WISCONSIN SENATOR CLAIMS RACKETEERS RUN STOCK MARKET

(Continued From Page One) Senate article he said was written by President Hoover in 1913 on "The Economics of a Room" in which racketeers and brokers were described as "insiders" and the general investing public as "outsiders."

In his article, published in the London Mining Magazine, Edwin quoted Hoover as describing a hypothetical case in which 100,000 pounds was invested in a mining stock and 99,999 pounds sold to outsiders by the insiders.

"But the 100,000 pounds, representing the difference to the 99,999 pounds, was not included in the article," he simply means this much of the national wealth has transferred from one individual to another.

Mr. Evans said he was not worried about the article. He said that the article was written by a man who was not a member of the Senate and that he was not a member of the Senate.

### ROSS MEETS WITH LODGE IN RUPERT

#### Odd Fellows and Rebekahs Observe Anniversary of Founding of Organization

RUPERT, April 28 (Special to The News)—With Governor C. Ben Ross, who is past state grand master of the Independent Order of Odd Fellows, as guest speaker, Rupert Odd Fellows and the Rebekah chapter last night celebrated the one hundred anniversary of the founding of the order. The celebration took place in Odd Fellows hall after a short lodge session and was attended by about 200 persons.

Governor Ross, a candidate for reelection as chief state executive, personally attended political questions, confining his remarks to principles underlying Odd Fellowship and dealing with the Rebekahs. He spoke with love that forms a major part of practically all fraternal organizations.

He outlined the history of the Odd Fellows organization in Idaho, telling much of the pioneer history of the state and the part that the organization played in community advancement. He paid tribute to his mother and other pioneer women for staunch principles and spiritual guidance.

Governor Ross expressed the belief that "what the country needs is new leadership, and that no one person nor any one group is responsible for the present period of depression."

With C. D. Dyer, Rupert lodge in charge, a splendid program proceeded to the Governor's address. Rev. W. P. E. Roberts, chairman of the Odd Fellows, gave an eloquent talk on the order.

Another outstanding feature was the singing and vocal drill presented by the Rupert degree team, which with garlands of roses and flags presented many beautiful figures under the leadership of Mrs. E. E. Spillash, who over a period of years has served as drill captain.

Medical numbers included a selection by Rupert male quartet, Frank Wagon, Harry Colwell, Lawrence Hahn and Will Hamrick. Mrs. Edna Sinclair accompanied; violin duet by the Johnson sisters; Miss Wilma Central accompanying; and a clever tap dance by Billie Sullivan, Louise Dickson, Margaret Johnson and Mary Lovick. Musical Little June Dolan assisted the drill team as flower girl.

Dancing concluded the evening.

### POLICE ARREST BURLEY PAIR FOR SAFE THEFT

BURLEY, April 28 (Special to The News)—Otto Vansk, about 19, and his brother, Adolph Vansk, about 14, were arrested by Chief of Police Sterling Clark and Patrolman Hall Church here Wednesday morning, and are in jail pending an investigation of the disappearance of a small safe from the plumbing mill of Ritter brothers, on Overland avenue. The safe, weighing over 200 pounds, was stolen from the office about 11 o'clock Tuesday evening.

Church found the rear door of the mill forced open, and called one of the proprietors. On finding the safe gone, Church and Clark overrode a light car returning from the river bank, and apprehended the two boys who were unable to explain their actions. The car seat and the boys' clothes were muddy, and parts of the broken safe lock were found on the Hayburn bridge across Snake

river. The safe was found this afternoon, in about 18 feet of water, on the Mindoka county side of Snake river, where it had been thrown after having been blown open. Most of the valuable papers, with the exception of the institution's cash book, were recovered. Deep-sea diving apparatus was brought into service in recovering the safe.

Several small pecuniations have been reported to the police lately, including the breaking into of a Theaco station Sunday night, when over \$100 in cash was taken from the register drawer.

