PRESIDENT HOOVER WINS ACCLAIM FOR FULFILLING PLEDGE

Republican National Committee Finds Few Administrations With Record For Keeping as Many Promises

(By The Associated Press) WASHINGTON, Aug. 28 - The Republican national committee in a statement today said few administrations in recent times have had such a record of promises kept as has that of Herbert Hoover.

In support of the assertion the committee issued a lengthy summary of administration accomplishments as compared with the promises kept as has that of Herbert Hoover.

Points to Leadership The pledge for government of the "efficient minimum" was said to have been carried out by the transfer of the prohibition bureau to the justice department; the reorganization of district attorneys' offices and arrangements with Canada to trade liquor.

AMERICAN AMBASSADOR TO ENGLAND CONTINUES SPANISH TOUR IN HEAT

MADRID, Aug. 28 (AP) - General Charles G. Dawes, American ambassador to Great Britain and amateur archeologist extraordinary to Spain, left with party tonight for southwestern Spain, last stage of his visit to Spanish centers of prehistoric man's life.

WASHINGTON WOMAN CONFESSES MURDERS

BREWSTER, Wash., Aug. 28 (AP) - Corby Effert, 37, confessed today to slaying Mrs. Julia Lee Christensen, 32, confessed slayer of her husband, O. C. Christensen, slain in a fire last Tuesday. Corby said the two men were accomplices.

SHOUSE DENIES MAKING ERROR DURING ADDRESS

WASHINGTON, Aug. 28 (AP) - Joseph P. Kamp, chief of the Democratic campaign committee, said today that Senator Vandenberg, Republican, Michigan, was in error when he recently charged Shouse with a mistake or misinterpretation.

40,000 Persons Acclaim Lindberghs at National Air Race

CROWD AT CHICAGO CHEERS AS FAMOUS PAIR LEAVES SHIP

Hundreds of Persons Quit Own Good Seats to Stand In Front of Noted Couple's Space in Grandstand

(By The Associated Press) CHICAGO, Aug. 28.—Colonel and Mrs. Charles A. Lindbergh became the center of attraction for 40,000 persons at the national air race today.

Colonel Decides To Settle Down

CHICAGO, Aug. 28 (AP)—Colonel Charles A. Lindbergh who flew to the national air race with Mrs. Lindbergh today indicated that he has decided to settle down in this city.

The Weather

FORECAST FOR TODAY AND TOMORROW—Generally fair, but scattered afternoon thundershowers in morning. Temperature somewhat above normal.

POLICE FIND BODY OF MURDERED GIRL

South Bend Officers Hold Suspect, Visitor at Home of Victim, After Crime

SOUTH BEND, Ind., Aug. 28 (AP)—The lifeless body of Marvaine Appel, age 6, a wife found about the neck and an abrasion on the head, was found tonight in the trunk of a car of a house about two blocks from the home of her mother, from which she disappeared last night.

Deputy Coroner William F. Miller, St. Joseph county, who examined the body, said the girl had been attacked before she was killed. Dating who had been tightly about the girl's throat, but the examiner tonight had not determined what caused death.

The girl, who had long hair, was found in a car which was parked in front of a small automobile which was reported yesterday to have been driven by Marvaine and several other children to take a ride. The children, however, were not seen.

Available police and posse of citizens joined in a widespread manhunt for the slayer.

SUGAR PRODUCERS OF WORLD ACT TO STABILIZE PRICES

(Continued From Page One) ment of about \$2,000,000,000. The meeting, the statement continued, "has been devoted to discussion of a program based largely on the proposition submitted by Cuba, through Dr. Viriato Cullerig, member of the Cuban senate and a principal figure in the island's sugar industry, which is 80 per cent of her whole wealth.

"The belief is strong among those who have taken part in the conference that not only will a method be worked out for the American market, but a real advance made toward curtailing the present unfortunate world-wide glut of sugar.

A special feature of the meeting, the new national tariff code, was being by members of both clubs.

D. E. Warren, district election judge, spoke on the "Value of 4-11-1930."

NEW INSTRUMENT LETS FLIERS LAND ON FOGGY AIRPORT

Invention of Earl C. Hanson, Chicago, Aids Aviator to Fly "Blind" and Find Field Safely in Fog

(By OSCAR LEVING (Associated Press Aviation Editor)) CHICAGO, Aug. 28.—A new aid for airplane pilots seeking to land on a fog-bound airport, a device that "hears" light, was revealed today.

It is the invention of Earl C. Hanson, Chicago scientist, who disclosed a device developed to a group of aeronautics experts attending the national air race, including Major James Doolittle, noted for his blind-landing record last year for the Guggenheim fund.

Hanson utilizes invisible magnetic waves emanating from a bank of neon tubes, intercepting them with a device in the cockpit that causes a steady hum in earphones connected to the pilot's ears and activates an electrical siren that shows the number of feet the plane is above the ground.

The neon tubing, Hanson said, would be placed on a landing field to act as a visual signal in clear weather, but giving the same effect of electrons that, in fog, could be picked up by the pilot to tell him not only where the airport was but lead him safely to a landing.

Miniature Demonstration While the demonstration was made on a miniature scale, he said that the outfit equipped that would have to be installed on a plane would weigh not more than 50 pounds.

It would consist of a "pick up" device, he said, for intercepting the waves and transmitting an amplifier to the cockpit which would activate the electrical meter for the optical signal.

The neon waves, he explained, could not be detected at a great distance from an airport, so that pilots would have to rely on radio-compass for guidance en route, but that the signals could be caught over the landing field at altitudes of 2000 feet or more.

"Something of this sort," Major Doolittle said, after the demonstration, "which would allow airplanes to keep scheduled in all kinds of weather is imperative to the complete success of air transportation."

conditions which affect the growers of Germany, France, Poland, Hungary, Belgium, Czechoslovakia and the Netherlands who are in production.

"The meetings will be continued for some time. Committees are being appointed and the work organized. A spirit of cooperation is being shown by all the cane raisers of the United States and by a majority of the number of beet raisers. What we hope to gain is a limitation of the over-production, with a consequent increase of price to the farmer and to the manufacturer."

DROUGHT REDUCES CATTLE SPRINGFIELD, Ill. (AP)—Drought damage to crops has reduced the number cattle on feed in Illinois to 10 per cent below what it was a year ago, according to the state department of agriculture.

Alabama farmers expect to receive \$25,000,000 for their 1930 cotton crop, according to the 1930 cotton report.

North Carolina Textile Workers Strike

Vivian Duncan's Brother Uses Fists on Rex- Lease, Film Star

HOLLYWOOD, Aug. 28 (AP)—Under the law (law of retaliation), Rex- Lease, motion picture actor, had another smack in the eye tonight. In Hollywood's latest adventure in statistics Hal Duncan, brother of Vivian Duncan, slize and seven actors, knocked Lease down in a cafe last night and followed it up with a thorough trouncing. After examining his dislocated eye, Lease said today he would not face a camera for four days.

It was an act of vengeance. A few weeks ago Lease blacked both of his eyes after she had allegedly refused to accompany him to the Malibu Beach cottage of a friend. The admission cost him a \$50 fine. Last night as Duncan and his father sat in a cafe they saw Lease at another table. Walking over to the actor, Duncan said: "I'm Hal Duncan."

Right Swing Follows A right swing to the eye followed Lease to the floor. His face blacked as he fell to meet a smashing left. Before it could go further, friends dragged Lease into another room.

"It was a good fight while it lasted," chuckled S. H. Duncan, the father. "I gave him a good beating," said Duncan, the son.

"I have a little to say," said Lease, adding "if the Duncans are seeking that kind of publicity I am not. What are you going to do when a total stranger approaches you your name and hands off and socks you in the eye. That's exactly what happened last night. I am not a better of none."

Back in Chicago the blond Vivian, who with her sister, Rosetta, is widely known in song and dance acts, said she was "tickled to death," or words to that effect.

Meanwhile, Hollywood had another threatened at strategic points.

Despite rumors of political upheavals and complications the city tonight was calm this evening. The tense atmosphere in political circles apparently found the populace relaxed or indifferent.

The extraordinary police activity in the city since yesterday was officially explained as a precautionary measure against possible disorders from a strike of Union Telephone company employees, 6000 of whom went out on a "scab" strike.

commanded, exhibiting that bit of anatomy which did not show signs of lingering bruises.

"Ouch, I'm so happy. Just think of that youngster, looking that man, Heide he would, die was with me when they operated on my eye. He knew how I suffered. She pinched her exclamations with fancy steps. "And my dad said it—It's a hearing loss—and thought it was a good fight."

"Now he knows what it's like. Good enough for him."

She and her sister, Rosetta, are appearing in vaudeville here.

SOLDIERS' CAMPAIGN METHODS RECEIVE ATTENTION OF NYE

Chairman of Senate Committee Closely Watches Contest in Nine States and Fixes Time for Hearings

(By The Associated Press) WASHINGTON, Aug. 28.—Expenditures and campaign methods in nine states where senatorial nomination races have been or are still in progress are being watched closely by the Nye senate campaign finance committee. Chairman Gerald P. Nye today informed The Associated Press of a telegram from Clacker National bank.

In a tenth state—Pennsylvania—the committee will hold no further hearings before the general election in November.

The conference at the park called by the chairman completed, members of the committee tonight were preparing to leave for their respective homes, to meet September 15 for resumption of the inquiry into the Illinois primary election campaign of Mrs. Ruth McCormick and Charles S. Denton.

From Illinois, Chairman Nye announced, the committee will go to Nebraska and then into Colorado where among others, Clarence C. Hamlin, Republican national committee, telegraphed for an immediate hearing. Charges of unethical practices of the Anti-Slavery League have been made in the Colorado campaign.

Declining to enter Colorado before that state's primary election September 9, Nye said:

"The committee hesitates to place itself in a position which might leave room for a claim that it was permitting itself to be used for or against any campaign."

As for the other states in which the committee has obtained information on primary campaigns, the chairman said:

"Very serious charges" involving expenditures and illegal voting in the Tennessee Democratic primary have occasioned the sending of investigators into that state, and upon their report will depend the time and place for a hearing.

Wallace White, Maine, was asked today to submit a report of his campaign receipts and expenses, having failed to comply fully with the re-

GUARDIAN OF BEER AVOIDS PUNISHMENT

District Attorney Declines to Charge Legion Officer With Violation of Law

NEW ORLEANS, Aug. 28 (AP)—Declining to charge a member of the prohibition law against Charles M. Howell, New Orleans, a policeman, for securing a truck load of beer to headquarters here of the American Legion, Edmund E. Talbot, United States district attorney, today drew a distinction between beer manufactured for home consumption and that made for commercial use.

