Teutons Pierce Tropopause, Dividing Line between calm and Turbulent Areas

Entering the stratosphere, Auguste Piccard's balloon penetrated the second of the two major layers of the earth's atmosphere.

The Weather

FORECAST FOR TODAY AND TOMORROW—Fair; no change in temperature or humidity.

Maximum and minimum temperature in the 24-hour period ending at 5 P. M. yesterday in the Twin Falls vicinity were 82 and 48.8 degrees, according to the report of D. C. Chayer, government weather observer here. The day was clear and the barometer registered 30.24 inches at 5 P. M.

Bunday's high and low marks were 87 and 51, and the day was fair. Bunday's 5 o'clock barometer reading was 30.20 inches.

HANSEN VISITOR LEAVES
HANSEN, June 29 (Special to The News)—Wilfred Olsen, who has been visiting at the home of his aunt, Mrs. Frank Trunk, for the past month, left this week for his home in Kansas, South Dakota. En route, he will stop in Utah to visit friends and relatives.

Dust Layer
Above this is a connection layer of dust, about two miles to its top. Frequently a layer of dust, dust, particles of all sorts and living micro-organisms that stream down sweep up. It includes the city smoke plume.

Third Dr. Humphries rates the "tropopause," which rises to the top of the troposphere. But above that is a fourth dust layer, part of the stratosphere, called the stratospheric layer.

The dust of this stratospheric layer comes from two sources. One is the 20,000,000 tons of dust that fall from the earth's upper atmosphere. The other is the occasional volcanic eruption hurling particles of ash and lava beyond the level of the highest clouds.

Stays for Years
There is no rain to wash down this dust in the stratosphere. Dr. Humphries says it must get down undisturbed, and is often years in doing so.

The twilight top is the luminosity from dust particles or air molecules.

HANSEN FOLKS ENJOY VARIETY OF SOCIALS

HANSEN, June 29 (Special to The News)—Hansen folks enjoyed a variety of social activities during the last week. Church gatherings predominated.

About 25 young people attended the Fourth League party held at the church last Friday evening. There was a short business meeting, which was followed by a number of indoor and outdoor games. At the close of the evening, ice cream and refreshments were served.

Pay Shewley was surprised on his birthday anniversary Thursday evening when a number of his friends gathered in his honor for cards and a social good time. Present were Mr. and Mrs. Harold Koenig, Mr. and Mrs. A. H. Robison and children, Mrs. John Smith and Warren, Mr. and Mrs. Clyde Denning and children, Mrs. Paul and Mrs. Opa Johnson. Melona was served at a late hour.

About 12 members of the Women's Neighborhood attended the meeting at the Modern-Woodmen hall Tuesday evening. The regular business meeting was held, after which Mrs. C. Brown and Mrs. Welch served refreshments. The next meeting will be held at the home of Mrs. M. Zuck Tuesday, July 14.

About 25 members and guests attended the regular meeting of the Women's Community Council on the M. A. Robison lawn here Thursday afternoon. A short business meeting opened with devotional led by Mrs. J. R. Hall, followed by prayer led by Mrs. J. B. Lewis. After the business meeting, a program, in charge of Mrs. Frank Trunk, was given. The program consisted of two book reports, "Rings and Harp" and "The Mansion," by Henry Van Dyer, given by Mrs. A. H. Scott. The show was followed by a reading, "The Show Must Go On," by Mrs. Dorothy Cline. Mrs. Albert McGee read the "Meditations of a Minister." After the program Mrs. Della

Wallock and Mrs. Annie Wyman served about cake and ice. The next meeting will be held at the church on July 10.

There will be a free band concert under the direction of Orrin T. Fuller, by the Hansen band at the school lawn Wednesday at 8:30 P. M.

Hansen Garage number 100 will meet at the church on Thursday evening.

Low summer vacation fares. Liberal stopover privileges. Interesting side trips. Choice of return routes.

AL CAPONE WANTS THREE-YEAR TERM

Lawyer Offers Judge-Hint For Thought and Court Delays Day of Reckoning

CHICAGO, June 29.—Al Capone today asked a sentence for his floating of federal income tax and prohibition law was deferred a month.

