# SECRETARY MELLON URGES REVISION OF TAXATION METHODS

Cabinet Member in Radio Address Recommends Changes To Regulate Flow of Re-

(By The Associated Press)  
WASHINGTON, May 23  
— Revision of the tax  
system to provide a  
regular flow of revenue was  
suggested tonight by Secre-  
tary Mellon.

In an address over the  
Washington Star Radio For-

This is due, he added, "to the fact that we rely for two-thirds of our

The situation in which we find ourselves at present, with a serious crisis facing us at the end of the year, Mellon said, "raises the question of whether we have yet developed a system to provide the revenue on which the government must be able to count from year to year."

"The estimate of the prospective deficit at the end of the fiscal year, he added, is through borrowing. He said, however, that was "only a temporary expedient."

The continuing policy, he continued, "addressed to conditions as they may be expected to prevail for a considerable period of time, is the maintenance of the present policy of the Treasury, to finance with a balance budget."

Revenues Decline Abruptly

Revenues, particularly those derived from income taxes, have declined, said Mr. Mellon, and the government is now faced with the necessity of raising revenue by other means.

Mr. Mellon said that the government is now faced with the necessity of raising revenue by other means.

...of Agriculture and Industry.

As I said, we shall close the current fiscal year with a large deficit. We face the prospect of a deficit again next year, although we do not yet know just how great that deficit may be.

Meanwhile, it is well to remember that the financial position in which the government now finds itself is not unfavorable for dealing with the present emergency and that it is due largely to the fact that because of the war . . . the government overlooked no opportunity to set its financial house in order and, in manner of speaking, to prepare for the rainy day that was sure to come.

First and foremost, we have put

with beneficial results that clearly apparent.

In the future we must look most to two sources of debt retirement: sinking fund and foreign debt sinkings. In view of the interest on discussion of this subject has been raised, it is well to bear in mind provisions of law governing the content of the public debt.

**Cites Provisions**

In the war loan acts authorizing advances to foreign governments, it provided that repayments of principal made by foreign governments on account of such loans should be applied to reduction of debt.

The other basic provision for retirement of the debt is the sinking fund established July 1, 1929. That consists of a permanent ap-

indeed annually from the revenues for the purpose of reducing. For the current financial year 30 next the estimated purpose will amount to £31,650,000. I am glad to learn that the current year is such that for this year there will be no reduction in the debt, and, on the contrary, be an increase. But in bad times, as we all know, the man who tightens his belt and keeps up payments on his mortgage, we shall continue to make the payments provided by the Government for the purpose of reducing the debt. In the present situation in which we find ourselves at present, with a serious depression facing us at the end of the year, I raise the question as to whether we have yet developed a sufficiently well-balanced system for the purpose of the revenues on which the Government must be able to count.

depend today largely on two  
of revenue: First, internal  
taxes on consumption, and  
corporation income taxes and  
other taxes as those on tobacco  
and estate taxes; and, second,  
duties.

times like the present, when  
they have fallen off, such a  
inevitably results in a severe  
in the government's rev-  
and this fluctuation in the  
of revenue increased by the  
out of capital gains and loss-  
which tend to increase abnor-  
current income in times of res-  
dencies and business expansion  
depress it in period of fail-  
ures and business contraction.  
surpluses which have arisen  
past and the deficit which  
today are due in large mea-  
the fact that we rely for  
of our revenue on the  
tax which is subject

## SOCIAL GROUPS IN BURLEY ASSEMBLE

Clubs, Lodges, Church Organizations and Smaller Parties Enjoy Gatherings

**BURLEY, May 23** (Special to The News)—Social organizations of Burley—clubs, lodges, church organizations and smaller parties—enjoyed a variety of affairs here this week.

The **Winnipeg club** at Burley met Wednesday afternoon at the home of Mrs. Gilbert H. Hogue in the Woodruff apartments. This was the last meeting of the club and officers and committees gave reports of the year's work. Reports revealed that during the year some money had been put on interest in the building fund; two students were financed through the normal school; the club quota for the state endorsement fund has been met and another loan endorsed. The club sent a poster advertising the products of this locality to the state convention held at Idaho Falls.

