GIANNINI FIGHTS SALE OF SYSTEM

Deposed Banker Fires Second
Broadside at New Trans-
America Board Plans

SAN FRANCISCO, Sept. 23 (AP)—The second broadside at the new Trans-America plan, A. P. Giannini declared last today he would throw his full force into the fight to prevent disposal of the giant California banking chain, Bank of America, at a "ridiculously low price."

Giannini vigorously denounced what he said was the obvious purpose of "the enemies of the bank," to secure the assets of the bank, with its 410 branches using all California's great system of deposits, at a "ridiculously low price."

Last night Giannini said he would fight the plan, and tonight he showed progress had already been made in the campaign.

A stockholders' committee was reported tonight to carry on the fight, but Giannini denied he had initiated the move. He stood ready to participate in its activities, however, he indicated. He said he had received numerous communications and personal visits from stockholders opposed to "the Walker decontrolization plan."

"I also urged stockholders not to dump their Trans-America shares," sitting in his office in the Bank of Italy building, high above California street, Giannini said.

Not fully informed
"I am not fully informed about the latest developments, but I wish to emphasize what I said yesterday—that it appears to me to be a useful exercise of values for those who are not forced to sell their Trans-America stock at a price of 10 cents."

"Such a procedure can only prove disadvantageous to all of the stockholders and would enable the enemies of the corporation to accomplish their purpose, which obviously is to secure the control of the bank at a 'ridiculously low price.'"

Triflingly the Bank of America National Trust and Savings Association, which has a normal earning capacity, even in these days of widespread depression in the neighborhood of \$1,000,000 a month, is alone worth very much more than the present value of all Trans-America stock, without taking into consideration the many other extremely valuable properties it owns.

Speaking of the reported organization of a stockholders' committee, the plutocratic financier said:

"Although it is not my purpose or intention to initiate such a move, my interest in the welfare of the stockholders of Trans-America is so sincere, deep and permanent that I intend in spite of my retirement to exert myself to the full extent of my physical and mental ability in their behalf."

"I want everyone to understand, however, that I am not looking to be restored to my former position or to sit back and see the bank sold."

"I have no ambition to re-enter business. Personally I hope to be allowed time and peace to regain my health which became impaired in the service of the stockholders. However, I am so desirous of seeing the stockholders get a square deal, I stand ready and willing at all times to place at their disposal, or at the disposal of their qualified representatives my counsel, advice and recommendations as to the best course of action to be followed."

CUSTOMERS OF BANK IN POCATELLO FACE DEPOSITS IN OBTAINING DEPOSITS

POCATELLO, Sept. 23 (AP)—Citizens Bank and Trust company, Pocatello, was in the hands of the state department of finance tonight while preparations to liquidate its resources got under way without delay.

The bank failed to open today and a notice on the door, signed by J. R. Russell, president; E. W. Hall and A. B. Bean, directors, said the bank was closed by order of the board of directors and was under control of the state department of finance.

"Heavy withdrawal"—is—several weeks were blamed by officials for the bank's present condition. Deposits on June 30 totaled \$307,182.30 and at the close of business yesterday amounted to only \$25,000.

Mr. Russell said all depositors will receive money, or all of their money, if the bank's affairs are carefully liquidated.

The assets of the bank are listed as follows: Loans and discounts, \$306,000; overdrafts, \$22,227; furniture and fixtures, \$31,493.01; unlisted securities, \$215,000. The listed liabilities are: United States government bonds, \$74,750; unwarrented and listed securities, \$142,350; cash due from other banks, \$64,500. Total resources are estimated at \$377,227. Total cash resources are listed at \$21,500. Funds and resources are listed as \$723. Radio accounts listed are \$25,000. A surplus of \$25,000 is reported.

STATE AGENT LEAVES

BOISE, Sept. 23 (AP)—E. N. Johnson, liquidating agent for the state department of finance, left today to take over the affairs of Citizens Bank and Trust company in Pocatello which closed its doors this morning.

Ben Davidson, commissioner of finance, said the closing came "because the bank could not liquidate its loans fast enough to keep pace with the withdrawals which have continued steadily for several months."

He said it would be 10 days before the department will know what the status of the bank is and how much will be returned to depositors.

Survey of the navy aspects of the problem it would not be possible to approve any particular form of agreement at present.