### GROUPS AT BUHL ATTEND SESSIONS

#### Gatherings of Clubs and Church Societies Marks Mid-Week in West End

BUHL, April 28 (Special to The News)—Wednesday proved to be the busy social day of the week in Buhl, featuring numerous clubs and societies' meetings.

Annual Quasi day was observed by the Sunnyside club Wednesday afternoon when the group met with Mrs. Luke Bonner. Roll call was answered by introduction of guests. After a brief business meeting, Mrs. George Bonner, as program chairman, presented the following numbers: Reading, Elsie Kodach; solos, Mrs. Chris J. Benny; humorous skit, Mrs. Sam Malone, Mrs. Soren Jensen and Mrs. Frank Thatcher. In two contests Mrs. Nita Cox won two firsts and Mrs. Jack Campbell and Mrs. John Burgenor captured second honors. The color scheme for the luncheon was pink and white. The next meeting was scheduled to gather with Mrs. Al Johanson, with Mrs. Luke Bonner as program chairman. Guests of the day were Mrs. Chris J. Benny, Mrs. Harris, Mrs.

Judy Minlon, Mrs. Earnest Fritchard, Mrs. C. B. White, Mrs. John Hipper, Mrs. Nita Cox, Mrs. John Burgenor, Mrs. Leda Sumner, Mrs. Joe Baxter, Miss Hazel Pinney, Miss Elsie Kodach and Mrs. Albert Curry.

Fairview club met Wednesday with Mrs. Pat Rutherford in a delightful afternoon social gathering. There were 14 members and six guests present: Mrs. Frank Hann, Mrs. Frank Kelly, Mrs. Mary Pughjohn, Mrs. Earl Allen, Mrs. Harry McCaulley, Mrs. H. O. McCall, Mrs. Onee Chamberlain, chairman of the program presented Mrs. R. O. McCall who reviewed Edna Streeter Aldrich's book, "White Birds Flying." The afternoon concluded with delicious refreshments. Next meeting will be held May 16 with Mrs. W. R. Shadock as hostess.

Twenty members of the Hagaman Ladies Aid society of the Methodist church met in a special session with Mrs. M. L. Elms, Buhl, Methodist church, beginning with a luncheon at 11 o'clock and continuing throughout the afternoon. Hagaman women supplied the following program: Piano duet, Mrs. W. Jones, and Mrs. E. Baptist; poem, read by Mrs. E. Dillman; president's paper on the subject, "Family Life," Mrs. Earl Allen.

Byrings club met Wednesday afternoon with Mrs. W. S. Samuel as hostess to the seven members of the club. The afternoon was spent playing 500. Plans were laid for the annual spring luncheon to be given May 11 at Mrs. T. O. Wilson's home.

Rebekah Kensington met yesterday at the home of Mrs. Mike Kamblich, with Mrs. Ray Glenwood as

the assistant hostess. Fourteen members and two guests, Mrs. Johnson, Mrs. John Lund, "Dorothy" Lantz, Mrs. Sheldon Pulley, Mrs. D. C. West, Mrs. Bert Womack and Mrs. Volney Burnet.

The harvest penny event imposed in Montana for violation of the federal prohibition law was a three-year sentence to McNeil's island, plus a fine of \$500.

You're Right

They're Milder and they Taste Better too

THERE'S SOMETHING DIFFERENT about the flavor of CHESTERFIELDS—something about the blending and cross-blending of fine tobaccos—that gets to you, every time.

THERE'S SOMETHING DIFFERENT about their mildness, too. It is the mildness that comes from the ripest, sweetest, mellowest Turkish and Domestic tobaccos. There is no bitterness in them... no harshness.

THERE'S SOMETHING DIFFERENT about the taste. It is that good, pleasing taste that comes from the right kind of tobacco, cured in the right way—cured for two years or more. It means that to make CHESTERFIELD Cigarettes, millions of dollars are tied up in tobacco leaf—but it's worth it.

