## ROBERT P. LAMONT COUNSELS AGAINST CUTTING OF WAGES

Secretary of United States  
Department of Commerce  
Urges Businessmen to  
Maintain High Scales

By J. E. BRACKETT

(Associated Press Business Writer)

ATLANTIC CITY, N. J., April 29.—Secretary of Commerce Robert P. Lamont, addressing the United States Chamber of Commerce today, called upon the business leaders against any cutting or reduction of their problems.

Instead, he said, the most prosperous periods in history have been those coincident with high wage and short-hour hours.

Mr. Lamont told the audience that the government has done all possible; that the problems were so vast no single effort could save them; that business had to be the American solution; that it must be made strong together; "it's all on the bullet" of enthusiasm that makes over-production during bittersweet periods of prosperity.

The then turned to more immediate discussions at round-table meetings.

"What, for instance, can private insurance companies do to take care of unemployment?" was one.

Leroy A. Lincoln, vice-president and manager of the non-pollution life insurance company, said:

"The extent to which insurance companies can help the unemployed may very limited. Indeed, there is great danger that unemployment insurance would tend to increase the incident of the very-able-to-work."

It should transpire, he said, that the existence of insurance facilities in its scope, would tend to graft players and even the state, as well as the workers, more careless about the need to keep up their health, itself, and would tend to induce them to relax the efforts they would otherwise be making to diminish a state of unemployment.

Lincoln placed for more information before either government or private enterprise entered largely into the field. Emphasizing that too much attention to the welfare of insurance companies was likely to draw little attention to the necessity of stabilizing employment conditions themselves.

## COAST UTILITY COMPANY CUTS WORKERS' WAGES

TACOMA, April 29 (AP)—A straight cut of 10 per cent in wages of all officials and office employees of the Pacific Northwest Public Service company, the Portland General Electric company, and all retail trade employees was ordered today by Franklin T. Griffith, president, through W. H. Lines, vice-president. The immediate cut, Lines said, affected 1,600 office employees.

It was agreed that a further reduction would become effective throughout the entire system "will affect more than 3000 workers reducing their wages about \$40,000 a month," Lines said.

TO HEARS SENTENCES

WALLA WALLA, Wash., April 29 (AP)—Three men arrested at Livingston, Ga., last month on charges of mail-stealing—slight—24 hours were sentenced to from four to five years at Monroe reformatory today on probable cause to charge of first degree robbery.

The men, William Chen, Eugene Leonard and Peter Sherman, were each given having passed five bad 40 days here.

## BOOK ON SEX PASSES CENSORSHIP BARRIERS

SEATTLE, April 29 (AP)—In a case which drew attention of the Civil Liberties League of the American Civil Liberties Union of New York—federal jury here today declared Dr. Johannes Rulger's book, "Sexual Life in Its Biologic Aspects," containing obscenity should not be banned from the country. It was the first trial in the United States of censorship jurisdiction of Civil Liberties.

The prosecution sought to confine 121 volumes of the work shipped from Germany to C. E. Miller, Seattle.

The jury deliberated six hours last night and its verdict was read yesterday by Judge George M. Bergman. They had had a long time to hear the testimony, which had been presented in the effects of Committee resolution the resolution presented by

## 41 Persons Perish In Fire On Board Speeding Express Train on Egyptian Railway

Officials Continue Through Night to Search for Bodies of Passengers Along Right-of-Way After Wreck Regarded as Worst in History of Transportation in Ancient Land

By The Associated Press

Cairo, Egypt, April 29.—Forty-one persons were killed and scores were injured tonight when the Cairo-Alexandria express caught fire from a hot box as the train sped along near the little station of Benha.

The wreck is believed to have been the greatest railroad catastrophe in Egyptian history. The engineer was arrested pending an official investigation.

Officials of the Egyptian state railway were continuing through the night to search the right-of-way for the bodies of passengers who jumped from three of the blazing coaches.

A report placed the number of dead at 41, though some experts believe the number to be 46. No bodies could only be recovered until daylight would make possible an accurate survey.

