

SOCIAL GATHERINGS FLOURISH IN BURLEY

Programs at Churches and
Meeting for Women Hold
Prominent Place in Week

BURLEY, June 13 (Special to The News)—Social events have been numerous here during the last 24 hours. Several excellent programs have been given at the various churches.

A mass meeting exclusively for women was held by a large group at the Burley street Friday afternoon, when Montaville Flowers was the speaker on the subject, "Women's Power." A free picture show was shown in connection with this program.

Friday evening a (sawell) party was given in honor of Ina Harris and Royal Pickett, who are leaving soon on an extended mission for the last day of the day. A short program was given as follows: Vocal solo by Miss Winifred Langlois, accompanied at the piano by Miss Celestine Deamer; humorous reading by Mrs. Lela Dalby; short talks by Miss Ina Harris and Miss J. D. Hoggan. The balance of the evening was given over to playing games and dancing. There was a large attendance. An enjoyable evening is reported by those who attended.

At the Presbyterian church an unique program was given in the form of a demonstration of work done and accomplishments attained during the two weeks of Bible vacation school just closed.

About 75 children took part giving Bible verses, skits, and recitations from memory chapters from the Bible and naming books and characters in the Bible.

Mrs. C. G. Areas had charge of the program. She was assisted by the pastor, Rev. Areas, Misses Ruth Story, Ellen May Oberholzer, Madeline O'Rourke, and Henry Dovershak, Jr. Dornell, Mrs. E. M. Gine gave reading. Miss Jane Davis presided at the piano during the entire program. The program was given in a packed house. A similar program will be given by the children of the Presbyterian church Sunday morning in keeping with children's day.

One of the lovely small parties given during the early summer season was given Friday afternoon, June 12, when Mrs. Charles E. McDonald entertained 16 close friends at a bridge tea.

The rooms were made more attractive with the use of flowers in baskets and several large cut-glass bowls of roses. A color scheme of pink and shades was used, with yellow and lavender predominating. Several

which a quality two-course lunch was served at four small tables, each decorated with a crystal bud vase holding yellow rose buds.

The guest list included Madeline E. Nichols, G. R. Somerville, Henry Dornell, H. P. Andrews, W. D. Punt, C. M. Oberholzer, W. R. Clark, L. P. Heitz, Allen Goodman, E. Smith, J. P. Arthur, Frank B. Thayer, J. D. Deamer, A. M. Vincent, V. VanBramer, and Misses Celestine Deamer and Lottie Scholte.

Prizes for lucky scores were presented to—Madeline E. Oberholzer, Clark, Andrews and Deamer.

MAROA WOMEN'S CLUB CELEBRATES FLAG DAY

MAROA, June 13 (Special to The News)—Maroa Women's club met Thursday at the home of Mrs. R. G. Coughlin at Twin Falls, with Mrs. D. C. Sizor and Mrs. Ted Rye assisting. The program included a reading by Mrs. Fred Wilson on the topic, "Our Flag."

Flag day was observed in the program. Two flag contests were enjoyed.

The hostess served a delectable lunch.

SON ARRIVES IN MAROA

MAROA, June 13 (Special to The News)—Mr. and Mrs. Homer Bean are the parents of a son born on June 8. It was reported here today.

RED CROSS AT BURLEY PICKS NEW SECRETARY

BURLEY, June 13 (Special to The News)—Winifred Langlois has been named secretary of the local Red Cross chapter at Twin Falls, with Mrs. D. C. Sizor and Mrs. Ted Rye assisting. The program included a reading by Mrs. Fred Wilson on the topic, "Our Flag."

Flag day was observed in the program. Two flag contests were enjoyed.

The hostess served a delectable lunch.

Mrs. Langlois' appointment was made during the visit of Velma Hoffman, field representative of the Red Cross, who departed Friday after several days visit in Burley and Rupert doing organization work and consulting with Red Cross officials.

Word has been received from the San Francisco headquarters that Charlie Old, swimming and life saving instructor, will have charge of a two weeks' campaign at the swimming pool.

RUPERT EASTERN STAR ENTERTAINS CHILDREN

RUPERT, June 13 (Special to The News)—About 40 kiddies were present at the annual children's party given by Rupert chapter of the Eastern Star Thursday evening at Odd Fellows hall. Arrangements were in charge of the social committee, Mrs. Nellie Randolph served as chairman.

