DEFENSE STRIKES AT BACKBONE OF GOVERNMENT CASE

Counsel For Accused Prohibition Administration and Assistants Seeks to Brand Witness Perjured

(By The Associated Press) SEATTLE, Aug. 18.—Efforts to strike at the backbone of the government's case against Roy G. Whitley, prohibition administrator, and four of his former assistants by destroying the credibility of the witness "brown shelled court," today.

No sooner had Alfred M. Hubbard, former run-runner and "dry" agent, who accuses his former superiors of conniving with "brown shelled court" in wholesale corruption and bribery, been turned over to the defense for cross-examination by the attorneys of the prohibition administration than the defense counsel sought to prove Hubbard was an impostor and perjured.

Hubbard concluded his direct examination by the government by summing up alleged payment of protection money by established bootlegging rings to three of the defendants.

The witness testified more than \$100,000 were paid Lyle, William J. Whitley, Lyle's former assistant prohibition administrator, and Earl Corwin, chief field agent, in 1922, 1926, and 1927.

Whitley was said by the witness to have received between \$50,000 and \$60,000, Corwin between \$20,000 and \$30,000 and Lyle \$30,000. Hubbard listed protection money payments of almost \$200,000 from Roy O'Connell, former "run king" of Chicago, Northwest and other liquor runners.

Hubbard said he knew of no protection payments made to Whitley, T. McKinnon, former assistant United States attorney and one of the defendants. It is not known whether "dry" agent and deputy sheriff which the defendant, was said by Hubbard to have received only small payments.

Helen was unable to get an admission of perjury from Hubbard to the record, when government attorneys objected strenuously to that line of attack. She asked the court to cross-examine in which excerpts of testimony Hubbard gave as "dry" agent in liquor cases in 1922 and 1926 were read by Helen, Hubbard admitted he had testified falsely then, said he was telling the true story now.

DOES NOT KNOW OF GIFTS

WENATCHEE, Wash., Aug. 18 (AP)—Senator Wesley L. Jones said here today he was never under the impression if Roy G. Lyle, deputy prohibition administrator or William M. Whitley, former assistant administrator gave \$4000 in liquor bribe money to his 1926 campaign.

He related his faith in the integrity of both Lyle and Whitley, whose appointments as "dry" chiefs he recommended, and who now have been tried in Seattle on charges of accepting bribes and conspiring with liquor firms.

Jones said he "could not imagine liquor men giving Lyle or Whitley \$4000 for my campaign and my not knowing it."

At Hubbard, former "dry" officer and run-runner, testified at a trial in Seattle liquor interests gave \$4000 to enforcement officers for use in the 1926 senatorial campaign. He did not mention any names in his statement.

Jones said he would not consider testifying at the trial, without knowing more than he does of the case, unless he is subpoenaed. He said his knowledge of the case was even less than the average person, declaring he had not read accounts of the trial and heard nothing of the trial.

When told of Hubbard's testimony, he said he would "consider the man's past record."

Jones planned to stay at the Mountain home of his son-in-law, Leslie Colburn, near Wenatchee, until the first of next week.

SIX AVIATRICES IN NATIONAL AIR DERBY BRING SHIPS DOWN

Glady O'Connell and Margery Doig Continue Nip-and-Tuck Battle for Lead in Coast-to-Chicago Race

(By The Associated Press) PHOENIX, Ariz., Aug. 18.—Continued the nip-and-tuck race for the lead in the national women's air derby, Glady O'Connell, Long Beach, California, and Margery Doig, Danbury, Connecticut, finished the third lap of the Long Beach-Chicago route today with less than five minutes elapsed time separating them.

Doig, Mrs. O'Connell completed the lap, which began in Calexico, California, first, she was followed by Margery Doig, who gained 40 seconds during the flight. Mrs. O'Connell's time from Calexico was 4 hour 24 minutes. The distance is approximately 180 miles.

Half an hour after Mrs. O'Connell arrived, Jean La Renc, Kansas City, Mo., flew to arrive, set her plane down on the airport 15 minutes later by Mildred Morgan, Beverly Hills, California, who started a minute ahead of her.

Mrs. O'Connell, 2:37:55; Miss Doig, 2:44:23; Miss La Renc, 3:25:37; Miss Morgan, 3:38:23; Miss Stewart, 4:20:43 and Miss Barron, undetermined.

