COMMITTEE HEARS VIEWS OF FORD'S PERSONAL ADVISOR

Charles E. Sorenson Urges Use of Secret Police to Check Communist Activities in United States

(BY THE ASSOCIATED PRESS) DETROIT, July 26 — Charles E. Sorenson, personal representative of Henry Ford, told the congressional committee investigating Communist activities in the United States today he was "very much in favor" of a secret police force to check Communist activities in the United States...

NINE BEAUTIES ESCAPE DEATH

TRUCIQUILA, Honduras, July 26 (AP) — Nine of the prettiest girls in Honduras, bound for a beauty contest here to select a "Miss Honduras" for the forthcoming international beauty contest at Rio de Janeiro, by making a boat today sped to the shore, saved from probable drowning in the turbulent waters of Lake Yaco.

CHICAGO MOTHERS UNITE IN CRUSADE

Women Plan Drive to Avoid Confusion of Identities of Babies in Hospitals CHICAGO, July 26 (AP) — Stirred by the tragic consequences of the confusion in identities of children born to Mrs. Charles Bamberg and William Watkins in Englewood hospital a group of Chicago mothers today planned a crusade against recurrence of such mishaps.

VICTOR EMMAUEL FINISHES JOURNEY

IN "DESOLATE ZONE" Soldier-Monarch Concludes Most Sorrowful Trip in 36 Years' Reign and Gatherers Data for Relief Work

BY ANDRUE BERDING (Associated Press Staff Writer) NAPLES, Italy, July 26 — King Victor Emmanuel concluded on 7 p. m. of the most sorrowful pilgrimage of his 36 years' reign tonight. Across a zone of desolation reeking with the stench of the unburied, and some of the best 24-45 deaths of Italian soldiers journeyed, everywhere speaking words of comfort and hope to the bereaved survivors of the catastrophe.

"Flappers" Parlance Amuses 500 Girls Compiling National Census

(BY THE ASSOCIATED PRESS) WASHINGTON, July 26 — "Flappers" may be a fearful or intriguing problem to girls actually, but to 500-odd women working for Uncle Sam, it is just a hardworking and so-called innocuous as a baker's butcher or a flashlight-maker. So with "flappers" and "pamperers." The group of clerks working under Dr. A. M. Edwards in cataloguing the various occupations find amusement as well as some puzzle that make them wrinkle their noses in dismay.

FARMERS' NATIONAL GRAIN CORPORATION COMPLETES SET-UP

President of Sales Organization Declares Unit Greatest Single Factor in World Wheat Trade

BY FRANK L. WELLSER (Associated Press Farm Editor) WASHINGTON, July 26 — "The farmers' national grain corporation" was declared today by C. E. Huff, its president, to have become the greatest single factor in the world wheat trade.

BOY USES TEETH TO FIGHT SNAKE

WOOSTER, Ohio, July 26 (AP) — "If a man bites a dog, that's news," according to the late Charles Daney, famous publisher and editor of the first edition of Allen Mason, W. Wooster, ought to be worth a rest," Allen joked on a snake.

ANNOUNCING THE 1930 MODEL ADVANCED IRON FIREMAN

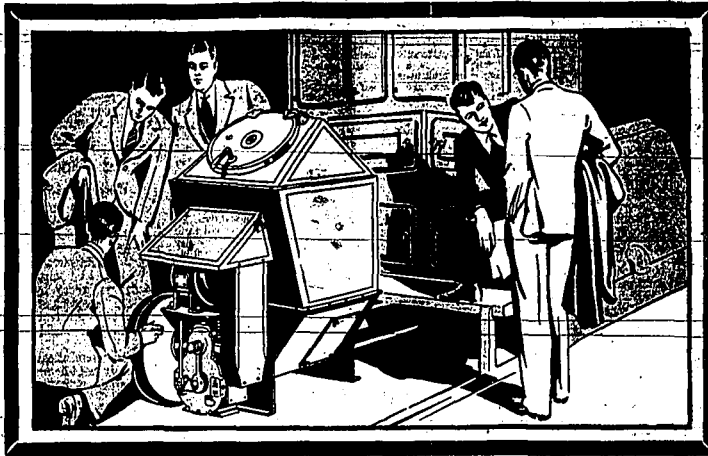

NOW ON DISPLAY AT OUR SALES ROOMS, 307 4TH AVE. SO.

Smashing Price Reductions

Through our new arrangement of a Direct Dealership with the Iron Fireman Manufacturing Company, we are able to offer a price reduction of from 10% to 25%.

If you have not had a quotation on your heating plant, under the new low prices, do so at once, as you will be pleasantly surprised at the generous reductions. These price reductions run from \$76.60 on up.

THE PIONEER AND LEADER OF AUTO-MATIC STOKERS

"PRICE"

THE MACHINE THAT MADE COAL AN AUTO-MATIC FUEL

"All works of quality must bear a price in proportion to the time, skill, expense and risk attending their invention and manufacture; those things called 'cheap,' are, none the less, justly estimated, the cheapest."

"There is hardly anything in this world that some man cannot make a little worse, and sell a little cheaper, and the buyer who considers 'price' only, is that man's lawful prey."

Nothing could be more applicable to the Iron Fireman... "when justly estimated, it is the cheapest." It is built up to the highest standards of quality—not down to a price—an inspection of the new 1930 Advanced Models will soon disclose this fact.

Years Ahead in Engineering Principles

Again Iron Fireman Demonstrates It's Leadership By A Great Forward Step In Stoker Design and Construction

EXCLUSIVE FEATURES

which are advancements in engineering design, and which are to be had in only the 1930 Advanced Iron Fireman, put this machine in a class by itself, and clearly explain why the machine is so distinct that more people have adopted its use than all other machines in the same field combined.

Iron Fireman engineering principles are years ahead... its many EXCLUSIVE features are such that they have enabled the Iron Fireman to perform the remarkable things that it has... reduces fuel bills as high as 85%... earn its owners from 10% to 80% on their investment every year, in addition to automatic heat and other advantages... and has enabled it to give its owners years of trouble-free service... to become so universally accepted as the best word in modern heating.

We beg to invite your attention to a few EXCLUSIVE Advanced Iron Fireman features:

DON'T

store Lump coal in your bin until you have seen the New Advanced Iron Fireman models, and have had a quotation for your heating plant, whether for your home or building. Why pay \$12.50 for Lump coal when \$6.50 worth of Slack will give you the same amount of heat... In addition to its convenience, comfort and cleanliness it will afford you.

1—Motor on a pendulum gear-case to protect from moisture... under hood to protect from dirt... on spring suspension to absorb vibration, giving longer life and quiet operation.

2—Ball Drive: V-type now adopted by Advanced Iron Fireman... 100% dependable, absorbs starting shock and adds life to entire mechanism as well as motor.

3—Air control, on all Advanced Iron Fireman models, is by an iris shutter, regulating volume of air at intake of fan... gives more positive control and requires less power to operate.

4—Smoke-tight hopper, on Advanced Iron Fireman, prevents smoke from escaping from hopper when stoker smokes back, as any stoker will when coal gets low... This is an Iron Fireman feature and means quiet, smoke running the whole year operating of the heating system.

5—Copper-bearing steel used throughout in the construction of the Advanced Iron Fireman, preventing rust and corrosion.

6—Special Secret Processed Turkeys and Feed Worms insure years of trouble-free service for Iron Fireman owners.

7—Non-angled firing... effected by the continuous-feed gearcase feeding coal to fire-box in steady stream, not in spurts, forcing gases to pass through an unbroken fire-bed causing complete combustion. This is a patented feature of the Advanced Iron Fireman... its benefits can be enjoyed by only Iron Fireman users.

8—National background of success... Iron Fireman is sold in every state, all over Canada, Alaska, Japan, Australia, New Zealand, England, Belgium and many other foreign countries—a machine so good that foreign buyers "order" them, recognizing its superiority.

9—Manufacturers... a firm of known financial standing... with a constant, on all Advanced Iron Fireman models, marketing a product of proven merit... the only firm in its field being listed on the New York Stock Exchange. A product is no better than the people that make it... we invite you to look up the Iron Fireman Mfg. Company in Dunn or Streetville.

Do You Have Trouble With Your Heating Plant?

We have a thoroughly trained heating service man who will be glad to inspect your plant and remedy the trouble... this is just another of Your Heat-Merchant's services, and the cost is nothing. Avail yourself of this service... our one desire is that you get the utmost satisfaction from COAL as a fuel. We have a Furnace Vacuum Cleaner to clean your furnace if it needs it.

"ASK YOUR BANKER ABOUT IRON FIREMAN"

A Machine Is No Better Than the People That Make and Sell It

The dependability of any machine rests largely upon the kind of company which makes and sells it. The unflinching day-in and day-out service of a machine must necessarily depend upon the integrity and ability of the manufacturer who makes it and the service organization which is ever available to insure satisfactory performance.

When you buy an Iron Fireman Automatic Coal Burner, you are glad to know that it is backed by a large company, which has the highest rating possible in both Dunn and Streetville... with a continuous record of successful operation and steady growth—the pioneer in its field. You are glad to know that it is a thoroughly standardized machine made on a volume basis so large as to exceed the combined total production of all other machines in the same field... that it is manufactured in a plant which is the equal in equipment and workmanship skill of any machine-producing plant in America. You are glad to know that continuous laboratory research is conducted to improve the machine, keeping it constantly in the lead. And last, but not least, there is satisfaction in knowing that you are purchasing a machine which is so distinctly the leader, that more users have adopted it than have adopted all other machines in the same field combined.

THE FINEST ACHIEVEMENT IN IRON FIREMAN HISTORY

For years the Iron Fireman has been the pioneer and leader in automatic coal burners. A continent-wide jury of American and Canadian business men and home owners has passed judgment on the Iron Fireman. They know the results it brings, and have pronounced it good.

Fuel savings made by Iron Fireman users, as disclosed by a recent national survey, average 31.82%... equivalent to an average annual earning of 39.44% on the amounts invested in the Iron Fireman Automatic Coal Burner. These cash earnings are over and above labor savings, elimination of smoke nuisance, the assurance of uniform heat and other important Iron Fireman advantages.

