

Republicans Await Battles In Chicago Sport Tabernacle

POLITICIANS EXPECT RECORD ATTENDANCE IN 1932 CONVENTION

Massive Modern Structure In Windy City Contrasts to Former Meeting Places

FISTIC TILTS GIVE WAY TO POLITICAL TUSSELS

Approaching Session of Good Old Party Recalls Nomination of Mayor In 1930

By F. A. REACH
CHICAGO, Dec. 20.—A huge tabernacle of sport will house the national convention of 1932.

The two-story-old Chicago Stadium, scene of scores of fistic battles in its short but illustrious day, will become the scene of political strife when the nation's Republicans meet there next summer.

In this giant edifice of stone and steel, less than 10 minutes' drive from the city center, 25,000 or more people may be accommodated.

Here, on the fringe of Chicago's suburban west side, all records for attendance at national political conventions may be broken. No other meeting hall ever has offered the capacity of this arena.

But even if the crowd touches 20,000, it won't break the stadium's record, for the building has held that number more than once.

All indoor attendance records were broken when 30,000 heard Chicago's mayor nominated there in 1920.

This massive, modern building is the first of the ancient sprawling Coliseum on South Wabash avenue, whose rafters have creaked with the excitement of many a nominating show in the last half century.

Contrasts with "Wilgus" At no many looks from the stadium on the South Wabash Chicago river in Lake street is marked the spot where stood the historic, ramshackle "Wilgus" in which Republicans nominated Abraham Lincoln for the presidency in 1860.

Boxing and wrestling matches—boxing, blue-ribbon—football games, tennis, track meets—housed—since its completion in 1929.

It occupies a square block on West Madison street—two blocks west of State—in a neighborhood that is away from the city's most congested traffic areas, yet within a few minutes' ride from the large Chicago hotels.

No Pools in Arena With a roof built on suspended steel girders, the stadium arena is free from all poles or obstructions. The arena floor covers 37,000 square feet. The hall's acoustics have been pronounced close to perfect.

Exit allow 20,000 people to leave the building in from four to seven minutes.

At the main entrances 300 people may be pushed through the turnstiles every two minutes.

REINVESTED PROFIT SWELLS PRODUCTION

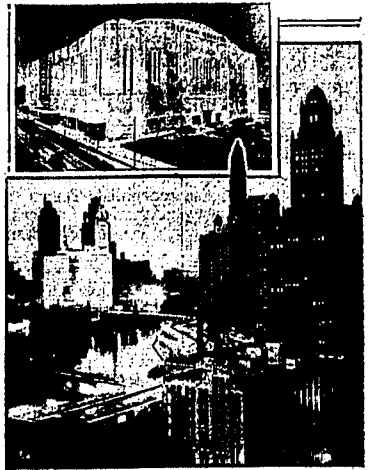

Economist Declares "Plowed-back" Earnings Over Expanded Productive Agents

(What is the real worth of common stocks today? It is, according to Dwight C. Rose, economist for Seaboard, Stevens and Clark, about three-fifths more than their current market price, dependent on the volume of demand for goods. Mr. Rose arrives at this estimate by considering the value of re-invested earnings—Editor.)

(YEAR-END REVIEW) BY DWIGHT C. ROSE
NEW YORK, Dec. 20.—On the generally recognized assumption that changing interest rates and changing commodity prices are directly reflected in the price level, two factors, the threat which those two factors have offered to lower stock prices over the year has now been largely removed.

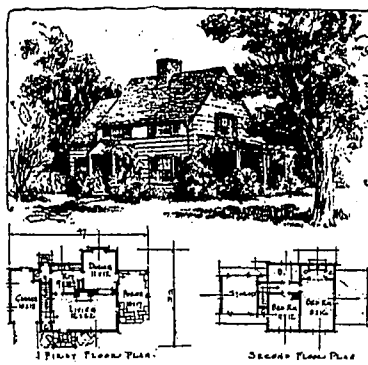

Over a long period of years the most important factor influencing the price level of common stocks has been the accumulated earnings plowed back to expand productive facilities.

But these expanded productive facilities cannot in the depressed period find a market.

Chicago, no stranger to conventions of the big parties, again has been chosen by the Republicans. Here the city is shown as it appears at night from a point near the Chicago river. The smaller photo shows the Chicago Stadium, where the 1932 Republican convention sessions will be held.

