GOVERNOR SPEAKS AT DAIRY SESSION ON BURLEY FARM

Southem Idaho Guernsey Breeders' Association And Friends, Numbering 350, Enjoy Annual Picnic

BURLEY, Aug. 8.—Meeting of the laws of the Gold Rose Guernsey farm, near Burley, Monday, members of the Southern Idaho Guernsey Breeders' association and their friends listened to talks by Governor C. R. Ross and other speakers. Breakfast was brought by most of those attending and 400 cream was contributed by the Guernsey and the Mini-Costa dairymen's association.

Approximately 350 were in attendance. The picnic was from an over the district, which includes five counties. Much was furnished by the Burley civic band, directed by William Adley.

Gov. Ross spoke of the value of dairy industry to the state and called attention to the need for an increase in production of the modern pure-bred dairy cow to the cow of older times. He compared the average output of the high-producing cow to a similar increase in productiveness of the less-mated breed, illustrating two different classes of eggs in a season and now producing an egg a day. Not only, he said, two birds in the nest in existence, cost more to feed than their product brought on the market. Within 15 years, he declared, more than 60 per cent of the nation will be raised on their way.

Rose Trencher Phinney
He spoke some of the financial burdens of the farmer, and how the savings of some of them were being swept away by high interest on borrowed money. For 100 years, he maintained, almost from the first session of congress, legislation has been favoring the monied class. We must beware, he warned, or the burden will finally become too heavy and usury will sink the nation.

Gov. C. Cortright, mayor of Pocatello, declared that adversity was teaching us lessons that could be brought home to us only in times of acute depression like the present. He called on his hearers to have regard to sound principles alone, and to accept of no programs. The cost to run the government, he averred, is now \$2,000,000,000 a year. Of this amount approximately \$300,000,000 was raised by taxation. The tremendous deficit to be taken care of in some manner.

Condemns High Taxes
Additional taxes have been imposed, and some expenses have been added, but not enough. The Congress has refused to cut down bureaucratic government and insists on maintaining it. The state and territorial common sense, Cortright maintained, in private business, and it should be applied to government business. This is not a political question, he averred, as both parties were to blame.

Thomas E. Speedy, Jerome county agent, told of the value of dairy meetings and picnic. He said the Guernsey county picnic, the Guernsey breeders of the Idaho Guernsey and of some other breeders were held at the H. H. Swain farm, near Jerome. President Adley to explain the importance of increasing consumption of dairy products.

Harold A. Bledsoe, secretary of the state Guernsey association, reminded those present of the needs of Guernsey breeders to be held at the Minnie Miller farm, Jerome, next Saturday.

F. Lee Johnson, formerly of Murtaugh, state commissioner of agriculture, told of improvements in the quality of livestock and the improvement in herdsman and dairy people.

MANY VISITORS SPEND DAY AT CAMP IN BUHL

BUHL, Aug. 8 (Special to The News)—Merrill's memorial health camp at Buhl enjoyed mid-term picnic program when between 300 and 400 patrons, parents and friends gathered to view the exhibition of children and listen to program. The program commenced with a group of camp songs, and continued with reading by Barbara Pritchard; following groups in folk dances, playlets, singing, tumbling were led by Miss Bertha Ripplinger and Miss Wilcox. Miss Abigail Landis gave a whistling solo; and the program closed with camp yells and songs.

Visitors were conducted about the grounds to view the children's sleeping quarters, kitchen, and were advised concerning the routine of the camp.

Especially interesting was the large variety of hand work, toys, rags, derricka, and miscellaneous articles which the children had made under the supervision of Miss Ripplinger, play supervisor of the camp.

Girl Bathers In Lake Cleveland Wear No Suits!

BURLEY, Aug. 8 (Special to The News)—Girls of this part of Idaho seem to be keeping at least abreast of the times if not a little ahead. They are adopting a custom now reported to be in vogue at Hopkings beaches, and even that of taking to the water and dipping in the sands, "au naturel."

A farmer, venturing to the borders of Lake Cleveland, Sunday, came upon a party of those bathers. Jumping from the rocks and breaking the waters, the farmer, intimately attired, or rather unattired, details of the affair are lacking. Coltrane, Lager, and others said to have beaten a precipitate retreat.

BODY OF BURLEY MAN GOES TO FINAL REST

BURLEY, Aug. 8 (Special to The News)—Funeral services for James Henry Croft, 61, who died August 6, were held Monday afternoon at 3 o'clock at the Emerson Ward of the Latter Day Saints church.

A chorus composed of the members of the Trail Builders Sunday school class gave a musical number. A duet was sung by Mr. and Mrs. Joseph Payne, accompanied by their daughter, Catherine. Lager, Moon and a quartet composed of Mrs. Charlotte Peterson, Mrs. Myrtle Borup, Ella Coyne and Mary Barlow sang one number.

Funeral services were held in the home of the deceased, Darwin Mrs. John Carson, Ed. Kessler, Doug Cooper, Otto Amundson and Nella Rasmussen. Beautiful floral tributes from neighbors and friends filled the front of the church.

Eden, Oct. 10, 1880, a son of John and Ellen Croft. He came to Idaho in 1910. He leaves his wife, Mrs. Lois Ellen Croft, and is one of the survivors, all of whom survive. He recited statistics to show the enormous increase in government and a corresponding increase in taxes, comparing his with the rapid decrease of farm prices. He cited at length figures to show the overwhelming postoffice deficit and read from tabulation of mail carried and cost of contract.

Mr. Pope reminded his hearers that "every man, woman and child in America is paying \$10 a year in taxes; which amounts to \$40,000,000 every year—or \$10,000,000,000 annually."