NOW THE ADVANCED MODELS

Meanwhile in its Research and Development Department, the Iron Fireman Manufacturing Company has spent many thousands of dollars and many months of time in further improving a product already noted for its excellence and the results it brings for its owners.

Thoroughly tested under all kinds of operating conditions, both in the laboratory and in actual service, these models are now offered to the public. They retain all the splendid features with which Iron Fireman owners are already familiar—and in addition embody many important advances in design and engineering.

SERVICE

Stokers are not like automobiles... they require expert and factory trained service. The Iron Fireman Manufacturing Company require their dealers to have factory trained installation and service men. Our firm has these members who have taken this training, and are fully competent to render any service needed. We have the only thoroughly trained service organization in southern Idaho.

Due to the limited market in southern Idaho, it would be impractical and impossible for many different service organizations to be trained and maintained. Realizing this, and also realizing that competent service is imperative—many firms are reluctant to sponsor stoker agencies.

The firms listed below, who will represent the Iron Fireman as sales agents, are glad to represent the Iron Fireman in a sales capacity, realizing the unquestioned superiority of this Automatic Coal Burner. Knowing that they can unqualifiedly and conscientiously recommend the Iron Fireman to their friends and patrons as the best in its field, and also realizing that they are equipped to properly install and properly service them. They realize that in the stoker industry, as in the automobile industry, there has been and will undoubtedly be many more "orphans." They do not wish to accept the responsibility of sponsoring a product that has not proven beyond doubt to be of real value, and are gratified to have the opportunity of supplying such a machine as Iron Fireman to their friends. Give them your orders, you will get the same service you would by ordering direct from us.

PLACE YOUR ORDER NOW!

It is important that orders for the Iron Fireman be placed early so that it may be installed in time for use when the first cold days of Fall arrive. We have a convenient time payment plan which does not require any down payment until you are ready to use the machine. Many people have already placed their orders. Why not place yours with us at this time so that we have time to make a better installation than we can later? MEMBER, no down payment required!

The Best Recommendation That The Iron Fireman Has Is It's Owners and Users

Below is a list of present owners... you know some of them... ask them what the Iron Fireman has done for them. Then let us show you the new 1930 Advanced Iron Fireman... you too, will want to make their remarkable savings in fuel costs, and enjoy the better, cleaner and more dependable heat:

This coal comes from the deepest mine in Utah... from a vein 24 feet thick. It is low in ash, high in heat content, free from foreign matter, and is clean burning. The best of coal in some way good... why not give New Peerless a try... we heartily recommend it and are sure that you will like it as a fuel.

JUNIOR JOHN D. ROCKEFELLER GIVES WORLD'S LARGEST CARILLON TO BE INSTALLED 21-STORY TOWER OF NEW YORK CITY CHURCH

RESIDENTS AWAIT MUSIC FROM HUGE SET OF 72 BELLS

22-Ton Mopster Included in Giant Chimes Will Boom Forth on Tones of Low C Pitch

UNIT FOR HIGHEST NOTE WEIGHS BUT 25 POUNDS

Church of White Limestone Rises 450 Feet in Air Near Waters of Hudson-River

(By The Associated Press) NEW YORK, July 26.—High in the 460-foot Gothic tower of the great new Riverside church, the world's largest carillon soon will be pealing out over New York's peaks. The 72 bells, gift of John D. Rockefeller, Jr., range in size from the tiny 25-pound bells that furnish the high notes to a 22-ton monster that will boom forth thrice tones of low C.

The Weather

FORECAST FOR TODAY AND TOMORROW—Generally fair, except unsettled with local thunderstorms in the southeast portion of the state today; no change in temperature.

Maximum temperature in the vicinity of Twin Falls was 85 degrees. The 24-hour period preceding July 26, according to the forecast of the government weather observer here, minimum for the same period was 50 degrees. The sky was clear.

SOCIETY AND CLUBS

Miss W. H. Heaver, Mrs. Earl Felt and Mrs. W. H. Priebe. Friends in Twin Falls have received announcements of the celebration of the 10th wedding anniversary of Mr. and Mrs. J. C. Beatty at their home in Fullerton, California, July twenty-ninth.

COIN THROWING FROM THE TOWER

PARIS, July 26.—With the coming of summer tourists, police again were recruited by the city to handle two coin throwing contests from the top platform of the Eiffel Tower.

CUBA RECEIVES TOURISTS

HAVANA (AP)—The national tourist commission of Cuba reports a heavy influx of summer tourists and five reduced rates for steamship and railway lines at the same.

ANNOUNCEMENTS

All officers of the First Baptist church are invited to a basket dinner at the home of Mrs. C. O. Baker, following morning services—today. Each one is requested to bring a basket.

COOK EATS LIGHT CORN AND DIES FROM SHOCK

ANGLAND, Wis., July 26 (AP)—A cow-bulldog named Alora Ebeli swallowed an electric light cord which she ate and died from shock.

TWO AMERICANS DROWN

PANAMA, July 26 (AP)—Two American sailors stationed at Fort Sherman, Canal Zone, were drowned today when they were swept overboard in a small boat on the coast of Panama.

NATIONALISTS PLAN FOR SUPER-BATTLE

Government Girls Loiny Fight Finish Fight With Northern Rebels On Wide Front

STANFORD, July 26 (AP)—Nationalist government stirred its lions this week-end for a finish fight, with Northern rebels in Honan and Shantung provinces.

While Nationalists continued to pour additional men and material northward along the Tientsin-Peking railway near T'ian, Shantung, had been made for several days and had been in the hands of the rebels and a new offensive was expected momentarily.

Both sides appeared reluctant to take the offensive, remaining watchful for the opponent to start something.

MOST AMERICANS SAFE

WASHINGTON, July 26 (AP)—The state department was advised today that only eight Americans remain in the hands of the Chinese in Foonan, China, where a new offensive has been in progress.

He reported that Dr. and Mrs. James E. Skinner, North Toppa, Kansas, could not leave Dr. Skinner's home in Foonan, China, because of the danger zone was safe at that point.

The others in the Yungping area were the Rev. W. F. Cassidy, New York City; the Rev. John R. Grace, Chicago; Dr. Charles L. Storr, Hillsboro, New Hampshire; Dr. Walter H. Judd, Hialeah City, Nebraska; S. S. Shaw.

COMMITTEE HEARS VIEWS OF FORD'S PERSONAL ADVISOR

States, was further complicated today by predictions of embargo and other economic sanctions.

States, was further complicated today by predictions of embargo and other economic sanctions.

The United States recently established a trade mission to Russia, headed by the late Secretary of the Treasury in the United States.

The Amoy Trading corporation today denied newspaper reports to deny the fact that the corporation had sold below production cost and to assert that, as the Russian product was not available in the United States, there was no competition with the American output.

The smuggling charge entered this morning was brought in by the federal custody today for ensuring watch movements into the country.

Asbury was one of the witnesses desired by the congressional committee when it was meeting here.

COMPLAINTS NAME FIVE WRITERS OF BAD CHECKS

Four men and one woman are named as defendants in misdemeanor complaints filed here yesterday, alleging issuance of checks without funds.

ENGINEER SURVEYS BOISE-TO-MOSCOW ROUTE FOR PLANES

Report of 'A. C. Blomgren Aims at Marking Out of Air Line to Connect North and South Parts of Idaho

(By The Associated Press) BOISE, July 26.—An airway between Boise and Moscow provided with landing places every 20 or 30 miles will be the aim of A. C. Blomgren, state aeronautics engineer, in a preliminary report on the route.

The survey of the airway was made with a view to marking out a short connection by air between North and South Idaho, which are now so widely separated by automobile or train.

"The necessity of this route cannot be questioned when one compares the rail, bus or automobile line between Northern and southern Idaho," Blomgren said.

"A survey of this route was recently made both by air and over the ground to determine its feasibility in regard to weather conditions, ground communication facilities, possibility of securing intermediate landing places, and the necessity of the route and points to be served by it.

Weather conditions over this route are excellent about six months of the year with a possibility of scheduled operation about nine months of the year. Due to the mountainous character of the terrain and the altitude necessary to cross the mountains, it is apparent that local as well as general storms seriously affect operations over the line. From New Meadows to Camas Prairie it is impossible to maintain a steady altitude necessary to cross the mountains. It is apparent that local as well as general storms seriously affect operations over the line.

Concrete cast in forms is intended to be the exterior material for this structure. After the forms are removed the surface can be honed down by rubbing with a hard brick. This gives a beautiful smooth white gray surface, eliminating any stucco treatment.

Submarine Explorers Plan Quest For Land In Far North

INDICATIONS POINT TO POSSIBILITY OF ISLAND NEAR POLE

Dr. H. U. Sverdrup, Chief Scientist For Proposed Wilkins Expedition, Tells of Plans

GROUP AIMS TO FIND DATA ON SEA'S FLOOR

Flocks of Birds and Extension of Shelf in Ocean Indicate Presence

DI. New Area

By REID MONROE (Associated Press Staff Writer) WASHINGTON, July 26—Undiscovered land may lie in the polar sea north of Wrangell island, says Dr. H. U. Sverdrup, chief scientist for the proposed submarine expedition of Sir Hubert Wilkins through the Arctic ice next summer.

The extension of the shelf from Wrangell island toward the north, coupled with large flocks of birds frequently seen winging their way to and from the pole, indicate to the noted Norwegian explorer that an island lies somewhere near the top of the earth.

Sverdrup, who has spent five years in the Arctic, hopes to determine, on the proposed 2000-mile trip from Spitzbergen to Alaska, whether this land exists.

Data on Sea Floor

Nor will this professor of the geophysical institute of Bergen confine himself to land hunting. He expects to return from the trip with information about the configuration of the polar sea floor, the importance of the currents which link with the North Atlantic, and the character of the ice formations found in summer at the pole.

From magnetic and meteorological observations he has hopes of bringing back data that will ultimately lead to more accurate weather forecasts.

Sverdrup believes the expedition will be fraught with no dangers. During the summer the ice is so broken up in the polar sea, he explains, that it scarcely will be possible to farther than five miles in any direction without finding open spaces of water.

The apparatus to be carried by the submarine for boring through thick ice, in his opinion, will not be needed.

16 Hours Under Water

The specially-equipped vessel, he says, will spend about 16 hours of the day under water with the rest of the time given to surface work.

