Growers Receive From 24 to

26 Cents for Prime Tombs

and Dealer Estimates Only

Third of Fowl Marketed

(Special to The News)

GOODING, Nov. 14—Gooding county growers have marketed their turkeys for \$32,000 worth of turkeys for the Thanksgiving market, according to estimates made here today. Six buyers of Gooding, Jerome, and Canyon counties paid 14,000 pounds of the birds—the about six and one-half carloads.

Despite the large number of birds already marketed, only half have been sold, and many more have been prepared for market, one dealer estimated today, thus indicating huge sales for the Christmas market.

Prices paid for the flocks range from 24 to 26 cents for dressed numbers, 14 young to 16 old.

Gooding county growers received in round numbers, \$10,000 for their flocks marketed the first of this week, while the second week, the Gooding County Turkey Association shipped a car and a half of dressed birds from Wendell and R. J. Ring, an independent dealer, who paid 14 pounds of dressed and live birds.

The Gooding Cooperative Creamery company and the Gooding County Farmers' Union were the principal agents for the sales, although several out-of-state concerns also have been here in the locality preparing the birds and making purchases.

In Irish Free State. Although under the new plan Great Britain becomes an equal partner in the dominion, it did not loyalty to the throne and the British monarch was affected by the decision.

India's hope of attaining a similar status was given voice by Sir Muhammad Shah, spokesman for the Indian delegation, who told the winds of India that his party, like his people, was looking forward to co-operation in the empire.

Another delegate, who identified the conference "as that which would bring Singapore naval base has postponed five years, when the question again will be raised.

In attempting to solve the problems of inter-imperial trade and commerce, the conference was convened to discuss the principles of looking after its own interest first and then after the interests of the empire as a whole.

## CALLS FOR ACTION

White bank robbery losses through-  
out the country have increased over  
hundred and sixteen per cent this  
year over last. The State of Texas  
with a standing "wardrobe" of five  
thousand dollars for dead bank rob-  
bers, reports acrey-five per cent  
increase in losses.These statistics quoted by Idaho's  
Commissioners of Finance furnish  
most convincing argument in sup-  
port of the recommendation by the  
Commissioner and the Idaho State  
Bankers' Association for new legis-  
lation in Idaho to deal with bank  
robbery losses that have been in-  
creasing to an alarming extent in  
this State.The proposed new law would not  
only provide for the death penalty  
but would justify and grant immunity  
to anyone killing bank robbers, either  
during the robbery, or in pursuit,  
and also would authorize banks,  
banking associations, insurance  
companies to offer a bounty on dead  
bank robbers.Such latitude, of course, is open to  
abuse, but results of similar laws  
operation in Texas furnish perhaps  
the most satisfactory answer to ob-  
jections on that score.Outlaws are quick to seize upon  
the advantages that modern inves-  
tigation and improvements make avail-  
able.Speedy motor cars, improved  
highways and other factors present  
new problems in dealing with mod-  
ern manifestations of ancient crime.This situation calls for strengthen-  
ing of the safeguards that society sets  
up for protection of life and property.If the proposed legislation will con-  
tribute to improvement in that direc-  
tion, it ought to be adopted.

## COALITION

Democratic leaders have announced  
their party's desire to co-operate  
with Republicans in "every measure  
that relates to the welfare of the  
country." Republican leaders have  
accepted the offer "with full faith  
and credit." Through one of the  
Democratic leaders, expressing his  
satisfaction, an amount to a  
coition government.Coalition government is less com-  
mon in America than in Europe.  
Over there they have to resort to it  
frequently, as the only way to get a  
working majority for legislation,  
because of their numerous parties.  
Here we have not had such govern-  
ment except partially in war time.It would be fortunate for the  
country if the two parties could work  
together amicably on constructive  
lines at this time. We may assume  
that most of the party leaders will  
make a real effort. But there is sure  
to be considerable difference of opin-  
ion on what measures "conduce to  
the welfare of the country."

## NO PARKING PROBLEM

A town without a parking problem  
sounds like a motorist's dream of  
Utopia. Yet there is to be one in  
Nevada, where the working force  
engaged in building Hoover Dam will live.  
This town will be planned and  
laid out according to a carefully  
studied design. Ample parking space  
will be provided—not but on the  
streets. According to the Depart-  
ment of Interior:"We will never park at the  
curb in this town. There will be  
areas specially provided and  
conveniently arranged throughout the  
town to take care of this demand of  
a motorist's dream."So far as anybody knows, this will  
be the first municipally designedstop without creating traffic con-  
gestion in the main streets.  
It is much easier to active parks  
or any other problem in the city  
or new community. Yet some of the old  
and municipalities of the country can  
profit from the experience of the  
new town, just as it is profiting by  
the unpractical parking experience  
of older cities.

