeting of wheat growers and business men held at Twin Falls last week, Thomas Barbee, Burley, was selected as temporary chairman of the committee to cooperate with prominent men from other counties in promoting county meetings where local associations might be organized.

Year of 1929 One of Prosperity For Dairymen of Idaho

DIRECTOR OF IDAHO DEPARTMENT LOOKS FORWARD HOPEFULLY

Figures For First Three-Fourths of Year Reveal Increase of 10 Per Cent in Butterfat Production

Number of Dealers in Oleoargarine Drops But Consumers Use 1,000,000 Pounds, Report Indicates

(By The Associated Press) BOISE, Dec. 19 — The last year has been a kind one to dairymen in Idaho and a fairly good year in prospect for 1930, George N. Tucker, director of dairying, declared today.

He cited figures for the first nine months of this year to disclose a 10 per cent increase in butterfat production which met with an increase in price. As an indication of the suitability of the industry to this state, he pointed out that the increase in butterfat production was made in one of the driest seasons of many years. Pastures were short early in the year when ordinarily they are luxuriant. The winter months were severe and the spring late so that the increased production has been made under great handicaps.

PONTIFF ASKS LAYTY TO MAKE RETREATS

Pope Pius in Encyclical Urges Members of Church to Participate in Activities

VATICAN CITY, Dec. 19 (AP)—Pope Pius in an encyclical made public today urged the laity of the Roman Catholic church to make frequent retreats for silence, contemplation and prayer, and to participate more generally in church activities.

The pope, who recently emerged from a week's retreat in connection with the jubilee of his priesthood, said the spiritual exercises of retreats constituted a remarkable school in which the mind learns to reflect, the will strengthens itself and the passions are subdued.

"Actively receive a direction, rule and efficacious impulse," he said, "and take whole soul refuge to its natal nobility and grandeur."

He declared that retreats might last for several days or even entire months but should not be too restricted. He preferred that they be carried out in private because complete isolation permitted the soul to reflect upon itself and upon God.

The pontiff condemned "that continual and feverish pursuit of externals, that insatiable appetite for riches and pleasures, which little by little weaken in the soul all the noblest ideals."

"The greatest misery of the modern age," the principal source of the evils we all deplore, is the lack of reflection," he said.

holdings of butter. On December 1, the United States department of agriculture estimated 11,017,000 pounds of butter was in cold storage compared with 20,985,000 pounds on that date last year and a five-year average of 78,835,000 pounds. Part of the present low market for butter was attributed to the dumping of large holdings on the market at the time of the decline in the New York stock market.

Quoted from the Land of Nooks News, a Mid-West dairy publication, was a note of warning. "If everyone gets panicky and starts unloading holdings, there is no telling where the market would go. Many people are beginning to hoard calamity and that dairying is overdue. We will have faith in the old saw as the best friend of the farmer and that we will have higher prices before they get any lower."

California Buys Hefers — The business of supplying California dairying districts with live heifers is growing apace, the director pointed out. During the year ending July 1, Los Angeles county alone took 530 dairy cows from Idaho at prices which paid well enough to encourage the movement.

To temper the prospect of good butter prices, Tucker pointed out that at present the nation is faced with large

JEROME WOMAN HONORS DAUGHTER ON BIRTHDAY

BEROKE, Dec. 19—Mrs. T. B. Bohannon was witness to a group of girls on Tuesday night in honor of the seventh birthday of her daughter, Oriol. Games and dancing were the diversion of the evening and a dainty lunch was served. Those present were Catherine Turner, Frances Bacon, Grace Gleason, Frances Halber, Bertha Wilburn, Maxine Tooley, Eleanor Freeman, Lily Fry, Willella Kendall and Fern Hildebrand.

Madeleine Williamson, who is editor-in-chief of the high school publication, "The Live Wire," entertained the staff of the paper at a Christmas party at her home Monday night. "Bunco" and "Parachute" were played at four tables. Each guest brought a gift, "snow" numbers, and then exchanged gifts. The guests were Bertha Wilburn, Anna Mac Miller, Grace Gleason, Margaret Hartwick, Lois Kennedy, Gilbert Brewer, Leonard Fry, Verie, Sullivan, George Bullen, Ono Klein, Wanda Otto, Joe Marr Updegraff, Ginzella Ball.

