## ROASTING CONTROL COMPLETES WORK THAT NATURE BEGINS

Full Charm of Coffee Blend  
Developed by Hills Bros.  
Patented Process

Coffee, as it comes from the plantations, is not a finished product. Man must develop the flavor by roasting. Yet very often, man spoils the work that Nature began. For roasting is a delicate task. There is one method that always roasts to perfection—Controlled Roasting, invented and patented by Hills Bros. As the accuracy of the hour-glass depends upon an even, continuous flow, a little at a time... so a perfect, uniform roast is produced by Controlled Roasting—the patented process that roasts evenly, continuously... a little at a time. This is directly opposite to ordinary methods of roasting in bulk. The advantages are seen, when you drink Hills Bros. Coffee. It has a flavor to other coffee has. For no others are roasted the same way. And the flavor never varies, either.

Hills Bros. Coffee is packed in vacuum cans. Air, which destroys the flavor of coffee, is removed and kept out of these cans. Ordinary "air-tight" cans won't keep coffee fresh. But Hills Bros. Coffee can't go stale! Always fresh when you buy it. Order today. Ask for it by name, and look for the Arab trader on the can. Hills Bros. Coffee, Inc., Portland, Oregon.

# Sharkey's Victory Over Cornera Rejuvenates Fight Game

## Sailor Returns To Front Ranks Of Heavy Class

New Life and Interest in Boxing Results From Boston Gob's Spectacular Thumping of Italian

By EDWARD J. NEIL (Associated Press Sports Writer)

NEW YORK, Oct. 13.—Jack Sharkey, man of moods, given to gusty displays of rage and lack of control that have ruined many a heavyweight spectacle, finally has paid part of his debt to boxing.

There was new life, new interest today in the heavyweight division, the disaster by which the success of the game as a whole is measured, and it was due to one reason—the spectacular thumping of Primo Carnera in the biting winds that swept Boston field last night.

Although a complete accounting was still lacking, Jimmy Donovan, the most versatile promoter since the late Tex Rickard, said today that \$25,000 a side prices ranging from \$7 to \$15 and better weather to the first thorough testing of the Italian giant.

The gross receipts were \$120,000 and with government taxes subtracted, \$107,000 was left for the fighters and management. The warriors split the \$107,000 evenly—about \$53,500 each, and there was plenty of profit for the promoter who finally forced his rival, Madison Square Garden, to capitulate and take him into the field.

Takes Charge Soon

Johnston moves into the Garden the fifteenth of this month. He takes complete charge of boxing—the president and general manager at a \$25,000 a year salary, plus a chunk of stock, and he brings with him a rejuvenated heavyweight division. As soon as he is settled he plans to match Sharkey and Carnera for a return battle indoors this winter. He also plans another Sharkey-Tommy Laren fight, and a bout between Carnera and Paulino Uzcudun.

Not since the wild-eyed sailor sailed down the river with him, old Harry Wills, just five years ago to the night, and immediately captured Madison Square's attention, has the heavyweight division been so keenly watched by the public as a whole.

He has been associated with the game since 1910, having served four years as a scout.

#### Quintero Gets Chance to Show Why He Rates High in 'Bout' With Sotelo

Dr. Manuel Quintero, Tampa, Fla., regarded by his friends, including Jack Dempsey, as one of the best, if not, in fact, the best welterweight boxers in the world, will show fans in Twin Falls why he is so highly rated when he squares off against the tough Italian fighter, Andy Sotelo, Atlantic City, in a 10-round battle that is to be the main attraction of a mixed boxing and wrestling card at Legion Memorial building here this evening.

Not fighter with a record approaching Quintero's achievements in the ring, Sotelo has appeared in 24 fights. Out of 24 fights in which he has engaged, he has lost only four, and though still a youngster, he is considered a veteran in the game.

Andy Sotelo, who is to be the special attraction of this evening's contest, is also a welterweight fighter. He has lately won 13 successive fights in his record, and because he has jumped off the leading contenders thereabout, it has become difficult for him to obtain matches in that region.

For the past few years includes fights with some of the outstanding fighters, such as Ed Terry, Johnny Jack, Pete Nebo, Rocky Sisco, Artie McCann, Al Winkler, Earl Root, Mike King and Harry Blinn.

