

HEARING OPENS AT WINDY CITY

Idaho Appears With Other
Western States In Defense
of Commissioners

CHICAGO, May 7 (AP) — The interstate commerce commission was given a hearing yesterday by its five commissioners in an abandoned well, Carroll, Illinois, old daughter of Mr. and Mrs. Tom Brower, who found alive tonight by the child apparently suffocated.

The child fell through a narrow opening yesterday, a save in time the opening was not large enough to admit the child. The boy's mother and workers were forced to sink a shaft almost to the well. It was about 25 feet deep.

With a score of volunteers worked in shifts of three and for periods of an hour each. After the excavation had reached a depth of 25 feet along, the well was closed and the workers began to tunnel toward the pit.

When the tunnel broke through into the well cavity, Fred Eddinger, railroad director, rescued the child. More than 1,000 persons witnessed the rescue.

JAPANESE AIRMAN HOPS OFF FOR ISLAND GROUP

NEUROU, Japan (Thursday May 7) (UPI) — Yoshitomo, Japanese aviator, who has been missing from Tokyo to the United States took off at 12:15 P. M. today for Marsh bay, Elmute Island, one of the Kurile group.

He had planned to apply for permission to land at the port of Kansai, near Osaka, and that the committee which was to receive his report was to meet him there.

It was reported yesterday that the Japanese delegation would be present at the hearing. It is expected that the Japanese delegation will be present at the hearing.

Charles E. Woodard, Will H. Sparks and Walter C. Lindsey presided. With the rates promised for inflation June 1, they must be increased to meet the new application for a temporary increase.

The hearing is expected to last several days.

In defense of the interstate commerce commission are the states of Arizona, Colorado, Idaho, Kansas, Missouri, Montana, Nevada, New Mexico, North Dakota, South Dakota, Oklahoma and Oregon. They contend the present rates are unreasonably high. Wood asserted the agricultural conditions have improved so much since the resolution of 1928 directed at examination of freight rates and in the same period the railroad economic conditions have grown worse.

BUSINESS VOLUME REGISTERS GAIN

Twin Falls Banks' Individual Debit Records Basis For Favorable Comparison

Twin Falls business volume, as indicated by Twin Falls banks' records of 45,200 individual debit entries during the past month, compares quite favorably with the figure for the corresponding period last year and shows a gain of \$21,475 over the period of the same month in 1930. These statistics give out through Twin Falls Chamber of Commerce, yesterday.

Individual records for April, past month, except the March total by \$31,695, and are greater by \$1,076, 000 than the February total.

Here are some comparative figures for the past three months:

Jan. 1931, \$4,624,000; Feb. 1931, \$4,641,612

Feb. 1930, \$2,774,883; Mar. 1930, \$4,648,467

Mar. 1930, \$2,228,200; Apr. 1930, \$4,264,966

Apr. 1931, \$4,544,166; 4,612,964

Astronomer Predicts Extinction Of Sun In 150,000,000,000 Years

(By The Associated Press)

MOUNT WILSON LABORATORY, PASADENA, Calif., May 7 — James Hopewell jeans said today, he is convinced that what has been learned about cosmic rays "is proof the universe is going to end."

The noted British astronomer addressed a gathering of astronomers, physicists and mathematicians at the Carnegie Institution of Washington.

The sun, he said, has passed through one-third of its life. He predicted that within 150,000,000,000 years from now, exploding with explosive force, he said, the universe is doubling its every 14,000,000,000 years.

The topic of discussion was the nature of the universe, dependent upon the size of the solar system to be determined.

The use of the sun, estimated the astronomer, is about 400,000,000,000 years. He also believed to be 30,000,000,000 years with analysis of matter determining the age of the solar system to be about 100,000,000,000 years.

On the basis of the theory that the universe is being constantly built up by symbolic changes of atoms, the short time scale would fit in, he said. He believes that the universe is being built up similarly according the long time scale. Robert A. Millikan, of California Institute of Technology here and noted for research work on cosmic rays, takes the opposite view to Jeans.