# New York City Plans For 1965 --- And 21,000,000 Population

## PLANNERS PREDICT DOUBLED TOTAL OF CENSUS IN GOTHAM

Plans Calls For Doubling of People But Avoids Old Disadvantage of Crowding  
IDEA INVOLVES AREA IN 50-MILE RADIUS  
Parks, Comfortable Homes, and Better Transportation Claim Thought

Regional planning estimates give New York and environs a population of 21,000,000 in 1965, about double the present number embraced in a circle of 50-mile radius. The city proper, embracing the five boroughs, has a population of 6,930,000. Stretching beyond that are contiguous areas of New Jersey and Connecticut that bring the total to about 11,500,000. The smaller diagram shows the tri-state area embraced in the regional plan. Evicting the trend toward outlying districts is Manhattan Island's declining population.

## Babson Views Five-Day Week And Pay Reductions As Forces Tending To Bring About End Of Depression

## Statistician Condemns Employers Who Take Advantage of Labor's Distress to Slash Wages, but Defends Business Heads Who Reduce Salaries to Continue in Business

By ROGER W. BABSON  
BOSTON, Mass., April 25.—For too much discussion is being given to wages and for too little to the employment situation, according to a statistician who is a pessimistic and a pessimist. He should regard them as the surest way to increase employment and hasten recovery. He has always been flatly opposed to lowering the American standard of living to that of European countries. Moreover, I continue to condemn those employers who take advantage of labor's distress to slash wages. When, however, as at present, the economy is in a state of depression, wages and salaries should be cut down and workers urged to accept lower wages and salaries. The quickest way to revive business and increase consuming power is to spread employment over a greater number of people and the only way to do this is to reduce wage costs. The common misconception for this year is that giving a greater number of people some employment and keeping fewer already employed at lower wages will maintain and increase aggregate buying power. Consider the 6,000,000 people totally unemployed and what they would mean to business as consumers were they given some work even at a lower wage. It is the old story that one man can wear only one suit of clothes at a time whereas 6,000,000 men wear 6,000,000 suits. No matter how much wages one man receives he will buy only a given amount of food, clothing, necessities and luxuries. By lowering wages and spreading work, millions more can at least buy a fair share of these necessities.

Prices of Other Things Down  
It is only fair that wages should be reduced when prices of practically all other things are down. The cost of living is 21 per cent lower than in 1929. That means the worker who has taken a wage reduction of 20 per cent and is still fully employed is just where he was three years ago and has suffered not at all. Moreover, for those workmen still to be, and Manhattan has 18 per cent fewer people than 10 years ago. Other portions of the city have increased in population and the region embraced by the regional plan—all of which is economically and socially bound together.

180 hours they are entitled to a wage of \$125 per hour. Under this plan the railroad worker would get 10 per cent or 18 per cent in pay, labor would be guaranteed an assured monthly income, and the work would be spread among a larger number of employees. A number of concerns are giving vacation without pay in order to spread the work and avoid dismissal. Recently, building workers in New York City adopted a plan with a 20 per cent wage cut. This is the most important shortening of working hours since the building trade in New York City adopted a similar scheme. We consider that 80 per cent of the total building workers are now idle. The reduced work week, coupled with the wage reduction, is a helpful movement toward spreading employment. Moreover, it will reduce building costs so that people will be more willing to start new construction. Workers, of course, cannot expect the same pay for five days that they formerly received for five and a half or six, because this would tend to raise costs rather than reduce them. The movement toward spreading employment shows that industry is earnestly trying to solve this problem of wage reduction with the best handling possible.

Business is conducted for profit and those concerns which cannot show profits are automatically eliminated. It is fair, therefore, to criticize the employer who has been unable thus far to keep his employees because of so he has had to cut wages. Rather, the workers' criticism should be directed toward concerns which mistakenly have failed to cut costs and have been forced by losses to discharge employees. The concern making necessary wage cuts are not only strengthening their own financial position, but are protecting their workers and laying the foundation for securing employment for some of the other 6,000,000 now unemployed. By getting costs down, business is getting prices so low that the public will soon be attracted to buy. As buying increases, factories and workers, money will be reinvested and prosperity will gradually return.

