Posse Finds Little Boy Lost In California Mountain Wilderness

REDDING, Cal., April 23 (AP)—A mother's dream that her young son, lost in a mountain wilderness, would be found alive, came true today. Hungry with his clothing in shreds, a large searching party after he had been found for four days on snow banks, grass and Mazanilla berries.

The child's father bitterly grasped her son into her arms and sobbed with joy as she recalled her dream in which she had seen the boy alive. Members of the posse, veteran mountaineers and woodmen, had shaken their heads when Mrs. Ann Lakey told them of the dream.

The child had wandered 13 miles and across a 3000-foot mountain ridge to within half a mile of Burgess Jones camp. He said he did not become frightened when he realized he was lost, but at once looked to the top of a mountain to find his way home.

Then, he said, he started down the wrong side. When he became tired he stopped and to acquaint himself with the snow hills, Grand and Mazanilla berries provided the child with his only food.

Yesterday he saw searchers but they were too weak to call to him. Today the boy heard automobiles and was crawling slowly toward them when he was found.

LEVIATHAN PLOUGHS WEST WITH ENVOYS

STEAMSHIP LEVIATHAN, at present, the largest ship in the world, is tonight speeding westward through a chilly sailing sea. She is bringing back to the United States Secretary Simon and Admiral Ambrose, Morrow and Senator Robinson, together with members of the staff of the American delegation to the London naval conference.

Unlike the departure from New York for England when the delegates were saluted by First Lady and the streets of all the ships in the harbor, the sailing from Southampton was so informal as to constitute only the departure of another ship from that busy port.

Similarly, formalities were lacking at Cherbourg. The only official to board the ship was Fred Hout, acting consul. It was remarked that when Secretary Kellogg sailed from Cherbourg with the delegates of the Pact of Paris he was given naval honors and a farewell by Ambassador Herrick.

WATERMASTER GETS COURT INSTRUCTION

F. J. Marshall, in Charge of Dry Creek Administration, Gets Exhortation

F. J. Marshall, Murthaugh, Almo 1216 watermaster for Dry creek in Twin Falls and Cassia counties, unintentionally violated a temporary injunction issued in district court here last July. District Judge W. A. Babcock ruled at the conclusion of a hearing in contempt proceedings that Marshall admitted that he was not familiar with the injunction terms. He was given a copy of the order and discharged from contempt proceedings.

The controversy involved water rights of the late Frank J. Terrill interests dating from 1877, and the late J. E. Borer interests dating from 1870.

Marshall was accused by the Terrill interests of discriminating in favor of J. H. Stoner and the Dry Creek Water company, successors to the Borer interests in the distribution of this season's water.

Recites Measurements
He testified that Dry creek flow from April 3 to 22 inclusive 4277 inches, or less than 250 inches daily. Of the total, he said, the Terrill received the entire flow amounting to 727 inches from April 3 to 6. Thereafter, he said, the Terrill received 1953 inches out of a total of 2010 inches, the remainder being diverted to other lands.

The temporary injunction, which was issued on Stoner's application, continues a contract entered into by the Terrill and Borer interests in 1884, under which their total water rights were divided evenly between the two interests. It further restricts water delivery to lands for which the water was appropriated originally.

The Terrill interests assert that since 1918 the successors to the Borer interests have diverted water to Arden and vicinity so that the return flow into Dry creek is materially reduced, and the conditions under which the contract of 1884 was entered into do not now exist, and that the Terrill interests are entitled to the water to establish their water rights on the basis of their priority date.

Temp. Injunction
In connection with the contempt proceedings, the Terrill interests asked for an order dissolving the temporary injunction. Judge Babcock took that request under advisement.

In an adjudication of Dry creek water rights in 1924, the Terrill interests were represented by William E. Borch, Boise, now United States senator, and J. C. Rogers, then an Alton attorney.

At hearing in the contempt proceedings yesterday, R. J. Day, who claims water under the temporary

ACCUSED MEN DENY FERTILIZER FRAUD

C. A. Swann, 47, Comes Back From Spokane, and F. M. Mills, 43, From Weiser

Accused of converting to their own use money that they collected last fall from a number of Twin Falls county farmers in payment for lime fertilizer that has not yet been delivered, C. A. Swann, 47, and F. M. Mills, 43, returned yesterday in custody of Deputy Sheriff W. E. Dolson to answer here to charges of contempt.

Both of the accused men stoutly asserted their innocence of the charge and declared that the fertilizer had not yet been delivered because the mine at Cokewille, Wyoming, was forced to shut down by snow during the winter season.

