AIRPLANE DISASTER IN ENGLAND CLAIMS SIX FLIERS' LIVES

Death List Includes Name of Viscountess Ednam, Woman of Rare Beauty and Close Friend of Prince

(By The Associated Press) MOPHAM, Kent, England, July 21.—Six persons, including the Viscountess Ednam, a woman of rare beauty and close friend of the prince of Wales, plunged to death today when a mid-air explosion tore to shreds an "air-taxi" speeding a party of distinguished society guests from a week-end in the Touraine, France.

Mrs. Henrik Koefler, another woman famed alike for her beauty and her intellect, was the only survivor. She was rescued from the wreckage home in Grosvenor Square, Mayfair, was a victim, Mrs. Koefler's reputation among the most prominent of the London society season.

The marquis of Dufferin and Ava and the Duke of Devonshire, who were in the plane exclusive circles; Lieutenant-Colonel George L. P. Henson, a noted aviator; and Mr. Shearing, 28 years old, assistant pilot, completed the death roll of the fearful happening.

Roar Startles Village Late this afternoon this picturesque hamlet four miles south of Gravesend was startled by a roar in the sky and a terrific detonation. Villagers who looked skyward saw the Junkers plane, a machine owned by the Henderson flying school, adjacent to the Walcott Air Lines, Limited, suddenly fly into bits.

The bodies of all of the occupants hurried eastward and fell in a garden near a cottage.

The rest of the outfit—wings, engine and cabin—were flung about for hundreds of yards.

Today's crash was one of the worst disasters in the history of British commercial aviation, because it was the first of 12 years to claim as many as six lives.

It followed closely upon another gruesome tragedy when a German Dornier-Wal flying boat in the Steppin-Kalmar-Hocking area, London, dove into the Baltic near Denmark and broke into bits in a storm sea.

In that disaster two American tourists and a British girl were killed. The bodies were found last week.

Witnesses were agreed today the disaster was a mysterious one but that it occurred, not in a mid-air after a forced landing but from some accident taking place while the machine actually was in flight. A cause feature was the finding of one of the plane's wings fully two miles from the scene where the bodies and engine were found.

AGED GODDING MAN MAY GET ADVICE OF 156-YEAR-OLD KURD

ROISE, July 21 (AP)—A "mere youth" of about 20 years yesterday advised a little "fatherly advice" from the veteran Kurd, Zoro Agta, as the result of letters sent to the traveling gentleman today.

The telegram, sent to a Boise newspaper to Agta's manager in Providence, Rhode Island, suggested Elias Arkoosh, Godding, now in his one hundred and thirtieth year, as one who would like to have the 158-year-old Kurd give him some fatherly advice which would help guide him on the straight and narrow path as he grows to maturity and advise him to reach a ripe old age.

Arkoosh was born in Syria, near Tripoli, in 1818.

DETROIT ELECTORS AWAIT EXPERIMENT

Bitter Campaign for Recall of Mayor Charles Bowles Reaches Hands of Voters

DETROIT, July 21.—Detroit almost reached the eve of a new experiment in municipal politics, for a city more than 500,000 people await an election to recall its mayor, Charles Bowles.

The election tomorrow will bring to a close a campaign in which three features stand out—its brevity, its bitterness and the fact it was conducted almost entirely by radio.

The two weeks radio campaign saw every available minute of broadcasting time contested for by the cross-fire of personalities between some of the campaigners threatened for a time to obscure their faces, and became necessary for one station to adopt the policy of censoring political speeches.

The recall movement followed the major's dismissal of Harold H. Emmons, as police commissioner after he had taken over the city's downtown gambling houses while Bowles was in Louisville for the Kentucky derby. The mayor, who was dismissed, appointed Emmons, a prominent attorney, whom he had appointed a few months ago to replace him.

The Emmons raids had been made after newspapers printed stories and photographs which were being placed with the Bowles policy of placing such matters in the hands of a centralized vice squad.

Civil War Veteran Keeps Pledge With Dead and Spent Final Lines In History Of Last Man's Club

ST. CLOUD, Minn., July 21 (AP)—A weary old soldier-shipper a loan to bright Burgundy today, faithfully fulfilling his covenant with the dead and writing the final chapter in the saga of the Last Man's Club.

About the long table, which had 22 vacant chairs, each with a bow tie and a white shirt, sat the 87-year-old veteran of the Civil War drank wine in memory of his comrades fulfilling a vow 35 years standing.

Each year there was a reunion and each year there were more vacant chairs but today was the first when only 10 were present.

Lockwood made one unexpected discovery as he drank the wine with the death. The Burgundy tasted as if it were a bitter-sweet. He drank as cheerfully from the roomful of old pensioners, friends, widows of former club members, and relatives who gathered for the occasion.