Helping Employment  
In connection with reducing wages and salaries, the plan is being developed to afford work to a greater number. The five-day week is gaining strength. President Hoover has proposed it for government employees. He would spread the 30-day through for federal employees next year, and lay the foundation for the five-day week, employing 25,000 additional workers and saving \$100,000,000. Delaware and Hudson railroad has a plan which may revolutionize rail wage rates. Engineers are to be paid on a flat monthly basis. The regular one will work 240 hours per month at \$15 per hour, making a monthly income of \$3600. After these hours are completed they will take a lay-off and other workers will take their places for the remainder of the month. The "standby" or extra engineers are guaranteed a minimum of \$200 per month, regardless of the actual amount of time they work. If, however, they work more than

MOSCOW, April 25 (Special to The News)—All arrangements have been completed for the 1932 summer school in Moscow. The school will be held from June 1 to August 31. It will consist of 100 students, of which number 75 are doing graduate work. Director of the school is Prof. S. I. Gerasimov. It is the first time that the school will equal if not exceed that of last year. Courses will be offered this year in the following fields: Botany, Chemistry, geology, education, drama, English, geology, geography, history, home economics, mathematics, music, philosophy, political science, sociology, psychology and zoology. In response to demand from high school students and technical school graduates, the school will be held throughout the state, work in school finance and school administration is being emphasized this year. Dr. A. B. Murphy, of the University of California, has been secured to handle this new work.

## BURLEY VOTES SPECIAL 5-MILL SCHOOL CHARGE

BURLEY, April 25 (Special to The News)—Burley independent school district election, Tuesday, resulted in a total vote of 143 cast in favor of the special 5-mill tax, with 123 against. This authorizes the levy, as a majority of votes polled is sufficient. The trustees had already authorized an 8-mill special levy, which is the limit allowed by law. The additional levy voted makes a 13-mill levy, which is the same as has prevailed for some years past. Ballots by precincts resulted as follows: District 18 in favor, 8 against; 19, 10 yes; 10 no; high school, 77 yes, 71 no; Overland school, 34 yes, 12 no; Unity, 4 yes, 23 no.

Mr. and Mrs. J. C. Patrick, Jerome, are parents of a son born April 23. Mrs. E. L. Simonson underwent a minor operation April 23. Perry Dodd, Wendell farmer, received medical treatment at the hospital on April 23. Mrs. East Orlichfield, Jerome, underwent a minor operation April 23. Roy Quinlan underwent an operation April 23. F. O. McQuinn, farmer living west of Wendell, was brought to the hospital April 23 for medical care. He has been ill since January, and is in a critical condition. Norma Lou Schowalter, who underwent an operation for acute appendicitis April 18 will be able to return to her home Friday.

## BURLEY VOTES SPECIAL 5-MILL SCHOOL CHARGE

The fundaments which were so badly out of line in 1929 have finally become re-adjusted to a basis where improvement can be made. What is needed is teamwork—cooperation between employers and workers, and employers can help their workers by arranging wages and production schedules in such a way as to afford the greatest employment possible. They can also help by encouraging employees to use spare time in their own self-improvement that will make them more valuable to the business.

Wages can help employers by loyally assisting them to correct difficulties in products and marketing. Improvement can be made by helping for constructive suggestions and by glad to pay with good salaries. When in this manner, for ideas that improve the product, increase the

## BODY OF PIONEER WEST END MAN GOES TO REST

BUEL, April 25 (Special to The News)—Funeral services over the body of Frank (Whitey) Whitman were held at the Bueh funeral chapel at 4:30 o'clock Thursday and were conducted by Chris J. Henry, of the Christian church, speaking in the subject, "The Abundant Life," and using as the text, John 10:10, "I Am Come That Ye Might Have Life and Have It More Abundantly." Whitman was born at Mishawaka, Indiana, and had been a resident of Buhl for nearly 30 years. He was considered as a well-read man, familiar with the best of literature, and able to discuss the events of the world. He was inclined to want to be alone and to leave for places unknown at will. His disappearance was not considered alarming as friends supposed that he had found work and had met with other friends. His circle of friends throughout the community is quite extensive and through their appreciation, burial suitable to a man of his wide acquaintance was made possible. Interment was in the Buhl cemetery.