Hot Off at San Diego The fliers took off from San Diego this morning, stopping at Calexico, 110 miles west, at noon. They reported good flying conditions over the route traveled, so far, but complained of intense heat over the desert between Calexico and the Arizona border.

Miss Barron, high school girl, explained difficulty starting her motor at the noon control, and was delayed five minutes in getting into the race.

The other five entrants, led by Glady O'Connell, Long Beach, arrived here at 4:23 P. M. Ruth Stewart, St. Louis, the last to arrive, landed at 5:15 o'clock.

Two hours later searching airplanes departed to track back the race route across the 160 miles of desert and mountains toward Calexico.

RICHFIELD FARMERS GET GOOD YIELDS OF WHEAT

RICHFIELD, Aug. 18 (Special to The News)—Although there has been a scarcity of water during the last half of the season, nearly all of the wheat crops of this district give promise of exceptionally good production. No late irrigation was possible, on account of the low level of the storage in the Great Reservoir, which is the source of supply for this district. The yields are much higher than forecast early in July.

W. J. Ebert, a neighbor of Mr. Ebert, also received a 30-bushel average. Other wheat growers are expecting extremely good yields this year.

CHINA APPEARS AS AMERICA'S BIGGEST POTENTIAL MARKET

Internal Political and Military Strife and Low Silver Price Prove Barriers to Immediate Expansion

(By The Associated Press) WASHINGTON, Aug. 18.—Fettered by civil warfare and a customs embargo, China crawls towards modern industrialism as America's greatest potential market.

Two big factors—internal political and military strife and the present low price of silver—government

P. M. tonight. She said the airplane became dazed. She was injured and her plane was only slightly damaged.

Miss Barron said her watch stopped an hour after she left Calexico, California, on the third lap of the derby bound for Phoenix and she did not recognize the night control point in passing 15 miles north of the Arizona capital.

After flying for more than two hours she landed by the amount of gasoline used she had missed Phoenix.

"I just kept on flying knowing I would hit a tough some time, and I hope it would be before dark," she explained.

After landing the aviator walked six miles toward Holbrook, which also had been from the aid, and a rancher gave her a lift in his automobile.

economists say, are immediate barriers to the rapid expansion of American trade. The civil warfare is described as "chronically severe and indecisive." The slump in silver, China's medium of exchange, is ascribed to depressed local and world business conditions.

Outlook Uncertain No great increase of American business in China can be expected, the experts point out, until something approaching tranquility in trade and political stability is established. The present outlook is to permit of trade forecasts for the near future.

The United States recognizes the nationalist government headed by Chiang Kai-shek, a "honest nation" last treaty permitting the entrance of our goods on a parity with those of Great Britain and other nations engaged in the long international struggle for trade supremacy there.

Third Biggest Customer China is our third biggest customer in the Far East, taking \$184,500,000 worth of American goods in 1929. Japan and Australia rank first and second. The United States' principal exports to China include: kerosene and petroleum products, tobacco, flour, wheat, raw cotton, machinery, paints, lumber, motor cars, canned fruits, chemicals and medical preparations.

A CROSS SECTION OF CURRENT CONVERSATIONS IN CONOCOLAND

"YOU COULD NEVER SWITCH ME TO ANOTHER OIL SINCE I LEARNED HOW CONOCO PERFORMED IN THOSE PIKE'S PEAK AND RACING TESTS"

CONOCO CERTIFIED TEST. The story of Conoco Germ-Processed Motor Oil, as told in the advertising, and proven on Pike's Peak, at the Indianapolis Speedway and Altona Flag Day races, has paralleled the story which this oil has been telling in hundreds of thousands of motors. Conoco's original announcement stated that the virtues of the Germ-Process were so radically different from any other refining method that this lubricant would outperform other popular and nationally known American motor oils. You were told that the metal-penetrative safety factor of this oil was so vital that the film in the "pores" of the motor metal would protect your engine in emergencies where other oils have failed. Well, it has all been proven in the past 8 months. In addition to sensational achievements on Pike's Peak and at the Indianapolis and Altona races, scores of satisfactory tests have been made on private cars by enthusiastic users. Now that summer heat is here to intensify and increase motor heat, remember that one of Conoco Germ-Processed oil's outstanding characteristics is heat resistance. We invite you to begin using this first really new oil today. Just say "Germ-Processed" at the Sign of the Conoco Red Triangle. CONOCO GERM PROCESSED PARAFFIN BASE MOTOR OIL.
