VOL. 18, NO. 98 TWIN FALLS, IDAHO, FRIDAY MORNING, JULY 25, 1930 14 PAGES - 5 CENTS

FACTORY PAYROLLS DROP TO NEW LOW MARK DURING JUNE

WASHINGTON, July 24.—The Federal Reserve board today in its summary of factory employment and payrolls in the United States declined to new low levels during June and in industrial production decreased.

The federal reserve board today in its summary of factory employment and payrolls in the United States declined to new low levels during June and in industrial production decreased.

Wholesale commodity prices showed a more rapid decrease in many other recent months and were about 10 per cent below the level of a year ago.

The June industrial production showed a further substantial decrease and the board's index, which is adjusted for ordinary seasonal variations, declined 1.1 per cent since last December.

Output of steel alloys declined in June and early July more than usual at this season, and automobile production was sharply curtailed to a level considerably below that of the same period of the last two years.

Factory employment and payrolls declined the first and only month employed at steel plants and in the automobile agricultural implements and other industries.

30 ADOBE HOUSES IN NEW MEXICO DESERT DISSOLVE IN DELUGE

SANTA FE, N. M., July 24.—Some 30 adobe houses have crumbled, making 150 persons homeless as a result of continuous heavy rains at Santa Fe, N. M., today.

Requests were made at the governing office here today for assistance for the destitute residents of the district.

A cloudburst struck the Pena Grande area Monday night and a heavy downpour followed.

Adobe houses have crumbled rapidly under the heavy rain. Alfred Monroy, former county sheriff and today a laborer, had his way home on horseback. Automobile travel is impossible.

The community is isolated largely by Spanish-Americans.

MISSIONARIES FLEE IN INTERIOR CHINA

SIANGHAI, July 24.—Once again foreign missionaries are fleeing from interior China as a result of military and Communist outbreaks.

Accompanied by American and British consular officials 44 missionaries fled from the interior of China.

SPECIALISTS RULE IN WINDY CITY'S MIXED-BABY CASE

Where is He? Becomes Quer: In Place of Questions Concerning Identity of Child Suddenly Missing

CHICAGO, July 24.—The big question in Chicago's mixed-infant mystery tonight was not who is Baby Watkins, but where is he?

The three-week-old child disappeared, together with Mrs. Edith M. Watkins, his mother, on the night of July 13.

The report stated the number of sheep in Idaho has been increasing steadily, amounting to 11 per cent in two years' time.

The total of 22 deaths for the first half of 1929 was in great part due to the 10 deaths of June.

Italian Minister Reports Known Death Toll From Quakes At More Than 2000 Fortune Lies In Cards And Friends Play For Right to Enter Race For Sheriff Of County In Empire State

HERKIMER, N. Y., July 24.—(By The Associated Press.)—The Italian minister reports that the death toll from the earthquake in Sicily is now known to be more than 2000.

He won not only the right to enter the primary as a candidate for the Republican nomination for sheriff of Herkimer county, but the post with the principal place on the ticket in a game of political cards.

Boise, Federal Statistician Estimates Increase at 160,000 Head Over 1929

BOISE, July 24.—Idaho's lamb crop for 1930 is estimated at 1,738,000, an increase of 160,000 over a year ago.

The report stated the number of sheep in Idaho has been increasing steadily, amounting to 11 per cent in two years' time.

UTAH CITIES HONOR STATE'S PIONEERS At Fillmore Crowd Attends Dedication of First Capitol of State as Museum

PILLMORE, Utah, July 24.—(By The Associated Press.)—The entire state today was celebrating the eighty-third anniversary of the march of the Mormon pioneers into the Great Salt Lake valley.

The dedication was the occasion for the gathering here of many pioneers of the state and the return of old residents.

Many speakers, including Governor George H. Dern, addressed the large crowd at opening services.

Fillmore was designated capital of the territory of Utah in October, 1851, and remained the seat of government until December 16, 1860, when the capital was established at Salt Lake City.

The history of the early settlement of the territory was related by Governor Dern and other state officials.

Relief Army of Soldiers, Physicians Swarms Into Neapolitan Hinterland

(By The Associated Press.)—ROME, July 24.—A relief army of soldiers, doctors, and special workers, with scouting airplanes to guide them, tonight swarmed into the mountain recesses of the Neapolitan hinterland to count and cure for thousands of injured and homeless Italian citizens.

From King Victor Emmanuel and Premier Mussolini down to a wartime nurse, the rescue work here has been a feat of organization.

By the Bay of Naples end, the Gulf of Salerno on the west and almost to the Gulf of Manfredonia on the Adriatic, a zone of devastation and stricken towns, hamlets and houses stretched like an open wound around the "ankle" of the Italian boot.

With the figures of known dead and injured at 2000 and those of the known injured approaching with dizzying speed the 5000-mark, the rescue work here has been a feat of organization.

TRAFFIC OFFICERS MOVE TO ASSURE PRESIDENT SAFE JOURNEY TO CAMP

WASHINGTON, July 24.—(By The Associated Press.)—Traffic officers today moved to assure President Hoover's safe journey to Camp Meade for his summer vacation.

Instead of the long procession of automobiles that in the past has escorted the president, his week-end will be accompanied only by the secret service car and that carrying Lawrence Murray, his executive secretary.

RADIO MOVIES NOT YET PRACTICAL FOR HOME, SAYS BOARD

Visual Broadcasting Must Be Developed Much Further to Warrant Allotment of Wave Lengths

(By The Associated Press) WASHINGTON, July 24.—Radio movies, in the opinion of the federal radio commission, are not yet ready for the home.

"Visual broadcasting, the commission says, must be developed much further to reach the stage where public interest will justify the allotment of wave lengths now reserved for the transmission of sound programs.

"These views are set forth in an answer to the appeal of the Short Wave and Television Laboratory, incorporated in Boston, to the court of appeals of the District of Columbia, which has asked the commission to permit television transmission on the broadcast frequency of 1370 kilocycles.

SUI Experimental
The manufacture of visual transmitting sets as well as television transmitting apparatus is "entirely experimental," the commission contends, and therefore it is opposed to granting broadcast stations to synchronize with experimental television stations.

"Television is not yet ready to offer to the public as a whole," the commission says, "it is not yet possible to foresee exactly the degree of certainty just what engineering developments will take place in this highly technical field of radio activity."

Experiment Channels
The commission has set aside certain short-wave channels for experimental work in visual broadcasting. These channels are "reserved" for the use of the commission, which has only 10 kilocycles wide.

The enthusiasts in the radio engineering field are still confident, however, that the day will come when prize fights, tennis matches, and other sports and spectacular events will be broadcast by television to the family fireside.

SCHOOL OF WILD LIFE

LURES NATURE LOVERS

McGREGOR, Iowa, July 24 (AP).—The American School of Wild Life Protection, which attracts nature lovers from all over the United States, will meet here August 4 to 16.

Founded 12 years ago by the late Dr. George Bennett of Iowa university, it offers two weeks of classes in various phases of outdoor life, with great outdoor "lectures" in which the students may participate.

Instructors in the science of bird life are Dr. J. G. Thompson, president of the Audubon Society, and Jesse L. Smith, superintendent of schools, Highland Park, Illinois.

PROFIT IN STUDENT DEANS

MARTIN, Tenn., (AP)—Two and one-half acres of land have been given to the junior college farm of the University of Tennessee, paid a net profit of \$207.49.

Relief from Curse of Constipation

A British Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or interfering with the system.

Observe a Rexall Orderly at night, next to a lighted window at the store at the nearest Rexall Drug Store.—Wiley Drug Co.—adv.

Babson Points Out Possibilities Of Television and Predicts Wide Usage of Sets Within Few Years

Recent Developments Tend to Reawaken Interest in Device, Giving Promise of Widespread Educational and Amusement Value

By ROGER W. BABSON—BABSON PARK, Mass., July 24.—Television, a device which has been known to the public for 13 years ago, so far as the public is concerned, has not been just beginning to make crystal radio sets and to hear faint noises out of the ether. Now the amateurs are just beginning on television. Before long there will probably be large numbers of amateur experimenters constructing home-made sets, buying parts, and generally stirring up interest in the new art. If television follows the path of radio, the experiments of the amateurs will spread the spirit of the thing, so that nearly every home will sooner or later have its own television apparatus. Thus far the public has been interested in television in this subject, believing it too complicated and too imperfect to engage their active interest. That interest will pass as further developments in the new art bring it nearer to perfection.