Helps Correct Constipation with "Bulik" and Vitamin D; Also Has Iron

Recent scientific research shows that Kellogg's ALL-BRAN contains the things that promote regularity and recurring constipation. It has "bulik" to exercise the intestines and Vitamin D to tone the fastidious tract.

These two important food-elements promote regular habits, and help away with the headaches, loss of appetite and energy, so often the result of constipation.

"Bulik" draws its own life in action—much like that of lettuce. Inside the body it forms a mass, which gently draws the intestines of water. Special food processes make ALL-BRAN flour, softer, more palatable.

It is pleasant "normal way" and more healthful than any pills and drugs—so often habit-forming.

It is fast acting. A tablespoonful of Kellogg's daily—enough for most types of constipation. If your intestinal trouble is not relieved this way, consult your doctor.

Besides, ALL-BRAN brings your body into such much blood-building and gives you the amount of weight of beef liver.

Equally tasty as a cereal with milk or cream, or used in cooking. Recipes on the red-green package. Sold by all grocers. Made by Kellogg in Battle Creek.

# NEW VOTERS BULK BIG IN PRECINCT REGISTRARS' LISTS

### Removal of Requirement For Re-Registration of Many Electors Makes Pickings Slim For Record Makers

New voters, young men and women who have attained the majority since the last general election, or who will become of legal age before the general election next November, account for most of the names being entered by Twin Falls registrars at the county clerk's last month, according to one of Twin Falls registrars.

Out of about a dozen registrations which have been added to the list in this precinct, this registrar said, more than half the number are new voters.

The lists which the county clerk turned over to the registrars, conforming to Idaho's new election law, contained the names of all electors and voters at the last general election. Those electors are not required to register again for the coming election, unless they have changed, or expect to change, their residence to another precinct. In those cases the elector must register in his new precinct, or secure a certificate of transfer from the registrar of the precinct he is leaving.

With a large proportion of the electors already on the list, registrars this year are pretty sure to find few names available for addition to the lists only the names of new voters, electors who have moved from one precinct to another, or citizens who did not vote at the general election two years ago.

Twin Falls county commissioners have authorized payment of compensation to the registrars at the rate of 15 cents per registration.

In addition to registrations received by precinct registrars, the new law also designates the county clerk as a registrar for the registration of electors who intend to be absent from their precinct during the period when registrars are registering electors, and for electors who are temporarily absent from their precincts as either federal or state officers, agents or employees.

Registration lists were opened in each precinct last March 7, to continue open for registration of electors until 5 P. M. May 21, the Saturday before the primary election.

Electors failing to register for voting in the general election will be given another opportunity to register for voting in the general election during a period when the lists will be returned to the registrars in each precinct.

# BUREAU REPORTS IDAHO'S WEATHER

### Conditions Prove Generally Unfavorable For Growth of Crops in Week Period

BOISE, April 28 (Special to The News)—Weather conditions generally unfavorable to the sprouting or growth of farm crops prevailed throughout southern Idaho in the week ending Tuesday, April 28, according to the weekly summary of weather and crop conditions prepared by Clinton Morkus, of the United States department of agriculture, bureau of business.

SOUTHWEST IDAHO—The week was a difficult one in sunshine. Temperature steadily below normal and there were some frosty nights. Good rains occurred quite generally over the district and covered areas and pastures, early second grain and the range. Farming operations were somewhat delayed by the rain, but the interruptions were mostly brief. The cool, cloudy weather retarded the advance of all vegetation. Soil is good with soil moisture is ample for present needs and insures good germination. Pastures are short and range feed is coming on very slowly. The cold, rainy weather was hard on newly sown crops. A spell of warm, sunny weather would be welcome.