An observer taking notes always will be on the post while the submarine is in motion, and the recording will be done on the several hundred feet from the ship to escape the vessel's influence on the needle.

Present plans call for at least a week's stay at the North Pole, where intensive investigations will be made.

THEATRES

WILL ROGERS COMES TO IDAHO SHOWHOUSE

Will Rogers, who needs no introduction to the American public after a long and successful career as actor, broadcaster, columnist and philosopher, creates another excellent comedy role in his new all-talking picture, "So This Is London," now playing at the Idaho theatre.

The picture is a hilarious success to his recent screen hit, "They Had to See Paris," and in it Rogers surpasses his previous record for inserting spontaneous, laugh-getting humor of his own creation.

Cast as a Texas mill-owner with an unreasonable prejudice against everything English, Rogers rings the bell every time with his inimitable comments on the office of his dislike. His wife and son succeed in persuading Will to take them with him on a business trip to London, however, a trip which Will does not relish in the least. On shipboard Will and his wife are so restless they do not attempt to interfere with their son's sudden but serious love affair with a charming English girl, when they arrive in London, they discover that she is determined to marry and in desperation Will agrees to a plan originated by Will to prevent the marriage.

The girl's father, Lord Percy Worthing, thinks too many Americans when Will enters the house with a whom does an Indian war dance, chews tobacco, and in a word, gives a hilarious interpretation of all the things the British find to exasperate the American, an uproar results, howling "rummy" to the audience.

Will's attitude is justified because he knows the exhibition is made merely to keep her out of the family and she quarrels bitterly with Junior, Will's son.

Rogers furnishes up in leaps and bounds until Rogers, regrets, its actions and tries to undo the damage he has caused. There seems little doubt that audiences who enjoyed "They Had to See Paris," will love this later effort which is even more amusing and entertaining with this new background, and the new and hilarious complications of plot.

More Rich again portrays the sympathetic friend, Frank Albertson plays the son and Maureen O'Sullivan is the English girl. "Many Moons" Robert Bruce sound scenic. "Gang Busters" is the picture.

Further features on the present program which runs through Tuesday.

BILLIE DOVE TRIUMPHS IN ORPHEUM'S FEATURE

Once more Billie Dove scours a triumph.

Her latest First National and Vitaphone starring picture, "Sweethearts and Wives," now at the Orpheum theatre, is one of the most completely entertaining and satisfactory films that this reviewer has seen in many a moon. It represents that very difficult combination of mystery and fun which so many producers have striven to achieve, and so rarely with success. "Sweethearts and Wives" tries it in a fresh way. There are novel twists and turns of the plot and characterization. And—a highly important point—there is a uniformly excellent cast. One of the most important roles is that of the heroine, the late Mrs. J. C. Brook in one of the most faultless performances of his distinguished career. Also there is Sidney Blackmer, who has rapidly become a premier picture figure. And the rest of the dramatic lineup is worthy of these headliners.

"Sweethearts and Wives" tells an interesting and amusing story in a manner that can only be described as one hundred per cent efficient. The dialogue is clever and sparkling and is perfectly reproduced. This is a Billie Dove starring picture and in her case each player at Clive Brook, Sidney Blackmer, Lella Logan, John Leder and Crawford

MOSCOW SCHOOL AGENT PRAISES RUPT CLUBS

COUNTY FAIR TAKES LARGE PROPORTIONS

Expansion Such as to Merit Name of Exposition Asserts Board Secretary

FILED, July 25 (Special to The News)—Growing magnitude of the Twin Falls county fair is set forth in a statement issued today by H. W. Graves, secretary who calls attention to the many features of the coming exposition.

Mr. Graves says: "The fifteenth annual Twin Falls county fair at Filer, September 9, 10, 11 and 12 has taken on all the proportions of an exposition, combining as it does an agricultural fair, a livestock show, a merchants' bazaar, a huge automobile show, a midway of shows, amusements and refreshment booths; a racing meet, a poultry show, vaudeville and fireworks, fine arts exhibit and a variety of other attractions, interesting, educational and entertaining."

"All over the West, Twin Falls county's fair has a reputation for size, scope, attendance and quality, that has put it in the front ranks as an exposition and the fact here have set a standard which the present directors hope to equal or excel this year."

"A pioneer in the field of county-owned and county-operated institutions, the fair last year was reorganized under the provisions of a new law, which makes of it a separate political unit, the same as a school district, a highway district or other municipality, and operated by the Twin Falls county fair board, the members of which are annually appointed by the county board of commissioners. These fair board members serve without pay, but strive to the institution unflinchingly of their time and effort in cooperation with the city of the county generally, in the upbuilding and maintenance of the fair."

"The officials who this year have the duty of making the big September event, in addition to the secretary and superintendents, who are appointed by the board of directors, include the following:

H. O. Wilson, Kimberlin, president; T. D. Connor, Filer, and O. D. Peeler, Buhl, vice presidents; A. E. Kliss, Buhl, A. J. Peavey and Fred O. Lindquist, Twin Falls; and John H. Blasz, Filer.

Nation's Merchant Shipbuilding Gains 100 Per Cent in Year

UNCLE SAM BOASTS RANK OF SECOND IN SHIP CONSTRUCTION

Only Great Britain and Ireland Excel America in Brisk Competition For Sea Trade

MARINE LINES PLAN TO BOULD 34 MORE BOATS

Commercial Interests Avert Increase Promises Complete Independence For Traders

Architect's drawing (below) pictures huge American ship to be larger than England's Britannic (left), now the largest cabin liner. Two new American Leviathans will be faster than Germany's Bremen (upper right) and larger than the present Leviathan (center right).

(By The Associated Press)

NEW YORK, July 26 (AP)—Within a year Uncle Sam is hoped from second place among the world's leading merchant shipbuilding nations.

Only Great Britain and Ireland now lead the United States in the brisk competition for sea trade. Since last year America has surpassed Germany, long the holder of second place, and also had more ahead of Japan, Holland, France and Russia.

A gain of virtually 100 per cent has been registered in the last year by the United States, which had 23,614 tons of shipping under construction July 1, Lloyd's Register of Shipping shows the nation total on that date to be 112,024 tons.

Shipping Independence

Shipping men believe this increase forecasts a day when America no longer will be so heavily dependent on foreign ships to carry this nation's annual \$3,000,000,000 foreign trade.

Lloyd's rating, by merchant under construction, of leading marine shipbuilding nations for the quarter ending June 30 follows:

Great Britain and Ireland	1,282,063
United States	1,212,183
Germany	1,100,000
Ireland	107,433
France	107,433
Japan	107,433
Russia	107,433
Sweden	107,433
Denmark	107,433
Norway	107,433

America's increase in shipbuilding is attributed largely to the Jones-White bill, passed by congress in 1920, which allows preference returns to American ships for carrying mail, and loans to shipbuilders by the government up to 75 per cent of the ship's cost at low interest rates.

More Vessels Planned

Already more than \$50,000,000 have been loaned to aid in construction of 37 American cargo vessels, approximately \$125,000,000.

Included in the new program will be two huge new liners, 45,000 tons, the Leviathan II and III, respectively. They will be larger than the present Leviathan and will have a speed of 20 knots faster than the German Bremen, present holder of the speed record for the North Atlantic crossing. The Bremen's speed is 23 knots.

Contracts already are signed for two other big 20-knot American liners, each to have a tonnage of 30,000.

These ships will surpass in speed and size the new British mail ship Britannic, recently put in service, which now is the world's largest cabin liner. They will be the largest ever built in the United States and will

LIND BRINGS FIRST BUICK EIGHT HERE

Pioneer Automobile Distributor Introduces Latest Developments in Line

The first Buick eight-cylinder car to arrive in Twin Falls was driven here from Salt Lake City late this evening by C. E. Lind of the Lind Automobile company, who 29 years ago brought the first Buick car, a two-cylinder model, to Twin Falls. He has been Buick distributor here continuously since 1908, witnessing introduction successively of a four-cylinder model in 1909; six-cylinder model in 1916, and now the new eight-cylinder car.

On display in the Lind Automobile company showrooms yesterday, two models of the new Buick cars were the center of attraction for hundreds of interested visitors all through the day and until late at night. Two models were shown, a five-passenger, four-door sedan, and a coupe.

The new cars are available in 20 models, equipped with three sizes of engines on four different wheelbases—lengths, 114, 118, 124 and 132 inches.

Series 8-50 has a bore and stroke of 3-5/8 by 4-1/4 inches, a piston displacement of 207 cubic inches and develops 74 1/2 horsepower at 3200 revolutions per minute. Top speed is 75 miles per hour.

Series 8-60 has a bore and stroke of 3-1/8 by 4-5/8 inches, a piston displacement of 272 1/2 cubic inches and develops 80 horsepower at 3000 revolutions per minute. Top speed is 80 miles per hour.

The eight-cylinder engines were adopted by Buick to give greater performance, speed, power and efficiency. Improved road conditions throughout the country permit increased speed in travel. Buick represents the way and it is to meet this need that Buick adopted the eight as lending itself more readily than the six to superior power and smoothness because of the greater number of cylinders and its lighter reciprocating parts.

In developing the new car, all of the fundamental principles of construction have been maintained upon which Buick's reputation has been built. All features, such as valve in head engine, unit power plant, integral chassis, improved steering gear, one-piece rear axle housing, new clutch, improved frame and body construction, and many other details.

Mr. Lind brought the new cars from Salt Lake City where he attended a Buick dealers' conference Wednesday and Thursday. In recognition of his long and successful record as Buick distributor in this district, it was announced that Minidoka county had been added to his territory, which heretofore has comprised Twin Falls, Jerome and Cassia counties.

BEANS PASS TEST IN EDEN VICINITY

University Extension Division Agent Inspect Fields

EDEN, July 25—Practically all the beans of the Great Northern variety being grown on the First Experimentation farm have passed the first field test for certification. Inspection of fields in Jerome county was made Wednesday and Thursday of this week by Walker Pierce and E. W. Whitman of the university extension division, and assisted by county agent, Thomas Speedy. Application had been made for certification by the different growers of the county for approximately 185 acres. Of this amount about one fourth has already been abandoned as they failed to pass the first inspection. The west end of the county fields suffered the loss as the presence of mosaic being too great to try to certify. A second inspection of the remaining fields will be made a month later, or just prior to harvesting the present crop. The condition of crops at the present time looked very favorable to the inspectors.

