

NEW BALCONY IN GYMNASIUM GETS BOARD APPROVAL

Student Activities Pay for Improvement Costing Near \$1000; Construction Will Begin Immediately

Construction of a balcony 115 feet long by 3 1/2 feet wide with three tiers of seats with a capacity estimated at about 1500 was voted, Saturday night, by the board of the Twin Falls school system. The project, which was authorized by the Twin Falls school board at its regular last meeting, will begin immediately.

Plans for balcony have been drafted by the city engineer, Harold W. Stuckey, and will be submitted to the city council after the first construction drawings have appeared there, it is stated.

The manual training class, under the direction of E. C. French, did most of the work as part of their manual-training projects. Most of the material will be of steel.

Plans for the balcony were expected to have the balcony completed in time for holding the district tournament here March 6 and 7.

The balcony will be a part of the construction of the balcony with the definite provision in the resolution of authorization that a cent not be deducted from the treasury of the school district.

The board issued a "call for the services of an architect" to have a special committee to make available extra funds if the amount so far authorized annually since 1927 for school purposes. This is a tax mill which can be levied with the vote of the people. The extra levy has always been voted.

Plans for the balcony will be made available all school principals for next year. These include Mrs. Vera O'Leary, junior high school; Mr. H. Gray, elementary school; Mrs. Ethelda Lindemann, Lincoln school, and Miss Hazel Mahaffey, Washington school.

FORMER UTAH WOMAN'S BODY RESTS AT JEROME

JEROME, Feb. 9.—(Special to The News)—Funeral services for Miss Mabel Levine, who died at 51½ years at her home in this city Wednesday morning after a long illness of heart disease, were held at the Latter Day Saints church this afternoon. The Rev. G. O. Thompson conducted the service.

George Hansen led prayer, and D. K. Hunter paid a glowing tribute to the deceased. Mr. J. Phillips, acting probate judge of the county, presided. Mr. W. R. Roberts, funeral director, arranged the services, which will be held at the First Methodist church at 2 P. M. today. Services will be in charge of Rev. H. G. Humphrey, Coventry, district superintendent.

Services were held Saturday evening.

Sixty cars, a team of horses and a wagon went to Jerome last April to live at the Folkmans home.

Bio Levine was taken to the Folkmans home for the last days.

She died there Sunday evening.

The Weather

FORECAST FOR TODAY AND TOMORROW—Fair; moderate temperature.

COUNCIL REVIEWS FINANCIAL PROBLEM

City Clerk's Statement Leads to Scrutiny of Income and Expenditure

Twin Falls' municipal finances came in for searching scrutiny at a regular meeting of the city council on Friday night. The financial committee made a close check of expenditures totaling \$10,222 during the first nine months of the fiscal year ending next May.

The financial statement submitted by G. M. Hall, city clerk, showed that the city was well within the limits of the state audit bill, but that A. L. Chapman, commissioner of finance, insisted, and other members of the council agreed with him that the amount of collected revenues at the close of the year should not exceed the amount of collected revenues, and that actual results rather than estimates will be the measure for expenditures.

Each year for three years past the city clerk remarked, municipal accounts had been kept even with revenues. The Women's Progressive club postponed their meeting from February 11 to February 17 on account of the death of Mrs. Charles Beckman.

Mrs. Shatto's division of the R. M. A will meet this afternoon at the R. M. A. building, 211 Park, at 5:30 p. m.

The Mountain Club will meet yesterday afternoon with Mary Clark present.

Councilmen expressed the belief that by proceeding cautiously would be possible to hold the city's annual income within the limits of its annual income.

The \$152,200 appropriation bill provided for expenditure of all estimated revenues collected up to date, and the city's fall tax bill.

Council—last evening—authorized payment of an insurance premium of liability insurance premiums based on estimated payroll for six-month period ending next July.

There will be a new source of income—a builder's permit fee—of \$250.

BREVITIES

Waits American Walls Schneider divide Monida

Home from Coast—A. M. Faude

leaves for his home at Seattle, Portland and other coast cities.

Leave for Kansas City—Mr. and Mrs. H. C. Wittrick and little child left Sunday for Kansas City on a trip.

Go to Bell Lake City—Adt. and Mrs. J. N. Jensen will leave today for Bell Lake City on a short business trip.

Parents of Son—Mr. and Mrs. Leo Diodio, Jarbridge, are parents of a son born yesterday at a private matron home.

Return From Hilo—Mr. and Mrs. Edward A. Stine, who recently accompanied their son on a trip to the Big Island of Hawaii here, returned yesterday after a visit with Mrs. A. L. Franklin here.

Alumni Reunion—At a private matron home last evening after a visit with Mr. and Mrs. W. S. Swigert, Poetella, clairvoyant speaker for Idaho.

Waite Leaves—Miss Alice Waite, who has been ill for several weeks, will leave today for Spokane where she will remain.

UNIFORM FLAVOR IN COFFEE DEPENDS UPON THE ROASTING

Hills Bros. Insure Uniformity by Their Patented, Con-tinuous Process

coffee experts find that kind must be uniformity of quality, will not produce a perfect cup of coffee. In the roasting of coffee beans, the result of which is uniform flavor, because it is not possible to roast individual beans.

The common method of roasting coffee beans is to roast them in a shallow pan over a fire, over an open flame, until the beans are browned.

Control is the watchword of this process. The quantity of coffee passing into the roaster does not affect the temperature of the beans, nor do the beans remain at a constant temperature, which, the result of the result, Hills Bros. Coffee.

Control is the watchword of this process. The quantity of coffee passing into the roaster does not affect the temperature of the beans, nor do the beans remain at a constant temperature, which, the result of the result, Hills Bros. Coffee.

Control is the watchword of this process. The quantity of coffee passing into the roaster does not affect the temperature of the beans, nor do the beans remain at a constant temperature, which, the result of the result, Hills Bros. Coffee.

Hills Bros. coffee is never "overcooked," because it is cooked in a vacuum tank. Ordinary coffee, even if all right, do not keep coffee fresh as long as Hills Bros. does.

When Mr. and Mrs. Ralph Miser left Monday evening for San Diego, Cal., they were accompanied by Mr. and Mrs. Frank Bryant, who are staying with them.

Ask for it by name and look for the Arab—the trade-mark of Hills Bros. Coffee, Inc., Portland, Oregon.