SOUTHEAST IDAHO—Due to the cool weather and prevalent rains the weather and crop conditions were considerably retarded. All farm work was at a standstill about the middle of the week but the plating of grain and beets had been resumed again toward the close. The range throughout the district and was considerably retarded by the late spring. However, cattle are being turned out, somewhat relieving the situation. There are in fair condition and are reported doing fairly well. Winter wheat is looking good in all sections. Conditions have been slow, but they are coming now.

Notes From The Field  
RICHFIELD, LINCOLN COUNTY—The week's cold with copious falls of rain and snow; ground in fair condition; crops being put in as rapidly as possible.  
RUFERT, MINDOKA COUNTY—Season has been cold; pastures blackened, but wheat and other crops coming up to good stands; some early gardens are up; spring work in full swing.  
GOODING COUNTY—Weather changeable; some wind; occasional rain and snow; frost Saturday morning; farm work retarded; trees not growing rapidly; trees showing leaf buds; pastures mostly irrigated; water available and being used on some crops; typical April weather.

TWIN FALLS, TWIN FALLS COUNTY—Cultural operations delayed by precipitation which amounted to 1 1/2 inches and was generally beneficial, but 80 per cent of beet acreage has been planted and soil moisture is sufficient to insure germination without irrigation; leaf hoppers exceedingly scarce; seeding of spring wheat and onions completed; apple orchards being sprayed.

TELEVISION BUREAUQUE DIVERSION—FOR ELKS  
A bureau "television" performance staged by a number of members of the order, was an interesting entertainment feature in connection with a meeting of Twin Falls Elks lodge last evening. The performers included comedy acts, monologues and dialogues, news flashes and a dog dance.

FILER RESIDENTS VISIT  
FILER, April 28 (Special to The News)—Filer arrivals and departures in the last week included the following:  
Mr. and Mrs. Joe Bixler, Fremont, Illinois, on route to Salmon, Oregon, were week-end visitors at the C. H. Fox and Frank Hayes home.

## Shrieking sirens—the roar of a powerful engine—a red streak flashes by and she's on her way!

There's power for you—real honest-to-goodness power—the kind of power you'd like to have right under your own accelerator!

Today you can have it. Not the fire engine, of course, nor the siren nor the bell—but the very same power—gasoline which surpasses federal specifications for distillation range and vapor pressure for use in U. S. Government emergency equipment.

Here's what Uncle Sam uses this type of gasoline for... "ambulances, fire-engines and emergency vehicles." What the Government uses for emergency equipment—you can now have for your own everyday use at no extra price.

Super-octane rating makes Texaco Fire-Chief Gasoline the outstanding anti-knock, non-premium motor fuel. And remember Texaco Fire-Chief plus Ethyl equals 100 Ethyl, now more than ever the leading premium gasoline.

# KIWANIS CLUB OBSERVES ANNIVERSARY OF TREATY

Observance of the anniversary of the proclamation of the Rush-Bagot treaty by President James Monroe in 1817, resulting in the clearing of the frontier between the United States and Canada, was held at the noon luncheon of the Twin Falls Kiwanis club at the Park hotel yesterday.

P. W. Meach, chairman of the program committee, was in charge. There was singing, reading of statements by President Herbert Hoover and Prime Minister R. V. Bagehot, and other observances.

Bill Smith, high school student, read the proclamation of President Monroe. Mr. Meach read the inscription on the Harding good-will tablet at Stanley Park, Vancouver, British Columbia, and a short article from the Kiwanis magazine.

# Levinsk Awaits Match in Chicago With Mickey Walker

## Promoters Expect 20,000 Customers To Witness Fight

Battle, Milestone in Career of Both Participants, Means Much to Two Determined Gladiators

By CHARLES DUNKLEY (Associated Press Writer)  
CHICAGO, April 28—Mick Levinsky in his march down the road that may lead to a world heavyweight championship match with Mickey Walker, in a 10-round battle tomorrow night in the Chicago stadium.

The prospect tonight was that the crowd of 20,000, the possibility of a sell-out, will jam the stadium. Receipts may reach \$75,000.