Mr. and Mrs. Wilburn Davis left Wednesday morning for San Diego, where Mr. Davis is stationed in the navy.

Mr. and Mrs. L. C. Craig are the parents of a son who arrived on Monday.

BREVITIES

Go to Business—L. Cio will leave this morning on a business trip to Chicago.

Visit to Los Angeles—Mrs. Sarah D. Becker will leave today for Los Angeles to visit friends.

Return to Pocatello—Mrs. C. H. Stafford, Pocatello, returned here home last evening after a visit here.

Home After Visit—Miss Georgia McMaster returned Friday from Salt Lake City where she spent a week visiting friends.

Visit Over Week-End—Mr. and Mrs. Thomas Jordan and Mrs. and Mrs. Richard Hunt left last evening for Ogden to visit over week-end.

Guests of Parents—Miss Verma Lee Miller, Rawlins, Wyoming, arrived here yesterday and is the guest of her parents, Mr. and Mrs. W. W. Miller.

Leaves After Visit—Mrs. Susan Eaker, Iowa City, Iowa, who has been visiting her aunt, Mrs. E. W. Gardner, returned yesterday for Pocatello.

Go to Builey—W. H. Renfro, brakeman of the Oregon Short Line Railroad company, has been transferred to Builey. He will be required to take up his work there.

Home From Bales—Captain and Mrs. R. H. Barnes and Mr. and Mrs. O. C. Barnes returned yesterday after a trip to Builey, which they visited friends and attended the Passion Play.

Home From Dedication—O. C. Dudley has returned from St. Louis where he attended the dedication of the new 23-story home office building of the Continental Life insurance company of which he is agent.

Will Visit Portland—Mrs. J. S. O'Leary, Orem Sound, Ontario, Canada, accompanied by her daughter, Mary, will be visiting at the home of Mr. and Mrs. Thomas McEwen, who expects to leave tomorrow for Portland to visit there.

Home From Convention—Mr. and Mrs. R. H. Musser, accompanied by their children, Mary and Bob, have returned after a two weeks trip through Washington and Oregon. While away Mr. Musser attended the convention held in Bander National

Expected to arrive today to visit Mr. and Mrs. O. M. Blumpey and other friends here. He is connected with Presbyterian missionary work. He comes from Ohio, where Mrs. Blumpey is a member of a son born recently.

Manager Visits Here—D. O. Fisher, Seattle, general manager of the Shell Oil company, accompanied by his wife, Captain MacCreedy, landed here yesterday to visit John Dalch, Twin Falls manager. Mr. Fisher is making a trip over the Northwest section of the United States, visiting plants. He left here for Boise and will continue his trip from there to San Francisco, California.

Henri Cochet and Jacques Brugnon Win in Doubles

President Doumergue and Elite of French Capital Mingle in Roland Garros Stadium During Contest

By SMITH KEAVIS (Associated Press Sports Writer) PARIS, July 26.—Another 1930 Davis cup play was held in the outdoor stretched French flat today when Henri Cochet and Jacques Brugnon defeated Wilmer Allison and John Van Ryn in four sets, 6-3, 7-5, 1-6, 6-2. The victory made the score for France 2 to 1 in the Davis cup. The French tennis fans were hopeful and doubtful in the same breath. The good match of the French tennis follows began their celebration tonight.

Smith Always Shoots Near Top

Great Golfer of Scotland Holds Many Minor Championships But Seems Nervous—Able to Seize First

By BRIAN BELL (Associated Press Sports Writer) NEW YORK, July 26.—The brilliant golfing stars Carnoustie has sent to the United States, is like the girl in the advertisements—often a bridesmaid but never a bride.

The great Scottish golfer has won scores of minor championships and has been runner-up in most of the big events for many years. Although he still has a brilliant and big name, his frail physique forces him to conserve his strength. This causes him to take his games off in moderation and to be a son of the "low pros" who play only when the money is good.

Macdonald Smith, 40-year-old golf star, this year finished two strokes behind Bobby Jones in both the American and British Open championships, unable to get out of the role of runner-up, which has been his for 20 years.

Leo Diegel Ties

With Armour on Links in Canada

Veteran Detroit Professional and Agua Caliente Star Race Neck and Neck For Honors in Ontario

(By The Associated Press) ANCASTER, Ontario, July 26.—A spectacular round in the history of competitive golf, today enabled Tommy Armour, veteran Detroit "pro", to tie Leo Diegel, Agua Caliente, in the 72-hole Canadian open championship title Diegel had won in 1927.

Five strokes behind the leader, Tommy Armour, burst on the course today with a record of 137, the first in the first nine and 32 coming home to turn in a grand total of 277. Diegel, who set a record of 137 in winning the title a year ago at Montreal, wound up his regular play with a brilliant 64, tying him with a tie with Armour for the lead.

Bearded Beauties Clash With Bruins

Until Fifth Inning Only One Duck Reaches Third Base. Off Pilelets During "Owl" Session in Oregon City

Baseball fans and people in general heretofore are exhibiting interest in the scheduled appearance of the original regulars of David baseball team as re-organized by Harry Purnell, Benton Harbor, Michigan, and popularly known as the "Bearded Beauties".

The team can play, according to reports received here, in 1929; the bearded team won 110 and lost 73 games out of the 185 games they played. Their 1929 record shows they won 90 and lost 94 of the 184 games played during that season.

Kentucky Horse Wins Rich Stake

"Pigeon-Hole" Takes \$45,000 in Arlington Race Run Through Deep Mud

CHICAGO, July 26 (AP)—Racing through mud, felloes deep, "Pigeon-Hole", five-year-old son of "Hollister-Pigeon Pie", won the \$45,000 Arlington handicap, second rich stake of the Arlington meeting today, beating Curlew in a stunning upset by a length. "The Bird" was third and "Paul Bunyan" fourth in a field of 11.

The surprising winner, owned by Harry Rice Headley, Lexington, Ky., raced the mile and a quarter in 2:07 2-5, the best performance of his career.

The stake had a gross value of \$45,000 and netted owner Headley \$24,000. The effort of "Curlew" owned by Joseph B. Widener, New York, was worth \$3000, with \$1500 to "Paul Bunyan".

Huish and Black Lead Marksmen

Eureka and Salt Lake City Contestants Set Pace in Utah State Tournament

AMERICA'S big chance came in the form of a tie between the two men who Van Ryn and Allison had found their pace. Gains were fairly even for the first two minutes when, with the score, 4-11, Allison ran it to 40-0 on two hand first strokes. "The American" and "Van Ryn" volleyed an unrelenting shot to win the game. In the tenth and critical hole the American shot a 10, Van Ryn's lobbing failed. The deadly French advance to the edge of Cochet and Brugnon had an easy march to the end of the first round.

DUMB BELLS

AM ALWAYS ILL THE NIGHT BEFORE MY JOURNEY? THEN WHY DON'T YOU TAKE EARLIER?

Dr. Renfro, Dr. Montana, registered at the P. M. Montana Hotel, Salt Lake City, professional, announced perfect scores in the singles, but both were ineligible for the title. Renfro led in his non-residence in the state and McCanney because of his professionalism. Renfro was runner-up in all events today, breaking out of a possible 175 with C. B. McDowell, Focaccia, chalked up 170 for the day, one more than McCanney scored.

ines and Hunter Reach Final Sets

NEW YORK, July 26 (AP)—Ellsworth Vines, 19-year-old star from Pasadena, and Frank Hunter, veteran Davis cup player from New Rochelle, New York, advanced to the final round of singles in the Metropolitan last court tennis championship today.

BIG SIX

(By The Associated Press) The Big Six leaders held their 500 club yesterday and added a point to their averages while their rivals from the American league had a afternoon and lost ground.

Pittsburgh	21	35	.375
Cincinnati	19	37	.340
Philadelphia	17	39	.303

Summary: Two-base hits—Walker, Gilbert, Brasler, Frederick; three-base hits—Frederick; Blumstein; home run—Wright; stolen base—Moore; sacrifice—Mausel, Phelps; double plays—Ford to Burcher; Meusel to Ford; winning pitcher—Phelps; losing pitcher—May.

CHICAGO vs PHILADELPHIA, July 26 (AP)—Vic Wilson's brilliant, thirty-five and thirty-second home runs this season forced the 18-10-2 hammering the Cubs gave the Phils today. It was the third straight slugfest the Cubs have scored over the locals. The first circuit clout were off Collins, the ace of the local staff, and the third of Wiloughby, Mattson and Hartnett also hit four.

A GOOD LOAN

We have a loan which, we believe, COSTS THE BORROWER LESS, all told, in interest, brokerage, recording, etc., than any other loan offered now or heretofore on Twin Falls residence properties.

It is not available for very old houses, for properties worth less than \$2000.00, for undesirable locations, or for more than 60% advances. If you are paying more than 7% on your present loan, we can save you money.

THE COST TO YOU for both interest and brokerage averages 7% on the NET BALANCES of PRINCIPAL. As fast as part payments are made on principal, the interest ceases on sums so paid. And you have the PRIVILEGE OF PREPAYING in part or in full on any interest date WITHOUT FORFEITURE OR BONUS of any kind. Now, if you asked to buy stock in the loan company, this is a simple, straight-forward loan proposition, easy to understand as to every detail and free of all complications. It is available, also, for modern mercantile properties in good locations in Twin Falls.

Public Links Star of Pittsburgh Appears Favorite to Win Tourney

CARL KAUFFMAN

Carl Kauffman, Pittsburgh, will seek his fourth straight national public links title at Jacksonville, Florida, August 5 to 9. The ninth fairway with Jacksonville municipal clubhouse is shown in the background.

When the best of America's municipal course players gather in Jacksonville August 5 to 9 for the ninth amateur public links championship, it will be Carl Kauffman against the field.

The Pittsburgh steel mill clerk, who swept through three straight tournaments to win the James D. Starnin trophy, emblematic of the title, in 1927, 1928 and 1929 will be a heavy favorite to make it four in a row, although there'll be plenty of competition from a field of some 500 golfers.

Among the foremost challengers are expected to be Milton Sommer, Toledo postal clerk, runner-up last year; Patay Tho, 20-year-old New Yorker; Gordon Denney and Wesley Casper, Louisville, and John Boyd, 23-year-old Philadelphia.

