BORAH PROGRESSES IN EFFORT TO WIN APPROVAL OF PACT Idaho Senior Solon Offers Resolution for Ratification and Early Disposition of Treaty Looms

WASHINGTON, July 19 (By The Associated Press)—Ratification of the London naval limitations agreement early next week seemed more probable than ever as the opposition ended its speech-making and permitted the text of the treaty to be formally approved.

The end of the stubborn fight waged by the minority and under Senator Johnson, Republican, California, was heralded as the only two amendments offered to the treaty were shooed down without record vote.

Johnson started today's session with a long speech in which he decried the treaty for the last three days, but his voice was hoarse and after a short address he yielded for the ratification of the text of the treaty.

Chalmers Borah of the foreign relations committee, who left charge of the treaty, then offered the resolution of ratification. He assured Senator Johnson that he had no intention of seeking a record vote and would take it up in regular session on Monday. The rules require the resolution to lie over a day.

The days of continuous debate continued by the group of opponents had obviously tried them. Some gave notice today to their leaders they would not vote on the treaty.

During the reading of the treaty articles, Senator Hale, Republican, Maine, and Senator Bennett, New York, constantly peppered Borah with questions, thus drawing the propounds into the debate which had deteriorated into a series of personal attacks.

Senator Borah and Reed agreed that the amendment was unnecessary. They insisted that under the clause the United States has the right to build a canal which shall be used to protect herself.

FEATURE LASHES FROM FAR-FLUNG FOREIGN FIELDS

Communist Bands, Taking Advantage of Civil War, Spread Terror In China

Conditions Become So Bad Thousands of Peasants Flee From South Part of Nation to Pacific Islands

By MORRIS H. HARRIS
(Associated Press Correspondent)
BEIJING, July 19 (AP)—The red terror, taking advantage of civil war, is sweeping vast areas of China. Good and bad is the rule wherever the communist bands strike.

Conditions have become so bad that thousands of famished peasants, selling peasants on whom China for centuries has depended for its rice, are fleeing from South China to the islands of the Pacific and to the Malay peninsula.

With hordes of their brethren in the famine war of northern China, the north moving into the more progressive regions of Manchuria, the two great mass cities in progress.

Government Powerless
The nationalist government has been powerless to stop the ruin that has been spreading in the south. With a powerful force of northern rebels, operating in many instances the government armies, in the field, the nationalist regime has had to fight for its life. In fact the steady concentration of troops in the north has served to weaken the force for the red guerrillas to the south.

Kwantung and Kwangtung provinces are both literally in a state of anarchy. Notably the government remains the same but outside the major cities, all too well equipped for the communist hordes to attack, few towns have escaped being sacked.

Great Panic Afoot
Southeast Fujian has also fallen to the hands and the gangs, pillaging as they go, are pushing farther afield, evidently bent on taking Swatow before long.

In Southwest China, conditions are almost identical. From far off Yunnan and Kweichow come vivid descriptions of terror inflicted by the communists. Press dispatches from Hupuh speak of a Red invasion and the hundreds of thousands being established at Hankow.

In practically all instances, the communists have a local base, being anti-foreign. Missions have been looted, their churches and schools destroyed, missionaries and school teachers held for ransom and subjected to horrible tortures. Some have been killed.

Chinese Flee Badly
The Chinese often fare worse than their neighbors. They are usually tortured when communists enter a town and those who possess wealth have to flee. Many are summarily massacred but several cases have been reported where merchants have been bound and burned to death.

The farmers are the heaviest losers. If they happen to live in the war zone, the soldiers take what they have. In other sections, large numbers of peasants have been held for ransom and subjected to horrible tortures. Some have been killed.

Nude GULFS FLOURISH ALONG FRENCH RIVERIA
ETZ, MAXINE, France, July 19 (AP)—With the arrival of summer nude cults began springing up the Mediterranean. In Southern France, Greece and Italy, four have been located between Toulon and the Italian border.

Some of the nude cults occupied the top of a mountain in Cannes. The Cannes doctor who headed the colony was a heavily fined and his 40 followers were given a fortnight to leave France when they started for Italy where they were told the winters would be less rigorous.

The new colonies live behind high walls surrounding huge estates and in two cases have private beaches. "Bathing in the nude" is a common night time diversion all along the Riviera. One group was caught in the water one moonlight night by three men and the boat had to pay 100 francs before the intruders would leave.

POPE'S ENGLISH PROVES DIFFICULT FOR BISHOPS
VATICAN CITY, July 19 (AP)—The final of Pope Pius XI to permit interpreters at the quinquennial assembly with his bishops, the pope's linguistic talents of many American prelates to the test.

The pope's English is not adequate for a complete audience and he is making corrections in his own language in usual cases, such as from the Vatican. One visiting American, whose Latin was rather rusty, summoned up the courage and he had learned to his profit, and the pope's English proved to be a complete audience and he is making corrections in his own language in usual cases, such as from the Vatican.

TOWNS IN GERMANY TAKE NAMES FROM POINTS IN AMERICA

New York Proves One of Nation's Smallest Villages As Result of Teutons' Desire to Realize Ambitions

By WADE WERNER
(Associated Press Staff Writer)
BRNIN, July 19 (AP)—New York is one of the smallest villages in Germany; Pennsylvania has no schools and therefore sends children to Maryland every morning; Havana isn't big enough to have a post office; while Saratoga is larger than Maryland and Pennsylvania put together.

Such geographies is possible without any motorized distance of Berlin because Frederick the Great once took his harem to the train swamps and encourage agriculture.

Name New Homes
Reclamation of the swampy region in the vicinity of Berlin, the Wartbe Bruch, was so far advanced in 1763 that the enterprising Frederick began to look for settlers to put on it. They were slow in coming, so he offered land, buildings and other implements to the farmer willing to try the reclaimed soil.

As a result many German and Polish names have been given to the tract, including over-seas settled down in the Wartbe Bruch instead. By 1775 there were 18,000 of them.

Now the man really likes to give going to the place of his dreams. Many of these settlers had saved for years to get to America. They had heard of the new German settlements and that reminded them of the journey they never took.

Settlements Small
The names still may be seen on maps and directories, but the settlements themselves have not prospered to the extent as they are commonly supposed. Quizzes have entered four houses; Florida, never had anything like a boom the roofs are still covered in winter and even Boston number only 10 dozen inhabitants. Practically all of New York would be put into the Grand Central station.

Samatra, Transvaal, Jamaica
Other names handed down to their descendants by folk who listened to Frederick and missed the boat.

Palace Goes Under Hammer in Europe
Continent's Most Westerly Point, Monserrate, Portugal, Forced Upon Market

MONTSERRATE, Portugal, July 19 (AP)—High maintenance costs and heavy taxation have forced on the market the Palace of Monserrate, a majestic mansion lying at the most westerly point of Europe.

The palace was bought by James Knollys for Sir Francis Cook, first Viscount of Montserrat, and the present chieftain, Albert Knollys, is making only brief appearances here, being detained by business in England.

Not far from the palace, and belonging to it, is the "Cork Convent," named because its interior is chiefly lined with sheets of cork. The convent is partly housed over a rock and was used as place of punishment for recalcitrant monks from the monastery of Pena.

Slashed in Cuban Budget

DUBLIN, July 19 (AP)—The birth rate in the Irish Free State, according to local official figures, is still high. Dublin leads with 21.1 births a hundred at population, Cork coming next with 20.6.

American Supplies Money to Build Home for Turkish Hearth Society

By PRISCILLA KING
(Associated Press Correspondent)
ANGORA, Turkey, July 19 (AP)—American philanthropy and Musulman both had parts in the creation of Angora's most magnificent building, the headquarters of the Turkish Hearth Society.

The beginning of this marble "place of culture and nationalism" was made possible by a gift of \$100,000 from the late "Golden-rule" (Nash, Cincinnati) manufacturer.

With this as a starter, the Turkish Hearth Society, an eastern equivalent of Mussolini's youth fascists, raised the thousands more which have gone into this million-dollar building.

Designed by a Turkish architect, Hulusi Bey, it is a striking departure from most of Angora's new occidental buildings in its faithful adherence to old Turkish architectural ideas.

Tributes to Mr. Nash, to the American Youth Movement, Christian League and the League of Nations are inscribed on the building.

RUSSIAN REFUGEES FIND SAFE HOMES IN SOUTH AMERICA

Green Hills in Vicinity of Gaunabara Bay Prove to Be Haven for Mennonites Fleeing From Persecution

By The Associated Press
RIO JANEIRO, July 19 (AP)—Sighting the green hills of Mennonites fleeing from persecution in Russia, said:

"What a beautiful country! Here we should be happy."

Kutschera and his party comprised the second large group of Mennonites fleeing from their persecutions of religionists and successful farmers to find a haven in Brazil.

The building contains the finest theater in the Near East, reception rooms decorated in the old Turkish style with divans of rare brocade, life-size paintings with cap-hoods, and self-colored tiles, frescoes, and rug, a library, a printing press, and recreation room. All this is for the youth of Asia Minor when the Kemal government would teach to abandon the mud-brick ideas of their fathers.

The Turkish Herald began humbly 20 years ago when a group of students, dedicating themselves to the spread of culture and social betterment, met secretly in the oppressed city of Beirut. With the support of the new government and with the Junior Faculty as a stimulating example, the society has expanded to cover 12,000 members with 257 centers scattered throughout Turkey.

Sound Films Bring About Controversy Over Proper Use of Spanish Language

'Talkies' Fan to Flame Old Quarrel Between Royal Academy, Held Authoritative, and Latin-Americans

By JOHN LEAVIN
(Associated Press Correspondent)
MEXICO CITY, July 19 (AP)—When the Latin-American peoples rebelled against "talkies" in English, Hollywood producers thought to give them what they wanted by turning out pictures in Spanish.

Latin-American wants, however, in the way of Spanish, proved difficult to fill. This especially was true when the viewpoint of Spain was taken into consideration.

Quarrel Renewed
This fanned into flame an old family quarrel. The Royal Spanish Academy always has considered the acme of authority on the Castilian tongue, but seldom has such a challenge been hurled across the ocean.

To make matters worse, some of the Spanish "talkies" from Hollywood seemed to uphold the Royal Academy's dictates on how Spanish should be spoken. They even favored the *lisp*, and that is something which Latin-Americans never have accepted.

Latin-Americans like to place credence in a story that the Spaniards' speech with a lisp because certain kings of Spain, many centuries ago, had a hair lip.

