JEROME ROTARIANS DISCUSS 4-H CLUBS

D. E. Warren, Burley, District Leader, and Thomas E. Speedy Give Addresses

JEROME, Oct. 21 (Special to The News)—Jerome Rotary club's session at Tom's cafe in Jerome Tuesday noon proved interesting. The program, put on by the community service committee, stressed boys' and girls' 4-H club work. The first number was a group of songs by boys and girls from the 4-H clubs near Jerome.

As a local leader, Tom Speedy, agent of eight South Central counties, and member of the Burley Rotary club, gave a short talk on the place of the 4-H clubs in the community. This was followed by a talk by W. W. Dudley, leader of the Co-Operative Club, Jerome, in which he gave an interesting account of his experience as a local leader. Tom Speedy, agent for Jerome county, then talked on the possibilities which an organization of the 4-H clubs in the community could bring about. He stressed the point that not only should the Rotary club as a whole encourage this work, but that a great deal of good could be done by the individual members if they would select individual boys and girls in the club and so help by aiding one member to buy a calf or in some way to get a start in club work.

Billie McVey and Bob Goemmer, members of the Co-Operative Club, then gave a demonstration of the approved having practices for dairy cattle under southern Idaho conditions. They used model barns, open sheds, feed racks, watering troughs and fences. Five points were stressed in the housing of dairy cattle for successful dairying: low cost of construction of buildings, reduced labor requirement, good comfort, sanitation and feed storage.

A few of the points brought out in explaining these items in the stage of the club were: First, that expensive barns are not necessary because the cows are in the barn only a short time and the feed is carried in the open and provides greater comfort for the barn. Second, in regard to bedding and feed storage, hay can be stacked immediately adjacent to the cow lot and can be fed through the feed racks. Third, that the cow lot can be moved around in the lot and which should be large enough to hold at least a load of hay, thus cutting down the labor involved in feeding. The beneficial use of warm drinking water was brought out.

In conclusion a number of questions were asked of the boys, which they were able to answer and explain in a satisfactory manner.

The 4-H club members in Jerome county now total 115, and it is thought at this time that 80 to 90 per cent of those who started their club work last spring will be able to complete it this fall. The members of the club received \$75 in cash premiums at the Jerome county fair this year. This money went to the individual members of the club who had entered the winning exhibits. The money which they have received in prizes is being put to profitable use by the members. Some are buying more calves and other livestock. Some are using the money to pay their fathers' feed bills. Some have turned them, while some have put their money in the savings bank.

In accordance with the commun-

ity service program put on by the Rotary club today, Tom's cafe served an Idaho products luncheon. Everything except the coffee and the water served with the ice cream was or could be made in the immediate vicinity of Jerome.

St. Mary's Climaxes Grid Progress With Two Big Victories

**10-Year Period
Sees Rapid Rise
In Gaels' Fame**

**14-0 Defeat of California
Contrasts With Latter's
Victory of 127 to 0 In
Tilt Staged Decade Ago**

This is the first of two stories on the football team of St. Mary's college, Little Morena, California, which established a claim for national championship by its victory over Southern California and California.

(By The Associated Press)
MORAGA, Cal., Oct. 21.—Football at St. Mary's college has been quite a lot of growing up in the last 10 years since a certain fall day in 1920.

As the sun set on that particular unhappy occasion, the students of 1920 at St. Mary's college, Little Morena, California, school which established a claim for national championship by its victory over Southern California and California.

Back the services of a new gridiron doctor? If they got a new coach, they would have more than just a good practice team for the Coast conference teams to kick around.

Classified
How could little St. Mary's have made any real showing on the gridiron against schools which had more members on their football teams than the tiny college had on its entire student enrollment?

There were other complications. The person they might choose as coach would have to know baseball, track, and basketball as well as football. A separate coach for each sport was an extravagance far beyond St. Mary's means.

Success they could get up all sorts of excuses for their poor performance in their twenties, with a thin face surrounded almost to the neck by an army of red heads, along he was given the job.

Edward P. (Skip) Madigan, 10-0-0, was the first coach. He had no previous experience, but he knew enough about football to build a team from nothing to near the top of the national pile in 10 years.

Played at Notre Dame.
He had played football, he said, at a school in the Middle West called Notre Dame. Knute Rockne had verified this.

There was nothing either to indicate that basic coaching knowledge, or the finer points of the game he had tucked away under the brown head which for years no one ever saw without an understanding of youthful human nature which enabled him to get the best out of his players, material, and a knowledge of showmanship which soon found its reward in box office receipts.

Success translated into fame. Southern California, California, Oregon and others to corroborate the success of the tiny St. Mary's college as a coach.

Good Record
They have won a school because of big wins and toughness and have piled up a total tally of 1428 to 240.

In 1920 only Oregon (in the closing game of the season) closed the season by beating St. Mary's. Last year St. Mary's lost only one game, ironically enough to weak California, and humbled eight opponents including Fordham and Oregon.

This year on succeeding Saturday it did something else. It has ever done—defeat two of California's "Big Three," beating the Golden Bears, the Bruins, and the mighty Trojans of Southern California.

St. Mary's now plays to crowds of 10,000 to 20,000 and up. Its gate receipts go direct to the school. Little St. Mary's is housed in brand new buildings which cost \$2,000,000 with a half million of new construction projected.

The enrollment has grown from 62 to seven hundred.

FIGHTS
"CHOCOLATE" WINS
JERSEY CITY, N. J., Oct. 21 (AP)—"Kiss Chocolate," the dinky Cuban who has won the light heavyweight championship, had an easy time tonight scoring a three-round technical knockout over (Ruben) Goldberg, New York veteran in his 10th round at the Hollywood arena.

The Cuban scored through the first two rounds, then opened up in the third and knocked his opponent down four times before his gate-slaughter two rounds before he was stopped by a 121-pounder, Goldberg, who weighed 121 pounds; a second 120.

LUCAS GETS DECISION
BALTIMORE, Oct. 21 (AP)—Johnny Lucas, 124½, Camden, New Jersey, tonight received a judge's decision at the end of his 10-round feature bout.

FRANK TOSCANI

Ten years ago everybody kicked around little St. Mary's of Moraga, California. Then came Coach Edward P. (Skip) Madigan, former Notre Dame lineman, to drill "pass, pass, pass" into the Gaels. Result: such players as "Bud" Toscani, halfback, and national fame. Action picture shows Schefflin (48) with Stepanovich (21) and Fletcher (33) running interference, in typical Notre Dame sweep, running around California this year in a game that brought the Gaels a 14-0 victory.
