Mahatma Gandhi Suffers Stroke

LONDON, Oct. 17 (Special) - The Daily Herald tonight quoted "close personal friends" of the Mahatma Gandhi as asserting the first Nationalist leader of India had died of a stroke in a hospital in Yeroda jail at Poota, Bombay.

These friends, who were in London, said the Mahatma was stricken soon after he had called his recent "fast unto death" in the interests of Indian unity, and this was the first serious illness he had had since his visit to A. J. Roca, who was in Yeroda jail.

He repeated his faith to create a new India, but he was unable to control the department, "not on the theory that the gains belong to the department, but that the gains belong to the people," he said.

ROOSEVELT REPLIES TO SENATOR-SMOOT

New Yorker Recalls Making "No-Definite-Commitment on Sugar Tariff"

DENVER, Oct. 17 (Special to The News)—Governor Franklin D. Roosevelt outlined the Democratic tariff proposal today in a letter to Senator Fred C. Canning, Democratic candidate for congress from the second district and in the same time declared he had made "no definite commitment" relative to the sugar tariff.

The Democratic presidential candidate declared that "it seems a pity that Senator Smoot (Lease Reed Smith) of Utah should try to manufacture a false issue and a false impression of what was never acknowledged, too much intelligence to be influenced by that sort of cheap campaign." Governor Roosevelt replied to a letter published here written by him by a La Cava Grande company, Havana, Cuba, which suggested a cut in the sugar tariff of 25 per cent ad valorem, a reduction of some 80 per cent based on the current rate.

The congressional district is largely a sugar beet growing area and the news of that kind is not surprising. Roosevelt's acknowledgment has made the sugar tariff an outstanding issue of the campaign in this state.

One of his letters.

"My letter to La Cava Grande company was in acknowledgment of one of 6,000 letters received while I was in the White House," Roosevelt's telegram recited. "In accordance with my desire previously expressed, I am replying to you today. I signed a letter to La Cava Grande which had been prepared by my staff in the White House. I did not see the original letter."

"My letter said: 'Thank you for your prompt and hearty congratulations. It gives me a great deal of pleasure that my political ideals are understood and appreciated by my friends in neighboring countries.'"

Roosevelt said this letter "has no reference to the tariff schedule upon sugar or any other item. At the time I signed it I had no knowledge of any reference to that tariff in the communication from La Cava Grande."

The candidate pointed out that he has "consistently declined to issue any statement with respect to individual tariff schedules and I am glad to assure you that I have made no commitment whatever respecting the sugar tariff."

Roosevelt's telegram to Canning stated that the declared policy of the Democratic party and its candidates is to establish a "fact-finding tariff commission free from executive interference, to negotiate reciprocal tariff agreements with other nations and finally to call an international economic conference designed to restore international trade and facilitate exchange."

"In other words," the telegram recited, "the Democratic program is specifically intended to eliminate politics from the consideration of tariff question and there is no policy in the United States manufacturing or agriculture that cannot be handled by the tariff commission on this program than upon the Republican policy which has brought our country to the brink of disaster."

MOSCOW STUDENTS RECEIVE AWARDS

President M. G. Neal Announces Scholarships on Anniversary of University

MOSCOW, Oct. 17 (Special to The News)—Scholarship awards for the 1932-33 year at the University of Idaho were announced by President M. G. Neal at the general assembly held last week marking the fortieth anniversary of the opening of the institution.

The scholarship cup awarded annually by Congressman Burton L. French to the men's group achieving the highest scholastic standing was won by the latter-day students of the year, with a rating of 4.710 for the year. Lindsey May was recognized as the best student in the school, with a rating of 4.800. Ridenbush hall was third with 4.400, and Lambda Chi Alpha fourth with 4.24.

The women's scholastic cup was awarded to Forney hall which had an average of 4.310 for the year. The cup was donated by Mrs. A. H. Upham, wife of a former university president. Alpha Phi sorority ranked second in the women's group with 4.770; Gamma Phi Beta third with 4.735, and Kappa Alpha Theta fourth with 4.511.

The cup awarded annually by Alpha Zeta, honorary agriculture fraternity, to the sophomore in agriculture making the highest grade as a freshman, was won by Eldred Lee Higley, with an average of 4.920. An average of 6.000 is perfect.

Ellen M. Jack, Doke, was awarded the Phi-Chi Theta key for scholarship in business. This key is awarded annually to the senior woman in the school of business administration who ranked highest in scholarship during her junior year. Miss Jack's average was 5.314.

