China and Japan Agree on Terms Negotiations Reach Basis For Peace While League Commission Tours Battleground

SHANGHAI, March 21 (AP)—Chinese and Japanese negotiators reached a basis for peace today after parleys here, while League of Nations investigators viewed the scars of recent battles.

Members of the League's commission of inquiry returned, grimy and weary, from an all-day tour of the battlegrounds.

Quo Tai-chi, representing China, said the terms on which the two sides apparently agreed provided:

1. The Chinese troops would remain where they now are, about 20 miles west of Shanghai.

2. The Japanese troops would withdraw according to a fixed program not yet announced.

3. A joint commission, including Chinese representatives of neutral powers, would oversee the execution of the foregoing conditions.

Tornadoes In Four States Of South Claim 105 Lives Early Morning Data Show

Snow Mantle Grooms Infant Spring Over Much of Nation While High Winds Cause Damage in South

(By The Associated Press) KANSAS CITY, March 21 (AP)—A snow mantle spread over much of the nation tonight, while tornadoes inflicted serious damage in the South.

Approximately 100 persons were killed by winds in four Southern states.

Planes which crossed the storm were sent to have left the town of Florida and into Alabama and Mississippi on September 18, killing 37.

The white mantle was spread from the Rockies to the northern Atlantic states. Temperatures, however, were not severe.

In parts of the Oklahoma Panhandle, Colorado, Kansas and Iowa, the severest snowstorms of the year came up of season. High winds whipped up drifts that blocked highways.

Transcontinental air mail and passenger service was virtually at a standstill as the result of low visibility.

IDAHO HIGHWAY CHIEF FAVORS HIGHER WAGES - BOISE, March 21 (AP)—The state will do everything possible to maintain a proper wage schedule on highway construction work, G. E. McKelvey, commissioner of public works, declared today in comment on the statement of Thomas Meagher, federal employment director for Idaho, that was promulgated in highway contracts in Idaho were being "abused."

McKelvey declared he had been unable to find any provision in the law whereby the department could enforce payment of wages at a fixed minimum or above, but planned to ask the attorney general about the state's powers.

He said agreement among contractors permitted the state to make the most effective present means of preventing low wage schedules.

Storms End 3000 Lives Since 1924

NEW YORK, March 21 (AP)—Tornadoes and hurricanes have "taken more than 3000 lives in a half dozen major storms in the United States in the last eight years."

In 1923, a storm in Missouri, southern Illinois and Indiana killed more than 850 persons, injured 3800 and destroyed property valued at \$10,000,000.

In 1925, a tropical hurricane from the ocean swept the east coast of Florida and into Alabama and Mississippi on September 18, killing 37.

In 1927, tornadoes killed 22 in Illinois on April 19; 250 in Arkansas, Illinois, Kansas, Louisiana, Missouri, Texas and Wyoming on May 2; and 87 at St. Louis on September 29.

A thousand homes were destroyed and 100 persons injured at St. Louis.

In 1928, a hurricane swept over the West Indies, Florida—between September 17 and 22, killing 60 on the Leeward side, 600 at Guadalupe, 200 in Puerto Rico and between 1500 and 2000 in the West Indies, with damage estimated at \$20,000,000.

In 1929, on April 23, a tornado in Arkansas killed 60 and hurt 250; in Georgia on May 1, it killed 23 in Georgia and South Carolina.

Transcontinental air mail and passenger service was virtually at a standstill as the result of low visibility.

Relief Workers Rush to Desolate Scenes to Administer to Needs of Scores of Hurt and Dying Persons

(By The Associated Press) BIRMINGHAM, Ala., (AP)—Scores of relief workers which last night struck in four Southern states early today had claimed a known total of 105 lives, scores of injuries and property damage which was run into large figures.

Alabama bore the brunt of the storm and the death list in that state reached 72. The waters passed into Tennessee where seven persons were killed, and then struck Kentucky, taking two more lives.

Georgetown, Tennessee, accompanied the storm and hindered the work of the rescue parties attempting to reclaim the dead and avert the injuries.

