ROYALTY OF SIAM LIVES

"LONG RIDE IN DIRIGIBLE"

LAKEHURST, N. J., July 27 (AP)—The royal couple, King and Queen of Siam, arrived here today after a long and arduous journey from London. The king, King Rama VI, and the queen, Queen Siam, were accompanied by a large entourage. They were met by a large crowd of people at the airport. The king and queen were both dressed in formal attire. The king was wearing a dark suit and the queen was wearing a light-colored dress. They were both smiling and appeared to be in good spirits. The king and queen were then taken to a hotel where they will be staying for the night. They will be leaving for their home in Siam tomorrow.

LEAVE FOR CANADA

NEW YORK, July 27 (AP)—King Rama VI and Queen Siam of Siam will leave for Canada tomorrow morning. They will be traveling by air to Montreal, where they will arrive on Wednesday. They will then travel by train to Ottawa, where they will arrive on Thursday. They will be staying in Ottawa for a few days before leaving for their home in Siam.

GIANT GERMAN ZEPPELIN

WINGS WAY INTO ARCTIC

FRIEDRICHSHAFEN, Germany, July 27 (AP)—The dirigible Zep 1, built by the Gotha-Witzenburg works, is being prepared for a voyage to the North Pole. The dirigible is a giant, measuring 240 feet in length and 45 feet in diameter. It is capable of carrying 30 passengers and 10 tons of cargo. The dirigible is being prepared for a voyage to the North Pole by a team of explorers led by Professor Dr. Albert Ruge. The dirigible is being loaded with supplies and equipment for the voyage. The voyage is expected to last several months. The dirigible is being launched from a barge on the Danube river. The dirigible is being towed by a tugboat. The dirigible is being launched at 10 o'clock this morning.

PITTSBURGH FIRE DEATH

TOLL REACHES 42-MARK

PITTSBURGH, Pa., July 27 (AP)—Death toll reached 42 tonight with the bodies of 10 more victims recovered from the wreckage of the Hotel Pitts. The hotel was destroyed by a fire that broke out on Monday night. The fire started in the kitchen and spread to the rest of the hotel. The hotel was a large, multi-story building. It was built in 1900. It was one of the largest hotels in Pittsburgh at the time. The hotel was owned by the Pittsburgh Hotel Co. The hotel was destroyed by a fire that broke out on Monday night. A Cat Will Stand Just So Much

GRAIN CORPORATION INCREASES STORAGE ROOM FOR HARVEST

Government-Sponsored Unit Announces Acquisition of Elevators to Store 55,000,000 Bushels of Wheat

(By The Associated Press) CHICAGO, July 27.—Coming with a surplus from other years and a booming time of new wheat, the Farmers National Grain corporation has multiplied its storage facilities to keep from glutting congested grain markets.

Checking over its bins today shortly after wheat had reached a new low for all time, the Chicago board of trade, the government-sponsored cooperative corporation announced acquisition of storage space for 55,000,000 bushels of wheat.

The amount of wheat held was not made known, but it was said that 12,000,000 bushels had been bought since the last time the company to pile up from July harvest, causing the market to drop as much as 10 cents a bushel in Kansas and a few weeks ago the government agency held some 25,000,000 bushels.

George B. Miller, general manager of the National Cooperative Marketing Agency, said the terminal elevator program for 1931 had been approved by the board.

"During the first 30 days of July we purchased more than 12,000,000 bushels of wheat from Kansas, Nebraska and Oklahoma," Miller said. "As the harvest moves northward we are making purchases in Kansas and Nebraska."

"Despite the fact that the wheat crop is one of the best in the history on record, and that the winter wheat crop (now being harvested) is a large one, there has been no acute competition in any market. This has been due largely to the fact that a large portion of the wheat crop is being sold to the government."

"The corporation has acquired and is operating many country elevators under agreements with its stockholders in the Pacific Northwest, Intermountain, the spring wheat areas and in Colorado, Nebraska and Missouri. It has taken over the marketing function, Miller said.