New York City will defend the inter-city team championship captured from Pittsburgh in 1929.

O'Doul and Klein Battle for Lead In Hitting Honors

With the Phillies Practically Out of National League Pennant Race, Club's Two Stars Vie For Supremacy

By The Associated Press
NEW YORK, July 26—With the Phillies practically out of the national league pennant struggle, their individual stars, "Chuck" Klein and Frank O'Doul, are free to concentrate on their own battle for supremacy. And this freedom has resulted in an increasingly tense struggle. The average released today, which includes Wednesday's games, shows a shade of a difference in their batting averages, Klein leading with a mark of .4050 to .4049 for O'Doul; third place held by Rube Biberhaus, Chicago, is far behind them at .388.

In addition to his slim grasp on the batting leadership, Klein is in front in scorings in total hits and in runs batted in, in total in homers and tied for third in doubles. The young Philadelphia has hit safely 145 times, scored 89 runs and driven in 125 bases, his 27 homers put him just two behind the leader.

Hack Wilson, Chicago, Adam Conroy, who has 20 for second and Klein 29. Conroy also leads in triples with 13.

Kiki Cuyler, Chicago, former leader in many departments, has only his first place in base stealing with 24 thefts to his credit. He is second with 87 runs, 12 triples and 89 runs batted in, tying with Hack Wilson in the latter respect.

Bill Terry, New York, holds one other second place—with 140 hits while Babe Irfman, Brooklyn, has stolen 14 bases to hold the runner-up post.

Other leading batters after Stephenson on the list of regulars are Terry, New York, 386; Herman, Brooklyn, 379; Hoffmann, Cincinnati, 371; Wauer, Pittsburgh, 353; Grant, St. Louis, 344; Cuyler, Chicago, 340, and Ott, New York, 337. The Phillies hold the team batting lead with a mark of .377, 10 points ahead of New York, while Cincinnati leads in fielding with a .970 average.

Bob Caborn, Chicago, has scored his seventh victory, with only one defeat in base pitching lead while Tom Zachary, Boston, has dropped to second place in the close race with six games won and one lost.

ALAN KOGAN, third league's best pitcher, who has been forbidden to appear outside of his class by the New York bowling commission, plans to fight on the west coast.

A windmill is generating electricity for a lighthouse at Point Lookout, Maryland, for the first time in continental United States.

Woman of France Plans Yacht Trip

LE HAVER, July 26 (AP)—Madame Virginia Havre, France's most prominent yachswoman, is going to Los Angeles in her little boat.

She hasn't fixed the date but she plans the trip soon. A crew, however, is under slight and she thought the yachting world would laugh at the idea of her running alone a 600-ton boat, a bigger job ever than was done by Alain Barbault.

year; Patay Tho, 20-year-old New Yorker; Gordon Denney and Wesley Casper, Louisville, and John Boyd, 23-year-old Philadelphia.

THE NEW FORD TUDOR SEDAN
\$195.00 F. O. B.—DETROIT

ECONOMICAL TRANSPORTATION WITH FOUR LETTERS

There is nothing quite like the new Ford anywhere in quality and price. You will like the feeling of power that the new Ford gives you, the comfortable, prideful feeling that comes from having a car worthy of any occasion and equal to any emergency.

The first cost is important because it means an immediate saving to you, of equal importance is the ultimate cost after thousands of miles of service, this cost is the true measure of automobile value. Think of your automobile purchase in terms of tomorrow, for tomorrow will reveal its actual worth.

(By The Associated Press)
CLEVELAND, July 26—A four-run rally by the Indians in the ninth fell one short of tying the score and the Athletics today won the third game of the series here, 10 to 9. Each team did some heavy hitting.

Willis Hudlin was driven from the mound by the Athletics in the first inning when they scored four runs and was charged with the defeat.

Al Simmons Keeps Clouting Lead in American Circuit

Athletics' Outfielder, With Mark of .390, Leads by Margin of 3 Points Over Rice, Gehrig and Cochrane

(By The Associated Press)
CLEVELAND, July 26—Glen Al Simmons, Philadelphia, attained the position three weeks ago. Lou Gehrig, Sam Rice and Mickey Cochrane have taken turns trying to knock him from the batting leadership of the American league, but without success.

Unofficial averages which include Wednesday's game showed the Athletics' outfielder with a mark of .390 better by 8 points than his average of last week. He posted 10 to lead him 3 points ahead of the threatening trio, who were knotted in second place at .387.

Three players were in possession of two offensive collections each, another held one, and two were sharing the other. Gehrig's collection of 250 total bases for 133 hits, was the class of the field and he had batted in 108 runs for another leadership. Babe Ruth added three homers during the week and was seven ahead of Gehrig, the runner-up. The Babe also had scored 106 runs and was the only player to have reached the 100 mark.

McManus Double Leader
 Harry McManus, Detroit, was the other double leader. He had whacked out 32 doubles, and his 15 stolen bases left him two ahead of Rice and Charlie Gehringer, another "Tiger." Johnny Hodapp, Cleveland, still led in base hits, with 187, while Earl Coombs, New York, and Carl Reynolds of the White Sox, were tied for three-base hits with 13 each.

Wells Faces Hurlers
 Edw. Wells, Yankee southpaw, had the best percentage mark among the pitchers with eight victories and two defeats, but Doc Grege, Connie Mack's premier left-hander, still headed the list of more active hurlers. Grege was credited with one victory and one defeat during the week for 13 win, and four lost. Fred Rankin

Frank Tabor, Once "Fighting Manager," Now Trains Winners

Venerable Boxing Mentor Excels As Writer of Sports

Discoverer of Two Sets of Battling Brothers Boasts Ring Record Also, but Remains Mild Mannered

By RUSSELL J. NEWLAND (Associated Press Sports Writer)
SAN FRANCISCO, July 25.—Back in the old days they called him the "Fighting manager" and "unbiter" mild, he is known as "Frank Tabor, representative of boxers."

He is one of the most interesting characters in this exciting sport. He has heard his own horn or craved audience on behalf of the glove-changers who happen to be under his wing. As a member of the "Ballyhoon Band," he would be satisfied to be out of place, yet he has more qualifications than a man in a meat of the managers who receive their charges in their own offices.

When Tabor brings his fighters to a country town, picture the contentment of the editor of the small-staffed-home-town paper. The fight manager will gladly sit down and dash off a snappy story, either in "flowing" language or stilted news style.

As a fighter nearly 20 years ago Tabor was going along pretty well. But when his nose started stopping gloves too regularly he switched to the management side of the business.

Three Shado brothers, George, Billy and Dave, Concord, California, were discovered and developed by Tabor. They were a sell during the four-week days. Of the trio, only George could punch hard and he was picked as the "corner" manager.

Billie, Dave, the walking, ironing, to be the diamond in the rough. Dave Shado, now a New Yorker by adoption, is the outstanding challenger for the middleweight title.

Fighting brothers seem to attract themselves to Tabor. Now he is guiding the Dix brothers, Willard and Madison, past the little pitfall Willard, an older of the two performers from Birmingham, Washington, is one of the reigning sensations in this district. A light heavyweight, he ran up a string of 10 knockouts in 23 fights.

The Boone, new outfield aid for the Brooklyn Dodgers, has fallen down so often after catching a fly ball that it has become a matter of note—what he remains on his feet.

Wins Golf Title from Mother

FRITZ'S SISTER (right) Wheeling, West Virginia, defeated her mother, Mrs. E. W. Stifel, to win the West Virginia women's amateur golf championship at White Sulphur Springs. Her sister, Muriel (left), also played in the tournament.—(P) Photo.

have been there for nearly three decades, never heard of the gentleman. Such is fame.

Joe Devine, scout for the Pittsburgh Pirates, says the only Pacific coast league player he is interested in this season is Frankie Cozzetti, a shortstop of the San Francisco Seals. He adds he will not be interested if the Seal owners place a six-figure price on their star.

Peckinpugh Still Receives Welcome

CLEVELAND, July 25 (AP)—Roger Peckinpugh has not worn out his welcome with the management of the Cleveland Indians.

A public expression of confidence in him was given here by Alvin Karpis, club president, following the team's recent road trip which was perhaps the most disastrous in its history.

On the road, the team lost 17 of 19 games, and dropped from a challenging position in the American league race to fourth place.

General Manager Billy Evans, however, made an announcement that indicated they would be taken in another direction.

Evans, hurrying back from a trip to the Coast, said that he would ask writers to 12 players now on the team in order to provide trading material.

GATORS TO OPEN STADIUM
GAINESVILLE, Fla. (AP)—Florida will formally open its new stadium November 8 when the Gators meet Alabama for the first time since 1927. The stadium eventually will seat 50,000.

DAVE BIRD FOR CHANCE
CHATTANOOGA, Tenn. (AP)—Billy Bird, shipped out of the majors by the Boston Red Sox, is making another bid for league recognition. The southpaw pitcher is going great with Chattanooga of the Southern, having won 15 and lost 4.

The Boone, new outfield aid for the Brooklyn Dodgers, has fallen down so often after catching a fly ball that it has become a matter of note—what he remains on his feet.

ON THE SIDELINES

by BRIAN BELL

REFEREES of boxing contests in New York now must sink or swim, survive or perish in the ring without assistance from the two judges in deciding whether a foul has been committed.

The judges will continue to vote for the winner, if a vote is necessary, and they will judicially cognize a foul to the extent of marking the offending boxer as the loser of the round in which the offense was committed.

But if there is to be a disqualification by the referee, he must go alone.

The New York state athletic commission has explained that fouls have not been abolished in the state, but low blows have been legislated out of existence as fouls.

If a boxer strikes an opponent when he is down, knees him, butts him, or violates any of the other laws of the game, he still can be disqualified.

But the action must be on the authority of the referee alone. He can not appeal to a judge for confirmation.

This adds greatly to the responsibilities of the referee man in the ring, but there has been no official suggestion that their compensation should be increased. The pay of the referees is from consistent when the size of the purses is taken into consideration.

Max Schmeling and Jack Sharkey were each paid \$177,000 for their part in the alleged entertainment of the Mill. Funds exhibition at the Yankee Stadium, but Jimmy Crowley, who took more punishment than either of the boxers, drew only \$200 for his efforts.