The Alpha Kappa Psi award to the senior man in business administration who has made the highest scholastic average during the sophomore and junior years was made to Robert Van Uden, Wallace, his average in this award was 5.788.

THOMAS HELPS OBTAIN EXTENSIONS UPON LOANS

Boise, Oct. 17 (Special to The News)—Privilege of paying only 25 per cent of their debt loans at this time has been secured for wheat farmers by Senator John Thomas.

When it was announced last week that the new 25 per cent ruling would apply only to farmers in drought areas, Senator Thomas immediately wrote a protest to the authorities at Washington, asking that the privilege be extended to Idaho farmers.

"The reply, coming from H. B. Clark, in charge of the seed loans, was to the effect that all farmers whose principal crop is wheat would be included under the 25 per cent provision, after having conferred with this ruling, farmers will be free to dispose of their 1932 crops."

WALTERS TELLS ABOUT TRIPS LUKENS ENJOYED

Boise, Oct. 17 (Special to The News)—A charge that Fred E. Lukens, secretary of state and Republican candidate for re-election, went on an "extended pleasure tour" across the continent and back in the fall of 1928, while attending conferences of secretaries of state and the American Prison Congress, was made today by T. A. Walters, Democratic state chairman in a statement issued by headquarters.

The first convention was in Toronto, Canada, September 20 to 25 and the second at Boston, September 30 to October 10.

"He used an adequate way of going at state expense," Walters' statement said, "but he returned in a round-about manner and over a devious route. He obtained Governor Baird's permission to attend both meetings."

Part of the trip was made in a new automobile purchased by the secretary of state in Flint, Michigan, at a cost to the state of \$1762, the statement said. Three months later his return to the machine was supplied with a new set of tires, the statement related, the cost being \$115.

Cost of the trip was \$220 the statement said.

HELLO, BUDDY

"Nature in the Raw is seldom MILD"

"Nature in the Raw" as portrayed by the old-time artist, Ezra Madam, is depicted by short, cold, bloody scrambles of covered wagon in the Colorado Gold Rush (1858), as described in the National Geographic Magazine. "Nature in the Raw is Seldom Mild"—and raw tobaccos have no place in cigarettes.

No raw tobaccos in Luckies—that's why they're so mild

We buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The facts, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

Seven Steps and a Thousand Miles

It's a long trip from the cream can on the farm to the butter on the consumer's table. Always it's seven steps. Often it's more than a thousand miles. Seldom can long distances be bridged between the producer and the consumer.

These are the steps:

1. Placing—Producers are paid cash company funds must be tied up until the butter is sold and collection made.
2. Assembly and Grading—This is done in about 100 Swift & Company plants.
3. Manufacture—There must be complete sanitation, manufacturing skill, modern machinery and efficient methods.
4. Transportation—A hundred miles or a thousand, the finished product rides the rails to good demand. The trucker is paid by Swift & Company.
5. Refrigerating—Perishable foodstuffs, like butter and dressed poultry and eggs, must be kept constantly under refrigeration.
6. Assumption of Risk—Swift & Company does not know what it will receive next week for butter made today that butter must be sold while still fresh at a price consumers—through their retailers—can and will pay.
7. Selling—Swift & Company's salesmen, selling, make and produce at the same time, cut the costs of selling both.

Most of the Swift produce plants handle poultry and eggs as well as butterfat. With poultry all seven steps must be taken too. Only six are needed with eggs; the hens do all the manufacturing.

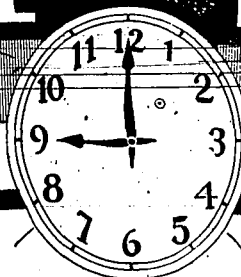

The Swift & Company national market was made by digging up demand wherever it exists in the United States, by advertising brands of high quality "Swift's Brand" Swift's "Twickenham" Swift's "Golden Wonder" Swift's "West Fowl" Swift's "Brookfield Butter" Eggs, Cheese, and many other products.

To operate a national market means much more than mere buying today and selling tomorrow. It means performance of intricate services in the most economical way. Swift & Company in the past year has cut every expense over a half a cent per pound over a period of years. They have averaged less than half a cent a pound of all products sold.