A program of games was enjoyed. Each child was given a toy for a favor. When refreshment time came, and ice cream and cake were served, the children were distributed to the little girls.

The company consisting of the little girls and members of the Star numbered more than 80. Other members of the committee assisting with the evening's entertainment, were Mrs. E. E. Fisher, Mrs. Jim Ross, Mrs. Carl Lippe, Mrs. H. A. Baker and Mrs. Anna Hill.

SUMMER STUDY PROVES POPULAR AT MOSCOW

MOSCOW, June 13 (Special to The News)—Registrations for the summer session reached the 400 mark Thursday afternoon, exceeding by nearly 125 students the highest previous summer enrollment recorded in the history of the university, 284 last year.

So marked is the increase over former years that the campus has retained much of the bustle and stir of the regular session when 2000 students are attending classes. Most students have returned for the summer session this year than were enrolled in the entire university 20 years ago, not including the "pops."

At least 165 of the students have planned up for graduate work, most of them school people working toward their master's degree. The public school music courses under Osborne McCordell, the best known man in the United States in his field, are running a close second, with English courses next in favor.

Dr. J. F. McCordell, director of the summer session, said the variety of people registered was of a very high order—academic and ambitious educational folk for the most part, who are preparing themselves for advancement to better positions. Included in the list are a large number of the most influential educators in the state, Idaho graduates and back for the summer session in greater numbers than ever before, Dr. McCordell commented.

Mild beach here, starting August 1. This campaign is being put on by the Red Cross in cooperation with local people, and will be similar to last year's series of instructions except that it will last two weeks instead of one. Paul Mueller is chairman of the swimming and life saving committee.

MOSCOW EXPERT URGES SAVINGS IN IRRIGATION

MOSCOW, June 13 (Special to The News)—Save irrigation water by using correct methods, says M. R. Kulp, irrigationist at the University of Idaho. "Water losses from evaporation and deep penetration can be lessened by proper practice."

Small furrows, close border strips on sandy soil lose water by deep penetration at the upper end, while the lower end may not be well watered. Shortening the furrows of the border will make for more even penetration.

Small heads of water have much the same effect as long furrows and borders. If the water is wasted at the upper end by deep penetration while the stream is reaching the lower end—in addition, the time required to use a furrow or border with a small head causes a larger evaporation loss.

Deep furrows, where they can be used, expose less water to evaporation, and permit cultivation sooner after irrigation, thus conserving a certain amount of moisture.

Sometimes water can be saved by running comparatively large streams down the furrows until they are well down the furrows, then cutting down the stream. This involves more labor, but it is worth while in times of water shortage, Kulp adds.

The Mutual Building & Loan Association Announces the Completion and Occupancy of its New Building

231 Shoshone Street, North

A Step Made Necessary By Growth and Development During The Past Five Years

The following figures show the total resources as
of December 31st of each of the past five years

1925 —	\$244,848.13
1926 —	\$265,797.61
1927 —	\$317,693.38
1928 —	411,172.53
1929 —	\$565,836.60
1930 —	\$744,231.83
— and Still Growing	

During this period the Association has paid regular
dividends of 6% compounded semi-annually

Over 300% Increase During the Past Five Years

A study of the above figures reveals the increasing confidence and patronage of our members. It is because of their support that we have been able to increase our assets more than 300 per cent during the past five years. The ablest men of the nation recommend building and loan and the most careful people are our heaviest investors.

882 Building Projects Financed

Since the Mutual Building and Loan Association was organized in 1916, it has financed the building or purchase of 882 homes and public buildings; thereby assisting in making Southern Idaho a community of savers and home owners. The family that saves and owns its own home is an asset to any community. The American home is the safeguard of American liberty.

HARRY W. BARRY, Realtor, Buhl, Idaho, and former instructor and coach of the Buhl High School.

