COMMISSION HITS AT THIRD DEGREE IN NEW REPORT

Wickersham Board Suggests Constitutional Amendment, If Necessary, to Curb Alleged Police Brutality

(By The Associated Press) WASHINGTON, Aug. 10.—A new constitutional amendment was suggested today by the Wickersham commission if necessary to curb alleged "third degree" tactics by the police.

In a report to President Hoover on "lawlessness in law enforcement," the commission asserted that there could be no doubt of the "raked, ugly facts" that such barbarous practices were common. It named two score cities in which there were instances of past or present gross.

The charges against immediately brought a series of denials from the cities throughout the country. Replies ranged from cities of "credibility" to the greatest cities of the nation.

What are we to do when our baby kills a man today? The commission report also demanded that it called "lawlessness in law enforcement."

It cited 26 instances in which accused persons had been brought to trial so speedily as to be unable to prepare a defense, defendants had been denied counsel and prosecutors and judges themselves had resorted to actual misconduct.

Asserting it intended to arouse the pressure of public condemnation against all types of illegal law enforcement, the report similarly cited instances of "third degree" cases spreading over the last 10 years and reaching into more than 25 states.

It described in detail such methods as beating with a rubber hose, and holding prisoners under water or pouring liquid in their noses.

(Continued On Page 2, Col. 2) BUTTERFAT PRICE Product's Value Rises Total of 6 Cents in 20-Day Period in Twin Falls District

The price of butterfat rose another cent in Twin Falls yesterday afternoon, marking the sixth rise in the price since July 23, and totaling the price now 25 cents a pound.

It has been estimated that a 1-cent rise in the price of butterfat will approximately 475 a day extra to dairymen of Twin Falls county. This is the highest price for butterfat from the county since the early days of the war.

The 6-cent increase in the price during the last 20 days, therefore, amounts to an extra \$125,000 benefit from the higher price.

Butterfat prices and creamery officials have attributed the rise in price to drought in many of the western states, and to the drought, causing a decline in milk production, and a resultant increase in demand.

The butterfat price was fixed at 24 cents a pound by the dairy men on Tuesday, July 21, the price raised to 25 cents; Friday, July 24, 26 cents; Saturday, July 25, 27 cents; Sunday, August 2, 28 cents; Monday, August 10, 29 cents.

It is believed that a shortage of butter is prevalent throughout the country, and that the price will retain its strength for a long period.

Battles Rebellion STATES CHALLENGE CARRIERS' CLAIMS FOR RATE ADVANCE

Six Middle-Western Boards Question Commission's Authority to Grant Increase; Grange Speaks for Farmer

(By The Associated Press) WASHINGTON, Aug. 10.—The authority of the interstate commerce commission to increase the rate of freight and passenger fares was challenged today by representatives of six middle western state railroad regulatory commissions.

In a petition, presented in the federal commission's hearings on the proposed rate increase, the railroad regulatory commissions stated that the financial emergency alone was insufficient basis for authorization of the advance.

The commission today heard Fred Breckman, Washington representative of the National Farmers' Union, who urged the increase, if granted would cripple the ruin of the farmer. He argued that the railroad carriers were to lose too little more than that they too lose.

The petition of the middle western commissions was signed by representatives of Iowa, Minnesota, Kansas and Nebraska. It asked that the rate of the railroad be increased, if granted would cripple the ruin of the farmer. He argued that the railroad carriers were to lose too little more than that they too lose.

In the event their petition was denied, the middle westerners proposed an alternative, freight rates be increased to the level of the rates in the east.

The petition of the middle western commissions was signed by representatives of Iowa, Minnesota, Kansas and Nebraska. It asked that the rate of the railroad be increased, if granted would cripple the ruin of the farmer. He argued that the railroad carriers were to lose too little more than that they too lose.

Conceding that railroads must have fair rates for a continuing service in good condition, Breckman said it is proper to say that if the railroads are to be maintained, they must be paid for the service they render.

The railroads are facing problems and perplexities as a result of the present depression, it is still more serious that agricultural communities with their dependence on the railroads.