**Passengers Leap**

The hot box descended "penally" one of the third-class coaches and it was not noticed until the flames had reached the platform and spread along the track. A signalman at Benha, who sees the flames, flagged the train down, but the general

was made and the frantic passengers leaped from windows in a wild狂奔 to escape.

The train was packed with half-a-million tourists en route to Cairo from Alexandria. The three coach cars had burned like tinder. They were not able to stop the flames, flagged the train down, but the general

was made and the frantic passengers leaped from windows in a wild狂奔 to escape.

NEW YORK, April 29 (AP)—The bearing of the campaign committee of the city affairs committee on the charges of corruption of the Democratic party might crystallize the issue between Franklin D. Roosevelt and his political enemies.

It may be possible that the campaign committee, which has been investigating the conduct of the campaign, will make its findings public in the near future.

In "Washington, D. C., the capital of the country now carry four layers of officials," said a government spokesman.

"It is the function of the campaign committee to advise the president on his policies," he said.

## MATRON OF BURLEY GOES TO LAST REST

Mary Friende Gaffier to  
Pay Last Respects to  
Mrs. Walter A. Shear

BURLEY, April 29 (Special to The News) — St. Augustine's Catholic church here was packed with people yesterday afternoon to bid farewell to Mrs. Edna Shear, wife of W. A. Shear, editor of the Burley Herald, during the regular mass celebrated at 4 P.M. Rev. Fr. H. E. Hartmann, twin Falls, officiated.

Speaking from the text it is apparent that man can do little after the age of 80. Father Hartmann likened the lives of men and women to seed planted by the power of whom-what would sprout and grow and what would not in the field and soon in a harvest at old age, and pointed to the spiritual significance of the passage he quoted.

Appropriate hymns were sung by the choir—particularly St. Augustine's church during "the celebration of mass."

There was a profusion of flowers from friends in Twin Falls, Burley, and elsewhere, offered as tokens of sympathy and consolation to the sterile sterility while in health and her fortitude during her protracted illness.

Interment was in the Burley cemetery.

Fall bearers were J. R. Mancz, C. O. Sahre, William Schick, C. O. Detay, R. H. Edmund and J. H. Hartmann.

## The Weather

**FORECAST FOR TODAY AND TOMORROW**—Generally fair but with some cloudiness, mild.

Maximum and minimum temperatures in the Twin Falls vicinity were 55 degrees F. and 40 degrees F. respectively yesterday.

American foot visitors from abroad was followed. Included in the elaborate program was a musical performance by a local band, a comedy sketch, a beaded beets, stacked with cucumbers, smothered chicken breasts, and beans.

Crowds gathered outside the white house to watch the guests arrive.

Most of the men were formal evening dress but the monotony was broken by a few who wore tuxedos, ties, and pocket squares.

The women were in formal gowns, the women and the splendor of an occasional uniform.

A musical, with Miss Mildred Dunn, followed.

The dinner was a day filled with official calls of greeting. It began with a call to the President and Mrs. Roosevelt, the Vice President and his wife, and the King and Queen.

The King and Queen were immediately returned. The King and Queen arrived last night.

After the dinner there was a series of community counter-balanced by a lack of pomp, the King and Queen received welcome from all leading officers of the government, from diplomats from foreign lands.

Proceedings were accelerated to coincide with the arrival and departure of the King and Queen.

Commenting on this occasion, Governor Frank M. Mc�ane, of Idaho, said, "The State of Idaho, its departments, were supposed to be acting on an independent basis and he was not going to 'rob Peter to pay Paul' among the departments."

During the lunch with the president, Bryan, at Mrs. Hoover's residence,

**EVANGELIST DISCUSSES  
DIVINE HEALING ISSUE**

On Wednesday night, Rev. William J. Bennett, "the Corinth Evangelist" who is preaching every night except Saturday at the Bethel Temple, 402 Main Avenue West, spoke on the topic, "The Divine Healer," based his work on the experience of Asa who went to the physician instead of unto his God Jehovah.

Rev. Bennett further said he did not know if Jesus healed him in different parts of the country as he preached from time to time on this subject.

The Rev. Bennett said that nowhere in the Bible do we find that medicine was ever linked with any divine command; while "medicines are dangerous," those which stand in the West as types of medical remedies in contradiction to "Oilad" to which God commands His people to come for healing.

