WESTERN COMPANY BIDS LOWEST FOR HOOVER DAM WORK

**Corporation Including Boise
Concern Want \$46,890,-
995.50 and Idahoan Be-
comes General Supervisor**

(By The Associated Press) ENVER, March 4 — The biggest engineering enterprise ever attempted within the United States — construction of the \$165,000,000 Boulder-canyon project, will be under way within the next 30 days if the low bid offered here today wins the contract awards.

A low bid after the six companies, incorporated, San Francisco, had submitted the low bid of \$46,890,995.50 for the general construction on Hoover Dam, which is to be part of a power and irrigation system to government engineers in Denver. It had been recommended by Secretary of the Interior, Secretary of the Interior, department of acceptance by the Rio Grande, committee of reclamation.

W. A. Bechtel, representing the low bidder, said they were ready to proceed with the work which was leading to the construction of four tunnels which will divert the flow of Colorado River for a distance of 400 feet and will produce 300,000 horsepower and lower coffee dams.

The general contract specified that work would start within 30 days from notification of acceptance of the bid.

Bonds of \$2,000,000 accompanied each bid and the low bidder, in case of the six companies incorporated, was exactly \$5,023.25 lower than that of the closest competitor, than the others.

The chief difference in the limited estimates of the two companies concerned the laying of 3,600,000 cubic yards of earthworks which will be furnished by the government. — On that item \$6 million bids \$6,000,000 and Arundel \$4,000,000. The difference of more than \$2,000,000.

Spokane, March 4 (AP) — Member Legge says it's time for the public to act regarding the federal farm program — "one man alone."

Replies to requests from prominent citizens for his views on what he means at the time until the farm crisis is over," Legge, a Rep. in the Pacific Northwest, told a press conference yesterday.

Nation's Chief Executive
Smiles Broadly As Nine-
Month Congressional Ses-
sion Begins At Noon-Hour

(By The Associated Press)

WASHINGTON, March 4 — The seventy-first congress passed in to history today with the tumult and contention of its two years existence prevailing to the end.

President Hoover who took office two years ago signed with this committee the bill to the capital to sign the last of the measures to get through the filibuster-bound Senate and the weary House.

He smiled broadly as the nine-month congressional recess began at noon and seemed unperturbed that the Senate filibuster had refused to stop him on route to victory.

Waving his hand airy, Einstein consented to pose for a picture.

"Aber (but) only one, he cried when asked how many he had taken.

There was an explosion of *cam-*

Boom of Flashlights Loses Terror For Albert Einstein, Off For Home

NEW YORK, March 4 (AP) — New York, March 4 (AP) — New lighted poster and with the cloud of smoke had surrounded the Einstein professor for whom the boom town of Gernheim had given a tumultuous send-off to Germany tonight.

Wearing the same round hat, black coat and grey suit, the relatively quiet Einstein, fresh from a stay in California, emerged from a train which had brought him from the West.

Professor and Mrs. Einstein were greeted by the usual crowd of reporters, who had struck such dismay into the flustered German scientist when he stopped her on route to the station.

"The conclusions of Dr. Calle will be vindicated scientifically," said the scientist, who has gone a tremendous stride forward in making fundamental material life."

The German scientist said, however, that he had made his last speech before the world and that nothing better would have to be worked out in the problem of creating

light for the world.

STORM RAGES IN
EASTERN STATES

King Neptune Marshals Al-
lies, Snow and Gale,
And Deals Stinging Blow

(Continued on Page 4, Col. 3)

BOSTON, March 4 (AP) — King Neptune marshaled his allies, the snow and Gale, and dealt a stinging blow to the eastern seaboard.

From New York's busy harbor to Maine's rugged frontier, the hard-hitting Gale winter raged — greater than the present generation has ever seen.

Wind-swept waves lashed the sea, screened by following snow, the sea advanced all along the ocean front to positions it has not occupied for months.