PRACTICALITY AND ARTISTRY MAKE COLONIAL HOME IDEAL

By CHESTER A. PATTERSON
(Home Designer For The News)
Practicality and genuine artistry join to make this small Colonial home ideal for the average family. It doesn't demand too much of workmanship—nor, consequently, of the pocketbook.

It has a definite atmosphere of the past, yet is thoroughly modern in the conveniences it provides.

The house is of frame construction with a color scheme of white painted shingles for the exterior, and robin's egg blue wooden shutters with the same blue on the paneled front door, tobacco brown roof, and red brick chimneys. There are five well-ventilated rooms with adequate closet space everywhere.

An entrance platform of flagstone leads into a charming living room and almost directly opposite the doorway is an old Colonial fireplace. A French door opens on to a large living porch, with a view over the garden beyond. To the rear is a dining room, also having access to the living porch, with a well-lighted kitchen and servants' entrance at the rear.

The garage for one car is attached to the house.

On the second floor are two commodious bedrooms with built-in trunk storage space over the garage. The over-all dimensions of the house are 47 feet in length and 35 feet in depth, with a content of approximately 20,000 cubic feet.

My prices (the lowest level reached throughout the 31 years) the equity in our industrial stocks would have been increased to only 330.

The Weather

FORECAST FOR TODAY AND TOMORROW—Partly cloudy today; unsettled; probably with local snows tomorrow; freezing temperatures.

Minimum and maximum temperature in the Twin Falls vicinity in the 24-hour period preceding 3 P. M. yesterday were 26 and 34 degrees, according to the report of D. B. Chynoweth, government weather observer here. The day was clear and the barometer registered 30.15 inches at 3 P. M. Wind was westerly, humidity ranged between 47 and 64 per cent of saturation. There was a trace of precipitation.

over the past 31 years.

An increased volume of production cannot by itself provide increased corporate earnings—the plowed back would have been to increase their equity value from 100 in 1901 to 600 in 1931.

If we chose to deflate these re-invested earnings to 1901 commodity prices, we would find a market.

Increased Demand Seen
If, however, the optimistic system continues essentially as we have known it, it is reasonable to believe that the inherent characteristics of the people to improve their standard of living will again cause them to demand more of the productive facilities developed

NEGLECT OF TESTED RULES GETS BLAME FOR ECONOMIC ILLS

Francis H. Sisson Sees Year 1931 As One of Hope Deferred and Cites Three Short Business Rallies

By FRANCIS H. SISSON
(Vice President, Guaranty Trust Company, New York)
NEW YORK, Dec. 20.—The year 1931 has been one of hope deferred. Three times there have appeared signs of improvement, but on each occasion the rally has failed to hold, and the downward trend of business activity an' prices has been confirmed.

In the early months of the year, industrial operations and trade volume seemed to have become stabilized. It not actually to have turned upward. Then came the revelations of serious banking difficulties in Austria, followed by the German crisis.

Memorandum Not Solution
President Hoover's proposal for a moratorium on inter-governmental trade was followed by a brief period of optimism and, to a certain extent, of actual business improvement; but it soon became apparent that the moratorium alone was far from sufficient to provide a remedy for the world's financial ills.

Business confidence suffered another severe blow when the London suspended the gold standard and several other European countries followed suit.

Nevertheless, optimism was revived in October, when commodity markets and by local and street showed strong, but short-lived rallying tendencies.

One more hope of business men for an early recovery were disappointed, and business activity was followed by a brief period of optimism and, to a certain extent, of actual business improvement; but it soon became apparent that the moratorium alone was far from sufficient to provide a remedy for the world's financial ills.

Old Lessons Overlooked
Viewing the year's developments in retrospect, one is impressed with the great extent to which the world's present difficulties are due to the failure of business men and statesmen alike to act according to long recognized and time-tested economic principles.

Normal processes of adjustment were not allowed to run their course. Instead, attempts were made to force those processes into pre-arranged channels.

Countries in which gold was accumulating prevented the steps essential to its redistribution, and countries that were losing gold failed to take the decisive measures necessary to retain it.

These tendencies were encouraged by leaders who paid much regard to the immediate desirability of finding outlets for their surplus funds and too little to the prospect for their ultimate payment. Over-optimism, instead of being deferred, was hastened, often with borrowed money.

Economics Not Instituted
These tendencies were encouraged by leaders who paid much regard to the immediate desirability of finding outlets for their surplus funds and too little to the prospect for their ultimate payment. Over-optimism, instead of being deferred, was hastened, often with borrowed money.

We are passing through a period of necessary and inevitable readjustment to new standards of measurement and new standards of economic behavior.

