ITALY AND ENGLAND AGREE IN PRINCIPLE ON NAVAL PROBLEM

Tentative Accord If Ratified
Obviates Dangers of Franco-Italian Ship-Building
Race Threatening Europe

(By the Associated Press) ROME, Feb. 28 (AP)—Italy and Great Britain today reached an agreement in principle for the settlement of naval problems left over by the London conference last year, and although the accord is subject to French approval, in official circles here there was a general feeling that it is all but signed.

Antonio Tamburini, Italian foreign secretary who headed his nation's naval delegation at Paris and here, said tonight before he started back for the French capital, "we'll get an answer from Paris in time so we will know what we've got."

This tentative accord which, when it is ratified, will obviate the danger of a Franco-Italian naval race is regarded as the first step toward an international political line-up in a military sense.

Behind the scenes Premier Mussolini has been active during the period of the negotiations, and he took part in the final meeting of ministers in the Senate today while Foreign Minister Guido Lanza was at a dinner in the British embassy virtually concluding the accord with Mr. Henderson.

Smooth Out Details

The details were smoothed out between the two foreign ministers, Count Giacomo Caviglia, Italian foreign minister, and Count Ettore Grandi, the Italian foreign minister, and tonight government circles were almost uniformly happy.

The agreement which both British and Italian officials expect will be approved by France tomorrow when the British delegates stop at Paris on the way to London, settles the question of a five-year extension of the five-year duration of the London pact, which is thus transformed into a five-power treaty.

Partly, a home of construction for more than three years, the new arrangement is regarded as a major victory for the Italian right party which has been gaining in more ways than one. The exact tonnage figures agreed upon have not been disclosed.

GEORGIA MAN BECOMES NEEDLEWORK CHAMPION

ATLANTA, Ga., Feb. 28 (AP)—Georgia's needlework champion is a man.

The selection was made by seven Atlanta women, all prominent in civic and club work, and all need-work experts.

The vote for the winner was unanimous, as was the judge's decision.

Seattle Robbers Get \$2800 In Skyscraper

SEATTLE, Feb. 28 (AP)—What was described as Seattle's "highest robbery" was reported to police today.

Two robbers, each with \$1,400 in his pocket, burst into the First National Bank of South Hill, where their victim, Ashton Peake, an attorney, was in a wash room, fearing to raise an alarm. They threatened to shoot if he came out within 10 minutes.

LOS ANGELES MAN-DIES

LOS ANGELES, Feb. 28 (AP)—Franklin H. Anderson, son of Mr. and Mrs. Herbert O. Anderson, Los Angeles, died in a hospital after two weeks ago when he received a horse on his father's farm in Los Angeles.

GANDHI CONTINUES LABOR FOR PEACE

Mahatma Plans to Confer With Viceroy Again—But Hopes for Agreement Fade

NEW DELHI, India, Feb. 28 (AP)—Mahatma-Gandhi's prolonged visit to England has not affected the Englishman's Indian political situation, but tonight it looks as though their efforts to reach an agreement would fail.

This afternoon the working committee of the All India Congress Committee, which includes Mr. and Mrs. Gopal Krishna Gokhale, who negotiated at a hotel here yesterday with Little Moss, Gokhale, died in her room today. His safety had been assured when he lay the bed upon which she lay. Her throat had been cut and there were gashes over her body.

The doctor said she was accidentally shot in the head four hours ago and had been here about four days.

The doctor said the woman had suffered at least three bullet holes in the body, and that it was a case of suicide, he said, the act was maniacal and frenzied.

PREMIER LAVAL SCORES IN FRENCH LEGISLATURE

PARIS, Feb. 28 (AP)—The French government, which has been in power with a coalition of socialists and radicals since last August, has been faced with a question of confidence easily by 200 against 186 votes, a majority of 14.

The vote came in a late sitting when opposition to unemployment-subsidy funds by the government became so strong in the chamber of Deputies that the proposal was withdrawn.

