LAW PUTS BURDEN ON MINOR OFFICES

Candidates For Justice of Peace and Constable Depend On Voters' Pencil

Nomination of candidates for justices of the peace and constables in each justice district, and election of precinct committees of each political party in each voting precinct, are functions of the forthcoming primary elections under terms of Idaho's new election law.

These functions of the primaries are made obscure, and likely to be overlooked by voters, because the law provides that the names of candidates for these offices must be written in on the ballot. Names of none of the candidates for these offices will appear on the printed ballots, though space is reserved for the voters to write the names of favored candidates.

Precinct committees elected at the primary elections will constitute the county organizations of both political parties for the ensuing two years. Each county committee will elect its chairman, who will be a delegate to the state convention of his party. The only state delegates to the state convention will be nominees for congressional, state and legislative offices.

The number of Twin Falls county justice districts has recently been reduced by the county commissioners so that all Twin Falls precincts, constituting a single justice district, will have to elect only two justices of the peace and one constable.

Twin Falls justices of the peace are E. M. Holler and P. A. Bell. Mr. Bell is candidate for the Republican nomination for probate judge. Mr. Holler is a candidate for re-election on the Republican ticket as justice of the peace.

BURLEY, May 5 (Special to The News)—Expenditures out of the county general fund of Cassia county for the first quarter of 1932 amounted to \$13,244. Compared to the first quarter of 1931, \$27,786, there is shown a decrease of \$14,542 for the same period of time.

FOUR DEFENDANTS IN HONOLULU CASE

QUIT-ISLAND SOON

Darrow Expresses Views

"There is no reason in the world," said Darrow, "why a person deserving punishment of no more than an hour should lose his citizenship. They ought to have a full pardon and shall urge to the last resort before the governor that this should be done."

Mrs. Masie said she and her husband as well as Mrs. Fortescue, Jones and Lord would sail for San Francisco Sunday, on the liner Malheur. This, she said, had been transferred to the California city and that other news expected which would take

"Chock Under the Bandwagon"

His smashing victory in New England and reports from Pennsylvania brought this comment: "Well, I guess this will put a chock under the bandwagon."—(AP) Photo.

Jones and Lord, enlisted men, back to the mainland.

The young victim of the brutal attack which led to the killing of the native thus indicated she would remain here to appear once more against the four remaining men still facing criminal assault charges. Darrow previously had said he would advise her not to go through another ordeal in court.

He reminded the four convicted persons had signed a petition to the governor asking executive clemency instead of a pardon. Darrow said:

"They wrote that, 'We didn't—We just signed it. When you are in a hole and somebody offers you something, you don't stop to ask for more, do you?'"

"By 'they' Darrow referred to the Territorial Attorney General Harry R. Hewitt, which prepared the petition signed by Mrs. Fortescue and the navy men. It was made public

and said they, thanked me. Lieutenant Johnson attorney and naval reserve officer representing the navy for the murder trial went so far as to thank me on behalf of the navy."

Asked if he had any comment on the question of a pardon, Judge said his mind was open to argument. Referring again to the communication he said:

"I didn't offer anything. Mr. Darrow came to see me and asked a communication. I told him to get a petition signed by the defendants and their attorneys. I said if he did so I would give it favorable consideration. I've lived up to everything I said. Mr. Darrow has not at any time tried to hinder, discuss a pardon with me."

With finally Darrow indicated Mrs. Masie would not remain to act as prosecuting witness in the Federal or the civil remaining men accused of attacking her—Henry Chang, Horace Ida, David Takai and Earl A. Upilo. Darrow said he believed Mrs. Masie would be willing to stay if advised that he would recommend that she leave.

Without Mrs. Masie, the territory could not prosecute the four again. They were once tried and the jury discharged. Kahanawai was kidnapped and slain while making his daily report to court pending trial.

Despite the apparent decision of Mrs. Masie to abandon the attack case, Hewitt said the territory was extremely desirous that she remain in the territory. He planned to confer with the Hawaiian consul, K. K. Kelley on the matter and probably later make a request to Mrs. Masie along that line.