Recent Developments
Several recent developments have reawakened public interest. Dr. Alexander, engineer of General Electric company and Radio Corporation, recently put on in a Schenectady theatre a vaudeville act by television. This included music and singing, jokes, and a regular vaudeville performance. The factors were the television laboratory, located about a mile away from the theatre stage. The audience watched the show on a screen similar to a motion picture screen. It was highly successful. Just the other day the British Broadcasting corporation put on a television play from a studio in London, which was enjoyed by patrons of department stores, in picture houses, and other great places where televisions had been installed. Shortly after another demonstration in London will be given on a large screen measuring four feet by five feet.

Uses of Television
It may be five, 10 or 15 years before television reaches the stage of popularity enjoyed by the radio. There is still much experimental work to be done before it becomes practical for any but the scientific or highly skilled amateur. The general public is not equipped and does not care to bother with a device which requires mechanical skill and technical knowledge to operate. These mechanical difficulties, however, will in time be overcome. That does not mean the elimination of hundreds of millions of dollars worth of radio equipment. Television growth will be gradual. One who is contemplating buying a radio set need not fear television, but he will have plenty of time to enjoy his radio and reflect upon the worth out of it before television comes into general use.

It is of interest to consider what probable uses in this new instrument will find in our social and economic life. It is of interest to consider what we believe that it will revolutionize existing methods of entertainment, news publication, educational work, the moving picture industry, etc. If "television" they mean entirely supplant the existing picture industry, they are mistaken. Established industries will take television and use it to supplement, modify, and improve their service to the public. Then we shall have what is virtually a new industry compared to radio, requiring very apparatus valued at hundreds of millions of dollars.

For Amusement and Education
Television has vast educational and entertainment possibilities when it is finally perfected. In preparation for that day a huge building in the heart of New York City is soon to be erected, which will contain several large theatres, a moving picture theatre, radio studios, and television studios for a vast audience, planned throughout the country, as well as to serve the audience which personally attends the performances. Broadly speaking, television will be used to broadcast regular plays, symphonies, and films, and to cover the moving picture houses, throughout the country. It will install television facilities in addition to their regular picture cameras for the inclusion on the program of at least one television act.

In connection with churches and schools, it will be possible for a famous preacher or educator from a central radio church to give a lecture or sermon in picture and in sound before a thousand different audiences at the same time. Just as though he were personally appearing. The possibilities of television for schools and churches are almost boundless and open up new vistas for education.

Relation to the Newspapers
Television can never supplant the daily newspaper, because paper must have a record of what has happened. If television could carry with it a record of what has happened, it might compete with newspapers. Such is not the case and certainly not likely to be. To say television will harm newspapers is entirely wrong. Instead it will help them. News reporters with television instruments can in an airplane fly at once to the scene of an accident, catastrophe, peace conference, earthquake, or other great news story and at once transmit to his paper not only the story but the picture.

It is in this respect that means of the new high speed presses and electrically operated typesetters, which are being developed, may be of great value. On the receiving end there is the possibility of a camera negative printing the picture directly on the surface of a news cylinder. Natural color printing also may be a possibility for the newspapers in the future. Radio and television, and each supplementing the other and each using the new electrical inventions, which scientists are perfecting.

Television can be a great factor in furthering the world's peace. By bringing people of one nation face to face in communication with people of another, a deeper and more tolerant understanding of the customs and habits, ideals of each can be attained. Already we can talk across the ocean. Soon we shall see across it. This visual communication for long distances will probably first come through the television television. Such an instrument has been perfected in the United States and is known as the "phonophone." One sits in a booth and talks to a friend at a distant point, and both parties face the image of the other, much as though they were sitting at the same room. This experimental system is now established between the American Telephone's headquarters in New York and the Bell Laboratories, which are two miles distant from each other. This is an example of wired television as distinguished from wireless television.

Television, if rightly handled, can become a great force in the educational, cultural, and spiritual advancement of the world. Pictures do not lie. No better way of disseminating the truth has ever been devised.

ALERT BUYERS YOUR Time to Save!

Now is the Time to BUY and SAVE. This is YOUR opportunity to effect real economies. Our counters are packed with extraordinary values. BUY NOW! THRIFT PRICES—HIGH QUALITY

Cotton Socks

For Men

Good quality cotton socks with loop top and toe. In black and other plain colors. A really fine value in hose for everyday wear.

2 pairs for 25c

Men's Khaki Pants

Are Made Well and Priced Low

These pants are strongly made and cut to fit well. They have four roomy pockets and a watch pocket. Sizes 30 to 46 with cuff bottoms

98c

"Big Mac" Shirts

Withstand Much Hard Wear

"Big Mac" work shirts are made of fine and coarse yarn chambrays. Cut exceptionally large for active men who want real comfort in a work shirt. All sizes including slim and extra sizes.

59c

"True-Blue" Suits

For Youngsters 2 to 8 Years

These are very pretentious suits for boys who are hard on clothes. They're made securely of long-wearing fabrics. They have long sleeves and come in drop seat style. Most inexpensive—

69c

"Big Mac, Jr."

Boys' Sturdy Shirts

"Big Mac, Jr." shirts are made from a very durable chambray. They are cut full and are strongly made to withstand much hard wear. They wash well, too.

53c

Choose This Bag for Strength

\$2.98

ROBUST, spacious, neat... 24-inch suit case with heavy leather all-around padding. A heavy lined lid, with a shirt fold in top. Bear grain, in black.

Silk and Rayon Hose for Women

79c

No. 445—Is an excellent hose for the women who want a heavier weight. Full fashioned and in popular shades.

Semi-Sheer Silk Stockings

98c pair

Full-fashioned... fine gauge semi-sheer silk stockings with step-up to guard and mercerized top—fine for desirable wear. New summer shades.

No. 444

A popular pure silk stocking... full-fashioned... semi-sheer... mercerized top and sole for greater durability and the added protection of the step-up to guard feature.

98c

No. 442

A new number... with full-fashioned... pure silk to the top, chiffon weight, French heel, reinforced garter welt and sole and step-up to guard... and only

98c

Silk Hose Ciffon Quality

\$1.19

Silk from top to toe—fine even knit—in selection of popular colors. An outstanding J. C. Penney value.

Short Sleeves— or No Sleeves— Proclaim the Smartness of these NEW DRESSES at \$4.98

If your new summer frocks have baby sleeves or no sleeves at all... you may be assured that they're decidedly smart and very becoming! These are perfectly adorable models... so radiant in colorings and so youthful in styling—prints and solid colors! The price is outstandingly low for such smartness! For women, misses and juniors.

Large Size Turkish Towels

25c

A value which thrifty housewives all over the country have long recognized as being indeed remarkable.

5c and 10c

"Malabar" Percale

18c a yard

Cottons do decidedly different things this season and are as smartly printed in flower-patterns as the most expensive of silks. "Malabar" cambrie percale is 36 inches wide.

Famous "Nation-Wide" Sheets & Pillow Cases

Restock your linen closet before summer begins, with long-wearing "Nation-wide," loomed of special yarns that will withstand much laundering. Sizes are before hemming.

Federal Report Shows Farm Prices Lowest In Eight Years

GENERAL LEVEL OF COMMODITY VALUES CONTINUES TO SINK

Downward Tendency of Business Activity and Wage Payments Lessens Buying Power For Consumers

(By The Associated Press)

BOSTON, July 24.—General level of prices received by producers on June 15 was the lowest for the season to that date, and continued price declines for agricultural products since the middle of June have reduced farm prices to the lowest level since 1922, said the monthly report of the bureau of agricultural economics in the second week of July.

The general commodity price level continued to decline during the week ending June 15, with a 4 per cent decline in the first week of the year and the first week of July. At the present time the commodity price level is lower for the last 13 years.

Stamps Continue

Business activity in June continued the downward tendency which became evident in May. Important industries are reducing their production to meet the levels of demand for the first quarter back to the low level of last December. Employment and wage payments have been further reduced. Consequently the buying power of consumers and the demand for farm products is now at the lowest level reached so far in the present depression.

The numerous elements that are involved in the present business situation make it impossible to indicate just when the present downward movement will be reached, but there are certain factors in operation which in the past have laid the foundation for termination of recession and eventual recovery. These factors are: low interest rates, increased commodity credit and large flotations of new securities which essentially create an increased demand for commodities for labor.