During this period, there will be the usual ups and downs, with psychological variations from hope to despair.

Perhaps a conservative suggestion would be that as we pass through the revival stage of this cycle we should have a restoration of demand for goods at approximately the present level of commodity prices.

If this were reflected in common stock prices, it would mean an appreciation more than 50 per cent from present levels.

Woman Held In Kidnaping

MRS. ETHEL DE PEW, nurse, was arrested in Bloomsburg, Pennsylvania, charged with being a principal in the kidnaping of Mrs. Nell Donnelly in Kansas City. Her husband, Martin DePew, shown with her, was sought as the alleged leader of the gang that abducted the millionaire manufacturer and released her without obtaining the \$75,000 ransom they asked.—(AP) Photo.

disappointment reflected in security and commodity prices and business activity, and with no market trend visible until sound bases of value and right relationships among prices, wages, and profits are established.

BOND VALUES SINK \$10,000,000,000

Despite Unprecedented Liquidation Bankers Look to Future Optimistically

By FRANK H. MCCONNELL
(Associated Press Financial Writer)
NEW YORK, Dec. 20.—The bond market passed through a year of unprecedented liquidation in 1931, but enters 1932 with its position as the nation's prime securities market.

Prices in the aggregate are the lowest since 1920-1921, when even United States liberty bonds were freely offered at 10 points or more under par. Some of the same banks who in that earlier period advised the purchase of government bonds and also those of strongly entrenched American corporations now express optimism on the long-term future.

The market valuation on all issues listed on the New York stock exchange is the lowest since 1920-1921, when even United States liberty bonds were freely offered at 10 points or more under par. Some of the same banks who in that earlier period advised the purchase of government bonds and also those of strongly entrenched American corporations now express optimism on the long-term future.

DRUGGIST BECOMES GENERAL MERCHANT

Survey Shows Evolution of Drug Stores Toward Selling of Variety of Goods

WASHINGTON, Dec. 20.—(AP)—The pharmacist is not, or not even, the old-fashioned drug store into a general merchandising store, selling almost everything from bananas, apples to bungalow furnishings and murder mysteries, seems certain to continue.

In an increasing degree, most druggists will be forced to become "merchants," says Fred Alderson, director of the national drug survey being conducted in St. Louis by the department of commerce and due to be complete next summer.

Prescription Business Limited
There is a place for a limited number of strictly prescription establishments, but only a small proportion of the country's 57,000 drug stores, which do an annual business of \$1,750,000,000, can find a profitable outlet in this direction, Alderson says.

A survey staff of some 50 persons is following the movement of 25,000 drug store items through 14 retail stores.

The operations of 11 independent stores, two chain units and one professional pharmacy are being closely studied.

Price Trend Evidenced
Although in recent years prices have been emphasized in drug store advertising, Alderson says the survey will show that the trend will likely be "toward the lowest prices that can be regularly and profitably maintained while keeping up with the cost of prices which last for a week or a day."

4,000 a day fountain transactions in one day, or an average of about three a minute.

Contains Expensive Adjuncts
Alderson says that, while the soda fountain in general will yield a good gross margin, the fact is often overlooked that a fountain is chargeable with half the rent cost and a large share of the salary expense.

There is a drug store for every 212½ people in the United States, 300 a capita drug store purchases the United States in 1929 were \$13.75.

With full records on about 30 cases of failure in St. Louis, the survey is expected to shed light on some of the avoidable causes of failure among retail druggists.

Foods Firm Head Looks to Future

By C. M. CHESTER, JR.
(President, Greenwald Foods Corporation)

NEW YORK, Dec. 20.—The task of feeding ourselves is our greatest business activity. This basic need in food manufacturing helps to explain its relative stability in earnings during 1931.

Looking to 1932 the industry believes that marketing problems will be paramount issues.

Though the horizon is not rosy, we are not disheartened at the start of another year. First, there is the relative stability of the food industry. Then, the unusually low inventories are seen as a favorable factor. Both retailers and jobbers' stocks are generally very scanty, and sooner or later they are likely to be greatly increased.

The strong financial condition of leading food companies is also partly responsible for a feeling of confidence which seems to exist in this industry.

RATS LEARN LIKE MEN, CALIFORNIAN ASSERTS
BERKELEY, Cal., Dec. 20.—(AP)—Research in animal psychology tends to support a belief that the higher animals display a learning process similar to that of humans.

Tests made at the university, says George C. Tripp, who gave a purpose for displaying understanding, such as the acquisition of food, of doing some hungry or thirsty, do display cognition or understanding of a situation.