In asking a month's postponement of sentence, his attorney in substance indicated that he would like a sentence of three years imprisonment, in line with precedent in similar cases. The maximum term which Judge James H. Wilkerson might impose upon him is 33 years. The judge will make the decision on July 30.

"The government made no objection when Capone's counsel asked Judge Wilkerson to schedule for tomorrow the hearing on the plea of guilty to 18 months on a plea of guilty to an income tax violation and 18 months on a plea of guilty to a conspiracy to violate the prohibition law."

A sentence of about three years has been the common guess of Capone's penalty since he pleaded guilty two weeks ago. Judge Wilkerson was non-committal. He said: "There are considerations and considerations. Income tax violations and income tax violations. However, I will not consider the term until all the evidence and the facts in the case have been submitted." The day before for Capone was ultimately to transact business in Florida, attend a sick son and spend some time with his family.

CALDWELL PAIR FACES COUNTERFEITING CHARGE
GRAND JUNCTION, Colo., June 29.—A woman and three men were arrested today by city and county officers for investigation in connection with the passing of counterfeit money.

Three men gave their names as P. Lewis and his wife, Reia J. Lewis, Caldwell, Idaho; Don C. Johnson, Portland, Ore.; and Charles J. Williams, Spanaway, Washington.

Sheriff Charles Lumley said officers found a counterfeit kit with molds in the apartment occupied by the four. Several persons on whom the spurious coins had been passed also identified the quartet. Department of justice officials in Denver were notified of the arrest.

TWO GLOBE-CIRCLING FLIERS LAND AIRSHIP

(Continued From Page One)

While inland, the fliers planned to follow the course of the Yukon river more than half the distance.

The landing field at Bolomon is a rough piece of ground and aviators were told probably Post and Gatty flew on to Fairbanks for a better field on which to take aboard the heavy gas load needed on their next trip.

Their trip to Fairbanks should be made in between three and four hours, making their arrival there between 8:30 and 9:30 P. M. On word of their landing at Bolomon, a plane left here with a newspaperman and photographer aboard.

Post and Gatty got their plane off the rough landing field into the air only after it had roared up, damaging the propeller and Gatty had been left by the propeller in starting it.

Struck over the heart and arm, Gatty fell to the ground in safety. He said he was only bruised and that "nothing was broken," and climbed into the ship.

On another attempted take-off the plane hit rough ground and ended up, apparently bending the propeller. Post climbed out with the man and Gatty, now has flown around 11,350 miles, of the projected 15,000-mile circle of the globe.

The landing at Bolomon was 16

hours and 45 minutes after the take-off from Khabarovsk, eastern Siberia, a distance of about 2,500 miles. The fliers averaged about 110 miles an hour in their dash over Obidok, Kanchetka peninsula and Berling sea.

Bolomon is a trading post and native village eastward on Steward peninsula from Nome. It is connected with Nome by a telephone line. The settlement was established in 1902 after the Nome gold rush. Khabarovsk preparations had been made for the reception of the fliers in Nome where the airfield, on a hill overlooking the town, had been built to assist the aviators in taking off with their heavy load of fuel on the next trip to Edmonton, Alberta.

Trains and boats had been ordered on the field to enable Post and Gatty to rest while their ship was refueled.

A triumphant non-stop flight of about 2,500 miles over land and water from Khabarovsk, eastern Siberia, was completed by the daring American aviators, when they landed safely at Bolomon, Alaska, about 38 miles east of Nome.

By their long journey over difficult terrain and the hazardous being seen the fliers completed the most dangerous leg of their record-shattering round-the-world flight. Their staunch plane, the "Winie Bie," now has flown around 11,350 miles, of the projected 15,000-mile circle of the globe.

The fliers zoomed away from

Khabarovsk at 4 A. M. Monday. When they landed at Bolomon their elapsed time since hopping off at Roosevelt field, New York, was six hours, 16 hours and 45 minutes.

A social send-off was given the fliers at Khabarovsk, where Russia and China frontiers crowded the landing field as the Winie Bie took off. Khabarovsk preparations had been made to welcome the aviators; the landing field had been prepared, and the runway lengthened and all eyes scanned the sky to the Southwest.

One hop of 1,000 miles to Edmonton, Alberta, and the second of 2,000 miles from Edmonton to New York, though the fliers might reach Nome before the flying might have heard them.