FEATURE FLASHES FROM FAR-FLUNG FOREIGN FIELDS

Mexican Government Aims At Economic Depression In New Tariff Schedules

Ortiz Rubio Adopts Policy of Careful Study of Conditions in Campaign to Build Up Home Industries

By JOHN LLOYD (Associated Press Staff Writer)
MEXICO CITY, June 13.—A coordinated program of tariff manipulation, calculated to encourage consumption of home products and aid Mexican producers in foreign markets, has been called into play by the Ortiz Rubio government as a means of combating economic depression. The executive department, which comes into effect with extraordinary tariff powers, has adopted a policy of careful study of the conditions in each foreign market before imposing duties. It is expected that the new tariff schedule will be completed by July 1.

The plan, put into force only recently, has not yet had a full effect, but it is believed that it will have a marked influence on the economy. The plan is to encourage the production of raw materials, such as sugar, cotton, and wool, and to encourage the production of manufactured goods. The plan is to encourage the production of raw materials, such as sugar, cotton, and wool, and to encourage the production of manufactured goods.

On the other hand, textile planters continue the contention that they were in a disadvantageous position as compared with producers of other countries and the government tariff schedule is an experiment. The oil industry here, in which much British and American capital has been invested, has been a source of contention, but several confirmations have been granted, recent tariff studies have been made toward clearing up other pending applications.

SOVIETS TAP VAST SOURCE OF COAL TO HELP IN EXPANSION

ALMA ATA, Union of Soviet Socialist Republics, June 13 (AP)—A vast source of coal for the expansion of Soviet industry under the five year plan is being put into production out here in Central Asia. In the north central part of the Kazan republic, 250 miles south of the city of Omsk, four new mines are being sunk to what has been described as the second richest fuel deposit in the Soviet Union. It is known as the Karaganda basin. Exploration has shown 28 veins of coal with a total estimated output of 30,000,000 tons. Analyses indicate that the product will be almost equal to that of the famous Donbas basin in coal quality.

Within this year it is hoped to get 4,000,000 tons out of the new field. Much of this will go to the new Turkmenistan-Siberia railroad, which the mines are to be connected by a branch line. South southeast of Karaganda are the Kizilovskaya and Kizilovskaya (with 25,000,000 tons of iron ore) and, more directly south are copper ore bodies which have been estimated to contain 1,500,000 tons of the red metal.

PORTUGUESE FIND REVOLT COST HIGH

Minister of Finance Points to Benefits Money Could Give If Property Spent

LISBON, June 13 (AP)—With the money spent on the Madeira revolt, Portugal could have bought three deers, or made new highways all over the country, or paid the interest on the internal floating debt for one year or supported 25,000 families, said the minister of finance in a recently published report.

Counting the money cost of this revolt and of the uprising in Portuguese West Africa, the country has found this 1931 expenditure the largest single item in the revolutionary account since establishment of the "Carmona" dictatorship five years ago.

While these revolts were accompanied with small loss of life, the government is convinced that there would have been a real war, had the true plans of the revolutionaries been carried out. Back of these uprisings, and of especially all other attempts to overthrow Carmona, is a revolutionary league with headquarters in Paris. It is headed by Alfonso Costa, a former prime minister, who was a leading figure in the 1910 overthrow of the Portuguese monarchy. Aligned with him are Dr. Bernardino Machado, who was driven out of the presidency when Carmona took power, and Jose Domingos Santos, another ex-premier.

While the suppression of the revolt was a blow to the Paris league, its leaders are still a thorn in the side of the Portuguese government. Their activities, it is stated, have also an economic side and a campaign against the trade of the Lisbon administration is blamed for retarding a recovery in business.

On the other hand, textile planters continue the contention that they were in a disadvantageous position as compared with producers of other countries and the government tariff schedule is an experiment. The oil industry here, in which much British and American capital has been invested, has been a source of contention, but several confirmations have been granted, recent tariff studies have been made toward clearing up other pending applications.

INVESTED MONEY

The real investment is land. At present prices land is also a safe speculation.

1925 PLEBISCITE RAISES FRANCE'S SUFFRAGE ISSUE

Latest Argument Says French Must Give Women Vote in Order to Add Viable Territory to Possession

By M. K. WHITELEATHER (Associated Press Staff Writer)
PARIS, June 13 (AP)—Woman suffrage in France has brought up a new argument, which they hope will appeal to the hard reason of non-socialists who year after year refuse even to discuss bills passed by the chamber favoring women suffrage.