He adds that rats are able to make use of information which was learned before the situation changed.

North Carolina State college hosts the largest cattle school building in the South.

HEAVY SNOW FALLS IN HAILEY VICINITY

Depth Increases 45.76 Inches
in Week, Surpassing Former
Season's Measurements

HAILEY, Dec. 29 (Special to The News)—In the last week of a total of 45.76 inches of snow has fallen at Hailey, according to the official weekly report of M. S. Benedict, forest supervisor. The cumulative snowfall, since October 1, is 73.29 inches, as compared with 17 inches a year ago and an average of 27.56 at this time of the year.

The total snowfall since October 1 is 7.06 inches, as compared with last year's total of 31.4 inches on this date.

At the Soldier Creek station, 100 inches of snow have fallen since October. The moisture content was 8.77 inches.

Measurements of snow depth at various sawtooth stations yesterday, as compiled by Mr. Benedict, were as follows:

BIG WOOD RIVER DRAINAGE—Hailey, 43 inches; Ketchum, 45; Graham Ranch, 53; Boardwalk, 54; Old Baldy, 1, 48; Old Baldy, 2, 56.

MALAD DRAINAGE—Soldier Ranger station, 53; Fairfield, 50.

SOUTHERN DRAINAGE—Ferdinand, 44; Hockley, 44.

SALMON DRAINAGE—Vienna Mine, 69; Williams ranch, 58.

RESIDENTS OF CLOVER ASSEMBLE AT SOCIALS

CLOVER, Dec. 29 (Special to The News)—Holiday social events were numerous in the Clover community. Mr. and Mrs. Albert H. Jagels were host and hostess at a dinner for relatives on Christmas day. Present were Mr. and Mrs. Henry Jasper, Jr., Mr. and Mrs. R. L. Jagels, Mr. and Mrs. D. F. Jagels, Mr. and Mrs. Henry Jasper, Jr., Mr. and Mrs. Julius Jasper, Mr. and Mrs. Herman Hinkler, Mr. and Mrs. Fred Jasper, Mr. and Mrs. Clifford Birmingham and Mrs. Howard Johnson.

Miss Lorna Kierker, who plans to leave soon for Seattle, was honored at a surprise party Sunday evening, when members of the Trinity choir, of which she was a member, gathered at her home to bid her farewell. Luncheon was served at the close of the evening.

Trinity Ladies' Aid society will hold its annual election of officers on Wednesday afternoon in the schoolhouse.

Mr. and Mrs. A. H. Jagels were host and hostess at a pinocchia party at their home Sunday evening.

Relatives gathered at the home of Mr. and Mrs. Peter Matthieson Christmas day for dinner. The following families were guests: Mr. and Mrs. Edwin G. Ehlers, Twin Falls; Mr. and Mrs. Emil Ehlers, Eden; Mr. and Mrs. Edith Adell, American Falls; Mrs. Sophia Kaster and Mrs. Herman Fred and Arthur; Mr. and Mrs. Fred Kaster and Rev. and Mrs. W. H. Himmelfarb.

The newly erected home of Mr. and Mrs. Theodore Klunder was the scene on Sunday of a Christmas evening, when the Klunder relationship gathered for dinner. The house replaces one burned to the ground last summer. Guests were Mr. and Mrs. Will Luenders and children; Mr. and Mrs. Albert Liemann, Mr. and Mrs. Jona Lander and Mr. and Mrs. W. P. Boehke.

BURLEY SCHOOLS GET SHORTENED VACATION

BURLEY, Dec. 28 (Special to The News)—Burley schools will open Monday, January 4. The closed Christmas Eve. The holiday vacation is shorter than usual by reason of the desire of patrons, especially those who live in the country and have farm work to do, to have school closed as early as possible in the spring.

Having vacation last fall lasted two weeks, and it is deemed advisable to shorten the Christmas vacation to make up in part for the time taken out by the harvest closing of schools.

There are approximately 2000 pupils in the Burley schools, which comprise independent district number 1. There are 56 teachers.

THIEVES VISIT CLOVER

CLOVER, Dec. 29 (Special to The News)—Petty thievery was reported Christmas evening at the Trinity church, when a number of apples were taken from cars and several gasoline tanks partly drained while car owners were attending services.

SEWAGE PURIFIED IN 600 B. C. NEW YORK (AP)—Purification of sewage water so that it can be used safely, often, considered modern, is first recorded 600 B. C. in Mesopotamia.