**Club meetings** for the coming year and plans for the program were discussed. Mrs. A. W. Tolson, Mrs. E. P. McDonald, Mrs. Ottobro, Mrs. Hogue were selected to make out the program for the coming year. Current events were presented by Mrs. C. L. Burley and Mrs. D. T. Tomlin. Two violin numbers were played by Jack O'Brien, accompanied at the piano by Mrs. Hogue. Mrs. E. M. Thomas gave a musical reading after which the Misses Phyllis and Fern Borgman played the assembly with two delightful vocal duets, accompanied by their mother, Mrs. C. Borgman. The club collection was read, followed by a prayer and the flag and assembly singing of "America." The women served refreshments at the close of the afternoon.

A program was given at the **St. Andrew's Lutheran** by Anna Church Tuesday evening, under the direction of Mrs. H. Prosser and Mrs. W. L. White. Forty children took part in a musical skit entitled "Music Makes," which was well received by a large audience. Other special numbers were given throughout the evening. This event was put on by the primary department.

Mrs. Myrtle Smith was hostess to the **Timble club** of the Woodruff at her home Tuesday. A luncheon was served at 1 o'clock, after which the women present worked on quilts. The meeting adjourned to meet with Mrs. M. Smith in two weeks.

A splendid program was given at **Claremont Orange** under the direction of Mrs. Bert Wolf, Wednesday evening. There were about 30 members in attendance. Irene Bellinger, Mrs. G. R. Connelton and Eva Pellant each gave readings. Mrs. Haren Leitch sang a solo. Mrs. P. Kerschling accompanied her at the piano and Mrs. Kerschling also gave a piano solo.

Mrs. John W. Bender entertained members of the **Ladies' Literary club** Wednesday afternoon, May 23. Dr. H. Langford took charge of the literary lesson. A discussion on the topic "Porto Rico" followed and an excellent paper was given by the leader. Current events were in keeping with the lesson.

During the business session officers were elected for the coming year and plans were discussed for the program for study. Mrs. Joe Lundmunden was elected president; Mrs.

A. M. Solomon, vice president; Mrs. H. O. Hall, secretary; and Mrs. D. A. Taylor, treasurer. A social hour and refreshments followed.

**Wednesday Evening Bridge club** members were delightfully entertained Wednesday evening at the home of Mrs. Fred Kuck. Bridge was played at two tables. The high cut prize went to Mrs. Juan J. Dunbar and a dainty lunch was served by the hostess.

Mrs. J. C. Platon, Jr., entertained the **Miller Bridge club** at her home on Miller avenue Monday afternoon, May 19, with eight members present. Tullin were the main decorations in the rooms and on the tables. Mrs. S. Stewart and Mrs. P. E. Wilson received the prizes for high scores.

Some of the music pupils studying under Mrs. Margaret Hill, Jr., for an evening of music, Saturday, May 17, were: Mrs. W. E. Lee Dewey, Miss Frances Dewey, Miss Thelma. Those taking part were: Peggy McMillan, LeRoy Patrick, Freya Anderson, C. St. Louis, Juliana Wolf, Marjorie Anderson, Lucille Thelma, J. J. Smith, Miss Thelma, Barbara Platon, Frances Dewey and Barbara Williams.

Each one present played a piano number from memory. A musical contest was conducted by the leader, Betty Anderson was winner. Miss Frances Dewey was presented with a plaque of Franz Schubert for doing the best work during the last year.

**Quilts**—Quilts were made by the **Misses Lucille McMillan, Helen Oatland and Lucille Platon**. The evening closed with refreshments served by Mrs. Dewey.

The **Old-Time Dancing club** enjoyed a dancing party at the **Aradia** late Friday evening, May 22. There was a large crowd present to enjoy the old-time dances. Bert Wolf had charge of arrangements.

The **Bunshine Better Homes club** met Wednesday afternoon with Mrs. Eva Olson on Hansen avenue. The topic for the afternoon was "Staking of Lamp Shades." The lesson was handled by Mrs. B. B. Stewart who gave a demonstration on the subject. Children's books were also discussed by Mrs. L. Bailey. After the meeting closed, a social hour was enjoyed and was served by the hostess, Mrs. Ada Smith will entertain the group at the next regular meeting.

The **Auxiliary to the American Legion** met Thursday evening at the home of Mrs. K. M. Berg on Miller avenue with a good attendance. The regular business was taken care of and plans for future work were discussed. Committees were named to take charge of selling poppies May 23, with Mrs. Mary Fay in charge. A social hour was spent at the close of the business and Mrs. Berg served a dainty lunch.