The bout is a milestone in the careers of both Levinsky and Walker, a fight that neither will lose. Levinsky, who is engaging in his first important bout since last fall when he went 16 rounds with Jack Dempsey, is confident in his favor. Levinsky will enter the ring with youth, height, weight and pep conditions in his favor. Walker, who has been in the ring since last fall, plus his experience in ring craft and having fought and defeated Jack Dempsey, perhaps the most vicious body puncher of all time, will enter the ring with the experience of a veteran.

## Ellsworth Vines Rallies to Beat Canadian Athlete

WASHINGTON, April 28 (AP)—America's 20-year-old champion, Ellsworth Vines, rallied from the verge of defeat today to beat the Canadian champion, Frank Moran, in a close boxing match.

Pressed to the limit in a surprising close five-set encounter, the favored American youth beat off the challenge of the Canadian champion, Dr. Jack Wright, who scored a 10-9 decision.

With two victories stowed away, Vines, who has won 11 of his 15 bouts, one of the three remaining matches to be played tomorrow and Saturday to clinch the opening of the American championship.

At one stage in the afternoon's play, it looked to the gallery as though all the odds were against Vines and the young national champion who has been likened to Bill Tilden, might go down to defeat in his first match as a Davis cup player.

Much of his heavy hitting was directed down to the feet, and his drives just wouldn't get over the net.

Then, as long shadows were falling over the court, and the final set was beginning, he rallied like the champion he is.

### William Muldoon Adopts Secretary

WHITE PLAINS, N. Y., April 28 (AP)—William Muldoon, 47-year-old "ear" of boxing, has adopted his secretary, half his age, as his daughter. The adoption was announced today when it was learned that Muldoon had signed an order approving the adoption by the state bonding commissioner of William Muldoon V. Muldoon, 21, his secretary of the last 13 years.

The order of the court was made after it was learned that Muldoon, who has never married, declared that his secretary has been handling his business affairs for many years and that he wishes to make her his heir.

Muldoon, who has operated one of the world's most famous boxing farms, at which dozens of prizefighters have recuperated from limes and fatigue, lives on his 20-acre farm known as "Olympia," in Purchase, New York, near here.

E. W. Hillhouse, Bolivar, Tennessee, has a clock which has kept correct time for 92 years without a repair.

### BOY CRASH VICTIM GETS COMPENSATION

Creamery Truck Owners Pay \$1795 and \$265 Surgeon's and Hospital Bill Here

Under terms of a settlement placed on record in the probate court here yesterday, the Jerome Cooperative Creamery paid \$1795 to the parents of Russell Miner Christianson, 10-year-old son of Mr. and Mrs. R. O. Christian, 428 Second Avenue west, who received a skull fracture and other injuries when he was thrown from the bicycle in collision with a truck belonging to the creamery and driven by H. M. Fletcher, Elmberly, on March 11, 1932.

The settlement provided also for payment by the creamery of a \$265 surgeon's and hospital bill.

The settlement was reached after the accident, that the pavement was covered with a light snow and that the rear end of the truck skidded and struck the boy when the driver turned to avoid a collision with the boy as he came into the intersection. The driver, the settlement terms recited, "in no manner intentionally, negligently contributed to the accident" nor was he in anywise to blame for the injuries the boy received.

The boy's father, represented by W. L. Hildner, Twin Falls attorney, obtained from the probate court an order permitting him to compromise the claim for the settlement. The settlement terms recited that the settlement was made by the creamery's attorney.

These suits are cassimeres, not worsteds and while most of the patterns are exceptionally good there are two that are not especially desirable.

I found these suits on the racks of a manufacturer who makes very good \$16.50 and \$22.50 clothes. This manufacturer closed the piece goods out for a song and made a quantity of these suits for Lit Brothers in a cut, make and trim basis. Their sale was quite successful at \$15.00. The manufacturer made up all the piece goods he had left to the same specifications and cleaned them up to me at a bewilderingly low price.