HUNGER CAUSES NERVOUSNESS HAMILTON, N. Y. (AP)—Dr. Donald A. Laird, Colgate university, finds that nervousness of school children sometimes is due partly merely to hunger.

POLAND HAS FIRE BUGS WARSAW (AP)—According to statistics compiled by Polish fire insurance companies, one-fourth of the fires in Poland are incendiary.

LATVIA RAISES OBEISKE RIGA (AP)—An obelisk, 130 feet high, surrounded by a statue arm-bolishing the nation, has been started to commemorate 14 years of Latvian independence.

LAMBING SEASON AT BURLEY OPENS SOON

Several Large Bands of Ewes
Lamb in Specially Con-
structed Modern Plants

BURLEY, Dec. 29 (Special to The News)—Lambing season on the Minidoka project will start during the latter part of January, in farm flocks, and about February 1 in range flocks this winter, sheepmen say.

Several large bands of ewes belonging to range sheepmen will lamb in the specially constructed lambing plants in both Cassia and Minidoka counties. These plants are calculated to lamb out as many as 5000 ewes during the season, and in one instance as high as 10,000 ewes. They are erected with all modern conveniences and appliances suitable for the purpose.

The sheds are electrically lighted and piped for drinking water which is pumped from deep wells. They are covered with canvas roofing, which can be rolled up during periods of warm weather and dropped when the cold snaps peculiar to the lambing season make their appearance.

The interior of these sheds are divided by movable partitions, making the care and sorting of the ewes an easy task.

In the outside yards, windbreaks are provided, and arrangements made so that the young lambs and their mothers can be protected from winds and blizzards until the youngsters are large enough to stand the gulf of severe weather.

Shed lambing was taken up when it was found that early spring lambs brought highest prices when shipped to the market. In the days of the beginning of the industry in this part of the Snake river valley, lambing was begun about April 1. Ewes were then seldom provided, and a very considerable loss was sustained by death of the young lambs whenever a severe storm came up.

SILVER CITY REPORTS ONE OF WORST STORMS

BOISE, Dec. 29 (AP)—Silver City, pioneer mining town 75 miles south of here, is completely snowed in. It was learned here today by telephone.

The town was cut off from the outside world by a snowstorm yesterday, snowshoes being the only means of leaving or entering the city. The reports said not even horses could travel through the snowbanks.

The storm was reported to have been the worst in 20 years and hope was expressed that roads would be opened within a few days, as telephones and the radio are the only means of communication. First class mail is being carried in by men on snowshoes. No newspapers, magazines or packages will be delivered.

The reports said there was no immediate danger and no danger of hunger among the inhabitants.

St. Louis civic organizations are seeking to have the altar draped of the Alton named for their city.

Block letters 14 feet high will identify the municipal air terminal at Oklahoma City.

Gangster's Touch Lacking at Diamond Funeral

SCENE AT A NEW YORK non-sectarian cemetery as Jack (Legs) Diamond, whose hectic career ended in Albany, New York, when he was shot to death, presumably by rival gangsters, was buried. The ostentation usually attributed to gangster funerals was lacking as the thin bullet-torn underworld character took his last ride. His wife and a few friends stood in the rain to witness the burial.—(P) Photo.

JOBLESSNESS BOWS TO FIVE-DAY WEEK

Industry's Effort to Main-
tain Working Schedule
Alters Workers' Program

By J. R. BRACKETT

(Associated Press Business Writer)

NEW YORK, Dec. 28.—Industry's effort to maintain working schedules has brought upward of 500,000 employees into a program of the five-day week—or less.

It is not a new thing in American industry, for in 1923, a study by the National Industrial Conference board showed 218,219 persons in 77 plants working under the short schedule.

Recent figures by the department of labor list only 109,219 in 673 plants.

United Workers Swell Total The conference board figures, however, included one large automobile plant, apparently not included in the department of labor calculation, which would add to the opinion of a competent statistician, about 150,000 employees.

About 150,000 men would be included from the building trades, not listed in either calculation.

Many of the short week programs are a direct result of business difficulties and may not represent permanent policy.

Many Industries Sympathetic On the other hand, many industries would willingly adopt the five-day week if all were required to do so.

It was wages rates are increased to make up the loss of the employee who works the shorter week, manufacturing costs go up.

Under these conditions units which do not adopt the plan have an obvious advantage.

The five-day week has made most headway among small manufacturers—two-thirds of the 218,219 five-day workers in 1923 were from plants employing fewer than 100 workers each.