Here is the latest argument: Under the Treaty of Versailles, inhabitants of the rich Saar Valley will be attached to Germany or to France. Germany has woman suffrage, and the women of the Saar have the right to vote.

It is argued, if France wants to add this valuable piece of territory to her possessions, she must, before 1935, accord the women of Alsace-Lorraine the vote for the women of the Saar are not going to vote in favor of a country where there will be no vote in the government.

Seized by Senale—Suffrage in France are not plentiful, but nevertheless the chamber of deputies has three times its stamp of approval on woman suffrage only to have the senate squelch them. Nearly every parliament has seen the introduction of a new suffrage measure and the "no" vote is an exception. Louis Marin, leader of the center, has sponsored a bill that women be given suffrage in time to vote at next year's parliamentary election.

A campaign was started recently to rouse the majority of French women, who have paid little attention to the matter.

The noted poet and academician, Paul Valery, came out for women's suffrage in a speech which was widely quoted.

The French Women's Federation was formed in 1900 by Madame Armande Saint-Cyr, who was a pupil of Susan B. Anthony.

Wife of Dictator Maintains Quiet Family Circle to Benefit Children

Mrs. Alexandra Pilsudska, wife of Marshal Joseph Pilsudski, the strong man of Poland, maintains this quiet family circle in which her husband takes refuge from the importunities of politicians.

WARSAW, June 13 (AP)—Madame Alexandra Pilsudska, wife of her husband's friend "Olenka," has maintained in the Pilsudskas, the simple life of her youth. In those days as a working girl, she collaborated with her husband, who is now the virtual dictator of Poland, in organizing the country for an uprising against Russia. Her dress is extremely simple in cut and with as little trimming as possible. She often wears dark navy blue dresses with little white collar.

Notice of annexation is about all that is needed to complete alienation of the territory from China. Soviet officials from the backbone of the Outer Mongolian administration, and the entire country is governed on Soviet lines. The Chinese republic is without official representation in Uru, the capital, where the situation is dominated by a resident Soviet force.

Older Mongolia's entire trade is now in Russian hands. To the ruin of thousands of Chinese merchants with holdings in Uru formerly estimated at more than \$20,000,000. The borders of the territory have been closed so effectively to traffic with China that mail and telegrams sent to Uru from this country must be routed through Russian territory.

Shanghai, or Chinese Turkistan, is said to be in imminent danger of going the way of Outer Mongolia. This province is isolated from the rest of China and is bordered by Russia on two sides. The new Russian Turkistan railway closely parallels the Sinkiang frontier, offering a convenient base for the extension of Soviet influence.

Spanish People Prepare For General Election to Pick National Assembly

Overwhelming Republican Socialist Victory Looms As Monarchist Movement Wavers in Face of Rioting

By CLARENCE DEBOISE (Associated Press Staff Writer)
MADRID, June 13 (AP)—First general elections of the second republic, set for June 28, will name members of a constituent national assembly.

It is expected to be an overwhelmingly Republican Socialist as to the provincial government. It will be a sort of combination constitutional convention, national legislature and Republican junta assembling July 1.

Monarchists have been doing no campaigning. Later they may become more active, but it is doubtful whether they will be able to win. When the monarchists attempted political activity not long ago they were met with a series of church burnings. Since then, personal attacks on royalists have not been heard to air their political opinions. Under such circumstances the answer Don Alfonso awaits in Portugal seems as good as given, as far as the June elections are concerned.

Alfonso's Chancery Blunder—What the more distant future may develop no one knows. But Don Alfonso is not now actively engaged in any possibility of Alfonso's return.

The June elections, then, are expected to ratify the republican desire of the people as expressed in the April municipal elections.

The new assembly will then undertake a long, tedious, but tremendously important job—making laws that will make the laws of Spain over again.

Must Declare Republic—The first thing to do will be to declare, as a constituent assembly, that Spain is a constitutional republic—and then to write a new constitution. The assembly must, as presently

ITALIANS MOVE TO CUT MOTOR TRAFFIC, NOISE

MILAN, June 13 (AP)—A meeting of silence and discipline at the bus-street intersection here was held recently by the Royal Automobile club to demonstrate that the way to eliminate noise is to reduce traffic.