The patrolman, an officer in the American Legion, was guarding a load of beer carried to the Legion headquarters where installation of officers was in progress. Howell was arrested for the violation.

The district attorney said Howell had made the beer at his home and was donating it for the celebration. The case, the district attorney said, "did not constitute a clearcut case of prohibition law violation as a load of beer carried to the Legion."

"It is just as illegal to make liquor for home consumption as it is to sell for sale," Mr. Talbot explained. "However, it is the policy of the prohibition department not to interfere with the manufacture of beer which criminal features are not involved."

WHAT TO SOUTH AMERICA OALVESTON, Texas (AP)—The first cargo of wheat to move from Oalveston to South America in four years recently was shipped to Rio de Janeiro. The cargo consisted of 200 bushels.

GETS TOURIST PLANE BASE STREISA, Italy (AP)—This favored region of the northern Italian lake region now has a base for tourist hydroplanes.

quests of the committee on two previous occasions.

In Massachusetts and New Jersey the committee will consider to charge filed with it.

In Massachusetts and New Jersey the committee will consider to charge filed with it.

The case was true in North Carolina.

Chairman Nye said the Colorado hearings probably would begin about September 23.

Little Last Night

The all-ages crowd last night and her mother, Mrs. Ella Appel, asked police to search for her. Another child, several other children also were notified.

Available police and posse of citizens joined in a widespread manhunt for the slayer.

One suspect was arrested. He was James Hunter, 22, who was held for questioning after he had appeared at the Appel home to inquire if the girl had been found. Police had not definitely connected Hunter with the slaying, however.

MURTAUGH CLUB GIRLS DISPLAY ACHIEVEMENTS

In connection with the Murtaugh Orange meeting Wednesday evening, girls of the Murtaugh 4-H Club, Sewing club and the Murtaugh Girls Cooks gave an achievement program and held an exhibit to promote the club. From among the exhibits, Miss Helen Jensen displayed house demonstrations, selected a new dress, Mrs. Mary Dean, who won second honor.

The achievement program, arranged by Mrs. C. H. Stevens, Murtaugh club leader, and Mrs. E. Brown, foods club leader, included a talk on the club, a sewing club work by Mrs. M. A. Walker, and a demonstration by Mrs. O. J. Walker, on making of salads.

In New York Judicial Inquiry

GOVERNOR ROOSEVELT has ordered a state investigation of charges that New York City Magistrate George F. Eward (left) paid \$10,000 to his appointment to the bench. He placed Attorney General Hamilton Ward (upper right) in charge of inquiry and instructed Justice Philip J. McCook (lower right) to convene special term of state supreme court to consider case.—(AP) Photo.

**Personality Lessons Claim:
Cosmetologists' Attention**

Between 8:30 and 10 o'clock in the morning brings this change in milady's charm.

WASHINGTON, Aug. 28 (AP)—There's a new gospel of beauty that means something more than a marcel and a kiss of rouge.

Take it from the beauticians themselves, the modern woman may enhance her charm by wise more subtle than cosmetics alone. Now, they say, women need beauty lessons in personality—how to achieve just the right tilt of the head, how to acquire a cheerful mental attitude—and how to smile.

This new creed will be expounded when 1500 men and women meet in Washington, September 1 for the convention of the National Hairdressers and Cosmetologists' Association.

Seven models will demonstrate the effectiveness of the beauty teachers' ideas.

They will be just plain girls at 8:30 in the morning, their hair uncombed and their smiles lacking. But by 10 o'clock, the hairdressers and cosmetologists promise, they will have all the winsomeness that modern beauty can achieve.

They will be beautified by hairdressing and proper make-up, and they will be taught how to smile, how to sit and walk with a maximum of grace.

Nor will the new beauty program omit cold cream, lotions, curling irons and cosmetics—not by the tune of \$1,000,000,000 which American women spend annually for beautification.

It is to these that the beauty of greater personal charm will be achieved.

**ULTRAVIOLET RAYS TAKE
NICOTINE FROM TOBACCO**

CHICAGO, Aug. 28 (AP)—Dr. A. J. Pacini of Chicago claims to have found that ultraviolet rays will remove the nicotine from tobacco. The original flavor of the tobacco is retained.

An article on Pacini's claim appeared in the Journal of Pharmacology and Experimental Therapeutics. It was prepared by the Chicago scientist and Professor Hugh Mc Gulgan of the University of Illinois.

The tobacco finding was a chance development, as Dr. Pacini was attempting to destroy cocaine, and was working with many alkaloids when he subjected the tobacco to light treatment.

**SENSITIVE INSTRUMENT
RECORDS EARTHQUAKES**

WASHINGTON, Aug. 28 (AP)—The first Wenner seismometer for regular use in recording earthquakes has been placed in the magnetic and seismological observatory of the federal coast and geodetic survey near San Juan, Porto Rico.

The instrument records through an electrical system of great sensitivity impulses from very distant earthquakes. Many small tremors, known as microseisms, can be detected by this new seismometer developed by Dr. Frank Wenner, of the bureau of standards.

Planes registered in Switzerland are subject to periodic examinations as to safety and condition.

Farm implement exports from the United States to New Zealand nearly doubled in 1929.

THE OUTSTANDING VALUES OF THE COUNTY IN A \$1.98 LADIES' SHOE WILL BE FOUND HERE DURING THIS EVENT

Oh What Values. These alone will be worth a special trip to town. Pumps, Straps, Oxfords, Ties in Kid and Patents... Well, words cannot describe them—you must see them to really appreciate these savings. (Values to \$1)

313 PAIR OF MISSES PATENT PUMPS AND OXFORDS
Sizes 1 1/2 to 2
\$1.98
Values to \$3.95

Here's the cream of the factory closeouts in this group—314 pair. Think of it! and they are of all the famous brands such as Buster Brown, Blitens, Star Brand and others. Here is an opportunity to make savings that are few and far between.

72 PAIR BLACK BOX CALF SCHOOL SHOES, \$1.49
Values to \$2.50

We would term this as the ideal school shoe—it is made of fine grade leather with the U. S. wear resisting composition soles that do not mark floors. Soles are made to stay on for they are both nailed and sewed.

FOR THOSE CHILDREN WHO HAVE NARROW FEET AND ARE HARD TO FIT WE SUGGEST THIS GROUP
217 Pair Buster Brown Narrow Last Shoes
\$2.19
Values to \$3.95

When our buyer bought these he had the child with the hard-to-fit narrow foot in mind. Be sure to see this group. Sizes 8 1/2 to 11.

144 Pair Some as the Above Only in Sizes 1 1/2 to 2
\$2.49

72 PAIR SMALL CHILD'S BUSTER BROWN OXFORDS
98c
Sizes 2 to 5

Think of it. Buster Brown shoes at 98c. Sounds ridiculous, doesn't it?... but it's a fact... they are real Buster Brown shoes and they would be cheap at \$2.25. (Sizes not complete.)

112 PAIRS OF SCHOOL AND DRESS OXFORDS, \$1.69

Two of our buyers made a special trip to a large manufacturer of sturdy shoes in Frankfort, Kentucky, to buy more school shoes. The result of this trip was most gratifying as they picked up values that generally sell for twice as much as they paid, but best of all the savings are passed on to you. These are by far the best values ever offered in any school shoe event ever held in the Economy Basement. Patents, Tan and Blacks and Sport Oxfords in Smoked Elk.

MISSES TAN ELK SPORT OXFORDS, \$1.98
Sizes 1 1/2 to 2
Regular \$3.25 Values

This shoe is made up of Sierra Brown Calf with smart Smoked Elk trim. Solid leather construction makes it a fine school shoe.

VALUES AND MORE VALUES
72 PAIR CHILDREN'S PATENT OXFORDS, 79c

Here are values that Mothers really appreciate. Made of fine quality Patent with sturdy stitch-down soles. These sell regularly at \$1.60. Sizes 3 to 6, 7 1/2.

MEN'S BLACK CALF DRESS OXFORDS. VALUES TO \$2.98

Genuine Goodyear Welt soles, new narrow toe. Weather proof, barbar wetting, most all sizes in this group.

92 PAIR SOFT SOLE SHOES AND SLIPPERS FOR INFANTS
39c
Values to \$1.25

These are absolutely and strictly firsts. The factory we bought these from was overstocked and they very near made us a gift of two cases. We are passing the savings on to you. All colors and shades in sizes 0 to 4.

TWIN FALLS DAILY NEWS

Subscription Rates: One Year \$12.00, Six Months \$7.00, Three Months \$4.00. Entered as second class mail matter April 1, 1918, at the postoffice at Twin Falls, Idaho, under act of October 3, 1917.

MEMBER OF ASSOCIATED PRESS: The Associated Press is a strictly news-gathering organization. It is not a publisher and is not responsible for the content of the news items it furnishes to its members.

NATIONAL REPRESENTATIVES: PHREDEN, KING AND PHREDEN: New York, Chicago, San Francisco, Los Angeles, Seattle.

UP TO THE VOTERS

Idaho's political parties, using the machinery of primary elections and caucuses provided under Idaho's election laws, have brought forth their platformed candidates. Each party, to the best of its ability, has set forth the policies for which it stands and has selected candidates it expects to carry these policies into execution.

REVISING MONROE

A proposal regarding the Monroe Doctrine made by an American publicist brings a friendly echo from Chile. Dr. James Brown Scott, directing the Institute of Public Affairs at Washington, has written on the other day, suggesting that the doctrine be given a broader base of support by all the countries of North and South America making similar declarations.

The Mercury of Santiago has no objection to the revision of the declaration of President Monroe about a century ago, merely intended to safeguard the young, struggling American republics from Old World monarchies, to free American soil from further Old World conquest. To that our sister republics have never objected. What they have strongly objected to is the interpretation given to the doctrine in recent decades by American statesmen, writers and speakers who seemed to turn it into a doctrine of superiority held by the United States over the smaller republics. This interpretation was broadened as suggested. Or, if, as the Mercury suggested, we stopped talking about the Monroe Doctrine and accomplished its purposes by strengthening Pan-American ties and striving all the members of the Union on the same footing.