SEGO MILK

A WIDER MARKET for local products

The market for milk produced in the Twin Falls county extends over the entire intermountain territory... an expansion made possible by the Sego condensery at Buhl. This means a great deal to local dairy men. It means larger opportunity... more stabilized conditions in Idaho's foremost dairy region.

The Sego Milk Products Company is always glad to assist in every way possible to build up a greater dairy industry. Let's get better acquainted, for our mutual benefit. Visit our plant, talk to the Superintendent about your dairy problems.

We are sure you'll be interested in going through the plant and seeing the modern equipment and methods, and observing the great care employed to insure the producer getting a true and accurate test on his milk.

Be sure—tell your grocer you want Sego Milk and see that you get it. When you pour Sego, see how much more delicious it is than ordinary condensed milk. Sego is noted for its distinctive finer flavor, its delicious creaminess and its uniformity. It's Sego that's best. Sego is to know evaporated milk in its finer form.

WOMEN'S CLUB AT KIMBERLY GATHERS

Members of Ladies' Pioneer Organization Assemble at Home of Mrs. M. B. Gill

KIMBERLY, July 19.—Kimberly Ladies' Pioneer club met at the home of Mrs. M. B. Gill on Thursday afternoon. Mrs. J. M. Mason, president, presided over the business session which featured a magazine review by Mrs. E. D. Wilkerson. Mrs. C. O. Hays gave two interesting papers on "National Resources" and "Public Instruction." Mrs. W. A. Cull, Mrs. Hattie Fletcher, Mrs. Gerald Douglas and Mrs. Joe Laughlin served refreshments.

Mrs. John Ogs and Mr. and Mrs. Bert Stanton and daughter, Peggy, returned Friday after a visit with Mr. Ogs, who is a patient at the Idaho State hospital.

Mrs. Zma Jones, Crater Lake, Washington, former Kimberly pioneer resident, is a guest of Mrs. P. E. Wilson this week.

Miss Helen Wood, Aurora, Nebraska, arrived Thursday for a few days visit at the home of Mrs. Edna Wood, before continuing her trip to Stockton, California, to visit Mrs. George Freeman and family.

Mr. and Mrs. Judd Bennett and sons, Alfred and Keith, and Mr. and Mrs. Fay Hancock, and children, returned from Kansas the latter part of the week. The Bennetts assisted in the wheat harvest in southern Kansas.

Mr. and Mrs. R. H. Denton are home after a four-week visit with relatives and friends in California.

Mr. and Mrs. Carl Hildgeway and sons left Sunday morning on a camping trip in the Sawtooth mountains.

THEATRES

Len Chesney and Ella Lee in "The Fubly Three". Len's first all-talking picture appearing this afternoon at the Idaho theatre for a run of three days.

Dry Groceries

In days gone by, people bought but few items in canned or packaged foods in summer time. Today, there are thousands of dry grocery items purchased daily. Our stock of dry groceries is complete every day in the year. Look our selves over. You'll be pleasantly surprised at what you'll find.

Home Grown Vegetables

Home grown vegetables of many varieties are now on this market—and our store makes it a point to stock only the freshest and the best quality. Each item is fairly priced, too, and you can pick out your own at our store. So, everything about our fruit and vegetable department will please you.

Think of Your Automobile In Terms Of Tomorrow

The first cost is important because it may mean an immediate satisfactory saving. Of equal importance is the ultimate cost after thousands of miles of service. This ultimate cost is the true measure of automobile value.

The low ultimate cost of the new Ford is the result of sound design, Quality of material and unusual care in manufacturing. Friction and wear are reduced by the accuracy with which each part is made and assembled.

Service charges are on the same fair, economical basis as the making and selling of the car and replacement parts are always available at low prices. In one, two or five years depending on how much you drive the saving in operating and maintaining the Ford will amount to even more than the saving on the first cost.

THINK IN TERMS OF TOMORROW THEREFORE, WHEN YOU PURCHASE YOUR AUTOMOBILE FOR TOMORROW WILL REVEAL ITS TRUE WORTH

P. SKAGGS "A SURETY OF PURITY"

Major Baseball Leagues Buy Stars Of Pacific Coast Early

Youthful Talent Gets Opportunity To Rise to Fame

Meryl Hoag, 20, Flycatcher For Sacramento Team, Goes to Yankee Club For Rumored Price of \$75,000

By RUSSELL J. NEWLAND (Associated Press Sports Writer)
SAN FRANCISCO, July 19.—Major league clubs are thinking they are in the cash boxes of Pacific coast league clubs this season earlier than usual.

Lured by reports of youngsters already ready for fast company, scouts from most of the big league clubs arrived early and are staying tight.

As a result two "kid" outfielders have been recommended as "prospects." Principal in the first big deal of the year, Meryl Hoag, flycatcher of the Sacramento Senators, was sold to the Yankees for a price reported around \$75,000. He will report in 1931.

The youngster, playing his second season with the Senators, is rated as one of the most brilliant recruits uncovered in years. He is right-handed and bats right-handed and has hit steadily at .275 mark.

Details of the Hoag sale were barely heard up here when Harry Rosenberg, 21-year-old outfielder of the San Francisco Mission, was reported to the National league club in mid-season after having played but three months of professional ball.

A substitute with the Mission, Rosenberg was driving a truck morning for his brother and running the bench at a party in the afternoon. When one of the regulars got into a bawling snipe, Rosenberg was sent in and his heavy hitting won him a steady position.

He throws and bats right-handed and for something like 40 games hit for an average of nearly 400. The Mission picked him up this spring from the local team led by San Francisco's Seals turned up with the best amateur here in 12 years, Hoyes-old Frank Crosetti.

Scouts from eight big league teams reported on the fourth whose owners are said to value him at between \$50,000 and \$100,000. He has hit consistently over .300.

The Oakland club, which sent Lyn Lary, shortstop, and Jimmy Reese, second baseman, to the New York Yankees, has four prospects. Two of them are Pete Daglia and Howard Creaghead, husky right-handed pitchers.

The others, Johnny Verger, third baseman and Frank Crosetti, left fielder, have attracted attention. The Brooklyn Dodgers especially being interested in Verger, especially being interested in Verger.

When the Sacramento team disposed of Hoag, the spotlight was turned upon Tom Priddy, left fielder who led the league in pitching for the first half of the season. Priddy, high school star in 1926, stepped in as a regular this season for the first time and celebrated by chalking up eight successive victories.

Harry Rosenberg, formerly of the Mission club, and Meryl Hoag of Sacramento, of the Pacific coast league, already have been purchased by big league clubs this year. The San Francisco Seals, who a star shortstop, Frank Crosetti and Sacramento has Tony Freitas, left handed pitcher, who also are drawing the attention of scouts.

Dixie Boys Invade Golf Links Early

Nine-Year-Old South Carolina Youth Shoots 98 in Tournament For Juniors

GREENSBORO, N. C., July 19 (AP)—Taking a tip from Bobby Jones, who won his first title at the age of 13, a Dixie is spreading a bumper crop of youthful golf stars this summer.

The kids are winning recognition so fast that when nine-year-old Charles Dudley, Greenville, South Carolina, who is starting 98 in the 1930 tournament, he landed in the ninth flight of the Carolina Junior meet at the Seaside field course here.

Runner-up playing with larger and older boys, he was runner-up in his division of the meet, which drew 120 boys from the age of 8 to well up in the teens.

Dudley, who has remarkable form and accuracy, may follow Jones' path and start playing with the group by the time he is 12 or 13.

Once the president of the junior competitors was an eight-year-old Davey Crismon, Durham, North Carolina, who won the fifteenth in short order, taking by 8 and 4. He played 13 holes and didn't lose or have a station.

GATORS-HOME STATE GAINESVILLE, Fla. (AP)—University of Florida football is a state-wide spectacle. Of the Gators' seven "home" games only three will be played in Gainesville. Two will be played in Jacksonville, one in Tampa and another in Miami.

Debut As Hurler In Majors Fails To Thrill Phelps

Robins' New Pitcher Faces "Big Guns" of National League as Nonchalantly As In Work For Minors

(By The Associated Press) BROOKLYN, July 19.—Take a glance at those boys whose pitching has helped the Robins to lose "sixth place blues" this year, and you'll see Raymond (Rube) Phelps.

It is Phelps' first year in the big show, and his hurling has won him a place on Brooklyn's corps of starting pitchers, but Phelps is today unconcerned about it.

In fact, he is oblivious of all the thrills that major league play normally offers to the boys just up from baseball's hinterlands.

Retical almost to a fault, a typical diamond sponk, Phelps faces the "big guns" of National league line-ups just as nonchalantly as he used to team for Jacksonville in the Southern league. The O'Doul, Winters and Cuppers look like any other batters to him.

His indifference, however, didn't stop him from winning seven out of nine games in the first 12 times he appeared on the mound for the Dodgers. Only the Cubs defeated him during that time.

Late last season the Robins bought him for \$10,000 on the spot of Rube Marquard, Jacksonville's manager—this—the Robins' manager. Phelps was ordered to report immediately.

But a call to the majors meant little to Rube, who felt tired at the Alabama to rest a bit.

After Marquard made a special trip to argue him into reporting, Phelps promised to join the Robins this spring.

"Uncle Wilbert" Robinson, who was asked because Babe had failed to show up, said the hard street and would satisfy if the rookie made good.

Talks frequently seldom does Phelps have a word to say on the playing field. They tell the story that Babe learned his lesson one day in his boyhood, after he and a neighborhood buddy had been busy for hours in silence. "You can talk," remarked Babe, along toward nightfall.

"Shut up, chatterbox," replied his companion, and since that time Babe never has tried to force the conversation.

Cuban Comes Back To Dazzle Texans

Success of Oscar Turo in Hurling 11 Victories of 12 Starts, Proves Upright

(By The Associated Press) SHREVEPORT, La., July 19 (AP)—At the end of last season Texas league fans and everyone connected with the loop thought Oscar Turo, ancient Cuban hurler, was through. That is, everyone but Oscar himself.

Now at the middle of the 1930 season, Turo is one of the best of the league's pitchers with a record of 11 victories in his first 12 starts, as a member of the Shreveport Sports staff.

Despite the fact that he had a successful season last year, with Shreveport, Manager Art Phelan thought old Oscar's usefulness was at an end, and so did officials of the other seven clubs.

Turo shopped about all winter seeking a job, but was unsuccessful. Came spring training, and the Cuban asked Phelan for a chance. Phelan, because of sentiment, he was given a suit, and thereby the Sports got a break.

Always a slow worker, Turo has been pitching even more deliberately this summer despite the fretting and fuming of opposing players and fans. He just adds more balls to the ball, and goes on his way winning ball games.