One hop of 1,000 miles to Edmonton, Alberta, and the second of 2,000 miles from Edmonton to New York, though the fliers might have heard them.

SCOUTS AT CAMP RECEIVE AWARDS

Many Boys of South Idaho
Earn Recognition for
Outstanding Achievements

CAMP-BAYTOWN, June 19 (Special to The News)—The South Idaho Scouts, enjoying their annual camping trip in the Baytown mountains attended a camp of honor around the campfire here Saturday evening.

The youths have enjoyed many activities during the week, but the following list of awards shows that they are not idle.

SECOND CLASS AWARDS—Richard Olson, Donald Uthacker, Jack Pence, Tom McBride, Leonard Shiley, Gordon Caudill, Dick Powell, Elton Fremont, Everett Andrews and Elwood Bobler.

FIRST CLASS AWARDS—Bernard Gordon, Billy Hart, Rex Onell and Robert Farnsworth.

Merit badges were given as follows: John Barker, physical development, reading, life saving; Rex Onell, automobile, first aid, swimming, personal health; George Runyon, public health, swimming; Lawrence Lundin, swimming; Herbert Boston, leathercraft; Gordon Caudill, leathercraft; Elton Fremont, leathercraft; Robert Farnsworth, leathercraft; Billy Hart, leathercraft; Elton Fremont, leathercraft; James Litchon, life saving; swimming; Richard Shiley, life saving; swimming; personal health, life saving; swimming; Gordon Caudill, swimming; life saving, animal husbandry, leathercraft; personal health, Boy Scouts, farm mechanics, swimming.

Gooding Smith received a star scout badge and John Barker a life scout badge.

SOUTH IDAHOMANS TEACH IN MANY INSTITUTIONS

COODING, June 19 (Special to The News)—According to statistics prepared by President C. W. Tenney, 67 Gooding "college" graduates will graduate next year. Of these, 18 are differentials and half of the class of 1931 is already placed.

Miss M. C. Clark, principal of the department of education, reports that the following recent graduates will graduate next year: Glenna Brown, Lewiston; at Redwood, Montana; Marjorie Bundy, Blaine; at Kamiah; Ernest Cline, Gooding; at Gooding college; Lealand Dale, Nampa; at Nampa; Kevin Hartwell, Burley; at Burley; and John Barker, Gooding.

Falk, at Kimberly; Edna Randall, Kuna; at Eden; and Ruth Street, Portland, at Gooding college.

Forrest Pinner, Gooding, is connected with the Elmhurst theatre in Gooding, and Olaf Skarman, Burley, is doing electrical work.

Other members of the class who plan to teach are: Maudean Brewer, Ontario; Walter Chubb, Richfield; Frances Fulton, Eden; Alma Mae Crockett, Kimberly; Nellie Hamilton, Gooding; Earl Hefel, Gooding; Dorothy Kowler, Twin Falls; Lois Linger, Hamer; Vera Lowry, Gooding; and Frances Rylert, Kimberly.

KIMBERLY GROUP MEETS

KIMBERLY, June 20 (Special to The News)—Mrs. John W. Hardin entertained at her home near Kimberly last week at a smartly appointed 1:30 o'clock luncheon. Rooms and tables were prettily decorated with roses from Mrs. Hardin's garden.

Places were invited at one long table for Mrs. Charlie McKeister, Mrs. W. T. Combs, Mrs. D. H. Churchill, Mrs. W. Buttrick and daughter, Juanita, Mrs. William Fisher and mother, Mrs. Erana, Mrs. Roscoe Simpson, Twin Falls, Mrs. Willis Biersman and mother, Mrs. Fisher, Hamer. Social conversation and viewing of the flower garden were afternoon diversions.

EX-KIMBERLY MAN DIES

KIMBERLY, June 20 (Special to The News)—Word was received here this week of the death of Frank E. Bliger, Glendale, California, formerly of Kimberly. His death occurred as a result of pneumonia poisoning.

Mr. Bliger was the first electrician in Kimberly. He came here in 1905 from Nebraska to operate the water power plant located two miles east of Kimberly to run the Thomas flour mills here at that time.