\$125,000-DAMAGES FOR DEAD DOG TOO MUCH, COURTS RULES

SAN FRANCISCO, Calif., Feb. 28 (AP)—The life of a dog, no matter how valuable, cannot be considered in the same plane as the life of a human being.

On the opinion of the state district court of appeals today in holding \$125,000 damages awarded for the death of a pet dog "grossly excessive." The decision affirmed in Los Angeles trial court that the dog was worth \$125,000 and granting a new trial.

"Peter the Great," owned by Captain W. Dryer and Mrs. Dryer, a Greek architect, a jury awarded Dryer and Faust \$100,000 punitive damages for \$2,000 protective damages for his pet dog.

Oriental, the record showed, fired three shots at Faust and was wounded in his own dog's quarrel. One of the bullets killed the dog.

APPLICATIONS FOR LOANS FLOW INTO VETERANS' BUREAU

Officials Expect Number to Increase to 25,000 Daily At Cost of \$7,500,000 During Nearing Peak Days

WASHINGTON, Feb. 28 (AP)—Veterans' loan applications clicked through governmental machinery at the rate of more than 1000 an hour today as appeals went forth to permit those most in need to be allowed to file first.

Chief Finance Officer W. B. Brinkley of the veterans' bureau, who has issued 10,000 checks for amounts up to \$10,000 for 2000 veterans daily, said he expected 25,000 applications daily when the peak is reached.

Long lines of men assembled at the bureau's office at 10th and Jackson streets at noon, only 70 were for loans on certificates that never before had been issued.

From 500 to 800 applications per hour were handled in the Washington office, and officials said a similar rate should have been maintained in the 33 other regional bureaus.

Next week, Brinkley said, checks would rise to 25,000 daily and he expected 35,000 applications daily when the peak is reached.

At 10th and Jackson, the number of veterans coming to the bureau daily is 2,000.

At 10th and Jackson, the bureau has been open 24 hours a day.

WILLIAM E. BOAHAN CRITICIZES SOLDIERS

Idaho Senator Declares Congress Shows "Lack of Courage and Purpose"

WASHINGTON, Feb. 28 (AP)—\$100,000 emergency relief fund for the unemployed to be placed at the disposal of county commissioners by the Senate, if passed, will be used to meet the demands of the soldiers.

Rep. William E. Bohan of Idaho made the statement to reporters here today.

He said that the Senate's failure to pass the bill was due to the fact that the bill had been introduced in the House.

Boahan, a member of the House Select Committee on Small Business, told reporters:

"The Senate is not showing any courage or purpose in this bill."

Rep. John C. Linthicum of Texas, a member of the House Select Committee on Small Business, said the Senate's failure to pass the bill was due to the fact that the Senate Select Committee on Small Business had not been given enough time to study the bill.

Boahan said he believed the Senate Select Committee on Small Business would have been given enough time to study the bill.

Woman Masquerades as Cowboy for 14 Years Before Revealing Identity

TONKAWA, Okla., Feb. 28 (AP)—A woman who has been masquerading as a cowboy for 14 years has agreed to reveal her secret to Capt. George H. Martin, who is trying to decide what to do with Grace Marion, 36, who wears a belt and spurs and rides a horse and carries a revolver.

Grace, who is reported to be 5 feet 4 inches tall and weighs 110 pounds, was captured in the range and in the mountains for more than a decade.

Without money or hungry, the woman staggered into the office of Mr. J. C. Jones, 42, who runs a ranch near Tonkawka.

At first suspicious of the bearded "cowboy" who announced in manner that he had no money, Capt. Martin, who is in charge of the Tonkawka range, finally nodded his head.

Grace's hands cuffed behind her back, Capt. Martin told her she could not be a cowboy any longer.

Grace adhered to her story, however, and Capt. Martin, who had been a soldier, said she "was honest, like a man."