This evening's card, as arranged by Lou Hoffman, Salt Lake City promoter, also includes three other bouts. Dean Delton is matched with Jack Sampson in a two-out-of-three fights series.

Quintero worked out for an hour here yesterday, and during the day all contestants on this evening's card arrived in Twin Falls.

#### Quintero Gets Chance to Show Why He Rates High in 'Bout' With Sotelo

The Sunday morning quarter-backs had a great day following the opening of the season when expectations were kindled in all parts of the country.

One of the greatest shocks of the morning came on the Pacific coast where the Bruins of Southern California, 13 to 7, in a game leaving no element of doubt as to which of the contestants was the better team that day.

The Gaels had not been held lightly for "Blip" Madigan took his team out last season and left them in a daze, but the Trojans were supposed to be just starting out on a great season.

The great season may come yet and if it does, Madigan and his crew will rate a vote of thanks from the Southern Californians.

The Gaels outmanned a slow moving and slow thinking band of Trojans, leading two times after the home team had scored in 10 plays as soon as it got the ball at the start of the game.

Southern California had plenty of other chances to score, outgaining the Bruins in the second half.

Strong St. Mary's defense stopped the challenge about the goal line. This surprise in the fact that the Gaels had scored in 10 plays as soon as it got the ball at the start of the game.

**NEW YORK, Oct. 13 (AP)—**The security market, after some back-trading today, saw the case of stocks a reversal of trend was probably to have been expected after the recent mark-up, but weakness in bonds caused by the continued outpouring of the Treasury's offerings in the money market.

Speculative circles were obviously troubled by the inter-state commerce commission did not announce its freight rate decision over the week end, and also because the administration may have to decide action toward strengthening the bonds, as it may require congressional action. Moreover, the unsettled status of foreign affairs, especially in the Far East and Germany, contributed elements of uncertainty which Wall Street feared to take into account.

The reaction by stocks ranged from 2 to 5 points in many instances and the general average closed at 92.4 off 1.5. Trading however, was the dullist since September 28, transactions totaling only 1,250,000 shares, the lowest since August 1929.

One of the day's surprises was the American Telephone, which opened a point higher, dipped 4 points, and closed at 24 1/2.

## FEWER POTATOES MAKE HIGH GRADE

Hot Weather During Growing Season Gets Blame For Big Proportion of Culls

Due largely to hot weather during the growing season, Twin Falls district potato crop this year will average not more than 30 per cent. Number 1 grade, Harvey & Hale, Twin Falls county agent, said last evening following inspection of several fields where potato harvest is in progress.

O. R. McDole, state university soils specialist, who accompanied him on these inspections, came here from Idaho Falls and Blackfoot this week. He said potatoes in those districts average 25 to 30 per cent. Number 1.

Local dealers agreed with these estimates. One dealer, thought, pointing out wide variation in crops, told of a 10-acre field on a North side farm that, he said, would yield 400 bags of Number 1 grade potatoes per acre. This field, he said, had been shyer pasture and alfalfa land since the sugarbeet was removed several years ago.

## EVANGELIST SPEAKS ON BENEFITS OF PRAYER

"Prayer" was the subject of an eloquent sermon delivered last night during the revival at the Church of the Nazarene by Rev. T. V. Maxey, evangelist, who took for his text Matthew 7-7 "Ask and Ye Shall Receive."

The evangelist said that in order to pray properly we must know our needs, realize God's power to supply them; have confidence in his willingness to help us, and full assurance in the fact that, never, is answered now as it was in scriptural times. Rev. Maxey usually sings an appropriate song at the beginning of his sermon. The joy orchestra, Kimberly, furnished music last night. There was a large congregation present.

Bible study begins at 7 P. M. and regular service at 7:45 P. M.

Bean prices are on the up grade in the Twin Falls country where beans constitute the biggest crop.

Three Twin Falls dealers yesterday quoted a price of \$1.25 per hundred pounds to the grower. It was the third bean price advance within the past 10 days, marking a gradual rise from the season's low mark at \$1.10 per hundred pounds.

One dealer was quoted as saying he had received last Friday the first positive inquiry this season, in regard to beans.

Another dealer had information that Nebraska's bean crop has been sold very largely as fast as it has been threshed this season, causing a market glut and depression of prices for the crop in other producing districts.