Kitchen Hardware Gives College \$2000 Laboratory At Cost Of \$10

Sewer Pipe, Ash Can, Popgun and Two Cooking Kettles Become Apparatus

By HOWARD W. BLAKESLEE
(Special to The News)—Editor LAFAYETTE, Ind., June 21.—One sewer pipe, one ash can, one 10-cent popgun and two cooking kettles have been turned into strange scientific apparatus at Purdue university.

They cost \$10—but are worth more than \$2000. That is the money they saved for Purdue.

They were put to use when Dr. Karl Lark-Horowitz, director of the physics laboratory, found that he had only about \$100 to buy \$2000 worth of equipment.

One instrument was an X-ray outfit costing more than \$2000. He bought an X-ray tube for \$100. The rest of the equipment his students built at \$15.

The first 40-cent metal item was the sewer pipe, a piece four feet long. It is the "shield," the tube being heated so that its rays emitted escape broad casts to injure life and materials.

Hoops drilled in the pipe are the windows for transmitting the radiation. They are cut when not in use by filling them with lead plugs.

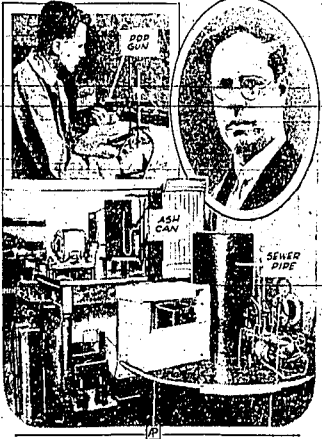

This tube had to be water cooled to prevent burning out. A big, galvanized ash can was installed to hold the water. Two dollars purchased an old automobile engine pump to keep the ash can full.

But if the old pump should stop the \$10 tube might be ruined. So the running water was fitted with a pump. The pump was made of the tube of the pump stopped.

Two 40-cent metal oven kettles were used as another piece of apparatus. One is for heating the water, the other for heating the air.

With a hot and shining that when Henry Ford saw it is remarked that he found the first time he had observed a scientific laboratory working on the right principle. The kettle was the first time he had observed a scientific laboratory working on the right principle. The kettle was the first time he had observed a scientific laboratory working on the right principle.

The pump produces quarts wire

With sewer pipe, ash cans and similar materials, Dr. Karl Lark-Horowitz (upper right) built for Purdue university an X-ray outfit (below) equivalent to a \$2000 machine. For the most part the instruments he made use of a 10-cent popgun, as shown at upper left.

little more than one-millionth of an inch in diameter. The gun pops a rubber cork fitted into the end of the barrel. A piece of quartz is fastened to one end of the cork and the other to the other of the cork.

With a hot torch the quartz is heated to incandescence. Then the cork is popped out, and the quartz is shot across the room. The hot quartz draws out life stretching a piece of chewing gum.

THEATRES

"LOVE OF THE RING"
PLAYS AT ROXY NOW

Sam Tamm, famous fight broadcaster, will let the fans crack up as he announces when he tells them about the fighting of Max Baer in the ring.

For the first time "Tamm" will let the fans see and hear at the same time. He will appear in the film and will describe the blows as they are seen on the screen.

"Tamm" is well remembered by the fans as having described important blows in which Dempsey, Tunney, Firpo, Delaney, Sharkey, Maloney, Ganss and a host of others.

The official announcer for the Madison Square Garden and is regarded by the sports world as the "champion" of the ring.

The screening picture is one of a double feature bill at the Roxy. The other being "Diana," featuring Wheeler and Woolsey, those two "Cracked Nuts" you saw in "Hell Ship at Sunrise," "Rio Rita" and "Cuckoo."

The cast is headed by Mike Daniels and has over 5000 performers in the picture which is past life color, and full of song.

"FIVE AND TEN" NOW
PLAYS AT IDAHO HERE

Marion Davies turns dramatic in "Five and Ten," her new Metro-Goldwyn-Mayer starring picture, which opens today at the Idaho here.

In the picture of the popular Patsy Hunter novel, Miss Davies

"TEN CENTS A DANCE"
APPEARS AT ORPHEUM

A dime a dance... Youth and beauty... dim lights and jazz music... stirring romances and capricious plans... That is just one quick glimpse at a picture the whole town will talk about.