"With marketing and merchandising facilities operating in every important producing and consuming area," he said, "the cooperative is able to bring to its membership the advantages that come from both contact with grain buyers and efficient operation of the physical machinery in the growers' interest."

RESIDENT OF WEST END DISTRICT 10 YEARS DIES

BULL, July 27 (Special to The News)—William Henry Johnson, 70, resident of the Bull district for 10 years, died at the family home 14 miles northwest of Bull at 10 o'clock tonight after a brief illness. Intense heat of the last few days was thought to have been a contributing factor in the cause of death.

Besides his widow, Mr. Johnson is survived by two sons, Ben Johnson, resident of the Bull district, and two sons in North Carolina; and three daughters, Mrs. Ada Wilson, Minnie Bayless and Hattie McCulloch, all of Bull.

The body lies at the Johnson and Evans funeral home at Bull. Funeral services will be held at that place at 2:30 o'clock Tuesday.

The Weather FORECAST FOR TODAY AND TOMORROW. No change in temperature.

Maximum temperature in the Twin Falls vicinity was 99.5 degrees in the 24-hour period preceding 7 a. m. today. According to the report of D. D. Giesse, government weather observer here, minimum was 58.1 degrees. The day was fair and the barometer, showing a falling tendency, registered 29.8 inches at 3 p. m.

Sunday's high and low marks were 101.5 and 61.4 degrees. Sunday was partly cloudy and the barometer registered 29.8 inches at 3 p. m.

CHIEF OF PRISONS ANSWERS CHARGES

Director Declares Wickersham Commission Recommendations Already in Use

WASHINGTON, July 27 (AP)—The Wickersham commission's investigation of the American prison system was not used in the Chicago Board of Trade, director of federal prisons, that the government already has adopted the recommendations of the Wickersham commission.

"This commission's investigation was not used in the Chicago Board of Trade," he said, "but the government already has adopted the recommendations of the Wickersham commission."

George B. Miller, general manager of the National Cooperative Marketing Agency, said the terminal elevator program for 1931 had been approved by the board.

"During the first 30 days of July we purchased more than 12,000,000 bushels of wheat from Kansas, Nebraska and Oklahoma," Miller said. "As the harvest moves northward we are making purchases in Kansas and Nebraska."

GERMANS ACCORD BRITISH PREMIER INSPIRING OVATION

(Continued From Page One) Germany and King George V, welcomed his guests by declaring the German people felt a "great gratification" for this visit of leading British statesmen.

"We were glad to receive your visit to London and we were equally pleased to accept your return invitation," the premier said. "The country has been an absolute necessity for developing any strengthening good understanding in the world."

"We have no more to Berlin, however, merely to return your call but also to show the world that, despite the difficulties of the present situation, our confidence in Germany continues."

PEACE OFFICERS OF IDAHO MEET HERE

Associated Members Set Date for Two-Day Annual Convention in Twin Falls

An annual convention of the Idaho Peace Officers' association is to be held in Twin Falls on August 14 and 15, bringing approximately 100 Idaho sheriffs and police officers and prosecuting attorneys here for the two-day session. It was announced here last evening. The convention dates were determined by referendum vote of the association's membership.

The program for the convention was set by the association's executive committee. The program for the convention is to be worked out by sheriff C. D. Thomas and J. C. McLaughlin, Twin Falls police chief.

Various angles of law enforcement problems are to be discussed by the members of the association. The program is to be arranged along with light-weight trials to nearby towns. A program of entertainment is being planned.

Marion Pugmire, Pocatello, is president of the association.

PIONEERS PREPARE FOR PICNIC REUNION

C. D. Thomas, President, Names Substitute to Take Charge of Arrangements

Twin Falls pioneer first settlers are beginning preparations for an annual picnic and reunion to be held on the county fairgrounds at Twin Falls, Idaho, August 14 and 15. The first settlers of the county will meet at this anniversary as the date for the picnic reunion in future years.