In a recent game with New York, Al Lopez, Brooklyn catcher, scored on a "bunt" the Cuban "best infield" in the majors, was guilty of two wild pitches.

Ill with Lumbago

Lipton's Vessel Sails to States "Shamrock V" Begins Ocean Voyage in Quest of Cup For United States Races

PORTSMOUTH, England, July 19 (AP)—"Shamrock V" Sir Thomas Lipton's latest challenger for the America's cup, started on her voyage across the Atlantic today to the accompaniment of cheers from a vast crowd and a armada of able stern, but was held up by stormy conditions.

The craft on which Sir Thomas had placed his hopes to achieve his ambition of capturing the "famous" cup, tonight was anchored in the Spithead roadstead sheltered from a stiff blow and a turbulent sea. With her Sir Thomas' steam yacht, "Erin," which will escort her across the ocean.

Late tonight the "Shamrock V" was taken in tow by the "Erin" and moved from Ryde roads up the Spithead roadstead toward Cowes, where the yacht races are annually held. The weatherly wind was greatly abated and the water much calmer.

During the night the "Shamrock V" will remain under the lee of the Isle of Wight, and in the morning if weather reports are favorable she will set sail again with the "Erin."

Captain Hurd of the "Erin" expected to reach the Azores in a week and to complete the long voyage within one month.

ARMY POLIOISTS WIN RICHMOND, N. D., July 19 (AP)—The United States army polo four defeated the Elkwood club here today 13-2 in a first round match for the national junior polo championship at Hudson County club. Play in the tournament was limited to 20-goal teams, army today being rated at 19 and Elkwood 16.

WESTERN LEAGUE Topeka 5, Wichita 10 Pueblo 3, Omaha 10 St. Joseph 1, Oklahoma City 2 Denver 2, Des Moines 5 Wilson (Buster) Charles, Hasked Indian athlete, is seen in the mid-left, with a possible American declaration record breaker.

All Coast Clubs Plan Night Tills

LOS ANGELES, July 19 (AP)—The entire Pacific coast league may be following the lights of night life before the 1930 baseball season is brought to a close.

It all depends on whether the San Francisco clubs follow in the footsteps of the other members of the circuit, and it looks as though they might.

Excitement set the example early in the first half of the night season, and made a go of it with Los Angeles, Hollywood, Portland and Seattle following suit. Now Oakland has let a contract for installation of lights.

At present the Mission and Seals alone remain on the daylight plan.

Gate City Youths' Nine Claims Title

(By The Associated Press) BOCA RATON, Fla. (AP)—Florida American Legion junior baseball team won the East Idaho title today by defeating the Idaho Falls nine, 6 to 5, thus earning the right to meet New Plymouth and the Lewiston or Kellogg team for the state championship.

The title event will be held at Idaho Falls August 7. Boca Ratons will win the state bantam four times.

AGUA CALIENTE, Mexico, July 19 (AP)—The Agua Caliente Jockey club is making an effort to get Galena, Tex. abandoned here for a second annual running of the Agua Caliente handicap next spring.

Should the sensational three-year-old win the \$100,000 added feature, officials of the Baja California track are confident they will be in ahead of the great Zev, as the world's largest money winner.

WALTER P. CHRYSLER PRESENTS TWO NEW STRAIGHT EIGHTS

All progress is change. Only by change do man and the factors of his civilization move from the lower to the higher state; from the crude to the finer development.

Our Chrysler engineers devote their lives to study, to analysis, to experimentation. And out of this constant searching and trying come the knowledge, conviction and design that lead to progress.

In introducing two completely new New Straight Eights, in addition to our lower-priced Chrysler Sixes, we now register our most important change and progress—all designed, all worked for, all created to give the world better and more satisfying transportation.

In our progress there is no departure from fundamental principles. To maintain public approbation, we must give always finer, more dependable, more dynamic car performance—must offer always greater value, as well as cars better suited to the needs of modern transport.

Thus, our latest Chrysler—the new Chrysler Eight and the new Chrysler Imperial Eight—containing as they do, superior engineering, superior materials—are, we believe, milestones along the course of automobile progress.

We are proud and eager to submit these cars to the inspection and test of the public.

W. P. Chrysler

CHRYSLER EIGHT: Standard Model—Roadster, \$1400; Coupe, \$1500; Sedan, \$1600; Special Coupe, \$1800; Special Sedan, \$1900; Special Convertible Coupe, \$2100; Sport Roadster (six wire wheels and trunk rack), \$2100. All prices f. o. b. Factory (special equipment extra). CHRYSLER IMPERIAL LIGHTS: Seven-Passenger Sedan, Sedan-Limo, Five-Passenger Sedan, Closed-Coupled Five-Passenger Sedan.

(By The Associated Press) **BROOKLYN, July 19**—Chicago Cubs climbed into a virtual tie with Brooklyn's Robins for the National league lead today, trailing by only a few points after winning the final game of the season 5 to 4. Chicago won four games of the five.

Dazzy Vance, pitching with only a day's rest, performed well for five innings with an early lead given him by Babe Herman's home run in the first. The Dazzer lost command in the sixth when English's triple and Dick Wilson's twenty-sixth home run of the year put the Cubs ahead and a single by Stephenson and a double by Hartnett netted another run.

Brooklyn rallied and knocked O'Brien out of the box. A pass a single by Gilber's triple and O'Brien's double scored three runs. Teasdale cracked the rally with the tying run on second. Charley Root protected Chicago's one-run lead in the ninth, fanning Wright and Lopez.

Joe Vance Finds July Third Jinx

MACON, Ga., July 19—Joe Vance, Macon baseball player, claims the world's record for catching bases—13 seconds flat—but he can't run away from trouble on July 3.

That's his jinx date, he says, and gives the following reasons: July 3, 1904—hit over head with chair and seriously injured in free-fall in Mexico. July 3, 1907—rib cracked when water tank fell on him. July 3, 1928—two ribs broken by fast ball in Texas. July 3, 1929—broke a finger playing ball in North Carolina. July 3, 1930—four front teeth knocked out when hit in mouth by high fly at Macon.

He wants congress to remove the date from his calendar.

Ride with PEP 88 ETHYL

the anti-knock GASOLINE

Quick-starting... fast pick-up... and a smooth, rhythmic flow of sustained, steady power! This new wonder fuel has us its like the marvelous PEP 88 gasoline, which is itself so good that only one thing—Ethyl fluid—could possibly make it better.

No other Ethyl gasoline can give you the performance of PEP 88 ETHYL. Cream doesn't make mediocre coffee good—and it takes a good gasoline as a base to make a superior milkshake fuel.

PEP 88 ETHYL "knocks out that 'knock'" in cars of average compression, and brings out the additional power of the new high-compression cars.

Moreover, PEP 88 ETHYL cuts motor repair bills, because it keeps your motor cleaner.

So you'll find the few cents extra you pay for PEP 88 ETHYL over regular gasoline to be the best investment you can make for motoring pleasure and economy. Look for the PEP 88 and ETHYL emblems on the pump.

Marquard Continues to Set Pace For Southeastern League Clubs

JACKSONVILLE, Fla., July 19 (AP)—After 23 years of baseball, a score of them to the major, Babe Marquard's better known as Babe Marquard still packs that old apple.

BABE MARQUARD

The boy wonder who attracted John McGraw's attention in 1907 when he burst up the American Association for Indianapolis, is approaching middle age now but still takes his time on the mound.

Despite the fact that Jack McGraw's attention, by the time he reached major age he was one of the game's best when Matthewson, Wolf, Johnson, Bender and Frank were losing their grip.

He was one of eleven major league pitchers who had won 200 games. He hit about 100 times. His tour of the National league took him from New York to Brooklyn, Chicago, Boston and back to

St. Louis, where he led the league in 1913. He was in the first half of the split season.

His young pitchers are coming along well.

Open Net Tourney Begins at Denver

Denver, July 19 (AP)—With many of the big seeded stars still absent, the Colorado open tennis tournament got under way today in what amounted to an elimination of sufficient local talent to make way for the more important matches next week. The games having an immediate bearing on the championship are expected to be started Monday.

Edgar McHenry, formerly of Salt Lake City, defeated Merle Ogilvie, Rocky Mountain conference collegiate champion, 6-4, 6-1, in a feature match.

Wood swamped Portland today, 20 to 4. The Stars hammered three Deaver pitchers for 20 hits and in the fifth inning scored seven runs off Pullerton, Mickey Heath and Oler-Brennan hit-home runs for victory.

The score—R H E
Portland 20 4 1
Hollywood 3 20 3
Batteries: Pullerton, McQuaid, Casarella and Woodall; Turner and Deaver.

SOLONS 7, SEALS 6
SACRAMENTO, July 19 (AP)—Sacramento defeated the San Francisco Seals 7 to 6, after a three-inning contest here tonight. The score was tied 4 to 4 from the start.

The score—R H E
San Francisco 6 11 0
Sacramento 7 10 0
Batteries: Perry, Zim and Oakland; Vinci, Gould, Gillitt, Freitas, Thomas and Wirtz.

The Yankees this year fear the Washington team more than the Athletics.

No other car under \$1000 gives all these valuable features

ALWAYS FAR IN ADVANCE—NO MIDSEASON MODEL CHANGES
Along with cars under \$1000, the Graham Standard Six, at \$845, presents this group of exclusive features of value and quality.

- 115-inch wheelbase; four wide doors
 - Six-cylinder 66-hp. engine, 3 1/4 x 4 1/2, with 207 cu. in. displacement
 - Silent-chain drive for both water pump and generator
 - 7-bearing crankshaft, with main-bearing area 81.4 square inches in total. Cam-and-lever steering gear
 - Adjustable foot pedals; rubber pads; treadle accelerator
 - Internal hydraulic brakes, with big 12 in. drums
 - Lowest cost of 66.8 cents per pound of live weight
 - Graham-body body, of true Graham quality—finer finish, finer upholstery, finer trim
 - And shatter-proof safety plate glass throughout at the lowest extra cost ever placed on such equipment
- At lower prices, your money buys in a Graham far finer quality, far finer value, far finer comfort, far better performance, far more economical operation and maintenance. Can there be any question as to which car to buy under \$1000?

Six Stars Clash For Clay Court Titles

Missouri Valley, Eastern and Old South Stars Vie

Sextet Awaits Signal to Begin Contest for Singles and Doubles Championship in National Tournament

(By The Associated Press)
KANSAS CITY, July 19—Three ranking tennis players of the Missouri valley, two from the eastern and one from the old south will compete tomorrow for the singles and doubles championships of the twenty-first annual national clay courts tennis tournament.