The question was raised as to whether the territory could retain Mrs. Masie to remain. It was pointed out that as long as she remained at the "Pearl Harbor" naval station she was on a government reservation and the territory could not serve her there, with a subpoena even if it wished to do so.

It has been known ever since Mrs. Masie and the public prosecutor clashed dramatically while she was on the stand as a defense witness in the murder trial she has been opposed to appearing in the assault case with Kelley as prosecutor. Before the clash, however, Mrs. Masie repeatedly said she wished to appear again as the prosecution witness.

Captain Ward K. Worthington, commander of the submarine base at which Lieutenant Masie, Lord and Jones are stationed, said he expected orders sending the two enlisted men for duty either with the destroyers or submarines at San Diego.

He said if the orders came the

DEFENBACH WANTS GAME COMMISSION

(Continued from Page One)

He declared for a bi-partisan game commission "for the purpose of removing the department as far as possible from partisan politics."

Of the cabinet form of government, he said the original intention was to appoint departmental jobs among the elective officers as far as possible. Instead, he declared, the department heads had been created, possibilities for economy were overlooked and the functions of government were given into the region of the party in power. And never was this the case, he said, "more so than under the present administration."

He charged the Democrats with promoting in-election campaigns for years to eliminate the cabinet form of government and then, in victory, not only using the patronage possible under the cabinet form of govern-

SENATE COMMITTEE INCREASES TAXATION

(Continued from Page One)

with Republican leaders in opposition. The normal rates voted today provide for a 4 per cent on the first \$4000 taxable income and 8 per cent on all over \$4000. In place of the present rates of 1 1/2 per cent on the first \$4000; 3 per cent on the second \$4000; and 5 per cent on all above \$8000.

Modifies Proposal Senator Reed, Republican, Pennsylvania, offered the controversial sales tax but he modified the proposal rejected by the house, proposing a flat manufacturing levy of 1 per cent with all food, clothing, medicine, farm implements and fertilizer exempted. He was defeated, 12 to 8, with Senator Walsh, Massachusetts, the only Democrat voting for the tax. Senators Gurnea, La Follette, Wisconsin, Thomas, Idaho, and Jones, Washington, left the Republican majority to oppose the levy.

Later, Senator Harrison, Mississippi, ranking Democrat, stated that the action of the Senate committee was based largely upon the action of the house. "In view of the rejection by the house that to pass a general sales tax in the bill would be useless and make it impossible of enactment."

Senator Jones proposed to hike up the automobile tax to 3 per cent for passenger cars, 2 per cent for trucks and 1 1/2 per cent for taxicabs. He also proposed that treasury officials send the committee the four tariff items put in the measure yesterday on oil, coal, copper and wheat. This would yield only \$1,500,000 in revenue. Democrats are restless about the tax items. Reed's bill is being increased at the defeat of the sales levy and at the high income schedule. No one can afford to oppose him. Everyone is attacking it. Nevertheless it will be reported favorably and passed by the Senate.

The new income tax schedule also calls for the elimination of the present 25 per cent deduction allowed for earned income. Present exemptions are cut from \$1500 to \$1000 for single persons and from \$2000 to \$1500 for the married. However, if a married person has a taxable income of less than \$2000 he gets a \$2000 exemption.

There was confusion tonight on whether the revised bill still met the demands of the League for the coming next year's budget. Chairman Smoot thought even more must be added. Others said that enough was provided to make provision for the committee on the practicability of counting upon the resumption of the present rate of business.

had been a hitch in the plans and that she would have to return to Washington and reestablish contact with the gang.

Later, after additional demands for money had been made and Mrs. Means refused to make bond, her attorneys learned of the negotiations. Fox said, and put a stop to them.

A demand was made upon Means to return \$100,000. Fox added, and he was arrested last Wednesday. Upon his failure, attorneys for Mrs. Means went to the department of justice and told the story, Fox said. Arraigned before a United States commissioner later today, Means, who served more than three years in the Atlanta penitentiary for accepting a bribe and for conspiracy to violate the national prohibition act, pleaded not guilty.

Leo A. Rover, United States district attorney, demanded bond in the Lindbergh case. Means was placed in jail in his return to make bond. Questioned by newspapermen, Means said he could not disclose whether he had been working on the Lindbergh case as that would "retard a confidence."

