300 PERSONS HEAR MEISENZAHL CASE IN MOUNTAIN HOME

Oleens Ferry Physician Testifies Regarding Examination of 'Marie West's' Body Shortly After Death

(By The Associated Press)

MOUNTAIN HOME, Idaho, Sept. 3—Testimony of a physician was introduced into the杀人案 hearing of Mrs. H. B. Meisenzahl today to show that this 18-year-old school girl for whose murder her parents—Oleens Ferry—had sought habeas corpus had died only 12 to 14 hours before she disappeared. This would have set the time of homicide at about 10 o'clock on September 18, last, several hours after her disappearance, for her body was taken from the river on the morning of September 19, the 10th day after the killing.

After questioning of the physician, who was recalled to enlarge on testimony given on the previous day, he was asked if he had been offered, returning the privilege of offering rebuttal testimony when the hearing re-opens tomorrow.

The physician, Dr. J. J. Funderling, of Oceans Ferry, testified he believed the body had not been in the water more than six hours when it was brought to him for examination. It was brought to him by his son, who had been to the scene of the crime.

100 Speculators Gather

The hearing took off all the appearance of a theatre today as the 300 spectators gathered from the 300 miles around to watch the sharp exchanges and laughed at witty remarks of counsel and witnesses. Threats of prosecution came to the men who were battling it out in the courtroom.

Mrs. Meisenzahl and her husband quickly through the audience, the woman aged 40, combed her hair and put on a new dress. She had abandoned the signs of the two weeks of almost nightly grilling to which he has been subjected by dectives and attorneys since her arrival.

Testimony of Dr. Funderling to the effect the child probably was killed by a blow on the temple, was cut precipitately as a technical argument over how was able to determine the time of the girl's death. He admitted the child had been hit on the head, explained that a blow on her forehead apparently had shocked her brain, but he could not say whether it was unconsciousness or internal hemorrhage that caused the girl to die.

Defense Attorney Eugene Anderson introduced two witnesses who testified they had been up at 8 o'clock on the morning of the murder.

A third witness declared he saw the little girl start from her home in the early morning, walk across the railroad cut where her assailant is believed to have first struck her, and then disappear into the bushes.

Another witness said he had seen the girl walking along the trail from King Hill with Meisenzahl during the search but said he was somewhere down below them.

At a point near where the body was found, Meisenzahl was, they testified, they heard rocks thrown into the water, especially as an effort was made to cover the body.

Defense Attorney Eugene Anderson introduced two witnesses who testified they had been up at 8 o'clock on the morning of the murder. A third witness declared he saw the little girl start from her home in the early morning, walk across the railroad cut where her assailant is believed to have first struck her.

MOTHER AND SON PERISH

OKLAHOMA CITY, Okla., Sept. 3 (AP)—Mrs. Warren T. Whitman, her son, Fred, 15, and his playmate, James Henry Bisham, 11, all of Oklahoma City, were killed when a train, traveling about one mile an hour, hit the Whitmans and their son while they were walking before the train was slain.

Coalfield Searches

Several witnesses were questioned as to where the Meisenzahl were during the time of the search and a trial date mentioned in testimony to affect the trial. They were with the coroner and have been bound over to district court for trial.

The defense team had agreed to let the coroner's inquest be adjourned until the trial date mentioned in testimony to affect the trial. They were with the coroner and have been bound over to district court for trial.

MAN OF AMERICA DRESSES BETTER

NEW YORK Expert Foretells What's What in Masculine Style Traces Trend of Decade

OKLAHOMA CITY, Okla., Sept. 3 (AP)—Mr. Warren T. Whitman, his son, Fred, 15, and his playmate, James Henry Bisham, 11, all of Oklahoma City, were killed when a train, traveling about one mile an hour, hit the Whitmans and their son while they were walking before the train was slain.

SOUTH DAKOTA BANDITS FAIL TO EVADE POSSES

TOLEDO, Ohio, Sept. 3 (AP)—Two bandits were shot and wounded, a third was captured, and two possemen were shot and wounded in a gun fight between the two groups.

The bandits had held up the First State bank, Hoyts, nine miles west of here, this afternoon. A posse of twelve men and the robbers were engaged in a gun fight in the middle of the street.

The gun fight followed.

The gun fight ended when the bandit was shot in the abdomen and is not expected to recover.

Howard T. Tolson, 51-year-old man, was wounded in the foot, and another member of the posse, was shot in the hand. Both were members of the posse.

SPOUSE OF YOUTHEUL-SCION SETS UP CLAIM
OF CRUEL-TREATMENT

LOS ANGELES, Sept. 3 (AP)—Alleging her husband, George Youtheul, scion of the great Youtheul dynasty, was so cruel during the 13 months of their marriage that she just now has filed for divorce, Marcelle Adele Guday, estranged wife accuses, filed suit for divorce today.

"Marcelle is a dear, dear boy," she said, "we are good friends."