G. D. Thomas, Twin Falls, expects to leave this week for La Grande to be away for about two weeks, and he has requested James B. Barnes, Blaine, a former president of the old settlers association, to take charge of arrangements for this year's picnic reunion.

James B. Barnes, Blaine, is secretary of the association.

"The result of the London conference," he said, "has not been a sensation but those who were present at the conference were already carried out, to a great extent."

In his welcoming address, Chancellor Branning said the Germans were "glad of all conditions in England."

"We know you in England are also having a successful time," he said, "caused to some extent by the crisis in Germany spreading internationally. The joint cooperation of all nations, and mutual assistance, is the only remedy. The foundation for this was laid at London. Further reconstruction work must begin now."

"Your presence here today is proof that it is your wish to continue the work so happily inaugurated. May it bring world peace."

Secretary of State Henry L. Stimson, accompanied by Ambassador Frederic M. Bickert, talked for half an hour with President Von Hindenburg today, then started for Amsterdam by airplane on the way back to London.

Meanwhile bankers were arriving from several points to confer with German financiers as recommended by the recent seven-power conference at London.

A bill to substitute lethal gas for electricity in executed death sentences is planned in Alabama.

HEAT-WAVE ENDS 63 LIVES IN 96 HOURS

(Continued From Page One) occurred in the Imperial valley since Saturday, completions showed today. The total included 14 in Mexico and 52 in California. The average for 33 days has been 108 degrees, 3 degrees higher July 1931, than last.

Mexicali headed the list with the number of deaths. Dr. H. C. Gentry, Colorado and California, reported in line. Most of the dead were elderly persons.

Country authorities said about one-third of the dead are Mexicans and a large portion of them dropped dead on the street corners under an unrelenting sun.

Claiming they tried eggs on a downtown corner at Tula, California, A. M. Kline, newspaper publisher, and Kline Eberhart, publisher of the Tula Herald, reported that the thermometer had climbed to 100 or over. Other parts of the state were reporting similar high temperatures.

The hottest spot, although unofficial, was believed to have been the Colorado river canyon area where the Hoover dam is being constructed. Unofficial weather observers reported the mercury went "out of sight" and estimated temperatures from 120 to 130 degrees.

Two deaths were reported. San Bernardino, California, where two more deaths from heat were reported today, has experienced but five days under 100 degrees since July 1. San Bernardino reported 112 yesterday with the thermometer well on its way to again today.

MIDDLE WEST SWelters KANSAS CITY, July 27 (AP)—Whirlwind has been down from cloudless today to increase the discomfort of the first tormented Rocky mountain state. In Dakota, Nebraska and the Southwestern.

The sun's onslaught again today was concentrated on the plains of Kansas where it kept the mercury soaring to 104 at Dallas, 104 at El Paso, a season's record there, and 105 at Laredo.

Temperatures of 100 were recorded generally throughout Oklahoma today, and the Northwest entered upon a second week of intense heat.

As the second week of intense heat, authorities were conscious of greatly increased forest fire hazards in Wyoming and Montana. The conditions in the drought area of eastern Montana were reported considerably aggravated. All the streams of Colorado and Wyoming stood at unusually low levels while many of the streams in Colorado's western slope were entirely dry.

ONE UTAHIN DIES HALT LAKE CITY, July 27 (AP)—Excessive heat claimed the life of a woman here today as the air, with high temperatures, unbroken since July 1, continued. A woman, Josephine "Mama" Valley, California, died at Garfield while on a tour of the country. Her death was the fourth in the state blamed on the heat by physicians. Until this year no deaths from high temperatures had been recorded in Utah for a number of years.

The high mark here today was 102.3, 2.6 degrees higher than yesterday. It was the sixth day the thermometer had climbed to 100 or over. Other parts of the state were reporting similar high temperatures.

