JEROME COUNTY'S TAX TOTALS DROP \$82,422 IN 1931

In Spite of Increase in State Levy From 56 to 65 Cents, Other Reductions Diminish Payments

(Special to The News)
JEROME, Nov. 4.—Charlotte Robertson, auditor for Jerome county, reports that the 1931 assessment rolls, with the exception of the subsequent personal roll, which is in the hands of the assessor until December, have all been computed by the county auditor and turned over to the tax collector. Summary of the total decreases some interesting facts to the taxpayers.

In comparison with last year, there is a reduction in the total taxes which are levied by the various boards of some \$82,422. The figures show that the total value of the taxable property in the county is \$1,115,000. It might appear that the state levy is 65 cents on every \$100 for this year, as against 56 cents for the year 1930, that the taxpayers are paying more state taxes than last year, but owing to the fact that irrigated lands were reduced 10 percent, along with some other reductions, they are in reality paying less than last year toward state purposes.

The same applies to the county school levy, a fixed amount on a lower valuation is of necessity a higher levy. The reduction on county levy is quite considerable in that some levies were eliminated as against the total levy for the year 1930. The corporation levy will pay \$2000 more toward state taxes this year. The county property roll will pay \$2100 less. On county taxes the county will pay \$12,165 less, and the corporation roll will pay \$4072 more than last year.

The total deductions are listed as follows:

Real or county roll	\$66,000
Personal roll	4,500
Corporation roll	6,318
Town roll	2,558
TOTAL	\$79,376

As divided among the various taxing units:

County schools	8,846
County	34,300
City of Jerome	2,600
Jerome highway district	6,028
Independent school district	14,325
Hillside highway district	10,000
Rural high schools 1, 2, 3	6,192
—Balance	133
TOTAL	\$82,422

Covers current expense, county schools, bond, interest, and sinking fund, 1930 and charity and indentured.

—Made up of smaller savings in some districts and some units being practically the same.