"If the railroads are facing problems and perplexities as a result of the present depression, it is still more serious that agricultural communities with their dependence on the railroads.

STOWERS AT DAM TEST EMPLOYER'S PAY-OFF EFFORTS

Resisting Workers Attempting to Force Recognition, Try to Induce Others to Refuse Their Pay Checks

(By The Associated Press) AS VEGAS, Nev., Aug. 10.—The majority of the thousand odd workmen held up in the indefinite suspension of the Hoover dam power-plant project, had taken their pay checks tonight, despite efforts by members of the "red" union to induce discharged employees to refuse pay.

The suspension was announced Sunday by the Committee, Incorporated, general contractors, after 125 tunnel workers had quit, protesting the pay cut and working conditions.

"There have been no disorders at the Hoover dam," said a spokesman for the Committee, Incorporated, general contractors, after 125 tunnel workers had quit, protesting the pay cut and working conditions.

200 Men Battling in Fight to Halt Flames Near Idaho Homes

Clear Creek Ranch Section in Path of Fire North of Boise; 20-Mile Front in Salmon River Area

(By The Associated Press) BOISE, Aug. 10 (AP)—Hundreds of men were battling today to halt the flames in a drive on the 25,000-acre fire north of Boise with the hope of saving all the inhabited spots within the fire zone.

The fire, which started on Sunday, had taken the entire day to contain, however, it was estimated that 8,000 to 10,000 acres had been burned.

Nearly 200 men were working to contain the fire, which had taken the entire day to contain, however, it was estimated that 8,000 to 10,000 acres had been burned.

RAINFALL DEARTH CUTS DEEPLY INTO FARM PRODUCTION

Government Report Indicates Generous Supplies of Most Important Crops Despite Curtailment by Drought

(By The Associated Press) WASHINGTON, Aug. 10.—Drought in the West and South, cut deeply into American agricultural production last month, but government reports indicate that the supply of most important crops still are assured.

Forecast made by the agricultural department today showed rainfall shortages in July had cut the prospective yield of corn crops by 10 to 15 percent.

For the country as a whole, however, an average crop is expected. A committee of the prospective yield for 23 principal crops is 10 percent above last year's when drought was widespread.

SHORT LINE LEADS LIST OF APPLICANTS FOR TAX REDUCTION

State Board of Equalization
Opens Two-Week Session
Facing Flood of Appeals
by Utilities Corporations

(By The Associated Press)
BOISE, Aug. 10.—A flood of appeals for lower taxes was placed before the state board of equalization today by the various public utility companies of the state as the board began its annual two-week session to fix the valuations of these companies as well as to equalize the valuations fixed in the counties by the assessors.

The Oregon Short Line railway led off the appeal with a claim that the value of its property for taxation was unduly inflated for the railroad. E. M. Sawyer, tax agent, contended the railroad was assessed at 90 per cent of its value while other property was assessed at 44 per cent.

Moreover, he contended the value of other property was steadily being decreased by the tax assessor's failure to take into account the additional burdens on the railroads in raising a greater proportion of the necessary money for schools, highways and local and state government expenses.

A similar complaint was made by other railroads who joined the Oregon Short Line also in a complaint against the tax assessor's failure to take away a profitable share of freight and passenger service without the payment of proportionate taxes.

Appearing before the board were the Oregon Short Line, the Great Northern, the Northern Pacific, the Great Northern, the Spokane International, the Wyoming, Idaho and Montana railroads, the Pacific Telephone and Telegraph company, and the Idaho Power company.

RAINFALL—DEARTH CUTS DEEDLY INTO FARM PRODUCTION

(Continued From Page One)
Reduced spring wheat. A production of 118,402,000 bushels is now forecast as compared with 156,423,000 on July 1. This is the smallest crop since 1915.

An oat crop of 1,170,000,000 bushels was produced as compared with 2,400,000,000 last year. 77,800,000 tons of rice hay against 77,800,000; 214,800,000 bushels of apples against 184,000,000; 77,100,000 bushels of peaches against 53,000,000; 261,000,000 bushels of pears against 274,000,000; 1,700,000 tons of grapes against 2,400,000; 871,000,000 bushels of potatoes against 945,000,000 and 1,817,000,000 pounds of tobacco against 1,641,000,000.