Dancing into your heart, Barbara Stanwick captivates your eyes in "Ten Cents a Dance," a Columbia picture that will delight you with its surprise ending.

As at the Orpheum last times to day.

relieves her own achievements as a comedy star, blending humor and drama with an easy touch. As Jennifer, daughter of a wealthy family, Miss Davies offers a delightful and absorbing performance, convincing and appealing in every way.

A Flip the Fro cartoon, "Bagtime Bonzo" and the Paramount Sound news round out the program.

ONLY ONE COFFEE IS ROASTED UNDER SCIENTIFIC CONTROL

Hills Bros. Use Radically Different, Patented Process to Develop Finer Flavor.

The housewife who cooks food in small quantities to insure perfect results will instantly recognize the value of Hills Bros. patented, continuous process—Controlled Roasting—as a means to develop the utmost flavor in coffee.

Instead of the rare blend of fine coffees being roasted in bulk, which is the ordinary method, only a few pounds at a time are roasted. These small quantities pass continuously through the "Controlled Roasters" in which heat and speed of operation are automatically

Because of this accurate control of the flow of coffee and the heat, every berry of the blend is roasted evenly. None are overdone—none are underdone. This uniformity is demonstrated in the cup of coffee eventually made. It has a flavor other coffees cannot equal because they are not roasted the same way.

Hills Bros. Coffee is sold everywhere by grocers. It comes to you perfectly fresh, because it is packed in vacuum. This process extracts all the best flavors from the coffee, from the can and keeps it that way. Ordinary can, even if air-tight, does not keep coffee fresh. Ask for Hills Bros. Coffee by name and look for the Arab—trade mark—on the can.

Hills Bros. Coffee, Inc., Portland, Oregon.

Nature, not parching, Makes CAMELS Mild

HARSH tobaccos require harsh measures, like parching—to make them tolerable to the throat.

But the choice Turkish and mellow Domestic tobaccos of which Camels are blended are naturally mild and gentle. Parching would only ruin their exquisite flavor and aroma.

No matter where you buy Camels you will find them always in factory-fresh condition. Their rare flavor together with their natural moisture is air-sealed-in by moisture-proof Cellophane. We call it the Humidor Pack.

This protective wrapping is dust-proof, germ-proof and weather-proof. A great boon to the smoker.

No stinging particles of peppery dust to irritate the throat; no brackish smoke from stale tobacco; no burnt tongue from the hot smoke of dried-out cigarettes.

Just the cool, mild fragrance of choice tobaccos expertly blended and properly conditioned.

If you are not a Camel smoker, switch over for just one day. Then leave them—if you can.

Leaving the moisture-proof Cellophane on my Camel package when I open it protects the cigarette against the odors of powder and perfume

CAMELS

NO CIGARETTE AFTER-TASTE

It is the mark of a considerate hostess, by means of the Humidor Pack, to "serve a fresh cigarette." For Camels by the certain will remain fresh in your home and office

SERVICE CONDUCTS BEAN EXPERIMENTS

University Studies Qualities
of Different Varieties at
Buhl, Filer and Kimberly

Buhl, June 29 (Special to The News)—Bean, experiments to determine the yielding ability and resistance to disease now making progress in the Twin Falls country, are being conducted this year by the University of Idaho Extension service department on a number of farms in this district.

Several varieties of beans, including the Ararat, Leaky and University of Idaho selections, and both certified and ordinary commercial Great Northern, are being grown side by side to determine the yielding ability of each. Tests are being made on the A. H. Jager farm and the W. H. Harvey farm. Buhl, on the Jensen place near Minner; the Folsom place, Kimberly; and the McDonald farm at Piler. Minner will be held later at the farms where the experimental plantings have been made in order that any one interested may see the development of the tests.

On the O. P. B. Peterson farm near Buhl an experiment is being conducted in growing the Great Northern with the Red Mexican bean. It is hoped by this method eventually to produce a white bean that is highly resistant. This is the first year.

The S. A. Olette farm in the vicinity of Cassia is also being used for experiments in growing blight-resistant varieties as well as the tomatoes, beans and squash as well as other vegetables and a large section of beans, both garden and field varieties are growing in apple plots in an effort to develop strains that will be resistant to the curly top as it is technically known.