It was humiliating, she charged, when he refused to take her to the pictures or of riding in the car. She said he was very cruel when he failed to appear at a theatre party he and she were giving for friends. It was terrible, she complained, when he would not let her eat.

The young millionaire and actress were married July 6, 1929, in Glendale, California, and separated last August 20.

1000 MEN BATTLE WASHINGTON FIRES

Low Humidity Increases Danger of Forest Blazes Ragging Along Columbia River

SEATTLE, Sept. 3 (AP)—Nearly 1,000 men were battling forest fires in Washington and Oregon, the Lower-Columbia river district, all dangerous because of low humidity.

Twenty-five men were battling a fire at the Clark Woodland timber holdings of the Clark Woodland Company, near the Columbia River, Oregon.

WILLIAM E. BOBAN DEPARTS FOR IDAHO TO WAGE CAMPAIGN

Political Leaders Speculate
On Possibility of Noted

Gem-State Senator Taking
Stump in Other States

(By The Associated Press)

WASHINGTON, Sept. 3—
William E. Boban, Senator of Idaho, today is showing that this 21st year old boy, school girl for whom murder charges were leveled, had been anchored to the bed of a stream by a heavy rock found in her feet, with a twist of wire.

This would be good evidence to support the claim of the defense that the victim intended to take the stump in the Northwest, in the forthcoming campaign.

Silence About His Plans

He admitted that he had been under consideration several requirements for the campaign in the Northwest.

He said he had been here to see what part North West will play in the campaign. While he was an important part in the Hoover presidency and determined to hold his seat, he did not expect to be called upon to do the same again.

On arriving at the cabin the ranger found evidence of his having

World Waits Helplessly While Hurricane Sweeps Toward Cuba

Dog Leads Ranger to Side of Master, Resident of Idaho for 87 Years and Father of Film Star

Director of Observatory at Havana Predicts Great Loss of Life and Extensive Property Damage

(Special to The News)

FAIRFIELD, Idaho, Sept. 3—Stringent orders of a dog last night to the master of a house in the mountain north of here, nearly in the warm waters of Lapland, led the ranger to the scene of a terrible accident, which he had never known to happen before. The aged man had died within a half hour.

John Lightfoot, for nearly a century a resident of Idaho, and father of Margaret Lee, famous actress of New York City, who will be 88 years old next week, had been ill for some time.

When the dog barked at the house, the ranger, who had been unoccupied for some time, went to the scene.

He found the master dead, but the dog had been unoccupied for some time and immediately searched the surroundings, soon afterward coming upon the aged man's body in the snow.

The dog had been unoccupied for some time, but the dog had been unoccupied for some time and immediately searched the surroundings, soon afterward coming upon the aged man's body in the snow.

CALM WEATHER AIDS
DIVERS SEEKING GOLD
IN SUNKEN STEAMER

(By The Associated Press)

HAVANA, Sept. 3—Calm weather, which has been trying to save the sunken steamer, which "the little boat" became the ill-fated steamer, has aided divers.

The divers succeeded in getting

to the surface today a lot of

valuables from the dining room

and deck of the steamer, which

went to the bottom after a collision in 1922. They found several

large bags but most important

was the report that they had

penetrated to within

the dynamiting distance of the

explosives and a large amount

of gold coins were recovered.

The observatory said the

storm center was moving at a speed of only 16 miles per hour, but

that the winds blowing toward

the sunken steamer

were at a velocity of more than

100 miles per hour.

At 10 a.m. yesterday

the divers recovered

hundreds of thousands of dollars

in gold coins and

valuables from the dining room

and deck of the steamer.

RAFT RIVER VALLEY DISTRICT PROPOSES IRRIGATION PROJECT

Agriculturists Organized
To Secure Power To Pump
Water on to 10,000 Acres
Of Rich, Fertile Soil

(Special to The News) — BURLEY, Sept. 3—Resident of the Raft river valley in the district, for the purpose of securing power to pump water for approximately 10,000 acres of farming lands, a temporary committee has been formed with Frank Hoblett, chairman, William P. Shry, secretary, and George W. Neddo, John C. H. and N. E. Hoblett, and G. and J. Thorpe, all of Raft river valley, members of the executive committee. B. T. Love, burley, has been chosen to represent the group in making application to the federal government to supply power from the American Falls Dam. It is understood that an agreement will be made to private power project.

The Raft river valley has been taken by reason of the favorable report made by Francis Stevens, who

made a scientific examination of wells and soil strata last year in the Raft river section. It was found that a stratum of underground water lies beneath the surface and it is proposed to irrigate sufficiently

to cover the surface area of 10,000 acres.

It is estimated that it will cost \$100,000 to \$120,000 to irrigate 10,000 acres to feed the "second source."

The stretch of land extends north and south of Minto, and is productive, fertile and level enough for proper irrigation.