## SUPER-CLEANLINESS

Nearly all of us are strong for  
hygiene. Yet some of the most  
hypocrites may be "baldy" Avenue  
people. To Dr. E. C. Gandy, Profes-  
sor of Hygiene at Indiana University:  
"We scrub ourselves so clean that  
we are like the oily, bacteria-laden  
layer which is the natural covering  
for our bodies, and remove ourselves  
so far from germs that when we are  
accidentally come in contact with them,  
we have built up no resistance and  
fall easy victims to disease."We've tried to be rid of the  
layer the professor speaks of. And  
we've noticed that even a dog feels  
better and behaves more nicely  
when he's had a good bath. Still, we  
may be carrying this too far.Executive cleanliness may be really  
more conventional than hysterical.Otherwise who should argue so  
healthily and stridently people so  
as to earn a place in the hall of  
fame through courses like "Health"  
and "Hypnotism"?There is more promise of health in  
building up resistance to disease  
through one's own vital forces  
than in substituting artificial stimulants.Arksell and Mrs. Paul Nobis entered  
Thursday evening at the home of  
Mrs. C. C. Corson on Lincoln Street  
for the annual meeting of the A.A.U.W.  
Barbara Fifer, the charming chair-  
woman, welcomed the guests. "Welcome  
Dinner," appeared with the  
comedy star again, cast this time asthe secretary to his boss, a chain store  
magnate. Harold Ian, son of a  
clerk in the store, was the guest  
of honor. The audience, who know  
the secret of his success, were  
entertained by his boyish wit and  
humor.Harold continues to win the sym-  
pathy of the audience with his witt-  
ing young man's love of sport, his  
interest in the outdoors, and his  
keen interest he spends along through  
illustrations that are genuinely humor-  
ous, puts over gags that bring the  
audience to its feet, and keeps  
them hanging, for short traffic. It's a  
wonderful fun, the kind the whole  
family can enjoy—and how!"Feet First" will be shown again  
tonight at 11:45 P. M. and then will  
start a five-day run tomorrow.Executive cleanliness may be really  
more conventional than hysterical.Otherwise who should argue so  
healthily and stridently people so  
as to earn a place in the hall of  
fame through courses like "Health"  
and "Hypnotism"?There is more promise of health in  
building up resistance to disease

than in substituting artificial stimulants.Five members of the interdenominational  
committee in the church attended

liance attended the meeting of the

## BUEHL FIRE CAUSES DAMAGE OF \$3000

Buhl Floral Company Office and Salesroom, Owned by J. J. Brennan, Burns

BUHL, Nov. 14 (Special to The News)—Fire at the Buhl Floral Company Office and Salesroom, located on Main Street, caused damage estimated at \$3000.

Early this morning, Mrs. Frank Johnson, manager of the floral department, received a telephone call from Mr. Mattie West, an employee of the company, who turned in the alarm. The Buhl Fire Department responded and when they arrived the men were forced to return to the station to get a chemical supply on account of a leak revealed in the water system. The fire had raised too much heat when they returned.

Heat from the fire, which was thought to have originated in a house which furnishes heat for the growing plants, cracked and melted glass in the greenhouse. Frost killed all the flowers in the greenhouse two hours after the fire had broken the glass. Three buildings of the plant were destroyed.

Mr. and Mrs. Johnson, who have been in the floral business in Buhl since 1912, stated that he had insurance on the buildings, but that he intends to rebuild them immediately.

These articles will be placed in the school paper by the editor, and the editor will be assisted by a committee consisting of the yell queen, Emerald Mar-

THE Wesson Oil people are proud of Snowdrift. They make it for folks who like nice things. They put extra quality, extra goodness in every pound.

It is creamed, from an oil as pure and delicious as a fine salad oil, and nothing else.

It's as pure and wholesome as rich new cream. As soon as Snowdrift is made, it goes into sealed cans. The creamy white goodness is not touched until you open the seal and dip in your spoon. It comes to you as sweet and fresh as the day it was made.

## FILER MAN PAYS ACCIDENT AWARDS

R. H. Wilson Pays \$4000 to Widow and Children, and \$2000 to Injured—Man

Under terms of judgments entered by stipulation in district court here yesterday, R. H. Wilson, Filer, paid \$4000 to the widow and two children of Frank J. Fehrenbacher, 21, and \$2000 to his son, L. E. ## COUNTY MAKES CHARGE FOR PERSONAL TAXES

Twin Falls county has charged against the county's personal property owners a \$100,000 personal property tax, which is now assessable at the county assessor's office. If unpaid these taxes become delinquent on the fourth Monday of December, they will be levied and warrants will be issued and delivered to the sheriff, and a 10 per cent penalty together with costs will be added.

A subsequent personal property tax will be completed the fourth Monday of January, so that if paid by January 15, there will be no tax for the year.

Adjustment of the tax on migratory livestock is not completed until early in January, so that the amount of personal property tax will be paid out in the spring of next year.

Under this procedure, the tax on migratory livestock that is fed in the county during the fall will be paid out in the fall. Later when this tax is moved to other counties for summer range, owner will be taxed on the same proportion to the time spent in each.

At the end of the year Twin Falls county deducts from the full year's assessment the amount of taxes paid in other counties, as evidenced by tax receipts.

## TWIN FALLS SCHOOL POPULATION GROWS

There were 54 more students and pupils registered in the Twin Falls schools at the beginning of the second period of the first semester in 1930 than at the beginning of the previous year.

Highway matters occupied most of the time and attention of the school board during the recent meeting. The meeting endorsed a resolution to be sent to the state board of education asking that the highway department in Pittsburgh next Monday change designation of United States highway 93 from Wells to Las Vegas, Nev., and to the Canadian boundary line to Wells.

A resolution was formulated to be sent to President Hoover requesting that the highway department make available congressional delegation, urging mailing along the time at which highway appropriations may be made available, so that it will be available in the winter, instead of waiting until the beginning of the next year for the 1931 increase of such appropriations, were also urged in the resolution.

An additional resolution was adopted asking that funds be made available to the Colville Indian tribe for highway hill effects. Such a bill would expedite construction of highway 83.

There was a general discussion of methods of financing the proposed new school building before action after its organization.