High temperatures continued in southern Idaho with Pocatello well over a 100-degree mark and some slightly cooler with 98 after seven days of over 100 degree weather.

POCATELLO HOT TOO POCATELLO, July 27 (AP)—Pocatello experienced its second hottest day of the summer today when the mercury climbed to 100. The district north of here received relief yesterday with rain. A heavy fall was reported in the mountains and estimated 400,000 tons.

Between Montana and Laramie, Montana, a cloudburst delivered a highway under construction. The Upper Snake river valley received some of the shower.

FLAMES DRIVE FOREST FIRE FIGHTERS BACK (Continued From Page One) have escaped.

Fires raged over a dozen farms in other sections of North Idaho and East Washington. The town of Lost Lake was wiped out and the first was on toward summer reports on the lake. Telephone and telegraph lines were destroyed. The lone lumber company mill, north of here, was threatened for a time but 100 rangers checked the blaze and little valuable timber was burned.

IDAHO SOLONS AND SMOOT CONFER ON MINING PROBLEMS

(Continued From Page One) labor on the one hand, and the inadequate and diminishing gold supply on the other.

"To this end conferences are being held among the leading states of this vital question. Furthermore it is deemed vital that the question be kept out of partisan politics, although it is recognized that action by the president and the congress will be necessary under sympathetic and cooperative leadership."

"It is the conviction of Senator Smoot, Borah and Thomas that a constructive program will be worked out which will merit the approval of the people."

"It was unanimously agreed that an international conference is essential to the rehabilitation of silver." Following the conference Senator Borah told newspapermen that whatever plan for stabilization of silver was finally adopted it must involve an international conference.

There is a tremendous public opinion in favor of such a conference," he said.

"The senator pointed out that more than half the people of the world have silver as money for generation and wanting to continue to use it. He said there was seriously restrained from a shortage of money, there being little gold in the world to supply the need."

"Even nations are hampered in payment of their debts," he said. "There is a tremendous public opinion in favor of such a conference."

Senator Thomas concurred with the senator's ideas in a verbal statement.

Following the conference the Salt Lake City delegation took train for Salt Lake City, except Senator Smoot, who will meet Mr. Smoot in Pocatello for a fishing trip to the Jackson Hole country.

Leave today with 50 men trying to put it under control. Two months ago fire destroyed the company's plant.

DIRE FIRE UNDER CONTROL CHILLIE, IDAHO, JULY 27

The loom creek fire in the Chilla area, which has burned over 20,000 acres, was under control tonight. The flames against the unused Loom creek mine buildings, a lumber mill and the shot hole of Castle. They started in the open pine killed by the lack of water and spread so rapidly that the fire was out.

Other southern Idaho forest fires were quiet tonight.

FIRE IN CALIFORNIA OAKLAND, July 27 (AP)—A massive fire on Mount Diablo was reported completely out of control tonight and the Contra Costa county supervisors voted to call "every available man in the county" to fight the fire.

Telephone communication and power lines on the mountain were disabled, and the flames were reported to be spreading toward ranches and orchards.

"OREGON FIRES BURN" BEND, Ore., July 27 (AP)—Additional supplies and men were sent to the Metolito district today where forest fires are said to cover 100,000 acres on the south side of the range. Another conflagration on the Warm Springs national reservation was being held on the south and west sides. Two camps were being used by fire fighters.

SITUATION BAD SACRAMENTO, July 27 (AP)—Despite the fact that California's forest fire situation was the worst in the history of the state, it was estimated more than 100,000 men were fighting fires in a number of northern California counties. The fires were burning in timber, grass and brush lands. Under dry from continued high temperatures.

30 FIEN FIGHT FIRE MARIETTELE, Ore., July 27 (AP)—A forest fire was eating its way into standing timber on the Moore Mill and lumber company holdings in

TWO SMALL FIRES CAUSE NO LOSSES

The Twin Falls fire department was called twice yesterday by small fires which did no damage. The first was extinguished before the firemen arrived and the other was under control on their arrival.