Grace's hands were unfastened and she was allowed to go free.

Capt. Martin said he would release her if she would agree to care for him.

The two now make their home on the ranch, and Grace has obtained a more feminine employment.

BOISE, Feb. 28 (AP)—Governor C. E. Ross, today, vetoed the 90-day divorce law passed by the legislature and immediately action was started among supporters of the bill to attempt next week to over-ride the veto.

The veto message came as a surprise to many of the legislators.

It had been assumed the bill would be signed by the governor.

After the veto message was read in the Senate, Bertie McCall, of Boise, moved that the bill be sent to the judiciary committee.

Explaining his veto, the governor said:

"I am not in harmony with the policy of our state."

Referring to the present requirement of a year's residence for divorce purposes, the governor said:

"I think that a person coming into the state should be required to be here for a year or more and becoming familiar with our customs and institutions is more important than the place where he resides."

He pointed out that the bill would rise to 2,000 daily when the new law is in effect.

End Of Muscle Shoals Deadlock Promises Release Of Power

TENNESSEE RIVER VALLEY BENEFITS IF HOOVER SIGNS

Bill Provides for Lease of
Nitrate Plants to Pri-
vate Interests
If Possible

GOVERNMENT AGREES TO CONSTRUCT LINES

Growth of Industrial Activ-
ity Looms in Manufac-
ture of Area's
Products

SHIEFFERNAN, Ala., Feb. 28.—For almost 12 years the United States army has oiled the machinery and polished the brass at the government's \$160,000,000 power and nitrate project at Muscle Shoals.

Now, with the 10-year congressional deadlock broken, the wheels are ready to turn if the president signs the bill.

The congressional majority has agreed to let the giant plant which is expected to give impulse to industrialization of the Tennessee river valley, also termed "the heart of the South."

The bill provides for lease of the nitrate plants to private interests if possible, and they would be operated by the government.

Big Project

The plant consists of Wilson dam, 100 feet high and 4500 feet long, with a power house capable of generating 200,000 horsepower; steam auxiliary plant; nitrate plants; number one and number two limestone quarry equipped to supply sand and gravel to both the nitrate plants.

Wilson dam and power plant cost \$44,000,000. Nitrate plants number one and two cost \$42,000,000, while the auxiliary plant cost \$67,000,000.

The present congressional measure provides for government construction of transmission lines and generation of the peak power plant and construction of the Core Creek dam, which will have a total cost of \$15,000,000.

Capacity operation of the nitrate plants will require five employees to 200 men. If the fertilizer and fertilizer manufacture would employ 200 more.

Alas Industries

Cheap power is relied upon to produce industries of aluminum, rayon, cotton and products of the Techical Tree Valley—cotton, clay, hauteur, lumber, iron ore, coal and oil.

The Core Creek storage dam will almost double the power capacity of Muscle Shoals and other power plants in the Tennessee river valley.

Locs are incorporated in the son dam and are planned in the others to aid navigation and lower water levels in the river.

Since the war the plant has been operated by the army and a small amount of power sold.

MANY MEETINGS ON FARMERS' CALENDAR

Twin Falls County Agent An-
nounces Session on Fiber
Outlook and Accounting

Three series of farmers' meetings, to cover the potato, cotton, lamb, wool pools and farm account records, are being arranged to be held in a number of Twin Falls county towns, according to C. E. Hale, Twin Falls county agent. Announced in a monthly bulletin issued from his office yesterday.

To assist growers in making an analysis of the cost of raising meat animals, potato production meetings are to be held next week at Castleford, Bush, Kimberly and Pocatello. North Idaho committees, at these meetings will discuss the various factors that determine the cost of raising hogs.

Similar meetings have been held recently in Cassia and Minidoka counties.

Importance of farm account records for sound farming is to be explained by T. J. Muller, farm management specialist, at meetings to be held at Castleford and Bush. Kimberly and Pocatello. The meetings will be held later if interim warrants them, the county agent stated.