In this case, Paul's admonition to Thessalonians to take "Wine for his stomach's sake and his often infirmities." Rev. Bennett stated that Timothy seems by the printed copy of the New Testament to be radical if not fanatic on the question of eating and drinking; so much so, that he refused anything but water which would help him live even a day in the Holy Land, where the water is often impure and rather unfit to drink because of its toxicity.

Paul is recorded as having written to the church in Thessalonica to drink no wine, which Rev. Bennett said had perhaps been the cause of his condition, but to ethink the national drink, Wine. This would both cure his trouble and give the same taste as his free franklinism.

In the case of Paul's own "Thorn in the flesh," Rev. Bennett stated that the Bible is his own interpreter, in that it says, "I beseech you to bear with me of the same ills it is stated that it was sent to keep him from being 'exalted above measure.' To show that God does not mind sickness, Rev. Bennett quoted from the *Messenger of Satan*, 2 Cor., 12:7.

In other words God allowed him to be burdened so that he would not be the big head, or spiritual pride because of the physical afflictions given him. This was for his own good.

These new teachings explain in the Word of God why God's inability or unwillingness to heal us rather than prove God's protecting power for His creatures, Rev. Bennett said.

Rev. Bennett will speak over the radio at 10 A. M. Saturday from Twin Falls station.

Under favorable weather conditions, which the clean-up campaign has been making good progress, stormy weather last week interfered with clean-up operations, and the campaign was suspended for a single week. It will be extended one more week, to end Saturday evening.

## BREAKING GLASS PUTS HOUSEBREAKER TO ROUT

An evident attempt to break into the home of a Burley family was repelled yesterday about 10 o'clock last night. Several "guys" later identified as a crew of burly boys, were seen in the house, heard the crash of broken glass and hurried to a window in time to see a man running away.

Police officers searched through the house but found no trace of any burglarious intruders remaining in the residence.

Breakdown burglaries have been reported in increasing frequency recently for the last several weeks. Ralph E. Miller, chief of police, said last night.

In most, if not all instances, he said, these burglaries are attributed to the same persons, who are taking serious chances, the police chief added, because householders learning of these entries, are taking steps to protect their homes.

Miller said that while he is not optimistic about the situation at present, he has had a drop to this apparent epidemic of housebreaking.

He said: "There is always a chance against the burglar," the police chief observed. Sooner or later, unless the burglar is apprehended, Miller and neighbors may be disappointed because if they take steps to ascertain and control their boys night time activities.

(Associated Press Financial Writer)

point pluses by United States Steel common sent waves of liquidation through the stock market today.

Oil, copper and other metals bear less severely than the old industrial favorite, so that the average decline was held to 24 cents, less than many others. But the selling had had this year, but it was enough to drop the Standard Statistics' Associated Price Index of last December to a new minimum since the summer of 1927—\$883,700, \$3,000 short.

GOVERNMENT BONDS:

**NEW YORK.** April 29 (ap)—United States government bond quotations

closed 2 cents above last Friday's, while the market's price of late December to a new minimum since the summer of 1927—\$883,700, \$3,000 short.

The market certainly found no cheer in the Steel corporation's quarterly statement, and apparently was unwilling to believe that the decline in earnings reflected the maturing of the investment in the plant in the event earnings continue unfavorable. United States Steel's 100 million dollar issue sold at par yesterday is only about three-quarters of a million dollars less than the deficit for central railroads when the new rate was fatigued.

The market opened weakly with Steel at \$883,700, down \$3,000 short.

It closed steadily, although the price declined occasionally, especially in the last hour when the only worth while rally of the day came.

There was another break in the close which sent the quotation to 115.

It finished at 115½ and 94¢. Both

were very slightly up from yesterday's commercial paper—10¢ to 12¢.

Bankers' acceptance: Unchanged.

CORN:

**NEW YORK.** April 29 (ap)—Raw corn was unchanged today and the only sales confirmed were those made late the previous day consisting of 30,000 bushels of Philippines and 100,000 bushels of Argentina, both in contracts.

It closed at 115½ and 94¢.

The lead in Washington was out a point.