CASTLEFORD WOMEN PLAN YEAR'S WORK

Ladies' Aid Society Elects
Officials For Year and
Arranges For Activities

(Special to The News) — The Castleford Ladies' Aid Society recently elected the following officers: Mrs. C. J. Clark, president; Mrs. J. F. Carr, first vice-president; Mrs. Mary Bishop, second vice-president; Mrs. O. H. Olson, treasurer; Mrs. C. L. Johnson, recording secretary, and Mrs. R. W. Hansen, general secretary.

The group is actively engaged in the work of the community.

The opting of the year's activities is now progressing rapidly. A social meeting in honor of Miss Eva Brown, pastor of the Castleford Methodist Episcopal church, Miss Brown will speak at the meeting.

Walter where she attended the recent district conference.

The organization plans a con-

certion at the First Methodist

Church, Oct. 10, featuring the

choir of the church.

Services will be held each evening

at 8 o'clock.

A WHOLESOME MANIFESTATION

"It is without significance that eleven hundred voters—a greater number than ever before—cast their ballots in Twin Falls Independent School District election Tuesday, and that there were seven candidates for the two Trustees' positions to be filled.

It is up to the Board of Trustees to determine the significance of this record-breaking election.

ever, there is a great deal of public interest in Twin Falls schools, and that the office of trustee, although it carried no importance, is by means of a popularity contest.

Indeed, it is the duty of the members of the board that their educational actions are under surveillance, and may be expected, after voting, to follow through with determined attention to the schools' administration.

By and large, Thursday's school election in Twin Falls was a most wholesome civic manifestation.

VINDICATE DEFECT

In a combination of circumstances surrounding the Paris to New York flight of Captain Deudouons Cote and Maurice Bellonte that yesterday electrified the world, outstanding is the fact that our success followed tragic defeat of their distinguished countrymen, Charles Nungesser and Francois Coli, a similar under-taking three years ago, and marked the first conquest of the Atlantic in a westward flight over the trail that Charles A. Lindbergh blazed so gloriously.

Our tragic record or failure don't deter Cote and Bellonte, and it is somehow conveniently forgotten that counseled of the risk to attempt such a venture, should achieve success. It vindicates the two Frenchmen, and further, goes to show that they are as valiant as any.

It is most gratifying, too, to hope that first to greet the triumphant Frenchmen when they breath their plane to rest on American soil, will be Lindbergh, who three years ago, at the end of his epoch-making eastward flight across the Atlantic, was the central figure in a similar triumphal Paris.

CLOTHES AGAIN

With all that has been written on clothing, the subject is far from being exhausted. It appears that not only beauty and health, but sex dominance, is involved. Women are threatening masculine rule because they dress more widely, I hear to Dr. Thomas Darlington, former Health Commissioner of New York:

"The average woman of today is much taller, much stronger, much more vigorous and more mentally alert than was the woman of a quarter of a century ago. There is every indication both scientific and medical, that she will continue to improve if she retains her present style of dress. And if her progress continues, men have much to fear, for unless there is a marked change on the part of the male an ominous future is in store for him. As a matter of fact the stature of man has not changed much in the last twenty-five years, his vitality has shown no marked gains and his mentality has not greatly improved."

I stand for a radical reform in men's attire—say as radical as that made for women."

Men's present clothing, with coat, vest, cravat and trousers, keeps the air and light from properly performing its functions, overloads the body, causes disease and invites many serious and heat prostration. If bare skin plays the muscles, binds the

throat and abdomen, makes the body uncomfortable and reflects bad health.

In bold radical, however, Dr. Darlington would have none of it.

He would not have given up his

own's attire, the clothing he wears,

whether patterned or plain, but

he does not like the way a

man's garments are all built,

he does not like the way a

man's clothes fit him.

He does not like the way a

man's clothes fit him.

NOW FOR THE BIG TWIN FALLS COUNTY FAIR

Everybody Will Want To Go---The Fair Will Be Greater Than Ever Before...
As This Wonderful Country Develops, The Fair Grows

The Idaho Department Store

is probably better equipped to cater to your taste and desires in women's high grade furnishings and wearables, style shoes for each member of the family, men's and boys' style apparel than any store in the entire state. We told you in our July circular that we would have for you the most comprehensive line of sparkling fall merchandise ever shown by this big store. We have made good. Three large floors filled to the ceilings, with wonderful assortments of new fall piece goods and furnishings for women. The leading, sizeable, men's and boys' wear shop loaded to overflowing. Our big city shoe store packed and jammed with fashions latest. Our women's and girls' department is crowded with the new things and most interesting, and the best of all is the exceptional pricing on this vast array of merchandise which will wear many extra dollars in your pockets this fall.

And all the time the outstanding school event goes merrily on. Special notice! Everybody visiting our store is cordially invited to go over the three big floors and see for yourselves the size of the stocks. Won't you kindly step to the office and suggest that you would like to see it all. It will be a pleasure to us to take you over the store. You'll be amazed!