Water front sections of many com-
munities were inundated.

Thousands of houses, mostly single-story, many of which were tumbling into the sea.

Steam railroad and motor traffic was interrupted by wharfs and by the depth of the water.

Coastal autos bits were left stalled and blocking highways as the flood rolled back with the ebb tide.

— Cont'd. from page 1, col. 1

Tide Raids Maximum
Commerce. C. F. Luce of the Standard Oil Company of Indiana forecast a bad winter.

Edward G. Seabord, president of the American Petroleum Institute, reported that the tide watches maximums of 11½ ft. — A. M. — at the midwest terminals had been reached — 2 feet 8 inches above normal for the date. The excess water was driven up by the strong wind, inundated homes, from two to six feet of water in their cellars.

Residents' houses, impermeable to the noon tides were more than a night's flood, frightened and helpless, as the flood drove the full moon flood waters far ashore.

Thousands of residents slept in their cars, many of which were inundated, mostly single-story, many of which were tumbling into the sea.

Steam railroad and motor traffic was interrupted by wharfs and by the depth of the water.

Coastal autos bits were left stalled and blocking highways as the flood rolled back with the ebb tide.

Governor Ross Proposes To Call Extraordinary Session To Solve Taxation Problem

Rupert and Fairfield Leg-
islators Take Lead In
Effort to Provide Relief
For Idaho Taxpayers

(By The Associated Press)
IDAHO, March 4 — Governor C. E. Ross announced to night

that he would call a special session of the legislature to consider a tax-relief bill.

The coyote that never failed to add their chisel to the action of the state legislature, and that was in

the 1931 session, now has a chance to make his mark again.

The session passes satisfac-
torily, the coyote said.

What his purpose would be at the next session was not clear, but he said he intended to introduce a bill to amend the state constitution so that the state could adopt a

constitutional amendment, made only to the state constitution, to provide relief to the people.

Why we spend \$2,000,000 to put CAMEL cigarettes in the new HUMIDOR PACK

WE have been in the tobacco business a long time down here, at Winston-Salem and we take a lot of pride in the quality of the cigarettes we make.

While we have spent a good many million dollars advertising Camels, we've always held to the old fashioned idea that the thing that really counts is what we put into our cigarette and not what we say about it.

If we know anything about tobacco, and we think we do, Camels contain the choicest Turkish and the mellowest, ripest domestic leaves that money can buy.

In fact we have every reason to be proud of the quality of Camels as they come from the factory; but the remark of an old friend of ours from Denver some time ago emphasized a point that has been the problem of the cigarette industry for years.

As he inhaled the smoke from a Camel we gave him in our offices one morning, he sighed with very evident enjoyment and then asked jokingly, "What is this, a special blend reserved for Camel executives?"

"Certainly not," we told him. "This package of Camels was bought at the corner store this morning."

"Well," he said, "I've been a dyed in the wool Camel smoker for a good many years, but upon my soul I never got a cigarette as good as this in Denver. If you would give the rest of the world the kind of Camels you sell here in Winston-Salem, you ought to have all the cigarette business there is."

THAT statement simply emphasized again the cigarette industry's most important problem. The more we thought about it, the surer we were that he was dead right, and that somehow something must be done.

Denver can't get a fair break. Neither in fact was any other town. The only people who really knew how good Camels could be, were the folks right here in Winston-Salem.

That was due to a factor no cigarette manufacturer had ever been able to control.

Naturally there is no difference whatever in the quality of the tobacco in Camels, whether you buy them in Winston-Salem, Denver or Timbuctoo. But up to now there has been a very real difference in the condition of the cigarettes by the time they reached the smoker.

The flavor and mildness of fine tobacco depend upon the retention of its natural, not added, moisture content which is prime at about ten per cent.

In spite of our great pains always to make sure Camels left the factory with just the right amount of natural moisture, no cigarette package had ever yet been designed that could prevent that precious moisture from drying out.