Mrs. and Mrs. George Gochmair entertained the members of the **choir of the First Presbyterian church** at their country home Friday evening. Time was spent in rehearsing and a social time was enjoyed afterwards. The hostess served refreshments.

Mrs. S. H. Kusanu entertained a number of friends at luncheon

Thursday afternoon at 1 o'clock, at her home on Conant avenue. The lunch tables were attractive with baklava and tarts.

The afternoon was spent playing bridge. Mrs. Joseph Lynch held high score and Mrs. J. L. Harris drew the cut prize.

Mrs. E. M. Daven was hostess to the **B. P. D. club** at her home on Conant avenue Friday afternoon, May 22. The time was enjoyed playing bridge at three tables. Present were: Mrs. C. M. Oberholzer, Mrs. Potter Howard, Mrs. A. W. Rosecrance, Mrs. D. P. Parke, Mrs. E. C. Davis, Mrs. Henry Daven, Mrs. J. T. Peterson, Mrs. G. W. Kase. Quota besides the club members, were: Mrs. Frank Thomas, Mrs. J. B. Arthur and Mrs. Joseph Lynch. Rooms were decorated with baskets of lilies in pastel shades. At the close of the afternoon a dainty lunch was served at the tables. Mrs. A. W. Rosecrance will be hostess at the next meeting of the club.

Mrs. Edwin Smith entertained at a **waif's supper** at her home Wednesday night. The evening was spent with music and needlework. The out-of-town guests were Mrs. G. F. Taylor.

The **Bon Heur club** members were delightfully entertained Friday afternoon when Mrs. R. L. Pence was hostess. Bridge was played throughout the afternoon at three tables. Purses were presented for high scores

## CASSIA COUNTY WAR ON GOPHERS MOVES AHEAD

**BURLEY, May 23** (Special to The News)—Draught action is being taken against pocket gophers in a Territorial campaign in Cassia county where these little animals have become pests. William Miller, Pocatello, United States biological survey, has been assisting County Agent W. W. Palmer in an eradication campaign.

In localized later Oakley and Dee, where the gophers are becoming a serious menace to crops, control and eradication methods have been put into use. There are two methods to combat these animals—the use of strychnine and the use of traps.

Powdered strychnine is used; it is dusted on small cubes of sweet potatoes, carrots, or parsnips, about one-half of an ounce per acre. The bait is then dropped in the runways made by the gophers. The result has been a marked decrease in the gopher population.

For the afternoon, a dainty lunch was served at the close of the games. Spring blooms were used as the main decorations.

## RED CROSS AT BURLEY OBSERVES ANNIVERSARY

**BURLEY, May 23** (Special to The News)—Observance of the fifth anniversary of the founding of American Red Cross was recognized by local members of the organization at a banquet and special entertainment program, at the National hotel.

Speakers included Mayor K. C. Bader, Henry C. Dierbach and Peter P. Howard, former president, all of whom told of the history of the Red Cross and the principles for which it stands. The entertainment program, under direction of Mrs. Anselm Nielsen, included musical selections and fancy dancing.

**Motor cars are smarter and better-looking every year; why shouldn't tires keep pace?**

Goodyear couldn't figure out any reason, so went to work instead.

Taking the standard All-Weather Tread balloon—the most popular tire in the world—Goodyear styled it deliberately to the 1931 mode.

Every trim clean line of this beautifully proportioned, ruggedly constructed tire attests its right to the title, the smartest thing in rubber.

If you have an eye for style you will want the new improved 1931 edition of the Goodyear All-Weather Tread tire the instant you see it.

# Americans Seek Own Raw Rubber Source in African Jungle

**SPONSORS AIM TO BREAK MONOPOLY OF GREAT BRITAIN**

Company Leases 1,000,000 Acres of Land in Liberia to Provide Plantation

**MANAGER DECLARES SUCCESS CERTAINTY**

Concern Takes Thousands of Young Trees From Sumatra to Begin Project

Tapping for rubber on the Liberia plantation of Harvey S. Piresone (Inset). Each morning the natives cut channels in the trees from which the latex exudes into little cups at the foot.

This is the last of a series of articles by Associated Press writers covering America's struggle to gain a source of supply for rubber, one of the nation's most vital raw commodities.