It is planned to pump water from the lake to fight fires in nearby forests.

For 40 years, Daniels relatives believe this a little, and if I can't, then they're prepared to keep until it.

He is 67 years old now, and alert now as he was 67 years ago when he rode with Stuarts' confederate cavalry and drew a pistol at the rear of the general, E. Lee for his term's thirteen. In 1932, he will be 70. He will be Daniels' chief ex-

NEW YORK, May 6—Changes

in the credit market and the

stock exchange furnished the

outstanding financial developments

today.

Share trading was highly pro-

active and stocks succeeded in

driving United States Steel to the

lowest price since 1921, not allow-

ing the stock market to move

and the market "was" now minimum

for the year. The general list acted

indifferently in the face of these in-

dividual declines, dragging along

with which the market moved and crev-

ed toward the close. Final prices

averaged fractionally higher. Gas

totalized 1,900,000 shares.

Another record was set by the New York Reserve bank's bill buying

rate and its buy-back dealers were follow-

ed by a lowering of the rediscount

rate and the reserve bank's rate

revised discussion as to whether the

local bank whose bill rate is now

5% a per cent will follow the re-

call of the meeting of the directors.

Good Bonds Profit

High grade bonds profited by the

general decline in the market which

now is the most favorable in

history. United States governments

led the rally. It is apparent that one

of the main reasons for the decline

in the bond market was the extension

of aid to the investment insti-

tutes, when conditions are now

more favorable for new financing, either

directly or through the directors.

The poor drive in United States

steels seemed to have been over-

taken in the last week, whereas

the market was still strong in the

other selling. The stock's low

was 10%, down 3%, so that it al-

ways broke the minimum touched in

1929. The market was 10% below

its 1929 high, but the market

was 10% above its 1929 low.

Prudent shorts again profit from

the market's decline. Technical

analysis: Technical, General

and Economic.

Stocks: Absent.

Consumers: Up.

ported to be very active.

KYNOPIST: John Wayne tells Dr. Charles that he will stay in the latter's nursing home until the hanging of the man who has killed Wayne. Wayne gives him a hint that Dr. MacAdoo's deal is off and that Marjorie Lauderdale whose illness had been reported was not really ill. Wayne is disturbed by MacAdoo's "associate demands that the doctor explain why he apparently had been "playing his own game" in the Lauderdale case.

Chapter 21

"A SCRAP OF PAPER"

Dr. Charles receives a momentary respite from the cares of his office when the feebled Mr. James before him resumes: "An old friend of mine," he says, "—Maudie Lauderdale now, who had a lot about me—In fact, I worked with her once—a clear-headed, honest, and courageous woman, with a trustworthy, courageous and with the Ideal facilities for the job. I feel for it at once—... am absolutely safe."

John Nowell, it occurs to Dr. Charles, is the man who has paid the 100,000-pound job, was all the safer for the fact that no soul in the world could possibly know that it was a job...

"The man has come up to Dr. Charles' house and has got it to mind with a twinkle in his eye that's never been blind. Why, she didn't even mention the fee in words..."

"Do you think any good reason why?"

"I don't know. And I don't care."

"And Harry and Louis and you? Not

that I suggest that any member of our splendid team would ever be careless—but accidentally happen in the best possible family?"

"All right, we'll have to pay him back."

"Well, we'll do it, but we'll take a couple of days. If she dies before she's 21, Brother Lauderdale's gonna..."

"And if she marries?"

"Nix till she's of age," replied the Doctor.

"What a wicked will!" observed Mrs. James indignantly.

"Lauderdale's brother has died and left Lauderdale this girl and a

lot of money. He's been a bad sport."

"Can't touch that, either," said Dr. Charles.

"Arr. Well, you see, he trusted Brother Lauderdale and, stably. There's not enough money in the world to make him turn a hair of his head."

"Maudie comes to see me. She's worried about her husband's nice, who lives with them. Such a lovely girl... so rich. She lives here in Twin Falls. See her here. Leave."

"Leave." — "Arrive."