Again a crowd has gathered at Twin Falls County's outstanding debt falls—a narrow bridge on the state highway spanning the canyon miles east of Twin Falls. A big crowd gathered to witness the curves on the embankment leading to the bridge, but was reduced to a twisted mass of wreckage. Happily there were no fatalities this time; miraculously, almost, no one seemed to have been seriously injured.

This particular bridge has its grim record of a similar disaster, with it, who, by driving cautiously, manage to cross it safely. It is most deadly to strangers, coming up it suddenly after traveling for miles on a high road, where other serious hazards abound. Spurred on the treacherous curves of its approaches take its slim roll, and speed, in view of absence of similar hazards for miles and miles on the highway, is not wholly inexcusable.

The bridge and its approaches as they stand constitute a monumental mistake. Building of a new bridge and straightening of the approaches should be put at the head of the list of things to be done in Twin Falls county.

THE BATTLE OF BUSTANLER: A Washington Bystander. By KIRK EDIPSON. WASHINGTON, Aug. 25 (AP)—In the light of Nebraska's Republican senatorial primary results, it seems now that even had the second George W. Norris managed to stick on the ticket, it would not have beaten George W. Norris. McCook, veteran irregular out of the nomination. It hardly could have continued as a struggle so 25,000 Norris supporters as to which man they were voting for. And the reason had upward of that, for his phylaxia. That Nebraska contest was in many ways the most interesting pre-election battle. Only the huge sale of Dwight Moore's victory in the New York senatorial contest, coupled with the fact that Moore was a high-grade food buyer, and that he was a Republican, made it so important. The Morrow-for-president talk was so much more than a remote date, politically speaking, after the Hoover epoch. For George Norris himself, with ten years in the house and going on ten in the senate, had the actual election results will be in November. Remaining against former Senator Gilbert Hitchcock, Democrat, one of the questions of party regularity that have so much to do to the primary fight will be in issue. It's reasonable to suppose that Norris would find himself much more in harmony with the view and vote of Hitchcock in the senate than he possibly could with those of a "regular" Republican from his own state. More than once, Norris has indicated a desire to terminate his public service but never by turning out in the political field, centering about him. Some Washington observers have thought Nebraska's requires have made a mistake in strategy. Norris has invariably taken up the pages of battle they have written. Had they kept quiet and not challenged him early and often to renewed combat, a good many folks here think Norris might have retired voluntarily some years ago. His battle line.

then retire permanently and perhaps rear a family. In effect she said then, and repeated it to me recently. "There is no use having a million dollars if you can't use it. I'm still young enough to enjoy the things of life. I can always work, but I can't always play."

Plans Upset: An illness and her separation and eventual divorce from her husband and manager, John McCormick, not only upset Colleen's vacation plans, but has her cause for uncertainty about the future, since business relations also ended with the divorce. McCormick was connected to all of Colleen's business. He negotiated, her contracts, selected her stories, and supervised the production. A star's manager never had wider rein, nor has his success as such been equaled.

High Priced: Colleen can be definitely through with films, partly because she will be without the guidance of McCormick, but chiefly because producers will not meet her salary demands. She regards her approaching stage debut as the coming of a ray of light, and she is determined to make the most of it.

THE NEW YORKER AT LARGE

By MARK MARION: NEW YORK, Aug. 25 (AP)—In the most spectacular upset of the Baroque season — which was of course the defeat of Gallant Fox and Whirlaway by Jim Dandy in the Travers Stakes—the self-styled Judge of horse flesh was further convinced that women are totally Ubiquitous. Re-enforcement of this opinion cost them considerable money, they thought, but they implied that it was worth it.

It seems that when women visit the race track they carry with them that instinct for bargain-hunting which permits them to emerge triumphant from shops and department stores. So when their husbands and escorts are plumb the mysteries of the back shelves, women have the habit of each snatching the ladies' gloves only at the prices offered on the floor.

Unschooling in turf matters, they reach the simple conclusion that it is more profitable to buy a horse than to race. They should, miraculously, with the race, a bet upon that horse would return more than another horse would be at the more complimentary figure of two to one.

Accordingly it was chiefly the illustrious ladies, with a limit of \$200 on Jim Dandy, who wrested checks for \$200 from the bookies, while the mere mortals, who were the whereabouts of justice and repeated their assertion that there's no telling what a woman will do.

Guiding Your Child: PACING FACTS: There are in the average human existence problems and hardships for which there is no remedy but courage. The course of an ordinary life comprises such experiences as illness, bereavement, disappointments and frustrations in relation to work and love and friendship. Wrong decisions from which there is no turning back, and irretrievable mistakes that must mark the rest of one's life.

Some of all of these things happen to every man and woman of wisdom, no amount of effort will change that. It is no kindness to train a child to expect that he always will have exactly what he desires. Such training cannot make him happy, for the only happiness possible for anyone depends upon learning to accept with good grace and uncomplainingly the results which inevitably make their appearance.

Childhood should be full of joyous, satisfying experiences that build up self-confidence and a cheerful attitude toward life, but its happiness should not give the illusion that everything will be fulfilled and that everything is perfect in the perfect world. Childhood is the time to acquire the ability to face the unpleasant along with the pleasant—without waiting or self-pity.

The child learns this not only through the way his elders expect him to meet his problems, but also through the example which they set before him. Parents who run away from hardships, who deceive themselves with fictions and evasions, who insist upon crying for the unattainable, who sincerely hope to bring up children who will meet life squarely.

Relief From Curse of Constipation: A Battle Creek physician says "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Regal Orderlies has been discovered. This tablet attracts water from the system into the lax, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or over-increasing the dose. Stop suffering from constipation. Chew a Regal Orderly at night. Get a Regal Orderly at the nearest Retail Drug Store—Wiley Drug Co.—adv.

ORPHEUM: Today, Saturday, Sunday: THE KING OF JAZZ: Paul Whiteman and His Band. NEVER BEFORE, A SHOW LIKE THIS MARVELOUS—GRAND—SUPREME.

THE IMMENSE COWBOY CHORUS IN "SONG OF THE DAWN": John Hole in "Song of the Dawn" number from "King of Jazz" starring Paul Whiteman. A Universal super-production. Matinee 10¢ and 40¢. Evening, Balcony 20¢ and 40¢. Lower Floor 25¢ and 50¢. Supreme No. Air Ventilation.

A Washington Bystander

By KIRK EDIPSON: WASHINGTON, Aug. 25 (AP)—In the light of Nebraska's Republican senatorial primary results, it seems now that even had the second George W. Norris managed to stick on the ticket, it would not have beaten George W. Norris. McCook, veteran irregular out of the nomination. It hardly could have continued as a struggle so 25,000 Norris supporters as to which man they were voting for. And the reason had upward of that, for his phylaxia. That Nebraska contest was in many ways the most interesting pre-election battle. Only the huge sale of Dwight Moore's victory in the New York senatorial contest, coupled with the fact that Moore was a high-grade food buyer, and that he was a Republican, made it so important. The Morrow-for-president talk was so much more than a remote date, politically speaking, after the Hoover epoch.

For George Norris himself, with ten years in the house and going on ten in the senate, had the actual election results will be in November. Remaining against former Senator Gilbert Hitchcock, Democrat, one of the questions of party regularity that have so much to do to the primary fight will be in issue. It's reasonable to suppose that Norris would find himself much more in harmony with the view and vote of Hitchcock in the senate than he possibly could with those of a "regular" Republican from his own state.

More than once, Norris has indicated a desire to terminate his public service but never by turning out in the political field, centering about him. CLOSED Labor Day

Our store will be closed Monday, Labor Day. It will thus be necessary for our customers to do two days' food buying on Saturday. We will be in position as never before to take care of all your needs with every food item for an enjoyable Sunday and a delightful holiday. Monday.

A New Month

Labor Day marks the beginning of a new month. It will be another month of thrift and advance for those who continue to shop the O. P. Skaggs System way. And it will be another month of "falling behind" for those who at the end of the month leave a big part of their September salary at a "charge it" grocery paying cash for your foods all during September. You will find that our way leaves you money, for, the things you have long been wanting.

UNIVERSITY PLANS FOR FAIR AT FILER

Moscow School Prepares to Send Extensive Display to Twin Falls County Show

MOSCOW, Aug. 28 (Special to The News)—The University of Idaho's exhibit at the Twin Falls county fair at Filer September 9 to 12, has been prepared and is ready for shipment to southern Idaho. It will be shown at several other southern Idaho fairs this fall under the direction of C. A. Fitzgerald, university editor and director of publicity.

The exhibit, which the state university is displaying before the visitors to the Twin Falls county fair, is the most comprehensive and active that the university ever has assembled. It contains a complete series of the university's activities, told with pictures, charts and legends.

Five sections, each 10 feet wide, are consumed in presenting the material. In the center of the exhibit a picture projector will show approximately 200 scenes depicting student activities, buildings and other views at the main campus at Moscow and the southern branch at Pocatello.

Exhibit Schools Growth

The growth of the University and the scope of its research and technical services to the state are shown in one section. The school of forestry presents interesting information on the forestry industry in one section and includes some educational material on forest fires. The college of engineering has a section. One of the important items in the engineering display deals with the construction of oiled roads in Idaho. The departments of agricultural engineering has a section in which is presented exhibits of special appeal to the farmers of the riparian districts of southern Idaho. The southern branch section emphasized the work of the pharmacy department, the art and engineering divisions.

The special committee in charge of the preparation of the display included Dr. P. L. Latta, director of mines; Professor Robert Berzford, head of the department of agricultural engineering; Dr. E. C. Hubert, school of forestry and Professor T. J. Prichard, head of the department of art and architecture. Professor Prichard did all art work and assembled the exhibit.

IDAHO ECONOMIST ADVISES ON FEED

Moscow School Experts Recommend Idahoans Fatten All Cattle at Home

MOSCOW, Aug. 28 (Special to The News)—Feed more livestock at home this year, is the advice of Dr. Paul A. Eke, economist with the University of Idaho agricultural experiment station, and P. R. Rinehart, his animal husbandman with the university's agricultural extension division.

In a point recommendation to farmers and stockmen of the state they point out that as Idaho has an abundance of pasture hay and grain, and many feeder lambs and feeder cattle, the feed and feeders may be combined this year and marketed to advantage as limited beef and mutton, conditioned on Idaho products in Idaho feedlots, instead of being sold at low prices for finishing out of the state.

The drought in the corn belt has been so unusual as to attract the attention of Idaho grain growers and stockmen, they point out. With Idaho cattle and lambs available for Idaho feedlots, and with the feeder market in the Middle West generally demoralized by the short corn crop, it appears that Idaho can market its hay and grain, feeder lamb and feeder cattle, to advantage in the form of a finished product, according to this recommendation.