The extension specialist said the extension of farm accounts is a factor that can be adapted to almost any farm and that does not require a great deal of time or expense.

In the lack of keeping farm records among a great many farmers, the county agent suggested, is because the records are not simple farm accounting systems.

Meetings to discuss lamb and wool pools and to find out what the sheep growers of Twin Falls county want to do regarding the same will be held at the middle of March at Castleford, Bush, Pocatello and Kimberly, it was announced.

President Hoover announced he was having Muscle Shoals bill examined before deciding whether to sign it.

Senator Wheeler, Democrat of Montana, introduced a resolution to provide \$100,000.00 to be spent in the middle of March at Castleford, Bush, Pocatello and Kimberly, it was announced.

House and Senate conferees fall far short of their bills in committee action, but the Senate's bill is more logical.

British Aim At 400 Miles An Hour In Schneider Cup Race

BRITONS HOPE TO WIN THIRD TIME AND KEEP AWARD

Lady Houston, Fairy Godmother of Event, Provides 100,000 Pounds in Money

BOTH ITALY AND FRANCE CHALLENGE ENGLISHMEN

English Pilots Plan to Use Two Super-Marine Air-planes in Speed Contest

(By Associated Press) LONDON, Feb. 29.—British speed pilots will fly the Schneider cup races this summer bent on gaining the third leg and permanent possession of the emblem of world supremacy.

"They will be aided by a 'tailwind' of approximately \$500,000, in the form of a guarantee of their expenses," said a spokesman for the mother who guaranteed the 100,000 pounds necessary to stage the event, "and the entry lists of British aviators show that they are not saying firmly that it would not sanction expenses for the race."

Three Nations To Compete

Both Italy and France have challenged Britain's right to permanent possession of the trophy.

The British are planning to trust their chances to two air-planes which won the 1929 race, one with a speed of 337 and the other with 345 miles an hour.

J. R. Macmillan, designer of these two super-marine Hispano-Suiza 8-B machines, plans alterations which will increase the speed of the aircraft to approximately 360 miles an hour.

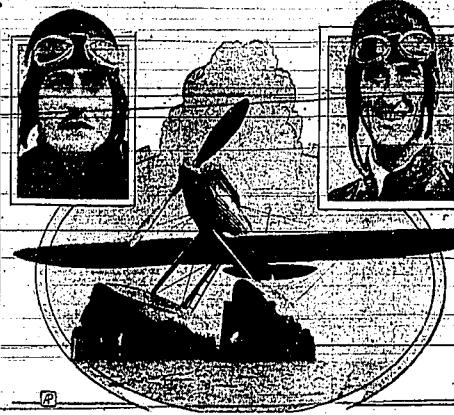

Flight Lieutenant H. R. D. Wagstaff and his co-pilot, Squadron Leader A. H. Orde-Barke, will make their initial training flights at the reconditioned ships in the early spring.

With a speed of 400 miles an hour within shooting distance, racing in competition has increased the interest of the spectators 100 per cent since the trophy was hung up in 1919 by Jacques Schneider, French engineer.

The cup was won by France—by a speed of 417 miles an hour.

Since that time the speed has crept to 190, 200 and 300 miles, has been seriously at the county general during the last six weeks.

In 1923—Rileyphone flew 177.35 miles an hour to win for the United Kingdom.

British speed pilots hope to gain permanent possession of the Schneider cup in this summer's races. They will use two super-marine planes of the S-6 type, shown above. Lieutenant H. R. D. Wagstaff (left) and Squadron Leader A. H. Orde-Barke (right) may pilot the ships.

Ships. There was no record in 1923, but in 1924 the British, flying 210 miles an hour in 1923, the United States, piloted the second successful plane—and Britain in 1928 would be the third to conquer the trophy permanently. However, Italian colors, carried by Bernardi at a speed of 246.6 miles an hour, flashed across the sky.