The six-hour day has appealed to some manufacturers who have a continuous work week.

The chemical industry has declared officially in favor of the shorter day.

A rubber company is on both a five-day week and six-hour day, while a large cereal manufacturer

has officially adopted the six-hour day with the intention of maintaining it.

Union labor favors the short week and had made progress in securing its adoption even before the business decline.

An informal journalism class for townpeople is held weekly at Brenau college, Gainesville, Georgia.

Work begun on the enlargement of San Francisco's yacht harbor will provide docking facilities for 1000 boats by 1937.

Three wild boars ordered by a California motion picture concern, were captured by Judge R. L. Bevil, Hardin county, Texas.

Utah produces approximately 1,000,000 pounds of copper daily.

CANAL BOARD CUTS MAINTENANCE LEVY TO DOLLAR AN ACRE

Directors Announce Decision Following Conference With Stockholders' Resolutions Committee

Twin Falls Canal company directors, after a conference of several hours yesterday with the stockholders' resolutions committee, decided to fix the 1932 annual maintenance assessment at 10 cents per acre, a 75 cent cut from the 1931 rate.

The assessment is applicable to approximately 22,000 acres under the Twin Falls canal system.

Many stockholders have requested the fixing of the levy as soon as possible in order that they may make payment at once. Miss Emma Wick, secretary, said the levy for the delinquent 1931 assessments, for which claims of lien will be filed December 31, total considerably less than the delinquencies for several years preceding, Miss Wick said.

The canal company yesterday reported in pending in 100 delinquent claims for 1929 assessments totaling \$21,750. The 1930 assessments totaling \$22,250, of which \$175 was payable March 1, and 50 cents on October 1.

Members of the stockholders' resolutions committee with whom the directors conferred before filing the maintenance assessment yesterday were D. J. Koenig, H. C. Reinks, H. Wohlhuth, J. H. Glander, Luke V. Jensen and A. J. Clasen.

The committee is to submit its report at an annual meeting of the stockholders in Twin Falls, January 14, at which time the canal company's five members of the board of directors for the coming year is to be elected.

TENCKING'S NEW BULL SETS MARK FOR IDAHO

When L. J. Tencking, Twin Falls purchaser of the Holstein bull, Colony Koba McKinley, from the Colony Farm, Rosedale, British Columbia, arrived in Twin Falls yesterday, he was greeted by a large crowd of people, and the great proved bull of the breed to Idaho, according to a bulletin lately issued by the University of Idaho dairy husbandry extension service.

The basis of reckoning is the production of the daughters of Colony Koba McKinley, in addition to the fact that the great proved bull of the breed to Idaho, being surpassed only by the living Guernsey bull, "Masterpiece," of the University of Idaho, owned by Mrs. Minnie Miller, Wendell.

Seven daughters of Colony Koba McKinley, produced an average of 20,914 pounds of milk and 746 pounds of butterfat, which was an average of 1711 pounds milk and 100 pounds of butterfat over their mothers' average production.

Daughters of Colony Koba McKinley produced the same quantity of fat as the proved Holstein bull, King Benji Matador Walker, formerly owned by the University of Idaho.

"Koba" was classified by the Holstein-Friesian Association of Canada, and the Canadian rating of "XXX" corresponds to the rating "XXX" given by the Holstein-Friesian Association of America.

Circumstances Get Blame for Closing

Officers who started out to serve a warrant of arrest upon the proprietors of a Main avenue south service station yesterday found a sign on the door. "Closed on account of surrounding circumstances."

The warrant was issued after filing of a misdemeanor complaint charging Matt Clasen and A. J. Clasen, proprietors of the service station, with failure to report motor fuel sales and failure to pay the 3-cent-a-gallon tax on fuel during a three-month period ending December 1.

It was the first prosecution in Twin Falls county on this charge. Pontaine Cooper, state traffic officer, signed the complaint.

The accused men, on arraignment before Judge Guy L. Kirby in justice base court, took the statutory time to enter their plea, which are to be received at 10 A. M. today.

LARCENY CHARGE TAKES YOUNG MAN TO PRISON

Alvin Keller, 20, accused of grand larceny in connection with theft of a \$500 diamond ring and other articles taken from the H. O. Hayes residence on Blue Lakes boulevard last December 16, was sentenced by Judge W. A. Babcock in district

Willie Willis

BY ROBERT QUINN

I guess they don't love me no more. The doctor put a bandage on my head last night an' they made me take it off before I went to school.