The department was called at 12:15 A. M. in the Hoops Construction company office at 190 Second avenue south, where some gasoline had become ignited. The fire was out when the company arrived.

At 8:20 o'clock last night it was called to the Shua apartment, 330 Second avenue north, where meat cooking on an electric range boiled over and caught on fire. A cloth thrown over the flames to extinguish it. There was no damage, in either case.

ROASTING PROCESS HAS ACCURACY OF ANCIENT TIMEPIECE

Hourglass and Hills Bros. Method of Roasting Coffee Operate a Like at a Time

It is fascinating to watch a hourglass flowing evenly, continuously, a little at a time. But the flavor of coffee that's roasted continuously, a little at a time, is even more fascinating.

Controlled Roasting—Hills Bros. patented process—is the only such roasting method. As the accuracy of the hourglass depends upon continuous flow, so the accuracy of Hills Bros. Coffee is produced by this patented process that roasts evenly, continuously, a little at a time.

There is a vast difference between Controlled Roasting and ordinary roasting methods. There is a vast difference in results too! Controlled Roasting faithfully controls the heat of the roasting process in the coffee-berry. It develops the flavor perfectly. You have never tasted Hills Bros. Coffee.

Remember also that this coffee never varies in flavor. And it is always fresh! Air which destroys the flavor of coffee is removed and kept out of Hills Bros. vacuum cans. Ordinary "air-tight" cans won't keep coffee fresh.

Hills Bros. Coffee today. Ask for it by name, and look for the Arab trademark.

Hills Bros. Coffee, Inc., Portland, Oregon.

Darn good—you'll say!

Everybody wants a mild cigarette. And when you find one that is milder and tastes better too—you've got a smoke!

Chesterfields are so much milder that you can smoke as many as you like. They're made to smoke milder. And you know they taste better the moment you light up. They're made to do that too! Mild, ripe, sweet-tasting tobaccos—the best that money can buy. That's what it takes to make a cigarette as good as Chesterfield. And the purest cigarette paper!

Every Chesterfield is well-filled. Burns evenly. Smokes cool and comfortable. They Satisfy sums it all up!

Flying Days Beckon For World's Largest Dirigible ZRS-4

NAVY ADDS FINAL TOUCHES TO HUGE LINER OF SKIES

Craft Takes Air First Time Next Month After Mrs. Hoover Performs Ceremony

CONSTRUCTION WORK NEARS COMPLETION Several Weeks' Labor Upon Interior of Zeppelin Remains After Rites

AKRON, July 27—Flying days beckon for the world's largest dirigible, the United States navy's ZRS-4.

The giant craft will take the air for the first time when it is inflated with helium on August 8 at Mrs. Herbert Hoover.

It will be America's second home-bred dirigible, the one that crashed in Ohio in 1925 having been the other, though the navy has another dirigible, the ZR-1, which is being inflated at Akron.

Like the Shenandoah, named by Mrs. Hoover, and the Los Angeles, christened by Mrs. Calvin Coolidge, the ZRS-4 will have a ceremony in which home-bred pilots will be released.

Prior to the christening the dirigible will be inflated with helium until it rises approximately 10 feet from the ground on which it has landed. It will be pulled down afterwards within the dock for anchorage.

Through air borne, the craft will not be able to fly for several weeks until interior work has been completed.

Slider Ship Planned
Its cradle will be free for the construction of a sister ship, the ZRS-5, which will not be inflated, however, until facilities from the secretary of war is given after the Akron has been released.

Although the ship is 14,000 or more pounds heavier than the previous dirigible, it is said to be satisfactory in other respects.

The ship will remain inflated in mid-air, with the dirigible being towed by a cable, with an hourly check to make any changes in ballast necessary.

NAVY TO HANDLE TRIALS
Trial flights, to be begun after the completion of interior work, will be in charge of a navy crew. This is a departure from custom, a contractor usually running tests on government purchases.