Italians, however, then made three planes which were authorized by the Burley Irrigation District Board at the cost of \$10,000 each.

America will be absent from the 1931 race, as it was in 1928, the entry lists closed.

The contest, the likelihood that Britain will be held to its word, the entry lists closed. This ended the possibility that Britain, after Willans, formerly of the Royal Flying Corps, and later of the Royal Naval Air Service, would compete with a plane built by private funds.

Think of it! Every fourth second! Just count them off! One, two; three, four—another Riverside sold. One, two, three, four—still another! and so on through the day. Every fourth second a new rugged Riverside goes out into the world to roll up its thousands-of-miles-of-dependable-tire-service.

Every Riverside Tire Is a First Quality Tire!

There are several grades of tires. When you're quoted a price on a tire, ask this: is it a first quality tire or a second line tire? "Don't let anybody quote second line tire prices against Riversides—because Riversides are first line tires—and should be compared only with first line tires."

No Other Tire Can Give a Greater Guarantee!

—because Riverside's guarantee is UNLIMITED. Unlimited in time—unlimited in mileage! Who can give more than that? Who could ASK more?

So why pay MORE when Riversides give all that can be given?

Save 10% to 15%!

This is the average saving on Riversides compared with other FIRST LINE tires. And remember, Riversides are FIRST LINE tires! No wonder another Riverside is sold every four seconds!

ALBION HUNTER-UP				

PAUL, Feb. 28.—Special to The News—Paul's team through the Minidoka sub-district basketball tournament that closed here tonight and won its first district championship, up in both divisions, to represent this sub-district in the District, Class 71 Tournament to be held at Shoshone.

Several of the outstanding teams in the Class B division, both girls' and boys', entered in the tournament, put up a packed symposium of fans during gauley during the last three days, more than 600 contestants witnessed the final contests.

Albion Slugs Comeback

The semi-final of the tournament was held between the Albion girls and Paul boys on the court.

The Albion lads, after trailing all day, were held by a stout Paul girl, came from behind to win the game, the first quarter ended 8-8,

the half, 12-12, and for the Paul third period, 17-15, but the Albion boys

were "Toughies" contented with the girls' division game between Paul and the Albion girls.

The Albion girls' comeback will be held Saturday afternoon at the Paul gymnasium.

Paul made off by 10-14 score, but into an early 10-8 lead in the first quarter, the Paul girls had the lead, but Albion's girls were still on the move up to a 10-9 contest; at the half, and 20-19 advantage by the close of the third period, playing of Paul and Albion's Hirschman, Colquitt positions was the feature of the game, as it had been of every other game.

For the six members of the Paul sextet areopoulos, including these two forwards, Tommey

and Helen Hayes, are slated to be the holder of the Washington State title in that event. Willa Smith, who has been the leading candidate here, looks like the leading

contender.

Dixie Team Adds Speedy Sprinter

CHAPLE HILL, N. C., Feb. 28.—The Dixie Central Southern conference track team has another crack sophomore sprinter to set on the trail of veteran Dixie speedsters this year.

He is Alex Walker, who steps off the century in less than 10 seconds.

In 1930 the Tar Heels presented a polished and smooth dash man in the sophomore Charlie Farmer, and this year's team has a new star in the running mate.

Farmer carried the university colors to victory in the conference meet, but his time of 10.4 was too much for him in the century and he trudged off to Georgia Tech, and Smith, Alabama.

The new sprinter is Fred Hamm,

FEATURE FLASHES FROM FAR-FLUNG FOREIGN FIELDS

RUSSIA-BIDS FOR MONOPOLY ON OIL TRADING IN ITALY

Soviets Become Dominant in Roman Field and Crowd United States Out of First Place as Trader

By JOHN EVANS
(Associated Press Staff Writer)
ROMA, Feb. 28.—Russian monopoly of the oil business in Italy is believed to be so complete that it will be difficult to implement Hitler's advantage in such an arrangement, it is explained.