Extracts From Reports:

WHEAT—The United States average farm price of wheat as of June 15 was 67 1/2 cents a bushel, a fraction higher than the middle of May average of 67 1/2 cents. Prices declined during the latter part of June for the month as a whole they were lower than in May.

POTATOES—Changes in farm prices of potatoes between May 15 and June 15 reflected the different supply conditions in different sections of the country. In response to the very light supplies of old crop potatoes prices on June 15 were higher than on May 15. Increasing supplies of new crop potatoes resulted in a decline. For the country as a whole the average price on June 15 at 16 1/2 cents per bushel was about 10 per cent lower than on May 15, as compared with 6 cents in June 1929. Since June 15 increased shipments of new crop potatoes have reduced potato prices considerably. The total 1930 crop as indicated by July 1 conditions is approximately

160,000,000 bushels. This represents an average supply but is nearly 12 per cent greater than last year's small crop.

CORN—Cash corn prices were about the same level in June as in May. The United States average farm price as of the middle of the month was 87 1/2 cents.

WOLLS—The average comparative index at around 910 from the middle of March; but prices showed considerable weakness during the last three weeks of June. The decline was largely due to a falling off in demand.

CATTLE—Cattle prices made a further sharp decline in June to the lowest level in over three years. The decline in prices during the four months, March to the end of June, was one of the most severe ever experienced by the industry. Compared with prices at the end of June, 1929, the decline in the average price of beef steers was over 30 per cent. Some recovery in prices seems likely unless cattle feeders continue to buy heavily with unusual supplies.

BUTTER—Butter prices are 92 cents a pound at New York fluctuating between 32 1/2 and 33 1/2 cents during the month. The monthly average price for June of 32 1/2 cents was 10 cents below the average of 42 cents and 10 cents below June, 1929. The estimated production of butter during the month was the heaviest on record and was 2 per cent greater than in May, 1929. This was the first month in 1929 that production exceeded the corresponding month in 1929 and for the first five months of 1930 production was 12 per cent below the first five months of 1929.

EGGS—Egg prices during June were lower than in May, the decline being largely due to poor consumption demand, since receipts were higher than a year ago. Primary market holdings on July 1 were the highest on record for the date, for the fourth consecutive month.

POULTRY—The decline in poultry prices continued during June, due largely to heavy supplies of broilers, fresh and frozen poultry.

LAMBS—After having made a recovery in June, lamb prices declined again during the month. The decline in lamb and sheep prices reflected both large supplies and the poor demand for all meat animals. Slaughter in June was the largest on record for the month.

WOOL—Domestic wool prices held unchanged from early June into the first part of July. Trade in new wool in Boston increased in late May and was fairly active through the middle of June, but in the last of June and the first week of July it slackened on "view of the uncertainty" about recent prices. The London wool sale opened on July 8 with prices generally 5 to 10 per cent below the closing prices of the previous series. The decline reflects the unfavorable textile conditions abroad. Stocks of wool to foreign primary markets have decreased considerably but are still large for this time of year. Information on sheep numbers and growing conditions in most countries points to another large world clip.

FAMOUS "SCOTT" VISITS ROGERSON

Noted Death Valley Character Stops in Village To See Lewis Harrell

ROGERSON, July 24.—Walter (Death Valley Scott) Scott, famed outsider of a \$3,000,000 cattle in Death Valley, California, stopped in Rogerson Tuesday on his way to Brunese, where, he says, he is going to start a mule farm. He visited here with his old friend, Lewis Harrell, for whom he used to work "back in the Nineties." Mr. Scott first gained international publicity when he chartered a train for a transcontinental trip a few years ago, in which he was host to scores of his friends.

The annual vacation Bible school of the Presbyterian church is being held at Hollister this year. It began last Monday. A bus leaves every day at 8:30 A. M. from Rogerson, picks up children all the way to Hollister, and returns at noon following the usual schedule.

Mrs. Roy Green, Twin Falls, is visiting at Mrs. John Donaldson's home for a few days. Mrs. V. Smith, Hollister, visited Mrs. Donaldson Wednesday.

Utah Construction company shipped seven carloads of lambs Tuesday. Five carloads of lambs were shipped from Rogerson Tuesday. Mr. W. C. Clark shipped his car to Omaha, and H. P. Ramsayer shipped three cars to Omaha.

The radio that was to have been held July 24 at Shoshone basin, will be postponed till Sunday, at 1 P. M. Mr. and Mrs. Jerome Healy, Rogerson, returned from Salt Lake City Sunday, and went back Tuesday morning, where Mr. Healy will undergo an operation Thursday. They were accompanied by Mrs. E. Tanner, Rogerson, sister of Mr. Healy.

Miss Cynthia Scott, Rock Creek, is visiting Mrs. Lewis Harrell for a few weeks.

Don Smith, Boise, recently of Rogerson, returned last week to Rogerson to spend a few days.

H. L. Pangborn, Jaridge, went to Boise to the veterans' hospital.

Go to Alvin Harbour \$100. Lot 2, Brown's Sub.

Quit Claim D—J. C. Thompson to Amel Johnson, \$10. Lots 1-2, Bk 10, Duh.

JEROME ORGANIZES SWIMMING CLASSES

Stanton G. Hale Gives Instruction Under Auspices Of North Side Red Cross

JEROME, July 24.—Classes in swimming and life saving instruction began Monday morning at the Jerome municipal swimming pool. They will continue until Saturday. The classes are under the direction of Stanton G. Hale, who is working under the auspices of the American Red Cross. Close to 200 students enrolled in the classes. Following is the schedule of classes: 7:30 A. M., beginners and amateur swimmers; 11 A. M., swimmers of 12 years or under; 2 P. M., junior life saving; 4 P. M., senior life saving; 7:45 P. M., diving instruction.

PARENTS ARRANGE FOR FILER BOY'S FUNERAL

FILER, July 24 (Special to The News)—Funeral services for Carl DeBoard, 10-year-old son of Mr. and Mrs. Fred DeBoard, who died at Elk Lake, Oregon, yesterday of septicaemia, will be held at the Memorial church here Saturday afternoon at 2:30 P. M. Rev. T. C. Leckie, Butte, will be in charge of the services. Rev. Leckie will be assisted by Rev. F. H. Metcalf, Twin Falls.

GRANGES OF WEST END PLAN PICNIC AT FILER

DUHL, July 24 (Special to The News)—Committees from each of five West End Granges, Fairview, Northview, Cedar Grove, Laurens, and Castelford, planned for their annual picnic, to be held Sunday, August 3, at the Twin Falls county fairgrounds in Filer, at a meeting at the Duhl city hall Monday night, August 2, at the Twin Falls county fairgrounds.

The deceased is survived by his father and mother, one brother, Ray, 12, and a sister, Dorislee, 8.

Mr. and Mrs. W. D. Baker returned home Tuesday after a visit at Magic Hot Springs, where Mr. Baker has been receiving treatment.

A group of 10 friends surprised Mrs. Burton Meyer Wednesday afternoon at her new home on Alameda with a housewarming party. Mrs. Meyer was presented with an appropriate gift for the new home by her guests, and refreshments brought by the women were served at the close of the afternoon. The Jerome Rotary club held its monthly dinner meeting on Tuesday evening at the North Side Inn dining room. Raymond Perry, Twin Falls attorney, gave the principal talk of the evening reporting the International Rotary convention at Chicago.

BUSINESS IMPROVES IN EASTERN CITIES

"Business in the East is picking up," it was stated yesterday by R. P. Robinson, manager of the J. C. Penney store here, who accompanied by Mrs. Robinson, spent a month on a trip during which they visited the cities of Chicago, Washington, Philadelphia, Atlantic City, New York, Boston, Detroit, St. Louis, Kansas City, Denver and Omaha, in the United States and Montreal and Toronto in Canada.

Mr. Robinson, who is president of the Twin Falls Kiwanis club, attended the international meeting of the organization, which opened in Atlantic City, June 22. He visited markets in New York while away, he attended the weekly dinner of the Twin Falls Kiwanis club yesterday, at which routine business was transacted but did not make a formal report of the Atlantic City meeting.