ARTS AND DEPENDENTS, near 2 1/2 minutes. He sprayed them with a liquid for flies. It was too toxic and volatile for bees. He put 1000 in the gun, and it worked better, and was very messy and a fire hazard, and not really adequate. It was not the bees, coming incessantly, would go right through their oil-dripping entrance and about their business as usual. He tried sealing up the entrance with plaster of paris, but every time he plastered up one opening the bees found another. They were still, they began working in to the living room.

WELL-KNOWN ARTESIAN MAN HEARS LAST CALL

ARTESIAN, Oct. 17 (Special to The News)—Thomas Jarvis Hicks, 38, resident of Artesian since 1918, died at his home here, Oct. 17, after a heart attack Sunday morning at his home here. Mr. Hicks had served for some time on the Artesian board of health. He was a prominent cattle man in Wyoming before coming to Artesian. He had been in the hospital since a severe attack of pneumonia in the early spring. He started his course Sunday morning at his home, and died in the chest. Mr. Hicks went to a neighbor's home for help, but found his death when he returned. Mr. Hicks was born November 28, 1878, at Spanish Fork, Utah. He was married to Lettie M. Hicks at Mountain View, Wyoming. To this union were born five children, two daughters and three sons. The girls, Lottie and Dottie, preceded him in death in 1908. Surviving members of the family are his widow, Mrs. Hicks; Lloyd Hicks who is in the navy in California; Floyd and Harrington Hicks, both at home; four grandchildren, Ralph, Arthur, Dave and Harrington Hicks, all in Wyoming; and two sisters, Mrs. Florence Fowler and Mrs. Fred Mitchell, who reside in Utah.

RELIQS OF LOST RACE

ASHLAND, Wis.—(Special to The News)—Archaeologists in this state African colony found 10 skeletons 1000 years old in a cave at Ende Quirens. The bones were scattered the cave as a burial place for the Zargos, who dominated this section in the ninth century.

LAND BOOMS

The American people have probably been occupied, from first to last, more with real estate than with any other business. Land speculation is our national business sport, and was until about a generation ago.

REELS AND FANS

REELS AND FANS
It is all right for wild bees to move if they choose, but this year in several places they seem determined to move into people's houses. In recent weeks the honey bees have been reported that the pollen or fire department has come to the aid of farmers which, returning after a summer's absence, found the house occupied.

Princeton Coach Eulogizes Former Teacher, Coach Stagg

Tigers' Director Finds East Equal To West On Grid

"Columbia Team That Beat Us, 20 to 7, Would Hold Its Own With Any Team in the Big Ten," Says Crisler

By EDWARD J. NEILL (Associated Press Sports Writer) PRINCETON, Oct. 17—Herbert Orrin (Fritz) Crisler sat down to lap his friends to muse over his few weeks at Princeton...

No Difference

"The Columbia team that beat us, 20 to 7, would hold its own with any team in the Big Ten," says Crisler...

"The coaching is similar. The men are better. There is more material in the East is faster, and comes to a college with a better prepared football team."

Greatest Contributor

"His contribution to football," he said, "was the greatest of any man in the history of the sport..."

Crisler's attitude indicated there was no difference at all to him in terms of teams from which he might be called to return as Stagg's successor...

KIMBERLY RESIDENTS GATHER AT SOCIALS

KIMBERLY, Oct. 17 (Special to The News)—An interesting social affair last week was the Ladies' Pioneer club meeting Thursday afternoon at the home of Mrs. C. McVey, where a number of discussions were in order during the business session, presided over by the president, Mrs. H. T. West, who presided the welfare committee to investigate the hot-lunch program in the school building. Mrs. E. Wilson, chairman of the fruit committee for the children's home at Boise, requested members to bring jellies and jams to her home at Kimberly as early as possible. Mrs. Alvah Jay was in charge of the program on "Fruitful Endeavors." Miss Ruth Adams, Miss Ellen Craven, Mrs. H. Teague and Mrs. C. O. Claborn appeared on the program. Mrs. Davis and Mrs. G. N. Noble presided at the tea and coffee service. Mrs. William Madden was appointed to assist in associated charity work.