Higher Prices Expected

Since many cattle, sheep, and hogs will be sent to the market in the Northwest, where incidentally she was made a princess of the Blackfoot Indians, gathered material for his part in the new series of Empire Builders to start this fall. Virginia, who is a radio actress, plans to write some of the sketches.

than the average price received for them by producers in the United States during recent years. This price is even lower than the average price of corn to the producer before the war from 1919 to 1924. It is 10 to 15 cents per bushel lower than the average price received for corn by Iowa producers in all years since 1914 and 1925 and 1926. Moreover, corn has recently exceeded in value per bushel that of wheat in the Chicago market. Hogs and cats are correspondingly low.

Bakers are taking cognizance of this problem and are endeavoring to meet the situation.

Information relative to the feeding methods may be obtained from the agricultural extension division of the University of Idaho college of agriculture at Moscow or Boise or from the extension agents stationed in the various counties.

MURTAUGH FOLKS ENJOY HAGERMAN PARK PICNIC

HAGERMAN, Aug. 28 (Special to The News)—One hundred forty persons attended the Murtaugh Mutual Improvement association picnic at the city park here today. The affair was given as a mother-and-daughter and father-and-son picnic.

Before the basket lunch was served, Clifford Tolman led the group in singing of several songs. Hagerman waterworks were a feature of the day.

Later in the afternoon, on the return trip, a stop was made at Banbury matting for a swim.

TO WRITE SKETCHES

NEW YORK (AP)—Virginia Gardner, who spent a vacation in the Northwest, where incidentally she was made a princess of the Blackfoot Indians, gathered material for his part in the new series of Empire Builders to start this fall. Virginia, who is a radio actress, plans to write some of the sketches.

HEADS ITALIAN ROAD GROUP

GENOVA, Italy (AP)—Senator Luigi Luigi will lead the Italian delegation to the International Highway congress in Washington this fall.

CLASSES IN GOODING SCHOOL BEGIN SOON

President C. W. Tenney and Registrar V. O. Humphrey Expect Large Registration

GOODING, Aug. 28 (Special to The News)—The thirteenth academic year at Gooding college opens with the first faculty meeting on September 2, with registration day, September 3.

member of the work of the college for the first term is officially begun. According to President C. W. Tenney and Registrar V. O. Humphrey, advance registration is very satisfactory and a large group of old students as well as a big freshman class is expected.

A few new faces among the faculty will greet the student body for 1930-31. Miss Elizabeth Knox, who holds a bachelor's degree from Colorado college, a master's degree from the University of Washington and who has been a summer school student at the University of California, is to head the science department.

Art instructor Norman Wood is to give the work in art. Mr. Wood has had training in Otisawa university as well as in Otisawa of Nebraska, Idaho and Oregon. His teaching experience has

been in Nebraska, Wyoming and Idaho. Harold Roberts, who has been dean during the last year, will also act as coach and director of athletics for the coming year. His assistant will be Melvin "Kady" Hartwell, Burley, Robert basketball and track star for the last four years. Mr. Hartwell was also awarded the student prize for all-around campus accomplishments at the 1930 commencement.

Other announcements regarding faculty appointments will be made later.

ESTIMATES STAR MAGNITUDE

CAMBRIDGE, Mass., (AP)—A. A. Robinson has made estimates of the magnitudes of nearly 8000 Cepheid variable stars for Harvard Observatory. The luminosity of these stars varies in uniform cycles.

GRANGE LECTURER FROM BUIL GETS BID TO PAUL

RUPERT, Aug. 28 (Special to The News)—Announcement today by Mrs. Ed Byrum, Pomona lecturer of Atlatoka county, tells that Mrs. C. C. Reebler, Buil, state Grange lecturer, will visit Atlatoka county Pomona Grange this coming Saturday at the regular session to be held in Paul Saturday-August 30.

The state lecturer plans to hold a special meeting for lecturers of subordinate Granges sometime during the day.

A special feature of the lecture program will be a travel talk by Mrs. Dora Williams, recently returned at

RUPERT BOYS PLAN TO SHOW SWINE IN FILER

RUPERT, Aug. 27 (Special to The News)—Arnold Miller and brother, Wilbur Miller, sons of Heta Miller, and members of the Future Farmers of Rupert high school, will enter a pen of four Hampshire lambs and three Jersey boar at the Twin Falls County Fair in Filer, September 9 to 12, it was announced this week by Thomas Moberly, teacher of vocational agriculture in the Rupert school.

GOODING SCHOOL GROUPS PLAN SOCIAL ACTIVITIES

GOODING, Aug. 28 (Special to The News)—Invitations to Gooding college "mixer" have been mailed by the local Young Men's Christian Association and Young Women's Christian Association to all prospective students, summer students, living in the locality, and faculty members. This annual event, which is sponsored by the Christian church, is scheduled for Friday night, September 12, and is under the direction of Edna Randall, 21 East Main Street, Hefield, O. J. Castleford, social secretary for their respective organizations.

This first social feature of the college year always has many novel entertaining features. The college, which is to get the student body thoroughly acquainted in order that co-operation in the program be established, student campus organizations, may be secured. Usually a special stunt is planned by freshmen as a part of the program.

This event is the first of a series of all-campus social events sponsored by the Christian associations, the associated students, and the deans of the two dormitories. Other parties to follow include a Halloween party, Christmas party and a Valentine party.

RADIO AWARD TO BE MADE

SONIC DEPTH FINDERS SPEEDY

NEW YORK (AP)—In the process of speeding up navigation, the sonic depth finders are leaders. They give a snap in very deep water in a few seconds—a depth reading that by the old sounding method required hours.

Tonight: Get Rid of BURNING FEET

The New Right Way The ENGLISH Way To take out the sting—without all burning, itching and soreness—try the new Radox and in 10 to 20 minutes your foot-tender is gone. Just put two tablespoons of Radox in a gallon of hot water and soak your foot for 10 to 15 minutes. You never had such a joyous, invigorating foot bath in all your life—you just feel all the sting and soreness coming out of the stuffed up pores of your feet.

The this-to-night kind of tender foot is so strong and sturdy and vigorous that you can walk all day long without discomfort. It's the oxygen Radox gets into the thousands of pores of your feet and chases out the poisons that have accumulated there for years. It's these acids and poisons that make your feet ache and burn and nothing in the world will get them out but Radox.

You can get a package of Radox at any drug store. It is inexpensive and if it doesn't put new life and vigor into your feet, you have nothing to lose. It costs less—money back, too.

WEATHER BENEFITS GEM STATE CROPS

Agriculture Bureau Issues Weekly Summary of Conditions in Fields of Idaho

BOISE, Aug. 28 (Special to The News)—Weather conditions in Idaho were generally favorable for maturing and harvesting of crops, report of the government weather bureau for the week ending Tuesday, August 26, reveals.

The following summary of conditions was issued here today by Clinton E. Vorquest, meteorologist with the bureau:

SOUTHWEST IDAHO—Very comfortable weather obtained throughout the week. Afternoons were quite warm, favorable for maturing crops and all seasonal outdoor work, but the nights were refreshingly cool. Afternoon thunderstorms were of frequent occurrence in the mountains, but in the principal agricultural sections the week passed without rain of consequence. The supply of irrigation water is falling in some districts but in the Boise-Payette section and the Twin Falls section there is still an adequate supply. Thundering continues to fall owing to the rain from the mountains, and fat and will soon be ready for cutting. Prunes are taking on color and marketing will begin within the next ten days. Apples and growing here and begin to show considerable color. Fall crops are maturing fast. Melons, tomatoes and celery are abundant and of fine quality. Range feed is dry, alfalfa abundant and cattle and sheep are reported in fine flesh.

SOUTHWEST IDAHO—Although a few scattered rains occurred, the weather during the week was favorable for farm work. Wheat crops have been completed in some of the early districts and is making rapid progress in later sections. Winter wheat is being sown with conditions very favorable for germination. The planting of alfalfa is making good progress and potatoes and beets are improving since the rains of the last two weeks. Pastures and range are also improving and cattle and sheep are doing very well.

SOUTHWEST IDAHO—Except for scattered afternoon and evening thunderstorms the week passed of the week fair weather. Rainfall amounts were moderate, near normal. Grain threshing continues in full swing in the higher districts with excellent yields reported generally. Pines caused heavy losses in grain fields near Rex Perce and Brevard. The fire hazard continues great. Corn fields in the Lapwai-Idaho section are in fine condition. Peas, prunes, melons, and grapes are being marketed. Apple orchards are in excellent condition and the best crop in years is expected in Lewiston orchards. Hanges are reported in good shape in the extreme north, but they continue very dry in central Idaho. However, feed is adequate and livestock are doing well.

NOTES FROM THE FIELD
SHOSHONE, LINCOLN COUNTY—Irrigation water exhausted and hot winds are driving up vegetation; crops fair; cutting of third crop alfalfa under way in places; threshing begun.
RICHFIELD, LINCOLN COUNTY—Some local light showers but conditions generally favorable for crops and harvesting; threshing now in full swing and some fine yields are reported; second crop alfalfa about all in stack; mostly good yields of good quality hay.
FOOTMOUNTAIN, BANNOCK COUNTY—Temperatures above normal; a few light local showers; wheat harvest nearing completion; threshing progressing; third crop alfalfa making very good growth; fall plowing progressing; potatoes and beets doing very well; range improving; cattle and sheep in good condition.

"EARLY BIRDS" AGAIN FLY HISTORIC CRAFTS
CHICAGO, Aug. 28 (AP)—Early birds of the air who were making ludicrous crashes through the air when today's heroes were children will fly again in those historic craft.

One of the national air races events will be an exhibition by "early birds" in quaint pusher biplanes, flimsy monoplanes and motor boy-bikes.

The "early birds" organization is restricted to men and women who flew before 1916.

DROUGHT IN KENTUCKY HITS WHISKEY STILLS

LEXINGTON, Ky., Aug. 27 (AP)—Crops aren't the only Kentucky sufferers from the drought. Drying of creeks in the hills has paralyzed the moonshine whiskey industry. No water means no "moon."

SCIENTISTS AT CORNELL STUDY SOIL PLASTICITY

ITHACA, N. Y., Aug. 28 (AP)—Students are under way at Cornell university to lay the foundation for determining the importance of soil plasticity to farmers.