If passed successfully, the ship will be turned over to the navy for commissioning and docking along the Los Angeles.

Mightest of all heavier-than-air craft, the United States navy's dirigible ZRS-4 is nearing completion at Akron, Ohio. Above the picture indicating progress of construction is a diagram comparing the new dirigible with the Los Angeles. In christening ceremonies August 8 in the Ohio city Mrs. Herbert Hoover will name it "Akron."

BODY OF HANSEN MAN COMES TO TWIN FALLS

HANSEN, July 27 (Special to The News)—Word was received here today of the death of George Moore Hansen, 31, oldest son of Mr. and Mrs. Henry LaCourse, Hansen, who died suddenly at Billings, Montana, last Saturday, as a result of blood poisoning.

The body will be brought to Twin Falls to the Twin Falls mortuary where funeral services will be held at 3:30 P. M. Tuesday. Interment will be in the Twin Falls cemetery. Rev. O. J. Randall, formerly of Tanners, and Rev. Leslie B. Bailey, Tanners, will conduct the services.

Born at Vernal, Utah, August 12, 1898, he was the oldest of five children. Surviving are his parents and three brothers, Harry, Clarence, and Cecil LaCourse all of Hansen, Nevada. LaCourse, a sister, preceded him in death several years ago.

RUSSELL LANE FOLKS VISIT WITH RELATIVES

RUSSELL LANE, July 27 (Special to The News)—Arrivals and departures of Russell Lane family and relatives have been numerous during the last week. Others are expected to visit this week.

Glenn Walden, Knoll, nephew of Miss Oscar Edwards, is spending his vacation with the Edwards family here.

Miss Florence Sears, Clifton, Idaho, is expected to arrive this week to spend two weeks at the home of Mr. and Mrs. Glenn Stokke.

Miss Paula Hall, Waverly, Nevada, arrived by stage late last week and is a guest of her brother, Frank Hall, and family.

Ray Austin will leave Saturday morning for Salt Lake City for a week-end trip.

THREE BURLEY HOTELS UNDERGO ALTERATIONS

BURLEY, July 27 (Special to The News)—Three main street hotels here are being redecorated or remodelled.

The American hotel has been completely remodeled, including the store rooms. Part of a new room has been taken for an office and lobby for the remodelled hotel in the Shobe building and a new wing is being built from the lobby, giving an inside entrance from the lobby to the room above. S. P. Washington, Oakley hotel man, is the new lessee.

THEATRES

"UP FOR MURDER" PLAYS AT ORPHEUM

Tomorrow marks the opening of "Up for Murder," the Universal low drama which has been described as one of the outstanding pictures of the current season, and which comes to the Orpheum Theatre for an engagement of only two days.

Low Ayres and Genevieve Tobin, two of the most popular of the screen's newer players, appear in this production, which is a powerful low drama, told against the exciting activities of a great newspaper office. The story is a constant succession of dramatic situations brought about by the existence of the "eternal triangle," in which the cub reporter and the society editor are unmarried, but the publisher is not.

It is when the young reporter, having fallen desperately in love with the publisher's daughter, who is the daughter of the editor, discovers the exciting situation that the drama takes its toll in hands and brings about a tragedy that seriously affects each one of the three principal characters.

Ruth Chatterton in "The Man in the Moon" shown last time today.

"LOVER COME BACK" FEATURES AT IDAHO

What is the reaction of a girl who is jilted by the only man she has ever cared for? Is she so thoroughly disillusioned that she makes a quick exit from the world that has disappointed her—does she compromise and accept the best man that comes along—does she shut herself off from the world as far as men are concerned or go to the other extreme of going on a "wild life" in an attempt to forget—does she calmly wait, feeling that he will be faithful to her and that "her lover will come back?"