Carey, Declo, Hagerman, Malta, Oakley and Rupert Celebrate

EVENTS OF PIONEER DAY BRING OUT BIG CROWD TO PROGRAM

Tribute to Mormon Settlers By W. L. Adamson Features—Days—Celebration in Blaine County Town

CAREY, July 24.—Paying tribute to the Mormon pioneers, W. L. Adamson, Carey, gave the address of welcome to guests of the town at the Pioneer day celebration here today. The affair was attended by one of the largest crowds ever to gather here. The special program at the schoolhouse, an inter-county baseball game, performing of a life and drum corps, horse races and a dance in the evening, were main features of the celebration. Music for the program at the schoolhouse was furnished by the Carey choir, a male choir, and by John W. Jennings, who played saxophone solos. Italy's life and drum corps gave an entertaining performance.

Community Dinner A community dinner drew a happy throng following the program. Visitors from several surrounding towns were on hand. Shoshone town team won from a team of players from all parts of Blaine county by a score of 7 to 6, in a hard fought contest, at the Carey diamond immediately after the dinner. A program of horse racing, with all local horses entered, followed the baseball game. The race were run off on the track adjoining the baseball park before a record crowd.

TRY LONG FEEDING PERIOD COLLEGE STATION, Texas (AP)—Three demonstrations are underway in Nueces county to determine the advisability of a long feeding period. After reweighting in October, 25 animals now on sudan grass pasture and a ribbon of 1 1/2 pounds daily of cottonseed cake, will be fed homegrown grain sorghums for the finishing period.

MEMORIAL TO CHEROKEES NEW ECHOTA, Ga. (AP)—A memorial marker to the Cherokee Indians is planned by the government here. New Echota was the last stronghold of Cherokees east of the Mississippi.

CHAMPION HORSES APPEAR IN RUPERT

Riley String of Bronchos, Winners of Pendleton's Round-Up, Give Exhibition

RUPT, July 24 (Special to The News)—Featuring the Riley string of bucking horses, champions of the Pendleton round-up last year, Rupert's big rodeo show opened here this afternoon, for a two-day exhibition, in connection with the Pioneer day observance of the Latter Day Saints church.

The city's stores were closed during the afternoon in honor of the pioneers who entered the Utah valley in the vicinity of Salt Lake City on July 24, 1847. A crowd estimated at 500 persons witnessed the rodeo show of world champion horses at the Rupert ball park. The bucking contests, calf roping, bull dogging and other stunts will continue tomorrow. Vern Cober, Rupert, is in charge of the exhibition. Payment of taxes in monthly installments is being agitated in North Carolina.

BALL GLOB HOLDS BIG CELEBRATION FOR PIONEER DAY

Program of Sports, Baseball Game, Boat Races and Two Lively Public Dances Make Declo Event Big Success

(Special to The News) DEULO, July 24—Approximately 3000 persons gathered here today for the annual Pioneer day celebration, sponsored by the Declo baseball club. A program of sports, a ball game, boat races and two lively public dances contributed to the enjoyment of the day.

One of the most successful baseball games ever witnessed in this district, Declo nine, winners of the first half of the season in the Inland league, won by a score of 15 to 14 from the Idaho Falls aggregation, leaders of the Upper Snake river league. The game was featured by seven home runs. Borta pitched for the winning Declo nine and Sanford caught. Ruseel and Shane were batteries for Idaho Falls. The lead changed frequently throughout the contest, and either team might have won.

Amateur Events Amateur sports contests and races for children, and adults, including basket races, polo race, egg race, toe sack race, three-legged race, greased pig chase, old men's race, fat men's race and a free-for-all foot race, furnished amusement and recreation during the morning.

Motor boat racing at Downward bridge, three miles north of Declo, attracted a large part of the crowd following the ball game. Du Vaughn's Navigators and Hoax Stout's orchestra played at two dances, which brought to a close one of the most successful celebrations of the town of Declo ever has sponsored.

V. Parke, manager of the Declo baseball club, was in charge of arrangements for the celebration.

VARIETY OF EVENTS IN LITTLE VALLEY TOWN DRAW THROUG

Joseph P. Payne, Paul, Addresses Crowd at Park Opera-House-in-Tribute To Pioneers of Church

(Special to The News) HAGERMAN, July 24—Speeches, races, a ball game, a chicken dinner, drama presentation and dancing served to make Hagerman's tribute to the pioneers of the Latter Day Saints church, one of the biggest and most successful events the city ever has witnessed. One of the largest crowds ever to gather in Hagerman was on hand, Joseph P. Payne, Paul, was speaker of the day at the special program in the Park Opera House at 10:30 A. M. He paid a glowing tribute to the trail blazers and pioneers who entered the Little Valley on July 24, 1847.

In the afternoon, beginning at 1 P. M. a wide variety of amateur sports contests, foot races and stunts furnished recreation for celebrators aged from six to the sixties.

A baseball game at the Hagerman ball park, following the contests, drew a big crowd of enthusiastic fans. A three-act drama of local talent and a public dance afterwards brought to a close one of the most successful celebrations the little valley town ever has enjoyed.

Emmetson Pugmire, James Chatterton and Emer Anderson, member of the committee in charge of the event, conducted the day's entertainment.

"MOONSHINE" FATAL TO DEER ASHEVILLE, N. C. (AP)—More than 3,000,000 honey bees have died of alcoholic poisoning in Buncombe county during recent weeks due to the presence of moonshine stills in the mountains, beekeepers here estimate.

Sues Uncle

PRINCESS OF THURN and Taxls brought suit in Pennsylvania against J. V. Thompson, former millionaire, charging failure to meet notes he gave while trustee for estate of her father, John Nicholls, Uniontown. — (AP) Photo.

OFFICER OF CHURCH SPEAKS AT CASSIA STAKE CELEBRATION

Address by Melvin J. Ballard, Baseball Game and Parade Feature in Events Witnessed by 2500 Persons

(Special to The News) OAKLEY, July 24.—A crowd estimated at 2500 persons joined in Oakley's celebration of the second half of its two-day Pioneer celebration here today, which was sponsored by the Cassia stake of the Latter Day Saints church. A baseball game, a parade in the morning and an address by a high official of the church were highlights of the day's events.

The celebration opened at sunrise with a song service to the pioneers, conducted by P. O. Peterson. A parade at 10 A. M. in honor of the pioneers included many celebrations of pioneer fame. Alvin A. Ballard, Salt Lake City, a member of the Council of Twelve of the Latter Day Saints church, delivered an inspiring address at the stake tabernacle on the subject of following the lead of the pioneers. At the rodeo show in the afternoon, about 20 horses from the districts surrounding Oakley provided the finish of a hard-fought series of contests which were begun yesterday afternoon. Floyd Bell, Oakley, won first, and Jimmy Higgs, Paris, fifth, second in the bucking contest. Clarence Ezzell, Oakley, captured honors, and Ted Hunter, Oakley, claimed second in the calf-roping event.

At the rodeo show in the afternoon, about 20 horses from the districts surrounding Oakley provided the finish of a hard-fought series of contests which were begun yesterday afternoon. Floyd Bell, Oakley, won first, and Jimmy Higgs, Paris, fifth, second in the bucking contest. Clarence Ezzell, Oakley, captured honors, and Ted Hunter, Oakley, claimed second in the calf-roping event.

Oakley baseball nine won from the Twin Falls club, 6 to 2, in an exhibition contest early in the afternoon. Oakley team registered four double plays and Twin Falls one Walker pitched for Oakley and Pullmer for Twin Falls.

In the horse races following the baseball game Humphrey, Jerome, and Martin, Oakley, took first and second respectively in the first event, the quarter-mile free-for-all in the half-mile free-for-all Humphrey again took first and Hitt, Malta, claimed second place. Hitt won the mile event and Humphrey's entrant was second. In the one and one-half-mile relay event, Jess Vedte, Oakley, walked away with the honors. Glib Lee's string of three horses received second honors. Sam Hunter, Oakley, won the pony race and Hitt, Malta, was victor in the saddle event. Burley and Oakley bands furnished music for the event. At the public dance at Oakley's new Rainbow hall, approximately 400 couples enjoyed dancing to music furnished by the Nighthawks orchestra of Twin Falls. A drama, "Balding," presented by the Cassia stake of the church

CROWD JOINS IN MALTA IN HONOR OF PIONEERS

MALTA, July 24 (Special to The News)—Honoring pioneers of the Latter Day Saints church, who entered the valley here, July 24, 1847, the town of Malta held special observance today.

A special program of addresses and music was given in observance of the day. A large crowd was on hand, including several visitors from other parts of the state.