This has been undertaken by G. W. Scott Blair, under direction of Professor Wilder D. Bancroft.

BURLEY FOLKS ESCAPE INJURY IN AUTO CRASH

HANSEN, Aug. 28 (Special to The News)—St. O. Patrick, manager of the Southern Idaho Wholesale Grocery company, and Mrs. Patrick, residents of Burley, and O. D. Law, Logan, Utah, their guest, escaped serious injury when their car tumbled over on the road three miles east of here late last night.

The mishap occurred as they were returning from Twin Falls to Burley, and turned out to avoid hitting a machine coming from the opposite direction. Rain had made the road slippery and the Patrick car skidded across the embankment and turned over twice in the ditch at the side.

R. E. Boller, mayor of Twin Falls, happened along on the scene and took Mr. and Mrs. Patrick and Mr. Law to Burley.

WIDENING OF STREETS REMOVES MANY TREES

NEW YORK, Aug. 28 (AP)—The automobile is causing cutting of more city trees than it ought to, says Robert D. Kohler, president of the American Institute of Architects.

"Major street plans," he says, "are everywhere causing the cutting down of great avenues of trees for street widening and extensions. In many cases the new cuttings are needless and avoidable."

RADIO SCHOOL EXHIBITS RELICS OF DE FOREST

CHICAGO, Aug. 28 (AP)—Radio relics used by Dr. Lee De Forest, inventor when he was an instructor at Armour Institute, were found in the school's museum when historic scientific apparatus was transferred to the Museum of Science and Industry.

They included two large wooden balls coated with tinfil. These were De Forest's antennae. There also was one of the first vacuum tubes perfected by De Forest.

CUB SEEMS BETTER HORSES LEXINGTON, Ky., (AP)—Percheron horse club of 40 members has been formed in Fayette county to promote the breeding of better draft horses.

Speedy Planes Enter Contest For Thompson Cup and \$10,000

BULLET-LIKE SHIPS RECEIVE TESTS FOR LABOR DAY CLASSIC

Captain Frank Hawks Plans to Fly Monoplane Used on Transcontinental Trips

ROARING MOTORS SOUND CLOSING OF AIR CONTEST

Trophy Holds Same Value to Land Craft as Speed to Sea Planes

Captain Arthur H. Page, Jr. (left), will pilot a specially designed monoplane (above) in the \$10,000 race for the Thompson trophy Labor day in Chicago. Captain Frank Hawks (lower right) will fly the low-wing ship (below) that has set new transcontinental speed records.

By OSCAR LEHMAN (Associated Press Aviation Editor)

CHICAGO, Aug. 28.—Planes with demon-like speed will streak through the skies here Labor day in a 100-mile race to put the nation again on the trail of a major aircraft record.

Their roars will sound the closing of the 1930 national air races, yet they will signal the opening of an American campaign to reclaim the world's speed record.

A free-for-all contest for \$10,000 and the Thompson trophy is designed to be for land planes what the Schneider cup race is for seaplanes. It takes the place of the Pulitzer classic abandoned five years ago.

Babson Declares Investors and Business Men Should Prepare to Take Advantage of Opportunities

Bay State Statistician Cites Factors to Indicate Probable Recovery of Most Industries in Near Future

By ROGER W. BABSON

BABSON PARK, Mass., Aug. 28.—The "uses of adversity" have never been fully appreciated. Instead of being a time to go and doing, investment opportunities, business opportunities, personal progress opportunities such as appear only once in about 10 years, will be uncovered before long. The worst of the farm situation is over, even if the improvement is to be only gradual. Wholesale prices of a number of important commodities have been pushed down to very low levels, and should gradually improve.

Investments as contrasted with unpopularity of highly speculative stocks.

A balanced investment list absolutely requires a fair proportion of good bonds, and this is the time to get them. Later another important part of the investment portfolio, namely, a broad list of good stocks can be accumulated as opportunities appear. Also a few carefully-selected stocks for growth over a period of years forms a third part of the list, and these can be picked up right along without waiting for the time when general stock purchases shall be in order.

Management Most Important.

Success of a company and growth in value of its securities depends more on management than any other one thing. Some interesting lessons in management can be learned from the earnings reports for the first six months of 1930. This year has been one of quiet business and heavy earnings in nearly all industries, and yet certain companies have managed their affairs that they are able to show higher earnings than last year out of 450 companies, 85 reported larger net income in the first half of 1930 than in the same period a year ago. In some cases, of course, the particular industry in which they were engaged has held up better than the average, as for instance electric light and power, oil, amusements, foods, and soft drinks (and other favorable reports come from companies in such lines).

CHANGING DIET HABITS CUT VITAMIN D SUPPLY

Dr. Morgan spent a year in study of diet of undernourished children between the ages of 11 and 13 years. This change in food habits, Dr. Morgan says, cut the American people has in general been looked on as physiologically not injurious, because the supposed increase in the use of milk, fruit and vegetables was thought to overbalance any nutritive loss involved in the partiality of sugar for cereals, and substitution of wheat products.

Dr. Morgan spent a year in study of diet of undernourished children between the ages of 11 and 13 years. This change in food habits, Dr. Morgan says, cut the American people has in general been looked on as physiologically not injurious, because the supposed increase in the use of milk, fruit and vegetables was thought to overbalance any nutritive loss involved in the partiality of sugar for cereals, and substitution of wheat products.

SIGNAL FLASHES WHEN LIGHTNING HITS LINE

SOHNENSTADT, N. Y., Aug. 28.—The latest man-made curb for lightning destruction is a little white signal.

It jumps into view on high tension line towers whenever lightning strikes, or when for other reasons the electrical power cuts out of hand and flashes onto insulators.

The white target is a sign for a lineman to climb the tower and look for lightning damage. It is operated by instruments capable of measuring in split milliseconds of a second the extra surge of power that comes over a line when lightning strikes.

ELECTRIC CHARGES OF EARTH RISE EVENINGS

WASHINGTON, Aug. 28 (AP)—A recently observed electrical phenomenon that sweeps the entire world at the same instant between 8 and 9 P. M. Washington time, is described to the American Geophysical Union by Dr. C. H. Glah of the Carnegie Institution.

It is a charge connected with the earth's electrical charge. This charge, says Dr. Glah, tends to acquire a high value during the hours named. The cause is not definitely known, but is ascribed to some still "elusive, unknown" factor that maintains the earth charge.

Existence of his charge is shown by study of atmospheric electricity. The same studies show that the charge fluctuates and tends to give some indication of the universal time schedule of these changes.

Formation of the 900 Nevada 4-H members into a state organization patterned on the plan of the Nevada state farm bureau has been completed.

Preparations Complete

Bullet-like races here were given for the event and the "man-of-war" sports may probably will be at least 250 miles an hour. Captain Frank Hawks will fly the "man-of-war" monoplane which carried him twice across the country to new transcontinental records.

Danny Fowle, Morris, Illinois, will fly a mile of a ship, low-wing, all-metal monoplane which weighs 1500 pounds but believed capable of more than 200 miles an hour.

Low-wing ship has flown to five world speed records this year, and thirty third, pilot and designer, will fly special record.

St. Louis will be represented by Jimmy Hally, with a mystery plane, and Ben O. Howard, who has developed a slim low-wing monoplane.

Don't Forget Bonds

Everything points to an improving bond market. Already bond prices have fallen only 5 to 10 per cent. This means that sooner or later factories must start in again to supply goods to meet necessary requirements. If a stock market has had to contend with a long line of bad news. Unfavorable earnings reports, drought, falling exports, coupled with general pessimism and bear raids have pushed some stock prices down, where they begin to look good to bond-tide investors. Stocks are apparently "undervalued" while there are many weak spots still, both in business and in stocks, the fundamentals are shining up for a consideration of selected purchase.

Essentials of Success

Men may become poor because of their mistakes, but not the man who knows how to profit by them. Those who make mistakes in business ought to profit from them. First they should avoid either the extreme of optimism or pessimism. Keep a cool head and watch fundamentals.

At this time a successful investment policy calls for (1) substantial holdings of cash or equivalents to take advantage of stock buying opportunities when they shall appear (2) a good list of strong bonds (3) a thoroughly liquid position with no over-extended bank loans (4) careful study of industries and companies for purchase of stocks when the time is ripe (5) determination to avoid questionable speculation no matter how enticing they may appear (6) resolve not to be stampeded into either buying or selling against one's own better judgment based on facts rather than on sentiment and hopes.

VETERINARIANS LABOR IN SPIRIT OF TRACTORS

MONTEGOMERY, Ala., Aug. 28 (AP)—Tractors have replaced horses and mules on the farm, but the veterinarian has more work to do than ever.

Forty years ago, says Dr. C. A. Cary, head of the veterinary school at Alabama Polytechnic Institute, treatment of sick animals was the main work of veterinarians.

New demands have been made, however, and they are busy now predicating ticks, bovine tuberculosis, hog cholera, anthrax, blackleg and septicemia.

SEE OUR WINDOW

Straus Clothing Co.

North Carolina farms have increased at the rate of 800 a year since 1920, new census figures show.

Page Jr., Enters

The army and navy declined to enter the race but Captain Arthur H. Page, Jr., marine aviator who set a race record to win the Curtiss marine trophy in June, has received approval to enter a revamped military fighter.

His ship is a Curtiss Hawk with one set of wings clipped to make it into a monoplane, a 12-cylinder water-cooled motor with radiators in the wings, and special streamlining. The trophy for the race and \$5000 in prize money were donated by Charles E. Thompson, Cleveland, and an additional \$5000 was posted by the Chicago air race corporation.

No since Alfred V. Williams, former navy ace, flew 200 miles an hour in 1923 has the United States held a major airplane speed record.

The present record of 228.48 miles an hour is held by France. "It is not expected this mark will be equaled in the first running of the Thompson race, yet aircraft builders believe the list furnish incentive to set the record within American reach in another year.

How to Prepare

Now is the time to set one's affairs in shape to meet any possibilities that will come. Cash and short-term bonds or notes that can readily be converted into cash are accumulated now. Don't get over-extended on any loans which you may have on your securities. Keep a strong liquid position. Remember that the man with plenty of cash on hand can win the line for purchase comes in the best possible position. Money talks, even if it does often say "good bye" to the man who has no money. Get a clear view of your current business in relation to former stages of this business cycle and the cycles of the best.