By R. P. CROWIN, Jr. (Associated Press Staff Writer)

**KRON, O., May 21**—Down into the jungles of Africa, into the Negro-ridden Liberia, has gone American industry in search of rubber—rubber that goes into automobile tires, fair combs, toy balloons and hundreds of other products.

It is another of the battles of American business to make itself self-sufficient, and specifically to break the grip of the British empire on the source of rubber supplies.

There are 1,000,000 acres, leased for 90 years in 1924 by Harvey Piresone, Jr., the American rubber company, in spending hundreds of thousands of dollars to establish a site for Americans to produce their own rubber.

Over 45,000 acres are planted; 12,000 more are soon to be. 100,000 acres are under development, and 900,000 have been explored.

**FERTILIZING WEEDS CAUSES EXTINCTION**

MONTGOMERY, Ala., May 23 (AP)—A "good" way to eliminate weeds is to fertilize them.

That is the paradoxical advice of a chief specialist of the department of agriculture.

The explanation is that fertilizing the weeds also fertilizes the grass. The grass thus enjoys a vigorous growth and also drives out the weeds.

**"MARBLE RACES" AID IN CURING FLAT FEET**

MINNEAPOLIS, May 23 (AP)—They are running "marble" races at the University of Minnesota to help cure flat feet.

Races carry a playing marble between their feet when they run. This forces them to run on the outer edges of their feet, strengthening the arch.

Weakness of the arch is one of the most common faults found by the university's division of orthopedics which regularly has 175 of its students doing special exercises.

## SOCIETY and CLUBS

EDITED BY MRS. E. B. WILLIAMS  
Phone 596

WITH the advent of warmer weather, the closing of school and the beginning of many clubs, society will be devoted largely to visits to the various institutions for pleasure parties, parties at the country club and to numerous in this section and small events for a few close friends.

Mrs. Rose Beech entertained the young members of her music class and their mothers Saturday afternoon at her home on Seventh avenue North. The children demonstrated some of the work done during the season as well as playing solos and duets. Members of the class are Dolores and Louise Campbell, Joyce and Jean Pierce, Marjorie Green, Shirley Ann Thomsen, Gertrude, Virginia Chase, Betty Colbert, Virginia Taber and Gerald Chase. Following the program Mrs. Beech served refreshments.

Mrs. John M. Maxwell are entertaining with a six o'clock dinner this evening in honor of their son, James Maxwell, president and graduate of the year's class in high school. Concert will be held for Edna A. Wilson, H. B. Grant, J. M. Maxwell, Henry and Walter Collier, Donald Bacon, Frank Peavy, Mark, Pelt, John Hahn, Carl Pultier, Maurice Russell, John Anderson, Kenneth Hudson, John Maxwell, Jr. and the guest of honor.

Mrs. Wayne Hall entertained with a ten o'clock breakfast Friday morning at her home on Ninth avenue East in honor of Miss Olga Swenson, high school senior.

**HATT BELIGS TELL OF INDIAN RACE'S TREK TO NORTHLAND**

WASHINGTON, May 23 (AP)—Evidence that the Indians Columbus found in the West Indies were the descendants of a great tribe that migrated from North America to the Caribbean has been discovered by Herbert W. Krieger, scientist of the Smithsonian institution.

**KENTUCKY PLANS TO STUDY INSECT PESTS**

PADUCAH, Ky., May 23 (AP)—Bug that attack Western Kentucky orchards are going to be subjected to scientific investigation.

Seventy-five Twin Falls and Bull friends called Friday evening after the commencement exercises at the N. H. Holt home on Second avenue.

Records of the California Highway Patrol show that persons between 14 and 19 years of age are involved in twice as many accidents as older drivers.

## KIMBERLY RESIDENTS JOIN AT GATHERINGS

**KIMBERLY, May 23 (Special to The News)**—A meeting of the Ladies Pioneer club and a surprise party were social features of the last week.

Mrs. Joe Laughlin entertained Thursday afternoon at her country home for members of the Ladies Pioneer club and guests.

The Local Neighbors Club met Wednesday afternoon at the home of Mrs. E. L. Berry.

# Revival of Rivalry Between "Helens of Tennis" Looms

## Miss Jacobs and Miss Moody Plan To Enter Classic

Followers Attribute Decision of Former Miss Will to Enter Wimbledon Tilt To Feeling Against Rival

By W. A. WELLS  
(Associated Press Sports Writer)  
BERKELEY, Cal., May 23.—If the two Helens of tennis, Helen Jacobs and Miss Moody, plan to enter the Wimbledon tournament, the encounter will add a new chapter to their rivalry.