EGG COOPERATIVE PROSPERS OLYMPIA, Wash. (AP)—A total business of \$25,337.69 was done by the Washington cooperative egg and poultry association in 1929. Cash returns to members above the pool returns amounted to \$776,915.39. A legal eight-hour working day and 48-hour week is in force throughout Argentina.

Cincinnati	9	23	.282

(By The Associated Press)
CLEVELAND, N.D., July 25—Jimmy Foxx's twenty-seventh home run of the season, delivered in the ninth inning with one man on base and the score tied, today won the first game of the series between Philadelphia Athletics and Cleveland, 8 to 6.

The drive went high into center field, clearing the outfield, and then down the right field wall in the first inning. Bobby Bonaparte and Morgan flamed his twentieth circuit blow in the fifth, scoring Jamieson and Porter.

Robins Cling to Top Position in National League

Eastern Aggregation Takes Five-Inning Contest of Double-Header After Reds Triumph in First, 4 to 3

JOHNNY ADAMS, 25, who was spotted by big league scouts while pitching for the University of Richmond, has signed a contract with the New York Giants.

(By The Associated Press)
BROOKLYN, July 24—The Brooklyn club to first place today by winning a five-inning second game of a double-header from Cincinnati, 9 to 0, after the Reds had taken the first, 4 to 3.

The second game started with two Brooklyn runs in the first inning and a storm approaching. After considerable sailing by both sides, the required four and one-half innings were completed and the Reds opened fire on Fry for seven more runs in the fifth. The game was called in the first half of the sixth on account of rain.

BROADCASTING NOW
AN INDUSTRY
NEW YORK (AP)—Radio broadcasting today is considered an important industry and its ramifications are becoming world-wide with the increase of the international exchange of programs.

A great area of Texas, heretofore without radio, has been taken to markets by a 65-mile branch line of the Santa Fe between San Antonio and Saco.

ON THE SIDELINES

by BRIAN BELL

Washington wins the American League pennant, and the suggestion does not seem so silly in July as it did in April. Little achievement will be the short of a banner miracle.

At the Biloxi training camp of the Senators there was nothing to indicate that Walter Johnson's team would be in the race at any stage. Even the well loved manager confessed somewhat ruefully that his team was badly in need of "punch."

"We will get good pitching," Johnson said, "and I am not worried about the fielding end, but I would like to have more power."

At that time "Goose" Goslin, the league's leading hitter of 1928, who, however, had slumped in 1929, was not with the team and another holdout was Spencer, a likely catcher.

SAM RICE was playing a good game in right field and hitting better even than his 38 years would seem to permit, while Joe Judge, another veteran, was confident that he was in for a good year. Buddy Meyer was the hitting star of the early spring and was playing a surprisingly good game at second base in the preliminary games when it was taken into consideration that he had started as a shortstop and been converted into a third baseman during the way.

Rice was outspoken in his defense of Rice: "I am sure you have a good year," he said. "Ball players break down because their legs go wrong. I have never had any trouble with my legs. I will go at a fast clip for some years yet."

Successing events proved the veteran right: He established himself early in the season, being the leader in batting, base running and fielding and beyond question will remain there. Judge was close on his heels and with adequate backing by the other Senators behind some great pitching the team moved into the front rank.

And then Clark Griffith, the Old Fox, made some deals that "made" the team. He sent Goslin to St. Louis for Manush and Crowder. Manush was hitting well for the Browns and he was even better at the bat for the Senators. Crowder, in a Washington uniform, for the second time, won five games in half a dozen starts for Griffith, Johnson & Co.

As if the Browns were not Santa Claus enough in a baseball way for one season, Griff then did some business with the White Sox, greatly to Washington's advantage. He sent Emilie Barnes, a good fielder but light hitter, to the Sox; in change for Dave Harris, who dealt some worth while batting blows immediately. And then in exchange for a good hitting pitcher and a catcher they did not need, Garland Braxton and Benny Tate, Griffith and Johnson acquired Arthur (The Great) Shires, a loud talker and also a good hitter. Shires, acting as understudy for Captain Joe Judge, also hit well and almost single-handed won a couple of games.

If the Senators will it will be because they were good traders as well as good players.

NEW YORK 1, PITTSBURGH 8

NEW YORK, July 24 (AP)—A home run by Fred Lindstrom, some fine pitching by Carl Hubbell and a timely storm enabled the Giants to defeat the Pittsburgh Pirates, 1 to 0, today in the six-inning opening game of their series.

...the All-Electric Kitchen

Contains these three modern services

Electric Cooking Water Heating Refrigeration

Never before has the business of housekeeping been placed on such a high plane of efficiency and convenience as it is today in modern electric kitchens. And never before have women had so much time for the other things that go to make life richer and fuller.

An All-Electric Kitchen is the ambition of every woman who has learned how much Electric Cooking, Water Heating and Refrigeration means to herself and family, in health, in service and in utility.

An All-Electric Kitchen is cool, clean and modern. It combines efficiency, convenience and economy with beauty in a way that appeals to all women. It is the ideal. Come in and let us show you the new electrical kitchen appliances and tell you all about the All-Electric Kitchen.

Don Moe Goes Down Fighting in Struggle to Defend Laurels

35-Foot Putt on Difficult Course. Results in Loss

Johnny Lehman, Windy City Star, Triumphs Over Boy From West, Weary From Long Sieges in England

By PAUL MICHELSON (Associated Press Sports Writer) CHICAGO, July 24 (AP)—Don Moe, Portland, Oregon, wearing by his long golf career in England, went down fighting today in his struggle to defend his Western amateur golf championship ship over the narrow fairways and pitfalls of the Beverly Country club course.

The smiling champion and Walter cup star fell before another fighting youth, Johnny Lehman, Chicago, 1 up, after their quarter-final had extended to the thirty-seventh green. The result forced another chain-of-links—that has followed champions of the Western amateur, as no since 1921, has a title-holder retained his crown.

A 35-foot putt, rounding down a treacherous course, accomplished the conquest for Lehman, who brought the Big Ten championship to Purdue just three years ago. Going to the thirty-seventh green, both he and Moe were equidistant from the cup. Johnny pulled it and dropped it. The fading champion also tried but his ball stopped two feet short of the cup and it was all over.

Three other amateurs, T. Phillip Perkins, lately of King George's golfing jersey; Ira Couch, Chicago; and Bob McCarty, trans-Mississippi champion from Des Moines, also reached the semi-final round but it was T. Phillip himself who gave the galleries their next biggest thrill. Four down at the end of the 18-hole morning round, the bespectacled Briton who now resides in New York, came back with par-breaking golf to overtake Jack Westland, Chicago district champion, and then defeat him 2 and 1.

of the day and made him the one big favorite to win the championship. The news column, however, included under Bracket's 30-hole match battle, McCarty and Couch clash in the lower fields.

BIG SIX

(By The Associated Press) Frank O'Doul was the big exception to the rule of tight hitting among the Big Six yesterday while Al Simmons was a lesser follower of his fellow Philadelphian. O'Doul regained the lead in the National league by slamming out three hits in five times as bat to add 3 points to his average, breaking the tie at .405 with "Chuck" Klein. Klein scored three times, but he hit only once in four trips to the plate and dropped 2 points into second place in the Big Six. Simmons tightened his grip on the American league lead, adding a point to his average with two hits in five times up.

Babe Ruth made his thirty-sixth home run but he had nothing else to show for four trips to the plate and dropped a point. Lou Gehrig also went down 1 with a single hit in three times up. Riggs Stephenson was out of action and remained in fourth place at .388.

The standing—	O A H	%	pts.

England Musters Strong Polo Team

Great Britain Plans to Challenge United States With New 33-Goal Combination

By ALAN GOULD (Associated Press Sports Editor) NEW YORK, July 24—On the heels of revised polo handicaps listed by the Hurlingham club, Great Britain will challenge the United States for the international cup this September with a 33-goal combination, the strongest mustered since the war for this classic of Anglo-American sports.

"The team that has been put together is composed of Captain Richard George, Number 1, seven goals; Gerald Baiding, Number 2, eight goals; Captain C. T. J. Pugh, Number 3, nine goals; Lewis L. Lacey, back, nine goals.

Baiding has been raised from seven to eight, and Captain George reduced from eight to seven, in the revised Hurlingham list, cabled today from London to the Associated Press.

Seven-goal handicaps are listed for each of the three alternates on the British squad—Captain Charles H. Tremayne, H. P. Jennings and Alan Bork, younger brother of Pugh and a rival of George for Number 1 position.