Study industries, learning what

Business by the Babson report now registers 15 per cent below normal compared with 7 per cent above normal at this time a year ago. (Copyright, 1930, Publishers' Financial Bureau)

RADIO OFFER NEGLECTED

OTTAWA (AP)—The Canadian production of radio sets, parts and batteries, during 1929 reached a value of \$20,906,137, or 65 per cent above the total of \$12,768,824 in 1928.

Imports of American goods to Brazil increased 8 per cent in 1929, in contrast to declines of 15 per cent in German imports and 3 per cent in British in that period.

PURE PARAFFINE BASE

VELTEX MOTOR OIL

The extra long lasting viscosity of Vellex Paraffine Base motor oil makes it the safest and most economical motor lubrication you can use. There is a weight and grade of Vellex Oil for every type of automobile, truck or tractor motor. It will pay you to use Vellex Oil constantly.

YOU NEED THIS POWER

VELTEX GASOLINE

for All Your Mountain Trips

Your motoring trip can be made doubly thrilling if your motor is endowed with the EXTRA POWER and life VELTEX GASOLINE alone can give it.

VELTEX GASOLINE

The outstanding popularity VELTEX GASOLINE has won for itself is due largely to the tremendous hill climbing power it develops in any motor in which it is used.

It follows, naturally, that this EXTRA power gives you all the other requisites of a perfect motor fuel—quick start—snappy getaway—greater speed and several extra miles per gallon.

VELTCHER OIL COMPANY

Oldest Independent Marketer in the Northwest

Let's Have a SHOWDOWN on Tires! . . .

Do you know that many big tire makers are offering and selling "second-line" tires to the public!

And do you know that this is being done to set up favorable price comparisons against "FIRST-LINE" Riverides . . . all because Riverides save you about 27% in price!

Think it over!

Perhaps you have been beguiled into believing "second-line" tires of other makes are the equal of Riverides . . . in quality, workmanship, strength and performance! Simply because the prices are about the same!

Anyway . . . we believe you are entitled to the TRUTH . . . that RIVERSIDES are "FIRST-LINE" tires, backed by our Unlimited Guarantee . . . that they are ONLY to be compared to "first-line" tires of other makes . . . and that any other comparison is for the sake of making a favorable price impression on some hapless tire purchaser.

And listen to this . . .

You may save a lot of after-grief and about 27% of your good money . . . if you'll but refer to the tables printed below when you buy your next tire . . .

So that you will know the names.

Best Known "First-Line" Tires	Best Known "Second-Line" Tires
Goodyear—All Weather Goodrich—Silvertown Firestone—Gum Dipped U. S. Royal Ward's—RIVERSIDE	Goodyear—Rainier Goodrich—Cavalier Firestone—Oldfield and Anchor U. S. Rubber Co.'s Peerless Ward's—TRAILBLAZER

This is a Partial List: there are a number of other makes who supply second line tires in every grade of tires.

Come in . . . let us show you the difference . . . and in your visit to our stores you will not be urged to buy.

NOTE: If you want a "second-line" tire . . . buy Trailblazer . . . sold only by Montgomery Ward & Co. also sold at very much less than other "second-line" tires. They're as good as or better than other "second-line" tires . . . full of honest service.

P. S. You may buy Riverides . . . or Trailblazers on Easy Payments . . . in 12 months. We invite you to come in and talk over with us your needs. Don't forget . . . FREE MOUNTING SERVICE on all Ward Tires!

Pittsburgh	23	41

(By The Associated Press) BOSTON, Aug. 28.—Lisenbee held the world champion Athletics to six hits today and the Red Sox won the first game of the series, 2 to 1.

All the scoring was done in the seventh inning. Philadelphia went into a short-lived lead in the first half when Regan muffed Simmons' grounder and Fox tripped to left field. In the last half of the seventh, however, the Red Sox scored twice on Webb's single, Miller's double, and an error as first on a throw by...

Missouri Woman Plays Fine Golf

Mrs. O. S. Hill, Strokes Sub-Par Game to Win in Quarter-Final Contest

By J. H. ANDERSON (Associated Press Sports Writer) KANSAS CITY, Aug. 28.—Sub-Par golf was recorded again today by Mrs. O. S. Hill, Kansas City, as she won her quarter-finals match in defense of her women's western golf title. The breaks of the game helped the champion at crucial moments in obtaining the Western Open title-holder, Mrs. Lee Mida, Chicago, 2 and 1, in a gripping match.

In the semi-finals tomorrow, Mrs. Hill will have as opponent Miss Dorothy Pace, Madison, Wisconsin, who eliminated another golf luminary, Miss Virginia Van Wier, Chicago, 2 and 1, in a gripping match.

Lott and Doeg Win In Doubles Match

BROOKLINE, Aug. 28.—History reported itself here today when hand-driving George Lott and Johnny Doeg, defending champions in the national doubles tennis tourney, gained the final round again by defeating those who old veterans, "Big Bill" Tilden and Francis T. Hunter, in a sparkling five-set match, 3-6, 6-2, 9-11, 6-2.

DEFENBACH PRAISES EXPEDITION OF 1805

Idaho Treasurer Pays Tribute to Pioneer Spirit in Dedicating Monument

BALCON, Aug. 20 (AP)—Raising of the American flag on Lemhi pass by the Lewis and Clark expedition in 1805 was declared by Byron Defenbach, state treasurer, in the course of a dedicational address for a monument honoring the explorers. It was "one of the most dramatic and important events in the history, not only of Idaho, but of the Pacific Northwest."

The monument, of granite with a bronze plaque, was raised by the Sons of Idaho society and citizens of Lemhi county at Beverton Mills, an old stage coach stopping place, generally accepted as the site of the long camp during which the Lewis and Clark expedition traded and sprang with the Indians, with Baccawa, the Indian woman, as principal negotiator.

Defenbach paid tribute to the pioneer spirit that characterized both the explorers and those who followed them to settle the country.

"This monument," he said, "pays a deserved honor to the memory of heroic people. It commemorates a great event in the history of our country, and has but one test. It tends to the inculcation and encouragement of patriotism."

Praises Pioneers

"And now," said the speaker, "I dedicate this monument not only to the actors in this great drama of discovery and exploration, but to all the pioneers of the Lolo and the Oregon trails, to all those hardy and intrepid people who came out here to make homes in the wilderness, who toiled and suffered, and often died in the cause of the onward movement of humanity and civilization and religion."

He dedicated the abut "to the mothers of Idaho. To them our civilization owes an enormous debt; to the Children of Idaho for I want you to remember the people who made this country a fit place to live in. I want you to remember that to these men and their kind you owe the fact that you are the kings of the land."

The real name of The Lolo is "Gravenhage."

Checking Up Alaskan Railroad

TOMBS AID IN KEEPING INSECTS FROM GARDEN

RALEIGH, N. C., Aug. 20 (AP)—If you want your garden free of insects, give the tomb a big hand, says Dr. E. P. Metcalf, head of the department of entomology at North Carolina State college.

Insects make up about 100 per cent of the tomb's food and its appetite is almost beyond belief. Dr. Metcalf says he fed 17 May beetles in a tomb in his yard in five nights. If each of these 88 pairs of beetles had lived and laid 100 eggs, they would have developed 8800 white grubs in the Metcalf lawn during the summer.

Dr. Metcalf suggests that tombs be readily increased by building permanent pools with water.

OFFICERS CHASE DEER OFF CALIFORNIA ROAD

WESTWOOD, Cal., Aug. 20 (AP)—Speed cops for "jay-walking" deer.

The "rest-footed" animals have become such a nuisance to motorists that authorities plan to place special officers on the job to chase them off the highway.

The casualties have been all deer—12 being killed by motorists. Signs have been placed along all the roads in this vicinity warning drivers.

plants in which the amphibians can breed. They're finicky, about shade, too, but loose boards, especially under the shrubbery where it is nice and cool in midday, will suit them nicely.

Two veteran organizations join hands...

BROWNING AUTOMOBILE CO.

SALT LAKE CITY... OGDEN... TWIN FALLS... IDAHO FALLS

STUDEBAKER

BUILDER OF CHAMPIONS*

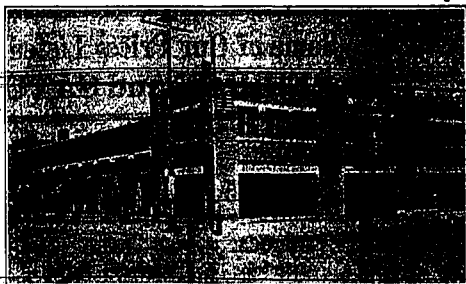

It is fitting that these two time-honored organizations should form an association, whereby the Browning Company will sell and service Studebaker automobiles in Salt Lake City, Ogden, Twin Falls and Idaho Falls.

Since 1852, Studebaker has played a major part in the transportation history of the country. One of its first trading posts was established in Salt Lake City, then a mecca for thousands of sturdy pioneers.

Correspondingly, the Browning Automobile Company enjoys the ripened experience and stability of a pioneer organization. It was established in 1902—when automobiles were looked upon as "freak contraptions," playthings of the rich. Like the concern whose products it will now sell, the Browning Company has shown constant progress, ever alert to changing conditions, ever cognizant that permanent success depends on giving the customer honest value followed by conscientious service.

Free Wheeling, Studebaker's epochal contribution to motoring, had not a little influence in attracting the Browning organization to the Studebaker banner. Mr. A. Browning and his associates recognize in Studebaker's Free Wheeling, with positive gear control, the greatest engineering advancement since the self-starter.

If you have not experienced the thrill and thrills of Free Wheeling, you are cordially invited by the Browning Automobile Company to take a demonstration. You drive just as you do in a conventional car but you get something immeasurably finer than conventional performance—and at a pronounced saving in gas, oil, and wear and tear!

Twin Falls Showroom. Under the management of M. J. Browning, Twin Falls motoring may inspect Studebaker's champion motor cars in this modern establishment and receive champion service after their purchase.

DUKE UNIVERSITY'S NEW HOME OPENS

Largest Construction Program for Colleges Ever Begun Nears Completion

DURHAM, N. C., Aug. 23 (AP)—Duke university, fifth giant of southern education, has today "home" this fall on its new \$100,000 campus clustered with 14 groups of buildings constructed at a cost of more than \$12,000,000.

DR. WILLIAM PRESTON FLEMING

Opening of the new plant comes less than six years after the James B. Duke tobacco and water power multi-millionaire, named the famous indenture at his residence in Somerville, New Jersey, creating a trust of \$10,000,000 in which the university—formerly Trinity college—was named.

