BSEPT 14—(Via Pan Am) —
 (Elizbe, British Honduras)
 (Jenn radio) — Little ap-
 proaching from the southwest
 that a tropical storm, threaten-
 ing the western Caribbean, would strike this Honduras
 capital, devastated by a hurricane
 last week that took a total of between 500 and 100
 lives.

Until advised by radio message
 few persons here knew of the ap-
 proaching storm, due to the fact
 that all other means of commu-
 nication have been disrupted.

Latest reports indicated the storm
 would pass inland between 400
 miles and 450 miles from
 Comuel Island, about 400 miles
 from here.

After a night's rest local coasts
 resumed their task today of min-
 istering to the injured. They work
 an emergency first aid station at
 the airport.

A few cases of gangrene were
 reported in the outlying districts
 among natives who have not had
 opportunity to come here for treat-
 ment.

Building Starts
Rehabilitation work is continuing as rapidly as possible under existing conditions and the sound of hammers and saw can be heard as busy workers strive to erect livable quarters.

Funeral pyres, where some of the dead have been cremated, were somewhat quenched by gale last night when they were rekindled today as disposition of the bodies continued.

A Spanish Honduran consul, Francisco Sainz, Jr., reported that Honduran vessels were sunk during the hurricane and that approximately 45 members of their crews were drowned.

Groups of doctors from Guatemala

Twenty college students were killed during the storm. Others were injured, but are sliding in the rail.

The dead are being burned with identification or ceremony.

The Salvation Army took over operation of soup kitchens to feed hungry.

PROHIBITION ORATOR SCORES VIOLATORS IN BRILLIANT TALK

Former Georgia Congressman Stirs Vast Audience With Fiery Eloquence in Witty Address in Church

William D. Upham, former member of congress and president of the National Christian Citizenship Foundation, of College Park, Georgia, last night before a meeting that crowded the First Methodist Episcopal church here, paid eloquent tribute to Twin Falls city and section, to its schools, to the eloquent introduction which he received from W. B. Smith, superintendent of schools, which he declared to have been one of the best in the country.

He gave unsolicited praise to Congressman Addison T. Smith, who he said held more than any other man in the country before congress and was "offen for prohibition as I did, which is going home."

With intense and fiery eloquence the speaker denounced the liquor traffic and those who in any way participated in it or condoned it.

The meeting was called to order by Rev. O. W. Huston, pastor of the First Christian church, who led in the singing of "Onward Christian Soldiers." Prayer was offered by Mr. M. H. Long, pastor of the First Methodist Episcopal church.

A song entitled "Outlaws," dedicated to Mr. Upham, was sung by the choir. Upham, after a brief introduction by Mr. Huston, began his address by saying that he was a native of Georgia, and that he was a member of the Georgia legislature, and that he was a member of the Georgia legislature, and that he was a member of the Georgia legislature.

Another Idahoan finds the Telephone a Valuable Aid in Doing Business

John A. Housh, of the Idaho Telephone Exchange, Inc., at Caldwell, has been a user of Long Distance telephone service for several years.

During the fall of 1930 and spring of 1931 practically all of our lettuce and potatoes were sold in markets in the Middle West by telephone.

Long distance telephone service can be adapted to suit your business. No matter what the requirements of your organization, this swift, economical service can be fitted to them.

Here are a few ways the telephone can be used:

1. To secure increased business from old accounts.

2. To bring "dead" accounts to life.

3. To secure orders from salesmen's visits.

4. To expand rural market coverage.

5. To adjust misunderstandings.

Long distance telephone service can be adapted to suit your business. No matter what the requirements of your organization, this swift, economical service can be fitted to them.

SIMILARITY BETWEEN ROASTING COFFEE AND COOKING FOODS

"A Little at a Time" Is the Secret for Securing the Finest Flavor.
 Foods generally taste better when cooked in small quantities. For then the cook can mix her ingredients properly, also control the heat. When coffee is roasted in small quantities, the same thing is true. But when coffee is roasted in bulk, as most coffees are—exact control is lost. Under-roasting and over-roasting very easily occur. This method being so unsatisfactory, caused Hills Bros. to look for some improvement—some way to roast their rare blend to uniform perfection. They experimented for years, and eventually invented and patented Controlled Roasting.

HOWDY FOLKS
 No matter how long your vacation lasted we know you were tired when you got home.

When Bob Logan told Sid Craig that radio was in its infancy, Sid said he was sure that the one sure thing was that his house was not twine.

And speaking of twine—we have the best prices Twin Falls has seen for a long time.

Bugs White says that in the barber school where he learned his trade, they used to tell about seeing the customers to make their hair stand up so.

Les Logan, the sign

painter, asked a local flapper if she knew anything about stitching. "Yes," she said "my father had it for seven years."

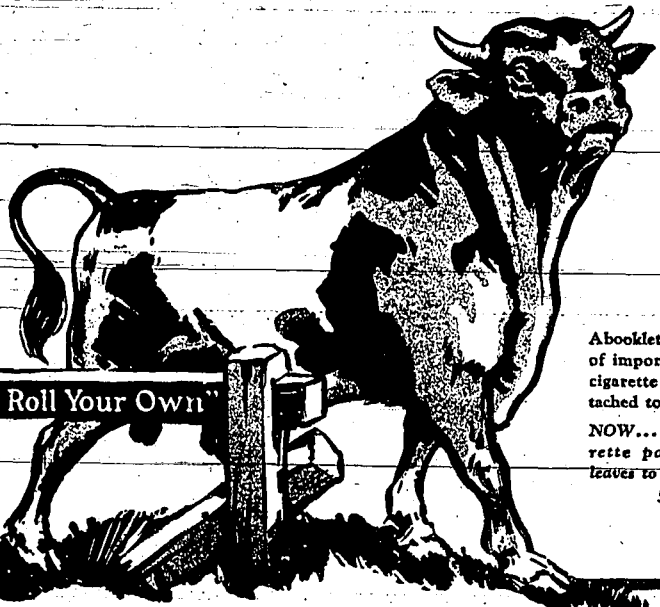

And prices of building materials are the lowest they've been for at least 7 years.

A lady rushed into the Diamond hardware store the other day and said, "Give me one of those large mouse traps. I want to catch the Boles stage." And Mike said, "I'm sorry lady, but we haven't any large enough to catch a stage."

Well—we've come to the bottom of the page.