He pointed out that the present cruiser level of the United States was "considerably below" the London treaty. While failure to augment existing naval strength for a year would cause "embarrassment and a dislocation of construction plans," he said the United States was willing to "forgo our treaty rights in this respect."

He expressed the hope that the Geneva would develop from the general to the more specific so that agreement could be reached on details.

radio, automobiles and appliances, the Texas farmer will have plenty to eat this winter.

"The average farmer is fattening his cattle on unmarketable grain and will slaughter them during the cold months to provide a meat supply for his family. Neighborhood slaughtering 'bees' already are being planned in Mid-Western states."

In Pennsylvania the increase in canning is estimated as high as 200 per cent. In Oklahoma—a 1930 family on the Red Cross list last year now has more than 500 jars of food stored away.

In Minnesota pork, lamb, beef and even chicken meat are being preserved.

Canning Interest Spreads
The interest in canning has spread from country folk to their city cousins who have gone into markets, taking advantage of low prices, and

bought large supplies of fruits and vegetables for preserving.

The extent of the movement is reflected in reports from manufacturers that the greatest shortage of glass jars in the history of the country now exists.

In all except a few states the farmers' plows and underground pits are filled to the point of overflowing with potatoes, apples, cabbages, turnips and other non-perishable edibles.

Where grain crops have been large and unmarketable, farmers have built extra bins and trench silos to store the grain they later will feed to livestock.

Reports from the state of Washington told how farm laborers assured their families of food until spring by harvesting their labor for produce.

Many schemes have been effected to take surplus crops of the farmers' hands and can them for distribution to the needy later. In Tennessee the preserving was done by workhouse inmates and the last are being stored in the Memphis courthouses. The state penitentiary in Washington has charge of the canning.

gravely concerned over the plight of the railroad, and have regarded it as one of the last vital problems to be dealt with, but speculative quarters were willing to credit rumors today that aid, either in the form of increased freight rates or reduced wages, or possibly both, was definitely being arranged. Railway shares led the advance in stocks, and carrier bonds registered many of the more impressive upwings in that market.

With the resumption of trading in London, the stock exchange lifted the ban against short selling, in effect yesterday and Monday.

Lifting of the ban against the bears was a signal for a hurried bear rally, rather than a resumption of bear malapropos, for the action was interpreted as indicating that the exchange officials felt that no more acutely unsettling situations were hanging over the market.

There was considerable difference of opinion in speculative quarters as to how much weight should be given the upturn in stocks, for the share market had been under pres-

sure long enough to make a technically fully swollen, and the abrupt rebound was not appreciably different from the many that have marked the course of the bear market.

The wide gains in bonds, however, were regarded as quite another matter.

"NOW, you know, Bob was raised in a tobacco country. He has worked in two cigarette factories; and I have heard him say all of them are just the same. He says there are a lot of pipes and things like that running through the roofs of the factories and sometimes they look different, but that the way cigarettes are made is all the same.

"Bob says all tobaccos receive the same sort of drying—heat treatment, he called it. In one factory, he says, they may talk about 'baking' the tobacco and in another they call it another name. He says what they actually do is to 'dry' the tobacco—reduce the moisture in them—and that the machine that they all use is called a 'Dryer.'

"But when it comes to the quality of tobacco, that's quite a different story, so Bob says; some factories use mild, ripe tobacco, while others think that thick heavy tobacco is good enough. Bob knows tobacco and he tells me that it takes good tobacco—mild and ripe—to make a cigarette as good as CHESTERFIELD.

"You know how it is when a piece of fruit tastes just right—not raw or sharp or too ripe or tasteless—just pleasing and satisfying. Well, that's the way it is with CHESTERFIELD—they just suit me right down to the ground—they satisfy."

MOSCOW STUDENTS FORM CHURCH UNIT

Religious Census Shows 82.5 Per Cent of Persons Belong to Denominations

MOSCOW, Sept. 23 (Special to The News)—The religious census of the University of Idaho students, body for the first semester of the 1931-32 school year, compiled by the Rev. Dr. W. A. Wells, director of the Idaho Institute of Christian Education, shows that 82.5 per cent of the university students have a religious affiliation or have a nominal church membership. The denominational church leads with 30.3 per cent, the Presbyterian is next with 16.8 per cent, Episcopal is third with 9.8 per cent and Catholic fourth with 8.8 per cent. Twenty denominations are represented in the census.

Moscow has a church of practically every denomination represented in the census. During the coming week the students will be organized into range special programs in the interest of the students of their denominations.