The preliminary estimate of winter wheat production by important producing states was announced as follows:

Montana 11,000,000 bushels; Idaho 11,070,000; Indiana 12,940,000; Illinois 14,850,000; Michigan 18,070,000; Minnesota 1,850,000; Iowa 17,397,000; Missouri 17,380,000; South Dakota 16,000,000; Nebraska 16,700,000; Oklahoma 16,650,000; Texas 16,700,000; Montana 1,850,000; Idaho 17,397,000; Colorado 17,380,000; Washington 16,700,000; Oregon 16,650,000; California 16,700,000 and Kansas 22,487,000.

The condition August 1 and indicated production of spring wheat by important producing states were:

Montana 75 and 11,070,000; North Dakota 53 and 27,010,000; South Dakota 52 and 11,600,000; Montana 51 and 12,940,000; Idaho 68 and 11,070,000; Washington 53 and 11,600,000.

The August 1 condition and indicated production of potatoes by

The Weather

FORECAST FOR TODAY AND
TOMORROW—Fair; slightly cooler
in north Idaho.

Maximum temperature in the Twin Falls vicinity was 102 degrees in the 24-hour period preceding 8 P. M. yesterday, according to the report of D. B. Chynoweth, official weather observer here. Minimum for the period was 43 degrees. The barometer registered 29.80 inches at 9 P. M. The prevailing wind was westerly and the humidity ranged between 53 and 10 per cent.

Temperatures high and low temperatures were 90.5 and 43 degrees. The barometer registered 29.77 inches at 9 P. M. Humidity ranged between 53 and 10 per cent and westerly and southeasterly winds prevailed.

Principal producing states were: Maine 92 per cent of normal and 44,700,000 bushels; New York 84 and 24,800,000; Pennsylvania 84 and 24,800,000; Ohio 75 and 16,970,000; Michigan 74 and 25,500,000; Wisconsin 51 and 11,640,000; Minnesota 51 and 12,940,000; Nebraska 51 and 12,940,000; Idaho 68 and 11,070,000; and Montana 51 and 12,940,000.

The indicated production of the principal crop, based on their condition August 1, was:

Wheat, 118,402,000 bushels, compared with 156,423,000 and 612,000,000.

Other spring wheat, 20,000,000 bushels, compared with 13,000,000 and 194,000,000.

Oats, 1,170,000,000 bushels, compared with 2,400,000,000 and 1,138,000,000.

Barley, 271,000,000 bushels, compared with 281,000,000 and 233,000,000.

Rye, 26,200,000 bushels, compared with 30,200,000 and 40,000,000.

Rickwheat, 16,000,000 bushels, compared with 1,700,000 bushels.

Hay, 1,170,000,000 tons, compared with 70,000,000 and 77,800,000.

Beans, 167,000,000 bushels, compared with 24,700,000 and 21,000,000.

Apples, 214,800,000 bushels, compared with 184,000,000 and 184,000,000.

Peaches, 261,000,000 bushels, compared with 274,000,000 and 274,000,000.

Pears, 24,800,000 bushels, compared with 24,800,000 and 27,800,000.

Potatoes, 945,000,000 bushels, compared with 945,000,000 and 945,000,000.

Grain, 1,200,000 tons, compared with 1,200,000 and 1,200,000.

Characterizing the practice of such tactics as extremely "secret" and usually to be accompanied by formal official details, the report said nevertheless that some weight must be given to arguments favoring extending questions or a slap on the face, since they did not "settle."

The report, compiled save for a brief preface by Zachariah Chaffin, Jr., of Harvard, Waller B. Polak and Carl B. Stern of the New York bar, placed considerable weight upon a special investigation conducted in 15 cities.

"Of New York it said the 'third degree' is widely and trivially employed. Boston drew high praise for keeping 'the third degree' and related types of brutality at a minimum."