REFEREE must know more than either of the combatants for he is supposed to have as much or more than the combined knowledge of the pair. Thousands of dollars are spent in months of training for a championship bout and hundreds of thousands of dollars are spent in the purchase of tickets. And yet the man who can make or break the bout at any minute and must be calm and master of himself throughout gets only \$200.

It might be a good idea to pay the referees \$2000 instead of \$200 for a night's work, and to let them know that the job was expected to develop \$2000 refereeing instead of a \$200 performance.

DUCH WETHER, former major league left-hander, who is pitching for Seattle in the Pacific coast league, defeated San Francisco, 4 to 3, in 12 innings the other night and was fined \$25. The fine, imposed by Manager Ernie Johnson, however, was not for winning the game but for failing to cover first base in the ninth inning when a convention of players was held about the ball after it bounced from the pitcher's glove.

YOUNG PITCHER LIVES UP TO EXPECTATIONS

DALLAS, Texas, July 26 (AP)—In 1929 when Jakey Aiz was managing the Fort Worth Cats he discovered a 17-year-old young star, Egan. New Orleans, and he predicted one day he would be a real pitcher.

He talked the Fort Worth club into giving the youngster a chance. It wasn't long, however, before Aiz drew a pink slip and left Egan behind.

A few days ago Aiz saw his prediction fulfilled, but it wasn't exactly pleasant, for Egan defeated Jakey Dallas Stars, 4 to 3.

GRIFF TURNED DOWN LOPEZ

TAMPA, Fla. (AP)—Club's Griffith, Washington Senators' boss, had taken a \$10,000 gamble on Al Lopez in 1928. The Tampa youth probably will be backdropping for the Nats now instead of Brooklyn. But Griffith wouldn't pay what Tampa offers in the Pacific coast league.

In a game between Brooklyn and St. Louis this year three pinch hits were used and each hit a home run.

Of the American-pole team that defended the Walschler cup against the British in 1927, only Tommy Hiltchcock will play in this year's matches.

Young Hurler Gets Bids From Majors

Holder of Enviably Pitching Record in College Continues School Course

ST. LOUIS, July 26 (AP)—It's a long jump from municipal loop baseball to the major league, but Louis F. Jordan, 19-year-old St. Louis hurler, is well on his way.

The feat that really put Jordan

In the limelight, although not the only thing that makes him a much-sought pitcher, was the fanning of 35 in a game here.

Jordan, star right hander of the Sentinel club in the city DeKalber league, tangled with the Perfection team and all he did was to strike out 23 of the opposing batters to win, 10-0.

Eighteen strikeouts were consecutive, and the losers made only two hits. The Perfection club is one of the loop leaders and has some heavy hitting players.

Jordan's all-around performance, however, isn't the only time he has shown brilliance as a pitcher. Last year in a league game he struck out 22 batters, and this spring he starred on the Washington university team. Pitching four games for the Stars, he won them all.

Taking note of his striking performance, and his record as a college hurler, major league scouts are making Jordan offers. New York Yankee timber-combers seem to have the edge, although Cardinal officials have placed tempting offers before the youthful star.

Courtesy Course

Jordan, however, says he will not

Tacoma Player Wins Net Title

YANCOOVER, British Columbia, July 26 (AP)—Bradshaw Harrison, Tacoma, won his third consecutive 1930 tennis title in the Pacific Northwest by routing Frank Cove, Oakland, 6-1, 6-1, 6-0, in the finals of the western Canadian lawn tennis tournament held here today.

Mrs. Alice Marble, San Francisco, captured the women's crown when she defeated Miss Charlotte Miller, Berkeley, 6-3, 6-4.

Paul Avery's all-time big league batting average is .333, only 10 points less than that of Ty Cobb.

Twin Falls, Idaho

ONE-ARMED GOLFER MAKES HOLE-IN-ONE

PORT WORTH, Texas, July 26 (AP)—It doesn't take a two-armed person to make a hole-in-one. Jimmy Nichols, Fort Worth golfer, has proved.

Nichols' swing right arm is off above the elbow, sank his tee shot on the 115-yard number 8 hole at the Oakhurst course recently.

The one-armed player hit the ball off the tee farther than many two-armed players, getting 225 and 250 yard drives consistently. He used a masher-nublet to bag his ace. He has been playing golf about two years and shoots in the 80's.

SPORT CANVASES GIVE COTTON MART OUTLET

WASHINGTON, July 26 (AP)—The largest unit outlet for cotton is the rain-proof canvases which envelop football fields and baseball diamonds.

A complete census of field tarpaulin yards in present use is estimated by department of commerce statisticians to be approximately \$60,000 yards.

In point of cotton picked, spun, woven, converted and retailed, a single football tarpaulin is said to have the weight equivalent of all the styled cotton fabrics seen at a major inter-collegiate game.

Guy Cantrell, right-hander of the Toronto club, has been sold to the Detroit Tigers.

YOUNG PITCHER LIVES UP TO EXPECTATIONS

DALLAS, Texas, July 26 (AP)—In 1929 when Jakey Aiz was managing the Fort Worth Cats he discovered a 17-year-old young star, Egan. New Orleans, and he predicted one day he would be a real pitcher.

He talked the Fort Worth club into giving the youngster a chance. It wasn't long, however, before Aiz drew a pink slip and left Egan behind.

The Tone Selector

is Radio's Newest Development!

Let us demonstrate the many advantages of this remarkable feature of the new General Motors Radio

Formerly, radio had but one tone. And you had to accept it for every type of broadcast program... Then General Motors introduced the Tone Selector and made it possible for you to emphasize bass and treble as well as simply with the turn of a knob you can find the exact shade of musical expression you most enjoy—for every kind of vocal and instrumental selection that goes on the air.

There is such a variety of delightful entertainment being broadcast nowadays that complete enjoyment of radio demands this new selection of tone. You cannot realize how important an improvement the Tone Selector makes in reception until you actually hear it in operation. Come in today and try the Tone Selector. You will find it a revelation of a complete development of the new General Motors Radio.

Motors Radio so that you can appreciate how thoroughly fine these modern sets are. You will be as impressed by the beautiful cabinets of the new General Motors Radio as you are by its exceptional performance. The five handsome models of radios and radio-phonographs are presented after five different styles of authentic period furniture. They are not the conventional type of radio cabinets. By all means come in to see these genuinely attractive models and let us explain how, once you buy a General Motors Radio, you may keep the cabinet as long as you like and still enjoy the very new development in radio.

Any model may be purchased on the liberal G.M. plan—radio-phonographs \$136 to \$172—radio-phonographs \$158 and \$270—without cabinet.

Imported Plant, Crotalaria, Adds Humus to Depleted Soils

LEGUME SUPPLIES ANSWER NEEDS OF SOUTHERN STATES

Trial Plantings of Tropical Species Build Up Nitrogen Deficiency in Soil of Region

Florida Citrus Growers Pay As High as \$1 Per Pound For Seed As Supply Proves Short

(By The Associated Press)
WASHINGTON, July 26—A plant called crotalaria, promising a rich store of humus and nitrogen for sandy, acid and depleted soils, may be the answer to a long-felt need for legumes in the south.
 Trial plantings have grown in South Carolina, Alabama, Mississippi and Georgia. The plant is being tried this year in North Carolina, Texas, Louisiana and other states.
 Most crotalariae are adapted to sandy or light loam soil. Nearly all species are tropical or subtropical in their climatic requirements, and in the United States are treated commonly as summer annuals.
Tests in Florida
 On sandy soils in Florida both corn and sweet potatoes have yielded increased crops following crotalaria striata, the kind introduced from eastern Africa 20 years ago and just now making its debut.
 Trial plantings throughout the south have been delayed for lack of seed, all of which has to be hand-picked.
 So popular has crotalaria been in increasing demand that Florida orchards that planters have paid as high as \$1 a pound for seed when the supply was short. The type grown in Florida often reaches 6 feet in height.
Make Feed Meal
 In the green state livestock avoid it because of its bitter taste, but a palatable feeding meal has been made from the mature plants.
 The government has used 35 species of crotalaria in experimental work obtained from Africa, India, South America, Mexico, the United States and other parts of the world.
 Some species are expected to grow

This specimen of crotalaria, grown in Mississippi, is of the type that promises to aid southern soils.

BUHL FOLKS REPORT ON BAPTIST SESSION

Rev. and Mrs. A. C. Lathrop Declare State Assembly Surpasses Expectations
BUHL, July 26 (Special to The News)—Rev. and Mrs. A. C. Lathrop, who returned home late Friday evening from the Idaho Baptist assembly which convened at Eastley, July 18 to 24, state that the assembly listed the best enrollment, largest classes and best spirit of any previous meeting. The total registration was 633 persons, with 54 registered from Buhl. Two hundred fifty persons received assembly credits for work in classes, and 334 young folks were added to the life saving league enrollment.
 Rev. Lathrop stated that the evening meetings were unusually well attended with some splendid messages brought by the speakers. At the services held last Sunday morning in the newly-built auditorium, the building was crowded to capacity and many persons stood outside the building.
 As far north as Virginia, and native species are fairly well distributed throughout the east and south.

The state Baptist Young People's Union re-elected the same officers for the ensuing year, including Wesley Welch, president, Miss Estel Somer, Buhl, vice president and Miss Maud Haycraft, Boise, secretary treasurer.
 A new and well-patronized feature of the assembly this year was the opening of the boys camp across the river from the main assembly grounds, under supervision of Rev. E. N. Turner, Weiser, high counselor for the Royal Ambassadors. Forty boys were registered and plans were completed for a more interesting program and bigger event next year, July 14 to 21 were set as the time for the meeting next year.
Speakers
 Speakers who were present from a distance for the meetings included: Dr. M. D. Eubanks, Kansas City, Missouri, minister, Union Church; Dr. M. D. Eubanks, Dr. John E. Holt, Philadelphia, director of social education and young people's work of the American Baptist Publication Society; Miss Esther McCullough, Seattle, Washington, housewife; Mrs. M. D. Eubanks, Berkeley, California, head of the department of Christian Education, Berkeley Divinity school; Miss Helen K. Wallace, New York City, field specialist in sisterhood and church efficiency; Miss Edith Wilson, registered nurse from the Northwestern Baptist hospital, St. Paul, Minn.; Eam Duncan, Omaha, director of religious education for Nebraska; Professor O. B. Schleich, McMinnville, Linfield college; W. T. Turner, Weiser, Miss Mary C. Ayres, missionary society in Idaho; Mrs. R. P. Douglas, Idaho Falls; Miss Allan Payette, Rev. H. H. Moorman, Boise; Mrs. Marvin Baker, Caldwell; Miss Maud Haycraft, Boise, and Mrs. E. Kanter, Boise, Miss Edith Wilson, Boise, state director of Christian education, served as dean of the assembly.