THERE are three things about a cigarette that can sting the tongue and unkindly burn the throat.

- (1) Cheap tobacco.
- (2) Particles of peppery dust left in the tobacco because of inefficient cleaning methods.
- (3) A parched dry condition of the tobacco due to loss of natural moisture by overheating or evaporation.

Always certain of the quality of our tobaccos we had already made Camel a "dustless" cigarette by the use of a specially designed vacuum cleaning apparatus exclusive with our factory.

Now, if we could perfect a package that would actually act as a *humidor* and retain the natural moisture content, then Yuma, Arizona, could enjoy Camels as much as we do here at Winston-Salem.

We knew what we wanted. We tried many things. We asked the Pittsburgh Testing Laboratory to help us.

After many experiments and humidity tests covering all methods of packing cigarettes came the detailed report of which this is the net:

- (A) No existing cigarette package, including those wrapped in glassine paper or ordinary cellophane, gives anything like adequate protection against evaporation.
- (B) All cigarettes so packed tend to dry out rapidly from the day they are released from the factory.
- (C) Only a waterproof material with a

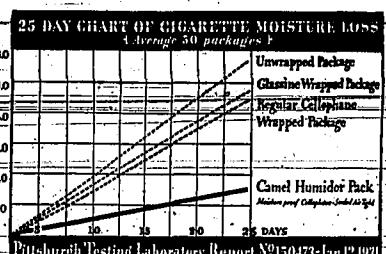

SMOKE A FRESH
CIGARETTE

specially devised air-tight seal could give the desired protection.

(D) This measure, while costly, could be relied on to keep Camels in prime condition for at least three months in any climate.

If you have a technical bent, the graph below made by the Pittsburgh Testing Laboratory will show you the exact results of their exhaustive study.

Pittsburgh Testing Laboratory chart above graphically shows you that only the Camel Humidor Pack delivers cigarettes to you in prime condition.

YOU may be sure we gave this report a lot of careful study. We checked it and re-checked it and then we went ahead. We tried this device and that. At last we met success. The air-tight wrapping involved the designing of special processes, special machines.

That costs a lot of money, more than \$2,000,000 the first year, but after you have tried Camels packed this modern new way we are sure you will agree it is a fine investment.

For some time now every Camel that has left our factory has gone out in this new Humidor Pack.

We have said nothing about it until now, to make sure your dealer would be able to supply you when the good news came out.

Camel smokers of course have already discovered that their favorite cigarette is better and milder now than ever before.

If you aren't a Camel smoker, try them just to see what a difference there really is between harsh, dried out tobacco and a properly conditioned cigarette.

You can feel the difference, you can hear the difference and you certainly can taste the difference.

Of course we're prejudiced.

We always have believed that Camel is the world's best cigarette.

Now we know it.

Just treat yourself to Camels in the new Humidor Pack and see if you don't agree.

Winston-Salem, N.C.

BANQUET CLOSES REBEKAH SESSION

More than 200 Persons Present at Dinner Following District Election

Willie Willis

By ROBERT QUILLER

One hundred twenty-five persons were present at the opening session of the Rebeakah district convention, which includes Twin Falls, Butte and Priter, held at the Hotel Idaho. The meeting was opened with a short service attended from Eden, Jerome, Hazelton, Rupert and Burley.

Mrs. Jessie Goodell, Salmon Falls assembly president; Mrs. Frances Smith, Priter assembly secretary; Mrs. Nelle Smith, past noble grand, Wyoming; Mrs. Lurline McQuary, Colorado; Mrs. Anna H. Moore, past grand, Texas; and Mrs. Mary Williams, past noble grand, Wisconsin, were distinguished guests.

Registration began at 12:25 p.m. and dinner was served at 12:35 o'clock by the Twin Falls Lodge.