WASHINGTON, July 22 (AP)—Declaring he was fighting in the open and "not behind President Hoover's skirts," Chairman Legge of the farm board today characterized opposition to the board's wheat policy as "political bogy."

Present and future organization of the National Agricultural Committee, established by various agricultural boards and the farm board are only means by which the farmer arrived at his present position.

The opposition of Governor Reed, Kansas, to the wheat acreage reduction plan was the subject of Legge's criticism of the board for not being able to buy and store large amounts of the same kind of grain.

"The farm board," he said, "is created to assist the farmer and not for politics. The farmer's problem is an economic one that will never be solved by any political means."

Prolonged Effort to Restore 18-Month-Old Son of Arnold Stevens Unavailing

JEROME, July 21 (Special to The News)—A final trade of sorrow and sympathy was paid at funeral services in the Latter Day Saints chapel here this afternoon for the 18-month-old son of Mr. and Mrs. Arnold Stevens, who met with a drowning in an irrigation ditch at Jerome last Saturday afternoon.

The child's body was discovered within a few minutes after he was missed, prolonged efforts to restore respiration proved unavailing. Relatives stated the child could not have been in the water more than five minutes. Application called on Jerome did not divert the hope of resuscitation until about 5 o'clock. The child is believed to have followed his father and when they left the house going to the garden after the noon meal.

The baby was the youngest of 11 children of Mr. and Mrs. Stevens who live in Jerome for a number of years and moved to this town in 1928.

The chairman said he was prepared to tell the president cooperation in acreage reduction could be expected from the farmers in the north in the winter wheat belt. The report of said would be based on the individual expression of farmers he had met on his tour of "southwest."

He declared the cooperatives "had no power to authorize any action and would not do it if it did have."

The whole purpose of the campaign, he said, was to bring farmers together either to reduce production or to prepare to take a lower price for their product.

"Farmers as a class," he declared, "are doing a lot of thinking for themselves about doing things that seem to them to be in their best interest. They are not so sure that they are not doing a lot of thinking for themselves about doing things that seem to them to be in their best interest."

NATIONAL DODGE DEMONSTRATION MONTH

TRUE ECONOMY is more than price deep

Total cost, not merely purchase price, determines the economy of a motor car. And so great are the ownership economies of Dodge Brothers motor cars that in real cost they actually prove less expensive than many cars lower in purchase price.

The Dodge Six and Eight-Inline are deliberately built better than just good enough. The chassis is extra sturdy, Bearings are extra fine and extra large. Surely, efficient Dodge engines get the most out of fuel and oil. The safe, silent Mono-Piece Steel Bodies require no maintenance expense. The internal hydraulic brakes increase the life of tires.

Drive a Dodge Six or Eight-Inline and learn that Dodge economy goes hand in hand with brilliant performance.

Nearly everything I ate disagreed with me, my liver was out of order and I was almost continually bilious with sick headaches. Sargon gave me more strength and vitality than I've had in years. Members of Church in South Idaho Hear Address by Rev. A. Lutz, Missionary

PILER, July 21 (Special to The News)—South Idaho Lutherans heard Rev. A. Lutz, missionary, who returned to the United States after a 16-year missionary service for the Lutheran church in India, tell of his work there in an address which featured the Glover Trinity Ladies Aid society's annual picnic at the Twin Falls county fairgrounds here yesterday afternoon. A crowd estimated at 450 persons gathered.

The day's events began with a basket lunch at noon. Members of the church from Eden, Jerome, Rupert, Twin Falls, Piler, Buhl, Clover, Hansen and Klamath were in the crowd. A program of music and prayer and music furnished by the Eden Lutheran band added to the day's enjoyment.

In his address, Rev. Lutz gave a vivid account of conditions and problems in India, where he has spent 16 years in the service of the church in the southern part of the nation. He stated that the revolution, though not active in the place where he was located, had the sympathies of a large part of the natives there, and that the situation was so precarious that he was warned to leave to avoid possible harm to himself.

Rev. Lutz will go to St. Louis soon for a short vacation, and later will return to India to resume his work for the church.

The picnic was sponsored by the Ladies Aid society of the Glover Lutheran church.

Nash value greater than ever

Recent developments stress the fact that Nash gives more for the money

Amid all new claims and counter-claims, one fact stands out clear and as strong as sunlight. That is the unmistakably greater value which you get when you buy a Nash.

No other car at anywhere near the Nash price affords the pronounced advantages of Nash—including such features as twin ignition, with its greater power, speed, smoothness and saving of oil and gas.

Such a feature as twin ignition is highly important—but it is even more important as indicative of the superior engineering and of the in-built value which distinguish every Nash car.

You know Nash beauty. You may be familiar with Nash performance; Nash comfort and convenience; Nash thorough-going quality.

But until you compare what the Nash is and what it does with the remarkably low cost at which it may be purchased today—you cannot appreciate its wholly unexcelled value. Come in and drive a Nash today.