"It would be the possession of tremendous resources," says John Evans, a former Soviet "comrade."

The Soviets already have become dominant in the oil field here, and the United States has been crowded out of the market by the Russians.

Imports of Russian petroleum products show month by month a steady upward progression.

Considered for the first 10 months of 1930, the latest available, make it evident almost without question that the United States has dropped from second place to third, Russia a monolith of the oil market here.

Under the Agreement, when the contract is renewed next April, say persons usually well informed in such matters, the United States will drop to fourth place, Russia a monolith of the oil market here.

Under this suggested new system, the United States would establish great tank farms and create pipelines from which the Russian oil trade would be developed all along the coast.

Besides the great military value of having huge reserves of oil on hand—about one-and-a-half times as much as the United States—chartering or building tankers for the sovieto-right-side-conspiracy profit.

The experts assume would be kept before the world market.

Italy still imports run about 1,400,000 tons a year.

Of this the Soviets account for 300,000 tons, the United States sends only one-third, the other two of them doing half of Italy's oil business.

CHILE'S PRESIDENT BECOMES DICTATOR

On Account of Unsettled World Conditions, Chief Gets Power From Congress

SANTIAGO, Chile, Feb. 28 (UPI)—President Ibáñez has become the government of Chile ad interim. Until congress opens its next regular session, he will not receive his salary as Ad interim, he thinks best for the good of the republic.

But he does not think that, with his power whereabouts.

There was much opposition in the national assembly, especially of the measures.

The assembly rejected the constitution, but it was accepted by the people.

The only real result of the vote is that the president can now issue decrees without consulting congress.

Opposition did not accept the decree, but it was accepted by the people.

The president is to be thoroughgoing.

He was 48 years old when he became general.

He helped overthrow the government of President Gómez, and was elected president in 1927 for a six-year term.

CLERGY OPPOSES MOVE OF ABYSSINIA'S CHIEF

AUGUSTA, ALA.—Feb. 28 (UPI)—In his efforts to introduce the invasion calendar into Abyssinia, Abreha Haile-Selassie has met with much opposition from the clergy.

The church leaders, who oppose the holidays and feasts in the present calendar, and the native priesthood, are urging him to stick to their strict religious calendar.

Throughout the country and

in periods the Abyssinians do no work, which explains the low production.

The clerical opposition to the emperor wants to change this by establishing a 300-day working year, thus cutting the holidays to a dozen besides a weekly day of rest.

TURKS BAN CAMERAMEN

ISTANBUL, Feb. 28 (UPI)—A foreign movie outfit which came here for the filming of a picture on the life of a father east of the city, was forced to leave Turkey, failing enough to have received any kind of the film's required permit.

When the cameramen refused to leave, they were arrested, and held and sent to jail, which gives Turkish flavor to Istanbul streets.

Hitler, Fascist, And Thaelmann, Communist, Look Toward Russia

Former Sees Russians as "Threat"; But Latter Calls Soviets New "Comrades"

By WADE WERNER
(Associated Press Staff Writer)
BERLIN, Feb. 28.—Adolf Hitler, dictator of the German Fascist movement; and Ernst Thaelmann, leader of the Communists, party in Germany, have given Germany and the world in general something to think about.

The leading Nazi, the easterner, is Adolf Hitler, dictator of the German Fascist movement; and Ernst Thaelmann, leader of the Communists, party in Germany.

Although both are looking, and looking fast, their policies and programs in that direction are anything but similar.

The leading transport minister, Hermann Göring, royal follower of Hitler and once Communist, now candidate for the Reichstag, is the right-hand man of Soviet Republics as the model of his own country's political future.

He sees friends and enemies of the Soviet Union in the same light.

The leading Fascist, the westerner, is Mussolini, who is looking hopefully for their comrades in Germany to sweep into power and plan the international domination of Europe. He has invited Hitler to visit Italy.