It has been definitely determined that the so-called blight is the same as curly top on beans and is carried by the white fly.

BURLEY-RUPERT CREDIT UNIT AGAIN OPERATES

BURLEY, June 29 (Special to The News)—After a reorganization following the taking over of the Burley-Rupert Credit association by a group of business men from the two cities, the association is now operating with headquarters in its old office in the Gudmundson building here.

Miss Zula Stokes is secretary and office manager. Directors are William Roper, president; H. W. McKean and G. C. Kelly, vice-presidents; Victor and A. W. Gregory, Rupert.

RUPERT BOY DAMAGES PLANE IN PAUL FIELD

PAUL, June 29 (Special to The News)—Albert Garbardi, Rupert, owner of a brand new Waco P, government-licensed pilot, while flying in the vicinity of Paul Sunday morning, made a forced landing when engine trouble set in.

Landing in fletcher's pasture's field near Paul, Garbardi struck a cable, turning the plane upon its nose.

Nephew Garbardi, Joe De-Gregorio, who was with him, was injured, although one wing and the propeller of the plane were somewhat damaged.

Garbardi, who was a graduate of the Rupert high school in 1921, had just returned from the Van Hoffman flying school at St. Louis, where he purchased the plane on June 8. Joe De-Gregorio flew from Kemmerer, Wyoming, with Garbardi and is expected to return home with him.

Garbardi's intentions were to take passengers during the coming road and fourth of July season.

JEROME GIRLS PLAN FOR SUMMER CAMP

JEROME, June 29 (Special to The News)—Nineteen Cambridge girls held a business session on Saturday afternoon at the south park, preparatory to making plans for the camping trip to Southworth boy scout camp on July 5.

Officers for the ensuing year were nominated and will be elected at a special meeting on Wednesday of this week.

Those who were nominated are: P. J. president, Evelyn Nye, Virginia Bieri, and Marjorie Carlson; for secretary, Jane Clarke, Virginia Arnold and Virginia Bieri; for treasurer, Annie Belle Zug, Jean Overfield and Fern Kalland; for auditor, Jeanne Abrahamson; for pianist, Theda Nelson; for music leader, Marjorie Carlson and Jean Bieri.

Mr. Wayne Dellinger, the notary, was present at this meeting.

"Veteran" Child Star Of Silent Films Returns At 20 To "Talkies"

Madge Evans Gets Title Of
Youngest "Old-Timer"
To Stage Screen Comeback

(By The Associated Press)
HOLLYWOOD, Cal., June 29.—Few child stars of the cinema survive the "awkward years" and return to the screen as adult stars, but a victorious young lady with blue eyes and reddish-brown hair has accomplished the feat.

The fales seem to have arranged developments in the screen and stage world to take care of Madge Evans, who at 20 is Hollywood's youngest "old-timer" to make a screen comeback.

"I really feel that I'm not out of my old-timer," she says, "because picture have changed so much. They're entirely different from my old ones, and the studio life here is much more complicated than it was at Fort Lee, New Jersey, where I used to work."

Miss Evans, as a little girl of three, made her movie bow 17 years ago with the old World Film company of William A. Brady, when Jack Palance, director and producer, wanted her for a child role in "Shore Acres."

None of her family had been the actor, but Madge continued playing bits and small parts until Brady starred her in a feature-length production, "The Little Duchess."

When Madge was 12, with a nine-year career in pictures behind her, World Film collapsed and she was sent to school and took a trip to Europe, visiting relatives of her mother, who is English by birth.

It was on her return that the fate, all unknown to Madge, stepped in. The picture company urged her to the stage, and with the aid of her former manager, Brady, she secured a "role in George Kelly's 'Daisy May'."

At that time talking pictures were only a distant possibility, but her new career, without her realizing it, was to pave the way for her return to the screen when films found a voice.

She became well known in Broadway.

BUHL AWAITING ARRIVAL OF SWIMMING TEACHER

BUHL, June 29 (Special to The News)—Charles Gill, life-saving instructor from Willamette university, Oregon, will arrive in Buhl the week of July 20 to conduct classes in beginning and advanced swimming and rescue and resuscitation of drowning persons.