This year marks the entrance of the institute of Christian education to the Idaho campus. It is a Protestant group, organized by the Idaho Lutheran Day Camp Institute for participation in campus activity. Students who are members of the institute are organized as a "range" under the name of the Idaho Lutheran Day Camp Institute. They have secured the old Sigma Xi house as their headquarters. Courses of a religious nature are taught within the group by Dr. Wells.

AUTHORITIES APPEAR ON MOSCOW PROGRAM

MOSCOW, Sept. 23 (Special to The News)—Two of America's foremost authorities on international relations, the speaker of the program at the University of Idaho, on tomorrow afternoon, the occasion will be the installation of the new speaker, Dr. W. A. Wells, at the University of Idaho, in honor of the 100th anniversary of the birth of the world peace by Salmon O. Levinson, Chicago attorney and peace advocate.

The speakers will be Senator Borah and Dr. Manley O. Hudson of Harvard law school. Senator Borah, former chairman of the senate committee on foreign relations, occupies a foremost position in world affairs.

At the foundation installation, in a series of four lectures, Dr. Hudson will analyze the progress and problems in organizing the world in the interest of peace.

It is fitting that the ceremonies marking the installation of the Borah foundation for world harmony should be held in the Idaho memorial gymnasium, where the Borah foundation was first organized. A bronze tablet inscribed this structure carries the names of about 900 Idahoans who joined the Borah foundation in the early years. Addresses at the installation will include: Governor C. Ben Ross, who presided at the opening of the Borah foundation; President R. T. Hargreaves of Cheney Normal writes President Neale of the university that he attended the memorial dinner to President Wilson when he spoke on Wilson's "Fourteen Points." President Hargreaves says that Dr. Hudson's address on that occasion was "one of the best things I have ever heard."

BARCLAY PRAISES EARLY LAWS AT JEROME EVENT

JEROME, Sept. 23 (Special to The News)—Jerome Rotary club met Tuesday evening for a 7 o'clock dinner at the Royal Cafe in Jerome. Thirty-two members and guests were present, the guests being Dr. L. T. Miller and Dr. E. Gilbert, Jerome, and Dan E. Warren, a member of the Rotary club. During and immediately following the dinner the speakers were heard.

After the dinner, Judge A. B. Barclay, who presided at the evening, discussed development of government in the United States. He went through the history of the growth of the government and mentioned the fact that the government was based on several specific points, the main one being that all facts were created free and equal, and that individuals have a right to their own views, especially on religious affairs.

The government broke away from that first in the early thirties when the church and state were made a law called the Sunday closing law, and then again in the thirties when there was a quarrel between the North and South over the slavery question," he stated. "Other laws were introduced that gave certain corporations throughout the country right to land grants. As a result of this the government has got hold of the selling of wheat and cotton created the federal banks, making

LARGE INLAND LAKE GOES DRY

HICKMAN, Ky. (AP)—Number 8 Lake is dry. The lake, second largest to Reelfoot Lake in the Mississippi valley, was formed at the same time with Reelfoot by the earthquakes of 1818. The water had gradually dropped since the drought of last year. A freak gale blowing for three days lifted the remaining water from a shallow pool and scattered it over the mud flats.

Schaaf Wins Close, Unpopular Decision Over Griffiths

Unanimous Verdict Surprises 14,000 Fans in Fight Pit

New Sensation of Heavyweights With Eight Consecutive Knockouts to Credit Proves Underdog

By CHARLES DUNKLEY (Associated Press Sports Writer)

CHICAGO, Sept. 23.—Ernie Schaaf, new sensation of the heavyweight ranks, with a straight knockout victory to his credit, was the winner tonight in his 10-round battle with "Tuffy" Griffiths, opening the indoor boxing season in the Chicago stadium.

Schaaf was lucky to win a close decision, which was greeted with howls of disapproval from the crowd of 14,000 spectators. Griffiths, outwitted by Schaaf's strength in height and reach, fought a surprisingly courageous battle, at times out-lunging and out-boxing his opponent from Boston.

The verdict of the two judges and Referee Eddie Purdy, which was unanimous, was nevertheless greeted with roaring disapproval. The booing and yelling continued for 10 minutes, and in the early rounds of the fight.

The left hook which twice knocked out Jim Maloney, and stretched victory for Schaaf, was the first round of Griffiths' elusive chin.