Championship pairings were finally determined today, when Wilbur F. (Junior) Cuen, Kansas City, advanced to the singles final with a straight set triumph over Herbert L. Bowman, New York City, and the defending doubles pair, Frederic Mercur and J. Gilbert Hill, Hagerburg, Pa. In a very hard-fought match, Mercur and Hill will meet Wray Brown and Harris Coggeshall, St. Louis and Des Moines.

Bullwinkle Stays Out of Big Meet

NEW YORK, July 19 (AP)—George H. Bullwinkle, New York university runner, who started the track world by winning the mile at the Inter-Collegiate American Amateur Athletic association games will not participate in the National Amateur Athletic Union meet at Washington, Bullwinkle, now touring Europe with four other American college champions, decided to join an educational tour through Russia. In less than three months Bullwinkle sprang into prominence with an Inter-Collegiate 4-mile victory, a third in the half mile at the same meet, a near world's record and three quarters of a mile at the Penn relays, two triumphs in Europe, and eight straight victories in college dual meets this spring. Bullwinkle expects to return to America in time to enter school this fall.

Hailey Net Stars Complete Tourney

HALLEY, July 19 (Special to The News)—Tennis in the mixed doubles at the Knott court here were played Thursday evening, when Shirley Cunningham and Hattie Park emerged from the amateur tournament with the prizes, a meal handicap for Miss Cunningham and a fountain pen for Mr. Park. In the younger folks' tournament, Paulita Arriga and Tommy Walker were victors. They also received prizes.

Present Prosecuting Attorney

E. V. LARSON
E. V. Larson, who was elected prosecuting attorney for Twin Falls County at the last general election and who is now serving the county in that capacity has filed his certificate of nomination for the same office at the Republican Primaries to be held Aug. 6th, 1930.

Mr. Larson is asking the Republicans of this county to support him for a second term in this office.

Macfarlane and Farrell Battle To Tie on Links

ELMSFORD, N. Y., July 19—Two former national open champions, the Glasgow New York club, Macfarlane, were defeated at 200 at the end of play in the 72-hole Metropolitan open golf championship today. The tie will be played off tomorrow at the Fairview Country club.

Easy Victory Goes To Blue Larkspur

Three-Year-Old Champion of America Captures Arlington Cup and Purse

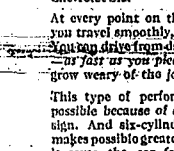

ARLINGTON PARK, CHICAGO, July 19—Blue Larkspur, 1022, three-year-old champion of America, captured an easy victory over a select field of five in the Arlington cup, with 45,000 added, before 30,000 overlying racing fans at Arlington park today.

For Speed, Smoothness and Economy

Get out on the straightaway—step on the gas—and you'll know your owners are so enthusiastic about the Chevrolet Six.

At every point on the speedometer you travel smoothly, quietly, safely, as fast as you please—and never grow weary of the journey.

This type of performance is only possible because of six-cylinder design. And six-cylinder smoothness makes possible greater economy—so it saves the car from the strain

The Chevrolet Six

and wear of vibration—resulting in fewer adjustments and longer life. Come in. Learn once more to drive a car for the sheer thrill of driving!

Some Distinguishing Features
50-horsepower six-cylinder motor... full-length frame... four semi-colic springs... fully-enclosed four-wheel hub ends... four Leveley hydraulic shock absorbers... Fishbe hardwood-and-steel body... safety gasoline tank-in-the-rear... and, for your protection, a now and liberal service policy.

Rival Cities' Golf Stars Battle for Claims to Smith

Scene of Celebrity's Early Training and Seat of First Professional Work Plan Match to Settle Dispute

(By The Associated Press)
JOLIEN, Mo., July 19—Two Missouri cities whose rival claims to Horton Smith, the golfing celebrity, have been disputed for the last several years, are going to take to the links to settle the point.

Yankee Net Stars Win Over Italians

Forces From United States Clinch Series and Enter Challenge Round For Cup

AUTREUIL, France, July 19—America overcame a fighting Italian team today to enter the challenge round for the Davis cup.

Hard Tussle

The Trieste nobleman then paired with Pacifico Gastini in a last-minute shift of the doubles lineup and gave the crack American combination of John Van Ryn, East Orange, New Jersey, and Winona Allison, Austin, Texas, one of the hardest tussles they have had in many a day. The match went to the sets, provided some brilliant ball tennis and ended with the Americans on top by scores of 5-7, 6-2, 6-4, and 6-1.

BULLS TAKE PROFIT ON SECURITY MART

Day's Decline Virtually Equals Loss of Previous Session on Stock Exchange

Markets at a Glance

NEW YORK, July 19 (AP)—Stocks: Heavy traders say under week-end profit-taking...

By JOHN L. COOLEY

Associated Press Financial Writer

NEW YORK, July 19.—The bulls agreed today that directional work is better than and profit in stocks after a fortnight of most steadily rising prices.

For the first time in several days, however, there was no closing in its absence suggested that the short interest had been eliminated...

Today's decline virtually equaled yesterday's loss. Measured by the average of the market was recovered about 34 per cent of the ground lost in the April-June decline...

There is a growing belief in commission-house circles that July will set the bottom of the business depression, particularly in the basic steel industry.

ELEMENT OF TIME LOOMS IN SCHOOL DISTRICT'S SUIT

Possibility of Bank's Recovery of Money Paid on Unauthorized Order Figures at Close of Trial

Whether Twin Falls Bank and Trust company could have recovered the money if it had known within a reasonable time that it had cashed an unauthorized order for \$250 of Miss Viola Lowe school district funds in September, 1928, is an outstanding question, brought upon the outcome of the suit brought by the school district to recover the money from the bank.

This was developed yesterday during the trial and the fact of it fell to the school district's suit in district court here.

Presenting the case for the bank, Frank E. Shepley, Twin Falls, former attorney general, contended that the bank could have recovered the money if it had known within a reasonable time that the order was forged or unauthorized. He contended conditions changed in the bank in February, 1929, so that the bank could not recover the money. He contended, further, school district officials, among whom he included the county auditor, had been careless and negligent in their failure to discover the unauthorized order earlier and for that reason the district should be estopped from presenting any claim against the bank.

Challenge to Bank

In reply, M. J. Sweeney and E. M. Sweeney, attorneys for the district, challenged the bank to produce the person for whom it had cashed the order in question, which was endorsed with the name of Frank (former county superintendent of public instruction), and the initials "V. L."

The district, it is asserted, are those of Miss Viola Lowe, former teacher in the office of the county superintendent, who was convicted last December of forgery of a school district order for warrant.

The outcome of trial in the Miss Viola Lowe suit will have a direct bearing upon this amount by 22 of the county's 37 rural school districts for recovery of approximately \$16,000 from Twin Falls Bank on account of cashing as yet unauthorized school district orders for warrants.

Before closing of the case yesterday, Judge W. A. Babcock reviewed carefully with the attorneys the evidence that had been introduced during the three-day trial, together with the attorneys' views of the case. Attorneys were granted leave to file letters or to argue legal questions involved if they desired.

POULTRY CLASSES PROVE BENEFICIAL

Increase in Production and Better Chicks Result From Adoption of Rules

Approximately 75 per cent of the poultrymen who attended the evening classes at the Twin Falls high school during the last school year, under the auspices of the department of Smith-Hughes agriculture, are following improved practices. It was revealed by a survey just closed by John S. Pellhusen and C. L. Mink.

The school here was conducted by Mr. Pellhusen who was Smith-Hughes instructor here for seven years including the greater part of the last year, when he resigned to enter private activities. Mr. Mink, who was instructor at Pith was his permanent successor.

Revealing the survey the report says: "Variable results have been obtained and the majority of these poultrymen expressed their belief that they had saved a much higher percentage of chicks and increased their production and profit due to better methods outlined in the course." Improved practices which these poultrymen have adopted include: "limited amount of grain; providing vitamins through green feeds, sunlight, and roof flyer oil; wearing hats with caps; cutting flock regularly; changing and cleaning roosts more often; changing ventilation in house; getting blood tested; certified chicks; putting brooder house on clean grounds each year to avoid infectious and contagious diseases and reduce worm infestation; improving ventilation of brooder house by adding furnace electric brooder; starting chicks at 1000 after results from hatchery; feeding balanced, complete ration to chicks; providing fly screen for brooder houses; providing clean, warm range for pullets; separating suckers from pullets as early as possible to identify them; keeping them away from pullets."

"Poultrymen who attended the required number of classes and are now following improved practices include E. F. Wodke, Mr. and Mrs. O. Osterloh, Mr. and Mrs. E. H. Willis, Mr. and Mrs. Henry Wollhusen, J. A. Hennessy, Mrs. H. E. Fasmith, J. M. Knight, Mr. and Mrs. E. Bauer, C. S. O'Leary, Mr. Erwin Schreiber, W. R. Hill, Wallace Larson, H. J. Rickett, Lloyd Davis, Bill Bude, Deatley and L. S. Miller."

"Poultrymen who attended the required number of classes and are now following improved practices include E. F. Wodke, Mr. and Mrs. O. Osterloh, Mr. and Mrs. E. H. Willis, Mr. and Mrs. Henry Wollhusen, J. A. Hennessy, Mrs. H. E. Fasmith, J. M. Knight, Mr. and Mrs. E. Bauer, C. S. O'Leary, Mr. Erwin Schreiber, W. R. Hill, Wallace Larson, H. J. Rickett, Lloyd Davis, Bill Bude, Deatley and L. S. Miller."

PROHIBITION AGENTS MAKE NEW PURCHASE

The federal prohibition agents followed a customer to Sam Brackenburg's doorstep at his residence north of Twin Falls at about 11 o'clock last night when he is alleged to have delivered a pint bottle of moonshine whiskey to his patron. They took another one of those one of the federal men told Brackenburg when he came to the door to respond to their knock.

Brackenburg, the federal agent said, did not hesitate but turned back to the house. He returned a moment later with the bottle which he delivered to the prohibition agents. Then they made themselves known to him, and he rode with them to the county jail where he spent the rest of the night facing prosecution on charges of violating federal prohibition laws.

So dense is the material on a companion star of Sirius that a match ball full of it would weigh a ton.

Seven tons a week of pennies were used by a large New York department store during the holiday season of 1928.