# HITLER GETS AID OF DUESTERBERG

## "Steel-Helmets" Footloose Joins Nazi For Run-Off in Election in Germany

BERLIN, March 21 (Special to The News)—Certain withdrawal of the "Steel-Helmets," the "Protestants" from the threatened run-off April 10, was indicated tonight when the National party announced it would not participate in the second contest for an official party statement indicated its support would be thrown to Adolf Hitler, the Nazi leader, although it was conceded the rejection of President von Hindenburg was certain.

At the same time it was made known that the United Patriotic societies had decided to vote for Hitler in the run-off, and the "Steel-Helmets" affiliates of the organization announced they did not consider themselves bound by this decision.

It was indicated the "Steel-Helmets" members would make their decision of what stand they would take.

Duesterberg's candidacy drew his chief support from the "Steel-Helmets" of which he was an official, although his entry into the first election a week ago was engineered by Dr. Alfred Hugenberg, the National party leader.

Hugenberg instructed Duesterberg's candidacy solely to have votes to bargain with in a second ballot, the "Steel-Helmets" of 2,500,000 more than 37,000,000 cast last Sunday was disappointing.

Of that total President von Hindenburg gleaned more than 18,000,000 votes, almost the required majority, while Hitler polled 12,000,000.

The National party statement today said its objection to von Hindenburg remained unchanged and its aim was to bring an agreement with the Nazis made at Harburg last October to overthrow "the system," meaning the government of Chancellor Heinrich Brüning. The party added it now must bend its efforts to displace the "system" in a second ballot today in Prussia.

Earlier today Herman Goering, one of Hitler's lieutenants, predicted that the National Socialist would win 40 per cent of the seats in the Prussian diet in the election in Prussia on April 24, and would form a coalition with the aid of the National parties.

Millions of Germans welcomed the inauguration tonight of the "Steel-Helmets" which is to last for two weeks by order of President von Hindenburg.

# QUARRY LABORS SOON START NEAR BURLEY

BURLEY, March 21 (Special to The News)—A. J. Vea, manager of the Inter-Mountain Minerals Products company, has nearly completed a road from the marble quarry near the town of Burley to the Oakley foothills, to the crushing plant at Marion, and says that he is completing the crushing plant, poultry feed, calcium carbonate, quarried at the marble plant, is said to be 98 per cent pure and is being used for poultry feed and for mixing in poultry feeds. It provides the lime necessary for egg shell manufacture by the laying hen.

Vea also states that he is preparing to furnish a pure lime rock used in the process of making sugar, by sugar factories. The product of their quarry has been tried, he avers, and has given satisfaction to the sugar factory making use of it.

The crushing plant, at Marion, has a capacity of 60 tons a day, says Vea, and expects to run, hereafter, on but only shifts 10 hours during the initial operation. The road from the quarry to the crusher near Willow creek, is about eight miles long. Trucks will be used to transport the rock to the crusher, which is on a siding near the Oakley branch of the Oregon Short Line railroad.

# BURLEY HAY SHIPMENTS EXCEED 1500-TON TOTAL

BURLEY, March 21 (Special to The News)—More than 1500 tons of baled hay have been shipped from Burley irrigation district farms, to date. Most of this hay has gone to Utah, with some to Wyoming and Nevada. There have been 121 cars billed out, and although large lot shipments seem to be about at an end it is expected that intermittent shipments will continue for a short time longer. Cattle received around \$8 a ton in the stack.

Much feeding was done here the past winter, and hay will be fairly well cleaned up. It is thought considerable feed has also been shipped in for use in feed lots and on the range. Pasture consideration is being given from the local sugar factory, beet pulp, and seed screenings shipped in from Buhl, Idaho. There were 16 cars of corn received at Burley and about 10 cars at Idaho, as well as two cars of rotted-on-cake.

This outside feed was used mainly to fill out the ration for lamb feeding in local feed lots, and for sheep on the ranges.

# BURLEY MARKETS 80 PER CENT OF TUBERS

BURLEY, March 21 (Special to The News)—About 80 per cent of the potatoes in storage on the Blaine-Idaho project have been shipped to market, and the remainder will soon be cleaned up, is the opinion of Lincoln Wilder, Burley produce dealer. The quality of tubers forwarded from here this winter has been below the average, he says.

Wilder looks for some benefits to potato growers of the project from the new marketing set-up, which local growers have signed contracts associating as a marketing local, with the federal farm marketing corporation. The present method of marketing, he avers, needs changing in many respects, and the proposed set-up, perfecting a local cooperative to associate with the national organization can not help but be of benefit in removing at least some of the ills of the present unsatisfactory system.