The "meeting" was a contest of club members for "silence" and traffic police.

Drivers with through traffic under the eyes of judges who marked them according to a schedule of penalties for noise and violation of traffic rules. The noise was judged both as to the car itself and the timing of horns.

PRISON TERMS REMOVE REVOLUTIONARY PARTY

BATAVIA, Java, June 13 (AP)—The revolutionary party in the Dutch East Indies is all washed up. It was the "Pusat Nasional Indonesia" (National party of the Dutch East Indies), but four leaders were sentenced to prison terms for charges of inciting the people against the government.

Following the sentence of their appeal by the high court, a plenary congress dissolved the party.

SNAKES LOOM AS NEW TYPE OF FARM RELIEF

PERTH, Australia, June 13 (AP)—A leading zoologist, Mr. Le Soest, proposes that large non-poisonous snakes, particularly boa-constrictors, be liberated in the districts of Australia where rabbits destroy crops and pasture to the value of millions of dollars annually.

Small non-poisonous snakes are already widely used in Australia to destroy rats and mice, but Le Soest proposes to import and breed boa-constrictors and let them free amongst the rabbits. A boa-constrictor breeds rapidly, and an adult averages a rabbit at one gip.

125 TURKEY GROWERS ASSEMBLE AT BAKER

BAKER, Ore., June 13 (AP)—One hundred twenty-five members of the Idaho-Great Turkey Growers association voted unanimously to remain with their independent marketing organization, turning down an offer of the federal farm board to join the Northwestern association.

The farm-board representatives discussed the matter with the association officers yesterday before the vote.

(By The Associated Press.)
ST. LOUIS, June 13—Left-handed slugs of "Wild Bill" Hallahan stopped the Cardinals' losing streak of three games administered by Hooten, and the champions took the final of the series from the Braves here today, 4 to 0. It was Hallahan's second straight shut-out victory.

By winning the Cards maintained their two-and-a-half game lead in the national race.

GAMES TODAY

Detroit at Chicago
New York at Cincinnati
Philadelphia at St. Louis

(By The Associated Press.)
CHICAGO, June 13—Gooding polo players battled it out for the first time in the history of the game today, when the North-Side team started out with one-goal credit as a handicap. They lost the advantage through fouling, Boise scoring two times off free shots.

From that point on they battled evenly, ending the fifth chukker in a tie, 10-10, the final one.

Boise broke away for more action in the sixth chukker, scoring three goals.

The scores, with positions:

BUILDING AND LOAN ASSOCIATION MOVES INTO NEW QUARTERS

Organization, That Has Assisted in Nearly 1000 Other Projects, Takes Dose of Own Medicine

Since the Mutual Building and Loan Association was organized in January, 1918, it has assisted with loans in the construction of many homes, churches, and other buildings.

New the association has built its own home, a handsome \$10,000 brick structure on Second street north, into which its officers, records and supplies were moved from old quarters on Main avenue last week.

Steadily increasing business is one factor that prompted the association to build the new home. The records of the past five years show an increase in the association's resources from \$251,640 in 1925 to \$742,231 in 1930. During the five-month period since last January 1 to June 1, the association's resources show a further increase of \$50,000. Mr. H. Grant, president and general manager, said last evening.

Officers and directors besides Mr. Grant, are Floyd Morrison, vice president; Herbie M. Williams, secretary; P. P. Rogers, treasurer; W. Taylor, R. A. Moon, T. J. Lloyd, B. J. Magel, all of Twin Falls, H. W. Barry, president of the board.

In its new home, the association has made generous provision for keeping up its records and records are kept in large steel cabinets, each built free in dimensions, out in the first floor and the other directly underneath in the basement.

The building was designed and built with walls and ceiling constructed for addition of a future second story.

Foundation walls are of concrete and under walls of brick. The front elevation being of red luxury brick. Entrances are under a clear opening with 22-foot span. The wall above the entrance is supported by six pillars and capped with double-slant glassed vitrified tile. Plate glass windows are set in copper casing. Windows and bulkheads are faced with glazed tile set in buff colored cement mortar.

The main floor is divided into two individual departments, the one occupied by the Mutual Building and Loan Association, including special office room, 125x14 feet.