Mr. Gill conducted similar classes at the swimming pool in the city last year when many of the adults and children, took advantage of the free courses under auspices of the Buhl chapter American Red Cross.

Henry Lacey, serving as life guard and instructor for the last several weeks, reports increased enrollment in the beginner class. "Total now is well over 60 beginners and advanced swimmers."

Toys and instructions will be given by Mr. Gill, who will issue certificates to those completing the course at the close of the season.

ALMO ARRANGES FOR ANNUAL CELEBRATION

ALMO, June 29 (Special to The News)—Almo people will celebrate the Fourth of July on July 2. All residents of Almo river valley have been invited.

There will be horse races, foot races, and a children's dance in the afternoon and, grown-ups and children.

An elaborate speaking and musical program has been prepared at which Elbert Durfee will deliver the independence day oration.

CASSIA COUNTY CROPS SUFFER FROM DROUGHT

BUHL, June 29 (Special to The News)—Crops in the interior of Cassia county are suffering severely on account of the exceptionally dry weather and shortage of irrigation water. There is sufficient water in the Ratt river and its upper tributaries for livestock, but not for irrigation purposes, and many wells are threatening to dry up.

There will be a serious shortage of hay. It is feared, and in many instances grain will make a crop.

NOTICE
Have returned from my trip and call on customers in the interior of Cassia county. F. O. Edwards, The Watkins Man—Adv.

FORMER BURLEY MAN RETURNS TO POSITION

BUHL, June 29 (Special to The News)—Henry C. Van Engelen, who has returned from Anaheim, California, with his family, again to make his home here and to manage the new Van Engelen Brothers' department store established here in 1927.

During Mr. Van Engelen's absence the unit here was under management of H. A. Fogley, who recently was transferred as manager of the Higgins City, Utah, unit of the Van Engelen chain.

FISCAL YEAR REVENUE IN OAKLEY TOTALS \$11,817

OAKLEY, June 29 (Special to The News)—For the fiscal year ending in May, the total revenue of the village of Oakley was \$11,817. This was derived from general taxes \$696; water tax \$123; fines, \$310; interest on deposits, \$242, and other small items.

Among expenditures estimated for the coming fiscal year are bond interest, \$100; bond sinking fund, \$100; street lighting, \$100; street sprinkling, \$90; road and bridge \$100; salaries, \$100. The estimate of total expenditures for the year amounts to \$730.

GLANCE AT the Homes in Your block

McMURTRY MIXED PAINT

You can't suppress a certain esteem for the owners of well-painted homes. It's a passport to neighborly regard—the token of a man of substance. Let him be a property owner of experience, and you'll find he selects his paint with care. McMURTRY MIXED PAINT is chosen by men of this character because its merit has been proved. It is recommended by Architects and Good Painters all over the West. It has justly won its reputation as "the paint of longer life." Ask your McMurry dealer for color cards and information.

ROCK CREEK ENJOYS TWO CLUB MEETINGS

ROCK CREEK, June 29 (Special to The News)—Two club meetings were social features of the last week in the Rock Creek vicinity.

Fifteen members of the Pioneer Club, Mrs. W. M. McIntyre, Pleasant Valley; Mrs. Ed. Saffer, Kimberly; and the Misses Dorothy Cline, Ruth Hunsley and Juanita Murray—were present at the meeting of the Rock Creek Club Wednesday at the home of Mrs. L. P. Larson. The afternoon was spent in a social program presented. Reading, Dorothy Cline; piano solo, Mrs. McIntyre; vocal solo, Mrs. George Craig. At the close of the meeting delicious refreshments were served by the ladies, assisted by her daughters, Miss Dorothy Cline.

The Canyon Club club met Sunday, June 29, with all members present. John Hansen gave an interesting and instructive report of the 4-H club meeting at Pocatello recently.

PAUL MAN RECOVERS

PAUL, June 29 (Special to The News)—Less Billington who was seriously hurt and had one hand mangled when an airplane he piloted crashed here, is slowly improving.

LARGE CROWD ENJOYS SCANDINAVIAN PICNIC

RUPERT, June 29 (Special to The News)—Between 75 and 100 persons participated in the fourth annual Scandinavian picnic held Sunday at Minidoka dam. Both Cassia and Minidoka counties joined in the event.

