CANAL DIRECTORS CONSIDER ACTION

Local Board Gets Advice on Next Step in Dispute With Reservoir District

Whether to carry to the United States supreme court a fight to require the reservoir district to pay approximately \$54,000 of the cost of construction of the Miller dam, was considered by Twin Falls Canal company directors in regular monthly session here yesterday, without reaching a definite conclusion.

The reservoir district has successfully maintained in federal district court and circuit court of appeals its contention that it acquired an interest in the Miller dam through acquisition of a part of the rights in that structure held by the North Side Canal company. It is the contention of the Twin Falls company that the reservoir district should share in the original cost of construction of the dam, as well as in annual maintenance and operation costs.

Directors of the Twin Falls company were advised yesterday by Judge J. R. Rothwell, attorney for the company, that the cause might be carried to the supreme court by a petition or writ of certiorari. Directors also had under consideration yesterday litigation scheduled for hearing in the federal district court at Boise June 22, wherein substitution is sought of the United States for the secretary of the interior in the proceeding which adjudicated Snake river water rights some 25 years ago. The Twin Falls company is to be represented at this hearing for the purpose of safeguarding its rights under the Foster decree.

REPUBLICANS SCHEDULE CANDIDATES' MEETING

Under provisions of Idaho's new election law, Francis C. Sheehy, republican county chairman, will cause a call for a meeting here next Tuesday of Twin Falls county's republican candidates for legislative and county offices, for the purpose of promulgating a party platform. This meeting is to be held at noon, and, according to tentative plans, it will provide for a resolutions committee, and adjourn to evening to receive the committee's report. Members of the county central committee, and perhaps, members of precinct committees, will be invited to attend the evening session.

Section of the new law under which this meeting is to be held, reads as follows: "If the nominees of any political party for county offices desire to adopt and promulgate any platform, declarations or pledges, they shall meet at the county seat of such county at 12 o'clock noon on the third Tuesday of June after the nominating election, and forthwith organize and by a majority vote, adopt their platform and file the same with the county auditor of such county within 30 days thereafter, which said platform shall be duly certified by the chairman and secretary of the meeting."