Wilder is especially bitter in his denunciation of the practice of shipping potato tubers, and rolling them from siding to siding while awaiting a buyer. In keeping prices low, he avers, and results in market glutting, and in practice prices, below their normal level. A system of marketing might result, he says, with the adoption of these new marketing methods, that will prevent potatoes leaving the state without being graded. Idaho potatoes, he insists, should reach the market fully up to the standard of the brand as stamped on the sack.

# RESIDENTS OF BURLEY SEE SIGNS OF SPRING

BURLEY, March 21 (Special to The News)—After an unusually unseasonable winter, during which an January or February thaw appeared, to permit farmers to plow their fields, signs of spring are everywhere apparent on the Blaine-Idaho project.

Killdeer and meadow larks proclaim the advent of warmer weather. Gold admirals, clad in warm clothing, promenade the Country Club driveway.

Trucks get stuck in soft spots along the highways. Farmers are switching plowshares to the blacksmith shop, for sharpening. And the big Burley sprinkling truck is washing down the streets.

# SUGAR PLAYS BIG PART AS FACTOR FOR PROSPERITY

## Amalgamated Company Manager Points Out Benefits of Reasonable Plantings and Use of Idaho Product

A reasonable acreage of sugar beets on every farm and the exclusive use of Idaho sugar in every Idaho home, is one of the quickest and surest ways of providing employment for jobless men and boys and assuring higher returns to the producers of raw materials, according to A. R. Hagar, Twin Falls manager for the Amalgamated Sugar Company.

Mr. Hagar, who was for many years identified with the crop products and in the sugar business, also offered some suggestions in regard to planting and growing methods.

"Much has been said in regard to early planting of sugar beets in this territory and while it is a foregone conclusion that early planting will give the desired results, planting of sugar crops should not be governed by the calendar but by the soil and weather conditions of the season and the condition of the seed-beet. While soil temperatures are not so all-important with either sugar beets or wheat, the frost should be out of the ground and the soil should be warm and dry before planting is started. Furthermore, it is never time to plant until the seed-bed is in the best possible condition from the standpoint of firmness and moisture conditions. There are, however, exceptions in regard to the soil in cases where beets are to be irrigated up or in a rain-fall country, but it is only reasonable to assume that the environment of a plant, especially in the early stages, is not conducive to that of raising a crop. Any plant in a poorly prepared seed-bed suffers a severe handicap and under normal conditions cannot be expected to compete with a plant that has had a fair start and an even break with the elements.

# 71 MOSCOW STUDENTS SEEK HIGH DEGREES

MOSCOW, March 21 (Special to The News)—Seventy-one graduate students have filed applications to receive their master's degrees at the University of Idaho commencement, reports Ella L. Olsen, university registrar. The potential 1932 addressees of the university are more than double the number of master's degrees awarded last year and substantially in excess of the previous high mark of 47 master's degrees awarded in 1929.

The university registrar recently announced that 238 applications had been filed for undergraduate degrees at this year's commencement. This is the largest undergraduate degree total in university history, the previous high mark being 204 undergraduate degrees in 1929. On this date the potential 1932 graduating group at the University of Idaho numbers 469, against 211 last year, 308 in 1930, 341 in 1929, the largest graduating class to date, and 237 in 1928. # MILLIONS HELPED TO HEALTH BY ALL-BRAN

Has "Bulk" and Vitamin B for Constipation; Also Iron for Blood

In ten years, Kellogg's ALL-BRAN has gained an increasing number of friends. Today, it is used by millions with satisfactory results.

New tests show added reasons for the success of ALL-BRAN. Laboratory experiments prove it has "bulk" to exercise the intestines, and "Vitamin B" to help tone the intestinal tract.

Another benefit of ALL-BRAN is that it has twice as much blood-building iron as an equal amount by weight of beef liver.

The headaches, loss of appetite and energy that so often result from constipation can be overcome by this pleasant cereal. How much better than using habit-forming pills and drugs.

ALL-BRAN action is gentle. Its "bulk" is much like that of lettuce. While the body is absorbing moisture and forms a soft mass. Gently it clears the intestines of waste.