The highest ranking American quartet that can now be mustered for the cup defense totals 34 goals. America has this only 10-goal player in the world, Captain Tommy Hitchcock, but since Winston Quast was reduced from nine to eight goals, no other rider in this country has a handicap higher than eight. Of the international squad, Eddie A. S. Hopson, Eric Peley and Samer Dosecki all have this rating.

Payne Triumphs Over Battalion

CINCINNATI, July 24 (AP)—Cecil Payne, Louisville featherweight, won a 10-round decision over Bat Battalion, world champion, in a non-title bout here tonight. Payne knocked Battalion down for a count of nine in the second round.

The champion took six of the rounds but the judge gave the knockout down great weight. Payne won three rounds and one was even. Payne weighed 132, Battalion 127 1/2.

It was Payne's second victory over the champion here within a few weeks.

GAINOR WINS WATERBURY, Conn., July 24 (AP)—Al Gainer, New Haven Negro, tonight won a 10-round decision over "Chuck" Burns, San Antonio, Texas light heavyweight. Burns, who won a previous contest, weighed 175. Gainer 169 pounds.

Frenchmen Boast Of Tennis Artists

'Big Bill' Tilden Draws 'Bounding Basque' For Opening Clash at Paris

PARIS, July 24 (AP)—French tennis fans openly boasted tonight, while the native officials agreed with them in his boisterous fashion, that he of the draw bids fair to bring France two victories in the opening pair of singles matches of the championship round for the Davis cup Friday afternoon.

"Big Bill" Tilden, ace of the United States, will meet the French champion, Henri Cochet, for the opening match which will start on the courts at 11 P. M. George Lott, Chicago youth who will help the American veteran with the singles but-terfly, faces Henri Cochet, world ranking star, in the second match at 5 P. M. The doubles teams, as yet unnamed, will clash on Saturday with the final singles. Lott against Cochet, Sunday afternoon.

While the French are bubbling over with optimism, the American colony feels sure Tilden's all-proven supremacy over amateurs—seven consecutive victories on grass and hard courts, will be shown again, giving the challenger an even break in victories for the opening day. No one, either French or American, appears to grant Lott a chance against Cochet.

Four out of five Frenchmen believe Tilden's spell over Borotra will be broken tomorrow.

Tilden appears to feel heavily the responsibility of his eleventh-hour selection as a member of the American Davis cup squad.

MANCHESTER, Mass., July 24 (AP)—An East-West fight for the Essex County club's invitation tennis tournament, which attracted 18 of America's top-ranking 20, resulted today when Marjorie Morrill, Dedham, Massachusetts, and Marjorie Gladman, Santa Monica, California, won their semi-final matches. Miss Morrill took only a half hour to overwhelm Dorothy Welzel, the California, 6-0, 6-2, and avenge the setback she received from the Sacramento girl last week at Longwood. Miss Gladman gained the championship round by again defeating Josephine Crutschback, her neighbor from Santa Ana, 1-6, 6-4. In a match much closer than the score indicates.

Joplin Claims Smith As Own

Joplin, Mo., July 24 (AP)—Joplin golf has proved its superiority over the Springfield, Missouri, variety, and for the next year Joplin citizens may inflate their chests and claim Horton Smith, low-scoring professional, as their own.

Mr. Smith, now a professional at Oregon, New York grew to young manhood in Springfield. This he moved to Joplin, became a "pro" and while representing the city achieved a professional golf reputation.

Inter-city argument over who could claim him, and who, possibly developed to white heat. Finally, as an effort toward arbitration, the source of the trouble—Joplin's Horton Smith cup, to be awarded yearly to winners of competitive tournaments—was composed of amateurs from the two towns.

But more important, the winner is to be given wide latitude in any claims it cares to make regarding the cup donor.

Yesterday Joplin players won all five of a series of 2-ball tournaments. Today they took 8 of 10 singles and tied for a seventh.

NEGR0 TROUNCES SNELL

SEATTLE, July 24 (AP)—Leslie (Wildcat) Carter, Seattle Negro, tonight in the first round of an eight-man bout, the fight lasted 1 minute 14 seconds. Each weighed 140 pounds. Jack Dempsey, former heavyweight champion, was referee.

BAY STATE GIRL—AND CALIFORNIA TRIUMPH

MANCHESTER, Mass., July 24 (AP)—An East-West fight for the Essex County club's invitation tennis tournament, which attracted 18 of America's top-ranking 20, resulted today when Marjorie Morrill, Dedham, Massachusetts, and Marjorie Gladman, Santa Monica, California, won their semi-final matches. Miss Morrill took only a half hour to overwhelm Dorothy Welzel, the California, 6-0, 6-2, and avenge the setback she received from the Sacramento girl last week at Longwood. Miss Gladman gained the championship round by again defeating Josephine Crutschback, her neighbor from Santa Ana, 1-6, 6-4. In a match much closer than the score indicates.

Stirling Trains To Battle Scott

WINDSOR, England, July 24 (AP)—Young Stirling, Moong, Georgia, in four fast rounds with his sparring partners today, wound up tonight with his fight with Phil Scott Monday night for what is officially regarded as "the heavyweight championship of the old world."

Tonight the pride of Georgia was always near the battlements of Windsor castle, confident the other contender will get him on the biggest of a 10-round championship fight, with Max Schmeling and will be short and decisive in his favor.

Fort Snelling's Blacks Advance

PORT SNELLING, Minn., July 24 (AP)—The hard-riding Fort Snelling Blacks today advanced to the finals in the Northwest polo tournament by overcoming a three-goal handicap rating and defeating the St. Louis civilian team, 9 to 5.

The Blacks will meet Ontario's eight-goal team in the consolation final Friday. Pierre, South Dakota, 1st year's champions, will play Wintrop, Minnesota, Tuesday afternoon.

Walters and Mays Battle With Fists

PORTLAND, July 24 (AP)—Carl Mays and "John" Wallace (Junk) Walters, Portland pitchers, engaged in a 20-minute slug-fest in the clubhouse before the Wednesday night game, it became known here tonight.

Walters was badly bruised about the eye, nose and lip and it was reported, Mays suffered a broken nose and possibly a fractured rib. Other players said Mays and Walters had been abruptly for some time.

It was doubtful whether either should be able to pitch for several days.

Lewiston's Team Plays Kellogg's

WALLACER, July 24 (AP)—American Legion baseball teams representing Lewiston and Kellogg will play in Spokane for the championship of northern Idaho and might meet Idaho Falls in the semi-finals of the state tournament.

The winner in the semi-final game will play either Pocatello, four time state champion and one-year national runner-up, or New Pomeroy in the state championship game during the state convention of veterans organizations.

It was doubtful whether either should be able to pitch for several days.

RAIN POSTPONES BATTLE

NEW YORK, July 24 (AP)—A heavy rain tonight forced postponement of the boxing show featuring a 10-round bout between Tommy Fagan, Omaha, and Bruce Fowler, Chicago, at the Madison Square Garden, Tuesday, August 8.

VICTIM OF SEVERAL BUSINESS FAILURES SEEKS NEW START

Clarence Saunders, Declares Recent Set-Back to Be Temporary and Plans for New California Enterprise

By PAUL SANDERS (Associated Press Staff Writer) MEMPHIS, Tenn., July 24.—The ups and downs that have cost a millionaire a country boy, broke him and made him a millionaire again, have given Clarence Saunders another spill.

They have sent the Clarence Saunders, Inc., grocery stores, into liquidation, but he says they haven't dealt him a knockout punch. Two of his concerns still are in sound condition, he says.

Builder of the Sears store chain that made him millions, the stocky gray-haired Tennessee giant just a usual little street corner store. His first grocery store in 1922, suffered a loss of \$1,000,000, found himself "forced into bankruptcy and liquidated and lost control of the chain.

He bounced back with \$12,000 borrowed capital, started the first store, bearing his name and rode the "ups" and "downs" again. "Stores were wanted outside of Memphis to use his name were spread from coast to coast. The Clarence Saunders corporation, which he says is not affected by the bankruptcy, controls or licenses 200 of them.

Post 50 but still a tireless worker, he likes to recall his career that started when, 11 years old, he worked for 25 cents a day in a factory. Before he was 14 he worked on a farm for 40 cents a day, then had an 84-month job in a country store, and at 17 served as night watchman for an Alabama coal factory.