The Duke construction program is regarded as the largest ever undertaken by a university at one time. In five years about \$20,000,000 has been spent for land and buildings.

The buildings, of stone taken from the university's private quarries 10 miles from the campus, are of Gothic design and constructed in groups, with a \$2,000,000 chapel dominating.

A 400-bed general hospital, largest in the Carolinas, has a construction cost of \$4,000,000.

The enrollment now is more than 5000. Sixty per cent of the students are from outside North Carolina.

The university, says Dr. William Preston Fleming, president for 20 years, will pursue a policy of selective admission.

HATCHING OF MALLARD DUCKS PROVES SUCCESS

RALEIGH, N. C., Aug. 23 (AP)—Successful rearing of wild ducks in captivity on a large scale has been accomplished by North Carolina biologists.

Joseph P. Knapp, Currituck county, reported to the department of conservation and development that he hatched 2350 mallard ducks this season. He will keep about 300 of the birds for propagation next year and release the others on game preserves.

Neighbors of Mr. Knapp will join him next year in the enterprise. One man plans to install a 6100-egg incubator, while another has a large plant with a capacity of 2500 eggs.

Postal clerks who handle airmail at San Antonio, Texas, are participating in "airmail" programs in which they take plane rides and study plane construction.

Twenty-three Texas teachers are making a 4000 mile tour of the North Central states studying industries.

Increased automobile traffic in Denmark has forced four large motor ferries to operate 10 hours daily (industry each day).

RIVETS MAKE STEEL FURNACE GAS-TIGHT

Lennox Torrid-Zone Has Revolutionized Warm Air Heating in Thousands of Homes

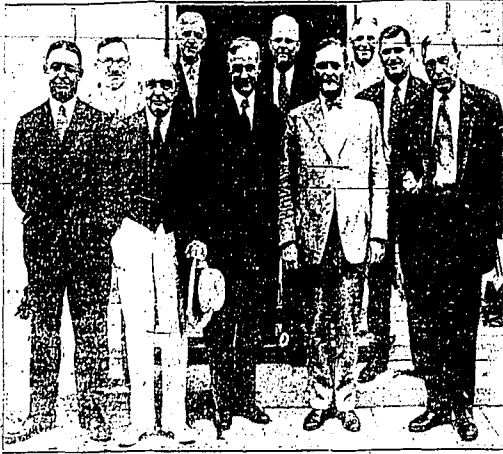

The manufacturers of this unusual warm air furnace have taken a lesson from the furnace Torrid-Zone made of boiler steel and rivets. It is hot-riveted and cold-colded for safety and permanence. No gas, dust or smoke can escape into the rooms of your home.

But safety and cleanliness are not the only improvements the Torrid-Zone brings. It furnishes the vital humidity lacking in so many homes during the heating season. The Torrid-Zone humidifier has twice the capacity of an ordinary water pan right inside the casing, and is over the firing door to prevent evaporation. It eliminates in your home that kindred atmosphere which causes sore throats and colds and makes furniture crack and loosen at the joints.

Burn your favorite fuel in the Lennox Torrid-Zone—hard or soft coal, coke, lignite, wood, gas or oil—and save money. Plans and estimates quickly furnished for all types of buildings. Factory engineering service for special problems. Made by the Lennox Torrid-Zone Company, Syracuse, N. Y.—Marshfield, Iowa—Toronto, Canada.

WORD "APPLE-JACK" DATES BACK TO 1840

CHICAGO, Aug. 23 (AP)—The word "apple-jack" will pass its centennial anniversary before many years.

It first appeared in the American language in 1810, according to the new dictionary of the American language being compiled at the University of Chicago by Sir William Craigie, who edited the Oxford dictionary.

"The phrase 'to put an apple on one's back' has been used as early as 1832. 'Apple-jack' came into use in the early 1820's, and 'apple' was a common poker term in 1853.

"Anti-saloon" was introduced in temperance pamphlets in 1838, and 'backache' appeared as early as 1716.

The new dictionary, now half finished, will be completed in four years.

Temperatures at 30 or 20 degrees below zero have been recorded on Mt. Whitney and 139 above in Death Valley 73 miles away.

MEN DISCOVER FLUME ONCE USED BY INDIANS

BAKERSFIELD, Cal., Aug. 23 (AP)—California land that is now desert once was irrigated through adobe flumes of Indians.

Traces of such a flume have been found near the Round Mountain oil fields, says Paul Seal, directing explorations there.

Geologists have stated the district where the flume was found once abounded in plant life.

SALINITY OF WATERS IN CHESAPEAKE BAY VARIES

WASHINGTON, Aug. 23 (AP)—Chesapeake Bay is saltier on the east side than on the west side at the same latitude.

The United States geological survey, which has completed a study of the salinity of the bay, says salinization may be attributed partly to the rotation of the earth.

It is also explained that the principal rivers enter the bay on the west.

REFUELED PLANE MARKS GO ON OFFICIAL RECORD

PARIS, Aug. 23 (AP)—Records made by airplanes refueled in flight, a procedure initiated in the United States, are now recognized by the International Aeronautic Federation.

The federation has voted to consider such records, beginning July 1.

A year later the field will be open for straight-line refueled flights. Maximum records will be made for method, or not planes land during such record flights.

For the present there will be two "refueling" records, duration and distance in a circuit.

An egg with a felled-defiled likeness of a sunflower imprinted on its shell was laid by a hen at Liberty Hill, Texas.

Texas prisons hold more prohibition law violators than any other, 625 out of a total of 8035 being dry law offenders.

ASBESTOS POUCHES PROTECT AIR MAIL

New Fireproof Bags, Developed by Postoffice Officials, Enter Service Soon

WASHINGTON, Aug. 23 (AP)—New asbestos pouches are to guard air mail against hazards of fire.

The fireproof bags, developed by the postoffice department after several years of experiments, will be put into service soon on the night run between New York and Chicago.

Each pouch is formed of asbestos, quilted with steel wire to prevent disintegration in fire, and lined on both sides with canvas.

Air pockets, formed through the quilting arrangement, prevent incense heat from reaching contents of a pouch. A triple closing device prevents flames penetrating the neck of the bag.

The new bags, weighing nearly 15 pounds, are slightly larger than the pouches in service which weigh less than two and one-half pounds.

"Development of the pouches has been shared by the postoffice and the mail losses by fire," said W. Irving Glover, second assistant postmaster general in charge of air mail service, "but rather to afford every safeguard against any destruction whatever of mail entrusted to the pilot."

In the fiscal year ending June 30, 1,715,741 pounds of mail were flown, while 603 pounds were lost through fire.

The End of The Baby Tangle

THE CHICAGO BABY TANGLE was straightened out when Mrs. William Watkins (left) handed over the baby she received from a Chicago hospital to Mrs. Charles Bamberger. She then received the baby held by Dr. Arnold Kegel (center). The latter child had been baptized, Bamberger, but scientists decided it was rightfully Mrs. Watkins'. (AP) Photo.

COOPERATIVE MARKETING OF MILK OFFERS REWARD

QUINCY, Ill., Aug. 23 (AP)—Quincy's cooperative milk producers' association sells milk to consumers at 10 cents a quart and pays its members better prices than they get from independent dealers.

Last year 35 producers near Quincy sold all their milk to the cooperative and the total business was about \$250,000. These 35 farmers shared in the surplus of a \$1000 surplus at the end of the year and 92 of them, as stockholders, received the regular 8 per cent dividend.

Producers were paid from \$2.40 to \$2.70 per 100 pounds for milk testing 2.8 per cent butterfat, with a sliding scale for milk of higher test. This did not include the surplus split-up of the dividend.

NOW Is the Time To Make Your Kitchen An All-Electric Kitchen

Cooking • Water Heating • Refrigeration

Can Be Done Better, More Conveniently and More Economically with Electricity Than By Any Other Method

EVERY WOMAN ought to get all the help she possibly can from that faithful servant, electricity. And mostly that's a matter of making use of up-to-date electrical appliances.

Electricity and electrical appliances are fast taking over burden after burden in the home. Women are turning to the All-Electric Kitchen as the first and most important step in making their homes as modern as the age in which we live.

The All-Electric Kitchen makes the business of housekeeping simpler, easier and more convenient. It provides a clean, cool place in which to work, and it saves women countless hours of time.

Visit any Idaho Power store and see the latest models in All-Electric Kitchen appliances. Let us explain their advantages and tell you how simple a matter it is to make yours an All-Electric Kitchen.

Film Companies Use Whole World As Studio For "Talkies"

NEW "BEAM MIKE" BRINGS REALISTIC SOUND RECORDING

Picture Concerns Venture to Distant Places to Obtain Authentic Backgrounds

SEVERAL IDAHO SCENES APPEAR IN PHOTOPLAYS

Special Instrument Registers Sounds in Front But Excludes Unwanted Noise

By HUBBARD KEAY (Associated Press Staff Writer)

OLLYWOOD, Cal., Aug. 28.—If a motor truck al-

arms as big as a house stops in your neighborhood, don't assume it's moving day for someone.

The truck may be a sound unit from a talkie studio looking for a location.

Movies are made in increasing numbers because it has been discovered that sound records virtually as well outdoors as in.

Consequently, film companies are venturing to distant places to obtain new and authentic backgrounds.

In some of the first talkies there were outdoor shots, but they were taken silently, with the sound "doubled" in later.

Realism is so necessary that portable sound recording equipment had to be perfected.

"Beam" microphones is used now for outdoor recording by some companies. Its advantage over the regular "talkie" is that it picks up only those sounds made directly in front of it.

Noises to the sides and rear are not picked up. The first long talkie truck was to British East Africa to film "Trader Horn".

A company of 25 was away from the studio almost a year. Another company is in Morocco making "Gouzas".

Scenes for "Song O' My Heart" were taken in Ireland. All of "Hell Harbor" including indoor sequences was made near Tampa, Florida.

Towns in Utah, Idaho, Montana, South Dakota, Minnesota, Wisconsin, Illinois and Iowa save a talkie in the making when scenes for "The Flooded Plain," a railroad story, were taken.

Ketchikan, Alaska, was headquarters for "The Silver Horde" company. Nearly all of "The Big Trail" was filmed on location. Players passed through 10 states. Scenes were taken in Arizona, California, Oregon, Idaho, Wyoming, Colorado, Montana and Utah.

"The Sea Bat" was taken in Hawaii.