FRIENDS MEET AT PARTY NEAR PAUL
 Mr. and Mrs. Jesse Billington Entertain for Gathering at Country Residence
 PAUL, July 26—Mr. and Mrs. Jesse Billington entertained Thursday afternoon at their home near Paul. Guests were: Mr. and Mrs. B. W. Beck and family and their house guest, Mrs. Sarah Ann Beck, mother of Mr. Beck, from Pocatello, Idaho; Mr. and Mrs. Andrew Madson, Tremonton, Utah; Frank Crawford and family and their guests, Mrs. Lena Black and Mr. and Mrs. Leroy Black, Spring City, the same group, with Mr. and Mrs. T. S. Clark, Mr. and Mrs. H. P. Clark and Mr. and Mrs. Ray Clark and three sons spent Friday afternoon at the dam spring fishing and a picnic supper.
 Wayne's Place was closed Thursday in honor of the late Lawrence Hollenbeck, cousin of the proprietor, W. L. Hollenbeck, and sister, Rachel. They and other members of the family attended the funeral in Twin Falls Christian church Thursday afternoon.
 Mr. W. R. Stroman, Burley, will be in Paul at the community church Sunday evening to help organize an Epworth League here.
 Mrs. I. G. Clayville received word this week of the arrival of a boy, born Sunday, July 20, to Mr. and Mrs. Floyd Otter at their home in Moscow. Mrs. Otter was formerly Miss Mildred Clayville.
 Mrs. Allan Hardin will entertain her Sunday-school class at her home Friday evening.
 Miss Alice Treiber, Coalinga, California, visited with Mrs. D. T. Wilson of Pioneer district Wednesday, while Miss Gladys Treiber visited with Mrs. Allan Hardin. The Misses Treiber are spending their vacation at the home of their brother, Senator William Treiber, Clark's Fork, Blackfoot, with Mr.

CHEVROLET Six-Cylinder Trucks

Bigger, Faster, Sturdier and more economical

In size, speed and durability, the Chevrolet Six-Cylinder Truck is superior to any haulage unit ever built by Chevrolet. Yet, for all these decided advantages, it shows (according to many prominent fleet users) a lower maintenance cost than any other low-priced truck of similar capacity!

These basic facts should be borne in mind by everyone considering the purchase of an inexpensive haulage unit—in these times when business men are watching transportation costs.

Many important features of the Chevrolet Six-Cylinder Truck are given below. Study them. Use them as a basis of comparison to prove quality—modern design—and EXTRA VALUE!

Special Features of the Chevrolet Six-Cylinder Truck
 50 h. p. valve-in-head motor... elliptic springs and low center of gravity preventing sideways...
 48 lb. crankshaft... bronze-bushed pistons... positive pressure fuel pump... deep channel steel frame 16 1/2 inch long... low loading height... four long semi-elliptic springs and low center of gravity preventing sideways... small variety of bodies... easy terms steel frame... and the unusual protection of Chevrolet's liberal auto owner's service policy.

Light Delivery Chassis... \$365
 1 1/2 Ton Chassis... \$420
 2 1/2 Ton Chassis... \$485
 3 1/2 Ton Chassis... \$520
 4 1/2 Ton Chassis... \$585
 5 1/2 Ton Chassis... \$620
 6 1/2 Ton Chassis... \$685
 7 1/2 Ton Chassis... \$720

Current Trends And Happenings Claiming Comment In The Realm Of Women

HATS WITH WIDER BRIMS WIN FAVOR IN PARIS STYLES

Black Velvet Berets With Touches of Ermine Green Seem Likely to Replace Lighter, Summer Colors

By BARBARA BEAUFORT (Associated Press Fashion Editor) PARIS, July 26—Advances in winter millinery are in the style talk of the moment, with hat being the subject of conversation. New brims are wide, judged by modern women's standards, and frequently are trimmed with—any and several—feathers above the edge of the crown. The hiatus between crown and brim edge is a nesting place for trimmings in the form of ribbon or drap of fur. Occasionally flowers are tucked under the brim. From their slouch they provide a touch of color near the face and relieve the sombre black. Black and white are combined in many ways in advance autumn hats. Black velvet berets with touches of ermine green seem likely to replace to a degree the jersey and white plique beret of summer.

Velvet berets are draped a little more than their predecessors, and many are adorned to the brim with ribbons which tie in the mid-arch or at the side. Many black velvet hats with touches of white were worn by ultra-smart women at the week of racing at Autleuil and Longchamps. One model which evoked comment was a combination of white straw brim and close fitting black. The brim of tough straw turned downward at an easy angle and was mounted several inches above the banding.

KNEE-LENGTH TUNICS TAKE TUNIC FORM PARIS, July 26—Knee-length tunic coats without collars are a brand new form of evening wrap. Made on lines which flare from the waistline to the knees, the tunics are the most ambitious version of the pepium style makers have produced as yet. Tulle and stiff lace are favored for the flared coats. As a rule, they have three-quarter sleeves, at the top, or long sleeves to the elbow.

SHEER MILLS WORK WITH LACE DRESSES PARIS, July 26—With black lace afternoon and evening costumes a few chic Parisiennes are wearing lace milles. The milles and dresses are made of sheer lace which avoid sheer.

WOMAN TAKES VICE PRESIDENT'S PLACE

Miss Lola Williams Assumes Duties in Curtis Office During Summer Months

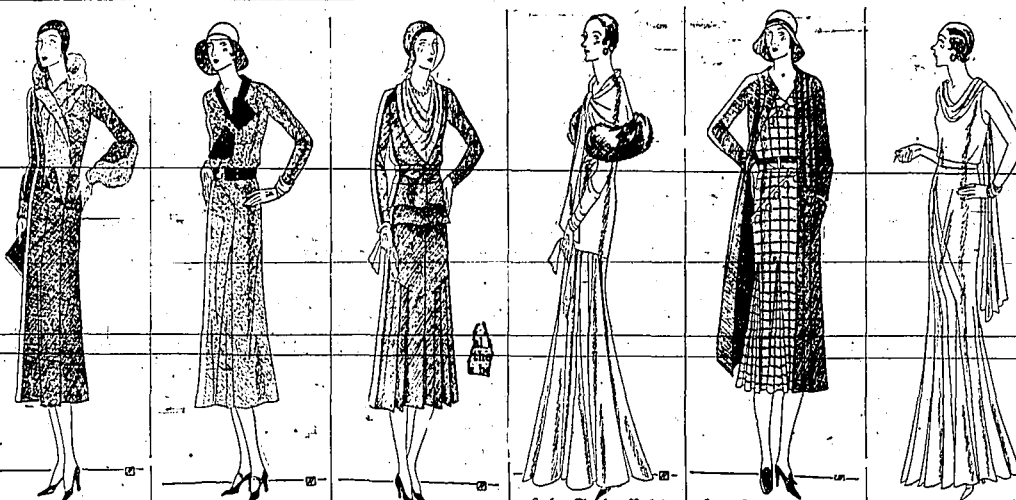

By SUE McNAMARA (Associated Press Staff Writer) WASHINGTON, July 26—The first woman secretary to a vice president in the nation since the late 19th century, Miss Lola Williams, will assume the duties of the Curtis office during the summer months.

It won't be all work, however, for there will be few calls and no telephone calls during the summer months. Miss Williams will just be "hanging down the fort." Since a year ago last March she has listened patiently to the steady stream of visitors who have come to lay some case before Mr. Curtis. "I don't mind staying here this summer, because I like it," Miss Williams smiles. "My father and mother are here with me. Last summer I took a two-month cruise on the Mediterranean."

AMERICA'S APPETITE FOR TEA DIMINISHES

WASHINGTON, July 26—The average inhabitant of England drinks about 12 times as much tea as the average American, says the department of commerce.

Originality Features Man's Bedroom

SMART ENSEMBLE

By ELISE DEWEY KENNEDY (Associated Press Decorator) Writing for The Twin Falls News The clever decorator shows creative ability in overcoming actual obstacles, particularly in decorating a room in the older house or apartment, where proportion is quite different from our modern ideas.

Original and modern effects are enhanced by unusual treatments obtained from direct use of disintegrating correct proportions through the balanced grouping of furniture and use of wall drapery.

So the proportions of this room were not of the best, the ceiling, extending five or six feet above the door top, had the "room" effect like appearance despite its ample size.

Alters Design This presented a problem for the ceiling, which must be lower—a bulky and troublesome alteration—also changed through suggestion by careful balance and contrast of furniture and drapery.

So the decorator built the decorative scheme around the bed, it being the focal point of the bedroom. Accordingly a modern bed of double size to harmonize with the new proportions was selected, without a footboard and with just enough headboard to hold the pillows in place.

This was placed against graceful from a point higher than that of the green satin, with over-drapery of mulberry brocade draped back at the head.

My Sunday school teacher says I'm a good student and a very bright boy. I'm 10 years old and I was the one that started this spinners' business.

OWNER OF NATATORIUM PLANS FOR REBUILDING

Twin Falls natatorium on the state highway a mile west of the city, that was destroyed by fire Friday night, probably will be rebuilt in time for next season's operations. A. E. Millner, owner of the property, said last evening.

He estimated the loss at approximately \$15,000 over and above \$4000 insurance, that is sufficient only to meet a mortgage of over \$3000 on the property, he said.

TEACHER EXAMINATIONS TO OCCUPY THREE DAYS

Persons expecting to teach in Idaho schools who do not hold valid Idaho teachers' certificates must appear for examination to be held in the office of Twin Falls county superintendent of public instruction, August 14 to 16. It was announced at the county superintendent's office here last evening.

Regular examination for all classes of cognate certificates will be conducted at that time.