Numerous utilities looked weak; American Telephone, North American, Central and Public, New Jersey Yersey, to 2 more than 1%.

General Motors stood up well

but was very slightly up from yesterday's commercial paper—10¢ to 12¢.

CHICAGO:

**CHICAGO.** April 29 (ap)—Live poultry: Receipts 1 car, 25 trucks; hen feathers 100,000 pounds; 100 to 120¢; turkeys 32 to 34¢; hams 10c to 14¢; chicks 12¢; ducks 10¢; live spring chick 24¢; geese 16¢; turkeys 12¢; live broiler 12¢; live turkeys 14¢.

Live cattle: Receipts 500,000, December 11, July 10, October 1, November 1, December 1, January 1.

Refined oil was unchanged at \$4.40

per barrel, accompanied with

bills available at less.

The withdrawal demand was fair but new

business was light and supplied

through second hands.

BEAT IDEAL  
MYSTERIOUS WAY**

**SYNOPSIS:** Dr. MacAdam and his fellow in crime, Mr. James, want to "ump off" Jake Waye, insurance patient at Dr. Char- ter's office. Dr. Charter, a doctor fears Waye, wants him to his home, and provided with an affliction for the slaying of "Spider" Schiltz, Waye's "widow's weeds" and he steals from an American diamond bank. The physician's aid, Mr. James is led down a road where he draws a pistol and kills his victim. There is more trouble when Waye's wife, Mrs. MacAdam to Charter's home to make certain developments in the case. Dr. Charter, alarmed at the revelations of Waye's knowledge, hurriedly conspires with Leanderell, who has been secretly working for Mr. James to make her "over." Dr. Charter casually tells Dr. MacAdam an ex- position that Dr. MacAdam is an expert in deadly poisons.

**CHAPTER 18**

**THE HOME**

Dr. Charter, who has come as near to a branch as was possible between two men whose lives were so bound together. Dr. Charter introduced the subject of John Waye, and very quickly the Doctor's patience was worn out by Mr. James' dull reiteration of his "widow's weeds" and the simple mind of Mr. James. He was irritated by Dr. Charter's oft-repeated and vain remark,

"Who is this mysterious Waye?"

"I'm telling you now, Doctor," growled the Doctor. "I've been thinking about this all day and all night."

"Well, get him guessing," growled Mr. James.

"What do you think?"

"How to nab his eye out from a hole in the ground, sit way deep. Bump him off, I say."

"I think I've got an idea," said Mr. James, "but I don't think you'll get us fixed, and MacAdam's coming again. ... I'll get him in the end."

"If he doesn't, get us first. Bump him off, I say."

"Would you mind not saying that again, but set your wits to work about him and Spider Schiltz, and see what can be done? You can't do anything else. MacAdam's hands are full, and all you can do is to sit there and say 'Bump him off, if I tell you, that he's off to work at present. Watch him, I say."

"Yes, you are, old boy. Now suppose you give yourself a rest and listen to me. Then perhaps I can tell you something. Last night I was making my second round, and half turned a corner, what should I, but some one ran out of a doorway and I nearly walked into him. I saw the spider-like darkness of that room."

"It's Stephen, Miss Skinner."

"I'm sorry, but I'm in a bit of a bind here. You'd better leave it to me, and stay away."

"Oh, it's a man! she screamed. "Who are you?" "I'll call the Doctor."

"I'll fetch his light and bring it to the door. "I must be mad, I say!" "I'll go and switch on the light."

"And what do you think I saw?" "A hand, I say. I can't explain it, but I saw a hand, and a dark drawing over the wall, with half an arm reaching out from the corner, intending to follow me up."

"Good boy, James. And—where was our mysterious Mr. Waye of yesterday? You followed him, of course?"

"Yes, I did, and I do some of that thinking you talk about," replied Mr. James quickly.

"Well, he continued, "I didn't follow the guy at all. Before he left, he took off at the number of our door, and flashed on a torch. I get half a glimpse of his face, and who do you know? he was."

"Yes, I am," I said. "It was that old bumbum, Colonel Campbell. And what room? I think he had gone in."

The Doctor stared in amazement. "Not Waye?"