The net rivalry between Mrs. Helen Wills Moody and Helen Jacobs may add spice to the Wimbledon championships in London. Helen Jacobs is in England preparing for the tournament. Mrs. Moody may make a last minute decision to compete.

## Notre Dame Line Remains Intact But Newer Generation Enters Backfield

(By The Associated Press)  
SOUTH BEND, Ind., May 23.—A new generation of backfield men for the Notre Dame football team is being developed by Coach Knute Rockne. The first three backfielders, Knute Rockne, Jim Crowley, and Eddy Hartwig, are the veterans of the team. The new generation consists of several young men who are being developed by the coach. The first three backfielders are the veterans of the team. The new generation consists of several young men who are being developed by the coach.

## ON THE SIDELINES by Brian Bell

Stanley Raymond Harris probably does not know, but a number of his friends have been disappointed to learn that he is not going to play in the game. The reason for this is that he is not in good enough shape to play. The coach has decided that he is not ready to play. This is a disappointment for his friends, but they understand the coach's decision.

## Auto Runs 59 Miles on Gallon of Gas

Automobile engineers who worked for years in an effort to reduce consumption have found the solution in a marvelous invention that fits all cars. An actual test made by one of the engineers showed 59 miles on a gallon of gas. This is a significant improvement over the average 20-25 miles per gallon.

## Johnny and Jimmy Triumph in Nine of 10 Featured Tilts

Where One of Pair Shoots Bad Hole, Other Makes Up for Deficiency in Exhibition Golf Contests

(By The Associated Press) TWIN FALLS, May 23.—As a general rule there is but one thing certain with brother acts; sooner or later they go haywire.

The history of the Farrrells, the stage, professional line and even sports is littered with the wreckage of brother teams.

There is, however, one outstanding exception. It is the brother act which the Farrrells, Johnny and Jimmy, have been putting on ever since Jimmy undertook to make a national open camp out of his talented younger brother.

In fact, these two brothers have teamed so well on the links that in the last four years they have been held but one even team in ten featured exhibition matches.

That was last year when Gene Baran and Jimmy Farrrell, after the top of his game, played to the eighth hole all even with the Brothers.

**Nine Victories**

In their other nine matches they have never met defeat. They have beaten Baran and Tommy Armour twice; Baran and Jack Cawsey once; down before them this year. Others who have fallen include: Frankie Madden and Tommy Kerrigan; Jack Cawsey and Clyde Ulan; Bill Wadellon and Bobby Crockett; Tom Dolan and Baran; James Swetler and George Veil; Jim Thompson and Dave Stewart.

But the Farrrells are not in other ways. While Johnny is away playing the whole and summer open tournaments, Jimmy has been on the links with him at the best. He always has been the team's business manager.

**Credit to Elder**

It has been largely through the efforts of the elder Farrrell that Jimmy has attained the position to which he has risen in the past few years.

Jimmy has been the star of an open camp of Johnny in the past few years. Jimmy's business ability has made it possible for Johnny to profit by his accomplishments.

Jimmy holds up the business end of the Quaker Ridge Club at Mammoth, New York, in the summer line and St. Augustine in the winter.

He keeps the books and a watchful eye over the professional side while Jimmy is out maintaining his reputation as one of the country's foremost athletes.

Jimmy is big enough to step aside for Johnny, that is, in everything except the team exhibition matches when the two work together almost flawlessly.

Jimmy's bad hole is Johnny's good one. He's what you want to finish and win; when they're checking up on the wrecked brother acts and come to golf, they'll have one outstanding example of a team that has stood up since its formation and is still out there.

**African Studies**

**Yankee Coaching**

BLOOMINGTON, South Africa, May 23 (AP)—The South African Amateur Athletic association is to spend \$200 a year to train American coaching methods.

"It is vitally important to give them a year to enable him to study in America for three years. The association has also appointed Villanueva a member of the South African team for 1932 Olympic games.

**Hurler Gains Fame**

**Despite Smallness**

MIOSH POINT, N. C., May 23 (AP)—Let out by one club because he was "too small," even (letty) Young, has joined the baseball hall of fame with a small, no-run name in the Piedmont League.