Space north of the central passageway has been arranged in accordance with the latest practice in building design for offices of Dr. H. E. Lamb, physician and surgeon. It includes a large reception room, two clinics, one operating room, X-ray room and private consultation room. The heating system is a vapor vacuum steam plant, with alkali automatic temperature control.

Designs regarding the office is provided by means of a 16-foot skylight in the roof.

The Idaho-Strada Electric company installed wiring and electric fixtures. Idaho Plumbing and Heating company installed the heating plant and plumbing, and the stove was installed by Detweiler Coal company.

JUDGE ASSIGNS TRIAL OF SIX COURT CASES

Six court cases were assigned by District Judge W. A. Babcock yesterday for trial in district court here next week, beginning on Tuesday. Here are the assignments:

Tuesday—William Warburg vs. H. L. Stewart; B. T. Hamilton for plaintiff; Bothwell and Chapman for defendant; Rena King versus C. A. Hahn, county treasurer; Swalley and Sevelley for plaintiff; O. W. Whitman for defendant.

Wednesday—Twin Falls National Bank versus Twin Falls county; Bothwell and Chapman for plaintiff; O. W. Whitman for defendant.

SCOTT EXPLAINS CAMPING IDEALS

Scout Executive Reports System of Operation of Outing at Sawtooth

Purposes of boy-scout-camping was explained in an interview by Dr. E. Russell Scott, scout executive of the Snake river area, with particular reference to the opening of the Sawtooth camp next Sunday. There will be daily programs, he stated, with the BSA health system in use all vacation for the first week, he said.

The interview follows: "The aim of the scout camp is training, building, and citizenship training, there are essential traits of character best developed in the summer camp such as poise, self reliance, respect for others, property, opinions, thrift, neatness, cleanliness of mind and body. And preservation of the wonderful surroundings will lead to the love of nature and a reverence for its Creator."

He was accompanied by Superintendent and Mrs. W. B. Smith. Mrs. Smith will visit her mother in Walla Walla and Mr. Smith will go to other districts to attend the University of Washington, or to Palo Alto, to attend Stanford university summer school.

GIFTED TWIN FALLS GIRL COMES HOME

Miss Charlotte Vogel, Artist-Planner, Spends Summer Here With Parents

One of Twin Falls most talented daughters, Charlotte Vogel, who has won fame as an artist planner in musical centers, is coming home to spend the summer season with her parents, Mr. and Mrs. H. E. Vogel. She will arrive from Chicago next Wednesday. Following the vacation she will return to Chicago to continue her professional work. During the past four years she has been engaged in study at the Chicago Musical college, specializing in piano under direction of Moszkowski, Boguski, and during the past year she has also been studying voice under Madame Delbecq.

Her concert debut under Josie H. Hall at Castle hall, Chicago, a year ago, was followed last April 16 by her appearance in artistic concert under Bertha Ott, noted Chicago impresario, at the Playhouse, Chicago.

In comment on the latter concert, the Music News critic said: "Charlotte Vogel, an exotic and vital young pianist, achieved effective results at her Playhouse recital April 13 that few young professionals are capable of." "She was governed capably and her voice and charming silhouette outlined in dusky tones against the keyboard in the very dimly lit stage served thereby to enhance the mood of the music she was creating, never to disappear."

Her program included the Cesar Franck-Bauer "Prelude, Pique and Variation," the entire Schumann "Kinderszenen" (Scenes from Childhood) cycle, some Chopin, the Bach "Wanderlied," the Rachmaninoff "Prelude in D minor and the Russian Fire Dance of de Falla. The Cesar Franck was a most gratifying display—technically and as a medium for interpretation; but in the Schumann she achieved a mood that glowed. One charming bit following another—tender tone veiling into tender long—long—whereby singing the Suppliants Cyclic—the Perfect Happiness—the flowers—There was humor and life and dramaticism in the Czech—which spoke volumes for Miss Vogel's right to command a concert audience."

"The Chopin was very delectable—the Debussy—brilliant—the de Falla colorful and picturesque."

"The Playhouse was full for the event—and Miss Vogel scored as the deserved to score."

MISS CHARLOTTE VOGEL, ARTIST-PLANNER, SPENDS SUMMER HERE WITH PARENTS