Revealing the survey the report says: "Variable results have been obtained and the majority of these poultrymen expressed their belief that they had saved a much higher percentage of chicks and increased their production and profit due to better methods outlined in the course." Improved practices which these poultrymen have adopted include: "limited amount of grain; providing vitamins through green feeds, sunlight, and roof flyer oil; wearing hats with caps; cutting flock regularly; changing and cleaning roosts more often; changing ventilation in house; getting blood tested; certified chicks; putting brooder house on clean grounds each year to avoid infectious and contagious diseases and reduce worm infestation; improving ventilation of brooder house by adding furnace electric brooder; starting chicks at 1000 after results from hatchery; feeding balanced, complete ration to chicks; providing fly screen for brooder houses; providing clean, warm range for pullets; separating suckers from pullets as early as possible to identify them; keeping them away from pullets."

"Poultrymen who attended the required number of classes and are now following improved practices include E. F. Wodke, Mr. and Mrs. O. Osterloh, Mr. and Mrs. E. H. Willis, Mr. and Mrs. Henry Wollhusen, J. A. Hennessy, Mrs. H. E. Fasmith, J. M. Knight, Mr. and Mrs. E. Bauer, C. S. O'Leary, Mr. Erwin Schreiber, W. R. Hill, Wallace Larson, H. J. Rickett, Lloyd Davis, Bill Bude, Deatley and L. S. Miller."

"Poultrymen who attended the required number of classes and are now following improved practices include E. F. Wodke, Mr. and Mrs. O. Osterloh, Mr. and Mrs. E. H. Willis, Mr. and Mrs. Henry Wollhusen, J. A. Hennessy, Mrs. H. E. Fasmith, J. M. Knight, Mr. and Mrs. E. Bauer, C. S. O'Leary, Mr. Erwin Schreiber, W. R. Hill, Wallace Larson, H. J. Rickett, Lloyd Davis, Bill Bude, Deatley and L. S. Miller."

POULTRY CLASSES PROVE BENEFICIAL

Approximately 75 per cent of the poultrymen who attended the evening classes at the Twin Falls high school during the last school year, under the auspices of the department of Smith-Hughes agriculture, are following improved practices. It was revealed by a survey just closed by John S. Pellhusen and C. L. Mink.

The school here was conducted by Mr. Pellhusen who was Smith-Hughes instructor here for seven years including the greater part of the last year, when he resigned to enter private activities. Mr. Mink, who was instructor at Pith was his permanent successor.

Revealing the survey the report says: "Variable results have been obtained and the majority of these poultrymen expressed their belief that they had saved a much higher percentage of chicks and increased their production and profit due to better methods outlined in the course." BURGLARS AT HANSEN TAKE EGGS AND CASH

Burglars who broke into the Hansen Service station at Hansen sometime Friday night made away with a bucket full of eggs, a basket of potatoes, a varied assortment of provisions taken from the shelves and 75 cents in copper pennies out of a cash register, according to report made to the sheriff's office here yesterday afternoon.

An instrument resembling a tire tool was used to force open a window through which the burglars entered the station. The young men in charge of the station during the afternoon, were not familiar with the place and did not discover the loss.

GAILEY DEFENDS CELEBRATION RITE

Hansen Man Asks \$5004.50 Of Town For Arrest For Shooting of Firecrackers

In a defense of his asserted right to celebrate the Fourth of July by lighting firecrackers and to recover \$5004.50 damages for alleged unlawful arrest and false imprisonment following his shooting of firecrackers at Hansen June 22, Tom Gailey, 22, Hansen, yesterday brought suit in district court here against the village of Hansen, its trustees, justice of the peace and the justice's bondsman.

In his complaint, filed by J. H. Bates, Twin Falls, attorney, Gailey charges that Hansen did not make a crime of shooting of firecrackers within the limits of a municipality, that such shooting of firecrackers is not disturbance of the peace as defined by the state statutes, and that a resolution passed by Hansen trustees on June 18 directing it to be unlawful to shoot firecrackers within the village limits was "not a general and enforceable ordinance, for the reason that it was not styled, or published, or enforced, or paid as by law required."

Gailey asserts he actually served five days in the county jail and then received his liberty by payment of the \$14.50 fine and cost.

Details Grievances
He asks for \$5000 damages on account of unlawful arrest and false imprisonment, through which, he says, he was greatly injured in his good name among his friends and neighbors, and suffered greatly to body and mind by reason of the noise, disgrace and humiliation.

"Edna Miller, justice of the peace who sentenced Gailey to serve five days in the county jail for contempt of court when Gailey failed to pay

Super-Service Station Marks Advance in Twin Falls Field

SITUATED on the site where the first building in Twin Falls was erected 26 years ago, Foss-Firestone Service Stores, Incorporated, of Twin Falls, Inc., at the corner of Main avenue and Fourth street south, Idaho's newest and most modern one-stop service station, offering 36 distinct services under one roof, which will be opened with a formal opening next Tuesday beginning at 7:30 P. M. and continuing to 11:30 P. M.

With music and dancing and distribution of gifts and refreshments the formal opening is expected to be a gala affair and a fitting celebration of the launching here of an outstanding enterprise.

Involving an investment of approximately \$50,000, Foss-Firestone super-service station represents the latest step in the development of one of the best business and business institutions, a step made necessary by rapid expansion of business and by desire to provide better service to patrons.

Anticipates Growth

Plans and specifications for the new building, which has been under construction for 90 days past and upon which workmen now are putting the finishing touches, incorporate many features calculated to make the structure peculiarly adapted not only for furnishing of prompt and efficient service, but to anticipate the growing pains which appear following the commercial course of the institution established here by Fred Foss, Jr., in 1914, as an automobile top, tent and awning store, which has enjoyed a steady growth and now has been incorporated in the Foss-Firestone Service Stores with an institution of nation-wide scope of operation and with immense resources.

Built upon three lots, the new structure, 125x100 feet in area including the concrete-floored service court, faces the corner with approaches both from Main avenue and from Fifth street.

It is a handsome building, constructed of brick and concrete, trimmed with art stone and terra cotta shields to match the Firestone hall-mark worked into the design of the building.

Four gasoline pumps, situated at the outer corner of the service court, lift gasoline from four great tanks with a combined capacity of 16,800 gallons, and these tanks, that are located underground beneath the concrete floor of the service court, are connected by pipe-line switches to carry gasoline direct from the great tanks into the storage tanks at the service station.

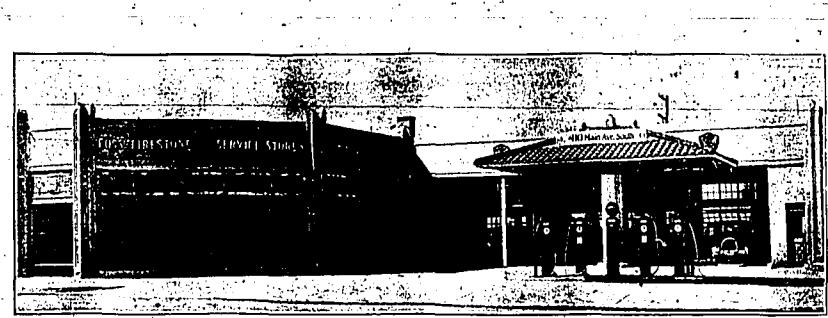

Two gasoline pumps on each side flank an oil pump at the outer corner of the service court.

Service Single Purpose

The interior of the building has been designed by experts and most modern and expensive equipment has been installed with the single purpose of furnishing a variety of services in the promptest and most efficient manner.

Outstanding among the services offered, with a department assigned to each all under the same roof, are these:

Drake testing and relining; axle straightening—wheel—spring—washing; body and fender work; automobile parts; automobile top; upholstery; canvas department;

Foss-Firestone Service Stores, Incorporated, One-Stop Super-Service Station, built at an approximate cost of \$50,000 on the site of the first building on Twin Falls townsite, that is to be opened at a formal opening and celebration next Tuesday evening.

batteries and service; vulcanizing; tires and tubes; accessories.

With the canvas department and accommodations for tire storage, comfortably in excess of requirements for a \$11,000 stock of tires now on hand, provided on a great mezzanine floor, these departments occupy the main body of the building.

A spacious display room, office rooms and women's rest room are provided in the wing that extends to the north.

The basement, shut off from the rest of the building, by fire-proof door and walls, houses the steam plant consisting of a big boiler, furnace and stoker, together with two air compressors, and fuel storage. A shower bath has been installed for employees in the men's wash room. Employees serving at the gas and oil pumps will wear an attractive uniform of light blue material and cap to match with the word "Foss" embroidered on it with gold thread.

While utility and facility in furnishing prompt and efficient service has been a main objective in designing and construction of the building, careful attention has been given to its beautification, extending to such details as the art-glass windows and terra-cotta window boxes full of flowering plants.

Personal of Specialists

Under general direction of Fred Foss, Jr., manager of each department is in charge of thoroughly trained and competent specialists in his line, many of whom have lately received training at the Firestone factory.

L. H. Walden, well-known Twin Falls district resident for a number of years past, is office manager.

Ray Errett is head of the brake testing and brake lining department.

Charles Hesel is head of the upholstery and automobile top departments.

A. H. Dykman is head of the battery and electrical service departments.

W. G. Jacklin is in charge of the body and fender work.

Machinery, tools and equipment with which these specialists and their assistants

THESE CONCERNS PLAY PART IN BUILDING OF NEW SERVICE STATION

Here is a list of the builders and other concerns that contributed to the construction and furnishing of Foss-Firestone Service Stores, Incorporated, one-stop super-service station that is to be opened with a formal opening in Twin Falls next Tuesday:

- J. B. BRENNAN AND COMPANY, Pocatello—General Contractors.
- GOODING PLUMBING AND HEATING—Heating and Ventilating.
- JWIN FALLS GLASS AND PAINT—Glass.
- F. A. GOODYKOONTZ—Spray Painting.
- KENDALL OIL—Sold at Station.
- GEM STATE OIL—Gas Sold at Station.
- OSTRANDER LUMBER COMPANY—Lumber.
- PALACE SAND AND GRAVEL—Gravel.
- MONTOOTH AND SONS—Cabinet Work.
- GRAYBAR ELECTRIC COMPANY—All Electric Supplies.
- KRENDEL MACHINE SHOP—Iron Work and Ornamental Structures.
- LOS BOOK STORE—Office Furniture.
- MOON'S PAINT STORE—Paint.
- DETWEILER COAL COMPANY—Iron Fireman Stoker.
- BRIZEE-METAL-WORKS—Skylights and Sheet Metal Work.
- NEON DISPLAYS, INC. AND AMERICAN ELECTRIC COMPANY—Neon Sign.

will do their work has been installed under supervision of E. A. Hamill, Los Angeles Firestone construction superintendent. The Firestone construction superintendent who late last week completed his part in the underlayment and returned to his headquarters. During progress of the construction, W. B. Mullin, Firestone construction engineer, has paid three visits here.