Two tablespoons daily are sufficient to overcome most types of constipation. If your intestinal trouble is not relieved this way, see your doctor.

Serve as a cereal, or use in cooking. Tasting recipes on the red-and-green packages. Sold by all grocers. Made by Kellogg in Battle Creek.

SALES TAX PHILOSOPHY

The most elementary fact about a general sales tax is that it is socially unjust, because it falls hardest upon those least able to pay. The poor have to spend nearly all of their income upon the necessities of life...

Another elementary fact is that sales taxes discourage sales and tend to hinder business revival. There are two ways to make a sales tax socially fair. One is to exempt ordinary foodstuffs and other basic essentials of life...

Another economic justification for the only sales tax is that it can raise money simply and effectively in an emergency. Any sales tax made socially fair as suggested above can be justified by the emergency argument in a time like this...

Oil Line Broken...
He Drove His Loaded Truck 45 miles with a DRY CRANKCASE
When Jack Edmondson halted his 2 1/2-ton Chevrolet truck in a Conoco station in Des Moines, New Mexico, the attendant discovered a broken oil line and an empty crankcase!
But inspection of the motor revealed that no damage had been done!
When Edmondson returned home, he discovered, from oil spilled on the road, that he had driven about 45 miles after the oil line broke on the "Hidden Quart" of Conoco Germ Processed Oil.
You may never break your oil line and drive with an empty crankcase. But remember that if you use oils not Germ Processed, which drain away during idle periods, you are running your motor under "dry crankcase" conditions every time you start. Only Germ Processed Oil actually penetrates and combines with metal surfaces. And only Germ Processed Oil gives you the protection of a "Hidden Quart" that stays up in your motor and never drains away.
The "Hidden Quart" cuts down starting wear, saves gas and gives your motor longer life, with fewer repair bills. It assures safe lubrication at all times.
Change to Conoco Germ Processed Oil at the sign of Conoco Red Triangle.
We neither guarantee "dry crankcase" operation nor do we guarantee under all conditions. But unexcused breakers from motorists, now in our files, tell of this and hundreds of other cases with empty crankcases but without damage.

FIVE COUNTIES WE IN SOUTH CENTRAL IDAHO DECLAMATORY

Washington Declarations and Essays, and Four Debates Comprize First Day's Activities in Twin Falls

Annual South Central Idaho district declamatory and debate contest for March 21 and 22... The Twin Falls First Christian church yesterday morning with grade school declamations on Washington Essays on Washington were presented later, and high school debates were held in the afternoon and evening.

Winners and runners-up in each division of the declamatory contests to be held today, and the winners of first place in the one-act play contest, will enter the inter-district competition at Caldwell on Friday and Saturday of this week.

Each one of the high schools entered negative and affirmative teams, with three speakers on each. The question under discussion was a form of compulsory unemployment insurance.

The first contest, held at 1 P. M., resulted in a three-to-one victory for Burl affirmative over the Jerome negative. The Burl speakers were Gordon Merrill, John Olsen and Raymond Leer. Jerome was represented by Frank Humbach, Harold Parkinson and Miss Ruth Sturgeon.

The second contest, at 2:30 P. M., resulted in a two-to-one victory for Jerome negative over the Burl affirmative. The Burl speakers were Bill Smith, Joe Jenkinson and Philip Leslie. Burl's speakers were John Barker, Miss Jane Elshida and Miss Gertrude Nelson.

Besides those whose names were entered in the eligible list, high school students in different counties in the district who qualified for either first or second places were not reported.

CITY BOOKS SHOW GENEROUS MARGIN OF CASH ON HAND

Clerk's Figures Indicate \$108,090 Expenditures of First 10 Months of Year \$18,749 Under Revenues

Twin Falls municipal general fund expenditures during the first 10 months of the fiscal year total \$108,090.38, which is \$18,749.23 under the municipal income for that period, and \$42,216.02 under the estimate of expenditures for the fiscal year ending next May 1, according to figures which G. M. Hall, city clerk, compiled and laid before the city council at a regular meeting last night.

Estimating \$11,300 waterworks department receipts, \$800 dog license and \$400 sundry revenue for the remainder of the year, the clerk figured the city's total income for the year will amount to \$128,139, and that there will be a comfortable margin in the city treasury when the new fiscal year begins.