Only this season Young was given a "C" by the commissioners of the Piedmont League, but was released because "he wasn't big enough to be a pitcher." He weighs 140 pounds.

JIMMY AND JOHNNY FARRRELL

The Farrrells, Jimmy and Johnny, have teamed as one of the few successful brother acts in sports. Business or what not, Jimmy took his younger brother in hand and made him the 1928 national open golf champion. They've won nine of their last 10 exhibition matches.

## Gopher Track Star Proves Busy Youth

MINNEAPOLIS, May 23 (AP)—Clarence Munn, University of Minnesota lanky who broke the Penn relay ship-out record with a time of 48 feet 7 1/2 inches, is a busy person.

His classes start early in the morning, he works downtown each afternoon, returns for track practice a few hours with the football squad, of which he is 1931 captain, and has his evenings free for studying. That he does plenty of the latter is attested by his excellent classroom standing.

Incidentally, Munn started as a sprinter in track and a football halfback. Now he's a star weight-lifter and a star basketball player.

**Annual Regatta Results in Loss**

NEW LONDON, Conn., May 23 (AP)—In this era of "the water" and "over-emphasis," the annual Yale-Harvard regatta should warn the heart of every reformer of college athletics.

A college boat race is staged at the cost of thousands of dollars, and the necessity of maintaining expensive quarters and to the high price of towing equipment.

State receipts to offset the expense practically fail. The only revenue received by the universities is 10 per cent of the receipts from 3500 tickets on the two observation trains. This amounts around \$100.

**Yanks Help Oxford Win Lacrosse Title**

OXFORD, England, May 23 (AP)—Oxford university's lacrosse team, including six American stars, won the English lacrosse championship by defeating Stockport, 8-4, at Manchester.

It was largely the brilliance of the American stars that carried Oxford to its championship.

Americans on the team were L. H. Parrish, John Hopkin, M. A. Madhryne, Yale; J. F. Olden, Alabama; J. J. McDonough, Chicago; W. E. Berryberry, Tennessee; and D. E. Studiga, North Carolina.

Johnny Butler, manager of the Denver Western League team, fired players \$25 every time they overplayed the 11:00 curfew this spring.

## Wisconsin Track Team Wins Meet

Red-Shirted Athletes Hang Up Victory in Evanston In Annual Competition

EVANSTON, Ill., May 23 (AP)—The red-shirted athletes of Wisconsin were triumphant today in the Western conference outdoor track and field championships, breaking the grip Michigan and Illinois have held on the title since 1917.

After a see-saw battle, the Badgers, showing overwhelming strength in the field events, emerged victors, with 46 points, Illinois was second with 30-5 and Michigan, the defending champion, third with 28-13.

Although the day was chilly, the competition resulted in the establishing of three conference records and the tying of a world mark.

St. Stephen, Illinois, equaled the world record for the 120-yard high hurdle established by Earl Thompson, Dismouth, in 1928.

## American Horses Appear Favorites In British Derby

EPSON DORING, England, May 21 (AP)—From 38 nominations in 1790 to 1924 this year, is the record of the British Derby race to be renewed June 3 with two American horses among the favorites.

Down to the last acceptance date, 192 of the 404 nominated remain in the race, but by June 2 the final acceptance date, the field is expected to be reduced by 80 or 75 more, leaving about the usual score of starters facing the barrier.

Entered often as soon as they are foaled, the colts will carry 126 pounds and fill 121, arbitrary weights assigned by stewards of the Jockey Club.

This year's nominations thus far not scratched include King George's Ashburton, Calabash, out of Blained Glass, one of the seven horses entered which were sired by Chestnutwing, winner of the 1918 renewal of the historic race.

American hopes center on William Woodman's American-bred colt, sired by Sir Galahad, IT out of Gravitate, and Marshall Field's colt, an English-bred horse.

Sir Andrew demonstrated his possibilities as a contender when he galloped home ahead of 10 other early favorites to win the Newmarket stakes.

## Lott and Van Ryn Register Progress

Two Youthful Americans Appear as Likely to Represent Land in Doubles

AUTEUIL, France, May 23 (AP)—George Lott and John Van Ryn, who probably will represent the United States in the doubles if America wins through to the challenge round of Davis cup play, today won their way into the semi-finals of men's doubles in the French hard court championship.