Swann returned from Spokane where he was arrested and held for about a week before the Twin Falls deputy's arrival there. He waived extradition.

Mills was arrested in Weiser, and was picked up here by the deputy on his return trip.

DEMAND ON HOSPITAL CONSERVES NO WATER
The city of Twin Falls has a disappointing in its hope of conserving the municipal water supply during the summer season by refusing to deliver water for irrigation of rural grounds, outside the city limits. M. C. Ware, chairman of the board of city commissioners, said yesterday.

The hospital has used no city water to irrigate its grounds during the last years. Mr. Ware said his investigation showed. Use of city water for that purpose was discontinued, he said, because it was too expensive, and a new source of irrigation water was obtained through an open ditch.

Under the impression that the hospital was using city water for irrigation as well as for hospital use, Twin Falls city council in session last Monday directed the city attorney and city clerk to address a letter to the county commissioners advising that city water could not be furnished in the future to wet the hospital grounds. Restriction in the use of city water was necessary, the letter said, because filtration facilities are not sufficient to meet all demands for water inside the municipal boundaries and leave any surplus during the summer season.

The **SUN** pours fragrance into these tobaccos

LONG BEFORE the choice leaves of golden Turkish and velvety brown Domestic tobacco are selected for Camel Cigarettes, nature's own alchemy has worked a miracle in them that no effort of man can hope to duplicate.

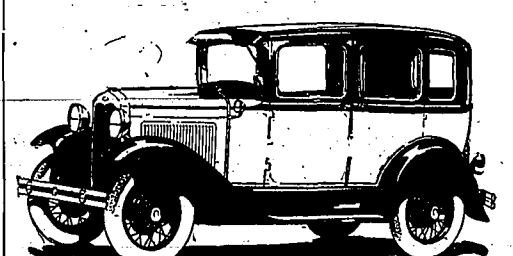

Every tiny leaf-cell is irradiated—stored full of goodness by the clean, pure vigor of the sun!

Our share in the making of Camels is to see that all of the fragrance, mildness, mellowness, aroma—in a word all of the natural goodness of these sun-ripened tobaccos is preserved and developed—then to combine them into the smooth, delightful harmony of the famous Camel blend, and manufacture them into cigarettes by the most modern methods known to the industry.

You can taste the natural goodness in every delicious puff of a Camel Cigarette.

RUSTLESS STEEL—A REFLECTION OF THE QUALITY BUILT INTO THE FORD CAR

THE NEW Ford is a particularly good purchase because it is such an ideal combination of high quality and low cost. Many of its features were formerly thought possible only in an expensive automobile. In addition to the Houdaille hydraulic shock absorbers and Triplex shatter-proof glass windshield, another unusual feature is the Rustless Steel used for the head lamps, radiator shell, cowl finish strip, hub caps, and tail lamp. This will not rust, corrode or tarnish under any conditions and will retain its bright luster for the life of the car. Though expensive to manufacture, it is used on the new Ford without increased cost to you. Throughout the car you see many instances of this EXTRA VALUE made possible by Ford production methods.

NATIONAL REPRESENTATIVES

Business Upturn. Colored Leonard P. Ayer, international secretary, said the present is a definite upturn of business.

THE COLUMN IS THE MAN WHOSE A FUTURE DESCRIBED AS "A YEAR CLEARLY WHAT IS GOING TO HAPPEN A YEAR FROM NOW THAN THE REST OF US CAN SEE WHAT IS HAPPENING RIGHT NOW."

IT DOES SEEM AS IF MOST OF US DON'T KNOW WHAT IS GOING ON IN THE BUSINESS WORLD UNTIL IT'S OVER AND THE FACTS ARE PILED UP IN CRATE-BACKS.

COLLEGE AND PRESS

It is easy to pick an argument with Dr. Robert M. Hutchins, youthful president of the University of Chicago.

REMARKING THAT THE COUNTRY IS "SUFFERING FROM OVERPRODUCTION OF EVERYTHING EXCEPT BRAINS," DR. HUTCHINS SUGGESTS THAT IF ONLY "PERSONS WHO ACTUALLY THINK" SUBSCRIBED TO THE NEWSPAPERS, THEIR VALUE WOULD BE EXTREMELY LIMITED.

THIS LOOKS LIKE AN INDICTMENT OF THE PUBLIC RATHER THAN THE PRESS. IT OCCURS TO A NEWSPAPER EDITOR, HOWEVER, THAT THE LEARNED YOUNG DOCTOR APPLIES HIS PRINCIPLE TOO NARROWLY.