An assembly was called at the high school Tuesday morning for the purpose of drawing names for the annual Christmas grab. The gift exchanges, as well as an appropriate Christmas program will be given Friday afternoon under the direction of the J. F. F. club. The decorating and lighting of the Christmas tree will also be under the direction of the J. F. F. club. A son was born December 14 to Mr. and Mrs. Estus M. Merritt.

Schneider Cup Filers Plan New Speed Tests

CALSHOT, England, Dec. 19 (AP)—The Air Ministry has decided not to abandon the royal air force speed which recently won the Schneider trophy and set a new world speed record.

A. H. Orlebar, squadron leader and Lieut. O. Stainforth will return from leave to carry on the research work in high speed figure and form the nucleus of the British team for the next Schneider contest.

It is understood that smaller floats and wings will be fitted to the supermarine plane and alterations made to the Gloster-Napier high speed engine.

It is calculated that these alterations will increase the speed by at least 20 miles an hour giving the two planes a top speed of between 370 and 380 miles an hour.

Educator to Write For Training of Character

WASHINGTON, Dec. 19 (AP)—Belden Carlyle Adams, assistant director of the department of education of the National Education association, has returned to lecture and write in the field of character and religious education. He has been succeeded by Dr. Belmont M. Parley, formerly a member of the faculty of the Western state teachers college, Kalama, Michigan.

No-Collection Church Sees Attendance Gain

RUSSELLVILLE, Ark., Dec. 19 (AP)—After a decline in the time-honored collection plate, the First Baptist church of Russellville has passed its fourth year without difficulty. Pledges from members are its only means of raising money.

Since the no-collection services started last year, the church has increased its attendance, but has not increased.

STATE WILL TEST IDAHO STUDENTS ON GRAMMAR

BOISE, Dec. 19 (AP)—A determination of whether the city students of their country could use the best grammar will likely be made in Idaho this year under plans to be drawn up at the convention of the Idaho Education association in Boise December 27 and 28.

W. D. Vincent, commissioner of education, said today the question has become a problem demanding solution, as statements and committee statements had been issued with no worthwhile facts for basis.

If it is true, as many educators claim, he said, that the country youngsters "can't speak as well but can figure better," then teachers must center their efforts on the job of improving their conversation.

For the determination tests will be given to all high school students. In this class representatives from all sections are gathered.

You've seen beads of moisture condense inside cold windows
..like "WET" gasoline in a cold motor
MOIST AIR, when it hits cold glass condenses and runs in droplets down the inside of the window. In just the same manner "wet" gasoline—not wet with water but with heavy petroleum compounds—condenses in the manifold, on the piston head, the cylinder walls.
You pull out the choke and spin the starter; "wet" gasoline mixed with air floods in to the motor and runs down into your oil. In five hundred miles of cold weather driving your oil is very apt to be fifty or sixty per cent gasoline! What a waste of oil and fuel!
Starting troubles—battery strain—delay. You've doubtless accepted them as necessary evils of winter. They are, if you use "wet" gasolines, even the so-called winter quality of "wet" gasolines.
What you need—and thanks to exact refining you may have it now—is a "dry" gas. Shell 400, the "dry" gas stays vaporized. It goes "dry" into your motor, starts instantly, burns more cleanly, more completely in the cold-gas engine.
Shell 400, the "dry" gas, costs you no more than "wet" gasolines. All yellow and red Shell pumps contain it. No other Shell gasoline is sold.
If you wish to protect your oil against disastrous thinning, to convert all your gasoline into power and miles you'll want Shell 400. And knowing in addition that Shell 400 will solve your starting problems you'll insist upon it every time you fill the tank.
QUICK STARTING
The "DRY" GAS
And about all that's left to be said for the benefit of hard-bitten and old-time motorists is that Shell Motor Oil is a fine, low-friction, high-speed oil that will keep your engine running smoothly and efficiently all winter long.

BAPTIST CHURCHES LAY PLANS FOR HOLIDAY SPECIAL PROGRAMS

Music, Readings, Pageants and Appropriate Sermons Will Feature Services in West End City on Sabbath

(Special to The News) BURL, Dec. 19.—Programs of Christmas music, recitation and pageants will be presented in all Baptist churches next Sunday morning and evening, December 22. A special service will be presented at the Christian church on Monday evening.