A bountiful dinner at noon, singing of Swedish and American songs, and a social time round the dinner table featured the occasion. Mrs. Robert Carlson, secretary, stated that the usual program was omitted to give members an opportunity to enjoy the American Legion—water capital.

BUHL FAMILY LEAVES

BUHL, June 29 (Special to The News)—Mr. and Mrs. W. S. McGowan, and daughter, Helen Ruth, for a number of years residents of Buhl, plan to leave in the near future for San Bernardino, California, where they will make their home.

Mr. McGowan has been associated with the Curtis-Hankel Motor company for some time and will be associated with an automobile firm in San Bernardino.

BUHL MAN ASSUMES SCHOOL BOARD POST

BUHL, June 29 (Special to The News)—Henry C. Schaefer—Buhl—has been appointed to fill the vacancy on the Buhl school board left when J. H. Hunt resigned to take up his residence in Twin Falls.

Mr. Schaefer is a native resident of Buhl, living three miles southeast of Buhl. Other members of the board are W. H. Hatfield, George Watt, James H. Shindler, J. C. C. Vetter and Roy E. Hopkins.

MALTA WOMAN'S BODY GOES TO FINAL REPOSE

BURLEY, June 29 (Special to The News)—After services, held at the Goodman mortuary here Saturday, the body of Anna Catherine Charles, 66, was sent to Holy, Kansas, for interment at the side of her mother.

She is survived by three sisters and one brother, Mrs. E. E. Ketterman, Orem, Utah; Mrs. J. C. Vetter, Holy, Kansas; Mrs. F. C. Vetter, and C. M. Charles, Malta; and also a number of nephews and nieces.

Only one foot specialist in Twin Falls. Phone 818. Dr. Foster, Adv.

RELATIVES PLAN RITES FOR WOMAN AT BURLEY

BURLEY, June 29 (Special to The News)—Mrs. Anna Moots Burns, 68, who died here Saturday will be buried in the Burley cemetery Tuesday afternoon. Services will be held at the Methodist church.

Mrs. Burns came to the Boise valley with her first husband, Samuel Moots, 40 years ago. Shortly thereafter she married Milton Burns and lived on their ranch eight miles west of Burley until three years ago, when she moved to Burley.

She is survived by six children—George Moots, Fortville, Oregon; Mrs. May Nesbit Stout, Burley; Miss Lorraine Burns, Burley; Norman Burns, Oakland, California; and Mollie and Aubrey Burns, Burley.

BURLEY MAN ASSUMES HOTEL'S MANAGEMENT

BURLEY, June 29 (Special to The News)—Alfred O. Mercer, proprietor of a hotel operated under his name in the Mohawk building here, has taken a long-time leave from Fred Thompson of the Grand hotel. Provision by the new proprietor will be taken August 1, from which time the Grand hotel will be operated under the name Mercer hotel.

Mr. and Mrs. Mercer came here three years ago from Pocatello, where he had been resident manager of the Pocatello hotel. He is an old-time hotel man, having operated in St. Michael and Wallace, Idaho, and in Spokane, Washington, as manager of the Spokane and Duane hotels.

The new Mercer is to be redecorated and remodeled. It is a three-story, white tile front building, in which all 32 rooms have inside windows.

Consider your Adam's Apple!!*

Don't Rasp Your Throat With Harsh Irritants

"Reach for a LUCKY instead"

Consider the Garden of Eden. When that old serpent put Eve up to the idea of handing Adam an apple, he may have been doing them both a good turn—for where would we be today, ladies and gentlemen, without our Adam's Apple? If we didn't have our Adam's Apple, we couldn't sing, we couldn't even speak. For your Adam's Apple is your larynx—your voice box—it contains your vocal chords. So—Consider your Adam's Apple. Be careful in your choice of cigarettes. Remember—the serpent in the smokers' Garden of Eden—harsh irritants are present in all raw tobacco. Don't rasp your throat with harsh irritants. Reach for a LUCKY instead. Remember, LUCKY STRIKE is the only cigarette in America that through its exclusive "TOASTING" Process expels certain harsh irritants present in all raw tobacco. These expelled irritants are sold to manufacturers of chemical compounds. They are not present in your LUCKY STRIKE. And so we say, "Consider your Adam's Apple."