IF ONLY PERSONS WHO ACTUALLY THINK ATTENDED TO COLLEGE, WE FEAR THAT THE OUTPUT OF COLLEGE GRADUATES WOULD BE EXTREMELY LIMITED.

POSSIBLY, AS HE SAYS, THE NEWS PAPERS ARE NOT DEVOTING ENOUGH SPACE TO EDUCATIONAL SUBJECTS. YET DR. HUTCHINS IS POSSIBLY TOO YOUNG TO REALIZE, FROM HIS OWN OBSERVATION, THE INCREASED PROGRESS MADE IN THIS RESPECT BY THE AMERICAN PRESS.

GRANTED, THERE HAS BEEN A GREAT INCREASE IN THE MORE JOURNALISTIC FEATURES IN OUR NEWSPAPERS, BUT RECENTLY THE INCREASE IN EDUCATIONAL FEATURES, ESPECIALLY SCIENTIFIC, HISTORICAL AND LITERARY, HAS BEEN MORE NOTABLE.

THOUGH WE SAY IT WHO SHOULD IT, IT IS QUITE POSSIBLE THAT THE PRESS IN THIS COUNTRY TODAY IS A FAR GREATER EDUCATIONAL POWER THAN THE COLLEGE.

SUPERLATIVES

The popular entertainers, Amos 'n' Andy, have found time between broadcasts to make a motion picture, and this is the way the public is told of their achievement in a current manner.

THE METEORS OF THE AIR, MIGHTY-TEST ALL-TIME ATTRACTION. THE breathless magic of radio and the God-sweep genius of man have wrought in Amos 'n' Andy the grandest phenomenon in the sweep of all show acts.

THE most superb and amazing manifestations of this modern rocking century. Like flaming torches, they blaze heaven-high, lighting the way for countless millions to the joy of honest laughter and the boom of hope and courage. Destined to shake the foundations of the show business.

That's certainly going some! Can even the twin miracle be referred to live up to the specifications? Probably not. But it is pleasant to discover that the Barnum spirit isn't dead yet. The American genius for superlatives survives. Old P. T. himself couldn't have done much better.

Manager of Team Rated as Mack's Outstanding Contenders Finds Solace in Later Season Development

By EDWARD J. NEIL Associated Press Sports Writer

NEW YORK, April 23.—The historic inability of one horse to proclaim a summer is a soothing philosophy these days to Bob Shawkey, new manager of the New York Yankees, for it is just as self-evident that five straight losing ball games at the start do not make a season, though it grant you they don't help much either.

FLAMES WIPE OUT ROGERSON'S HOTEL CLOSED BY COURT

Blaze Destroys 16-Room Structure Within Six Hours After Government Officers Apply Padlock

Within six hours after a deputy United States marshal padlocked the only hotel in Rogerson, 30 miles south of here, to close it for one day to abate an alleged liquor nuisance, the hotel building, a 16-room structure, was burned to the ground early Wednesday morning.

The building was owned by Mrs. Edna Deener, resident of Rogerson for nearly 20 years. It had been completely serving a six months sentence for violation of the federal prohibition laws.

The fire started on the west side near the rear of the building. It was first observed at about 2:30 A. M. while sleeping in a room on the second story.

Nothing was saved from the ruined building. Only a little furniture, a table and some chairs and a small showcase that had been removed by the officers before they clamped the padlock on the door, remained when the flames, at last died out.

The loss is believed to be partly covered by insurance, which officers here said last evening, is probably made payable to the holder of a mortgage on the property.

Whole Town Turns Out The alarm of fire wakened all of Rogerson's inhabitants, men, women and children, pouriras to prevent the steady advance of the flames, about the time the building until the last crumbled and fell into the mass of ruins.

Mrs. Deener, a guest at the residence of her daughter, Mrs. Snow, in Rogerson, was prostrated by a heart attack when she caught a glimpse of her property in the grip of the flames.

Absence of wind, except a slight breeze from the south, removed danger of spread of the fire to other buildings in the vicinity. It was possible further damage. C. A. Boas, Rogerson merchant, telephoned to E. F. Frazer, sheriff, and to Twin Falls city officials, asking that Twin Falls fire department be dispatched to see to the fire.

BALMER AGAIN IN TOILS

Ray Balmer collided with the law last evening when he carried an altercation from a Shoshone street car room to the intersection of Main avenue and Shoshone street, and there, according to witnesses, knocked down and trampled Jack Nash, who had somehow incurred his dislike.

Balmer spent the evening in the city jail, and, it was stated, charges of assault and battery will be lodged against him in police court today.