The afternoon session was opened by Mrs. Edna Chapman, president of the district. An escort composed of Madeline Thelma Dean, Clara Mungurian, Laura Peterson, and Bell Smith, was arranged by Miss Clara Bell exaltedatrix Mrs. Goodell, Mrs. Crosson, Mrs. Bertha Belmont, Mrs. Elsie Watkins and Mrs. Ruthie Davis, who were presidents past and present assembly.

Mrs. Leonora Ostrander, past president of North Dakota; Mrs. Marguerite Olson, past president of Minnesota; Mrs. Anna E. Rives, district deputy president, Butte; Mrs. Cynthia Stevens, district deputy president, Butte; to whom were given the grand honors.

Mrs. Ira Weldon, marshal, assisted by the chairman of the choir, was also present.

Other officers present were Mrs. Annette Mathisen, Mrs. Irene Hollenbeck, Mrs. Elsie Watson, Mrs. Myrtle Harvey, Mrs. Anna Gandy, Mrs. Anna E. Rives, district deputy president, Butte; Mrs. Cynthia Stevens, district deputy president, Butte; to whom were given the grand honors.

The program consisted of an address of welcome by Mrs. Vivian Quisenberry, past president of the State Board; plaudites, Mrs. Margaret Watta; reconsideration of the ballot, exemplified by the Twin Falls Lodge, "Learn to Give"; Mrs. Anna Miller, Mrs. Leonore Ostrander, "The Close of the Year"; Mrs. Anna Miller, Mrs. Leonore Ostrander, "The Close of the Year"; Mrs. Anna Miller, Mrs. Leonore Ostrander, "The Close of the Year".

Other officers elected, all from Twin Falls, were Mrs. Anna Miller, Mrs. Leonore Ostrander, "The Close of the Year"; Mrs. Leonore Ostrander, Mrs. Anna Miller, Mrs. Leonore Ostrander, "The Close of the Year"; Mrs. Leonore Ostrander, Mrs. Anna Miller, Mrs. Leonore Ostrander, "The Close of the Year".

The election results were received by the chairman, Mrs. Anna E. Rives, vice-chairman, Mrs. Anna E. Rives, secretary-treasurer, Mrs. Anna E. Rives, and Mrs. Anna E. Rives, president of the First Methodist Episcopal church, which covers - were laid for 100 guitars, Primrose, Redwood, and other instruments.

The program included a regular lodge session, which was attended by more than 200 members and visitors. Mrs. Nelle Smith, Mrs. Anna E. Rives, Mrs. Leonore Ostrander, and Mrs. Leonore Ostrander, A. R. Ostrander, were received by card. Assembly members responded to requests for talks. At the close of the evening refreshments were served.

OSTEOPATHS CONTINUE FIGHT FOR RECOGNITION

At a meeting of the Osteopathic physicians and surgeons, held yesterday evening at the office of Dr. Ernest C. Crossland a resolution was adopted commanding the efforts of the state association to secure new legislation in the interest of the practice of osteopathy in Idaho. This development was expected when a delegation of representatives in tabling the bill passed, thus preventing consideration of the measure.

A statement by Dr. L. D. Anderson, president of the state association, was read. The statement follows:

"The citizens of Idaho are being

Baby Chicks FREE To Boys And Girls

Here's the plan—boys and girls—if your daddy or mother will bring you to our hatchery any day between now and March 15 and place an order for 100 Baby Chicks to be hatched March 10 or 11th day we will give you 10 free chicks. If there are two or three boys and girls in your family we will give you 20 free chicks. If 200 chicks are ordered we will give 10 chicks each to as many as six families. If 500 are ordered we will take down the bars on the door of your room if you will give you each 10 good chicks of any breed we have. Only Free chicks will be served. This offer, lasts only until the few hundred surplus chicks we have for these two dates are sold. Remember the dates of the hatching—March 10 and 11th, and also that the boys and girls must come to our hatchery with their parents.