METHODIST MEN ADOPT PROGRAM

Brotherhood at Season's First Meeting Lays Plans For Special Service

One hundred men in a men's church and 1000 men in the congregation at the Twin Falls Methodist church Sunday evening, January 10, are objectives which the Methodist Men's Brotherhood set for itself at its first meeting of the year with nearly 50 men in attendance at dinner in the church parlors last evening.

The Brotherhood last evening elected its officers for the coming year choosing J. J. Fleming as president to succeed Lester C. Walker, retiring president, and electing C. D. Thomas, vice, president, and treasurer.

A challenging note was sounded in a series of brief addresses.

Ernest D. Bloom, Kemmerer, Wyoming, former superintendent of Twin Falls schools, discussed conditions obtaining in America, and more particularly in the cities, in consequence of subversive propaganda. He predicted the people of this country within the next 10 years will be confronted by serious problems growing out of this situation, and indicated the value of the church as a central force to meet and solve these problems.

Undaunted faith in America to meet and overcome problems growing out of various negative sources was voiced by C. D. Thomas, who reviewed his own experience in the early days of Idaho and told of conditions of the pioneer movement.

Fleming alluded to the influence of the church, and especially the men of the church, against subversive influences, and Dr. Elijah Hull Longbrake, pastor of the church, in closing the discussion, stressed the value of the manpower in the church in stabilizing the bulwarks of civilization, which he enumerated as being the church, the home, the school, and the state.

In the absence of the president, Harry Wohlhuth, retiring vice president, presided at the meeting and introduced the speaker, J. J. Fleming was song leader. Women of the Pastor's Aid society prepared and served an appetizing dinner.

MEETINGS PROMISE AID IN MARKETING POTATOES

Twin Falls county's potato growers and other persons interested in the potato market will be better advised of their own conditions regarding the future price of the 1931 crop after attending meetings to be held in the city hall and in Twin Falls at which the subject is to be thoroughly discussed, Harvey H. Hurler, county agent, said last evening.

A study of the present holdings of potatoes in the county, the conditions of the potato crop, the price of potatoes, and the history of potato prices of past years, is to be led at these meetings, which are to be held in the city hall at 8 P. M., and in Twin Falls at 8 P. M., January 14.

CHARACTER ANALYSES INTEREST CLUB WOMEN

A group of character analyses drawn from handwritings of Business and Professional Women's club members and guests was an interesting feature contributed by Miss Helen Barrows to an entertainment program at the club's weekly meeting at luncheon at the Park hotel yesterday.

Miss Katherine McCoy, vice of Miss Isabella McCoy, president of the club, and a student at the Washington State college, Pullman, sang three numbers with accompaniment by Mrs. F. T. Kellogg, and Mrs. Cora Stevens read Bruce Barton's tribute to Idaho.

The club here yesterday to serve 1 to 14 years in the state prison.

Keller pleaded guilty, and waived time for receiving sentence.

MYSTERIOUS MALADY HITS IDAHO HORSES

Dr. W. W. White, State Veterinarian, Tells of Investigation at King Hill

Dr. W. W. White, Boise, Idaho state veterinarian, was a guest at the Perrine hotel here last night, following a preliminary investigation of a mysterious malady affecting horses in the vicinity of King Hill. In one band of 15 horses owned by one man, Dr. White said, to were stricken by the malady, and died, and considerable losses have been caused in other bands of horses in that vicinity.

Dr. White did not attempt to diagnose the malady on the basis of his preliminary investigation, but said the symptoms described to him resembled those of swamp fever or peracute anemia.

In cooperation with the federal bureau of animal industry for which Dr. W. A. Sullivan is inspector in charge of Idaho, Dr. White said, Idaho is making rapid progress toward wiping out of bovine tuberculosis. Out of the state's 44 counties, Dr. White said, 38 already have been accredited as being free from that malady, and it is hoped that before the end of February the entire state will qualify for the accredited list and become the fifth state in the union, and the first state west of the Mississippi river to attain that goal.

During the winter season white range herds are on winter feed, and the state and federal veterinarians are endeavoring to complete tuberculosis tests of cattle in Owyhee county to qualify the entire state for accreditation.

Dr. White will return next week, he said, to attend annual meetings of the Idaho Jersey Cattle club and the Idaho State Dairy association.

ANNOUNCEMENTS

The Scribblers' club will meet Wednesday at 8 P. M. with Mrs. Harry Smock.