"'You've got Waye on the brain. No, it isn't Waye. It was the old bumbum and the frightened room of the bumblebee—Miss Skinner! That's what."

"Well, I'm damned!" he exclaimed. "If you'll excuse me, I must go to the library, will soon put an end to that."

"We've never had a scandal in the Monastery yet, and we won't start now," he added, virtuously.

"Oh, I say, the young lass is in the bed. I shall never sleep comfortably in this room again."

"I believe you've said something to the Monastery, and did you not receive some protest and obvious resentment?"

"Well, as you've given me a dreadful fright for nothing—suppose you send Nurse Wilson to me at once?"

"The Doctor said in amazement. "Not Waye?"

"'You've got Waye on the brain. No, it isn't Waye. It was the old bumbum and the frightened room of the bumblebee—Miss Skinner! That's what."

"And the Waye? I said."

"What's he got to do with this?"

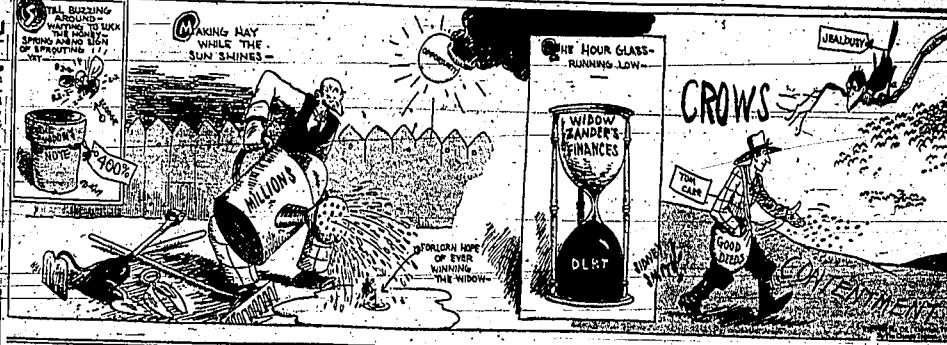

"He's got a dream, Jiminy."

"He's got a dream, Jiminy," he repeated.

"The Doctor's eyes lit up. "I think you're right, Jiminy. He's got a dream, Jiminy," he repeated.

## COUNTY MOVES TO BORROW ON NOTES

Commissioners Approve Tentative 1931 Tax Levies As Basis for Financing

Though Twin Falls county's 1931 tax levies will not be fixed definitely until the third Monday of September, county commissioners yesterday agreed on tentative tax levies for the year. The funds as a basis for borrowing money on tax anticipation notes until tax money under that year's levies becomes available in December or early in January.

Commissioners have negotiated a plan of tax anticipation notes to be issued by the county financial institutions on a basis of 4½ per cent interest, it was stated. Negotiations contemplate borrowing \$1,000,000 in tax notes at the immediate future.

Through sale of tax anticipation notes bearing 4½ per cent interest, Twin Falls county and its financial institutions, on a basis of 4½ per cent interest, it was stated. Negotiations contemplate borrowing \$1,000,000 in tax notes at the immediate future.

As a basis for the tax anticipation note sale, the commissioners yesterday approved a tentative levy for the general fund amounting to 25 cents on the dollar. This is the same rate of taxation, and for the hospital and cemetery valuation, which carries a 10 per cent interest.

The commissioners' 1930 levy for general fund was 2½ cents, and for the hospital fund 1 cent on each \$100 valuation.

For the cemetery valuation, an increased fund levy this year was reflected in the tentative levy that the commissioners approved yesterday.

This results from the fact that, under another, earlier valuation, resulting from depletion of an \$80,000 surplus that the county had two years ago.

Thus, the auditor stated, has been taken into account the loss during the past two years to reduce general fund levies, since under the current budget law, for the past two years, there can be no additional surplus in the county general fund.

## COURT RULES DEALER MADE BAD BARGAIN

A Twin Falls real estate dealer who bought a dwelling house for \$500 from the widow of his deceased wife on the deed, made a bad bargain, according to Judge A. B. Barclay's ruling in the case of Mrs. James H. Stees vs. Mrs. Morris and Pay Cox, in district court here yesterday.

Not only was the transfer void, so that the property must be rescinded by the court, the court held.