A good many people have said a good many things about me," he added, "but you will always notice I always stand pat and I never break a confidence, until they do then I do, quick."

Means was released from the Atlanta penitentiary July 10, 1928, after serving terms on conviction in New York on prohibition conspiracy and of attempted bribery in connection with the operations of the Greaser Glass Casing company.

After his release he published a book, "The Strange Death of President Harding," which caused a furor. The book recently was reprinted by a co-author.

Means first gained notoriety as an alleged confidential agent of Count Von Helldorf, German ambassador, and Captain Theyer, the German secret service, prior to

COMPLAINT ASSAILS HOTEL MANAGEMENT

Three of Seven Directors Charge Other Four Members of Board With Offenses

Alleging misapplication of assets, and dissipation of net earnings of the Regerson Hotel company, Twin Falls, Idaho, three directors of the Regerson Hotel company, Tuesday afternoon, started suit in district court here yesterday for the Regerson Hotel company, Mrs. Hattie C. Keogh, directors, to secure an accounting and to recover \$500,000 as the net value of their stock and dividends that they should have been paid.

Directors named are J. Lloyd, Joseph Keeler and J. A. Keeler, directors and majority stockholders, also named as defendants.

The Regerson Hotel company, organized in 1918 with \$500,000 capital stock, has been in the hands of a trustee in bankruptcy since February 10.

Directors named as defendants in the action obtained control of the Regerson Hotel company in January, 1930. They also were defendants in a suit filed in Twin Falls National bank which closed November 23.

The complaint alleges the hotel company earned \$1,000,000 net income in 1928 from 1927 to 1931, and paid only one dividend amounting to five per cent in 1928.

On the basis of statements made by accountants employed under court order, the complaint asserts, it is believed and charged if all legal obligations against the Regerson Hotel company were eliminated, and only the actual debts considered, the company's assets would be approximately \$300,000 over and above its liabilities.

Under the law, the complaint recites, stockholders are not creditors to be admitted in bankruptcy proceedings, hence this action has been started on behalf of the plaintiff stockholders and other stockholders who are entitled to become parties co-plaintiff to this action.

Directors named as defendants in the complaint have "agreed among themselves as to the entire management of the hotel company, and have neglected and refused to furnish stockholders financial or other business statements concerning the corporation's affairs."

Specifically the complaint alleges the defendant directors:

1. Dissipated hotel company funds in conduct of various sheep operations.
2. Expended negligible notes in the name of these sheep companies and had these notes endorsed in the name of the hotel company, without consideration to the hotel company, thereby creating large amounts of fictitious indebtedness.
3. J. A. Keeler to use the hotel company's money and property in operations of the Regerson Hotel company, and a mercantile business in Burley.

4. Granted endorsement by the hotel company of notes executed by J. R. Bothwell and T. J. Lloyd as guaranteed by the hotel company, these notes at a Boise bank, these notes for which the hotel company received no consideration, and which are liabilities against the hotel company when it was adjudged bankrupt.

5. Diverted \$5000 cash rents received from the Delweller Mercantile company, which the hotel company owned, and placed this rent money on the books of the Twin Falls National bank as funds of account for the Regerson Hotel company, when the money was drawn to be dissipated in use entirely foreign to the Regerson Hotel company.
6. Permitted J. A. Keeler to appropriate the Regerson Hotel company's assets and to use the same on the Regerson Hotel company account.

HAGERMAN RESIDENTS ACCUSE MAN OF CRIME

GOODING, May 5 (Special to The News)—Accused of an attempted criminal offense involving the Hagerman farmer, Wednesday evening, Tom Rock, 30, Mountain View, Idaho, was arrested by Sheriff Wayne Black Gooding county sheriff. It was advised early this afternoon.

The sheriff's investigation indicated the alleged attack took place at the residence of the plaintiff, one of the Allen's, brother-in-law, had taken up at the Allen residence, and while Allen was in the rumble seat of his car. The child was found lying on the back seat, his mother was at the front gate. The parents did not learn of the alleged attack until after Rock and his mother had driven away shortly after 7 o'clock, they said. Then they communicated with officers here and at Twin Falls.