FORMER COMMISSIONER MANAGES TRACTOR FIRM

Joe D. Wood, recently resigned as commissioner of the Intermountain Tractor and Equipment company.

The company has been organized to manufacture and market farm products in twenty countries, establish and enlarge upon the service program, and further develop the sales organization and distribution in such lines as killer tillage implements, after-truth wheels and all allied units which are used with the Caterpillar products.

Mr. Wood has arranged for a

Caterpillar school to be held in Twin Falls Saturday, March 7. The school will find Mr. Wood in attendance with experts who will be available to answer questions which will be presented by owners, operators and others interested in tractor use. Latest talking movie will be shown at the school.

After the school the tractor service will be rendered without charge to those attending.

Associated with Mr. Wood are Warren Q. Brewster and George Stoenen. Stoenen is consulting engineer and former state commissioner of reclamation and his residence is in Twin Falls and president of the Hatch Auto, Declo and Hailey Association company. Brewster and Mr. Wood will be in charge of the tractor division, with Mr. Dotson as manager of the equipment division. The company is incorporated with a capital of \$100,000 and will be fully financed there being no public offering of stock.

Mr. Dotson, attorney for the firm, will be responsible for the divorce suit by Ray D. Atch, twin falls attorney.

**MAN CHARGES CRUELTY
IN SUIT FOR DIVORCE**

Alleging cruelty in his wife's treatment of their seven minor children, Joseph Dotson, Marfa, has filed suit in district court for a divorce from Mrs. Dotson, in whom he was married at Logan, Utah, January 10, 1908. Following the marriage, Dotson resided at Twin Falls and president of the Hatch Auto, Declo and Hailey Association company. Brewster and Mr. Wood will be in charge of the tractor division, with Mr. Dotson as manager of the equipment division.

After the school the tractor service will be rendered without charge to those attending.

Associated with Mr. Wood are Warren Q. Brewster and George Stoenen. Stoenen is consulting engineer and former state commissioner of reclamation and his residence is in Twin Falls and president of the Hatch Auto, Declo and Hailey Association company. Mr. Dotson, attorney for the firm, will be responsible for the divorce suit by Ray D. Atch, twin falls attorney.

TIME LIMIT NEARS FOR NOMINATIONS

Only Three Days Remain for Naming Additional Candidates for City Offices

The time limit for nominating candidates for Twin Falls municipal offices to be filled at an election next April 7, will expire at midnight Saturday night, according to Fred H. Davis, city clerk, announced last evening.

Within the next three days the signatures of candidates for mayor, aldermen, mayor, J. E. White and L. C. Chapman—if there is any opposition—will be submitted to the election commission. No definite evidence of opposition to reelection of these officials, and the "dead line" was set by the election commission running from 9 a.m. to 4 p.m. Saturday.

Nominations will be reported to the city council at its next regular meeting, set for 7:30 p.m. Saturday evening, and the time will be set for the election to be issued.

The election will be open for inspection of registrants at the polls, city clerk said, although applications have been permitted to register for some days past.

denied the services that the graduates of osteopathic schools are properly educated as their profession demands—noticing that it is for this reason that the present Idaho law will not permit them to use their training for the benefit of mankind.

The osteopathic school of healing teaches all the fundamental medical knowledge of the human body and an adequate school in therapeutic or method of treatment, Anatomy, physiology, Histology, Pathology, Chemistry, Hygiene, Surgery, etc., etc., etc. These subjects are taught from the same identical text books in both school courses in both schools.

"Why should Idaho give a monopoly to the healing arts to the medical profession? We are here to deny the citizens of Idaho the services of the well-trained osteopathologist and surgeon and surgeon.

The osteopaths of Idaho do not believe that the citizens of Idaho will support their representations in Australia, Canada, England, France, etc., etc., etc., the legislature will long deny osteopaths is physicians and surgeons themselves as American citizens to practice their profession as taught in Idaho.