One of the most interesting, perhaps, of the new apparatus installed in the Foss-Firestone station is the Cowdry brake testing machine, that occupies the west corner of the building and is reached through wide doors at two entrances. This device is the latest developed for its purpose and does away with all guess work. In operation under an expert it specifically indicates the parts calling for adjustment or repair. The car to be serviced is driven upon a rack, each of the four wheels resting upon a set of rollers powered by an electric motor. Power is developed and applied to the car wheels from the rollers instead of from the car's motor. When the brakes are applied the machine registers independently for each wheel, the amount of brake resistance. It is then but a matter of checking the different registrations to determine whether or not, and how much, there is need of equalizing.

It also indicates the source of trouble where it exists in insufficient braking line, or irregular and deformed brake drums. In this connection new equipment for brake service, a new ATF brake drum turning lathe has been installed to reduce deformities and irregularities in the contour of the drum to its original contours.

Foss Tells Aims

Superior equipment provided in this department is typical of the equipment that has been installed in each of the departments of service offered at the new super-service station.

"Our purpose," Mr. Foss said last evening, "is not to sell merchandise and complete the transaction there, but to continue service after the initial sale is made. We are offering complete service for the automobile at one stop, with everything needed for proper operation of the automobile, and we have installed the best equipment for the purpose that it has been possible to ob-

tain, and have put that equipment in charge of men who are specialists and thoroughly trained and competent in their line of work.

"The reason for this lay-out," Mr. Foss said, "is that in our old location on a side street with inadequate quarters, we could not give real service. Here we have every facility equipped with a view to giving the real service that we feel our patrons are entitled to demand and receive."

The modest automobile top, tent and awning business that has grown into Foss-Firestone Service Stores great dimensions, was established by Mr. Foss in 1914 in connection with the harness business established here by his father, Fred Foss, sr., following the arrival of the family in Idaho from Neola, Iowa, in the spring of 1909.

The elder Foss, on arrival in Twin Falls, purchased from J. W. Orr a pioneer harness shop doing business on Main avenue, and moved the establishment into a new building that he constructed on Second avenue south.

With the addition of the automobile top, tent and awning department, and rapid development of business, these quarters were outgrown, and in 1924 four years after the new department was started, another building was constructed, doubling the capacity of the original building, and giving to the new department one-half of the total floor space.

Automobile tires were added to the Foss establishment's line in 1927, and phenomenal increase in tire sales through this agency attracted the attention of the Firestone corporation, leading directly to the combination of the Foss-Firestone interests, and the installation of the new super-service station that is to be opened here this week.

Tire sales during the first year through the Foss agency totaled \$33,000, and last year, when Foss per car quota sales ran so high as to attract national attention, Foss sold more than \$30,000 worth of tires.

On Historic Site

Foss-Firestone one-stop service station is situated on historic ground. It occupies the site of the old wooden building that Twin Falls, Idaho, almost wholly built in 1904, as its office and headquarters for sale of all lands and town lots under the Twin Falls irrigation system that was then under construction. There was no other building on the Twin Falls townsite when it was created, and the building was one of the first construction were hauled on wagons nearly 60 miles from the railroad.

This little building witnessed transactions in real estate totaling hundreds of thousands of dollars and it was for a long time the center of the Twin Falls community when the late Robert M. McCollum presided there as manager of the Investment company. Later it was occupied by Jellison Brothers monument works and by the H. C. DeLeon-cream-and-produce buying station.

When the old building was removed to make way for the new super-service station, Mr. Foss offered it as a gift to Twin Falls County. The building was donated to the City of Twin Falls or any other interested organization that might wish to preserve it as a landmark and memorial of early days in Twin Falls. The offer was declined by Twin Falls city council, but the building has been kept intact for whatever plans for its preservation in the Old Settlers' association may work out.

DEEP CREEK CLUB MEETS NEAR BOULDER

Miss Bert Swallow, assisted by Mrs. W. M. Shriver, entertains women's group.

BOULDER, July 19.—The Deep Creek club, assisted by Mrs. W. M. Swallow, has hostess to the Deep Creek club Thursday afternoon. The club was organized by Mrs. W. M. Swallow, assisted by Mrs. W. M. Shriver, and will meet at the home of Mrs. W. M. Swallow, assisted by Mrs. W. M. Shriver, on Thursday afternoon, July 19, at 7:30 p. m. The club was organized by Mrs. W. M. War On Flies In Government Barn Boosts Milk Production

INTENSIVE SPRAYING RIDES DAIRY HERD OF PESTS IN MARYLAND

More And Cleaner Milk And Even Tempered Animals Result From Experiments

R. P. HOTIS CONDUCTS WORK FOR UNCLE SAM

Long Extension Spray Helps To Reach Far Corners, In Campaign on Insects

The government's experiment dairy barn at Beltsville, Maryland, has been virtually freed of flies. R. P. Hotis has employed a long extension spray (below) in reach far corners, as well as ordinary horizontal spray (above).

BELTSVILLE, Md., July 19.—Covetous of a perpetual motion in fly-time, are singularly quiet in Uncle Sam's big dairy experiment barn here.

This phenomenon is a tribute to the work of R. P. Hotis and his associates in the division of market-milk investigations. They have been studying the elimination as a short cut to pest control and more production.

How well they have succeeded is evidenced by the fact that while neighborhood Maryland cows are swarming and kicking at stung tormentors, the government herd of 30 stands hour after hour with only the occasional swab that comes more from instinct than necessity.

Beneficial Results
Cleaner milk, more of it, contented animals, a few even-tempered milkmen have been the results.

Hotis says it is a physical impossibility to keep any dairy barn completely free of flies unless 70 per cent of the time is spent on the job. He doesn't do that, but he does work toward fly prevention and destruction rather than the mere prevention of the fly swarms.

One of his best weapons is an eight-foot bamboo extension which allows him to reach the ceiling and other out-of-way places with killing spray.

Sprays Thoroughly
On both the animals and various parts of the barn he uses a spray capable of 25 to 40 pounds of pressure, with a nozzle which throws a heavy, fully atomized spray over a considerable area.

An effective killing spray, Hotis says, can be made by suspending five pounds of unsifted kerosene pyrethrum flowers (inclosed in a double thickness cheesecloth bag) in a mixture of nine gallons of pressure and four quarts of fuel oil of 35-37 gravity.

The oil is the ordinary product burned in furnaces. The 35-37 gravity is a commercial term and does not mean specific gravity. It is obtainable, any furnace oil may be used; fabricating oils, including waste oils from cranes, should not be used. The mixture should stand 24 hours.

Bungalow House Meant for Warm Southern Climes

This small home is a Spanish type bungalow, meant for use in the west or south. All the rooms of course are on one floor. The design is also adaptable for a country home where northern city folk may go for the summer to escape the heat of a city apartment.

Waste space is altogether eliminated. There is not even an entrance hall for the home is intended for a warm climate and no vestibule is needed to keep cool air out of the living room.

The kitchen has the small porch so necessary in the country, where the housewife may sit and enjoy vegetables on sunny days, while it furnishes protection in rainy weather.

Walls of the house should be of local stone or hard clay, plastered over with stucco as was done by the Indians of Mexico and the South-west in their adobe dwellings. A red Spanish tile for the roof will carry out the motive for the exterior. Woodwork should be of weathered gray.

Interior arrangement of this plan is simplicity itself. The large living room with its fireplace has ventilation and light from three directions and can be used for dining at meal time.

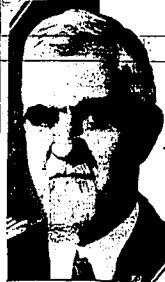

The two bedrooms open conveniently off the living room and both are at the bathroom in the center. Both sleeping rooms have good cross ventilation, and in fact the whole house is designed to let plenty of air circulate freely through it. The front of this house should face to the east.

A lot 100' by 100' feet will suffice for this design. It can be built for about \$4000 to \$5000.

EXPERT ON MARKET BOASTS RECORD OF 37 YEARS' SERVICE

John S. Bradley Reports On Ticker Tape Quotations As Senior Member of Associated Press Staff

(By The Associated Press)
NEW YORK, July 19.—Thirty-seven years of stock ticker tape have slipped through the skilled, nimble fingers of John S. Bradley, senior member of the Wall street staff of The Associated Press.

JOHN S. BRADLEY

Bradley joined the financial bureau when it was organized in 1893, and has followed the market, quotation by quotation, through the period of its greatest growth, including, of course, several panics. He was busy taking the daily tempo of the "Big Board" when seats of the mighty were occupied by Jay Gould, Jim Fiske, John W. Gates, Cyrus W. Field and Addison Cushman. He still is at it, busier than ever.

The active days of the late J. Pierpont Morgan, of Harriman and Hill, were busy frolics in his memory. Bradley says The Associated Press its first inkling of the formation of the United States Steel corporation in 1901.

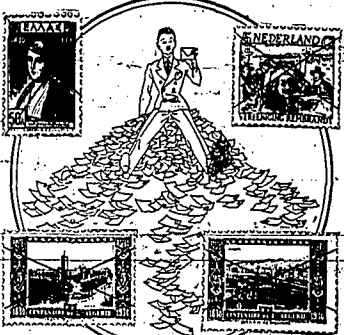

What was the most exciting event in all these years?
"Well," says Bradley, "I should say the Northern Pacific default of May 9, 1901, marking the beginning of a bitter market fight for control of the railroad. On that day Northern Pacific opened at \$100 a share for a 320 share block. It closed at \$225.

A brokerage house sold 200 shares for a client in Albany, New York, and a special train was hired to speed the certificates to New York. The next day the stock dropped to \$150 and all excitement was over."

Bradley has seen many changes in Wall street affairs. Under the aegis of business expansion and consolidation perhaps 100 stocks were added and these were mostly railroads. Today the average is between 800 and 900 issues, classified in 31 groups. Then, one indicator could record

New Stamp Issues Honor Heroes And Anniversaries

Several Foreign Countries Commemorate Various National Events with Many Special Designs

A new stamp of Greece (upper left) honors a Greek hero; a new issue in Holland honors Rembrandt (upper right), while Algerian stamps (below) celebrate centenary of French rule.

WASHINGTON, July 19.—Stamps commemorative of various national heroes and anniversaries have been issued this year by several foreign countries.