Metropolitan agent His career in the grocery business started in Clarksville, Tennessee, as a clerk and began his next venture in Memphis several years later as a billing clerk. His former boss of pink Italian marble still is one of Memphis' showplaces.

Enthusiastic in his hobbies as in business, he put Memphis on the professional football map single-handed last fall when he assembled a team, saw it lose to the Chicago Bears, spent thousands of dollars assembling a club that included 15 former college stars and defeated not only the Bears, but the Green Bay, Wisconsin, Packers, champions of the National Professional League.

Now, he says, he's going to California to direct his Clarence Saunders Pacific coast enterprise.

DENVER COMPANY SUES GOVERNMENT FOR \$1514

BOISE, July 24 (AP)—The J. K. Mullen Investment company, Denver, filed suit in federal court today against the United States for \$1514 for drowning out security on some of the company bonds through construction of American-Palis-dam.

The company complained that the dam impounded water which backed up over an entire improvement district before slide-way improvement bonds were fully paid off. The result was a loss of \$1514 worth of bonds held were made worthless through buying of the district under many thousands of feet of water.

The bonds were issued in 1916 and the land was flooded in 1927 through backing up water over the old site of American Falls.

BANKS FINANCE GOOD STOCK COLLEGE STATION, Texas (AP)—River county farmers here formed a livestock finance and sales corporation in cooperation with bankers and county agents for financing members in purchasing good foundation stock for their herds.

CLUB WOMEN UTILIZE AIRPLANES FOR TRIP

WASHINGTON, July 27 (AP)—Miss Marion McClenn, president of the National Federation of Business and Professional Women has traveled 1000 miles by airplane in the last year.

Recently Mrs. John Stipp, president of the General Federation of Women's clubs, predicted that the travel record of a club president soon would necessitate use of planes. She makes many trips in this way.

Miss McClenn, at the close of her first year as president, has traveled nearly 33,000 miles, visiting clubs and making addresses, using nearly every mode of transportation.

GEHLBACK LEADS IN DERBY FOR PLANES

11 of 12 Crafts Check in At Houston Airport in Air Race West From Arkansas

HOUSTON, Texas, July 24 (AP)—Eleven of the 12 planes which sped away from Little Rock, Arkansas, this morning, checked in here late today. Lieutenant L. Gehlback in the "Little Rocket," the Arkansas entry, still was far ahead of the field with elapsed time of 3:01:34 from Little Rock here and a total elapsed time of 15:22:32.

Gehlback won \$300 of the \$1000 prize offered here. "Stu" Quinby, the Illinois entry, the second money of \$100 and J. R. Wedel, New Orleans, the \$200 third award.

The craft which failed to arrive was that of Herman Hamer, Chicago, who started well, Hamer was forced down, officials were advised, at Hankamer, Liberty county, Texas. They presumed lack of fuel brought him down as he ran out of needed a mechanic and gasoline.

The "waxpin" "Little Rocket" came leading over the finish line so rapidly the number on the side hardly could be read. It was checked in at 12:08:27.

Quinby's little ship was next in, less than 2 minutes later, at 12:08:06. Gehlback arrived at 12:08:15.

The leaders said they had slighted the unfortunate Hamer earlier in the day and he was "burning up the sky." They believed he would have been hard to beat, but for the trouble he had.

The planes will take the race again at 9 A. M. tomorrow, San Angelo, Texas, is the next control point.

78 RADIO BEACONS AID NAVIGATORS OF NATION

WASHINGTON, July 24 (AP)—The lighthouse service of the United States now has 78 radio-beacon stations.

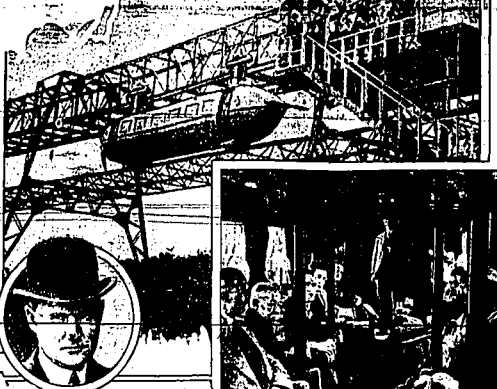

The beacons are being established in the more important harbors and bays along both coasts and on the Great Lakes.

By furnishing the navigator with means of knowing his exact position even when shore stations are not visible, and sound signals can not be heard, they are making it possible for vessels to avoid excessive loss of time.

POULTRY PAYS PROFIT RALEIGH, N. C. (AP)—A total income of \$600,000 from 21,000 hest for one month has been reported to Fred A. Beas, extension poultryman at State College. The report came from 128 poultry growers in 25 counties. Over half the income was profit.

United States postmen walk about 170,000 miles a day delivering mail to more than 20,000,000 persons in the nation's 15 largest cities.

Rail Plane Receives First Test in Scotland

THE NEW RAIL PLANE, which recently received its first official tests at Mingsvare, near Glasgow, Scotland. It is capable of carrying passengers at the rate of 150 miles an hour. The car or cabin is driven by propellers and travels suspended from a rail supported by girders as shown in picture above. The interior of the cabin is shown below. George Bennie (inset) is the inventor. (AP) Photo.

Veteran Prizes Hoover's Letter More Than Medal

COLUMBUS, Ohio, July 24 (AP)—Curtis E. Harrison prizes a letter more than his Distinguished Service medal.

The medal was recently awarded him by congress for heroism in saving his mules and horses under fire in France, but the letter was written by the President, he wrote:

"My dear Mr. Harrison: I have noted with satisfaction the recognition of your heroism during the world war in standing by your mules and horses under fire in France, and protecting them at the expense of wounds and grave personal danger to yourself."

"Your heroic action in risking your life to care for these dumb animals carries an added touch of usefulness and devotion to duty, justifying a peculiar gratification among those who hold in high esteem the best traditions of the military service."

"Yours faithfully, Herbert Hoover."

Harrison's exploit took place at the town of Migneville, France, on June 18, 1918.

The enemy threw 600 gas shells into the town, and Corporal Harrison, at the first alarm, succeeded in adjusting the gas masks on the horses and mules.

Later, when shrapnel and high explosives were thrown over, penetrating the barn where the animals were billeted, Harrison entered the place alone to care for them. He was twice wounded by shrapnel.

CURTIS E. HARRISON

Wounded by shrapnel, Harrison entered the place alone to care for them.

CHICKENS OF NATION NET \$1,000,000,000

WASHINGTON, July 24 (AP)—An annual income of more than \$1,000,000,000 now is produced by the nation's poultry industry, representing 10 per cent of the total farm income.

A survey of the department of agriculture shows this country to be the home of one-third of the world's chicken population. There are more than 600,000,000 parake chickens in the United States, including about 432,000,000 chickens.

EXPLORER AVERS NEGRO RACE CAME FROM ASIA

PARIS, July 24 (AP)—Negroes were the first people to inhabit the mysterious land of Tibet, according to the French explorer, Dr. A. P. Legendre.

He maintains there is no such thing as a pure Mongolian race, and that the "yellow race" is the issue of union between a white race which went to Asia as conquerors and Asiatic natives who, he says, were Negroes.

Windmills reported from the United States last year approximated 32,000.

NOTICE CHERRY GROWERS

Cherries will not be received after Friday, July 25th INTERMOUNTAIN PRODUCE CO.

CROPS OF CORN BENEFIT FROM LEGUME PLANTING

AUBURN, Ala., July 24 (AP)—The Florida's newest farming concern, which is taking an average yield of corn 34 years in succession, provided winter legumes are grown between corn crops, agriculturalists at Alabama Polytechnic Institute here found.

On the other hand, there was data to show that without legume corn yields declined more than 50 per cent over the same period. Cotton was found to react similarly.

Yields of cotton and corn in a three-year rotation with legumes were found four times as great as those in the same rotation without legumes.

CANCER STUDENTS TURN TO STUDY OF PRESSURE

BIRMINGHAM, Ala., July 24 (AP)—Cancer research at the University of California medical school will be directed in the near future to determination of effects of temperature and low pressure on malignant growths.

The study is included in a preliminary report by Professor E. S. Sudborough and his research associates. They propose to use a vacuum apparatus in rats in low pressure oxygen tanks. The rats were in the tanks three to six weeks.

FEEDING CALVES SWEET FOOD MAKES NO PROFIT

MINNEAPOLIS, July 24 (AP)—Feeding experiments at the University of Minnesota's college of agriculture tend to show it doesn't pay to cater to a calf's sweet tooth.