Application for state high school and state elementary certificates may be made on special subjects Saturday, August 16.

Attendees—Ella Gates, W. M. Thielens, Lee Lohliher, Castledale—W. C. Brown, E. C. Davis, George H. Clement, L. R. Klemberg, Nellie N. Ulrich, Mrs. R. W. Gager, Roseworth—Allen Reynolds, W. N. Gibb, John Boyd, Rogers—Paul Echnall, Mrs. C. F. Wurster, B. K. Duncan, Deep Creek—Homer Brauchamp, Robert Bennington, Roy Wilkinson, C. W. Gorman, Frank Kra, W. F. Cox, Lucerna—Jack Thompson, C. D. POSTMASTERS GO TO BOISE IN 1931

Idaho Branch of National Organization Ends Two-Day Convention Here

Boise was selected as the place of meeting for the Idaho branch of the National League of District Postmasters which adjourned here yesterday after a two day session. Burley and Idaho Falls were also placed before the convention.

All officers were elected except in the case of the fifth district, where Mrs. E. C. Taylor resigned and was succeeded by Mrs. W. F. Cager. Officers elected were: L. J. Holland, Shelby, Idaho—president; Mrs. E. W. Hodder, Parker, vice president; Maggie Hill, Franklin, secretary-treasurer; Mrs. June W. Swanson, Kootenai, president first district; George W. Prout, Council, president second district; W. J. Selby, Elba, president third district; Mansford C. Turman, Hamer, president fourth district; R. W. Oger, Rockland, president fifth district; Frank Drake, Aberdeen, president sixth district.

Yesterday morning talks were made by A. D. Lawrence, "Pioneers"; and George L. L. Pen, "Free, Marvayite, Washington." Resolutions adopted at the afternoon session reaffirmed allegiance to President Hoover and to the Postmaster General Brown, favored bonding all postmasters at the expense of the government instead of compelling the postmasters to buy their own bonds as at present; and expressed appreciation for cooperation of P. W. McColbert, Twin Falls postmaster, Newell B. Wigby, secretary of the Twin Falls Chamber of Commerce and others who contributed to the closing of the convention.

In his closing address President Holland urged district presidents to keep up interest in their sections and urged all postmasters as possible to attend the next meeting.

CURTIS REACHES HOME

TOPEKA, Kas., July 26 (AP)—Vice President Charles Curtis returned to his home here tonight from Washington and will remain until after the primaries, August 5.

MEETING AT JEROME TO OUTLINE WAR ON WEEDS

With view to outlining a comprehensive and concerted campaign against noxious weed growth throughout southern Idaho, the North Side Canal company, Jerome, has issued invitations to county and township officials as well as county agents and weed war directors throughout the region to a meeting to be held in district court rooms at Jerome, next Monday at 1:30 P. M.

A Mr. Frank Los Angeles, who has had much experience in the war on noxious weeds in California, has been invited to attend and make the meeting, according to announcement by R. E. Shepherd, general manager for the canal company.

FALL INJURES BROTHER OF JUDGE W. A. BABCOCK

Edward E. Babcock, brother of Judge W. A. Babcock, was brought to the home of his brother here at 1 P. M. yesterday and is recovering from the effects of injuries received Wednesday morning when he fell a distance of about 12 feet from the roof of a cabin he was building on Warm Springs creek.

Mr. Babcock, assisted by his nephew, William Babcock, was at work adjusting a log when a board on which he was standing slipped. He fell on his head and was rendered unconscious until the next morning. His nephew telephoned for medical aid which arrived in a short time. It was determined to treat him there until he had sufficiently recovered to be taken to Twin Falls Wednesday morning.

Consequences of the accident at once and remained with his brother until yesterday. No bones were broken but the shock was very severe and from this he has not yet recovered.

CAVANAUGH NAMES BELL SUCCESSOR OF DAVIES

Frank B. Bell, Twin Falls attorney, has been appointed, United States commissioner for the district of Idaho, southern division, by C. C. Cavanaugh, judge of the United States district court, the appointment taking effect at once, it was announced here yesterday. Mr. Bell succeeds John E. Davies, who is in California on account of poor health.

There are, it was stated, four divisions within the district of Idaho, southern division, where within the there are, however, other commissioners within the district. Mr. Bell, is a pioneer resident of Twin Falls and a pioneer member of the Twin Falls county bar. He is the only person who has filed an affidavit of qualification as commissioner within the district.

Mr. Bell, is a pioneer resident of Twin Falls and a pioneer member of the Twin Falls county bar. He is the only person who has filed an affidavit of qualification as commissioner within the district.

EDEN CHILD SUMMONED

Kathleen Snyder, five-year-old daughter of Mr. and Mrs. Richard Snyder, Eden, died at the family residence Saturday at 2 P. M. following illness of some weeks. Besides her parents, she is survived by two sisters, Betty, five, and Mary Lou, 3. The body was buried here and rests now at the Drake funeral parlors. Arrangements for funeral services had not been completed last evening.

STRANGERS PLAN EXHIBIT

About 50 persons at an open meeting of Deep Creek Grange at the residence of Mr. and Mrs. Shriver Friday evening heard H. B. Hain, Twin Falls county agent, discuss preparation of farm products for exhibit, in view especially of a Grange entry in competitive exhibits at Twin Falls county fair.

TRIBUTE FOR FILER BOY

FILER, July 26 (Special to The News)—An impressive tribute was paid at funeral services at the Memorial Chapel in Christ church here this afternoon for Carl DeBoard, 10-year-old son of Mr. and Mrs. Fred Board, whose death occurred at Hot Lake, Oregon. Services were conducted by Rev. T. C. Locke, Buhl, assisted by Rev. E. H. Knefel, Twin Falls. Interment was in the Filer cemetery.

MEXICAN SERVES TIME FOR RECKLESS DRIVING

Daniel Delgado, 27, Mexican, who wrecked his car in collision with a bright truck on the highway east of Hansen last Tuesday evening pleaded guilty in probate court here yesterday to a misdemeanor charge of reckless driving, and was sentenced by Judge C. A. Bailey to serve 30 days in the county jail.

ROAD CONSTRUCTION MEETING PROBABLE

Twin Falls Representative Plans to Attend Session at Ely About Highway 93

Another meeting of boards of commissioners in Nevada and of representatives of the Allied Counties of that state which are interested in filling the gaps of United States Highway 93, known as the Shant to Boulder road, will probably be held in Ely next Sunday, according to a letter received here yesterday by Newell B. Wight, secretary of the Twin Falls Chamber of Commerce. Mr. Wight expects to attend the meeting as a representative of the Chamber of Commerce, and of this community.

Nevada is much interested at this time in the question whether provisions of the Oddie-Cotton bill which became a law during the closing hours of the last session of congress will apply to unimproved sections linking two federal roads such as those between Caliente and Las Vegas.

The Ely Daily Times, discussing this question, says that passage of the bill created great rejoicing in Nevada because it was believed that it would make it possible to construct broken links in the federal highway system. S. C. Durkee, state highway engineer indicates that he doubts this and that he believes the bill referred only to what are known as seven per cent federal aid roads. He says, however, that he is endeavoring to obtain further information on this point. The Ely newspaper referred to

says editorially "if the fact that unimproved links such as exist between Caliente and Las Vegas are not included in the present seven per cent system would preclude them from being eligible to federal aid under the provisions of the Oddie-Cotton bill, the measure would be of little advantage to Nevada." It strikes us as the height of folly and poor business to permit the existence of broken links in the federal highway. The government has put up 80 per cent of the money—millions of dollars—with which to build these roads, so it would seem imperative for the standpoint of economy to complete the job. "Considering the matter in its various phases and ramifications we are forced to the conclusion that the federal bureau of roads will interpret the Oddie-Cotton public works highway bill so that the broken links can be built and the entire system function as intended."

"If it isn't Right bring it Back"

A personal message by Mrs. Martha Turner (buyer of ladies' ready-to-wear) to her friends and customers telling of the changes in style for fall as she finds them on 5th Avenue, New York

... The dresses are lovely. It seems that each season I thrill over them more and more.

The most decided change is in the sleeves, everyone a little different. We have seen Raglan, the old leg o' Mutton, double and button-on models.

The natural waistlines are held in by belts and pinched in effects. A number of the models are bloused in the back.

As for the lengths all types obscure the knee—dressy types about 12 inches from the floor and of course formal dresses extend almost to the floor.

The colors are black—which leads followed by Redwood brown, Old Wine, Kentucky Green and Guardsman Blue. The colors for evening are Love Pink, Blues and Whites.

The skirts are tiered and circular. A lot of boleros and surprise bodices are also found.

Coats are also shown in bloused and bolero backs and a decided waistline. The fur on these coats are large — made of Wolf, Krimmer, Badger, Raccoon and Persian Lamb. Many dress coats are featured with gored insets. Novelty collars also are shown in large numbers.

Those of fur are pouch shaped—that can be dropped down like a cape over the shoulder. Materials include Monotone Tweeds, Nubb Tweeds, Crepe Broadcloths, Camels Hair and others. The materials in dresses are Crepes, Satins, Travel Prints and Elizabeth Crepes.

FOUNDATION GARMENTS to wear with the new frocks

The smart silhouette this season is a matter of form — of natural curves, tapering hips and nipped-in waists... moulded firmly and smartly into place with a foundation garment. Here are a few of the models that will make your figure something to be proud of... and one that will do justice to your new clothes!

Here is a pink rayon brocade bralette with light boning for support and clinging for back-boost control. Made long enough to give a smooth modern line under your new dresses. Sizes 32 to 42. 49c

Diagonal boning over abdominal section gives artificial referring to the average figure. Side bust cups, ruffled brocade. Apron back and panel front. Lace-edged. Sizes 24 to 34. 98c

For the slender or average figure wishing additional refinement, here is a dainty pink dobby cloth corset with wide elastic inserts over each hip, boned in front. Sizes 24 to 34. 98c

Here is a popular number that by various devices brings slimmers to spot figures. Elastic inserts support and elastic inserts adjust boning needed freedom. Of pink rayon brocade. Sizes 32 to 42. 98c

Fancy silk stripe elastic girdle with a front panel of pink rayon figured brocade. Especially noteworthy for vertical stripings which carry the full of the back garters. Sizes 24 to 40. \$2.98