Members of the Women's Progressive club and their husbands will meet at the home of Mr. and Mrs. Frank Krueger Thursday evening at 7 o'clock for their annual New Year's eve dinner and watch party.

HERE'S WHY POPCORN POPS

WASHINGTON (AP)—Moisture stored in the kernels of popcorn is converted into steam when the corn is heated and it is the pressure of this steam which causes popcorn to pop.

OPEN GERMAN GOLD MINE

ROTHSCHILD, Germany (AP)—Increased value of gold has brought life to a medieval gold mine near this Hessian town. It was worked in the sixteenth century, but still contains "pay dirt."

BLACK AND ORANGE CAR LICENSES REACH BOISE

BOISE, Dec. 29 (AP)—Idaho's new automobile license plates, resplendent in orange and black, will appear on automobiles January 1 for the first time. Their purchase will be mandatory on April 1.

The new licenses, each having a designation which identifies it with one of the 44 counties, will bear not more than four numbers for any county except Ada where the numbers run to 11,000.

BOISE SUIT INVOLVES TWIN FALLS RESIDENT

BOISE, Dec. 29 (AP)—Suit for \$20,700 damages was filed in federal court today against the Pickwick Stage Lines and the estate of Theodore Schneider, for the death of Minnie H. Finch, mother of the complainant, in an automobile accident.

The children are J. Cornell Finch, Twin Falls; Marvin H. Finch, Coeur d'Alene, and Julia Finch Ripley, Spokane.

Mrs. Finch was killed near Kanosh, Utah, May 31 last while riding in the Schneider car which struck a stagecoach.

Schneider also was killed. The children charge both the bus driver and Schneider were careless and negligent in their driving.

LOST MAN GAINS HAVEN

ELKO, Nev., Dec. 29 (AP)—Grover Hokeks, department of commerce employee missing in a blizzard since yesterday morning, was reported safe at Silver Lake today. Since he left Elko Thursday with a supply of food for the beacon light attendant at Little Lake Pass, and had not been heard from since.

LOST WATCH KEEPS TIME

RED OAK, Iowa (AP)—A silver watch is keeping time despite being restricted from a 25-year interment in the ground. The watch, lost 20 years ago on a Pileo Group township farm, was plowed up by E. R. Travis. A cleaning and a new band and crystal made it "good as new."

ICE NOW MADE IN FLAKES

BOSTON (AP)—Pure ice now is produced commercially in the form of slightly curved flakes like pieces of peanut brittle. This makes storage easier, says the Arthur D. Little industrial engineering firm.

For rural district Nevada. For particulars Phone 1464, not later than today.

TRIBUTE IMPRESSIVE AT VETERAN'S FUNERAL

Military honors—the three-volley salute and sounding of taps—at the graveside in Twin Falls yesterday marked the conclusion of an impressive final tribute paid here yesterday afternoon to Charles B. Hulet, 35-year-old World War veteran who died on Christmas day at the Veterans' hospital in Boise following illness of several months duration.

A number of friends joined bereaved relatives in paying their last respects at services held in the White mortuary chapel, and later made up a cortege to the veteran's final resting place.

Dr. Elijah Hull Longbrake, in charge of the services, brought a message of consolation and hope, taking the Twenty-Third psalm as the theme for a brief funeral sermon. Miss Mahol Gae and Mrs. C. Wright sang two numbers, "In the Garden" and "All the Way My Savior Leads Me." Mrs. F. T. Kellogg playing the accompaniment at the piano.

Funeral bearers included two brothers, Walter Hulet, Piler, and Laurence Hulet, Twin Falls, and four intimate friends, Will Graham, Dewey Hutchinson, Tom Hatch and Chris Broadhead.

A squad of uniformed Idaho national guard engineers of the Twin Falls unit, assisting the American Legion, conducted military honors at the graveside.

Mr. Hulet had served as a member of the nation's military forces for 22 months during the World War period. He is survived by his wife, Mrs. Gertrude Hulet, and four children, Charles R. Jr., Marion R., Marlene and Barbara Joy Hulet; his parents, Mr. and Mrs. A. A. Hulet; Kimberly; two brothers, Walter Hulet, Piler, and Laurence Hulet, Twin Falls; and one sister, Mrs. R. W. Willson, Lemhi.

HUNTERS CARRY SCORE CARDS

COLUMBUS, Ohio (AP)—Ohio hunters now keep tally cards like bridge players. A card for tally of number of each kind of game killed is affixed to hunting license with the request that it be returned to the department of conservation to determine the quantity of game killed in the state each year.
