DRIFTING SANDS FILL
OLD-TIME LANDMARK
IN BURLEY VICINITY

BURLEY, Nov. 13 (Special to The News)—Drifting sands are obliterating a well remembered old-time landmark on the Goose creek between Oakley and the Minidoka tract.

The old Miller ditch, carrying mill water to settlers in the 30s and up to the time when Burley was established, is being filled up level with sand. The sand is blowing in from the Snake river, it furnished water for pioneer stockmen who were attracted by the extremely fertile soil to settle in lower Goose creek valley.

Running water soon cut down into the soft soil until the ditch became so deep and broad it could not be crossed except at distant intervals.

Time came when Miller sold much of his ranch lands for a site for Burley townsite. The water rights were transferred to upper Oakley valley farmers, and the stream which the Miller, Chappin, and Tatro ranches, landmarks of earlier pioneer days, became absorbed in the name of the Minidoka government project.

It used to be, before the building of the Oakley dam, that spring rains had the water in the ditch. It was now a standing pool. But for many years no water has flowed in the Miller ditch. Gradually it has become filled with an accumulation of desert dust and sand.

Until now in many places, its former course can be traced only by fringes of sagebrush that thrust their heads above the sand where they joined the old canal banks.

V. J. Davidson entertained at a party for members of the Auxiliary to the American Legion at the Davidson home. There was enjoyed at two tables. High score honors went to Mrs. J. L. Salmon and Mrs. Winifred O'Rourke. Dainty refreshments were served at the close of the evening. Autumn flowers were used.

Mrs. Jesse Brandt entertained members of the Iris chapter of Better Homes club at her home Wednesday afternoon. Mrs. Magdalena Grimes gave an interesting talk on "Kitchen Arrangements." A magazine was given by Mrs. W. Sayers. Mrs. M. Fok, Rupert, was a guest. Dainty refreshments were served during the social hour.

Mrs. M. W. Crouch entertained at a phreanct dinner at her home Tuesday evening. Covers were laid for 12. The evening was spent playing cards.

The Burley Women's club will meet next Wednesday at the home of Mrs. Simon Lind. A splendid program is being arranged. Mrs. Mary Catherine Terhune and Mrs. B. F. Wilson will give reviews.

Neighbors of Woodcraft met in regular session at their hall Tuesday evening, when officers were chosen for the coming year. Those elected are Mrs. W. F. Emich, Esther Higgins, Mary Smith, Myrtle Kaggie, Edna Prangins, Nettie Anderson, May Moline, Blanch Marks, Linnie Flaher, Luella Harvey, Lillian Hoggan, Ottilie Huntington, Ethel Smith, and Hannah Mueller. These officers will be installed at the first meeting in January, when a special program and social evening will be enjoyed. The Thimble club of this organization will meet next week at the home of Mrs. P. Anderson.

The D P Evening club met Tuesday evening at the home of Dr. C. W. Knapp. A covered-dish dinner was served at 7 o'clock with covers for 20. The after-dinner hour was pleasantly spent playing bridge.

SCHOOLBOYS ERECT
BURLEY RESIDENCEClass, Under Direction of
John U. Rencher, Builds
Complete Modern Home

BURLEY, Nov. 13 (Special to The News)—Burley boys in the farm shop and vocational training course, Burley high school, are engaged on a major building project. They are erecting a complete modern residence, and doing all the work themselves.

John U. Rencher, farm shop foreman, is supervising the construction of a completely equipped, modern dwelling for another instructor in the high school, Dewey Briscoe, of the business training department. The house is now partly constructed. It is modern, with full basement and porch built on concrete. Five rooms and bath, and the interior arranged according to approved modern practice.

A class of 25 boys is working on this project. With exception of a part of the cement work, they are doing everything in connection with erecting the building, including electric wiring and plumbing. Each boy, in one of Rencher's classes, drew the complete plans and figured the specifications for the house. The entire class then worked out the final plans as decided.

Mr. Rencher has had charge of the farm shop and training department of the Burley high school for several years. His pupils have heretofore been trained in practical work such as they would encounter on the farm.

They have built all sorts of farm equipment, requiring knowledge of the use of tools, forcing, auto repairing and the like. But this is the first time his classes have had the opportunity of erecting an entire residence.

With the exception of three shirts and a pair of suspenders, all of the clothing and other articles reported early yesterday to have been stolen from the apartment at the Oxford, Main avenue north, occupied by Louis Norris Jacobson and his wife who, as an orchestra leader, retains her maiden name of Marvlin Walker.

Stolen articles included a suit of men's clothing, four shirts, 10 neckties and a sweater, all containing tags among other things Mr. Jacobson's war risk insurance policy and a medal awarded by St. Teresa's academy, Boise, to Marilyn Walker.

SAN FRANCISCO, Nov. 13 (U-P)—California Turkey Growers' association tentatively set a price today of 32 cents a pound for best grade birds to wholesalers in San Francisco and 32½ cents to wholesalers in Los Angeles, the difference is due to freight.

Mr. Watkins said twenty-five cases of turkeys would be sold by the association.

Both wholesalers and retailers said these prices were estimates and only tentative and that by tomorrow they would be more definite.