In a series of stamps honoring the centenary of the nation's independence, Greece also has included a special stamp on which appears the portrait of Lascaris Bouboulas, famed Greek hero who, hailed by Greek historians as the nation's Joan of Arc.

It was Bouboulas who was active in operations that brought defeat to the Turks at Derwenka, an engagement that hastened establishment of the Greek republic in 1830. The memory of only three other women has been commemorated on stamps. Queen Isabella of Spain was so honored in 1893. Pocahontas was pictured on a Jamestown commemorative, and Martha Washington's picture has been used on two occasions.

Although stamps first appeared in 1840, some of the world's leading dignitaries have not been pictured on them. Napoleon, for instance, never has appeared on the stamp of any country, while Julius Caesar was given a place in Italian issues only this year.

American stamps almost entirely have been devoted to portraits of presidents, although pictures of Benjamin Franklin have been used many times.

Laws forbid the use of pictures of living men on United States stamps, but Colonel Charles A. Lindbergh's name was inscribed on a special series issued after his flight to Paris.

Holland recently has issued a series of three stamps in honor of the Dutch painter, Rembrandt. The stamps, identical in design, show one of the paintings of the master as a background.

Algeria this year celebrates the centenary of French rule by a series of 17 stamps.

23 BAPTISTS OF BUIL GATHER AT ASSEMBLY

WEEKLY—Twenty-three delegates from Buil are registered at the annual Idaho Baptist assembly at Eastley Hot Springs, according to word received from Rev. A. C. Lathrop, Saturday.

The assembly was well under way Monday evening, with delegates still arriving from points in the eastern and southern part of the state. Classes in religious education and Bible studies were being conducted by well-known religious leaders.

Those attending from Buil include: Rev. and Mrs. Lathrop, Mrs. W. L. Kyle and children, Harold, Clarence and Robert Kyle, Elizabeth Pullerton, Mr. and Mrs. J. E. Stevens and daughter, Helen, Mrs. George Drimmerhausen, Mr. and Mrs. E. L. Landis, Miss Katie Royster, Clarence Orinby, Wilbur Orinby, James Clute, Mr. and Mrs. A. J. Miller, Mrs. Robert Miller and Mr. and Mrs. R. P. Davis. The assembly will close Saturday, July 25.

RUPERT OBTAINS RILEY HORSES FOR BIG RODEO

RUPERT, July 19 (Special to The News)—As a special feature for the Rupert rodeo, to be held here July 24 and 25, the Riley string of bucking horses which took the prize last season at the "Strandling Bound-Up" has been secured, according to announcement made by the management of the two-day rodeo to be given here.

Trick riding and a variety of roping and riding stunts by Riley's riders have been arranged. The rodeo program will open each day at 1:30 at the Rupert baseball park that is now being suitably fenced and prepared.

More oxen are planted along streets and roadways in the United States than any other kind of tree.

Twenty average size houses may be built from lumber of a large redwood tree.

There is a safe mine 3100 feet beneath an industrial section of Detroit, Michigan.

World Flight Pilot

KENDALL'S PENZBEST MOTOR OILS

The TWO
Thousand
Mile OIL
2

.... May Be Purchased From

FOSS-FIRESTONE

Service Stores, Incorporated

410 Main South, Twin Falls, Idaho

KENDALL Motor Oils and Greases are made 100% from Bradford grade of Pennsylvania crude oil, the world's finest and highest priced crude oil. Kendall Oils are refined to a point of practical perfection. They have lowest cold test of any 100% Pure Pennsylvania Motor Oil.

It's All OIL

That is why Kendall Penzbest holds its body at high temperatures and its fluidity at low temperatures.

Did you ever hear of the Higher Cost of the Lower Price... or have you really felt that you were saving money by paying 25 or 30 cents for ordinary oil instead of 35c for Kendall?

Even at 50 cents a quart Kendall would cost you less in the long run—all because Kendall is good for 2000 miles of hard service by merely maintaining the proper oil level... while the cheaper inferior oils quickly lose their body in use, and must be drained every 500 or at most every 1000 miles.

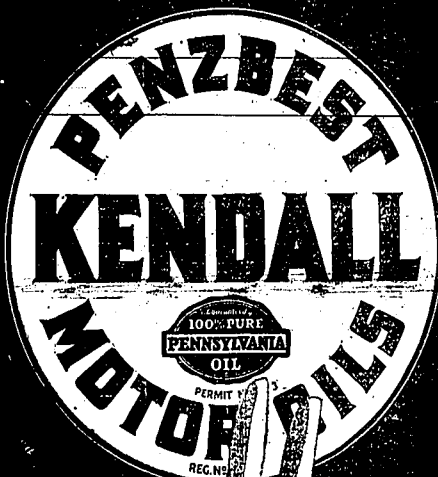

Don't let the nickel or dime you save today by buying cheap oil, endanger the life of your motor at a cost to you of many dollars in the end. Be wise! Buy Kendall, the oil that is sweeping the aviation industry of the nation—the oil that discerning motorists everywhere are demanding because its use is true economy. It pays to pay a few cents more for Kendall... and pays you well.

To Car Owners

You can now take those long trips without oil worries, for Kendall oil is good for 2000 miles without draining. Just maintain the proper oil level. Ask for a crank case of Kendall oil and note the difference in the performance of your car.

The 2000 MILE OIL

2000 miles without draining—merely maintain the oil level

10 Facts

about

KENDALL MOTOR OIL

- 1—Quality that starts with the best of Pennsylvania Crudes—100% Bradford Grade.
- 2—Cold test that is not equalled by any other 100% pure Pennsylvania oil. That means easy starting in zero weather.
- 3—Kendall gives instant lubrication the moment the motor starts running. No waiting for oil to warm up before it will flow and lubricate.
- 4—Because Kendall Motor Oil lubricates all the time, it reduces destructive friction and saves on repair bills.
- 5—Your motor runs smoother on Kendall Oil because it's so pure that carbon deposits are practically eliminated.
- 6—Kendall Motor Oil stands up under severe driving temperatures—in other words, it keeps its lubricating qualities under heat.
- 7—Kendall is not acid treated. It is refined by filtering—no chemicals being introduced at any time.
- 8—Kendall Quality will always be maintained because our source of supply is under our own control.
- 9—One grade of oil the year around. Special Winter and Summer grades are not necessary, for the right grade of Kendall lubricates all the time—winter or summer.
- 10—Kendall Oil will give real lubrication for 2000 miles without the necessity of draining. Merely maintain the proper oil level. Think of it... "A 2000 Mile Oil."

Guarantee

Drain out your old oil and refill with Kendall—maintain proper oil level and we will personally guarantee perfect lubrication or money refunded.

Experimenters Register Progress With Television Radio

COMPACTNESS AND SIMPLE OPERATION FEATURE NEW SETS

English Company Broadcasts Visible Programs With Success on Daily Schedules

REPRODUCER STANDS ON AVERAGE CONSOLE TOP

Television Functions Through Receiver Capable of Delivering 1 1/2 Watts of Power

By C. E. BUTTERFIELD (Associated Press Radio Editor)

NEW YORK, July 19—Real progress is being made in the design of television apparatus.

Both in America and England, engineers interested in the development of radio-television have sought to simplify the receiving equipment so that it will function in the hands of the novice as well as the experimenter.

In England, where daily picture programs are being transmitted on the broadcast waves in connection with sound, compact apparatus has been developed for the reception of television. The broadcast is being used by the Baird Television Corporation in cooperation with the British Broadcasting company.

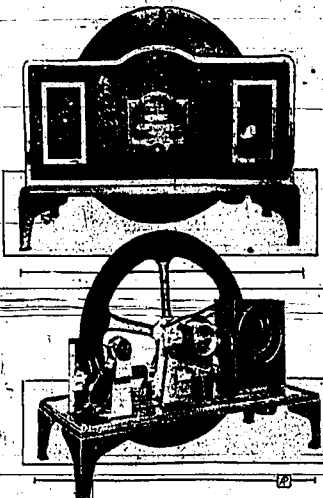

Good Results
One of these receivers, now on display in the Baird laboratories in New York, has been tested here with good results. It is intended for connection to a receiver much the same as is a loudspeaker.

The reproducer is small enough to stand on the top of the average console. It is about three feet long, a foot and a half wide and two feet high. It has a metal housing with an extension that fits over the scanning disk in the rear. The extension will function with a receiver capable of delivering 1 1/2 watts of power, and one having a transformer in the audio amplifier so that some of the picture signal will be lost. For a similar reason the tuner should not be too selective.

Compact Design
The principal parts of the outfit are the scanning disk, the driving motor, an automatic synchronizing gear and a neon lamp. Separate metal slides cover the lamp and power connections at the rear of the cabinet. The disk is 20 inches in diameter, and is made of thin aluminum, having five spokes and resembling a keyboard wheel. There are 30 holes in the disk, arranged in a spiral. The first three and the last three holes are rectangular rather than squares, the effect being to give the image more detail in the center than the edges.

The picture is seen through a small window at the right of the front of the cabinet. It is enlarged by two lenses, being twice as long as it is wide. The motor which turns the disk is of the universal type, to operate on either alternating or direct current.

Synchronizing Device
The synchronizing device is actuated by a part of the picture signal which is fed to its two electro-

Compactness of design is apparent in the newly developed television reproducer used in England. Front view (above) shows the speed control at the left and framing control in the center. The picture appears in the aperture at the right. Below is the chassis.

The magnets pull upon teeth, fastened to the front end of the motor shaft. They keep the motor running at the same rate as that at the transmitter either by retarding or speeding it up. The neon lamp fits into a socket at the right of the disk in the rear. There are two controls on the panel, one to correct speed and the other to bring the picture into frame. Once properly adjusted the synchronizer will hold the picture in the correct position.

CONSTRUCTION BEGINS ON SWITZERLAND LABORATORY

LOCARNO, Switzerland, July 19 (AP)—The European branch of the Tomarkin Foundation of New York has started to build a laboratory here for research and experimental therapeutics in tuberculosis. Dr. Leader Tomarkin gave \$10,000 to start the work.

The rest of geographic center of nation lies near the middle of Kansas' northern boundary.

Bamboo and elephant grass are used for manufacture of paper in India, owing to scarcity of wood pulp.

Ambergris is a fatty substance that accumulates inside the body of sperm whale. It is valuable in perfumery making.

Minister To Egypt

WILLIAM M. JARDINE, former secretary of agriculture, was appointed as minister to Egypt. (AP) Photo.