"He said that one dollar out of every five goes to pay taxes. He said that the government was supposed to put a check on taxes, but instead it put a tax on checks."

The speaker concluded with remarks upon the money question, the tariff, and agriculture.

Lost Jerome Boy Acts Fearlessly

WARRFIELD, Aug. 8 (Special to The News)—Searchers who found the 12-year-old Jerome boy, Jerome, at 1:30 A. M. Friday, near Lima creek north of Hill city, were impressed with the boy's presence of mind and fearlessness. Thursday evening, the lad disappeared with several companions, was fishing in Lima creek, but became separated. The rest of the party returned to the camp near the Hunter creek ranger station, near Roscoe about the wrong fork of the stream and walked away from camp. By this time he had a good catch of fish which he carried in a gunny sack. His feet being completely bruised, he sacrificed his fish and improvised moccasins from the sack.

COUNCIL WELCOMES IMPROVEMENT PLAN

Suggestion for Requesting State to Pave Addison Avenue Meets Favor

Suggestion that Twin Falls city council request the state highway department to improve Addison avenue for a distance of one mile to connect the Old Oregon Trail highway with highway route thirty-three at Blue Lakes boulevard, seemed to meet with favor when it was presented at the council's regular meeting last night.

Mr. Swisher, city attorney, was directed to study the proposition and submit a suitable resolution for the council's consideration at its meeting next week. Mr. Swisher, at last night's meeting, urged council to make provision for the state's participation in this undertaking.

Council discussed finances for a long time last night, with reference particularly to the street sprinkling, but postponed definite action to the next meeting.

On account of delinquency of a large proportion of street sprinkling assessments, Anderson, commissioner of streets and waterworks, said a problem is presented whether to increase assessments or to discontinue sprinkling. He suggested a reduction in sprinkling service from 30 to 50 per cent in order to bring up the amount of the assessments to collect within limits of collecting sprinkling fund revenues.

Out of \$10,000 total street sprinkling assessment last year the commissioner said approximately \$1000 is unpaid. Another \$10,000 assessment has been made for street sprinkling this year, on a basis of property frontage on sprinkled streets. The assessment for last year was \$1000 per foot on paved streets and 75 cents per foot on earth or gravel streets.

Cost of sprinkling the streets the past three months totals \$2000, the commissioner reported. Six million gallons of water was applied to the streets during the sprinkling campaign last month, the records showed.

OUTLOOK GOOD FOR CERTIFIED SEEDS

County Agent Tells of Results of Inspections in Salmon Project Fields

Production of certified seed crops, one of the Twin Falls country's most remunerative industries, attracted attention the past few days during second field inspection of alfalfa seeds in those districts where alfalfa seed crops, and final inspection of wheat seed crops.

In the Ferguson and Hollister districts, 1200 acres of certified alfalfa seed in 40 fields ranging in size from 10 to 50 acres each, promise yields of 10 to 12 bushels of seed per acre, according to Harvey S. Hale, Twin Falls county agent, who, with L. J. Grahler, deputy state seed inspector, made a second and final field inspection of seed crops in those districts last week. Alfalfa seed prospects in those districts, Mr. Hale said, are just averaging. Better than usual. Seed pools are set for hay this season, no crop was cut for hay this season, and in other fields where a first cutting of hay was made, the alfalfa prospects are excellent for satisfactory seed crops. He admitted his estimate of yields was conservative, and that alfalfa seed crops in this district had yielded as high as 20 bushels per acre.

The state inspector said good prospects for the North Side, where heavy crops were harvested last year, are as good this year as last.

Certified alfalfa seed commands a premium of 5 to 10 cents per pound, approximately 200 acres of alfalfa wheat is being produced on the Salmon River project for certification this season. The county agent said, "I have seen alfalfa seed crops that will yield, he said, will exceed 60 bushels per acre. There was a big demand for alfalfa seed for the past few years, and premiums ranged from 25 to 50 cents and in some instances as high as \$1.00 per bushel. Among 10 growers' applications for seed wheat certification, the county agent said, three were rejected on account of the alfalfa seed in the fields, and on one account of mixture with other varieties of wheat. On the Salmon River project three growers of Federation, and six of Dicklow wheat applied for certification this season.

Lorenzo Stays, proprietor of a Basque resort on Ninth avenue here, yesterday paid \$100 fine and \$200 costs for illegal possession of a quantity of moonshine whiskey which officers reported finding in the possession of Stays. He pleaded guilty to the possession charge when he was arraigned yesterday before Judge Guy T. Kinney in the probate court, and waived time for receiving sentence.

Giant Whale On Tour Comes Here

Conquered after one of the most thrilling battles in the history of whaling, the famous whale of San Clemente will arrive in Twin Falls on Wednesday, August 10, and will be on exhibition here at Long Beach. The whale is estimated to weigh 1250 pounds, with the heaviest tip of the flukes at 600 pounds.

The huge creature, of a species whose habits and origin are largely unknown here, was captured in southern California. It is more than 30 feet in length and weighs more than 96 tons. When the whale was removed it was found to weigh 1250 pounds, with the heaviest tip of the flukes at 600 pounds.

The whale is the fluke, tail, and its huge carcass has been perfectly preserved by the embalming process. Incidentally, it required more than 26 barrels of embalming fluid to do the work.

Shaving its face with the whale after a battle of several hours with a whaling crew, it was found to be such a perfect type that plans were decided upon to take it on a transcontinental tour.

Shaving its face with the whale on the tour is Captain George Clark, a picturesque sailor who divides his duties between chaperoning the big animal from town to town and telling spectators exciting tales of his own experiences as a whaler half a century ago.