Using molasses in grain mixtures fed to calves, it was found they appeared to relish the food, but brought no greater gain in weight than regular diets—without the expense of sweetfeed.

50,000 TUNES IN NDC FILES

NEW YORK (AP)—Approximately 50,000 popular tunes and folk songs are stored in the music files of NDC. Several programs are now being built exclusively of these old pieces which recall memories of pre-Civil war days, and the gay Nineties.

SHARK-FISHERMEN SAVE WHOLE FISH

KEY WEST, Fla., July 24 (AP)—Florida's newest fishing concern, which is taking an average of 100 seven-foot sharks a day off the keys, is emulating the pack packing industry and using "everything but the squeal."

Leather in several grades is made from the hides, materials for the backs of hats, brushes and hand mirrors is manufactured from the shagreen on outside "skin." Preserved oil, rich in vitamins, is taken from the liver if the fins are dried and shipped to the orient as a table delicacy; the eyes are made into artificial pearls; the backbones turn into walking canes and the weak of the shark becomes fertilizer.

MILD LIGHT REACTS IN TELEVISION LIKE GLARE

NEW YORK, July 24 (AP)—A bright light that is not bright to the eye is one of the mechanical puzzles solved in the two-way television circuit.

The two persons talking see each other's "television faces," and near these images is a small, mild, blue spot of light. The blue spots are the lights scanning their faces for the photo-electric cells which transmit them to the opposite ends of the wire.

Throttle THRILL

What a difference there is in the responsiveness of the same automobile when different fuels are used. A motor which is sluggish, slow and lacking in power with common gasoline is transformed into a veritable dynamo of power, energy and speed when fueled with—

VELTEX GASOLINE

You experience an entirely new "throttle thrill" when you give it the gun. Your motor takes on a new life, a new sensitiveness, a brilliant responsiveness with each slight touch of the pressure.

You sense that gratifying thrill of unlimited power in reserve as you zoom the hills with this better, cleaner and higher powered gasoline. There is no laboring—no legging—and much less gear shifting when VELTEX GASOLINE runs the motor. Convince yourself by giving it a trial.

LOUISIANA'S YOUNG GOVERNOR OPPOSES VETERAN IN SENATE

Huey P. Long, Defeated in Legislative Endeavors, Hopes to Defeat Ransdell on "Vindication" Platform

(By The Associated Press) BATON ROUGE, La.—Louisiana's 34-year-old governor, his state legislative program beaten, will make a bid for a seat in the United States senate.

HUEY P. LONG

Joseph E. Ransdell, 40, is the Democratic nomination. The state's primary will be September 8.

The campaign between the veteran senator and the young state executive is expected to be among the most exciting Louisiana has seen in years.

Long, who a year ago escaped impeachment charges when the state senate blocked trial of accusations voted by the house, seeks the senatorial nomination on a platform of "vindication." He charges his enemies blocked him in the legislature "out of spite."

Road laws

Legislative opposition to Long's wishes came to a head when he proposed that the state issue \$50,000,000 in highway and bridge bonds.

After the house defeated that recommendation, Long introduced a bill to call a constitutional convention to write the bonds into the constitution. That finally passed in the house, but died a slow death in the senate.

Now Long plans to make the legislature's action his principal issue in his campaign for the senate. The announcement of his candidacy was made by Joseph E. Ransdell and the "old New Orleans ring."

SPECIALISTS RULE IN WINDY CITY'S MIXED-BABY CASE

(Continued from Page One)

of a baby he had seen only a few times instead of the boy he thought his own, he gripped the arms of the chair tightly.

After a moment's silence, Dr. Arnold H. Kegel, health commissioner, asked:

"Will you accept the decision?"

"Yes, I will accept it all along the line," he replied.

Dr. Kegel said that the child was brought home from the hospital, had discovered adhesive tape, labeled "Bambarger," on the back. Tape found to be from the infant in the Bambarger's crib.

"I will force the Bambarger to give up our baby," Watkins said, as the gyrations flared out.

Previously the parents had agreed to accept the decision of the jury.

Both mothers were in a state of collapse.

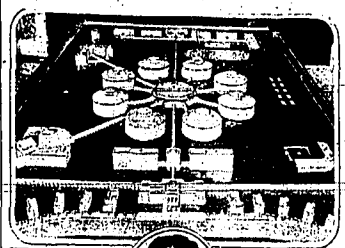

Riotous in the evening papers, quoting Bambarger as saying he would defy the health commissioner to take the baby in his home, had attracted a crowd of neighbors and street vendors around the residence by the time Dr. Kegel arrived. When the commissioner found Mr. and Mrs. Bambarger had taken the baby and left, he expressed regret, explaining he had not come to take the baby but to advise that Bambarger's decision was final.

The dissembling voice on the jury was that of Dr. F. W. G. W. Vienna, criminologist. He and Captain Michael Egan of the Chicago police department, who had supervised the examinations, both failed to agree.

Dr. Vienna explained that the babies were not interchanged. He said it had been proved there is a marked similarity of fingerprints of persons likely to be identified by their fingerprints. North America's complexion is about 50,000 years ago, was found by the experts.

The experts gave major belief to the fact that Dr. Hamilton R. Finkbecker, of the pathology department of the Western university, who said it was impossible for Mr. and Mrs. Watkins, whose blood tests were placed

Convicts Govern Selves In Cuba's New Modern Prison

Cuba's new prison on the Isle of Pines, where prisoners govern themselves, is shown as it will appear when finished. Captain Pedro A. Castells (inset) is its warden.

SANTA FE, Feb. 24 (AP)—Three thousand convicts make their own laws and govern themselves in Cuba's new model prison, nearing completion on this mountain-topped Caribbean island.

After many years' experience in handling criminals, Captain Pedro Castells, who warden, conceived this plan of convict treatment and put it into execution.

Prisoners are allowed to fraternize, govern themselves and outline, within reason, their own code of laws.

Plan Functions

This plan adopted two years ago with the starting of the new prison, has worked, he declares, without a hitch.

Prison-made laws to govern themselves are carefully observed. In the few instances where a con-

vict is unappreciative of the privileges accorded him, he is placed in a cell composed of fellow prisoners, with convict judges and jurymen. His punishment is fixed and carried out by fellow convicts.

Most of the guards are themselves prisoners.

Circular Cell Block

The circular cell block system is not unique, and has been used in building the new Illinois prison at Joliet, in the United States.

Inside cell bars are eliminated and the cell-blocks resemble more a few solitary cells have barred doors, but these are used but temporarily and in cases of extreme refractoriness.

Among the 3000 are five American prisoners.

Society Girls In Chicago Mix Careers And Parties

Society activities didn't hinder these girls from working. Betty Dixon (upper left) works for a travel bureau and Pauline Wolff (lower left) works for a dress shop.

CHICAGO, July 24 (AP)—Chicago society girls find time to mix business with parties.

Betty Scriven of the socially elegant and business-savvy group began a selling automobile. She scattered her activities to travel bureau, and her knowledge of Italian, French and German served her well.

This 21-year-old girl has her own secretary, and this summer she has been in Europe for the business.

"I try my clothes and accessories with my salary," she explained.

Pauline Wolff left a Michigan boulevard shop, as assistant to the manager of the women's apparel department, to be married.

125 VARIETIES GROW ON ONE APPLE TREE

MARTINEZ, Calif., July 24 (AP)—A tree with approximately 125 varieties of apples on it has been grown near here by George Upsham.

It took 13 years of experiments to obtain the phenomenon.

Upsham has been grafting branches to the original tree since 1917. In the spring, green limbs bud at different times with blossoms in dozens of shades.

ANNOUNCEMENTS

The Land-A-Hand club will meet Friday, July 25, at the home of Mrs. Hubert.

PLANTS COLD PACK 800 BARRELS OF CHERRIES

The total cherry crop which was cold packed this year here amounted to 800 barrels and 200 barrels packed last year. It was stated yesterday by G. J. Cannon, manager of the operation of the plant of the International Produce company and by H. W. Jackson, company crop a year was somewhat lighter, and there was a larger percent of culls on account of the injury done by hail in some orchards and the price level has been generally lower than last year, he stated. The plants finish operation about 30 barrels were damaged.

FORM ALL-NEGRO SYMPHONY BALTIMORE (AP)—An all-Negro symphony orchestra, believed one of the first to be formed here for full concerta. Sponsors plan to stress "locality more than is usually done."