HUNGARIAN PRIMATE LEADS PILGRIMS IN CELEBRATION

BUDAPEST, Hungary, July 19 (AP)—Cardinal Justinian Sered, primate of Hungary, led a pilgrimage of 20,000 men to the shrine of Maria Besnyo, 40 miles from this city, as part of the celebration of the nine-hundredth anniversary year of St. Emeric.

NEW ELECTION LAW GETS FIRST TRIAL SOON IN KENTUCKY

Rule Requires Delay of at Least One Day Before Counting of Ballots and Guards Against all Fraud

(By The Associated Press) FRANKFORT, Ky.—July 19—Kentucky's new election law, which requires a delay of at least one day before counting ballots is being given its first tryout in this state primary August 2.

Passed by the 1928 general assembly, the law provides for uniform metal ballot boxes, which are to be taken to office by county clerks after the polls close. Ballots may be counted on the next week day after the election, all except on the same day, as has been the custom.

Since this primary falls on Saturday, the ballots cannot be counted until Monday August 4.

Guard Ballot Boxes
Ballot boxes meanwhile must be stored against any chance of additional votes being slipped in, or any taken out. The law provides that three locks must be placed around the top of the box, with a fourth over the voting aperture.

Keys to the locks, all different, are distributed among county election commissioners and sheriffs, so the boxes cannot be opened unless all three men are present.

If a candidate desires, he may employ a guard to watch the ballot boxes from the time they are brought to the clerk's office from the precinct until the votes are counted.

Another requirement of the law is that precinct officials may remain at least 15 feet from the box when a voter is inserting his ballot.

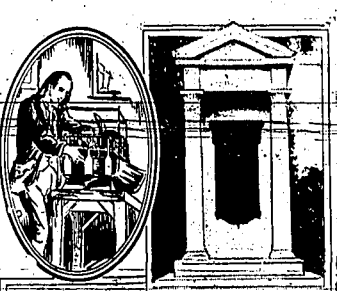

Congressional Race
Chief interest in the primary race centers in 11 congressional races. Former Governor William J. Fields and former Representative Fred M. Vinson seek the democratic nomination in the ninth district, while in the eleventh district a heated race is expected between Representative Charles Finley, seeking re-election, and Judge William Lewis, both republicans.

John M. Robison, republican, was nominated to succeed himself as United States senator, without opposition.

Three women are primary candidates in the eighth district, including Representative Katherine Langley, Pleville; Mrs. Marie G. Haller, Fort Thomas; and Mrs. Minerva Allen, Lexington. All are republicans.

Fitch Family Plans Fete To Honor Early Inventor

Descendant of Revolutionary Lieutenant Wants Credit for Steamboat Invention Properly Placed

Lieutenant John Fitch (sketch) developed the first steamboat with his 'Perseverance' (below) according to his descendants. Tablet at Bardstown, Kentucky, honoring Fitch, is shown upper right.

DETROIT, July 19 (AP)—Lieutenant John Fitch of revolutionary fame, and not Robert Fulton, should be credited with invention of the steamboat, according to Rozcoe Conkling Fitch, of this city.

The Fitch family association is working for his recognition and plans are underway for a national fête in honor of the early inventor in 1933.

Lieutenant Fitch's commercial steamboat of 1783-84, the 'Perseverance', carried passengers and freight on the Delaware almost twice as fast as Fulton's Clermont on the Hudson in 1807, says Mr. Fitch.

"We have no wish to belittle Fulton, but we feel there is glory enough for both. The Fulton invention story was a great publicity hoax. Fulton never claimed the distinction."

A memorial to Fitch, provided by Congress, has been erected in his honor at Bardstown, Kentucky, when he died.

SON OF KING BUT STILL NO PRINCE DWELLS IN PARIS

Niecea Gregore Carol, Prodiget of Morganatic Marriage, Son of Rumania's Ruler, Likes Native Land

(By The Associated Press) PARIS, July 19.—Son of a king but not a prince is Niecea Gregore Carol.

His father is Carol, of Rumania, whom he has seen but once in his 10 years.

His mother is Zizi Lambrino whose dramatic marriage to Carol was performed amid great style by the archbishop of Odessa in 1918.

While friends wonder what the lad's future may be, he is quietly studying in the Jesuit college at Evreux, France, where he is considered a bright scholar.

Young Carol is the prince to be called, steadfastly until he loses Romania and that he wants to return. But with abandonment of his father, it is unlikely that the boy or his mother would be welcomed in that country.

What is probable is that Greece and his mother will remain in France, and that the boy will finish his education here. He will, Madame Lambrino hopes, become an engineer.

Then he may some day return to his country to exercise his knowledge.

Lives in Modest Villa
In Paris the boy stays with his mother and grandmother at their modest villa at Neuilly, on the outskirts of the city.

He is well-looked upon and a small house of brick and stucco is surrounded by trees and guarded by a high iron fence.

The child is an accomplished horseman, a dog lover—he has three—and, according to his grandmother, the possessor of considerable mechanical ability.

And in one place, at least, he is a prince. On his grandfather's estate, near Jassy, Moldavia, the peasant children least of all call him "the little prince," despite his protests.

Best Wishes And Congratulations

Science Adds Novel Devices To Submarine For Arctic Trip

Wilkins Party Prepares To Probe Polar Areas From Underneath Ice

Trolley Wheel To Graze Frozen Surfaces and Special Depth Indicators Feature in Vessel's Equipment

Here are shown the first detailed drawings of Sir Hubert Wilkins' submarine, depicting novel devices to be employed in exploring ice of Arctic regions.

By HOWARD W. BLAKESLEE
(Associated Press Science Editor)
NEW YORK, July 19

Science will give strange new eyes to the submarine in which Sir Hubert Wilkins plans to sail under the north pole ice pack next summer.

Down in the cold, mile-deep waters that stretch for more than 1000 miles over the top of the world, underneath a sheet of ice so thick that light barely penetrates, the submarine crew will be able to "see" the thickness of ice above by a device novel even to this use of scientific marvels.

Trolley Wheel

Part of this "eye" is the trolley, a wheel over the conning tower, three-fourths a ton in weight. The submarine's buoyancy is expected to hold this trolley wheel up against the under surface of the ice by a sticky trolley arm, that springs up and down like the trolley pole of a street car.

The angle between this arm and the perpendicular shifts back and forth and gives one of the bases for computation of the thickness of ice.

Another part of this strange "eye" comes from the readings of the special depth instruments. True, the new "eye" is mathematical, but it is accurate and more desirable than sticking out a head in 20-de-

gree water for a "look."

Plan Remodeling

This and other new devices are described by Lieutenant Commander Sloan Danenhower, who, with Simon Lake the submarine lieutenant, will remodel the United States navy submarine O-12 and call her the Wilkins.

Where the pack ice is no more than 100 feet, the summertime average thickness of this polar sea. Co-12 can fire upward—through a telescopic conning tower. It will be made to rise about 15 feet above the sub's back and to push up through the ice pack into daylight.

This tower will take the place of the present forward disappearing gun. Danenhower says the gun housing fits this purpose "beautifully."

Searchlight Ports

Two forward torpedo tubes on either side will be turned into searchlight ports, while the two tubes between them become observation stations.

Forward, in the bottom, will be a trap door, with a special chamber after it, enabling divers to step out, climb around beneath and up the side of the sub to prow under the ice carrying portable underwater searchlights. They will be equipped also to set dynamite charges.

Finally, this huge Arctic fish will have a collapsible steel antenna, 50 feet tall, to thrust on from one of its two periscope openings.

Can Renew Air

This antenna is to be a corded, red instrument capable of drilling 50 feet of ice. Breaking through the pack, it will become a tube for renewing the air in the O-12 submarine.

For warmth the crew will rely on electric stoves. All in all, Commander Danenhower considers the prospect good for one of the most comfortable voyages ever undertaken in polar regions.

"Danger?" he says, "There is no comparison so far as hazards go, compared with those of the flight Wilkins made from Point Barrow to Spitzbergen."

Expedition Feasible

"At first thought nearly everyone regards this expedition as extra-hazardous," the explorers who have seen this culm, Arctic summertime sea are always exceptions. It is remarkable how quickly a study of the known facts and probabilities favors a change in the first unfavorable opinion.

"We have an expression of confidence from the American Geographical society and the American Geographical society has studied the plans and believe the voyage to be feasible.

"Further, this society considers that the scientific results secured by the new methods of polar exploration will far out-weigh the attention by the methods hitherto employed."

MAYOR OF DETROIT FACES PROSPECT OF RECALL BY VOTERS

Charles Bowles Encounters Ire of Many Persons Following Discharging of Commissioner of Police

(By The Associated Press)
DETROIT, July 19—A man who began his political career at the pinnacle of municipal politics has become the first mayor of Detroit to face recall by the voters who elected him.

The city votes July 22 to determine whether Charles Bowles shall be removed from office.

It is only six years ago did Bowles

was appointed commissioner of public works. Gillespie formerly had been a police commissioner, and had resigned under criticism.

Gillespie led in efforts to prevent Bowles' recall by court proceedings. Recall proponents described Gillespie as a "jobby" and gave his appointment as one reason why Bowles should be removed.

Recall petitions appeared a few days after the mayor attended the Kentucky derby this year. During his absence Harold E. Emmons, then police commissioner, turned a squad of men over to newspaper reporters, and they raised numerous gambling placards.

Following that episode Emmons was discharged and Thomas G. Wilcox named to succeed him.

ICELAND GIVES SOCIAL FREEDOM TO NEGROES

REYKJAVIK, Iceland, July 19 (AP)—Negroes scored a victory in Iceland when the guests of Reykjavik's leading hotel voted 238 to 19 in favor of permitting them to use the restaurant.

The vote was taken when the manager asked a negro to leave the dining room. Some of the guests bellowed they sang a trio number, and shared with the action and the ballroom was cast to decide the question.

The average healthy man possesses blood to about one-twentieth of his total weight.

IRON FIREMAN CLAIMS PLACE IN NEW STATION

Detroit Coal company has installed for-Foss-Firestone Service Stores, Incorporated, in the one stop service station that is to be opened here next Tuesday, a 1930 model advanced Iron Fireman automobile.

A number of reasons prompted the decision to install this flier in the service station that has been designed to include the most modern and efficient apparatus throughout for rendering the service for which it is intended.

These reasons include the consideration of economy through use of new-developed-of-higher-pressure fuel; automatically controlled temperature throughout the building; relief of labor in fueling the furnace and removal of cinders.

Still another advantage to the Foss-Firestone corporation and to the community as well is that there will be no black, sooty smoke from the furnace that is stocked by the Iron Fireman.

It is very gratifying to us to know that our hauling service was chosen to care for the needs of this new organization.