Rock and his companions were said to have left Mountain Home Tuesday night to go to Montana to work.

Sherriff Black will go to Pocatello Tuesday to investigate the alleged attack on a charge of an attempted criminal offense.

Rock is one of \$5000 to take up a note against Gilbert J. White, Jr., Allen, H. daughter of the plaintiff, Gus Keeler, Shoshone, without consideration to the hotel company.

J. Authorized J. A. Keeler, president and J. A. Keeler, secretary, to answer in bankruptcy proceedings, admitting the hotel company to be a partnership.

J. Permitted the Delweller Mercantile company's charter and executed by the Regerson Hotel company, to be assigned to the plaintiff, company's property which, it is asserted, they permitted to be sold without consideration to the hotel company.

J. Permitted suit to be filed by the Continental National Bank and the Regerson Hotel company, to foreclose on mortgages on a brick store building and four lots owned by the Delweller Mercantile company, and a mercantile business at that J. R. Bothwell is attorney for the Continental National corporation in this connection.

The complaint alleges further that the plaintiff or ledger set-up in 1928 has a record of the hotel company's affairs contains only accounts that were furnished in an arbitrary manner by the company's secretary, and that the defendant directors claim that the company's original books have disappeared.

"Decide Vocations Early," Advocates Educator of Idaho

MOSCOW, May 5 (Special to The News)—"Decide your life activity as soon as you can," after carefully weighing your capacities for the fields which are open," was the advice given by Dr. C. M. Neale of the University of Idaho to boys gathered on the campus last week for the annual career and vocational guidance conference.

This event was sponsored by the university in cooperation with the Northern Pacific and Great Northern railroads. Thirty northern Idaho high school boys were represented. Identical letters were sent to the parents early for their life work, "thereby gaining a greater advantage over those who wait and decide in deciding, do not consider just the next two or three years, but your whole life, and do the thing that will bring you the greatest returns."

Choosing a vocation is not a matter of magic, he said, but application of common sense. "In years gone by, there was a prevalent idea who had a magic way of telling people what they should be by feeling the bumps on their heads. The vocational guidance experts were pure fakes and their fees just so much blood money."

There is a growing feeling, particularly during this depression, that a higher education doesn't pay. President Neale said, "Anyone who tells you that it will be possible for the rising generation to succeed without education and training is giving you the worst possible type of advice."

As an example he cited a survey made by one of his friends of 270 men in a breadline in a large Middle West city. Their average education was no higher than the sixth grade, and none had attended college. Only one percent of the men were, even skilled laborers, and many were handicapped by physical defects. "No wonder they are in the breadline."

YOU'LL NEVER KNOW WHAT A WEALTH OF FLAVOR COFFEE HAS, UNTIL YOU TASTE HILLS BROS

Hills Bros' patented Controlled Roasting process develops the natural goodness of the coffee-berry

"A little at a time"—instead of in bulk—makes perfect roasting possible

At the accuracy of the hourglass depends upon an even, continuous flow... a little at a time... so the uniform flavor of Hills Bros' Coffee is produced by Controlled Roasting—the patented process that roasts evenly, continuously... "a little at a time."

One of Nature's greatest achievements is the flavor in the coffee-berries! The flavor, however, must be fully developed by roasting the berries. But if they are underdone or overdone, the flavor of course is harmed.

Hills Bros' patented Controlled Roasting process differs from ordinary methods. It prevents under-roasting and over-roasting! Ordinarily, coffee is roasted in bulk. But Hills Bros. roast a little at a time... as the coffee flows evenly, continuously through the roasters. It is a precise process! Every berry

receives the roast required to develop the delightful goodness that Nature makes possible.

Hills Bros' Coffee can't go stale.—The vacuum process of packing coffee is the only method that fully preserves coffee freshness—the air is removed from the can and kept out. It was originated by Hills Bros. over thirty years ago. There is no magic about a vacuum can—it will not make poor coffee good, but it will keep good coffee fresh.

Order Hills Bros Coffee today by name, and look for the Arab trade-mark on the can.