The two Americans swept to an easy victory in the quarter-finals over Jan O. Callins and John Clift, the English pair, 6-3, 6-3.

Tomorrow they will play Fred Perry and G. F. Hughes, the English youngsters, who upset Vich Rognon and Christian Jossens in the quarter-final round, 6-3, 7-5, 10-8.

W. Austin, England's number 1, and G. H. Knapley, the former Cambridge captain, will play the South African pair of V. Kirby and G. O. Farquharson, in the semi-final of the lower bracket.

Mrs. John Van Ryn was eliminated from the women's singles by a little-known French player, Mlle. Jacqueline Odoschmidt, 1-6, 6-3, 6-0.

In the mixed doubles, Betty Nuthall, England, and Dr. P. O. Smeets, Belgium, defeated Mlle. Odoschmidt and Mlle. Metaxa and Andreine Ordelin, 6-4, 6-0, 6-3. They will meet Mrs. Shepherd-Barrett and Austin in the final.

"Snake" Lathrop, professional basketball grappler, quit the mat game two years ago because leading heavyweights would not wrestle him.

## TO PROTECT YOUR HEALTH

and the health of your family is a duty you cannot neglect.

Your family needs VICO—therefore you must protect your own health.

It is your duty to your children to keep them healthy if within your power.

To use polluted water when you can furnish a pure, wholesome supply is criminal.

The Water Automatic Chlorinator for homes will protect you against all water-borne diseases.

You will enjoy the water because of its better taste and the assurance that it is pure.

WRITE OR CALL  
THE WESTERN CHLORINATOR CO., INC.

181 W. Main St. Twin Falls, Idaho

# Super-refined for carbon-free purity

New processes, developed by the world's foremost refining research laboratories, and employed at the Vico plant, give Vico a carbon-free purity unequalled by any other oil on this market. Vico (light medium) is 99.94% carbon-free. This means that there's only .034 of a cubic inch of carbon in a quart of this oil—a mere trace.

It takes super-refining to make oil so clean and pure as Vico. No refinery in America is more modern, more up-to-date, than the plant where Vico is made. This statement has been corroborated by noted oil engineers.

Carbon-free purity is just one of the sensational improvements recently made in Vico. This super-quality motor oil also has a higher flash point—giving it greater resistance to heat; a lower cold test—enabling it to flow more freely when cold; and a better oxidation test—keeping it cleaner and fresher for longer periods of time.

## New Lower Prices

Yet with all these remarkable improvements, Vico is now priced lower than ever. Increased demand from a constantly growing number of intermountain motorists, permitting the manufacture of Vico in larger quantities, enables us to give you the advantages of a lower price.

To show our confidence in the unequalled quality of Vico, we offer it to you with a definite money-back guarantee. You have everything to gain by using Vico. Give it a trial in your car—now!

## ROCKET FANS HOPE TO ENCIRCLE GLOBE IN HOUR AND HALF

Reinhold Tilling, inventor of "Rocket-Powered Sailplane" in Germany, Expresses Faith in Device

By WARD WERNER (Associated Press Staff Writer)  
BERLIN, May 23.—Around the world in 90 minutes is the modern world's rocket enthusiasts have set themselves to the task of preliminary to journeys to the moon and planets.

At least 100 passenger-carrying rockets, even for early designs, have been demonstrated here. Reinhold Tilling, inventor of the sailplane rocket recently shown at Osnabruck, is so confident of the safety and reliability of his device that he has built one big enough to carry him and his passengers to the moon. His rocket is not like a bullet, but spreads its wings like a sailplane.

At an Osnabruck trial, most of the rocket designers agree that no rocket will show what Tilling's can do until it is in the air. The rocket is built to climb into the atmosphere, that outer layer of the earth where the resistance practically drops to zero. Then, at an altitude of 50,000 to 70,000 feet, the rocket is released. It is then that the rocket is released. It is then that the rocket is released.

Once operating in the atmosphere, rocket-powered craft could cross the Atlantic in a little more than an hour. The rocket is built to climb into the atmosphere, that outer layer of the earth where the resistance practically drops to zero. Then, at an altitude of 50,000 to 70,000 feet, the rocket is released.

For the rocket-plane, these would be no handicap. In the rocket plane, the rocket is built to climb into the atmosphere, that outer layer of the earth where the resistance practically drops to zero. Then, at an altitude of 50,000 to 70,000 feet, the rocket is released.