Newark was commended as supporting such practices, but under strict control, with force usually employed as a last resort. Philadelphia was said to have largely wiped out its use of brutal practices during the last two years.

In Chicago the employment of brutal methods of obtaining confessions was said to be "wholly at home." Boston with various instruments were reported common.

In Dallas, Texas, the report said holding prisoners incommunicado

TEXAS GOVERNOR HITS CHAOS IN OIL

Stirling Threatens to Join
Oklahoma in Use of Militia to Close Flush Wells

AUSTIN, Tex., Aug. 10.—Gov. Ross B. Stirling of Texas tonight threatened to join Oklahoma in declaring martial law in an effort to relieve the chaos of the oil industry, suffering from the lowest prices on record.

In a statement following the governor said that "many citizens of Texas feel that our conservation laws are being trampled under foot, and are asking the chief executive to use the militia of the state to close the flush wells."

Stirling said that it will not be necessary to do this, but that the legislature will find itself, and finally pass such remedial measures as will meet the occasion.

The governor declined to amplify his statement in conversation with newsmen.

At the same time Governor Stirling said that Governor Murray of Oklahoma would be for a conference tomorrow.

Stirling said that the national guarantee to shut off the flush oil wells in his state. The Oklahoma governor said when the price of oil was not raised to \$1.00 a barrel he has no objection.

A top price of \$2.00 a barrel now is being paid for petroleum in the mid-continent area.

Agitation for higher prices throughout the area has resulted in "voluntary" shutdowns on the part of many independent producers in Kansas, Oklahoma and Texas.

The Texas governor's threat to follow the invitation of his neighboring chief executive and "use the militia" follows the apparent failure of a special session of the legislature to enact laws to relieve oil market conditions. Much of the over-production is attributed to the heavy flow of the new east Texas field.

Indications are that the legislature, called to consider the oil situation, would close in three days without acting.

It was common but doubt existed as to the use of other methods objected to. In Denver epidemic manhandling was reported, but it was said most often was held under cover for days in jails said to be filthy and verminous, and the food.

Despite strict statutes forbidding inhumanity in Los Angeles, the report said, investigation indicated third-degree practices are a serious evil. It said many of the police believed strongly in the use of force.

In San Francisco, it was said, brutal methods were employed in cases where little newspaper prominence. Prisoners were reported beaten constantly in the central hall of justice. The report said types of lawlessness encountered in Seattle, considered "lighting qualities on the face of the police" but that police from beatings upon arrest there was little evidence of the third degree.

The report said it was believed the third degree, combined by temper or editorial in Oregon, was infrequent there and that "questioning" does not usually go beyond the bounds of decency and lawfulness.

In Idaho, Utah and Wyoming it was said such practices were reported not to exist, while in New Mexico it was said the opinion had been expressed it was not practiced.

Arizona was said to be comparatively free of third degree, as was New Mexico, and in Arizona it was said the opinion had been expressed it was not practiced.

Arkansas was said to be comparatively free of third degree, as was New Mexico, and in Arizona it was said the opinion had been expressed it was not practiced.

IDAHO COPPER COMPANY IN ONE MORE LAWSUIT

BOISE, Aug. 10.—Cooley Butler, Los Angeles mining man, brought suit today against the Idaho Copper company for \$115,000 due on notes and \$10,000 which he said was due for cash advances in his made for the company.

For the copper company it marked merely one more suit in a long series of suits and later antedated to the federal penitentiary in Atlanta in connection with various mining stock promotions.

Rice was subsequently expelled from the company by a long series of suits and later antedated to the federal penitentiary in Atlanta in connection with various mining stock promotions.

ORDER TO POLICE TO GET GANGSTER

New York Authorities Want
Vincent Coll to Tell
About Shooting Babies

NEW YORK, Aug. 10.—The New York police force today issued an order to Vincent Coll, a New York gangster, to tell the police about the shooting of babies.

Police want to ask him some questions about the gang gunning of July 28, when Michael Vengali, five years old, was slain and four of his playmates wounded as they were in the streets of New York.

Police believe Coll can tell them where the four men who were in the streets of New York.