570,000 ACRES OF AREA FOR WHEAT

In terms of wheat, what is the value per acre of the Twin Falls tract? During the fifteen year period, 1918-1932, had the finest area in Idaho located in the Twin Falls Canal company's annual crop report, been planted in wheat, the return on production would have averaged \$5,535.200 per acre, (\$32.58 per acre) deducting the actual cost of production would have averaged \$5,535.200 per acre, (\$32.58 per acre) even though they may employ the same quality of soil and have available the same quantity of water. Yields greater than 80 bushels per acre have been recorded, and likewise minimum yields of 30 bushels per acre have been noted. The average yield for the entire tract for the 15-year period may be conservatively placed at 45 bushels per acre. The labor involved is very much the same for the maximum and minimum yields. The cost for production of the 15-year period may be conservatively placed at \$1.15 per acre. Years of peak prices are, likewise, the same as the low price periods. The labor, seed and threatening costs are less. Tabulated data indicate that the production cost for the period averaged approximately \$20.00 per acre. The following tabulation shows the price of wheat per bushel as of October 1 for the years indicated: 1918 \$1.08 1919 \$1.03 1920 \$1.42 1921 \$1.23 1922 \$0.98 1923 \$1.10 1924 \$1.30 1925 \$1.36 1926 \$1.22 1927 \$0.98 1928 \$0.92 1929 \$1.15 1930 \$1.15 1931 \$1.10 1932 \$0.98 1933 \$0.92. The average of the above prices for the 15-year period approximates \$1.15 per acre. From the above indicated return of \$32.58 per acre there must necessarily be a net profit of \$31.43 per acre. Depreciation of equipment, and supervision if any. Due allowance for losses from insects, annual profit approximating \$23 per acre for the 15-year period.

BONDHOLDERS MOVE TO ENFORCE CLAIM

Investors in Possession of Outstanding Paving Obligations Call for Payment

Holders of approximately \$80,000 of outstanding Twin Falls local improvement district street paving bonds have set November 15 as the deadline for payment of delinquent paving assessments, and through Edmund A. Egert, special representative of their bondholders' protective committee, they mailed out yesterday approximately 125 statements to owners of property against which there are standing delinquent paving assessments.

These bonds, Mr. Egert said yesterday, are held by many widely scattered, small investors. Many of them are women.

It is not the desire of the committee to make additional charges of 3 per cent penalty and attorneys' fees which would be entailed in foreclosure proceedings, Mr. Egert said, but if payment is not made on or before the date specified, suit must and will be started against the bondholders' rights and interests.

Payment of delinquent assessments to be made to C. M. McEwain, Twin Falls city treasurer. Twin Falls outstanding local improvement district street paving bonds became payable July 1, 1930. Collection of assessments was instituted upon the expiration of bonds which totaled \$102,255, and there was some delay awaiting the courts' decision as to whether available funds should be used to pay outstanding bonds according to their serial numbers, or distributed among the bond holders. The court's decision last July called for pro rata payment and the corporation may either distribute approximately \$27,000 among the holders of the outstanding bonds.

The city in this transaction has levied and collected assessments for the local improvement district, but is not legally liable for payment of the outstanding bonds.

Mr. Egert yesterday expressed appreciation of the cooperation shown by the bondholders by city officials.

Organization Gives Musical Program

Solo will be sung by Fred Ebbel and Mrs. Rose Ebbel. Others taking part are Bishop J. E. Allred, Mrs. J. W. Richards, Mrs. J. E. McBride, Dean Owen, Leroy Arrington and Harry Kirkman.

Limited Extension May be Granted Borrowers

Field inspectors of the Reconstruction Finance corporation are advised that under certain conditions crop loans made by the corporation may be extended upon payment of 25 per cent of the loan and no further demands will be made against producers of this year's crops pending when congress meets. Should no congressional action be taken the duration of the extension is placed at one year.

How ever the extension applies only to producers of small grains and feed loan borrowers and for this reason the relief afforded by the extension in this connection will not be broad. Where other crops are grown in addition to grain the extension is not intended to apply. Those to whom extensions will be granted, according to information reaching Twin Falls, are farmers whose operations are wholly or largely in small grains.

In the case of feed loan borrowers the extension will be a measure designed to give the amount to be repaid at once in small grains, and in the case of other conditions.

Arizona May Admit Apples in Bulk Lots

"It looks as if Arizona will grant permission for bulk shipment of apples from Idaho, for which we have been negotiating," said F. L. Johnson, state commissioner of agriculture, today. The market is limited but every time we can open some place that will give us an opportunity to sell part of our crop, we have gained that much," he continued.

Mr. Johnson said that in spite of low prices a great many apples are being shipped out. He was accompanied on the trip by W. H. Wick, director of plant industry, who was on his way to Shelley to judge fruits at a fair there.