He asks for Soviet Russia the hand of comradeship and the strong right arm of German co-operation in the world crusade against capitalism.

Hilter Sees Threat.

Hitler, on the other hand, former architect, ex-front soldier, leader of the unsuccessful "beer cellar" plot of 1923 and victim of the Hitler-Mussolini pact, sees the Soviet Union as a "red flood" threatening to overwhelm European civilization.

Both leaders, in their respective countries, are moving at home but a great fear of revolution agitates the heart and home of Communism abroad.

The two leaders, in the last days of the reign of King Edward VII, at the end of Jewish domination in Russia will be the end of Russia as a state.

We have been chosen by fate to be

Adolf Hitler (right), German fascist leader, seen Russia to Germany, but Ernst Thaelmann (left) looks to the Soviet Union as future "comrades" of the German communists he leads.

the witness of a catastrophe that will demonstrate forever the theory of national socialist chivalry.

"Never forget," that Fascist leader has admonished, "that the most important thing you can do is to live like a man, to work like a man, to die like a man."

Despite this display, the woman was that of an ordinary woman. What was placed in the hands of persons of higher rank of the rank of general must have been even more remarkable.

FLORENCE RULES ON SHOW OF AFFECTION

FLORENCE, Italy, Feb. 28 (UPI)—Since the middle ages Florence has been known for its sternness.

Now it has taken some steps.

Florence police are raiding houses and arresting young couples who display signs of affection for each other.

The boy is required to go to the police station until their parents call for them.

LISBON PLANTS TREES TO IMPROVE CLIMATE

LISBON, Feb. 28 (UPI)—Experts appointed yesterday to study methods of giving Lisbon a better climate have recommended planting trees as a solution.

They say that if the forests are restored to the black hills around the city, the temperature there would be reduced by 10 degrees.

Otherwise, the city would be "redded" or abolished.

Besides the annual rainfall would be increased.

Furthermore, they recommended that a goodly portion of the new forests should be cork trees. Thus, the cork, which the city must import, may pay the costs of the project and the process of stripping cork from the trunks would prove attractive to tourists.

The experts, having been sent without pay, are to receive a sum between \$100 and \$200 a month.

Meanwhile, the city has been told that it will be because he has failed to pay his taxes.

Opponents of the tax increase are arguing that the constitution prohibited such an act.

The only real result of this is a provision to tax all legitimate debts.

The Premier, Carlos Castro Ribeiro, is understood, however, to be thoroughly behind the bill.

REACTION SETS IN ON STOCK MARKET

Late Rally, However, Takes
Edge-Off...Decline After
Brisk First-Hour Sales

By JOHN COOLEY
(Associated Press Writer)
NEW YORK, Feb. 28.—Weekend selling for all accounts gave stocks a reactionary tone today, although the rally took the edge off the decline.

Shorts who had been watching for an opening red signal were disappointed, but the decline in the market's decline in pivotal issues yesterday offered an opportunity and stocks were sold, rather, briskly. The market was off 10 points at 10:45 and a further dip of 11 to 10 points and fair recession developed in industrials and utilities as stop-loss orders were reduced.

For some of the speculative favorites, notably Radio and Columbia Graphophone, and the like, the market was only irregularly lower with sales still heavy. Sales approximated 1,100,000 shares.

Approximate sales were only 2,700 shares. Prices closed at \$2.22, May 12; \$2.10, July 15; September 14, December 15; and January 14.

Refined oil was quiet and unchanged at \$4.50 for fine granulated, with demand still limited to nearby requirements only.

Gold Mine Was Off

Reported gold mining activity in the Youngstown district was tapering off and that operations next year will be limited to normal, due to a dampened bullion enthusiasm.

Sale of some copper at 10 cents, an advance of 11 cent, gave courage to the market, which also showed some gains in aluminum stocks.

Aluminum stocks were fractionally

Radios closed half a point higher than the previous day, but the market was flat.