"How I do appreciate our Iron Fireman"

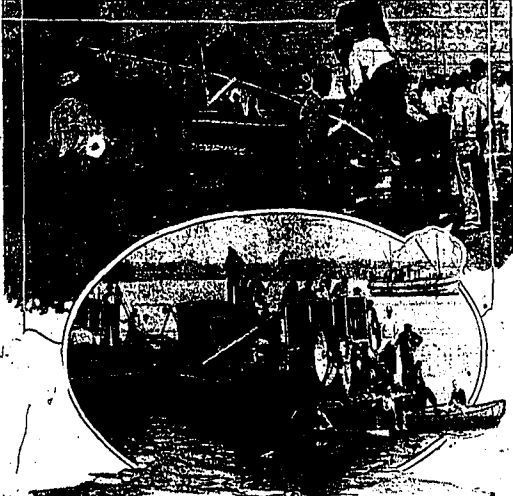

Mereans report an abundance of sympathetic heat. That is why Iron Fireman means so much to them. No need to let the house get cold to save fuel, either, for Iron Fireman is a real fireman. He can afford to be comfortable. Why not give your family the Iron Fireman—the luxury that pays in every way?

For homes and large commercial boilers... sold on convenient terms. Get the Iron Fireman ad in "Attention Business" for August 30.

Detweiler Coal Co. Your Heat Merchant

IRON FIREMAN

The machine that made coal an automatic fuel

Talkies may be made on land or sea—outdoors—with equal ease. The bamboo pole (above) is the "boom" that holds the "mike." The drum-like affair at the front end of the lead boat (below) is the new beam microphone.

Alaska, Mexico, hundreds of miles from a studio. Much of "Billie, the Kid" was taken in New Mexico and Utah. Harold Lloyd took a great deal of "Fast Friends" on a liner to Honolulu and back.

This talkie business is becoming an outdoor sport.

PLANTING LESS SEED HELPS COTTON YIELD

HOUSTON, Texas, Aug. 28 (AP)—By planting less cotton August 28, Rio Grande valley farmer, says he gets a larger yield.

Western plants the rows five and a half to six feet apart, where the average farmer plants them three feet apart. He gets in return from one to two and one-fourth bales an acre. Planters ordinarily expect from one-fourth to one-half bale an acre.

American radio exports to France tripled in 1929. The total was \$201,065.

It costs more to live in Marselle than any place in France. Unemployment was practically nonexistent.

Oil was first discovered in the United States in Titusville, Pennsylvania, in August, 1859.

WILDS OF ALASKA MENACE AVIATORS

Forced Landing in Wilderness Means Possibility of Week of "Mushing"

FAIRBANKS, Alaska, Aug. 28 (AP)—It is not the actual that worries an aviator in interior and northern Alaska.

It is the hazards that beset him if anything goes wrong. Builders flying without the aid of ordinary aerial navigation instruments, a pilot must be able literally to "live off the country."

He must know how to "mush," how to keep across country he has seen only from the air, and how to repair his plane in a wilderness of the land snow.

A crack-up after an hour's flight, for instance, would leave a pilot stranded a week's journey by trail from the field where he started—perhaps days from the nearest village.

Emergency Methods Aviators cite an achievement of A. A. Bennett, a pioneer pilot in Alaska, as typical of emergencies they may be forced to meet.

Bennett reconstructed a shattered wing with burlap and willows while the mercury recorded 40 below.

He had cracked the wing in a forced landing in country he did not know. The nearest Indian village was a week or so away by foot.

His supplies were sufficient for himself and passengers for only three days, so they set about revamping the wing.

Burlap and cloth were sewed together and soaked in honey and molasses—parts of the plane's cargo.

The fabric was dipped into boiling water (derived from the snow) and stretched across willow branches. It froze and the new wing was made. With this frozen makeshift Bennett flew to Fairbanks.

For World Court

KENTUCKIANS PLAN TO HONOR LADY NICOTINE

LEXINGTON, Ky., Aug. 27 (AP)—Lady Nicotine will be queen for a day in Lexington, December 1.

Opening of the tobacco market here will be observed with an all-day celebration. Business houses, clubs and patriotic organizations and institutions will participate in a parade. Free entertainment and a barbecue are on the program.

A tobacco show will be conducted as part of the first day's sales at the warehouse.

Approximately 70,000,000 pounds of tobacco were sold for \$18,000,000 by Lexington warehouses last year.

Alaska has four national and 13 territorial banks.

OHIO'S FARMERS RAISE BLUE GRASS FOR SEED

LONDON, Ohio, Aug. 28 (AP)—Kentucky's almost exclusive claim on large quantities of the valuable and other states, including Missouri, Iowa and Nebraska, have "cut in" on an industry that once was Kentucky's own.

Increasing necessity for mid-West farmers to turn every item of farm production into cash is believed responsible for the practice of harvesting blue grass seed.

Yields of Kentucky are 10 bushels an acre, while Ohio fields produce from three to 16 bushels.

Four master workmen are weaving a Gobelin tapestry for Clarence H. Grise, Philadelphia.

Argentina has nearly 60 per cent of the automobiles in South America and cellar of the United States.

NEW SCHOOL YEAR OPENING AT HAND THROUGHOUT AREA

County Superintendent's Re- cords Show Beginning of Terms Next Week in 12 Districts; Holiday Factor

A new school year will open in schools of Buhl, Poca, Marsa and Murtaugh and seven rural school districts of Twin Falls county next Monday, and in schools of Twin Falls and 14 rural school districts on Monday, September 8, according to records in the office of the county superintendent of public instruction.

On account of Labor day, a holiday, falling on Monday, first sessions will not actually begin in a number of schools until Tuesday, September 2, and in schools of Twin Falls and 14 rural school districts on Monday, September 8, according to records in the office of the county superintendent of public instruction.

School bells, or the modern substitute for that, will call back to class rooms at the beginning of the school terms. Hundreds of children, including boys and girls, and marking the termination of the summer vacation period, and resumption of school work.

Schools scheduled to open next Monday are those of Buhl, Poca, Marsa and Murtaugh independent districts, and Miller, Fairview, River, Springdale, Elmwood and Greenwood rural districts.

Opening of the school year has been deferred in the Twin Falls independent district, and Pleasant View, Mountain View, Fair Hill, Springdale, Star Lane, Shamrock, Rosewood, Derzer, Nickel, Amersland, Northview, Valley, Sunnyside, Melon Valley, rural districts.

Tuesday, September 2, is the opening day announced for Lucerne rural school district.

COUNTY ISSUES TAX NOTES FOR \$40,000

Transaction Handled Through Local Bank Results in Reduction of Interest

Instead of issuing deficiency warrants that bear 7 per cent interest in order to meet Twin Falls county's operating expenses during the four months, the county committee yesterday authorized their chairman, M. O. Waco, Twin Falls, to negotiate a \$40,000 loan to be secured by the county's tax anticipation notes bearing 4 1/2 per cent interest, thereby effecting a considerable saving in interest charges to the county.

The loan is to be obtained from the Twin Falls Bank and Trust company. It was authorized by the tax anticipation notes are to be payable next January 19, following distribution of taxes payable in December.

DISPUTE ARISES IN DIVISION OF ESTATE

Differences between Mrs. Johanna Theresa Almqvist, Twin Falls, and her former attorney, J. W. Taylor, over distribution of the estate of Edward Polzy, veteran railroad worker whose death occurred here last January, were disclosed at a hearing before Judge C. A. Bailey in probate court here yesterday.

Willie Willis By ROBERT QUILLEN

"I didn't mean to be impolite before company. I just asked Papa how come he was cast" with his coat on."

W. L. Dunn represented Mrs. Almqvist at yesterday's hearing.

TEST TOKYO TO BERLIN PHONE TO KYO (AP)—Experiments looking toward establishment of radio telephone service between Tokyo and Berlin, held over a period of five days, were a success, according to the Japanese ministry of communications. The tests were made daily between 7 and 8 o'clock in the evening.

TRUSTEES ACCEPT NEW GYMNASIUM AND AUDITORIUM

Builder Turns Over \$20,000 Structure to District With Guarantee For Year Against Any Defects

Twin Falls high school's \$20,000 gymnasium-auditorium has been completed, and was accepted with the builder's guarantee for one year against defects by Twin Falls school trustees at a special meeting last evening.

The structure is believed to be one of the largest school gymnasiums in the state, and will view to fit use as an auditorium there has been installed a stage, 40 by 20 feet in dimensions, elevated and lowered to the level of the floor by means of a hydraulic lift. Bleachers for the accommodation of audiences when the room is used as an auditorium and for spectators at athletic contests, are to be installed not later than September 1. It was announced.

Florida has an area of 1,187,293 acres of land that is neglected from forest fire.

Investigators Find "Five-Car" Family

Twin Falls has a number of "five-car" families, and at least one "five-car" family it was ascertained through police investigation yesterday when neighbors of a family living on Second Avenue north complained that members of this family had converted their yard into an automobile repair shop.

ANNOUNCEMENTS

The Leud-Hand club will hold a picnic at the Fred Ellis home, Jerome, on Sunday, August 31.

DEATH SUMMONS TWIN FALLS WOMAN

Mrs. Charles W. Ronk Sucs- cumbs Suddenly Following Long Period of Ill Health

Mrs. Fern B. Ronk, wife of the late Mr. Ronk, dean of women at Bridgewater College, Bridgewater, Virginia, for three years, and resident of Twin Falls for 10 years, died at 4:30 P. M. Thursday at the county general hospital here, following ill health of three years' duration and an operation performed at six hours before she expired. Efforts put forth by three physicians, and a blood transfusion proved futile to overcome the effect of long illness.

Three years ago Mrs. Ronk underwent a major operation, and since then had not been in good health. On August 19 last, accompanied by Mr. Ronk and her two younger sons, Herbert and Howard, she went to California to visit relatives. While there she suffered a severe attack of illness. As soon as she was able she returned to Twin Falls, arriving here on Monday, just three days before her death.

BOY'S LEG BROKEN IN COLLISION WITH CAR

Cleve Ferguson, 11-year-old son of Walter H. Ferguson, had both bones of one leg broken in collision with a car driven by Ed Vance on Shoshone street Wednesday evening. Cleve was one of three small boys said to have been at play on the street, when Vance approached in his car. Mr. Vance endeavored unsuccessfully to avoid striking the boys, and Cleve was struck by the running board of his car. Mr. Vance took the injured boy to his home, where examination by a physician disclosed fracture of the leg.

When only 13 years old, Mrs. Ronk became a member of the church of the Brethren. Since then she had been an active worker in the church.