"Lover Come Back," the Columbia film showing today and tomorrow at the Idaho Theatre, is said to be an analysis of how a typical modern girl conducts herself in such a situation. The story is unfolded against a background of modern settings in Park Avenue apartments, offices of "big business" and beautiful Long Island estates.

The cast includes Jimmy Cagney, Jack Mulhall, and the latest sound news.

Buster Keaton plays Thursday and Friday in "Toughness," one of his funniest pictures.

RUSSELL LANE PLANS FOR GRANGE SESSION

RUSSELL LANE, July 27 (Special to The News)—Jerome County Pioneer Grangers will convene Saturday, August 1, at 11 A. M. at the Russell Lane schoolhouse. It was announced here by local grangers today.

CASTLEFORD MAN HEADS KANSAS

600 Citizens of "Sunflower" State Hold Picnic and Program in Buhi Park

BUILD, July 27 (Special to The News)—John H. Glander, Castleford, was elected president of the "Twin Falls County Kansas club," to succeed J. R. Winkle, Twin Falls, at its annual picnic meeting, attended by 600 persons here Sunday afternoon.

Roy Palmer, Buhi, was elected vice president, and George R. Johnson, Buhi, secretary-treasurer. The picnic meeting will be held at Buhi.

President Winkle turned the meeting over to R. E. Hopkins, Buhi, to introduce speakers, a task which he performed in a happy vein. He referred to the great program of legislation for which Kansas was responsible. Mayor E. M. Tomlinson welcomed the club in a cordial address.

Mr. Palmer, who is cashier of the Castle National bank, Buhi, made his cheerful remarks, Buhi, made his cheerful remarks, Buhi, made his cheerful remarks.

Rev. Chris J. Berry, pastor of the Buhi Christian church, gave an edifying talk on the subject, "Fidelity," which he described as a mental and moral state, possible for all to attain. His address was interrupted by a heavy shower which scattered the crowd. After the rain part of the audience returned, and Rev. Berry concluded his remarks after which James D. Winkler, veteran Twin Falls newspaper man, introduced.

Mr. Winkler told how continuation of discussion of pre-war losses after the civil war, diverted attention from live questions and eventually fostered corruption. This, he said, at last

BURLEY GETS SIX DAYS OF HIGH TEMPERATURE

BURLEY, July 27 (Special to The News)—Records for extreme heat were shattered here Saturday when the sixth consecutive day of scorching heat began. High day temperature reached 100 during this period. High night temperature reached 72, both tying the respective records since 1906 when weather recording instruments were installed here.

FILM FOLKS SUFFER

FILM, July 27 (Special to The News)—Two film residents are suffering from burns and illness. Mrs. Luther Pines received severe burns on her hands and face Sunday from an explosion of paraffin while melting it on the stove floor.

Ellis Cates, residing west of Pines who became very ill Saturday is said to be suffering from heat prostration.

BURLEY CASE CONCLUDES

BURLEY, July 27 (Special to The News)—In the case of A. J. Schenover against Clyde McCleakie, in which McCleakie was charged with withholding money derived from the sale of some well drilling equipment claimed by Schenover, Justice Frank B. Parks decided for the defendant.

The case was on trial portions of three days and was the first public case tried by Justice Parks.

PROFESSOR IN MOSCOW GETS LEAVE TO STUDY

MOSCOW, July 27 (Special to The News)—Biblical leave of absence for the 1931-32 year has been granted to one of Idaho's faculty veterans, Professor J. Hugo Johnson, head of the department of electrical engineering. Professor Johnson left the campus this week to spend the year studying under the famous Dr. Robert A. Milliken at the California Institute of Technology, Pasadena.

His advanced work will include studies of some California power developments, the most extensive hydroelectric projects in the world. During his absence Professor R. A. Milliken will be acting head of the department.

Professor Johnson joined the University of Idaho faculty in 1918. Under the university's system of sabbatical leave, two faculty members a year, in order of seniority, are granted leave of absence for advanced study in their particular fields.
